Attorneys for Plaintiffs

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

JOHN ARMSTRONG, et al.,

Plaintiffs,

v.

GAVIN NEWSOM, et al.,

Defendants.

Case No. C94 2307 CW

**[REDACTED] REPLY
DECLARATION OF GAY
CROTHWAIT GRUNFELD IN
SUPPORT OF PLAINTIFFS' MOTION
TO STOP DEFENDANTS FROM
ASSAULTING, ABUSING, AND
RETALIATING AGAINST PEOPLE
WITH DISABILITIES AND EXHIBITS
1-57a**

Judge: Hon. Claudia Wilken
Date: October 6, 2020
Time: 2:30 p.m.
Ctrm.: Remote

[3618118.1]

Case No. C94 2307 CW

REPLY DECL. OF GAY CROTHWAIT GRUNFELD ISO PLS.' MOTION TO STOP DEFS. FROM
ASSAULTING, ABUSING, & RETALIATING AGAINST PEOPLE W/ DISABILITIES & EXS. 1-57a –
REDACTED

1 I, Gay Crosthwait Grunfeld, declare:

2 1. I am an attorney duly admitted to practice before this Court. I am a partner
3 in the law firm of Rosen Bien Galvan & Grunfeld LLP, counsel of record for Plaintiffs. I
4 have personal knowledge of the facts set forth herein, and if called as a witness, I could
5 competently so testify. I make this reply declaration in support of Plaintiffs' Motion to
6 Stop Defendants from Assaulting, Abusing, and Retaliating Against People With
7 Disabilities.

8 2. I incorporate by reference the following pleadings: my declaration filed
9 February 28, 2020, Docket No. 2922-1 ("Grunfeld RJD Decl."), in support of Plaintiffs'
10 Motion to Stop Defendants from Assaulting, Abusing and Retaliating Against People with
11 Disabilities at R.J. Donovan Correctional Facility ("RJD Motion"), Docket No. 2922; my
12 declaration filed June 3, 2020, Docket No. 2948-1 ("Grunfeld Statewide Decl."), in
13 support of Plaintiffs' Motion to Stop Defendants from Assaulting, Abusing and Retaliating
14 Against Persons with Disabilities ("Statewide Motion," and collectively, with the RJD
15 Motion, "the Motions"), Docket No. 2948; my declaration filed July 15, 2020, Docket No.
16 2999-2 ("Grunfeld PI Decl."), in support of Plaintiffs' Response in Support of Preliminary
17 Injunction ("PI Resp."), Docket No. 2999; my declaration filed July 29, 2020, Docket No.
18 3024-1 ("Grunfeld Reply Decl."), in support of Plaintiffs' Reply in Support of the RJD
19 Motion, Docket No. 3024 ("RJD Reply"); my declaration filed August 25, 2020, Docket
20 No. 3052-1 ("Grunfeld New Material Reply Decl."), in support of Plaintiffs' Reply to
21 Defendants' Response to New Material in Plaintiffs' Reply in support of RJD Motion and
22 Renewed Request to Rescind RVRs Against Inmate 2 ("New Material Reply"), my
23 declaration filed September 10, 2020, Docket No. 3074-4 ("Grunfeld Protective Order
24 Decl."), in support of Plaintiffs' Motion for Protective Order regarding Depositions of
25 *Armstrong* Class Members ("Protective Order Motion"). Attached hereto as an Appendix
26 is an Index of the Exhibits attached to this declaration.

In Total, Plaintiffs Have Filed 179 Declarations from 148 Declarants Regarding Abuse and Retaliation They Have Experienced or Witnessed in 12 Different CDCR Prisons

3. Plaintiffs have now submitted 179 separate declarations from people with disabilities regarding abuse they have experienced or witnessed at twelve different CDCR prisons, broken down as follows:

(a) In support of the RJD Motion, Plaintiffs filed fifty-four declarations. *See* Decl. of Michael Freedman in Supp. of RJD Mot. (“Freedman RJD Decl.”), Docket Nos. 2922-2 to 5, Exs. 6-58, 88.

(b) In support of the Statewide Motion, Plaintiffs filed fifty-eight declarations. *See* Decl. of Michael Freedman in Supp. of Statewide Mot. (“Freedman Statewide Decl.”), Docket No. 2947-5, Exs. 3-5, 9-63.

(c) In support of Plaintiffs’ Ex Parte Motion for Temporary Restraining Order (“TRO Motion”), Docket. No. 2970, filed July 1, 2020, Plaintiffs filed three declarations. *See* Decl. of Michael Freedman in Supp. of TRO Mot. (“Freedman TRO Decl.”), Docket 2970-1, Exs. 3, 5, 9.

(d) In support of the PI Response, Plaintiffs filed five declarations. *See* Decl. of Michael Freedman in Supp. of PI Resp. (“Freedman PI Decl.”), Docket No. 2999-1, Exs. 1-4, 11.

(e) In support of Plaintiffs’ RJD Reply, Plaintiffs filed six declarations. *See* Grunfeld Reply Decl., Exs. H, M-P; Reply Decl. of Penny Godbold in Supp. of RJD Mot., Ex. B.

(f) In support of Plaintiffs’ New Material Reply, Plaintiffs filed two declarations. *See* Grunfeld New Material Reply Decl., Exs. A-B.

(g) In support of Plaintiffs’ Protective Order Motion, Plaintiffs filed three declarations. *See* Grunfeld Protective Order Decl., Exs. R-T.

(h) In support of Plaintiffs’ Reply in support of the Statewide Motion, Plaintiffs are submitting herewith forty-eight new declarations. *See* Exs. 2-18a; 20-36a; 41-43; 50-52; 54-59a; 68-70a; 81-83.

4. In total, one hundred and forty-eight people with disabilities have submitted declarations regarding misconduct they experienced or witnessed at twelve CDCR prisons: RJD, California State Prison—Los Angeles County (“LAC”), California State Prison – Corcoran (“COR”), Kern Valley State Prison (“KVSP”), California Correctional Institution (“CCI”), California Substance Abuse Treatment Facility (“SATF”), California Institution for Women (“CIW”), California State Prison—Sacramento (“SAC”), California Medical Facility (“CMF”), Correctional Training Facility (“CTF”), Mule Creek State Prison (“MCSP”), and [REDACTED]. The reason there are more declarations than declarants is because some declarants have filed more than one declaration in support of Plaintiffs’ filings.

5. Since Plaintiffs’ counsel filed the Statewide Motion on June 3, 2020, we have continued to gather evidence demonstrating that CDCR, as a system, is unsafe for and violates the rights of people with disabilities. These declarations show that the problems identified by this Court at RJD are not limited to one prison or a few bad apples among the custody staff. The new declarations show that custody staff across the state are assaulting, abusing, and retaliating against people with disabilities. Many of the incidents catalogued in the attached declarations occurred after the filing of the Statewide Motion on June 3, 2020.

6. Attached to this declaration are fifty-one¹ additional declarations from incarcerated people regarding staff misconduct they have experienced or witnessed at CDCR prisons. Three of these additional declarations describe further misconduct and retaliation at RJD, all of which occurred after Plaintiffs filed the RJD Reply. Thirteen declarations describe misconduct at LAC. Eighteen declarations describe misconduct at COR. Seven declarations describe misconduct at KVSP. Two declarations describe misconduct at SATF. Three declarations describe misconduct at CIW. Two declarations

¹ Three of these declarations have already been filed with the Court in support of Plaintiffs’ Protective Order Motion.

1 describe misconduct at CMF. One declaration describes misconduct at CTF. Two
2 declarations describe misconduct at MCSP. Two declarations describe misconduct at
3 SAC. Two declarations describe misconduct at [REDACTED]. The reason there are more
4 declarations by institution (fifty-five) than declarations overall (fifty-one) is because some
5 declarations describe misconduct at multiple prisons, and therefore are double counted
6 when considering the number of declarations that describe misconduct at each institution.
7 All of these declarations were obtained following the filing of the Statewide Motion.

8 7. On March 17, 2020, counsel for CDCR notified Plaintiffs' counsel in an
9 email that the Secretary of CDCR had suspended Plaintiffs' counsel's visits to CDCR
10 institutions in response to the COVID-19 pandemic. On March 24, 2020, Governor
11 Newsom issued Executive Order N-36-20 suspending all visitation into CDCR institutions.
12 Because of these policies and the ongoing COVID-19 pandemic, Plaintiffs' counsel was
13 unable to meet with the declarants in person for the declarants to sign their declarations.
14 Instead, Plaintiffs' counsel spoke with each declarant by telephone.

15 8. Furthermore, incarcerated people who have complained of misconduct have
16 experienced pervasive retaliation, as reflected in many of the declarations filed with this
17 Court. Accordingly, Plaintiffs' counsel was not willing to endanger the welfare of the
18 declarants by sending declarations into the prisons for the declarants to sign and then
19 return by mail. Given what Plaintiffs' counsel has learned in the course of this
20 investigation, trusting officers not to read legal mail from our office was too risky.
21 Instead, Plaintiffs' counsel read the contents of each person's declaration, verbatim, to the
22 declarant by telephone during a confidential telephone call. Each declarant then orally
23 confirmed that the contents of the declaration were true and correct. Each declarant also
24 orally granted Plaintiffs' counsel permission to affix his or her signature to the declaration
25 and to file the declaration in this matter.

26 9. Plaintiffs' counsel has previously provided copies of the fifty-one
27 declarations to Defendants, as well as the *Coleman* Special Master and a representative of
28 the *Plata* receiver, through a secure file sharing website. Plaintiffs' counsel shared three

1 declarations on July 10, 2020, six declarations on August 21, 2020, four declarations on
 2 August 28, 2020, nine declarations on September 1, 2020, nine declarations on
 3 September 4, 2020, fifteen declarations on September 21, 2020, one declaration on
 4 September 22, 2020, three declarations on September 23, 2020, and one declaration on
 5 September 24, 2020. The September 21, 22, and 23, 2020 uploads included prisons not
 6 previously represented among the declarations submitted. Consistent with prior practice,
 7 at the time of uploading the declarations, I sent letters to Defendants and their counsel, true
 8 and correct copies of which are attached hereto as **Exhibit 1**, with a variety of admonitions
 9 designed to protect the declarants from retaliation.

10 **Defendants' Employees Continue to Abuse the RJD Witnesses Even After the Court**
 11 **Ordered their Transfer Due to Defendants' Inability to Protect Them at RJD**

12 10. Attached hereto as **Exhibit 2** is a true and correct copy of a fifth
 13 supplemental declaration from *Armstrong* and *Coleman* class member [REDACTED]
 14 [REDACTED] DPO, EOP, 69 years old), signed on September 23, 2020.

15 11. Attached hereto as **Exhibit 3** is a true and correct copy of a fourth
 16 supplemental declaration from *Coleman* class member [REDACTED], EOP, 56 years
 17 old), signed on September 23, 2020.

18 12. Attached hereto as **Exhibit 4** and **Exhibit 5** are true and correct copies of
 19 screen recordings of video surveillance videos corroborating Mr. [REDACTED] and Mr. [REDACTED]'s new
 20 declarations.

21 **Additional Declarations Documenting Assaults, Abuse and Retaliation at LAC**

22 13. The declarations attached hereto as **Exhibits 6 to 18a** describe misconduct
 23 the declarants experienced or witnessed at LAC. Nearly all of the misconduct described in
 24 these declarations occurred after the filing of the Statewide Motion on June 3, 2020.

25 14. Attached hereto as **Exhibit 6** is a true and correct copy of a declaration from
 26 *Armstrong* and *Coleman* class member [REDACTED], DNH, mobility and
 27
 28

1 vision disabilities,² EOP, 47 years old), signed on September 8, 2020. Attached hereto as
 2 **Exhibit 6a** are true and correct copies of excerpts of documents corroborating
 3 Mr. [REDACTED]'s declaration.

4 15. Attached hereto as **Exhibit 7** is a true and correct copy of a declaration from
 5 *Coleman* class member [REDACTED], EOP, 60 years old), signed on July 6,
 6 2020. Attached hereto as **Exhibit 7a** are true and correct copies of excerpts of documents
 7 corroborating Mr. [REDACTED]'s declaration.

8 16. Attached hereto as **Exhibit 8** is a true and correct copy of a declaration from
 9 *Armstrong* and *Coleman* class member [REDACTED] 20, DPM, DPV, EOP, 54
 10 years old), signed on August 26, 2020. Attached hereto as **Exhibit 8a** are true and correct
 11 copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

12 17. Attached hereto as **Exhibit 9** is a true and correct copy of a declaration from
 13 *Coleman* class member [REDACTED], EOP, 37 years old), signed on September
 14 1, 2020. Attached hereto as **Exhibit 9a** are true and correct copies of excerpts of
 15 documents corroborating Mr. [REDACTED]'s declaration.

16 18. Attached hereto as **Exhibit 10** is a true and correct copy of a declaration
 17 from *Coleman* class member [REDACTED], ICF, 28 years old), signed on July
 18 14, 2020. Attached hereto as **Exhibit 10a** are true and correct copies of excerpts of
 19 documents corroborating Mr. [REDACTED]'s declaration.

20 19. Attached hereto as **Exhibit 11** is a true and correct copy of a declaration
 21 from *Coleman* class member [REDACTED], CCCMS, 27 years old), signed on
 22 July 30, 2020. Attached hereto as **Exhibit 11a** are true and correct copies of excerpts of
 23 documents corroborating Mr. [REDACTED]'s declaration.

24 20. Attached hereto as **Exhibit 12** is a true and correct copy of a supplemental
 25 declaration from *Armstrong* and *Coleman* class member [REDACTED], DNH,

26
 27
 28 ² Mr. [REDACTED]'s declaration describes that he has mobility and vision disabilities that are
 not verified by CDCR.

1 CCCMS, 42 years old), signed on August 18, 2020. Mr. [REDACTED]'s first declaration was
 2 signed on April 21, 2020 and filed in support of the Statewide Motion. *See* Freedman
 3 Statewide Decl., Ex. 34.

4 21. Attached hereto as **Exhibit 13** is a true and correct copy of a declaration
 5 from *Armstrong* and *Coleman* class member [REDACTED], DNH, EOP, 34
 6 years old), signed on September 4, 2020. Attached hereto as **Exhibit 13a** are true and
 7 correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

8 22. Attached hereto as **Exhibit 14** is a true and correct copy of a declaration
 9 from *Coleman* class member [REDACTED], EOP, 36 years old), signed on
 10 July 31, 2020. Attached hereto as **Exhibit 14a** are true and correct copies of excerpts of
 11 documents corroborating Mr. [REDACTED]'s declaration.

12 23. Attached hereto as **Exhibit 15** is a true and correct copy of a declaration
 13 from *Coleman* class member [REDACTED], CCCMS,³ 43 years old), signed on
 14 July 21, 2020. Attached hereto as **Exhibit 15a** are true and correct copies of excerpts of
 15 documents corroborating Mr. [REDACTED]'s declaration.

16 24. Attached hereto as **Exhibit 16** is a true and correct copy of a declaration
 17 from *Coleman* class member [REDACTED], EOP, 42 years old), signed on
 18 August 6, 2020. Attached hereto as **Exhibit 16a** are true and correct copies of excerpts of
 19 documents corroborating Mr. [REDACTED]'s declaration. Mr. [REDACTED]'s declaration also describes
 20 staff misconduct he experienced at KVSP and SAC.

21 25. Attached hereto as **Exhibit 17** is a true and correct copy of a declaration
 22 from *Coleman* class member [REDACTED], CCCMS, 31 years old), signed
 23 on August 14, 2020. Mr. [REDACTED]'s declaration was previously filed in support of
 24 Plaintiffs' Protective Order Motion. *See* Grunfeld Protective Order Decl., Ex. S. Attached
 25 hereto as **Exhibit 17a** are true and correct copies of excerpts of documents corroborating
 26

27 ³ Mr. [REDACTED]'s declaration describes that, since the events described in his declaration, he has
 28 been discharged from the CCCMS level of care and is no longer a participant in the Mental
 Health Services Delivery System ("MHSDS").

1 Mr. [REDACTED]' declaration. Mr. [REDACTED]' declaration also describes staff misconduct at
2 COR.

3 26. Attached hereto as **Exhibit 18** is a true and correct copy of a supplemental
4 declaration from *Armstrong* and *Coleman* class member [REDACTED], DNH,
5 CCCMS, 52 years old), signed on July 22, 2020. Mr. [REDACTED]'s declaration was previously
6 filed in support of Plaintiffs' Protective Order Motion. See Grunfeld Protective Order
7 Decl., Ex. T. Attached hereto as **Exhibit 18a** are true and correct copies of excerpts of
8 documents corroborating Mr. [REDACTED] declaration. Mr. [REDACTED]'s first declaration was
9 signed on April 21, 2020 and filed in support of the Statewide Motion. See Freedman
10 Statewide Decl., Ex. 51.

11 **Defendants Still Have Not Investigated or Addressed Staff Misconduct at LAC**

12 27. In the Declaration of Thomas Nolan filed in support of the Statewide Motion
13 on June 3, 2020, Dkt. No. 2948-3, Plaintiffs' counsel represented that CDCR had
14 responded to 34 of the 88 discrete allegations raised by Plaintiffs' counsel in either
15 (a) Defendants' written responses to Plaintiffs' tour reports or (b) in 15 individual
16 allegation response letters. See Nolan Decl., Exs. P-DD. That number was in error.
17 Instead, as of June 3, 2020, Defendants had *acknowledged* 34 of the 88 discrete allegations
18 raised by Plaintiffs' counsel in the form of acknowledgment letters, but had only provided
19 substantive responses to 9 of the 88 allegations raised by Plaintiffs' counsel. Since June 3,
20 2020, Plaintiffs' counsel has received substantive responses to 24 of the 88 allegations
21 raised by Plaintiffs' counsel. In total, Defendants have responded substantively to 33 of
22 the 88 allegations. Defendants have not provided a substantive response to 55 outstanding
23 allegations.

24 28. True and correct copies of the 24 response letters sent by Defendants'
25 counsel after June 3, 2020 are attached hereto as **Exhibit 19**.

26 29. In only one of these response letters did Defendants represent that the
27 allegations might have merit and would be referred to the Office of Internal Affairs
28

1 (“OIA”) for possible investigation.⁴ *Id.* at 66. After the Office of Internal Affairs
 2 conducted its investigation, some allegations of misconduct were sustained against one of
 3 the officers involved. *See* Schwartz Statewide Reply Decl., ¶ 131. For the other 23
 4 allegations to which Defendants have responded, Defendants found that the allegations
 5 were unfounded.

6 **Additional Declarations Documenting Assaults, Abuse and Retaliation at COR**

7 30. The declarations attached hereto as **Exhibits 20 to 36a** describe misconduct
 8 the declarants experienced or witnessed at COR.

9 31. Attached hereto as **Exhibit 20** is a true and correct copy of a declaration
 10 from *Armstrong* and *Coleman* class member [REDACTED], mobility disability,⁵
 11 EOP, 49 years old), signed on August 12, 2020. Attached hereto as **Exhibit 20a** are true
 12 and correct copies of excerpts of documents corroborating Mr. [REDACTED]’ declaration.

13 32. Attached hereto as **Exhibit 21** is a true and correct copy of a declaration
 14 from *Coleman* class member [REDACTED] CCCMS, 48 years old), signed on June
 15 24, 2020. Attached hereto as **Exhibit 21a** are true and correct copies of excerpts of
 16 documents corroborating Mr. [REDACTED]’s declaration.

17 33. Attached hereto as **Exhibit 22** is a true and correct copy of a declaration
 18 from *Armstrong* and *Coleman* class member [REDACTED], DPO, CCCMS, 57
 19 years old), signed on September 2, 2020.

20 34. Attached hereto as **Exhibit 23** is a true and correct copy of a declaration
 21 from *Coleman* class member [REDACTED], EOP, 29 years old), signed on
 22 August 28, 2020.

23 35. Attached hereto as **Exhibit 24** is a true and correct copy of a declaration
 24

25 ⁴ Defendants have also referred one additional case about which Plaintiffs advocated to the
 26 OIA, although Defendants have not yet responded to Plaintiffs’ advocacy letter. *See* Reply
 27 Declaration of Jeffrey A. Schwartz, Ph.D. in Support of Statewide Motion, filed herewith,
 (“Schwartz Statewide Reply Decl.”), ¶¶ 193-221; Nolan Statewide Decl., Ex. O. The
 28 allegations in that case were not sustained by the Hiring Authority. *Id.* ¶ 221.

⁵ Mr. [REDACTED]’ declaration describes that he has a mobility disability that is not verified by
 CDCR.

1 from *Coleman* class member [REDACTED], CCCMS, 37 years old), signed on
 2 June 26, 2020. Attached hereto as **Exhibit 24a** are true and correct copies of excerpts of
 3 documents corroborating Mr. [REDACTED]'s declaration.

4 36. Attached hereto as **Exhibit 25** is a true and correct copy of a declaration
 5 from *Armstrong* and *Coleman* class member [REDACTED], DPM, EOP, 49
 6 years old), signed on June 15, 2020. Attached hereto as **Exhibit 25a** are true and correct
 7 copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

8 37. Attached hereto as **Exhibit 26** is a true and correct copy of a declaration
 9 from *Coleman* class member [REDACTED] CCCMS, 49 years old), signed on
 10 August 28, 2020. Attached hereto as **Exhibit 26a** are true and correct copies of excerpts of
 11 documents corroborating Mr. [REDACTED]'s declaration.

12 38. Attached hereto as **Exhibit 27** is a true and correct copy of a declaration
 13 from *Coleman* class member [REDACTED], EOP, 39 years old), signed on
 14 September 3, 2020. Attached hereto as **Exhibit 27a** are true and correct copies of excerpts
 15 of documents corroborating Mr. [REDACTED]'s declaration. Mr. [REDACTED]'s declaration also
 16 describes staff misconduct at SATF.

17 39. Attached hereto as **Exhibit 28** is a true and correct copy of a declaration
 18 from *Armstrong* and *Coleman* class member [REDACTED], mobility disability,⁶
 19 EOP, 46 years old), signed on September 18, 2020. Attached hereto as **Exhibit 28a** are
 20 true and correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

21 40. Attached hereto as **Exhibit 29** is a true and correct copy of a declaration
 22 from *Armstrong* and *Coleman* class member [REDACTED], DPO, CCCMS, 60
 23 years old), signed on June 19, 2020. Attached hereto as **Exhibit 29a** are true and correct
 24 copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

25 41. Attached hereto as **Exhibit 30** is a true and correct copy of a declaration
 26

27 ⁶ Mr. [REDACTED] declaration describes that he uses knee braces and compression stockings
 28 and has a mobility disability that is not verified by CDCR.

1 from *Armstrong* and *Coleman* class member [REDACTED], DPM,
 2 EOP, 44 years old), signed on August 6, 2020. Attached hereto as **Exhibit 30a** are true
 3 and correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

4 42. Attached hereto as **Exhibit 31** is a true and correct copy of a declaration
 5 from *Armstrong* and *Coleman* class member [REDACTED], mobility
 6 disability,⁷ CCCMS, 44 years old), signed on July 2, 2020. Attached hereto as
 7 **Exhibit 31a** are true and correct copies of excerpts of documents corroborating
 8 Mr. [REDACTED]' declaration.

9 43. Attached hereto as **Exhibit 32** is a true and correct copy of a declaration
 10 from *Coleman* class member [REDACTED], EOP, 67 years old), signed on July 8,
 11 2020.

12 44. Attached hereto as **Exhibit 33** is a true and correct copy of a declaration
 13 from *Armstrong* and *Coleman* class member [REDACTED], DPM, CCCMS, 51
 14 years old), signed on June 15, 2020. Attached hereto as **Exhibit 33a** are true and correct
 15 copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

16 45. Attached hereto as **Exhibit 34** is a true and correct copy of a declaration
 17 from *Coleman* class member [REDACTED], CCCMS, 43 years old), signed on
 18 July 31, 2020. Attached hereto as **Exhibit 34a** are true and correct copies of excerpts of
 19 documents corroborating Mr. [REDACTED]'s declaration.

20 46. Attached hereto as **Exhibit 35** is a true and correct copy of a declaration
 21 from *Coleman* class member [REDACTED], ACUTE, 29 years old), signed on
 22 June 29, 2020. Attached hereto as **Exhibit 35a** are true and correct copies of excerpts of
 23 documents corroborating Mr. [REDACTED]'s declaration.

24 47. Mr. [REDACTED]' declaration, attached previously as **Exhibit 17**, describes
 25 misconduct at LAC and COR. *See* Ex. 17, ¶¶ 8-21.

26
 27
 28 ⁷ Mr. [REDACTED] declaration describes that he walks with a cane and has a mobility
 disability that is not verified by CDCR.

48. Attached hereto as **Exhibit 36** is a true and correct copy of a declaration from *Coleman* class member [REDACTED], EOP, 27 years old), signed on September 23, 2020. Attached hereto as **Exhibit 36a** are true and correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

Plaintiffs' Counsel Has Raised Concerns about Assaults, Abuse, and Retaliation Against Class Members at COR in Multiple Reports and Letters

49. In support of the RJD Motion, Plaintiffs' counsel filed two letters from Plaintiffs' counsel to Defendants regarding assaults, abuse, and retaliation against people with disabilities at COR. *See* Freedman RJD Decl., Exs. 81-82. Defendants have not yet responded to those letters.

50. Attached hereto as **Exhibit 37** is a true and correct excerpted copy of Plaintiffs' Report regarding the November 2019 *Armstrong* monitoring tour of COR, issued on June 29, 2020.

51. Attached hereto as **Exhibit 38** is a true and correct excerpted copy of a February 21, 2020 letter with exhibits from co-counsel Patrick Booth of the Prison Law Office to Defendants' counsel Russa Boyd titled "*Armstrong* Advocacy Letter [REDACTED], COR" regarding disability-related misconduct at COR.

52. Attached hereto as **Exhibit 39** is a true and correct excerpted copy of a June 8, 2020 letter with exhibits from Mr. Booth and co-counsel Margot Mendelson of the Prison Law office to Defendants' counsel Nicholas Weber titled "*Coleman* Advocacy Letter [REDACTED], KVSP" regarding disability-related misconduct at KVSP.

53. Attached hereto as **Exhibit 40** is a true and correct excerpted copy of an August 27, 2020 letter with exhibits omitted from Mr. Booth and Ms. Mendelson to Mr. Weber titled "*Coleman* Advocacy Letter [REDACTED], KVSP." Enclosed within Exhibit 40 is a true and correct copy of a June 8, 2020 letter from co-counsel Don Specter of the Prison Law Office to CDCR Secretary Ralph Diaz regarding "Corcoran Staff Misconduct."

54. Defendants have not responded to Plaintiffs' November 2019 *Armstrong* Monitoring Tour Report, nor any of the five individual letters sent by Plaintiffs' counsel regarding assaults, abuse, retaliation, and denial of access to the grievance process at COR.

Declarations Documenting Assaults, Abuse and Retaliation at CIW

55. Attached hereto as **Exhibit 41** is a declaration from *Armstrong* and *Coleman* class member [REDACTED], DLT, CCCMS, 39 years old), signed on September 22, 2020. Attached hereto as **Exhibit 41a** are true and correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

56. Attached hereto as **Exhibit 42** is a declaration from *Coleman* class member [REDACTED], CCCMS, 39 years old), signed on September 17, 2020. Attached hereto as **Exhibit 42a** are true and correct copies of excerpts of documents corroborating Ms. [REDACTED]'s declaration.

57. Attached hereto as **Exhibit 43** is a declaration from *Armstrong* and *Coleman* class member [REDACTED], DNH, CCCMS, 28 years old), signed on September 21, 2020.

Plaintiffs' Counsel Has Raised Concerns about Assaults, Abuse, and Retaliation Against Class Members at CIW in Multiple Reports and Letters

58. In support of the RJD Motion, Plaintiffs' counsel filed a January 24, 2020 letter from Plaintiffs' counsel to Defendants regarding assaults, abuse, and retaliation against people with disabilities at CIW. *See* Freedman RJD Decl., Ex. 80. Attached hereto as **Exhibit 44** is a true and correct copy of a response to that letter dated January 31, 2020 from Robin Stringer, CDCR Office of Legal Affairs, to Plaintiffs' counsel titled "CIW: Non Class Action Allegations." Defendants characterized the allegations raised in the January 24, 2020 letter as "non-class action allegations." *See* Ex. 44. Defendants have not yet provided a substantive response to the January 24, 2020 letter.

59. Attached hereto as **Exhibit 45** is a true and correct excerpted copy of Plaintiffs' Report regarding allegations of staff misconduct raised during the December 2016 *Armstrong* monitoring tour of CIW, issued on February 7, 2017.

60. Attached hereto as **Exhibit 46** are true and correct excerpted copies of Defendants' Responses to Plaintiffs' Report regarding the December 2016 *Armstrong* monitoring tour of CIW, issued on June 7, 2017 and October 2, 2017. In the June 7, 2017 response, Defendants did not respond to the five allegations of misconduct raised by Plaintiffs' counsel. They stated that "CIW takes PLO's allegations of staff misconduct very seriously and is in the process of investigating these allegations listed above and will follow Department policy on any employee discipline matters." On October 2, 2017, Defendants sent a letter responding substantively to one out of the five allegations of staff misconduct raised in the monitoring tour report. They have yet to provide substantive responses to any of the other four allegations.

61. Attached hereto as **Exhibit 47** is a true and correct copy of Plaintiffs' Report regarding allegations of staff misconduct raised during the December 2017 *Armstrong* monitoring tour of CIW, issued on March 9, 2018. This report is separate from the main *Armstrong* Monitoring Tour Report.

62. Attached hereto as **Exhibit 48** is a true and correct excerpted copy of Defendants' Response to Plaintiffs' Report regarding the December 2017 *Armstrong* monitoring tour of CIW, dated August 14, 2018 and issued by Defendants on August 20, 2018.

63. Attached hereto as **Exhibit 49** is a true and correct excerpted copy of an article published by KQED, dated November 14, 2019, titled "#MeToo Behind Bars: Records Shed Light on Sexual Abuse Inside State Women's Prisons." According to the article, "[i]n 2017 alone, three officers at the California Institution for Women in San Bernardino County had sexual contact with inmates in or near their housing units."

Declarations Documenting Assaults, Abuse and Retaliation at CMF

64. The declarations attached hereto as **Exhibits 50 to 51a** describe misconduct the declarants experienced or witnessed at CMF.

65. Attached hereto as **Exhibit 50** is a true and correct copy of a declaration from *Armstrong* and *Coleman* class member [REDACTED], DPW, DPV,

1 EOP, 55 years old), signed on September 2, 2020. Attached hereto as **Exhibit 50a** are true
2 and correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

3 66. Attached hereto as **Exhibit 51** is a true and correct copy of a declaration
4 from *Coleman* class member [REDACTED], ICF, 23 years old), signed on May
5 19, 2020. Attached hereto as **Exhibit 51a** are true and correct copies of excerpts of
6 documents corroborating Mr. [REDACTED]'s declaration.

7 **Assaults, Abuse and Retaliation at CTF**

8 67. Attached hereto as **Exhibit 52** is a declaration from *Armstrong* class member
9 [REDACTED], DNM, 65 years old), signed on September 3, 2020.

10 68. Attached hereto as **Exhibit 53** is a true and correct copy of an email, sent on
11 August 20, 2020, from co-counsel Sara Norman of the Prison Law Office to then Acting
12 Secretary of CDCR Ralph Diaz and Connie Gipson. The email describes an incident of
13 staff misconduct that occurred at CTF on July 20, 2020 in which, “dozens of Black people
14 housed in CTF were roughly pulled from their cells, placed in flexicuffs/zip ties with their
15 arms behind their backs, and brought to the dining hall ... Several people said they were
16 beaten on the way to the dining hall, despite being restrained ... Some said they heard staff
17 use racial slurs and taunts such as “Black lives don’t f—g matter” and “We don’t care if
18 you n—s catch coronavirus.” *Id.*

19 **Additional Declarations Regarding Assaults, Abuse and Retaliation at KVSP**

20 69. The declarations attached hereto as **Exhibits 54 to 59a** describe misconduct
21 the declarants experienced or witnessed at KVSP.

22 70. Attached hereto as **Exhibit 54** is a true and correct copy of a declaration
23 from *Armstrong* and *Coleman* class member [REDACTED], DNH, CCCMS, 49
24 years old), signed on September 3, 2020. Attached hereto as **Exhibit 54a** are true and
25 correct copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

26 71. Attached hereto as **Exhibit 55** is a true and correct copy of a declaration
27 from *Coleman* class member [REDACTED], CCCMS, 28 years old), signed
28 on August 28, 2020. Attached hereto as **Exhibit 55a** are true and correct copies of

1 excerpts of documents corroborating Mr. [REDACTED]'s declaration.

2 72. Attached hereto as **Exhibit 56** is a true and correct copy of a declaration
3 from *Coleman* class member [REDACTED], EOP, 23 years old), signed on June 17,
4 2020. Attached hereto as **Exhibit 56a** are true and correct copies of excerpts of documents
5 corroborating Mr. [REDACTED]'s declaration.

6 73. Attached hereto as **Exhibit 57** is a true and correct copy of a declaration
7 from *Armstrong* and *Coleman* class member [REDACTED], DNM, EOP. 51 years
8 old), signed on August 24, 2020. Attached hereto as **Exhibit 57a** are true and correct
9 copies of excerpts of documents corroborating Mr. [REDACTED]'s declaration.

10 74. Attached hereto as **Exhibit 58** is a true and correct copy of a declaration
11 from *Armstrong* and *Coleman* class member [REDACTED], mobility
12 disability,⁸ CCCMS, 56 years old), signed on September 24, 2020. Attached hereto as
13 **Exhibit 58a** are true and correct copies of excerpts of documents corroborating
14 Mr. [REDACTED]'s declaration.

15 75. Attached hereto as **Exhibit 59** is a true and correct copy of a declaration
16 from *Coleman* class member [REDACTED], CCCMS, 29 years old), signed
17 on August 24, 2020. Attached hereto as **Exhibit 59a** are true and correct copies of
18 excerpts of documents corroborating Mr. [REDACTED]'s declaration.

19 76. Mr. [REDACTED]'s declaration, attached previously as **Exhibit 16**, describes
20 misconduct at KVSP. *See* Ex. 16, ¶¶ 8-14.

21 **Plaintiffs' Counsel Has Raised Concerns about Assaults, Abuse, and Retaliation**
22 **Against Class Members at KVSP in Multiple Reports**

23 77. Attached hereto as **Exhibit 60** is a true and correct excerpted copy of
24 Plaintiffs' Report regarding the December 2015 *Armstrong* document-review only
25 monitoring tour of KVSP, issued on January 12, 2016.

26
27
28 ⁸ Mr. [REDACTED] describes in his declaration that he has issues with his spine, uses a back and
knee brace, and has a mobility disability that is not verified by CDCR.

1 78. Attached hereto as **Exhibit 61** is a true and correct excerpted copy of
2 Plaintiffs' Report regarding the August 2016 *Armstrong* monitoring tour of KVSP, issued
3 on October 5, 2016.

4 79. Attached hereto as **Exhibit 62** is a true and correct excerpted copy of
5 Defendants' Response to Plaintiffs' Report regarding the August 2016 *Armstrong*
6 monitoring tour of KVSP, dated May 12, 2017 and issued by Defendants on May 22, 2017.

7 80. Attached hereto as **Exhibit 63** is a true and correct excerpted copy of
8 Plaintiffs' Report regarding the June 2017 *Armstrong* monitoring tour of KVSP, issued on
9 July 14, 2017.

10 81. Attached hereto as **Exhibit 64** is a true and correct excerpted copy of
11 Defendants' Response to Plaintiffs' Report regarding the June 2017 *Armstrong* monitoring
12 tour of KVSP, dated January 31, 2018 and issued by Defendants on February 21, 2018.

13 82. Attached hereto as **Exhibit 65** is a true and correct excerpted copy of
14 Plaintiffs' Report regarding the August 2018 *Armstrong* monitoring tour of KVSP, issued
15 on March 1, 2019.

16 83. Attached hereto as **Exhibit 66** is a true and correct excerpted copy of
17 Defendants' Response to Plaintiffs' Report regarding the August 2018 *Armstrong*
18 monitoring tour of KVSP, dated August 5, 2019 and issued by Defendants on August 13,
19 2019.

20 **Declarations Regarding Assaults, Abuse and Retaliation at MCSP**

21 84. The declarations attached hereto as **Exhibits 67 to 68a** describe misconduct
22 the declarants experienced or witnessed at MCSP.

23 85. All of the misconduct described in these declarations occurred after the filing
24 of the Statewide Motion on June 3, 2020.

25 86. Attached hereto as **Exhibit 67** is a declaration from *Armstrong* and *Coleman*
26 class member [REDACTED], DPM, DNH, EOP, 59 years old), signed on
27 September 3, 2020. Attached hereto as **Exhibit 67a** are true and correct copies of excerpts
28 of documents corroborating Mr. [REDACTED]'s declaration.

87. Attached hereto as **Exhibit 68** is a declaration from *Coleman* and *Clark* class member [REDACTED], EOP, DD2, 34 years old), signed on September 17, 2020.

Attached hereto as **Exhibit 68a** are true and correct copies of excerpts of documents corroborating Mr. [REDACTED]' declaration.

Declarations Regarding Assaults, Abuse and Retaliation at SAC

88. The declarations attached hereto as **Exhibits 69** to **69a** describe misconduct the declarants experienced or witnessed at SAC. Nearly all of the misconduct described in these declarations occurred after the filing of the Statewide Motion on June 3, 2020.

89. Attached hereto as **Exhibit 69** is a declaration from *Armstrong* and *Coleman* class member [REDACTED], mobility disability,⁹ CCCMS, 41 years old), signed on September 21, 2020. Attached hereto as **Exhibit 69a** are true and correct copies of excerpts of documents corroborating Mr. [REDACTED]' declaration.

90. Mr. [REDACTED]'s declaration, attached previously as **Exhibit 16**, describes misconduct at MCSP and SAC. *See* Ex. 16, ¶¶ 24-29.

Additional Declarations Regarding Assaults, Abuse and Retaliation at SATF

91. The declaration attached hereto as **Exhibit 70** describes misconduct the declarant experienced or witnessed at SATF. Nearly all of the misconduct described in these declarations occurred after the filing of the Statewide Motion on June 3, 2020.

92. Attached hereto as **Exhibit 70** is a true and correct copy of a declaration from *Armstrong* and *Coleman* class member [REDACTED], DNH, CCCMS, 36 years old), signed on August 14, 2020.

93. Mr. [REDACTED]'s declaration, attached previously as **Exhibit 27**, describes misconduct at COR and SATF. *See* Ex. 27, ¶¶ 9-21.

⁹ Mr. [REDACTED] describes in his declaration that he suffers from incontinence, difficulty climbing, and has a mobility disability that is not verified by CDCR.

**Plaintiffs' Counsel Has Raised Concerns about Assaults, Abuse, and Retaliation
Against Class Members at SATF in Multiple Reports and Letters**

94. In support of the RJD Motion, Plaintiffs' counsel filed an excerpted copy of Plaintiffs' Report regarding the April and June 2019 monitoring tour of SATF. *See* Freedman RJD Decl., Ex. 86.

95. Attached hereto as **Exhibit 71** is a true and correct excerpted copy of Defendants' Response to Plaintiffs' Report regarding the April and June 2019 *Armstrong* monitoring tour of SATF, dated January 17, 2020 and issued by Defendants on January 17, 2020.

96. Attached hereto as **Exhibit 72** is a true and correct excerpted copy of Plaintiffs' Report regarding the October 2019 and February 2020 *Armstrong* monitoring tour of SATF regarding class members with mobility disabilities, issued on June 1, 2020.

97. Attached hereto as **Exhibit 73** is a true and correct excerpted copy of Defendants' Response to Plaintiffs' Report regarding the October 2019 and February 2020 *Armstrong* monitoring tour of SATF, dated August 27, 2020 and issued by Defendants on August 27, 2020.

98. Attached hereto as **Exhibit 74** is a true and correct copy of a letter dated June 12, 2020 from Rita Lomio, Plaintiffs' counsel, to Tamiya Davis of CDCR's Office of Legal Affairs titled "*Armstrong* Advocacy Letter [REDACTED], DNH, SATF."

Attached hereto as **Exhibit 75** is a true and correct copy of a follow-up letter dated June 22, 2020 from Ms. Lomio to Ms. Davis titled "*Armstrong* Advocacy Letter [REDACTED], DNH, SATF." Attached hereto as **Exhibit 76** is a true and correct copy of a second follow-up letter dated September 10, 2020 from Ms. Lomio to Ms. Davis titled "*Armstrong* Advocacy Letter [REDACTED], DNH, SATF."

99. Attached hereto as **Exhibit 77** is a true and correct copy of a letter dated July 9, 2020 from Ms. Lomio to Ms. Davis titled "*Armstrong* Advocacy Letter [REDACTED] DPH, SATF."

100. Attached hereto as **Exhibit 78** is a true and correct copy of a letter dated

1 August 25, 2020 from Ms. Lomio and Skye Lovett, Plaintiffs' counsel, to Ms. Davis titled
 2 "*Armstrong* Advocacy Letter [REDACTED], DPW, DNH, LD (unverified),
 3 SATF."

4 101. Attached hereto as **Exhibit 79** is a true and correct copy of a letter dated
 5 September 8, 2020 from Ms. Lomio to Ms. Davis titled "*Armstrong* Advocacy Letter
 6 [REDACTED], DLT, SATF." Attached hereto as **Exhibit 80** are true and correct
 7 copies of CDCR Form 1824 requests for accommodation filed by Mr. [REDACTED]

8 102. To date, Defendants' counsel have not responded to the advocacy letters
 9 regarding Mr. [REDACTED], Mr. [REDACTED], Mr. [REDACTED], or Mr. [REDACTED].

10 **Additional Declarations Regarding Assaults, Abuse and Retaliation at RJD**

11 103. The declarations attached hereto as **Exhibits 81-83** describe misconduct
 12 the declarants experienced or witnessed at RJD. All of the misconduct described in these
 13 declarations occurred after the filing of the RJD Reply on July 29, 2020.

14 104. Attached hereto as **Exhibit 81** is a true and correct copy of a supplemental
 15 declaration from *Coleman* class member [REDACTED], EOP, 44 years old),
 16 signed on September 1, 2020. Mr. [REDACTED]'s supplemental declaration was previously
 17 filed in support of Plaintiffs' Protective Order Motion. *See* Grunfeld Protective Order
 18 Decl., Ex. R. Attached hereto as **Exhibit 81a** are true and correct copies of excerpts of
 19 documents corroborating Mr. [REDACTED]'s declaration.

20 105. Attached hereto as **Exhibit 82** is a true and correct copy of a second
 21 supplemental declaration from *Coleman* class member [REDACTED], EOP, 33
 22 years old), signed on August 18, 2020. Attached hereto as **Exhibit 82a** are true and
 23 correct copies of excerpts of documents corroborating Mr. [REDACTED]' declaration.

24 106. Attached here to as **Exhibit 83** is a true and correct copy of a supplemental
 25 declaration from *Armstrong* class member [REDACTED], DPW, 76 years old),
 26 signed on September 10, 2020.

Defendants Have Not Investigated or Responded to Any of the Declarations Describing Abuse and Retaliating Against People with Disabilities at Prisons Other Than RJD

107. As set forth in previous filings, Defendants’ newly-created Declaration Allegation Review Team (“DART”) within the Office of Internal Affairs (“OIA”) has been conducting interviews with some of the declarants who submitted declarations about misconduct at RJD. To my knowledge, Defendants have not conducted DART interviews with any of the people who filed the thirty-nine declarations on June 3, 2020 in support of the Statewide Motion regarding assaults, abuse, and retaliation occurring at prisons other than RJD. Defendants also have not expressed that they intend to conduct DART interviews of these thirty-eight declarants. Defendants have not provided Plaintiffs’ counsel information about how they intend to investigate and address the abuse at LAC, CCI, COR, KVSP and SATF raised in the June 3, 2020 declarations filed in support of the Statewide Motion.

Defendants Still Have Not Provided Proof that They are in Compliance With the Court’s Statewide Anti-retaliation Order

108. Since the filing of the RJD Motion, Plaintiffs’ counsel has raised concerns with Defendants’ counsel regarding retaliation against class members and other incarcerated people with disabilities who filed declarations, given the nature of the allegations at issue. Since at least July 22, 2020, following the filing of the Statewide Motion and the filing of Plaintiffs’ TRO, Plaintiffs have attempted to negotiate a stipulated Anti-retaliation Order preventing retaliation against the declarants who testified in support of the Statewide Motion. On August 4, 2020 the parties submitted a Stipulation and [Proposed] Order Prohibiting Retaliation in Prisons Subject to Statewide Motion. *See* Dkt. No. 3032. On August 6, 2020, the Court issued the order. *See* Dkt. No. 3034. (“Statewide Anti-retaliation Order”). The Anti-retaliation Order prohibits “Defendants and their employees ... from retaliating against the Declarants, *Armstrong* class members, or incarcerated people at [the prisons] for participating in [the Statewide Motion].” *Id.* at 1.

109. The order required Defendants to post anti-retaliation notices in all housing

1 units at the prisons that are subject to the Statewide Motion. *Id.* at 2(c). On August 21,
 2 2020, I sent an email, a true and correct copy of which is attached hereto as **Exhibit 84**, to
 3 Defendants' counsel Trace Maiorino requesting that Defendants provide Plaintiffs' counsel
 4 with a draft of the Anti-retaliation Notice to be posted in accordance with the Court's
 5 Order. On August 24, 2020, Mr. Maiorino responded with a proposed Anti-Retaliation
 6 Notice attached to his email. On August 26, 2020, I approved the proposed Anti-
 7 retaliation Notice and inquired as to when the Notice would be posted at the prisons and
 8 the location within the prisons where the Notice would be posted. Attached hereto as
 9 **Exhibit 85** is a true and correct copy of the notice to which the parties agreed on
 10 August 26, 2020.

11 110. On September 2, 2020, I again followed up on the issue, requesting that
 12 Defendants post the Notices because of reports I was receiving of ongoing retaliation
 13 against people with disabilities for participation in the Statewide Motion. A true and
 14 correct copy of my September 2, 2020 email is attached hereto as **Exhibit 86**.

15 111. On September 9, 2020, Mr. Maiorino represented in an email, a true and
 16 correct copy of which is attached hereto as **Exhibit 87**, that the Anti-retaliation Notices
 17 had been posted at KVSP, LAC, and SATF. In that same email, Mr. Maiorino stated that
 18 "[w]e are not inclined to agree to additional pages in your reply brief." *Id.* On
 19 September 11, 2020, Mr. Maiorino represented in an email, a true and correct copy of
 20 which is attached hereto as **Exhibit 88**, that "[t]he posting of anti-retaliation notices have
 21 been completed in accordance with the order, with receipt of a proof of practice from the
 22 respective prisons." On September 12, 2020, I requested that Defendants produce a copy
 23 of the referenced proof of practice for each prison at which the Notice was posted. Ex. 88.
 24 Defendants did not respond to my email, so I sent a follow-up email on September 14,
 25 2020 again requesting the production of the proof of practice for each of the prisons. *Id.*
 26 To date, Defendants have not produced any proof of practice certifying that the Anti-
 27 retaliation Notice has been posted at any of the prisons subject to the Court's Anti-
 28 retaliation Order.

Even Though the Infrastructure for Video Surveillance Systems is Installed at Ten Prisons, Including LAC and CCI, Defendants Have Failed to Implement Their Long-Planned and Much Needed Video Surveillance Systems

112. As discussed in my declaration in support of the RJD Reply, Defendants have contracted with Stanley Convergence Security Solutions Inc. to “design and install an enterprise State wide Correctional Video Surveillance (‘SCVS’) solution for ...” CDCR. See Declaration of Gay Crosthwait Grunfeld in Support of RJD Motion (“Grunfeld RJD Reply”), Dkt. No. 3023-5, Ex. NN. This contract runs from February 29, 2016 through June 30, 2023. *Id.*

113. In addition, documents produced by Defendants on July 24, 2020 demonstrate that the infrastructure for video surveillance systems is already installed at ten prisons, at least.

114. Attached hereto as **Exhibit 89** and **Exhibit 90** are true and correct copies of March 1, 2016 and September 13, 2016 letters from Craig Martinez, Staff Services Manager with the CDCR IT Procurement Unit, to Patrick Gould, Verizon Business, acknowledging the full site completion of the installation of data drops (i.e., lines of cable) for the Video Surveillance Project at LAC. The letters acknowledge that “all documents have been received and reconciled, all work has been completed, and all deliverables have been met.” See Exs. 89-90.

115. A similar full site completion acknowledgment letter dated August 1, 2017, a true and correct copy of which is attached hereto as **Exhibit 91**, was produced by Defendants for CCI.

Defendants Have Refused to Produce Their Person-Most-Knowledgeable Deponent and Responded Substantively to Only Two of Four Sets of Interrogatories

116. On August 6, 2020, Plaintiffs’ counsel served Defendants with a notice of deposition of CDCR’s person-most-knowledgeable (“PMK”) on ten subjects related to misconduct against incarcerated people at LAC, COR, CCI, and KVSP, including whether Defendants have taken any steps to reduce staff misconduct at those institutions. On that same day, Plaintiffs also served four sets of Special Interrogatories relating to discipline

1 imposed by Hiring Authorities after sustaining allegations of custody staff misconduct
2 against incarcerated people at LAC, CCI, KVSP, and COR.

3 117. On August 21, 2020, Defendants served their responses that only consisted
4 of objections to Plaintiffs' August 6, 2020 notice of deposition.

5 118. Defendants initially represented in an August 29, 2020 email that they would
6 be unable to produce a person-most-knowledgeable deponent or responses to Plaintiffs'
7 Special Interrogatories unless the Court provided Defendants with an extension of time.
8 *See* Declaration of Maiorino, Dkt. 3053-1, Ex. B. When Plaintiffs' counsel asked how
9 much additional time Defendants needed to produce responses and a person-most-
10 knowledgeable deponent, Defendants refused to answer and stated that "locating
11 responsive information is time consuming." Declaration of Michael Freedman in
12 Opposition to Defendants' Administrative Motion to Change Time to File an Opposition to
13 Plaintiffs' Statewide Motion, Dkt. No. 3056-1, Ex. A.

14 119. With respect to the designated person-most-knowledgeable deponent,
15 Defendants refused to produce a witness by September 18, 2020 but agreed by
16 September 11 to provide a tentative deposition date. *See* Grunfeld Protective Order Decl.,
17 Dkt. No. 3074-4, Ex. Q (September 9, 2020 email from Trace Maiorino). Mr. Maiorino
18 also noted that "information must also be collected to cover overlapping topics in the PMK
19 depositions, and we anticipate having at least one PMK for each of the four prisons." *Id.*

20 120. Defendants did not provide a deposition date on or before September 11,
21 2020. In his September 11 email, Mr. Maiorino represented that Defendants "continue to
22 work on the outstanding discovery issues, including the PMK depositions, and will provide
23 you with an update as soon as we can." *See* Ex. 89.

24 121. On September 16, 2020, in response to a subpoena served on Defendants'
25 expert Matthew Cate, Defendants produced three spreadsheets titled "2018 CSP-LAC
26 SUSTAINED DISCIPLINE," "2019 CSP-LAC SUSTAINED DISCIPLINE," and "2020
27 CSP-LAC SUSTAINED DISCIPLINE." On September 17, 2020, my colleague

28 Mr. Freedman sent a letter with the three spreadsheets enclosed, a true and correct copy of

1 which is attached hereto with exhibits omitted as **Exhibit 92**, regarding Defendants' failure
 2 to timely produce responses to Plaintiffs' Special Interrogatories. In that letter, Plaintiffs
 3 noted that the information contained in the spreadsheets "provide sufficient information for
 4 Defendants to either answer Interrogatories 13(a), 14(a), 15, 16, 17, 18, and 19 regarding
 5 LAC for 2018-2020 or to answer those interrogatories with relatively minimal additional
 6 effort." Ex. 92. Plaintiffs' demanded that Defendants at least provide responses to
 7 Interrogatories 13(a), 14(a), 15, 16, 17, 18, and 19 with respect to LAC no later than
 8 September 21, 2020, so that Plaintiffs' counsel would be able to review and incorporate
 9 that data into the Reply pleadings. *Id.* Plaintiffs also demanded the production of any
 10 similar spreadsheets for the other institutions covered by the three sets of Special
 11 Interrogatories (COR, KVSP, CCI); and if similar documents or spreadsheets existed for
 12 those three institutions, that Defendants produce responses to Interrogatories 13(a), 14(a),
 13 15, 16, 17, 18, and 19 for the remaining three sets of Special Interrogatories. *Id.*

14 122. On September 18, 2020, Defendants' counsel Sean Lodholz sent a response
 15 letter, a true and correct copy of which is attached hereto as **Exhibit 93**, asserting that
 16 Defendants "are under no obligation to provide Plaintiffs partial or incomplete
 17 interrogatory responses." Mr. Lodholz also asserted that at least two sets of Defendants'
 18 responses to the Special Interrogatories would not be completed until after the filing of
 19 Plaintiffs' Reply: "Defendants anticipate having substantive responses for Corcoran
 20 completed on or before September 23, 2020, and may have responses for LAC completed
 21 by that date as well. CCI responses should be completed by October 14, 2020, and
 22 responses for KVSP by October 21, 2020." Ex. 93.

23 123. On September 23, 2020, Defendants served their responses to the Special
 24 Interrogatories concerning only two of the four institutions: LAC and COR. True and
 25 correct copies of these responses are attached hereto as **Exhibits 94 and 95**. In total,
 26 Plaintiffs' counsel have filed 133 declarations from *Armstrong* and *Coleman* class
 27 members that describe abuses they experienced or witnessed at RJD and LAC. Defendants
 28 have produced to Plaintiffs' counsel all disciplinary files associated with allegations of

1 staff misconduct involving *Armstrong* and *Coleman* class members at LAC. Defendants
 2 have produced to Plaintiffs' counsel all disciplinary files associated with allegations of
 3 staff misconduct involving *Armstrong* class members at RJD. *See* Grunfeld RJD Reply
 4 Decl., ¶ 44. As far as I am aware from our review of these disciplinary files, Defendants
 5 have only imposed adverse action against four officers for their involvement in two
 6 incidents of disability-related misconduct raised in the 133 declarations submitted by
 7 Plaintiffs' counsel regarding abuse at RJD and LAC. *Id.*; Schwartz Statewide Reply Decl.,
 8 ¶ 131. Defendants did not produce disciplinary files for LAC until August 17, 2020.

9 124. As of the date of the filing of this declaration, Defendants still have not
 10 produced their person(s)-most-knowledgeable deponent(s) nor agreed on a date for their
 11 deposition. Although we served LAC document requests on April 2, 2020, *see* Grunfeld
 12 Statewide Decl., ¶¶ 21-22, Defendants did not begin producing LAC documents until
 13 July 13, 2020, did not produce all relevant investigative and disciplinary records until
 14 August 31, 2020, still have not produced any ESI and have given no date for completion of
 15 the LAC document production.

16 **Defendants Allow Their Employees to Continue Working their Posts During the**
 17 **Pendency of Investigations into Allegations of Misconduct So Serious That They**
 18 **Ultimately Result in Termination**

19 125. In the declaration of Jeffrey Schwartz filed in support of the RJD Motion,
 20 Mr. Schwartz criticizes Defendants' failure to place on administrative time-off or
 21 otherwise re-direct officers accused of serious misconduct against people with disabilities:

22 It appears that either two of the three Officers or all three Officers remained on duty
 23 and without any assignment restrictions during the lengthy pendency of this
 24 investigation. All told, the Officers were allowed to work at RJD with [REDACTED] lary
 25 and benefits interacting with prisoners for a year after they threw Mr. [REDACTED] to the
 26 ground. All three Officers should have been placed on administrative leave until the
 investigation was completed or, at a minimum, reassigned away from Facility C to
 non-inmate contact positions. It did not make sense to leave these three Officers in
 posit [REDACTED] where any of them might have tried to influence or retaliate against
 M [REDACTED] or inmate witnesses or hurt other prisoners. Schwartz Decl., ¶ 220
 ([REDACTED] Case, S-RJD-086-19-A).

27 Documents produced by Defendants indicate that there are only five cases involving
 28 custody staff misconduct against people with disabilities at RJD and LAC in which the

1 allegations of misconduct were sustained and the officer(s) accused were terminated.
 2 These five cases resulted in the dismissal of nine staff members: S-RJD-144-18-A (one
 3 officer), S-RJD-198-18-A (one officer), S-RJD-026-19-A (three officers), S-RJD-086-19-
 4 A (three officers), and S-LAC-369-19-A (one sergeant). Defendants have not produced
 5 any documents associated with these cases that indicate that the Hiring Authority placed
 6 any of the nine dismissed officers on administrative time-off or administrative re-direction
 7 to a position not involving contact with incarcerated people during the pendency of the
 8 OIA investigation. Because allegations of misconduct are referred by the Hiring Authority
 9 to OIA only if there is a reasonable belief that the misconduct occurred and would result in
 10 adverse action, and accepted or rejected by OIA based on that same “reasonable belief”
 11 standard, all nine of these officers were allowed to continue working their posts even
 12 though both the Warden and OIA determined that they had likely committed misconduct
 13 for which they could be terminated.

14 **Defendants’ Expert Declarations Should be Stricken for Bias, Poor Methodology, and**
 15 **Lack of Foundation; Even If They Are Not Stricken, Defendants’ Experts Agree that**
Cameras Would Be Helpful

16 126. As part of their Opposition to the Statewide Motion, Defendants filed under
 17 seal declarations from three experts: Matthew Cate, the former secretary of CDCR and
 18 former Inspector General of California, Bernard Warner, the former head of CDCR’s
 19 Division of Juvenile Justice, and John Baldwin, the former head of the Illinois Department
 20 of Corrections. Plaintiffs’ counsel immediately noticed their depositions.

21 127. I took the deposition of Matthew Cate on September 17, 2020. Attached
 22 hereto as **Exhibit 96** is a true and correct copy of the certified transcript of Mr. Cate’s
 23 deposition, without exhibits.

24 128. I took the deposition of Bernard Warner on September 18, 2020. Attached
 25 hereto as **Exhibit 97** is a true and correct copy of the certified transcript of Mr. Warner’s
 26 deposition, divided into non-confidential and confidential portions, without exhibits.

27 129. My colleague Thomas Nolan took the deposition of John Baldwin on
 28 September 21, 2020. Attached hereto as **Exhibit 98** is a true and correct copy of the

rough transcript of Mr. Baldwin's deposition, without exhibits. Mr. Baldwin's certified deposition transcript is attached as Exhibit 140, *infra*, see ¶ 250.

130. In each of these depositions, Defendants' counsel made almost continuous and lengthy objections. Sometimes the witnesses forgot the questions by the time the objections were over. Other times the witness was coached and responded in accordance with the objection. My colleague Mr. Nolan and I asked Defendants' counsel to stipulate that all of our questions were objectionable on the grounds repeatedly stated in order to expedite the completion of the depositions. Defendants' counsel would not so stipulate. Defendants' counsel's conduct during the expert depositions is inconsistent with Northern District of California Guidance on Professional Conduct, section 9(h), which states in pertinent part:

A lawyer representing a deponent or another party should limit objections to those that are well-founded and necessary for the protection of his or her client's interest. A lawyer should remember that most objections are preserved and need to be made only when the form of a question is defective or privileged information is sought.

See also Claypole v. County of Monterey, Case No. 14-cv-02730-BLF, 2016 WL 145557, at *2-4 (N.D. Cal. Jan. 12, 2016), (sanctioning counsel for "extremely long speaking objections[] [and] coaching witnesses[]" during expert and other depositions) (footnotes omitted).

Defendants' Expert Matthew Cate, a CDCR Insider now turned Lobbyist, Expressed Pride in the *Madrid* System but Has No Basis for Claiming the System Currently Works to Hold Staff Accountable

131. Defendants' expert Mr. Cate has never served as an expert before, but thought it would be "interesting to expand [his] practice in that way..." Ex. 96 at 17:23-18:1. Mr. Cate's declaration makes broad assertions about the validity of the grievance system, CDCR's policies and practices for reporting staff misconduct, CDCR's use of force policies, and the remedies Plaintiffs seek. *See* Unredacted Declaration of Matthew Cate in Support of Defendants' Opposition to Plaintiffs' Motion for a Permanent Injunction at Seven additional Prisons and Statewide ("Cate Decl."), filed under seal, Dkt. No. 3083-5, ¶ 2. In support of these opinions, Mr. Cate provides a lengthy description of

1 his experience culminating in a description of his role at Stanford University School of
 2 Law. *See id.* ¶¶ 3-8. Mr. Cate’s declaration omits, however, that he has done very little
 3 with Stanford in the last two years. Ex. 96 at 100:8-101:21. Instead, he spends time
 4 lobbying on behalf of entities such as GTL, many of whom have or seek contracts with
 5 CDCR. *Id.* at 96:25-100:7, 101:22-108:15. A description of Mr. Cate’s lobbying activities
 6 took up about ten pages of the deposition transcript. *Id.* at 96:25-100:7, 101:22-108:15.

7 132. Mr. Cate’s deposition transcript full-throatedly endorses the *Madrid* system
 8 that he presided over as Inspector General and CDCR Secretary. *Id.* at 65:14-66:11, 67:10-
 9 20, 68:13-15, 237:9-23. In support of that opinion, he spoke to CDCR employees who used
 10 to work for him, including Mr. Warner, Amy Miller, Director of CDCR’s Division of
 11 Correctional Policy Research and Internal Oversight, LAC Warden Johnson, and soon to
 12 be CDCR Secretary Kathy Allison. *Id.* at 73:7-19, 199:10-201:3. He admits to retaining
 13 Mr. Warner as the head of DJJ, being in touch with Mr. Warner “every month or two,”
 14 being “friends,” and socializing “occasionally.” *Id.* at 200:15-202:16. Mr. Cate claims to
 15 have interviewed the current Inspector General Roy Wesley, whom he also hired, but
 16 admits the interview only lasted 10-15 minutes. *Id.* at 87:10. Mr. Wesley did not know he
 17 was being interviewed. *See infra*, ¶ 204. Mr. Cate regularly has coffee with current
 18 CDCR Secretary Diaz. Ex. 96 at 47:5-10.

19 133. The deposition transcript shows that Mr. Cate cherry picked information to
 20 support the eight opinions that were spoon-fed to him by the Office of the Attorney
 21 General. *Id.* at 94:12-22; *see also* Cate Decl., ¶ 2. Mr. Cate did not review many of the
 22 pertinent OIG reports, including HDSP. Ex. 96 at 89:15. He testified that he “may have”
 23 reviewed the SVSP report, and did not “recall the specifics” of it, notwithstanding
 24 admitting that SVSP was the worst prison for the Code of Silence when he was at the OIG.
 25 *Id.* at 34:25-35:6, 39:4-12, 89:1-90:16. He did not ask for or receive data on officer
 26 discipline or terminations at the prisons at issue in this motion other than LAC. *Id.* at
 27 233:2. And he ignored the LAC data, instead choosing to cite seemingly more helpful data
 28 from RJD. *Id.* at 231:7-17. Mr. Cate spent only five hours at LAC. *Id.* at 135:23-136:3.

1 Mr. Cate was not aware of the 2013 use of force trial held before Judge Karlton or of
 2 changes made to the cell extraction process as a result. *Id.* at 236: 8-18. Mr. Cate did not
 3 read this Court’s decisions granting a preliminary injunction transferring two class
 4 members out of RJD Correctional Facility or granting in part an injunction regarding that
 5 prison. *Id.* at 32:7-33:13, 244:18-245:8.

6 134. Mr. Cate reviewed no reports in which staff misconduct allegations were
 7 sustained. *Id.* at 115:2-4. He claimed to have concerns about one investigation and
 8 believed it had been referred to the OIA. *Id.* at 139:10-12. In fact, however, the
 9 allegations in that case were not sustained after investigation. *See* Schwartz Reply Decl.,
 10 ¶ 221.

11 135. Mr. Cate reviewed only 15 of the LAC declarations submitted in support of
 12 the Statewide Motion. Ex. 96 at 116:9-11. He did not know whether or not any of
 13 Plaintiffs’ 148 allegations concerning LAC had been sustained or action had been taken to
 14 respond to them. *Id.* at 139:4-12.

15 136. Mr. Cate made broad assertions about wardens being best suited to make
 16 disciplinary decisions based on officers’ personnel files (*id.* at 216:10-25.), but seemed
 17 unfamiliar with CCPOA rules allowing purging of the personnel files. *See id.* at 118:7-13;
 18 see also *infra*, ¶¶ 216-217.

19 137. Mr. Cate objects to the cost of body-worn cameras but has never overseen a
 20 correctional institution using body-worn cameras or made any estimates of the of the costs
 21 involved. Ex. 96 at 238:6-239:22. Mr. Cate agreed that “more corrections systems[] are
 22 beginning to experiment with body-worn cameras.” *Id.* at 240:21-23. And he stated he
 23 was “impressed by the materials ... in Eldon Vail’s expert report ... on body cameras....”
 24 *Id.* at 243:2-4.

25 **Mr. Cate Admitted Flaws in the Current System Even Based Upon His**
 26 **Superficial Review**

27 138. Notwithstanding his superficial review, Mr. Cate criticized the current
 28 system in several respects. He recommends that there be a timeframe to complete use-of-

1 force incident packets of as soon as possible and no later than two weeks. *Id.* at 22:11-18.
 2 Mr. Cate also recommends the installation of cameras at LAC Unit D. *Id.* at 73:24-75:1.
 3 Mr. Cate agrees that cameras can be useful. *Id.* at 37-38, 73-77, 172, 178, 185, 194-95.
 4 He further recommends that the IERC, the committee that evaluates use of force, avoid
 5 including members from the same facility as the force occurred. *Id.* at 235:13-22.

6 139. Of the fifteen cases he reviewed, Mr. Cate took issue with the investigations
 7 of two of them: [REDACTED] and [REDACTED]. *Id.* at 198:5-9. He stated that “in the [REDACTED] case, the
 8 wrong result happened, possibly, or in the [REDACTED] case that we needed more investigation
 9 through the internal affairs process.” *Id.*

10 **Mr. Cate Took Unsupported Positions in Support of His Former Employer**

11 140. During the course of his deposition, Mr. Cate admitted to reading the Bishop
 12 report regarding gang-like activity among officers at RJD, Mr. Cate testified that these
 13 officers could have worn a [REDACTED] scarf to show “closeness” and “solidarity” with fellow
 14 officers. *Id.* at 55:9-56:16.

15 141. When Mr. Cate was asked “whether a person who is asking to be closer to
 16 pill line so he can get there easier, who’s on chemotherapy and he needs to get his pills,
 17 whether that person would be [making] a request for accommodation under the Americans
 18 With Disabilities Act[,]” he replied “I don’t know. And that’s not what I was trying to
 19 opine on.” *Id.* at 171:10-19.

20 **Mr. Cate Relied In Part on Interviews with *Armstrong* Class Members Outside the**
 21 **Presence of Their Counsel, Requiring That His Opinions Be Stricken**
 22 **From the Record**

23 142. Mr. Cate admitted that he was retained for litigation purposes and that he
 24 interviewed people in wheelchairs without the permission of Plaintiffs’ counsel or their
 25 presence. *Id.* at 15:22-16:2, 121:20-123:20. He did not identify himself as an expert for
 26 the State in meeting with those class members. *Id.* at 125:15-126:2. He claimed not to
 27 know about Judge Karlton’s 2013 decision prohibiting Defendants’ experts from meeting
 28 directly with class members. *Coleman v. Brown*, 938 F. Supp. 2d 955, 968 (E.D. Cal.
 2013). *Id.* at 124:6-11. Mr. Cate is a member of the California Bar (No. 161573) and

1 bound by California Rule of Professional Conduct 4.2. To the extent his opinions rest
2 upon his class member interviews, those opinions should be stricken from the record.

3 **CDCR Refused to Produce Mr. Cate's Notes Until Shortly Before the**
4 **Reply Pleadings Were Due**

5 143. Among the many improper objections raised at the deposition of Mr. Cate,
6 Defendants' counsel refused to produce the notes that Mr. Cate took as part of his
7 assignment. Ex. 96 at 13:12-15:20, 69:21-70:11, 81:7-8. To the extent the notes reflect
8 facts learned by the expert in connection with his assignment, they are required to be
9 produced. *See* Fed R. Civ P. 26(b)(4)(B)-(C) Advisory Committee's note to 2010
10 amendment ("Rules 26(b)(4)(B) and (C) do not impede discovery about the opinions to be
11 offered by the expert or the development, foundation, or basis of those opinions. For
12 example, the expert's testing of material involved in litigation, and notes of any such
13 testing, would not be exempted from discovery by this rule.").

14 144. Perhaps regretting their improper position and fearing that the testimony
15 might be stricken, Defendants' counsel Jeremy Duggan suddenly produced Mr. Cate's
16 notes on September 23, 2020, after the deposition and just two days before the reply
17 pleadings were due. Attached hereto as **Exhibit 99** is a true and correct copy of
18 Mr. Duggan's email attaching Mr. Cate's notes.

19 145. These notes appear to contain several concessions, which have been
20 highlighted in yellow for the Court's convenience:

21 (a) Ms. Miller told Mr. Cate that the reasons CDCR created AIMS
22 included the "OIG report into staff misconduct at SVSP" and the fact that "CDCR
23 concluded these problems likely existed elsewhere." *Id.*

24 (b) That same page of the notes includes a reference to "interview[ing]
25 Paul Edwards," a person who was never mentioned in Mr. Cate's report or deposition.
26 This raises the question of whether he failed to follow up on a key point or received
27 information from Mr. Edwards adverse to CDCR.

28 (c) Mr. Cate's notes also appear to state that Ms. Miller told Mr. Cate that

1 “CMF Vacaville needs cameras.” This raises the question of the other institutions also
 2 listed on that page and whether they “need cameras” as well.

3 (d) Another page of Mr. Cate’s notes lists statistics on use of force at
 4 LAC, showing it has been increasing over time.

5 (e) Another page of notes based on an apparent interview with
 6 Mr. Johnson states “warden doesn’t know the AIMS process.” This is an important
 7 admission.

8 146. One page of the notes contains extensive numbers regarding use of force that
 9 are incomprehensible without talking to Mr. Cate. On this page and especially the
 10 highlighted ones, Plaintiffs were deprived of their opportunity to cross-examine Mr. Cate
 11 about the underlying facts in support of his opinions. For this reason as well, the Cate
 12 Declaration should be stricken and disregarded.

13 Mr. Warner’s Experience in Corrections and Compliance Litigation

14 147. Mr. Warner has never before been designated to serve as an expert witness.
 15 See Ex. 97 at 187:24-188:7.

16 148. Mr. Warner served as Chief Deputy Secretary, Juvenile Justice, for CDCR
 17 between 2005 and 2010. See Unredacted Declaration of Bernard Warner In Support of
 18 Defendants’ Opposition to Plaintiffs’ Motion for a Permanent Injunction at Seven
 19 Additional Prisons and Statewide (“Warner Decl.”), Dkt. No. 3083-6, ¶ 3. During that
 20 time, he “led CDCR’s effort to resolve the class action lawsuit” *Farrell v. Cate*, Case No.
 21 RG03-079344 (Superior Court, County of Alameda). *Id.* I am informed and believe that
 22 those efforts remained unresolved when he resigned from his position in 2010, and
 23 significant additional litigation in *Farrell* was required before the case could be
 24 terminated.

25 149. Three years into Mr. Warner’s five-year tenure with the Division of Juvenile
 26 Justice (“DJJ”), on October 27, 2008, the Court in *Farrell* issued an order for further relief
 27 after the State failed to comply with a Consent Decree issued on November 2004. A true
 28 and correct copy of the Court’s October 27, 2008 order is attached hereto as **Exhibit 100**.

1 The Court noted that neutral, court-appointed experts had “cited profound concerns over
2 DJJ’s leadership and commitment to and capacity for change.” Exhibit 100 at 3. The
3 Court further found: “In some areas, the State has failed to take even the most basic,
4 foundational steps to implement reform.” *Id.* at 4.

5 150. During Mr. Warner’s tenure as head of DJJ, the organization also resisted
6 efforts to reform its juvenile parole system, which Judge Karlton found violated
7 constitutional guarantees of due process. *See L.H. v. Schwarzenegger*, 519 F. Supp. 2d
8 1072 (E.D. Cal. 2007).

9 151. In his declaration and the *curriculum vitae* attached thereto, Mr. Warner
10 states that he was the Secretary of the Washington State Department of Corrections from
11 2010 to 2015. Warner Decl., ¶ 4 & Ex. A. In his deposition, he conceded that he became
12 Secretary in July 2011, not 2010. Ex. 97 at 42:23-43:7. He testified that he previously
13 served as a correctional counselor, not a correctional officer. *Id.* at 44:5-8. Plaintiffs’
14 expert Eldon Vail, who also held the position of Secretary of the Washington State
15 Department of Corrections before Mr. Warner, had a different path to the position:

16 I think Mr. Vail was a good secretary of corrections in Washington, he
17 was—he was well-liked, he was well-respected, he has tremendous value of
18 being sort of a person that came up through the ranks of the department,
19 knew it well, and was able to provide good leadership for that agency.

19 *Id.* at 43:16-21.

20 **Mr. Warner’s Perfunctory Visits to SVSP, KVSP, and SATF**

21 152. Mr. Warner states in his declaration that he “personally visited SVSP, KVSP,
22 and SATF as part of my assessment,” and that “[t]hese on-site visits were important to help
23 me understand the operations of the facilities and to observe interactions between staff
24 members and interactions between inmates and staff so that I could assess the culture at the
25 prisons.” Warner Decl., ¶ 8. He further asserts that the visits “allowed for validation of
26 policies and practice in daily operations.” *Id.*

27 153. However, at his deposition, Mr. Warner conceded that the site visits were not
28 “a compliance audit” and were not “a thorough cultural assessment.” Ex. 97 at 92:1-7. He

1 did not directly observe interactions between incarcerated people and staff. *Id.* at 65:23-
 2 67:11, 70:14-16. He instead characterized the site visits as “an opportunity given very
 3 limited amount of time to ... understand the processes that occur in those institutions.” *Id.*
 4 at 92:1-7. It appears that Mr. Warner simply learned from institution staff what the general
 5 process is for requesting disability accommodations. He did not evaluate whether that
 6 process is in fact effective or being implemented properly at each institution. *Id.* at 73:12-
 7 74:18, 81:8-82:7, 96:4-16. Notably, he reported that he did not recall the topic of
 8 retaliation against incarcerated people “coming up on the tour,” and conceded that he did
 9 not ask staff whether “they were aware of any inmates afraid” of asking for help. *Id.* at
 10 91:19-21, 112:1-113:1.

11 154. Mr. Warner’s visits to SVSP, KVSP, and SATF were brief. He could not
 12 remember the names of the majority of staff he met at these prisons. *Id.* at 64:23-65:10,
 13 78:1-17, 95:22-96:3.

14 155. Mr. Warner visited SVSP for three-and-a-half or four hours on August 17,
 15 2020. *Id.* at 77:16-25. He testified that he visited a housing unit for “no more than 20
 16 minutes” to “familiarize myself a little bit with the facility.” *Id.* at 78:20-22, 79:23-80:1.

17 156. Mr. Warner visited KVSP for four hours on August 18, 2020. *Id.* at 92:9-23.
 18 He reported that he visited only one housing unit, which was empty at the time, for “maybe
 19 10 or 15 minutes,” because “I just kind of wanted to get a representative picture of what
 20 the housing units looked like.” *Id.* at 96:19-97:17

21 157. Mr. Warner visited SATF for “three to four hours” on August 18, 2020. *Id.*
 22 at 64:1-5, 68:4. He “[p]ass[ed] through” undefined housing units and “did not witness any
 23 conversations between staff and between inmates.” *Id.* at 68:5-22.

24 **Mr. Warner’s Opinions Regarding Access to the Process to Request Reasonable**
 25 **Accommodations Are Irrelevant and Unfounded**

26 158. In his declaration, Mr. Warner states that “it is my opinion that disabled
 27 inmates at SATF, SVSP, and KVSP have access to the processes in place to request and
 28 obtain reasonable accommodations for their disabilities.” Warner Decl., ¶ 13.

1 159. In his deposition, Mr. Warner conceded that he determined only that such a
 2 process exists; he did not review whether it is effective and whether people with
 3 disabilities are, in fact, able to obtain reasonable accommodations at the prisons he visited.
 4 Ex. 97 at 73:8-74:18. He further conceded that he did not examine whether staff at each
 5 institution is properly documenting information on the non-compliance log. *Id.* at 75:1-
 6 76:17. Mr. Warner also was not aware that one purpose of the non-compliance log is to
 7 track repeat offenders among staff. *Id.* at 76:11-17

8 160. Plaintiffs do not dispute the existence of a CDCR 1824 process. Plaintiffs
 9 instead have concerns as to whether it is effective, whether it discounts reports of
 10 disability-related staff misconduct by people with disabilities (and credits instead only staff
 11 reports), and whether allegations of staff misconduct are properly being entered onto the
 12 non-compliance logs. Mr. Warner did not review those issues and his opinions are
 13 therefore not useful to the Court.

14 **Mr. Warner’s Opinions Based on ADA Grievance and Staff Complaint Data**

15 161. Mr. Warner reviewed data provided to him by Defendants showing the total
 16 number of “ADA Grievances/Requests for Accommodation” and “Staff Complaints” filed
 17 at SATF, KVSP, and SVSP in 2017, 2018, and 2019, as well as the percentage filed by
 18 “Armstrong Class Members.” Warner Decl., ¶¶ 16, 19. Mr. Warner did not know how
 19 Defendants had determined whether someone was a member of the *Armstrong* class. *Id.* at
 20 101:14-16.

21 162. Mr. Warner draws sweeping conclusions from this limited data set:

22 (a) “[T]he number of ADA Appeals and Requests for Accommodation
 23 filed by class members at these institutions is in line with what should
 24 be expected based on their respective populations within each
 25 institution. There is no indication that class members are refraining
 26 from requesting accommodations or unable to access the grievance
 27 process.” Warner Decl., ¶ 17.

28 (b) “The data shows that class members are not refraining from accessing

1 the processes in place due to any form of discrimination or retaliation
2 related to their disabilities. If that were true, I would expect to see
3 disproportionately fewer staff complaints submitted by *Armstrong* class
4 members when compared to non-class members, but the data does not
5 show that here.” Warner Decl., ¶ 20.

6 163. Mr. Warner does not explain in his declaration the reasoning underlying his
7 “proportionate” approach, how he determined “what should be expected,” and why his
8 conclusions otherwise were analytically sound. He also does not identify any specialized
9 knowledge or experience for making such conclusions based on the data.

10 164. Mr. Warner’s rudimentary analysis is the same relied on by Defendants in
11 their briefing regarding Richard J. Donovan Correctional Facility, *see* Dkt. No. 3006 at 9,
12 and rejected by this Court, in its September 8, 2020 Order. *See* Dkt. No. 3059 at 30-31.
13 Mr. Warner’s analysis contains the same flaws and omissions, possibly because he had not
14 reviewed the Court’s Order. Ex. 97 at 21:1-15.

15 165. Mr. Warner testified that he did not receive data on whether any of the
16 grievances or appeals had been withdrawn. *Id.* at 110:7-10. Defendants’ own
17 COMPSTAT data, which is publicly available on the CDCR website
18 (<https://www.cdcr.ca.gov/research/compstat/>) and which Defendants produced in response
19 to our request for all information that Mr. Warner relied on, however, shows that in April
20 2020 alone, 124 appeals were withdrawn at SATF, 115 appeals were withdrawn at SVSP,
21 and 47 appeals were withdrawn at KVSP.

22 166. Attached as **Exhibit 101** is a true and correct excerpted copy of the
23 COMPSTAT data for High Security institutions that Defendants produced in response to
24 Plaintiffs’ request for all information that Mr. Warner relied on. Exhibit 101 shows data
25 regarding withdrawn appeals at KVSP, SATF, and SVSP.

26 167. In his deposition, Mr. Warner acknowledged that he did not ask about or
27 include in his analysis the possibility that concerns about retaliation prevented people with
28 disabilities from requesting accommodations or filing staff complaints. Ex. 97 at 111:18-

1 113:1. Instead, he asserted, when asked whether someone with a disability would file a
 2 complaint after they previously had been threatened or beaten up, that he “can’t speak to
 3 that specific issue.” *Id.* at 115:12-18. Mr. Warner testified that he could not recall the
 4 topic of retaliation against incarcerated people “coming up” during his site visits, and that
 5 he did not ask staff whether “they were aware of any inmates afraid” of asking for help.
 6 *Id.* at 91:19-21, 112:1-113:1.

7 168. Mr. Warner seemed oblivious to the dangerous atmosphere prevailing at the
 8 prisons he visited. For example, since June 2019, six incarcerated people have been killed
 9 by other incarcerated people at SATF. *See* Ex. 75. Three of these individuals were deaf or
 10 hard-of-hearing. *Id.* In June 2020 alone, two incarcerated people at SATF were killed by
 11 other incarcerated people. True and correct copies of the two news releases published on
 12 the CDCR website, both entitled, “California Substance Abuse Treatment Facility
 13 Investigating Inmate Death as a Homicide,” are attached hereto as **Exhibits 102 and 103**.

14 169. With regard to the OIG’s 2019 Special Review of Salinas Valley State
 15 Prison’s Processing of Inmate Allegations of Staff Misconduct, Grunfeld RJD Decl.,
 16 Ex. GG, Mr. Warner testified that he “probably read the first third of the report.” Ex. 97 at
 17 89:5-90:9. His declaration, however, does not discuss, and his analysis does not account
 18 for, the Inspector General’s findings regarding incarcerated people’s fear of retaliation for
 19 filing a staff complaint.

20 170. The Court previously found data regarding how many distinct class members
 21 at RJD submitted an ADA request or grievance to be relevant. *See* Dkt. No. 3059 at 31.
 22 Mr. Warner, however, did not review how many distinct *Armstrong* class members
 23 submitted an ADA request or grievance at SATF, SVSP, and KVSP. Ex. 97 at 110:16-
 24 111:4, 115:20-116:8.

25 **Mr. Warner’s Conclusions Regarding Use of Force Are Unsupported**

26 171. Mr. Warner does not appear to have any specialized knowledge, experience,
 27 or training in reviewing use of force. In his past correctional experience, Mr. Warner did
 28 not investigate uses of force and did not review investigation files. *Id.* at 116:25-117:16.

1 He testified that he may have reviewed discipline files, although not as “a specific part of
 2 my role.” *Id.* at 116:25-117:16, 121:2-18. He reported that he has never testified in a use
 3 of force case and could not recall ever being involved in a use of force lawsuit. *Id.* at
 4 118:2-8.

5 172. Mr. Warner conducted incomplete reviews of specific uses of force against
 6 three class members. *See* Warner Decl., ¶¶ 21-33.

7 173. Mr. Warner acknowledged in his deposition that he did not review all
 8 relevant information, including a witness declaration and inconsistent incident reports
 9 submitted by officers. *See* Ex. 97 at 128:11-155:7. He conceded that the opinions
 10 reflected in his declaration were “based on the information that I had available,” and that
 11 the evidence that had been brought to his attention during the deposition merited “closer
 12 attention in terms of what my conclusion was.” *Id.* at 146:22-147:4 He conceded that
 13 video evidence would have been helpful in investigating incidents. *Id.* at 152:22-153:18.

14 174. Mr. Warner acknowledged that “there has been an increase in use of force”
 15 at KVSP, SATF, and SVSP. *Id.* at 183:2-184:25.

16 **Mr. Warner Agrees that CDCR Should Install Fixed Cameras; His View that It**
 17 **Cannot Be Done in 90 Days Is Unsupported**

18 175. In his declaration, Mr. Warner asserts, “I noted during my tours of KVSP,
 19 SVSP, and SATF, that these facilities had limited camera coverage.” Warner Decl., ¶ 35.
 20 In his deposition, however, Mr. Warner conceded that he was aware only of cameras at
 21 KVSP, SVSP, and SATF to monitor “activity outside of the main entryway into the
 22 institutions,” including “deliveries of goods and services.” Ex. 97 at 125:6-126:7, 181:4-
 23 182:6.

24 176. Mr. Warner further opines in his declaration that “there are advantages in
 25 having additional camera coverage” and that “[c]ameras can provide visual evidence in an
 26 investigation, may reduce the frequency of assaults by inmates, and provide remote-video
 27 monitoring.” *See* Warner Decl., ¶ 35. Mr. Warner recommends that “CDCR conduct a
 28 comprehensive analysis of high-risk areas within high security prisons and prioritize the

1 living areas most susceptible to incidents.” *Id.*

2 177. In his deposition, Mr. Warner acknowledged that he “can’t dispute that
3 adding cameras at high-security facilities provides you better ability to provide
4 surveillance, forensic information and would contribute to the ongoing security and safety
5 of the facility.” Ex. 97 at 22:12-23:2. He testified that “the issue is the scope and the time
6 frame to be able to do that.” *Id.*

7 178. In his declaration, Mr. Warner opines: “I do not believe that ninety days is a
8 realistic estimate to install fixed-cameras that are reliable and operational. Instead, I
9 estimate that nine to twelve months, at least, would be necessary for this installation.” *See*
10 Warner Decl., ¶ 35.

11 179. Mr. Warner does not identify any particular specialized knowledge,
12 experience, or training to support his opinions regarding the time period to deploy fixed
13 cameras. *See id.* Mr. Warner has never overseen a camera deployment project. Ex. 97 at
14 24:7-9. He testified that he when working at the private prison corporation MTC, he had
15 not talked to anyone in any detail regarding installation of cameras and “how long it took
16 to get cameras up and running in a facility.” *Id.* at 24:10-25:21.

17 180. At his deposition, Mr. Warner conceded that he is “not aware of all the
18 planning that CDCR has done to be able to make an informed decision” regarding camera
19 deployment, and that he at most could “just ... raise some concerns about the time frame,
20 the number of cameras.” *Id.* at 23:3-13. He further admitted that, “without really
21 sufficiently looking at a detailed work plan, it would be hard for me to say whether 90 days
22 is possible.” *Id.* at 25:22-24. He further admitted that Defendants had not provided him
23 with “a copy of their 2016 contract in which they laid out the plan to put cameras in every
24 prison in the state,” or “documents showing that LAC, for example, is already cabled for
25 cameras[.]” *Id.* at 26:5-12.

26 **Mr. Warner’s Opinions Regarding Body Worn Cameras Lack Support**

27 181. In his declaration, Mr. Warner opines that Defendants should not “be ordered
28 to implement the use of body cameras in its institutions.” *See* Warner Decl., ¶ 36.

1 182. Mr. Warner does not identify any particular basis for his opinions, including
 2 any specialized knowledge, experience, or training, regarding body cameras. In fact,
 3 Mr. Warner conceded that “I have no direct experience with CDCR in knowing what their
 4 specific barriers would be” and instead referenced undefined, general experience
 5 “implementing technology.” Ex. 97 at 35:13-36:8. Mr. Warner was not aware that Los
 6 Angeles County Jail is using body-worn cameras. *Id.* at 28:17-19. He also was not
 7 familiar with the Office of Inspector General’s recent report “involving two officers who
 8 beat a person with mental illness behind a tarp” *Id.* at 33:7-13.

9 183. Instead, the only specific information on which Mr. Warner relies is a
 10 conversation he had with Ricky Dixon, whom he identifies as “Florida’s Deputy Director,”
 11 about the Florida Department of Corrections’ “pilot program using body cameras in a
 12 correctional setting.” *See* Warner Decl., ¶ 36. Mr. Warner acknowledged that Mr. Dixon
 13 said “they were open to reconsidering [body cameras] in the future.” Ex. 97 at 29:20-22

14 184. Mr. Warner agreed that “law enforcement is certainly moving toward
 15 increased use of body cameras for officers to get more detailed view of incidents that
 16 occur.” *Id.* at 33:2-5.

17 **Mr. Warner’s Possible Personal Bias Further Undermines His Testimony**

18 185. Mr. Warner is a CDCR insider, approved for his DJJ position by co-expert
 19 and friend Mr. Cate. *Id.* at 39:7-16. In addition, Mr. Warner testified that he initially was
 20 contacted for this assignment by Monica Anderson, an attorney with the Office of the
 21 Attorney General. *Id.* at 16:2-6, 17:2-14. He testified that she accompanied him on the
 22 drive to his prison site visits, but denied that she participated in the visits or discussed the
 23 *Armstrong* case with him during their trip. *Id.* at 92:20-93:14. According to a July 27,
 24 2020 pleading filed in *Plata v. Newsom*, Case No. 01-1351 JST (N.D. Cal.), a true and
 25 correct copy of which is attached here to as **Exhibit 104**, Ms. Anderson is the Senior
 26 Assistant Attorney General for Defendants in *Plata*, a case that is coordinated with this
 27 one.

28 186. Based on the manner in which Mr. Warner answered questions regarding

1 Ms. Anderson, his trip with her to visit four distant prisons, Ex. 97 at 77:16-25, 92:9-25, and
 2 the lack of any apparent professional reason for Ms. Anderson to join Mr. Warner for hours-
 3 long drives during his multi-day site visits, Mr. Warner may be biased due to a romantic
 4 relationship with Ms. Anderson. *Cf. Madden v. U.S. Dep't of Veterans Affairs*, 873 F.3d
 5 971, 974 (7th Cir. 2017). Mr. Warner refused to answer under oath whether he is in a
 6 romantic relationship with Ms. Anderson. Ex. 97 at 188:8-15.

7 **Defendants' Expert Mr. Baldwin Admitted that He Finds Fixed Cameras Beneficial**
 8 **and that the Wardens at CCI, Corcoran and CIW All Wanted More Fixed Cameras**
 9 **and/or Body Cameras**

10 187. Also a first-time expert, Mr. Baldwin expressed the view that “cameras have
 11 overall been beneficial” in his experience because they “give[] you a broad perspective on
 12 an incident and it — it helps both the staff and the offender.” Ex. 98 at 20:3-6, 26:12-14.
 13 Mr. Baldwin agreed that cameras provide an objective view of what took place during an
 14 incident between staff and incarcerated individuals. *Id.* at 21:6-9. He also said “[c]on-
 15 versely it [also] does not help the staff or offender,” because “when you are in a situation
 16 that is getting tense, your perspective on [an] event changes.” *Id.* at 20:6-7, 22:18-20. In
 17 other words, the camera perspective can cause problems for either staff or incarcerated
 18 people because it captures what truly took place.

19 188. Mr. Baldwin said that he had a conversation with fellow experts Mr. Cate
 20 and Mr. Warner about cameras and other remedies. In the discussion of cameras,
 21 Mr. Baldwin remembered that Mr. Cate “thought, that they were good for limited use[s]”
 22 but said that “my view on cameras is more expansive.” *Id.* at 18:21-2, 19:3-5.
 23 Mr. Baldwin said that his experience with stationary cameras was favorable. *Id.* at 19:12-
 24 17. One of the benefits of cameras is “it gives[] a very clear picture of what happened”
 25 and “people can review it and have much better picture instead of relying on reports or
 26 witness statements.” *Id.* at 20:25-21:1, 21:19-21.

27 189. Mr. Baldwin reported that when he was in corrections in Iowa, he expanded
 28 the use of fixed camera video monitoring systems, adding them to new institutions starting
 in the 1990s and especially in higher security prisons. *Id.* at 37:22-38:14. When he was

1 Director of Corrections in Illinois, Mr. Baldwin acknowledged putting video monitoring
 2 systems into a new prison hospital being built and into the behavioral health units he
 3 opened. *Id.* at 41:5-9. Mr. Baldwin also reported that when faced with reports that
 4 custody staff members were intimidating mental health staff in Illinois, he “had cameras
 5 installed in parking lots by the state police to see if the statements were true ... about
 6 correctional officers or staff confronting [mental health practitioners] in the parking lots”
 7 at the prisons. *Id.* at 212:21-25.

8 190. Mr. Baldwin stated that he spoke to the Wardens of the three prisons he
 9 focused on, CCI, COR and CIW, and that all three Wardens indicated they want more
 10 cameras. Attached hereto as **Exhibit 105** is a true and correct copy of notes from
 11 Mr. Baldwin’s telephonic meetings with the Wardens and key managers at CIW, CCI, and
 12 COR, produced by counsel for defendants on September 18, 2020. The Warden and staff
 13 at CCI told Mr. Baldwin they were getting 30 more cameras to replace broken ones on the
 14 Level IV yards there, and the Warden indicated that he wanted “surface cameras.” *Id.* and
 15 Ex. 98 at 60:23-61:15. The Warden at CIW told Mr. Baldwin he or she wanted both fixed
 16 cameras and body cameras. *Id.* at 83:6-84:4 & Ex. 98. The Warden at Corcoran told
 17 Mr. Baldwin he wanted body cameras with audio. Ex. 98 at 75:4-9 & Ex. 98.

18 **Mr. Baldwin’s View of Wheelchair Riders is Out of Step with Common Sense**

19 191. Notwithstanding his position on cameras, during his deposition, Mr. Baldwin
 20 espoused some extreme positions. For example, when asked if he thought there should be
 21 less use of force against *Armstrong* class members than typical general population
 22 prisoners, he indicated “no.” Ex. 98 at 134:3-134:10. When asked, “would you agree that
 23 someone in a wheelchair is less of a threat to custody staff?” Mr. Baldwin responded “I
 24 would not always agree with that” although he acknowledged that “wheelchair bound
 25 people can be less dangerous than other people.” *Id.* at 134:23-135:14; *see also id.* at
 26 140:12-141:9. He also testified in response to the question “In general do you think people
 27 who are cuffed are less dangerous” saying “No, I do not think people in cuffs are
 28 automatically less dangerous.” *Id.* at 135:24-136:8.

1 **Mr. Baldwin's Review of The Key Issues In His Report Was Superficial**

2 192. Mr. Baldwin reviewed CDCR data, Plaintiffs' class member declarations,
3 and spoke with CDCR staff including the Wardens at COR, CCI and CIW in preparing his
4 Unredacted Declaration of John Baldwin in Support of Defendants' Opposition to
5 Plaintiffs' Motion for a Permanent Injunction at Seven Additional Prisons and Statewide,
6 Dkt. No. 3083-3, filed under seal, ("Baldwin Decl.") at ¶¶ 6-8.

7 193. Mr. Baldwin did not review and/or was not familiar with some of the key
8 data on use of force in CDCR prisons in 2020 that was provided to him by the CDCR
9 Office of Research. Mr. Baldwin's Declaration reports that he did review at least some use
10 of force data. *See* Baldwin Decl., ¶ 7 ("I also reviewed various statistical reports provided
11 by the State of California [which] included CDCR Statistical Reports and CompStat
12 Reports (for example, on inmate populations and staff uses of force)."

13 194. However, during Mr. Baldwin's deposition, when he was shown portions of
14 the CDCR Office of Research data produced to Plaintiffs as one of the documents
15 Mr. Baldwin reviewed in preparing his opinion, he was not familiar with the specific report
16 sections shown to him. Ex. 98 at 112:16-113:15.

17 195. Attached here to as **Exhibit 106** are true and correct copies of two portions
18 of this data that were shown to Mr. Baldwin during his deposition. Ex. 98 at 113:20-
19 118:25. The first two pages from this report shown to Mr. Baldwin, pages 5 and 6, set
20 forth data for the first six months of 2020 of the number of incidents of OC pepper spray
21 use at each CDCR prison. Ex. 106. The data show that only six prisons had more than
22 100 incidents where OC pepper spray was used in the first six months of 2020 (in order of
23 total number of incidents), most of them the subject of this motion: SVSP (209 incidents),
24 CCI (163 incidents), KVSP (159 incidents), SAC (150 incidents), HDSP (133 incidents)
25 and LAC (132 incidents). *Id.* Mr. Baldwin acknowledged that as a Director of Corrections
26 he would have found this kind of data valuable. Ex. 98 at 115:17-20.

27 196. CDCR also uses a weapon called a 40mm launcher which fires rubber or
28 bean bag projectiles at prisoners. *See* CDCR Departmental Operating Manual (DOM),

§ 51020.14 Data on the use of 40 mm launchers for the first six months of 2020 was included in the same data set as the OC pepper spray data, at pages 12 and 13 of the report. Ex. 106. The data shows that two CDCR prisons with the most incidents in which a 40 mm launcher was used against incarcerated individuals in the first six months of 2020 were CCI-Tehachapi with 100 incidents and KVSP with 79 incidents. Ex. 106. This was also shown to Mr. Baldwin, who was not familiar with the report either, and he admitted that as Director of Corrections he would have found this to be valuable data. Ex. 98 at 115:17-20.

197. Mr. Baldwin acknowledged that his review of the 1824 process did not include a review of any information that would allow him to determine whether people were actually able to obtain accommodations through 1824 requests. *Id.* at 159:13-17. He was not sure whether he reviewed any 1824 appeals. *Id.* at 160:21-25.

Mr. Baldwin Is Not A Use of Force Expert

198. Mr. Baldwin has no background on use of force matters. He started out as a business manager and never served as a correctional officer or as part of the security personnel at a prison. *Id.* at 26:15-23. He never reviewed use of force incidents as a first line custody supervisor. *Id.* at 29:2-7. He never served as a Warden. *Id.* at 28:19-20. When he was Deputy Director of the Iowa Department of Corrections, he would review cases 2 to 4 times per year to make sure he supported the proposed sanction in the case from the personnel department. *Id.* at 31:22-32:1. He did not agree or disagree when asked if he considers himself a use of force expert, rather, he said “I consider myself to have [] a working knowledge of use of force instances.” *Id.* at 32:2-11.

199. Mr. Baldwin misstated the selection criteria for use of force cases to be directed to AIMS. *Id.* at 58:20-24 (“Way I understand it, is if there is reasonable expectation, that the incident happened, it stays at the institution. If there is otherwise it would go to [AIMS] for investigation.”) This is the opposite of the true AIMS policy.

Mr. Baldwin’s Interviews Showed AIMS Is Not Being Fully Utilized at CCI and CIW

200. Mr. Baldwin testified that when he spoke with Amy Miller, one of the CDCR officials overseeing the implementation of AIMS, that AIMS was introduced for

1 Northern CDCR institutions in January and for Southern CDCR institutions beginning
 2 April 20, 2020. Ex. 98 at 56:24-57:19. At the time of the interview with Mr. Baldwin on
 3 August 5, 2020, Ms. Miller reported that they were just getting all their AIMS staff jobs
 4 filled. *Id.* at 89:15-25.

5 201. Mr. Baldwin also testified that when he spoke with CCI in early August, they
 6 had not sent any incidents to AIMS, even though the program had been operating in that
 7 region since April 20, 2020. Ex. 98 at 55:3-12, 57:7-19 & Ex. 105. He also testified that
 8 the Warden of CIW also told him in early August they had only sent two to three cases to
 9 AIMS total. Ex. 98 at 86:18-24 & Ex. 106. He did not include this information about
 10 AIMS utilization in his declaration. He apparently did not ask the Corcoran Warden about
 11 this issue, as it is not reflected in his notes from the call. *See* Ex. 105.

12 **The OIG Has Continued to Criticize CDCR's Investigations into and Discipline of**
 13 **Officers Accused of Serious Misconduct Against Incarcerated People**

14 202. As part of our ongoing monitoring of disability-related staff abuse against
 15 incarcerated people, my colleagues and I speak from time to time with Roy Wesley,
 16 California's Inspector General. We also closely follow OIG reports. By statutory
 17 mandate, these reports may not reveal the individual names of officers involved and
 18 therefore also omit the name of the prison. On August 19, 2020, the OIG published
 19 Sentinel Case Number 20-04. In its report, the OIG found that Defendants made egregious
 20 errors in judgment and relied on poor legal advice when Defendants failed to dismiss two
 21 officers who were shown on video surveillance footage to have brutalized a *Coleman* class
 22 member on November 21, 2018. *See* Grunfeld New Material Reply, Dkt. No. 3051-5.
 23 Based on a conversation with Mr. Wesley, I learned confidentially that this report involved
 24 

25 203. On August 14, 2020, Plaintiffs' counsel served Defendants with a request for
 26 production of documents relating to the incident described in Sentinel Case Number 20-04.
 27 On August 31, 2020, Defendants produced responsive documents to Plaintiffs' request.

28 Attached hereto as **Exhibit 107** is a true and correct copy of the raw surveillance footage

[3618118.1]

1 produced by Defendants relating to the November 21, 2018 incident, along with a
2 Windows application produced by Defendants that allows for viewing of the raw footage
3 saved in a proprietary file format. For the convenience of the Court, attached hereto as
4 **Exhibits 108, 109, 110, 111, 112, and 113** are true and correct copies of screen recordings
5 of the video surveillance footage produced by Defendants from one perspective that shows
6 the perspective of five individual cameras, as well as recordings of each individual camera.
7 This video surveillance shows two officers engage in a coordinated attack on a person with
8 a disability behind a tarp. The beating is difficult to observe fully due to the lack of body
9 worn cameras. Neither officer lost his job.

10 204. On September 14, 2020 I called Mr. Wesley to discuss the Declaration of
11 Matthew Cate. In our call, Mr. Wesley described his frustration with the manner in which
12 the AIMS process was being implemented across the state. He stated that CDCR used
13 their Budget Change Proposal (“BCP”) to obtain \$10 million from the Department of
14 Finance in order to review 6,300 grievances per year in conjunction with the OIG. After
15 CDCR’s BCP was granted, Mr. Wesley stated that he felt that his office was being cut out
16 of the review process. He expressed that there is no outside oversight into which
17 allegations are routed through the AIMS process, and the warden is effectively the only
18 decision-maker, rendering AIMS no better than the former system. Mr. Wesley also
19 expressed surprise that Mr. Cate claims to have interviewed him. Mr. Wesley described a
20 29-minute telephone conversation that was mostly pleasantries. He did not know he was
21 being interviewed about any pertinent issue.

22 205. I spoke again with Mr. Wesley by telephone on September 21, 2020. In our
23 call, Mr. Wesley confirmed confidentially that Sentinel Report No. 20-01, attached as
24 Exhibit KK to the Grunfeld RJD Decl., Dkt. No. 2922-1, involved [REDACTED]. Mr. Wesley also
25 stated that he intended to issue reports in the near future regarding deficiencies in the
26 DART and AIMS processes. He also expressed to me that AIMS is “pretty broken” and
27 has been implemented by CDCR “to maintain the status quo.”

28 206. Attached hereto as **Exhibit 114** is a true and correct copy of an August 20,

2020 letter from Penny Godbold to Tamiya Davis and Joanna Hood regarding “Problems with AIMS.” In that letter, Plaintiffs’ counsel outlined concerns similar to Mr. Wesley’s: that the new AIMS process, as its being implemented in the field, suffers from the same problems that plagued the old staff misconduct investigative and disciplinary system. Ms. Godbold’s letter includes a class member letter filed in this Court (Dkt. No. 3036) that suggests that allegations of staff misconduct that should have been routed through AIMS according to the AIMS regulations were instead being investigated by institutional staff. Even worse, the warden who determined that the allegation should be investigated in-house rather than through AIMS was the subject of the allegation.

Defendants’ Interviews of the Class Member Declarants Have Been Biased and Incompetent, and Defendants Still Refuse to Provide Plaintiffs’ Counsel with a Complete Explanation of the Purpose of these Interviews

207. As discussed in the Declaration of Penny Godbold in support of Plaintiffs’ RJD Reply (“Godbold Reply Decl.”), Defendants have referred the allegations contained in the fifty-four RJD class member declarations to a special team of OIA investigators referred to as the Declarant Allegation Review Team (“DART”), specifically assembled for the purpose of reviewing and investigating Plaintiffs’ declarations. Godbold Reply Decl., Dkt. No. 3024-2, ¶ 2.

208. As of the filing of this declaration, Plaintiffs’ counsel has participated in approximately thirty interviews of declarants conducted by DART investigators; the OIG, while originally kept in the dark, has also now participated in a number of these interviews.

209. While Plaintiffs’ counsel encourages Defendants’ attempts to investigate the allegations contained in the declarations and take appropriate personnel action in response, we are concerned about the manner in which the DART team has conducted these interviews. Defendants have not informed Plaintiffs’ counsel of the purpose of the DART interviews, and whether these interviews are part of neutral fact-gathering or instead aimed at gathering evidence for their defense in the ongoing litigation. I raised this concern with Defendants in an email on August 5, 2020, a true and correct copy of which is attached

1 hereto as **Exhibit 115**.

2 210. We are also concerned that Defendants are failing to notify the declarants
3 about the purpose of the interviews in advance. On one such occasion, the declarant did
4 not bring his glasses to the interview because he did not know why he was being
5 interviewed. Because he could not see, he was unable to read his declaration during the
6 interview. Plaintiffs' counsel is also concerned that the declarants are not being given
7 access to their declarations and other documents that investigators rely upon when
8 questioning the declarants. I raised these concerns in an email to Tamiya Davis and
9 Patricia Ferguson on August 20, 2020. Ex. 115. On September 10, 2020, Ms. Davis sent
10 me an email, a true and correct copy of which is attached hereto as **Exhibit 116**, stating
11 that CDCR was still considering whether to allow the declarants to refer to their
12 declarations during the course of their interviews. Ms. Davis also stated that she was
13 "unclear as to what is concerning you regarding the purpose of the interviews. CDCR has
14 an obligation to review and investigate the serious allegations raised in the declarations,
15 and is doing so. These interviews are part of that process." Defendants have failed to
16 explain this "process," including whether they are producing any investigative work
17 product or reports in connection with the DART interviews. Defendants have not stated
18 whether they intend to use the DART interviews primarily for litigation purposes, or
19 instead, to investigate and hold staff accountable for the misconduct described in the
20 declarations. Defendants also have failed to describe the scope of the DART inquiries,
21 including whether DART investigators will also be interviewing staff members and
22 witnesses to the incidents discussed in the DART interviews, and whether DART will be
23 extended to non-RJD declarants.

24 211. Plaintiffs' counsel remains concerned that the DART investigators can be
25 biased and incompetent in ways that undermine their ability to perform thorough and
26 neutral investigations into the allegations contained in the declarations. The problems with
27 the DART interviews that were initially raised in the Ms. Godbold's Declaration—*e.g.*,
28 that the DART investigators ask leading questions designed to exonerate staff and harp on

1 immaterial “inconsistencies” between the declarant’s statements that, in fact, are not
 2 inconsistent at all—also appear to be present in subsequent DART interviews that I and my
 3 colleagues have staffed. *See* Godbold Reply Decl., ¶¶ 6-9.

4 **Defendants Have Interviewed Multiple Declarants Outside of Our Presence About**
 5 **the Subject Matter of their Declarations**

6 212. On May 7, 2020, I sent a letter to Defendants, a true and correct copy of
 7 which was attached to the Grunfeld Statewide Declaration, Dkt. No. 2948-1, Ex. D,
 8 notifying Defendants that Plaintiffs’ counsel intended to share with them nine declarations
 9 from people with disabilities about staff misconduct at LAC. In that letter, I admonished
 10 Defendants:

11 Pursuant to the prohibition on communications with a represented party,
 12 neither Defendants nor Defendants’ counsel may communicate with the
 13 declarants or class members referenced in the declarations regarding the
 14 allegations in the declarations. *See* California Rule of Professional Conduct
 4.2. Any communications with the declarants or class members referenced
 in the declarations about the content of the declarations must be made
 through Plaintiffs’ counsel or with Plaintiffs’ counsel present.

15 213. Before sharing declarations with Defendants describing misconduct at other
 16 prisons, including CCI, COR, KVSP, SATF, and CMF, I sent similar letters on May 21,
 17 2020, May 26, 2020, August 21, 2020, and September 21, 2020. *See* Ex. 1. In each letter,
 18 I included the same admonishment.

19 214. Despite my admonishments, without the consent of or advance warning to
 20 Plaintiffs’ counsel, Defendants have interviewed at least four declarants outside of our
 21 presence:

- 22 • Mr. [REDACTED], whose declaration was shared with Defendants on May 29, 2020,
 23 was interviewed by Defendants’ employees 12 days later on June 10, 2020
 24 according to a document produced by Defendants, a true and correct
 excerpted copy of which is attached hereto as **Exhibit 117**.
- 25 • Mr. [REDACTED], whose declaration was shared with Defendants on May 15, 2020,
 26 was interviewed by Defendants’ employees 54 days later on July 8, 2020
 27 according to a document produced by Defendants, a true and correct
 28 excerpted copy of which is attached hereto as **Exhibit 118**.

- 1 • Mr. [REDACTED], whose declaration was shared with Defendants on May 7, 2020, was interviewed by Defendants' employees 21 days later on May 28, 2020 according to a document produced by Defendants, a true and correct excerpted copy of which is attached hereto as **Exhibit 119**.
- 2 • Mr. [REDACTED], whose declaration was shared with Defendants on May 7, 2020, was interviewed by Defendants' employees 35 days later on June 11, 2020 according to a document produced by Defendants, a true and correct excerpted copy of which is attached hereto as **Exhibit 120**.

6 **Defendants' Contract with the California Correctional Peace Officers Association** 7 **Thwarts Accountability**

8 215. The California Correctional Peace Officers Association ("CCPOA")
9 represents CDCR's correctional officers. Their latest contract with the State of California,
10 effective from July 3, 2020 to July 2, 2022 ("2020 contract") is partially available on the
11 California Department of Human Resources ("CalHR") website. Unit 6 – Corrections,
12 California Department of Human Resources (accessed on June 23, 2020),
13 <https://www.calhr.ca.gov/labor-relations/Pages/Unit-06-Corrections.aspx>. In an email to
14 Jack Rhein Gleiberman, a paralegal at our firm, a true and correct copy of which is
15 attached hereto as **Exhibit 121**, CalHR represented that the 2020 contract posted on its
16 website consists solely of provisions that differ from the July 3, 2019–July 2, 2020 contract
17 ("2019 contract"), and that all other provisions are rolled over from the 2019 contract to
18 the 2020 contract. True and correct copies of pertinent excerpts of the 2020 and 2019
19 contracts and sideletter discussed below are attached hereto as **Exhibit 122**.

20 216. Section 9.06, subsection A of the 2019 contract requires the purge of notices
21 of adverse action; documentation leading to, supporting, or proposing adverse action; and
22 all State Personnel Board ("SPB") decisions upon an officer's written request after three
23 years from the effective date of the adverse action, unless there is a litigation hold on the
24 file. The provision reads:

25 Upon the Bargaining Unit 6 member's written request, all official Notices of
26 Adverse Action, all documentation leading to or supporting or proposing
27 such action, and all SPB decisions rendered in such cases will be purged
28 from the employee's official personnel file(s) after three (3) years from the
effective date of the adverse action, unless there is a litigation hold on the
file.

1
2 See Section 9.06, subsection A. The sections of the 2020 contract available on the CalHR
3 website do not include this Section; based on the CalHR email, this subsection will be the
4 same in the 2020 contract.

5 217. Similarly, under subsection B of the same section, CDCR must purge
6 citizen's complaints, reports, and findings upon an officer's written request after five
7 years:

8 Upon the employee's written request, all citizen's complaints, reports and
9 findings related to Penal Code Section 832.5 shall be purged from the
Department's files after a period of five (5) years.

10 See *id.*, subsection B.

11 218. This section of the contract is consistent with CDCR's "Administration of
12 Offender Services, Division of Administrative Services, Human Resources retention
13 schedule," a true and correct copy of which is attached hereto as **Exhibit 123**, which only
14 requires CDCR to retain adverse action records for three years. The agency must retain
15 supervisory files for one year following the employee's transfer or termination from
16 CDCR.

17 219. Section 9.09, subsections C through F of the CCPOA contract requires
18 Defendants to provide their employees documentation when a complaint is filed against
19 them, including a copy of the 602 or other complaint filed against them, video or audio
20 recordings of statements or complaints made against them, and an opportunity to view a
21 video recording of a cell extraction prior to the interview. Section 9.09, subsection G
22 generally requires Defendants to complete any investigations into custody staff misconduct
23 within twelve months pursuant to the Peace Officers Bill of Rights ("POBOR"),
24 incorporated in Government Code Sections 3304 and 3309.5.

25 220. According to Section 9.16 (Video Recordings), subsection C (Misconduct,
26 Administrative, Criminal & DFIT Investigations), custody staff is permitted to review
27 videos relating to incidents of staff misconduct so long as the Hiring Authority has not
28 initiated the 989 process or administrative action is contemplated. If the Unit 6 employee

(correctional officer) is denied the opportunity to review any video on those grounds, the Hiring Authority may not ask further questions or clarifications of the staff member.

221. In routine matters not involving allegations of misconduct, pursuant to Section 9.16, subsection B, Defendants allow their employees to review video evidence after writing and submitting their reports, at which point, they are entitled to submit a supplemental report after viewing the video evidence.

222. Section 8.05 states, “All employees shall be provided with a minimum of sixty (60) hours of annual training,” and specifies, “The sixty (60) hours of training is divided between forty-eight (48) hours of Off-Post Training Sessions (OPTS) and twelve (12) hours of On-the-Job Training (OJT).” However, Defendants recently entered into a Sideletter XX COVID-19 Pandemic Recession, Section II(A) that modifies this provision in the 2020 contract. The sideletter states: “Thirty-two (32) hours of the off-post training identified in Article 8.05 7k Training Program are converted to, for example, non-classroom, On-the-Job or online training consistent with CDCR’s Modified Training Program.” Ex. 122. This modification effectively allows CDCR to reduce the amount of off-post training, i.e., classroom training, from 48 hours per year to just 16 hours per year.

223. In telephonic conversations regarding discovery issues and the protective orders in these Motions, Mr. Lodholz has informed me that the CCPOA has been granted access to all confidential disciplinary and investigative files in CDCR’s possession as a result of a state court settlement with CDCR. Mr. Lodholz also informed me that his office was producing to the CCPOA copies of all personnel and investigative documents marked “highly confidential” and produced to Plaintiffs in response to our November 2019 and April 2020 requests for production of documents.

Defendants’ Employees Call for Violence Against Incarcerated People on Social Media, and Defendants Have Not Taken Adequate Steps to Rectify the Problem With their Culture

224. Attached hereto as **Exhibit 124** is a true and correct copy of an August 26, 2020 letter from Penny Godbold to Joanna Hood and Tamiya Davis, counsel for Defendants, titled “Demand for Investigation into Unprofessional Online Conduct by

1 CDCR Employees.” Plaintiffs previously reported on unprofessional online conduct by
 2 CDCR employees in the Statewide Motion, where we raised concerns that The Late Relief,
 3 an Instagram account, openly mocks and threatens incarcerated people with disabilities
 4 from the perspective of CDCR custody staff. *See* Grunfeld Statewide Decl., Dkt. No.
 5 2948-1, ¶ 42 & Ex. W; *see also* <https://www.instagram.com/thelaterelief/>, last accessed
 6 September 20, 2020. In the August 26, 2020 letter, Plaintiffs’ counsel reported that RJD
 7 staff made unprofessional comments on The Late Relief’s page and Facebook that incited
 8 violence and called for the death of an incarcerated person who was reportedly involved in
 9 an August 16, 2020 incident that occurred at RJD. *See*
 10 [https://www.cdcr.ca.gov/news/2020/08/16/inmate-attack-on-correctional-officers-at-](https://www.cdcr.ca.gov/news/2020/08/16/inmate-attack-on-correctional-officers-at-richard-j-donovan-correctional-facility-under-investigation/)
 11 [richard-j-donovan-correctional-facility-under-investigation/](https://www.cdcr.ca.gov/news/2020/08/16/inmate-attack-on-correctional-officers-at-richard-j-donovan-correctional-facility-under-investigation/), last accessed September 10,
 12 2020.

13 225. On September 9, 2020, one day after the Court granted in part Plaintiffs’
 14 RJD Motion, The Late Relief posted about the Court’s Order. Attached hereto as
 15 **Exhibit 125** are true and correct copies of The Late Relief’s September 9, 2020 post and
 16 comments left on the post.

17 226. Attached hereto as **Exhibit 126** is a true and correct copy of a *Los Angeles*
 18 *Times* article, published on September 17, 2020, titled “California prison guard union
 19 places bull’s-eye on Black lawmaker’s photo in political ad.” The advertisement depicts
 20 CCPOA President Glen Stailey pointing at an image of crosshairs covering the face of
 21 Assemblyman Reggie Jones-Sawyer, who is Black.

22 **Review of OIG Monitoring of CDCR’s Investigative and Disciplinary Processes**

23 227. The OIG maintains a public database of cases reviewed as part of its
 24 semiannual reporting on Defendants’ internal investigative and disciplinary processes, as
 25 mandated by California Penal Code sections 6126(a) and 6133(b)(1). *See* OIG Data
 26 Explorer, Case Summaries, at <https://www.oig.ca.gov/data-explorer/#/dmu/caseSummaries>
 27 (last accessed September 19, 2020). In its review, the OIG assesses the performance of the
 28 three entities within CDCR responsible for conducting internal investigations and handling

1 the employee disciplinary process: Hiring Authorities, the Office of Internal Affairs, and
 2 CDCR attorneys.

3 228. The Data Explorer includes the following information about each of the
 4 cases monitored by the OIG:

5 (a) The date of the incident, the OIG case number, the type of allegations
 6 involved, and the type of investigation conducted (e.g., administrative investigation,
 7 criminal investigation, direct adverse action, or subject-only inquiry);

8 (b) A summary of the incident;

9 (c) The disposition of the case, including whether the allegations were
 10 sustained, whether the Hiring Authority elected to discipline the subject of the
 11 investigation, and whether the discipline was modified after being imposed at the *Skelly* or
 12 State Personnel Board stages; as well as the OIG's evaluation of the disposition of the case;

13 (d) The OIG's overall case rating, whose possible values are poor (red),
 14 satisfactory (green), or superior (blue); and

15 (e) The OIG's rating for six performance indicators used in its
 16 methodology, whose possible values are poor, satisfactory, or superior:

17 **Indicator 1:** How well did the department discover and refer
 18 allegations of employee misconduct?

19 **Indicator 2:** How well did the Office of Internal Affairs process
 20 and analyze allegations from the hiring authorities?

21 **Indicator 3:** How well did the department investigate allegations
 22 of employee misconduct?

23 **Indicator 4:** How well did the department determine its findings
 24 for alleged misconduct and process the case?

25 **Indicator 5:** How well did the department attorney provide legal
 26 advice during the Office of Internal Affairs Central
 27 Intake Panel meeting and the Investigative process?

28 **Indicator 6:** How well did the department provide legal
 representation during litigation?

229. Mr. Gleiberman, working under my direction and supervision, reviewed the
 OIG's Data Explorer for cases monitored and closed by the OIG from January 1, 2019

1 through June 30, 2020 (“monitoring period”). By using the built-in filter features,
 2 Mr. Gleiberman found that the OIG reviewed and closed a total of 481 cases during the
 3 monitoring period.

4 230. For each of these 481 cases, Mr. Gleiberman reviewed the summary of the
 5 incident provided by the OIG to determine whether the alleged misconduct involved either
 6 intentional harm or negligence by custody staff toward incarcerated people in the custody
 7 of CDCR. For the purpose of determining which allegations involved harm or negligence
 8 toward incarcerated people, Mr. Gleiberman only included allegations of custody staff
 9 misconduct against people incarcerated in CDCR custody; he did not include misconduct
 10 against parolees, misconduct committed by medical or other staff in CDCR, or misconduct
 11 against offenders incarcerated in the Division of Juvenile Justice because those types of
 12 misconduct are not at issue in the Motions. Mr. Gleiberman also did not include
 13 allegations that staff had engaged in misconduct with the consent of incarcerated people
 14 (e.g., a consensual sexual relationship or conspiracy to introduce contraband into an
 15 institution).

16 231. Mr. Gleiberman then created a spreadsheet, a true and correct copy of which
 17 is attached hereto as **Exhibit 127**, containing all cases monitored and closed by the OIG
 18 during the monitoring period in which the allegation at issue involved harm or negligence
 19 by custody staff toward incarcerated people. Mr. Gleiberman found that, of the 481 cases
 20 monitored and closed by the OIG during the monitoring period, only 116 (24.1%) involved
 21 custody staff misconduct toward incarcerated people. The remaining 365 cases (75.9%)
 22 did not involve allegations of custody staff misconduct toward incarcerated people.

23 232. The OIG found that the Department’s overall performance in 28 of the 116
 24 (24.1%) cases was “poor.” The OIG issued a “poor” rating for at least one of the six
 25 performance indicators in 73 out of 116 cases (62.9%).¹⁰ For 45 out of 116 cases (38.8%),
 26

27 ¹⁰ If the OIG did not assign a rating for a particular indicator because that indicator was not
 28 applicable to the case, the indicator is blank in the spreadsheet.

1 the OIG found that CDCR performed poorly in determining its findings for alleged
 2 misconduct and processing the case (OIG Indicator 4). The OIG did not issue an overall
 3 “superior” rating for any of the 116 cases involving misconduct against incarcerated
 4 people during the monitoring period.

5 233. Five cases monitored by the OIG during the monitoring period have also
 6 been reviewed and discussed by Plaintiffs’ expert, Mr. Schwartz. Even though the case
 7 reports made public by the OIG are anonymized, it was possible to determine that the cases
 8 discussed by Mr. Schwartz were the same as those reviewed by the OIG by comparing the
 9 date of the incidents and the summary provided by the OIG. For each of these cases
 10 discussed below, the summary and date provided by the OIG matches the information for
 11 cases reviewed by Mr. Schwartz. For each of these cases, Mr. Schwartz and the OIG
 12 disagreed regarding the Department’s performance. In all five cases, the OIG approved of
 13 parts of the Department’s performance where Mr. Schwartz found the Department had
 14 performed poorly.

15 234. Attached hereto as **Exhibit 128** is a true and correct copy of the OIG’s case
 16 summary of OIG Case Number 19-0031468-DM. This case corresponds to Office of
 17 Internal Affairs Case Number S-LAC-379-19-A, discussed in the Schwartz Reply Decl.,
 18 ¶¶ 193-221. Mr. Schwartz found that “[t]he correct conclusion in this case, based on
 19 ample evidence, is that two staff used excessive force on Mr. [REDACTED] in order to retaliate for
 20 his verbal statements to them and then they and two other staff failed to report the
 21 unnecessary and excessive force and wrote false reports and then provided false
 22 information during interviews with an OIA investigator.” *Id.* ¶ 221. According to the case
 23 summary, however, the OIG concurred with the Hiring Authority’s determination that
 24 there was insufficient evidence to sustain the allegation (Indicator 4). *See* Ex. 128.

25 235. Attached hereto as **Exhibit 129** is a true and correct copy of the OIG’s case
 26 summary of OIG Case Number 18-0026277-DM. This case corresponds to Office of
 27 Internal Affairs Case Number S-RJD-144-18-A, discussed in Mr. Schwartz’s Declaration
 28 at ¶¶ 205-211. Although Mr. Schwartz found that the disciplinary outcome in this case

1 was satisfactory, he found that “the OIA investigation itself is biased and incompetent.”
 2 Schwartz Decl., ¶ 209. According to the case summary, however, the OIG’s review of the
 3 OIA investigation (Indicator 3) found “no major deficiencies, resulting in a satisfactory
 4 assessment.” Ex. 129.

5 236. Attached hereto as **Exhibit 130** is a true and correct copy of the OIG’s case
 6 summary of OIG Case Number 19-0028406-DM. This case corresponds to Office of
 7 Internal Affairs Case Number S-RJD-439-18-A, discussed in Mr. Schwartz’s Declaration
 8 at ¶¶ 182-196. Mr. Schwartz found that “the Officer and Sgt. incident reports and
 9 interviews make no sense and the investigation is both incomplete and incompetent.”
 10 Schwartz Decl., ¶ 187. According to the case summary, however, the OIG’s review of the
 11 OIA investigation (Indicator 3) found “no major deficiencies, resulting in a satisfactory
 12 assessment.” Ex. 130. The OIG and Mr. Schwartz agreed that the Hiring Authority did
 13 not make appropriate findings based upon the evidence gathered in the case. Ex. 130;
 14 Schwartz Decl., ¶ 194 (“Even as bad as the OIA investigation was, some facts were clearly
 15 established that should have been the basis for findings of staff misconduct.”). Despite
 16 finding that the Hiring Authority’s disciplinary determinations were poor (Indicator 4), the
 17 OIG inexplicably “did not seek a higher level of review,” even though the OIG may
 18 challenge the outcome of a case through multiple levels of executive review, up to and
 19 including the Secretary of CDCR. *See* Department Operations Manual, § 33030.14.

20 237. Attached hereto as **Exhibit 131** is a true and correct excerpted copy of the
 21 Appendices to the July-December 2018 Semiannual Disciplinary Monitoring Report,
 22 issued by the OIG on June 6, 2019. The excerpt includes the summary of OIG Case
 23 Number 18-0027077-IR. This case corresponds to Office of Internal Affairs Case Number
 24 S-RJD-427-17-A, discussed in Mr. Schwartz’s Declaration at ¶¶ 139-154. Mr. Schwartz
 25 found that the OIA investigation was biased, untimely, and incomplete. Schwartz Decl.,
 26 ¶¶ 149, 152. According to the case summary, however, the OIG issued the case a
 27 substantive rating of “sufficient.” Ex. 131. In its analysis of the Investigative Phase, the
 28 OIG only critiqued the failure of the medical Hiring Authority to timely review the

1 investigation into medical staff misconduct. *Id.*

2 238. Attached hereto as **Exhibit 132** is a true and correct excerpted copy of the
 3 Appendices to the January-June 2018 Semiannual Disciplinary Monitoring Report, issued
 4 by the OIG on November 20, 2018. The excerpt includes the summary of OIG Case
 5 Number 17-0023834-IR. This case corresponds to Office of Internal Affairs Case Number
 6 S-RJD-086-19-A, discussed in Mr. Schwartz's Declaration at ¶¶ 197-204. Mr. Schwartz
 7 found that the OIA investigation was biased and an example of how "CDCR's flawed
 8 process and approach" leads to an inability to sustain findings of staff misconduct against
 9 incarcerated people. Schwartz Decl., ¶¶ 202, 204. According to the case summary,
 10 however, the OIG issued the case a substantive rating of "sufficient." Ex. 132. In its
 11 analysis of the Investigative Phase, the OIG only critiqued the Hiring Authority's delay in
 12 referring the matter to OIA. *Id.*

13 **Plaintiffs' Review of the Accountability Logs Involved in This Motion**

14 239. Ellie Heywood, a paralegal working under my direction and supervision,
 15 reviewed DAI Employee Non-Compliance Logs ("Accountability Logs") for the months of
 16 January 2016 through July 2020, which is the most recent log produced to Plaintiffs'
 17 counsel by Defendants, for LAC and COR.

18 240. Many of the allegations that we raised in advocacy letters and tour reports
 19 about class members being denied access to programs, services and activities, were not
 20 included. For example, Defendants failed to log the following allegations:

- 21 • [REDACTED], **EOP, LAC**: On August 27, 2019, Mr. [REDACTED] requested
 22 to be housed closer to the medication window because he
 23 was undergoing chemotherapy at the time and struggled to walk long
 24 distances. In response, an officer mocked his appearance and assaulted him,
 25 throwing him out of his wheelchair and beating him. *See* Freedman
 26 Statewide Decl., Ex. 53.
- 27 • [REDACTED] **CMS, LAC**: On December 1, 2018, an
 28 [REDACTED] Durable Medical Equipment ("DME") from
 him, including his TENS unit, nasal inhaler, therapeutic boots, and braces.
 Officers then assaulted him after he requested medical attention for the pain
 he was in without his DME. Plaintiffs' counsel first raised this incident in an
Armstrong monitoring tour report of LAC, issued on July 16, 2019. *See*
 Nolan Decl., Ex. K.

- 1 • [REDACTED], DPW, LAC: On November 14, 2018, LAC
2 [REDACTED] ins, pulled him out of his wheelchair
3 the cell door. The Officers then took the cuffs off, making Mr. [REDACTED]
4 fall backwards into his cell, laughing and remarking “you stood up now”
5 along with a racial slur. Plaintiffs’ counsel first raised this incident in an
6 *Armstrong* monitoring tour report of LAC, issued on March 19, 2019. *See*
7 Nolan Decl., Ex. I.
- 8 • [REDACTED] DP, CCCMS, COR: During a body search, an
9 Mr. [REDACTED]’s legs further apart even after Mr. [REDACTED] told
10 him that he was unable to spread them apart because of his mobility
11 disability. The officer then assaulted Mr. [REDACTED], slamming him to the ground
12 and fracturing his nose. Plaintiffs’ counsel first raised this incident in an
13 advocacy letter to Defendants, dated February 12, 2020. *See* Freedman RJD
14 Decl., Ex. 81.
- 15 • [REDACTED] DP, COR: Officers instructed Mr. [REDACTED] to
16 Mr. [REDACTED] explained that he needed waist chains in
17 order to use his walker and walk safely. Officers proceeded to force
18 Mr. [REDACTED]’s arms behind his back. They then pulled Mr. [REDACTED] by his
19 clothes and zip tied his hands so tightly that they began to turn purple.
20 Plaintiffs’ counsel raised this incident in an *Armstrong* monitoring tour
21 report of COR, issued on June 29, 2020. *See* Ex. 37.

22 Demographics of the Statewide Prisons

23 241. Attached hereto as **Exhibit 133** is a true and correct copy of the publicly
24 accessible “Weekly Report of Population as of Midnight, September 2, 2020” showing the
25 population at each CDCR institution as of September 2, 2020 and downloaded from
26 [https://www.cdcr.ca.gov/research/wp-](https://www.cdcr.ca.gov/research/wp-content/uploads/sites/174/2020/09/Tpop1d200902.pdf)
27 [content/uploads/sites/174/2020/09/Tpop1d200902.pdf](https://www.cdcr.ca.gov/research/wp-content/uploads/sites/174/2020/09/Tpop1d200902.pdf) on September 8, 2020.

28 242. Attached hereto as **Exhibit 134** is a true and correct copy of the “Disability
Inmate Counts,” showing the population of *Armstrong* class members at each CDCR
institution as of September 1, 2020, which was produced by Defendants on September 8,
2020.

243. Attached hereto as **Exhibit 135** is a true and correct copy of excerpts of data
from the “Summary of Mental Health Population by Institution and Level of Care (H1)” as
of August 25, 2020, produced by Defendants’ counsel in *Coleman v. Newsom* on
August 25, 2020.

244. Attached hereto as **Exhibit 136** is a true and correct copy of “Disability
Inmate Counts,” showing the population of *Clark* class members with developmental

disabilities at each CDCR institution as of September 1, 2020, which was produced by Defendants' counsel in *Clark v. California* on September 1, 2020.

245. Mr. Gleiberman, under my direction and supervision, reviewed "PLO High Risk Population 20200702," a spreadsheet produced by California Correctional Health Care Services ("CCHCS") to Plaintiffs' counsel in *Coleman v. Newsom* on July 6, 2020. Mr. Gleiberman filtered the spreadsheet by institution and then determined the number of class members who are designated medical high risk level 1 or 2 at each of the prisons that are the subject of the Statewide Motion.

246. Mr. Gleiberman then created a table summarizing in relevant parts of the data contained in Exhibits 133-136.

Prisons	Total Population	Armstrong Population (%)	Coleman Population (%)	Clark Population (%)	Medical High Risk Population (%)
CCI	3,308	113 (3.42%)	1168 (35.31%)	0	176 (5.32%)
CMF	2,147	822 (38.29%)	1303 (60.69%)	186 (8.66%)	1278 (59.52%)
COR	3,315	224 (6.76%)	1301 (39.25%)	17 (.51%)	325 (9.80%)
CTF	4,435	437 (9.85%)	1,103 (24.87%)	2 (.05%)	482 (10.87%)
KVSP	3,516	214 (6.09%)	1140 (32.42%)	7 (.20%)	297 (8.45%)
LAC	3,013	413 (13.71%)	1327 (44.04%)	47 (1.56%)	904 (30.00%)
MCSP	3,819	882 (23.10%)	2,088 (54.67%)	111 (2.91%)	1,858 (48.65%)
RJD	3,618	951 (26.29%)	2,118 (58.54%)	101 (2.79%)	1,424 (39.26%)
SAC	2,246	129 (5.74%)	1245 (55.43%)	29 (1.29%)	447 (19.90%)
SATF	4,528	771 (17.03%)	2166 (47.84%)	249 (5.50%)	634 (14.00%)

247. Notwithstanding their recent and laudable decision with respect to Inmate 2, Defendants continue to impose false and retaliatory RVRs on *Armstrong* class members and other people with disabilities. Attached hereto as **Exhibit 137** is a true and correct

1 copy of a letter without its exhibits dated September 24, 2020 from my colleague,
2 Mr. Nolan, to Nicholas Weber and Melissa Bentz of CDCR's Office of Legal Affairs,
3 titled "*Coleman v. Newsom*: Plaintiffs' Concerns about the Issuance of False and
4 Retaliatory Rule Violation Reports Against Class Members."

5 248. Attached hereto as **Exhibit 138** is a true and correct copy of the OIG's
6 Report "Monitoring the Use-of-Force Review Process of the California Department of
7 Corrections and Rehabilitation," issued in July 2020.

8 249. Attached hereto as **Exhibit 139** is a true and correct copy of the OIG's
9 Sentinel Case No. 20-03, "The Department Refused to Take Disciplinary Action Against
10 an Officer Despite Evidence That Suggested He Punched His Girlfriend and Slammed a
11 Truck Door on Her Hand, Which Cut Off Part of Her Thumb," dated June 15, 2020. The
12 OIG informed me confidentially that the officer involved in this case is employed at [REDACTED]
13 and Warden [REDACTED] decided to not sustain the allegations against this officer.

14 250. Attached hereto as **Exhibit 140** is a true and correct copy of the certified
15 transcript of the deposition of James Baldwin, filed entirely under seal. The certified copy
16 was not provided until after 6:00 p.m. on September 24, 2020, too late to redact and review
17 for this filing.

18
19 I declare under penalty of perjury under the laws of the United States of America
20 that the foregoing is true and correct, and that this declaration is executed at San Francisco,
21 California this 25th day of September, 2020.

Re: *Armstrong v. Newsom; Coleman v. Newsom*
Declarations Demonstrating Disability-related Staff Misconduct at
Multiple CDCR Prisons
Our File Nos. 0581-03; 0489-03

Dear Counsel:

We will shortly upload to the ShareFile declarations from *Armstrong* and *Coleman* class members regarding disability-related staff misconduct at Mule Creek State Prison (“MCSP”), California Institution for Women (“CIW”), and Correctional Training Facility (“CTF”). We have previously used the ShareFile to share declarations from class members regarding Richard J. Donovan Correctional Facility (“RJD”), California State Prison – Los Angeles County (“LAC”), California Correctional Institution – Tehachapi (“CCI”), California State Prison – Corcoran (“COR”), California Substance Abuse Treatment Facility (“SATF”), Kern Valley State Prison (“KVSP”), California Medical Facility (“CMF”), and California State Prison—Sacramento (“SAC”).

As is the case with LAC, CCI, COR, SATF, KVSP, CMF, and SAC, these declarations demonstrate that discrimination and abuse of class members and other incarcerated people with disabilities at the hands of CDCR custody staff is unfortunately not limited to RJD. *See* Plaintiffs’ Motion to Stop Defendants from Assaulting, Abusing,

PRIVILEGED AND CONFIDENTIAL

and Retaliating Against People with Disabilities at Richard J. Donovan Correctional Facility, Dkt. 2922, at 35-37; *see also* Plaintiffs' Motion to Stop Defendants from Assaulting, Abusing and Retaliating Against Persons with Disabilities, Dkt. 2948; and, Judge Wilken's September 8, 2020 Order Granting in Part Motion to Modify Remedial Orders and Injunctions, Dkt. 3059. Defendants should immediately investigate all allegations contained in the declarations using staff from outside the prison and should place the allegations related to *Armstrong* class members on the *Armstrong* accountability log.

The situations at RJD, LAC, CCI, COR, SATF, KVSP, CMF, SAC, MCSP, CIW, and CTF are intolerable and directly undermine the Department's efforts to comply with the Americans with Disabilities Act. In order to keep the Court apprised of the scope of these problems within CDCR, especially in its high security institutions, we intend to file these and other declarations with the Court.

Pursuant to the prohibition on communications with a represented party, neither Defendants nor Defendants' counsel may communicate with the declarants or class members referenced in the declarations regarding the allegations in the declarations. *See* California Rule of Professional Conduct 4.2. Any communications with the declarants or class members referenced in the declarations about the content of the declarations must be made through Plaintiffs' counsel or with Plaintiffs' counsel present.

The declarations are subject to the protective orders in the cases and shall be kept confidential. Due to credible fears of retaliation, we expect that Defendants will limit access to the declarations to only those individuals necessary to respond to and investigate the allegations. *See* Stipulation and Order Prohibiting Retaliation in Prisons Subject to Statewide Motion, Dkt. 3034, at 1-5.

Given the dangerous environment at MCSP, CIW, and CTF, we also want to emphasize Defendants' obligation to protect the declarants and other incarcerated people referenced in the declarations from retaliation. Plaintiffs' counsel will bring any instances of retaliation to the attention of the Court.

Exhibit 2

FIFTH SUPPLEMENTAL DECLARATION OF [REDACTED] [REDACTED]

I, [REDACTED] [REDACTED] declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED] I am currently housed at the [REDACTED] in Building E1B1. I am 69 years old.

3. I have previously submitted four declarations about my experiences with staff misconduct at Richard J. Donovan Correctional Facility ("RJD"), which I signed on March 27, 2020, June 5, 2020, July 3, 2020, and July 13, 2020. My fifth declaration, which I signed on August 21, 2020, was about the biased RVR hearing conducted at [REDACTED] related to the June 17, 2020 incident at RJD.

4. I submit this supplemental declaration about the ongoing staff misconduct and further retaliation that I have experienced from custody staff due to my role as a witness in the *Armstrong* case.

5. On Friday, September 4, 2020, I was in E1B1 waiting to get my medication during the after dinner pill line, at approximately 6:00 p.m. I got into a verbal altercation with a nurse, and ended up returning to my cell without having taken my medication because I was frustrated.

6. At the hours of sleep ("HS") pill line, sometime at approximately 8:00 p.m., the officers were making their rounds and releasing people for medication. In the E1B1 unit, officers have to individually open up each cell door with a key. The floor officer skipped over my cell and continued releasing people for pill line. This immediately brought back memories of what happened to me at RJD, where officers frequently refused to release me for my medication. I began yelling and banging on the door to be let out for my medication.

1 7. After a few minutes of protesting, and after everyone had already been
2 released to get their medication, the floor officer finally came to my cell. Through the
3 closed cell door, I asked the officer why he was refusing to let me out of my cell. In
4 response, he said something like, "I don't have to do what you want me to do, I do what I
5 want to do."

6 8. The officer's delay in releasing me for my medication upset me very much.
7 When I was at RJD, I experienced similar harassment from custody staff, where they
8 refused to release me for my medication, after they found out that I had submitted a
9 declaration about staff's involvement in the death of another incarcerated person,
10 Mr. [REDACTED]

11 9. The officer then opened my cell door partially. He stuck his head out, almost
12 into my cell, as I stood inside the cell, a few feet away from the doorway. The officer and
13 I argued over the fact that he refused to let me out of my cell for my medication.
14 Eventually, I could not take the harassment anymore, so I asked to speak with a sergeant.
15 The officer denied my request and told me something like, "You're not gonna snitch on
16 me, like you snitched on those officers at Donovan. I know you and [REDACTED] are rats." The
17 officer then shut the cell door in my face. After the officer slammed the door in my face, I
18 again asked to speak with a sergeant. I told him that I would board up my cell if I did not
19 get to speak with a sergeant about being denied my medication. Through the closed cell
20 door, the officer responded, "Yeah, well if you do, I'll be the first one to come in your cell
21 to fuck you up, motherfucker."

22 10. I did not receive my medication that night.

23 11. A few weeks after the event, on Friday, September 18, 2020, the same
24 officer once again called me a "rat" while I was in the dayroom. The dayroom was
25 occupied with many incarcerated people because the dayroom was open at the time. I
26 believe that incarcerated people in my unit may have heard the "rat" comment.

1 12. In prison, people who report misconduct by officers or other incarcerated
2 people are often called “rats.” I interpreted the officer’s comment calling me and Mr. [REDACTED]
3 “rats” to be a reference to the fact that Mr. [REDACTED] and I reported misconduct by officers at
4 RJD. After officers at RJD retaliated against me for speaking up, including by throwing
5 me to the ground for no reason, the *Armstrong* court ordered that CDCR transfer me from
6 RJD to [REDACTED]. It is my understanding that Mr. [REDACTED] submitted a declaration in *Armstrong*
7 about officers at RJD assaulting me. It is also my understanding that, when officers at RJD
8 threatened Mr. [REDACTED] CDCR agreed to transfer him from RJD to [REDACTED].

9 13. The fact that staff at [REDACTED] are harassing me because of my involvement in
10 the *Armstrong* case makes me absolutely terrified. The Court ordered my transfer to
11 [REDACTED] because it had security cameras, which I hoped would deter staff from abusing me.
12 Even though there are cameras, I am still being harassed. If I cannot be safe at [REDACTED], I do
13 not think I can be safe anywhere in CDCR.

14 14. As I discussed in my previous declarations, I am trying to be on my best
15 behavior so that I am granted parole during my elderly parole hearing in January 2021.
16 What happened at RJD, and the events that followed, have made me more stressed and
17 anxious than ever before in my life, both inside and outside of prison. Before the
18 September 4, 2020 incident, I was doing very well and keeping to the program. I was
19 opening up with my clinician, regularly participating in mental health groups, treating
20 officers and other incarcerated people with respect, and keeping to myself for the most
21 part. After having experienced further abuse and harassment related to the misconduct I
22 reported at RJD, I am afraid to leave my cell to do anything. On many days, I do not leave
23 my cell because I want to avoid any possible confrontation with officers. Because I realize
24 that staff know about what happened at RJD and are willing to retaliate against me for it, I
25 am extremely fearful that they will continue to harass and retaliate against me. Given the
26 similarities between what I experienced at [REDACTED] and RJD, I am scared that their
27 misconduct and retaliation might end in them assaulting, or even killing me.
28

1 I declare under penalty of perjury under the laws of the United States of America
2 that the foregoing is true and correct, and that this declaration is executed at [REDACTED]
3 California this 23rd day of September, 2020.

4
5 [REDACTED]
6 [REDACTED]
7
8 On September 23, 2020, due to the closure of [REDACTED] in light of the COVID-19
9 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
10 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
11 system at [REDACTED] I read the contents of this declaration, verbatim, to [REDACTED],
12 [REDACTED] by telephone. Mr. Allen orally confirmed that the contents of the declaration
13 were true and correct. Mr. Allen also orally granted me permission to affix his signature to
14 the declaration and to file the declaration in this matter.

Exhibit 3

FOURTH SUPPLEMENTAL DECLARATION OF [REDACTED]

I, [REDACTED] declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED] I am currently housed at [REDACTED] in Facility E1B1. I am 56 years old.

3. I have previously submitted three declarations about my experiences with staff misconduct at Richard J. Donovan Correctional Facility ("RJD"), which I signed on June 20, 2020, July 13, 2020, and July 22, 2020. I also submitted a fourth declaration regarding the RVRs issued to [REDACTED] which I signed on August 24, 2020.

4. I live in the same housing unit, E1B1, at [REDACTED] as [REDACTED] On Friday, September 4, 2020, I was in the dayroom waiting in line to get my medication during the after-dinner pill line. I noticed that [REDACTED] [REDACTED] got into a verbal altercation with the nurse, and then saw [REDACTED] [REDACTED] walk back to his cell without taking his medication.

5. A few hours later, during the hours of sleep ("HS") pill line at approximately 8:15 p.m., I noticed that officers did not release [REDACTED] [REDACTED] from his cell to get his medication. As I waited for my medication, I heard him yelling and slamming on his door, saying things like, "I want my meds!" At this point, I was still in the pill line, about fifteen to twenty feet away from [REDACTED] [REDACTED] cell. I saw an officer approach [REDACTED] [REDACTED] cell and open up the cell door partially. I started walking toward [REDACTED] [REDACTED] cell to observe the interaction.

6. I could see the officer standing almost between the open door and the door frame. I could not see [REDACTED] [REDACTED] While I could not hear exactly what was said, it sounded like [REDACTED] [REDACTED] and the officer were arguing. I heard him say to [REDACTED] [REDACTED] through the partially open cell door something to the effect of, "You and [REDACTED] aren't nothing but rats anyway." The officer said that comment loud enough for me to hear it from about five to

1 ten feet away. All of a sudden, I saw the officer push the cell door closed. The door made
2 a very loud noise when it closed. Based on his facial expressions and body language, the
3 officer looked very angry.

4 7. On September 18, 2020, I saw [REDACTED] [REDACTED] having an argument with the same
5 officer in the dayroom. I could not hear what was said, but the officer looked very
6 menacing and angry. [REDACTED] [REDACTED] looked frustrated after they exchanged words for a minute
7 or two. I then saw him return to his cell. Once [REDACTED] [REDACTED] was in his cell, the officer
8 announced loudly to the dayroom that, “Old scary ass rat [REDACTED] went into his cell,” with a
9 smug look on his face. His conduct reminded me of Officer Armstead during the June 17
10 incident at RJD.

11 8. In prison, people who report misconduct by officers or other incarcerated
12 people are often called “rats.” I interpreted the officer’s comment calling me and
13 [REDACTED] [REDACTED] “rats” to be a reference to [REDACTED] [REDACTED] and me reporting staff misconduct of
14 officers at RJD. I submitted multiple declarations about officers assaulting [REDACTED] [REDACTED] at
15 RJD. I also submitted a declaration about officers threatening me at RJD after they found
16 out I had reported their abuse of [REDACTED] [REDACTED]. It is my understanding that, after attorneys at
17 Rosen Bien Galvan & Grunfeld told CDCR that officers at RJD had threatened me, CDCR
18 agreed to transfer me to [REDACTED] for my safety.

19 9. I believe that the officer harassed and assaulted [REDACTED] [REDACTED] because it is well
20 known that [REDACTED] [REDACTED] reported on staff misconduct at RJD and had to be transferred to
21 [REDACTED] because CDCR was unable to keep him safe at RJD. As I noted in my previous
22 declaration, staff at [REDACTED] have made references to the [REDACTED] to my face, which I
23 understood as an attempt to signal that staff thought of me as a “rat.” Those comments,
24 combined with what just happened to [REDACTED] [REDACTED] make me confident that staff at [REDACTED]
25 know about what happened at RJD and are continuing the campaign of retaliation against
26 us. While I do not know exactly how staff at [REDACTED] became aware of what happened at
27 RJD, the fact that they know that [REDACTED] [REDACTED] and I are witnesses—or “rats” in their eyes—
28

1 makes me very fearful for my safety here. It is unbelievable to me that officers are willing
2 to continue retaliating against us even when their misconduct is caught on camera.

3
4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at [REDACTED]
6 California this 23rd day of September, 2020.

7
8 [REDACTED]
9
10
11 On September 23, 2020, due to the closure of [REDACTED] in light of the COVID-19
12 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at [REDACTED], I read the contents of this declaration, verbatim, to [REDACTED]
15 by telephone. [REDACTED] orally confirmed that the contents of the declaration were true and
16 correct. [REDACTED] also orally granted me permission to affix his signature to the declaration
17 and to file the declaration in this matter.

Exhibit 6

DECLARATION OF

I, _____, declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison, Los Angeles County (“LAC”) on Facility D in Building 3. I am 47 years old.

3. I have a number of serious medical conditions. I am designated as high risk medical. I previously had kidney cancer. I suffer from chronic kidney disease, neuropathy in my feet and legs, recurrent, chronic, urinary tract infections, and chronic pain. I also have a bulging disk in my neck. I also suffer from chronic obstructive pulmonary disease (“COPD”).

4. I am an *Armstrong* class member. I am designated as DNH, which means I have a hearing disability that does not affect my housing placement in prisons. I wear hearing aids and have a hearing disability vest to signal that I have a hearing disability.

5. Although I do not have a DPP code designating my mobility impairment, I have mobility issues. Due to my chronic pain and neuropathy, I have a ground floor-limited stairs chrono, meaning I can only be housed on the ground floor, as well as a lower-bunk chrono, meaning I can only be housed on the lower bunk in a cell.

6. Since April 2020, I have been using a cane to get around and also wear orthotic shoes. In April 2020, I had been having issues walking where my right foot had started dragging. My neurosurgeon who was treating my bulging disk thought this was related to the bulging disk, so shortly after I started having these issues my neurosurgeon had told me that he thought this was related to my bulging disk. I was given a cane and orthotic boots to help me walk.

7. I also have a vision disability, though I do not have a DPP code for this either. I got shingles in November of 2019 and got a really bad scratch in my cornea. As a

1 result, I have lost almost all the vision in my left eye. I have to get a cornea transplant, but
2 it has been put on hold due to COVID-19.

3 8. I have submitted multiple 1824 reasonable accommodation requests to get
4 audiobooks, because reading with one eye gives me really bad headaches. I have
5 repeatedly been denied this because my vision impairment is “temporary” according to
6 CDCR, even though I’ve been suffering from this for about a year. I wear eyeglasses and
7 have a vision-impaired disability vest that makes staff aware I am vision impaired.

8 9. I am a *Coleman* class member. I am at the Enhanced Outpatient Program
9 level of care. EOP patients live in separate housing units with other EOP individuals,
10 where we are supposed to receive enhanced mental health care including 10 hours each
11 week of structured therapeutic activities, along with more frequent meetings with our cases
12 managers. I suffer from anxiety, depression, and post-traumatic stress disorder (“PTSD”).
13 My level of care was elevated to the EOP level of care on June 18, 2020, due to an
14 increase in my depression after the incident described below. Prior to June 18, 2020, I was
15 at the Correctional Clinical Case Management System (“CCCMS”) level of care, a lower
16 level of mental health care.

17 10. I have been housed at LAC from May 2, 2019 to the present. During my
18 time at LAC, I have been housed in the following locations: C-Yard, Building 1, C -Yard,
19 Building 2, C -Yard, Building 4, D-Yard, Building 3, and the Correctional Treatment
20 Center (“CTC”).

21 11. I was a victim of staff misconduct at LAC. Early in my time at LAC, around
22 July 4, 2019, I was walking to work right after count time in the mid-afternoon. At the
23 time, I lived in C-1 but had a job as a porter in C-3. As I was walking to work, on the track
24 on the yard near the medical station, an officer whose name I do not know yelled over to
25 me and said he needed to search me. I asked why he needed to search me, as I was on my
26 way to work. He then told me to cuff up. He told me he was taking me to the gym to
27 search me. He handcuffed me. As he handcuffed me, Officer Delatorres, an officer that
28 worked in C-2 at the time, showed up. After the officer whose name I do not know cuffed

1 me, Officer Delatorres grabbed me on the shoulder and started to walk me towards the
2 gym. The other officer whose name I do not know walked alongside us. As we walked,
3 every few steps Officer Delatorres would squeeze my shoulder and pull me towards him,
4 jerking me around. Each time he did this, my body would instinctively pull away. I felt
5 that him pushing me around was unnecessary. I asked him why he was jerking me around
6 and he did not reply but continued to pull me every few steps.

7 12. As soon as Officer Delatorres and I crossed the threshold into the gym,
8 Officer Delatorres put his foot in front of my feet and shoved me forward, tripping me.
9 When I fell to the floor, he and the other officer jumped on top of me and started kicking
10 and punching me. At least four other officers who were standing around, including an
11 officer named Officer Lewis, joined in to start attacking me. I remember Officer Lewis
12 specifically jumping on me and driving his elbow into my head.

13 13. After what felt like a minute or two, the officers, I do not remember who
14 specifically, took my handcuffs off. One of the officers, I do not remember who, hit their
15 alarm. Ten or fifteen other officers responded to the alarm and started to assault me again.
16 I curled up on the ground as they continued to beat me. After a short period of this, they
17 picked me up and placed me into a holding cage in the room.

18 14. While I was in the holding cage, a sergeant whose name I do not know came
19 to speak with me. I did not tell him what had happened and told him that I did not want to
20 have any issues with the officers. I assumed that by not reporting what had happened, I
21 would avoid further issues with the officers. A nurse also came to see me while I was in
22 the holding cage, and I lied and told her that my injuries-- bruising on the left side of my
23 face, a black eye, and a goose egg-sized bump on the right side of my head-- were due to a
24 fall. I refused medical attention and did not report the misconduct so that I could avoid
25 future issues with the officers. After this, I was returned to my cell.

26 15. The next day, I was charged with an RVR for "resisting staff." The RVR
27 stated that the officer told me to cuff up and I resisted the handcuffs. I was found guilty
28 and lost yard and dayroom for thirty days.

1 16. After this incident, I changed my whole attitude and decided to stop speaking
2 up for myself to the officers. I realized that advocating for myself would only get me in
3 trouble or harmed, so I kept my head down and just programmed as best as I could.

4 17. I was a victim of staff misconduct again recently. On June 8, 2020, I was in
5 my cell in C-4. Around 8:30 a.m., I stood up from my bunk to get my morning
6 medications. As I was showing my identification card to the nurse to get my medications
7 at the door of my cell, I fell. I learned later that I fell because my blood pressure was low.
8 This has happened three or four times since the start of this year, at times when I have
9 suddenly stood up. I lost consciousness for a few seconds. Officer S. Ongaro came to my
10 cell to respond to my fall. He approached my cell with a wheelchair. As I was becoming
11 lucid, I heard him say, "get up, and get in the wheelchair." I told him I could not get up, as
12 I was still feeling weak. He then came into my cell and started kicking and stomping on
13 my mid-section and head as I lay on the ground. I would say he kicked or stomped me at
14 least ten times. After he was done assaulting me, he picked me up under the arms and
15 placed me in the wheelchair. As I was getting in the wheelchair, I heard him say, "looks
16 like I'm going to search this cell."

17 18. By the end of the assault, I was screaming in agony. After Officer Ongaro
18 placed me in the wheelchair, another floor officer who was not a regular, and whose name
19 I do not know, wheeled me over to the TTA. At the TTA, staff there took my blood
20 pressure and vitals. I told them I was in a lot of pain and something felt wrong. The staff
21 in the TTA decided that I needed to go to the hospital. I waited for two hours for the
22 ambulance to pick me up, as it was not designated as an emergency ambulance, despite the
23 fact that I was in tremendous pain.

24 19. I was taken to the emergency room at Antelope Valley Hospital ("AVH").
25 Over the time between the assault and being admitted to the emergency room, my pain
26 gradually got worse, and about five or so hours after the assault I was experiencing the
27 worst pain of my life. The doctors at AVH gave me an MRI to figure out what the issue
28

1 was. They discovered from the MRI that my spleen had ruptured, and I went immediately
2 into emergency surgery.

3 20. I was at AVH recovering from this surgery for about a week. I was told by
4 the doctors in the hospital that my spleen ruptured due to the impact from being assaulted.
5 They asked me how I had been assaulted. I told them I was not assaulted or in a fight.
6 They did not seem to believe me. I did not report the assault to the medical staff at AVH
7 because two officers were standing near me at all times, and I did not want to get in trouble
8 or get assaulted while I was vulnerable and at the hospital, or when I eventually returned to
9 LAC.

10 21. When I got back to LAC from AVH on June 15, 2020, I was placed back in
11 my cell where I had been assaulted. When I got back to my cell, I discovered that my
12 radio, TV, headphones, rechargeable batteries, and my beard trimmer were gone. My
13 cellmate told me that Officer Ongaro had come in and taken everything that was gone. My
14 cellmate also told me that while I was gone from the hospital, Officer Ongaro had torn up
15 my paperwork.

16 22. Upon discovering that I was missing these electronics and hearing that
17 Officer Ongaro was the one who took them, I decided to go to the office on the unit where
18 the floor staff sat and try to smooth things over and get my electronics back. Officer
19 Ongaro was there at the time. I went to directly to him and tried to apologize to him about
20 not being able to get up after fainting. I also asked him, "Why did you come in there and
21 start kicking on me?" Officer Ongaro said, "Because you embarrassed me." I was not sure
22 exactly what he meant, as I had simply been struggling to get in the wheelchair when he
23 started assaulting me. I was shocked that he was blaming this incident on me and walked
24 away back to my cell. I still have not managed to get my TV and radio back, despite
25 requesting this multiple times in the last couple of months.

26 23. Within days after arriving back at LAC, I was in extreme pain again in my
27 appendix and lower back. I reported this to the medical staff at LAC who discovered I had
28 sepsis on June 22, 2020. I was re-admitted to AVH immediately. I spent two more weeks

1 in the hospital before being returned back to LAC on July 2, 2020. When I got back to
2 LAC, I was housed in the Correctional Treatment Center ("CTC"), the medical infirmary
3 at LAC, for six weeks, until August 13, 2020, when I was moved to D-3. While I was in
4 the CTC, I was bed-ridden for at least three weeks. I was in extreme pain and could barely
5 move. I am still in a lot of pain, but it is nothing like it was in those first few weeks.

6 24. I did not file a 602 against Officer Ongaro because I was scared to file
7 anything. I have seen others who have filed complaints about these officers get singled out
8 after doing so. I was afraid of that happening and did not want to put myself at risk.

9 25. In my time at LAC, there have been a few times that I needed help but didn't
10 ask for it or was hesitant to ask for it because I was afraid of what would happen to me.
11 For example, after being moved to D-3, I was not given laundry for two weeks. I asked
12 Officer Williams, a D-3 floor officer, for my laundry, but he refused to get it for me. I
13 have also asked for my religious meal, which I have not been getting on second watch. I
14 have asked the officer to call over to the kitchen and see what's going on with my food,
15 but he refuses to help me. Given the attitude that the officers give me, I have stopped
16 asking for my laundry and food unless I cannot live without what I am asking for.

17 26. My physical health was greatly impacted by the assault. Due to my ruptured
18 spleen, I had issues with my mobility. When I got back from LAC and was housed in the
19 CTC, I did not get out of bed for anything for at least three weeks. After about three
20 weeks of antibiotics and morphine, I began to get out of bed but needed to use a walker in
21 order to get around. I am starting to get my strength back now, but am still in a lot of pain
22 and having issues getting around.

23 27. My mental health greatly worsened after this assault, to the point where I had
24 to change my level of mental health care to receive more treatment. I was extremely
25 stressed after the assault. When I got back from the hospital the first time, I had an
26 appointment with my clinician. During the appointment, I broke down crying and told my
27 clinician everything that had happened. He referred me to EOP at that time, but I did not
28 end up moving to D-Yard and starting the EOP program until I got back from the hospital

1 the second time. Since I have moved to D-Yard and started to program at EOP, I have
2 been feeling better, though I am still having a hard time sleeping after the assault due to
3 nightmares about the incident and physical pain from my injuries.

4 28. In my opinion, staff target people with disabilities, medical issues, and
5 mental illness. One would think that people with these issues would be more protected
6 than the population without these issues, but these people are targeted because we are
7 vulnerable and officers know that they can get away with assaulting and harassing us.

8 29. I believe the reason there is so much staff misconduct at LAC is because
9 officers are allowed to do whatever they want without accountability from their
10 supervisors or from cameras. I was at High Desert State Prison ("HDSP") from
11 December 27, 2015 to February or March of 2019. When I was housed there, cameras
12 were installed. After cameras were implemented, the demeanor of the officers visibly
13 changed. They started behaving and looking over their shoulder when they were
14 interacting with me and other incarcerated people. I and others felt a lot safer on the yard
15 because we knew that if something happened, there would be some sort of accountability
16 and evidence as to what actually happened.

17 I declare under penalty of perjury under the laws of the United States of America
18 that the foregoing is true and correct, and that this declaration is executed at Lancaster,
19 California this 8th day of September, 2020.

20
21
22
23
24 On September 8, 2020, due to the closure of California State Prison- Los Angeles
25 County ("LAC") in light of the COVID-19 pandemic and ongoing concerns that officers
26 might retaliate against witnesses in support of Plaintiffs' Motion, including ongoing
27 concerns about the confidentiality of the legal mail system at LAC, I read the contents of
28 this declaration, verbatim, to [REDACTED], by telephone. [REDACTED] orally

1 confirmed that the contents of the declaration were true and correct. [REDACTED] also
2 orally granted me permission to affix his signature to the declaration and to file the
3 declaration in this matter.

4
5 DATED: September 8, 2020

6 Emma Cook

Exhibit 6a

Filed Under Seal

Exhibit 7

1 7. I have reported staff misconduct against other EOP patients and I have been
2 retaliated against by staff since I arrived at LAC in August of 2019.

3 8. When I first arrived at LAC, I was initially housed in the D-Yard, Building 3
4 EOP unit. While in D-Yard, Building 3, I witnessed frequent instances of staff
5 misconduct, particularly by Officers Williams and Moisa.

6 9. In September of 2019, shortly after arriving at LAC, I witnessed an incident
7 where three inmates from a different building came into Building 3 and ambushed an EOP
8 patient from my building during second watch. At the time this took place, I was in my
9 cell standing in the door watching them. They tried to punch the patient from my unit but
10 he fought back and avoided their punches. Officer Williams hit his alarm and told the
11 inmates who were fighting to get down on the ground. Once the patient from my building
12 was lying on the ground and cuffed up, Officer Williams emptied a whole can of pepper
13 spray in his face. Then Officer Williams started laughing.

14 10. Custody staff then escorted the patient from my building who was assaulted
15 out of the housing unit. I believe they took the patient to D-Yard, Building 5, which is the
16 EOP ASU. I do not think the three individuals who attacked the individual from my
17 building were taken to the ASU because they work in the program office and I saw them
18 on the yard after the assault. Those individuals should never have been allowed into the
19 building, which is why I believe correctional officers were behind the attack.

20 11. The next incident of staff misconduct I observed in D-Yard, Building 3 was
21 about a week later, around September 20, 2019. At the time, I was in my cell standing at
22 the door, observing the unit. Officer Williams intercepted an incarcerated person walking
23 across the dayroom floor and Officer Williams told the individual to get on the ground.
24 The individual laid down on the ground. Officer Williams then hit his alarm, handcuffed
25 the inmate, and sprayed him in the face with a whole can of pepper spray. Custody staff
26 then took the incarcerated individual out of the housing unit.

27 12. The next incident I observed in D-Yard Building 3 took place on or around
28 October 1, 2019. At the time, people in the housing unit were being cell fed because the

1 program was locked down, and the officers in the unit were passing out the food trays from
2 cell to cell. At the time I was in my cell, cell [REDACTED], and Mr. [REDACTED] was on the second tier in
3 a cell that I could see from my cell (I was in the A-section and he was in the B-section of
4 the housing unit.) I heard Mr. [REDACTED] tell officers he wanted to see the doctor because he
5 was not getting his medication. In response, Officer Oliver sprayed Mr. [REDACTED] in the face
6 with pepper spray through his cell door. Officer Oliver then asked the tower officer to
7 open Mr. [REDACTED]'s cell door. It seemed like the tower officer was reluctant to open the
8 door, but eventually did, after a few seconds. I observed the exchange and Officer Oliver
9 had to tell the control booth officer a second time to open the door, before he did so. Once
10 the door was open, I heard Officer Oliver tell Mr. [REDACTED] to back out of the cell and lie face
11 down. I saw Mr. [REDACTED] comply. Officer Oliver then straddled Mr. [REDACTED] and punched
12 him in the side of his head. I observed him pick Mr. [REDACTED]'s head up and slam it hard on
13 the floor. At that point, another member of custody staff pulled Officer Oliver off of
14 Mr. [REDACTED]. Officer Oliver is very large and Mr. [REDACTED] is pretty small. I believe Officer
15 Oliver could have seriously injured, or killed, Mr. [REDACTED]. Next, I observed Mr. [REDACTED]
16 being taken out of the unit. I could see that he was bleeding profusely. I have not seen
17 Mr. [REDACTED] since that time.

18 13. I wrote to CDCR Internal Affairs about these incidents of staff misconduct in
19 September, October, and November of 2019. About 10 days before the Thanksgiving
20 holiday, I was transferred to an MHCB at KVSP. At the time, I was not suicidal and I had
21 not reported being suicidal. However, I had recently written to the Warden complaining
22 about Officer Moisa. In the letter, I complained that Officer Moisa was harassing me and
23 retaliating against me because of a complaint I filed as a witness about Officer Williams'
24 assault on the EOP patient in D-Yard, Building 3. I put the letter to the Warden in the 602
25 appeals box in the D-Yard, Building 3 housing unit. It is well known by incarcerated
26 people that officers in D-Yard, Building 3 will use a hook to fish appeals and letters out of
27 the locked appeals box. I have personally observed them doing this.

1 14. When I wrote to the Warden, I believe Officer Moisa intercepted the letter
2 from the appeals box. I believe this for several reasons. First, when I returned from the
3 MHCB, the Warden Mr. Johnson and the Deputy Warden Eric Jordan talked to me and
4 told me they never got the letter I had written. Second, in the letter, I had explained that
5 the harassment by Officer Moisa was causing me to have suicidal ideation. When I was
6 sent to the MHCB, it was supposedly because I had reported that I was suicidal. However,
7 the only place I reported having some suicidal thoughts was in the letter to the Warden that
8 the Warden later on told me that he never received.

9 15. To be clear, in that letter, I explained that I was not going to kill myself even
10 though I had suicidal feelings due to the harassment I was experiencing at the hands of
11 custody staff in my unit. Also, before I was sent to the MHCB, I told the clinician
12 evaluating me that I was not suicidal, but they sent me anyway.

13 16. In March 2020, I was a victim of additional staff misconduct at LAC. I
14 returned to LAC on March 5, 2020, after being out to court. After arriving back at LAC, I
15 was taken to be housed in D-Yard, Building 2, Cell [REDACTED]. Once I was in the cell, I realized
16 that the officers never gave me back my prison identification card after escorting me to the
17 cell. You are supposed to have your prison identification card on your person at all times
18 in the prison. Once I went into the cell, another incarcerated person came and told me to
19 give him my identification card. I said I did not have my card because the officers who
20 escorted me had kept it. The other individual told me to give him something with my
21 name on it. When I asked him why, he told me that he was going to have me moved to a
22 different cell. I was then moved to cell [REDACTED].

23 17. A few days later, around 9:45 p.m., another incarcerated person told me that
24 I needed to move from cell [REDACTED] to cell [REDACTED], because my cell needed to be used temporarily
25 for a person on suicide watch. That person had a lower bunk chrono, and I was sleeping
26 on a lower bunk in cell [REDACTED] but did not have a lower bunk chrono, so I agreed and moved
27 into cell [REDACTED]. I shared cell [REDACTED] with another incarcerated person that night, but I expected
28

1 that I would return to cell [REDACTED] the following morning. However, Officers Lewis and
2 Hodack told me the next day that I would not be moving back to cell [REDACTED].

3 18. That following morning, I realized that my new cell mate in cell [REDACTED] was
4 sick. I believed he was sick with COVID-19, and I wanted to get out of the cell as soon as
5 possible. I observed that my cell mate's nose was running, he was sneezing, and he told
6 me he was feeling very sick. He told me he had a sore throat and headache. His eyes
7 looked watery. He told me he had shortness of breath. Later that morning, I told Officers
8 Lewis, Hodack, and Aveto that I wanted to be moved back to cell [REDACTED], which was empty. I
9 told them I wanted to move because my cellie was sick with COVID-19. They refused.
10 They said, "We're not moving you nowhere."

11 19. I believe I was moved into cell [REDACTED] with the intention of making me sick
12 with COVID-19 in retaliation for my reporting concerning staff misconduct. At the time, I
13 had been speaking with Plaintiffs' Counsel, filing appeals, and complaining to different
14 parties about the staff misconduct on D-Yard at LAC. Officer Williams also told me that
15 he intentionally put me in the cell to get me sick with COVID-19.

16 20. I tested positive for COVID-19 a month after being celled with this
17 individual. When I was sick with COVID-19, the symptoms included shortness of breath
18 and a very painful cough. I recovered after a few weeks. In addition to the illness, it was
19 extremely stressful worrying that I would develop even more severe symptoms, and
20 possibly die from the disease. I am 60 years old.

21 21. Since I was intentionally exposed to COVID-19, I wrote about this incident
22 to a number of individuals and organization, asking them to investigate. I wrote to the
23 CDCR Office of Internal Affairs, the CDCR Ombudsman for LAC, the CDCR Inspector
24 General, and Plaintiffs' Counsel in *Armstrong* about these incidents. I also wrote some
25 individuals such as the Governor.

26 22. I have not heard back from anyone in the CDCR except the Ombudsman,
27 who told me they had received my complaint. They instructed me to file a CDCR Form
28

1 602 about the incident, and send it to the appeals coordinator. They said they would
2 monitor the appeal to make sure it went through all of the regular processes.

3 23. I have not had any interviews or responses about my reporting of this
4 misconduct. I have not yet filed the appeal about the COVID-19 issue, but I plan to do so
5 in the near future as instructed by the Ombudsman.

6 24. I have also experienced intimidation related to my calls and conversations
7 with Plaintiffs' Counsel in *Armstrong*. On June 18, 2020, I had a confidential attorney-
8 client call with *Armstrong* lawyers. At the time, I was housed in D-Yard, Building 1.
9 After that call, I was returned to the housing unit to my cell. Shortly thereafter, I went out
10 to yard. As I was about to exit my building, Officer Moisa and Williams were standing
11 just inside my housing unit, staring at me in an intimidating manner. Officer Moisa said to
12 me, "You are looking everywhere except over here." I believe they were trying to
13 intimidate me or to provoke me. Both officers work in D-Yard, Building 3, so there was
14 no reason for them to be in my building.

15 25. I have experienced other retaliation recently. On an earlier occasion, in early
16 to mid-June, I was on the yard and Officer Williams had tried to provoke me – Officer
17 Williams challenged me to a fist fight, but I just walked away. On other recent occasions,
18 Officers Williams and Moisa have harassed me and threatened me. During early June,
19 Officer Moisa intentionally stepped on my glasses and broke them. Then he laughed about
20 it afterwards.

21 26. In the past few months, I have also witnessed several other incidents of
22 horrible abuse by correctional officers here at LAC. On April 13, 2020, I saw Officers
23 Castello and Mendoz in D-Yard, Building 4 pick up another incarcerated person while he
24 was in a wheelchair and try to force him into cell [REDACTED]. I heard this person tell the officers
25 that he was unable to stand up or get on to a top bunk. I was able to overhear because I
26 was in my cell nearby and could see clearly what took place. I was about 10 to 15 feet
27 away around the corner across from his cell. They were trying to force him to house in an
28 upper bunk when he was not able to because of his disability. He explained he could not

1 get onto the top bunk and tried to refuse to go into the cell. When he refused to go into the
2 cell, Officers Castello and Mendoz started to punch him in his sides. They then forced him
3 into the cell. They took his arm and placed it into the cell door and told the control tower
4 officer to close the door. The tower officer could not see what was taking place because
5 the officers were blocking his view. Once the door was closed, they moved aside. The
6 individual whose arm was in the door was yelling at the time. When the tower officer saw
7 the incarcerated individual's arm stuck in the door, he opened the door back up. I later
8 spoke with this individual, who told me that Sergeant Matthews had ordered the officers to
9 force him back into the cell in an upper bunk. The individual asked to see a nurse after the
10 incident, but custody staff refused.

11 27. On April 14, 2020, around 1:40 p.m., I was single celled in cell [REDACTED] on D-
12 Yard, Building 4. At the time, I was quarantined in the cell because I had tested positive
13 for COVID-19. My cell was "capped" meaning that I was not allowed to come out to
14 dayroom or to the yard, a measure to keep me from spreading the disease. At the time, I
15 saw Officer Castello and several other officers approach another incarcerated by the name
16 of [REDACTED]. I believe Mr. [REDACTED] had just come back to the housing unit after
17 being on suicide watch. I heard Mr. [REDACTED] tell Officer Castello that he was suicidal and
18 he was not going in to cell [REDACTED] – my cell. The officers then handcuffed Mr. [REDACTED] and
19 tried to force him into my cell. I saw Mr. [REDACTED] get down on his knees, resisting, and
20 then Officer Castello slammed Mr. [REDACTED] to the ground, face-first. He busted his head
21 open and there was blood everywhere. Then the officers picked him up off the floor, and
22 put a mask over his face, and took him to the ASU.

23 28. When I saw this happen, I felt shocked at the viciousness of the staff's
24 actions, and their lack of regard for human life. I could not believe how sadistic the staff
25 are here. Clearly, they were trying to intentionally infect someone with COVID-19.

26 29. I still have to interact with the officers that have been involved in the staff
27 misconduct against me and others. I still see Officer Castello, Officer Mendoza, Officer
28

1 Aveto, Officer Williams, Officer Moisa, and Officer Lewis on the yard. As explained
2 above, Officers Williams and Moisa routinely harass me and try to provoke me.

3 30. In my time at LAC, there have been times when I was suicidal, and I felt too
4 scared to tell custody staff about it because of the staff abuse. In those situations, I try to
5 stay calm and reach out to the Plaintiffs' lawyers in *Armstrong* and *Coleman*. Also, staff
6 here will intentionally interfere with my mental health treatment, by telling mental health
7 staff that I refused appointments. They also have relationships with mental health staff and
8 they tell mental health staff not to assist me.

9 31. I believe that mental health staff know what is going on with custody staff
10 abusing EOP patients, but they have become overly friendly with custody staff, and they
11 will often look the other way when staff misconduct is taking place.

12 32. I have not filed appeals about a variety of incidents that have taken place
13 here, because the staff misconduct is so bad here and because I do not think it will make
14 any difference.

15 33. In my opinion, staff target EOPs for mistreatment, because these officers are
16 untrained and do not know anything about mental health issues. They also have a gangster
17 mentally and it makes them feel powerful to beat up EOPs. Officer Williams is a leader of
18 a gang of abusive officers on this yard. There are at least five or six such officers. They
19 routinely attack EOPs for little or no reason. The violence is unpredictable and it makes it
20 extremely stressful to be an EOP patient here at LAC. These custody staff do not view us
21 as human beings. They seem to enjoy tormenting and antagonizing us.

DATED: July 6, 2020

Thomas Nolan
Thomas Nolan

Exhibit 7a

Filed Under Seal

Exhibit 8

DECLARATION OF

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison- Los Angeles County (“LAC”) on Facility D in Building 5. I am 54 years old.

3. I am an *Armstrong* class member. I am designated as DPM and DPV, meaning I have both a mobility and vision impairment. I have vision in my right eye but I have no vision in my left eye. In my right eye, I have nearsighted vision, meaning I can see things that are at a distance, but I have no farsighted vision. This means that while I can see some things that happen at a distance, I cannot see things up close. Because of this, I have difficulty getting around, and I rely on others to help me do so. In order to read and write, I have to use a magnifying glass to see with my right eye. Because of my vision impairment, I need eyeglasses and wear a vision impaired vest that signals to staff that I have a vision impairment and need assistance with getting around, reading, and writing.

4. Because of my mobility disability, I use a cane, walker, and I wear a mobility vest that signals to staff that I cannot get on the ground. I use my cane in the cell and my walker outside of the cell because I cannot fit my walker in the cell due to the fact that I am in a non-ADA cell. I am in a non-ADA cell because staff have told me when I arrived that there are a limited number of ADA cells in D-5. I have a housing restriction in my file requiring that I be housed on a lower bunk, on the ground floor of my housing unit. There are no ADA workers in the EOP Hub so I have to rely on officers and other incarcerated people who are willing to help me. Some officers are willing to help me with getting around, but in D-5 some of the officers leave me to my devices to get around. They will walk alongside of me and let me bump into things.

5. I am a *Coleman* class member. Up until recently, I have been housed at LAC at the Enhanced Outpatient Program (“EOP”) level of care, which means I am

1 housed in a special housing unit with other EOP patients, and I receive about 10 hours of
2 structured groups and other mental health care each week. I am currently still at LAC due
3 to restrictions on transfers due to COVID-19, but as of July 6, 2020 I have been awaiting
4 transfer to a higher level of mental health care in the Psychiatric Inpatient Program (“PIP”)
5 at CHCF, SVSP, or CMF. Psychiatric Inpatient Programs are licensed psychiatric
6 hospitals that provide intensive mental health treatment to individuals who struggle to
7 function in an outpatient program or a shorter term inpatient program. Even though I am
8 being referred to ICF, I have heard from officers who have tried to help me, whose names I
9 do not feel comfortable disclosing without their permission, that some D-5 officers are
10 trying to persuade my new clinician to drop me to CCCMS, the lowest level of mental
11 health care. According to the officers who have told me this, the officers trying to
12 convince my clinician to drop me are doing this because she is new and does not seem to
13 feel comfortable standing up to custody staff.

14 6. I struggle with bipolar disorder, depression and ongoing, intense suicidal
15 ideation. I have been to inpatient programs and the mental health crisis bed (“MHCB”),
16 which a short-term intensive care unit for people experiencing severe mental health crises,
17 many times during my time in CDCR to try to treat my depression and suicidality. At
18 present, I am feeling hopeless and depressed because my brother tried to commit suicide
19 just recently. I often feel as if my life has run its course.

20 7. I have a number of serious medical conditions. I have valley fever, asthma,
21 hypertension, HIV, and diabetes. I also have chronic obstructive pulmonary disease
22 (“COPD”) and use a C-PAP machine to treat this. I have been housed at LAC from
23 February 2, 2019 to now.

24 8. During my time at LAC, I was housed in the following locations: D-Yard,
25 Building 2, D-Yard, Building 4, C-Yard, Building 2, and C-Yard, Building 1, D-Yard,
26 Building 5, and the MHCB.

27 9. I have been a victim of staff misconduct at LAC.

1 10. Before arriving in D-5, I was housed in C-1. In mid-April 2020, a nurse who
2 works in C-1 named Bocock began mixing my HIV medications with medications that are
3 not prescribed to me. Because of my vision impairment, I need assistance identifying and
4 taking my medications. Another incarcerated person in C-1 used to help me with my meds
5 when they were keep-on-person (“KOP”), which means medications that I can carry and
6 administer to myself. However, this person moved, so my medications had to change from
7 KOP to nurse-administered, so that the nurse could assist me in taking my medications
8 properly in place of my friend who used to help me. I take about 15-20 pills in the
9 morning and 6-8 at night to treat my HIV, valley fever, blood pressure, and asthma. The
10 LVNs who dispense medications seemed to be frustrated that they now had to spend time
11 dispensing all of my medications.

12 11. LVN Bocock and LVN Hall told Officer Richardson and Officer Williams,
13 two officers in C-1, that I have HIV. After learning this, Officer Richardson and Officer
14 Williams told ADA workers and other people on the unit to “watch out when escorting
15 Inmate [REDACTED] because he has AIDS.” The officers also told one ADA worker that I “must
16 be a faggot” because I have AIDS. After learning this, this ADA worker and other
17 incarcerated people he is associated with came to my cell and told me I had 48 hours to
18 “get off the yard”, meaning leave C-1 or else I would be hurt. Another incarcerated person
19 told me he had heard that this ADA worker and others were going to attack me.

20 12. An incident took place after which I was charged with an RVR and placed in
21 the ASU. I did not attend my RVR hearing because I felt that even if I explained the safety
22 concerns that led to my actions, staff would do what they wanted and find me guilty. As
23 punishment, I am currently serving a 24-month term in segregation.

24 13. After I got to the ASU, I told Captain J. Miller, the C-Yard captain, how I
25 had gotten into this situation and the threats I had received. He told me to “deal with it”
26 when I got back to the yard after my segregation term. Before this RVR, I had not
27 received an RVR during my time on LAC C-Yard and D-Yard. I remain scared of going
28 back to C-Yard.

1 14. Apart from learning confidential information from medical staff, many
2 officers, including Officer Travino, Officer Flore, Officer Richardson, Officer White,
3 Officer Williamson, and Officer Nava, take information from electronic files of
4 incarcerated people and give that information to other incarcerated people who will attack
5 or assault those people for favors from the officers. I have heard of them doing this to
6 people who are sex offenders, as well as to people who file staff complaints and lawsuits
7 against officers. I know that Officer Richardson and Officer Williams let incarcerated
8 people keep cellphones and drugs in their cells in exchange for attacking any and all
9 incarcerated people who the officers want harmed or removed from the yard. Prior to the
10 incident that placed me in segregation, I and other incarcerated people in C-1 told Captain
11 Miller about the lack of supervision of these officers and what they were doing to us.

12 15. In June 2020, while I was in the D-5 EOP ASU Hub, I filed 1824 forms,
13 which are requests for accommodations for my disability, about the ADA showers in D-5.
14 I filed these forms because D-5 staff were using the ADA shower for incarcerated people
15 not designated as ADA so that the staff members did not have to escort the non-ADA
16 incarcerated people from the lower tier in B-Section over to A or C-Section. Since I am
17 both mobility and vision impaired, I and other disabled people need access to this shower.
18 Because staff in D-5 were using the shower for non-ADA incarcerated people, I and others
19 were forced to take showers in the non-ADA showers. I struggled to use these showers
20 because of my disabilities. On July 9, 2020, other incarcerated people in D-5 told me that
21 Sergeant Dotey knew that I had filed these 1824 forms. Sergeant Dotey is also aware that I
22 write frequently to report these conditions to Rosen, Bien, Galvan, and Grunfeld, the
23 attorneys who monitor disability accommodation and mental health care issues at LAC.
24 Recently, D-5 officers who are involved in the misconduct with Sergeant Dotey have
25 started losing my canteen slips. I believe this is in retaliation for reporting the poor
26 conditions for people with disabilities in D-5.

27 16. Other incarcerated people have also told me that Sergeant Dotey has
28 instructed Officer Rodriguez and Officer Castellano to ask incarcerated people to “tune me

1 up”, or assault me, in exchange for favors, including extra phone calls, and an extra
2 quarterly package. One of these people, [REDACTED], told me that Officer Rodriguez
3 asked him to “fuck me up” for him, Officer Castellano, and Sergeant Dotey. [REDACTED]
4 [REDACTED] refused and told me about what Officer Rodriguez had asked him. He told me that
5 Officer Rodriguez had told him he could get out of D-5 and back to a mainline unit if he
6 attacked me. After he refused to attack me, [REDACTED] told me he has been harassed by
7 these officers and has been struggling with his mental health.

8 17. [REDACTED] and others have also told me that the officers have told them
9 that if they attack me, the officers will make sure that the person that attacks me does not
10 get an RVR. In order to facilitate the attack, the officers have told people that they will
11 keep handcuffs loose on the person so that the person can slip his hand out of the cuffs to
12 attack me. I learned this from [REDACTED] and another incarcerated person who wishes
13 to remain anonymous, who officers also tried to recruit to get me attacked.

14 18. Recently, Officer Rodriguez has been escorting me to and from various
15 interviews and appointments I have. A few weeks ago, I was coming off the yard and he
16 was escorting me. Another incarcerated person asked Officer Rodriguez where he was
17 going. He said “I’m escorting this rat” referring to me. A number of the people that
18 overheard that know me and would not believe Officer Rodriguez, but after he made that
19 comment, I was afraid that those that overheard it who do not know me may actually
20 believe I am a “rat” and try to harm me.

21 19. Given what I have heard from other incarcerated people about being
22 attacked, I am terrified to be around Officer Rodriguez and the other officers. I believe
23 that staff are threatening me and are ordering that I be attacked because I have been
24 reporting staff misconduct and disability accommodation issues in D-5 by filing CDCR
25 1824 forms and by writing to my attorneys. I submitted an emergency 602 directly to the
26 Warden on July 26, 2020 reporting these safety concerns in the hopes that someone will
27 intervene to keep me safe. After not receiving a response, I filed another 602 about this
28

1 same issue about three weeks after the first 602. I have not yet received an assignment
2 notice or any sort of response to either appeal.

3 20. At the same time that I submitted my emergency appeal reporting my safety
4 concerns, I submitted a different 602 against LVN Flores, who works in D-5 and
5 frequently passes out medications. I recently had an episode that felt like I was having a
6 stroke. Shortly after this happened, I requested a sick call slip from LVN Flores to request
7 an appointment with medical staff. When I asked her for a medical slip, she told me I
8 could not have one, and said I was "lucky" I "didn't get any D-Con in my crushed and
9 floated pain medications." D-Con is rat poison. I immediately submitted the 602 reporting
10 this, to which I have not received an assignment notice or response.

11 21. I have also witnessed staff engage in misconduct against other people at
12 LAC. On July 11, 2020, Officer Castellano, Officer Martinez, and the sergeant that works
13 in D-5 on the weekend, Sgt. Barbour, as well as other custody staff members whose names
14 I do not know, assaulted another incarcerated person on my unit. Around 11:00 a.m. an
15 alarm sounded in the unit. The incarcerated person was out on the yard and apparently got
16 in a confrontation with an officer. When he got into the unit, I could see that his face was
17 busted open, bruised, and bloody, and he had a spit mask on. He was bleeding through the
18 spit mask. He had handcuffs and leg restraints on. The officers dragged him into the
19 dayroom. He could not walk because the leg restraints he had on were very tight, and he
20 could not seem to move his feet. In the dayroom, in front of everyone on the unit, the
21 officers slammed him back into the cement ground face down. When they picked him
22 back up, the officers placed him in a wheelchair and staff took two bedsheets, twisted the
23 sheets, and wrapped them around the person and the wheelchair, securing the person to the
24 wheelchair like a straitjacket. The officers had taken the wheelchair from another
25 incarcerated person in D-5 that is paralyzed.

26 22. After the assault, I heard Sergeant Barbour tell a nurse named Rios to clear
27 the person without medical treatment for his injuries. LVN Rios did so around 11:15 a.m.,
28 and the officers placed the incarcerated person, bloody and tied to his wheelchair, back in

1 his assigned cell. Most if not all of the black incarcerated people in D-5, including myself,
2 started to protest what had happened to this person by kicking our cell doors and yelling
3 that this person needed medical attention. When yard time was called just minutes after
4 we started banging our doors and yelling, we told Sergeant Barbour that we would not
5 come out of our cells with handcuffs, and would hold the handcuffs hostage if they tried to
6 cuff us, until this person received medical attention. We then watched Sergeant Barbour
7 gather the officers involved in the assault earlier that morning. Sergeant Barbour and the
8 officers were standing where the officers sit, which, if I am looking out of my cell, is just
9 to the right of my cell door. I overheard them discussing a “cover story.” Myself and other
10 people on the unit overheard Sergeant Barbour state that they could say that the
11 incarcerated person attacked a female staff member. They were clearly trying to create a
12 story with details that would justify the force they used against this person.

13 23. Around 11:30 a.m., the lieutenant in D-5, Lieutenant Williams, came into the
14 unit. Under her supervision the person who had been assaulted was removed from his cell.
15 I assume he was taken to the Triage and Treatment Area (“TTA”), to get medical
16 treatment. This person returned around 1:15 or 1:30 p.m. He was walking. I was unable
17 to see his face because there was some sort of big bag with ice in it covering his face. I did
18 not see LVN Rios or medical staff in the unit give this person any medical attention at any
19 time. He was only able to get treatment when the lieutenant sent him out to TTA. This
20 made it clear that medical staff in the unit were trying to help the officers and Sergeant
21 Barbour cover up their violent assault, even though this person was in distress after the
22 assault.

23 24. Right after the assault, no one from ISU came to ask questions about what
24 had happened. This signaled to me that staff and the administration at LAC knew that staff
25 had assaulted the incarcerated person, and not the other way around. Whenever an
26 incarcerated person attacks a staff member, ISU tends to show up almost immediately to
27 ask questions and take photos. I saw ISU eventually come to the door of the person who
28 was attacked about two weeks later, around July 28, 2020, to interview him.

1 25. While I have been in D-5, I have heard Sergeant Dotey, the second watch D-
2 5 sergeant, threaten people on the unit. For example, he and the officers who work for him
3 frequently tell people to stay in their cell. Although my unit is a segregation unit, people
4 go out to go to yard and go to EOP treatment. We are escorted when we leave our cell,
5 which creates a lot of work for these officers. They say that if the person comes out, they
6 will be "stomped out." This discourages us from getting out of our cell to receive the
7 medical and mental health treatment we need.

8 26. I recently witnessed Sergeant Dotey and two officers, Officer Rodriguez and
9 Officer Castellano, threaten my neighbor with harm. A few days after I arrived in D-5, my
10 neighbor was talking to Sergeant Dotey. I went to my door to hear what was going on.
11 Sergeant Dotey told my neighbor, "I just heard some shit about you that I don't like. I also
12 heard about an IEX you did. You can get a fade." A fade is a one-on-one fight. Sergeant
13 Dotey told my neighbor that he would take off his badge and utility belt if they fought.
14 Sergeant Dotey also told my neighbor that he would tell his officers not to get involved if
15 they fought, and that he would not give my neighbor an RVR for this fight as long as no
16 one filed a 602 about this. My neighbor refused to fight Sgt. Dotey, and since has been
17 called a coward for not fighting by Sgt. Dotey and his officers. They have also told him
18 that he "better not come out" of his cell for anything, including mental health ducats,
19 preventing him from getting help he needs as an EOP patient.

20 27. Shortly after my neighbor was threatened and asked to fight, LAC ISU
21 officers came to interview me and this person that had been threatened. I was interviewed
22 about this again about a week after the first interview by five ISU sergeants. I told them
23 everything about what had happened. Very recently, my neighbor who Sgt. Dotey tried to
24 fight had been released from D-5 to a mainline unit on D-Yard. I believe Sgt. Dotey is
25 trying to harm my neighbor because this person who was released to mainline told me that
26 he had a documented enemy on the mainline units on D-Yard, and cannot go to B-Yard or
27 C-Yard at LAC due to his case factors and mental health level of care. He also cannot
28

1 transfer to a different prison at this time due to COVID-19. I have no idea where he has
2 gone, but I am worried his life is in danger.

3 28. Sergeant Dotey and his officers frequently attack people in the unit when
4 they are already handcuffed. For instance, I heard from multiple other incarcerated people
5 in D-5 that shortly before I got to D-5, Sergeant Doty, Officer Rodriguez, and Officer
6 Castellano handcuffed another incarcerated person, picked him up, and slammed him
7 down into the ground face and head first. Apparently he had very serious injuries—he
8 looked badly beaten up and had blood and bruises on his face. The other people on the
9 unit told me they were very worried about this person because he is severely mentally ill
10 and elderly. He did not do anything to the officers and was handcuffed, but they assaulted
11 him anyways.

12 29. On July 8, 2020, Sergeant Dotey, Officer Castillo, and Officer Frakin
13 attacked this person again. I witnessed this assault, as I had moved into D-5 around this
14 time. Around 9 a.m. that day, this person was taking a shower and Sergeant Dotey and the
15 officers entered the shower while this person was naked, grabbed him, and paraded him by
16 walking him from the shower all the way down the tier. This person tried to lay down on
17 the ground, and the officers started kicking him. After kicking him, they dragged him into
18 his cell. I could not see inside his cell easily, but I could hear the staff hitting him and
19 yelling at him inside the cell. When they were finished assaulting him in the cell, I
20 watched the staff leave the cell. Both my neighbor and I decided to document this incident
21 by writing down what happened because we were very concerned. In early August 2020,
22 mental health clinicians placed this person on suicide watch. About a day into suicide
23 watch, he was moved out of the unit. I asked my clinician where he went, because I was
24 concerned for his safety. My clinician told me he had moved to the MHCB.

25 30. I have also seen officers especially mistreat people in C-Section of D-5. I
26 used to live in C-Section, but now live in A-Section. C-Section is known as being the
27 place that Lieutenant Williams and Sergeant Dotey have put incarcerated people that have
28 been charged with indecent exposure (“IEX”) rules violations. Officers see this section as

1 containing the problematic people in the unit, and the officers treat the people there as
2 such. They are extremely disrespectful of the people in C-Section and do not afford people
3 their rights there. I lived in C-Section up until recently, even though I have never engaged
4 in or been charged with IEX, because there were supposedly no other cells available when
5 I first arrived in D-5. In C-Section, I and others were routinely denied yard, showers, and
6 phone calls. There are also no cell cleaning unit staff, so everyone's cells stay dirty.
7 Officers would stack big toilet paper boxes in front of the cells and the showers so that
8 people could not look at female staff members in the tower. This is extremely dangerous
9 because if an incarcerated person cannot see out of the cell or shower, the tower officers
10 cannot see into the cell or shower to see what is going on.

11 31. I and others on the unit filed numerous requests reporting the conditions and
12 asking for interviews with Lt. Williams about these conditions in C-Section. However, I
13 heard Lt. Williams say, even after we sent these requests and reports, that she has not
14 received any requests from people in the unit reporting any problems. This means she is
15 either lying to us, or her staff are throwing the requests away before she can see them.

16 32. I have continually had trouble getting medical treatment and disability
17 accommodations while at LAC.

18 33. Yesterday, I was supposed to go to Bakersfield to meet with my orthopedic
19 surgeon as a pre-appointment to my orthopedic surgery. Around 6:45 a.m. yesterday
20 morning, officers came to my door to tell me that the two vehicles with lifts, which are
21 used to transport people with mobility disabilities like myself, were unavailable. They told
22 me I could get in a vehicle without a lift, or not go to my appointment. I told them I could
23 not go without the lift and showed them my accommodation chrono saying that I needed a
24 lift in any vehicle I went in. After talking with the officers, medical staff are supposed to
25 come to my cell to check and make sure that I actually refused the medical appointment.
26 No medical staff member ever came to my cell to ask me to sign a form saying I refused
27 my appointment. Every time I go out to the hospital, I have been able to access a vehicle
28 with a lift, and staff generally know this about me and are able to make sure I have a

1 vehicle with a lift. I believe that custody staff were purposefully preventing me from
2 going to my appointment and shielding this from LAC medical staff as retaliation for
3 reporting staff misconduct.

4 34. In my time at LAC, there have been many times I have needed help and been
5 afraid to ask for it. Because of my medical conditions, disabilities, and mental illness, I
6 rely heavily on staff for help. Given all the staff misconduct I have experienced,
7 witnessed, and heard about, I am afraid every time I ask staff for help, even though I have
8 to ask staff for help or else I would not be able to survive. I am especially vulnerable due
9 to my vision impairment, and feel unsafe oftentimes because I cannot see what is going on
10 and have to trust these corrupt officers and sometimes the incarcerated people that work
11 with them. This places my life and danger and makes me afraid to ask for assistance, even
12 though I need it. For instance, when I needed assistance with my medications from the
13 nurses in C-1, they used my medical information against me and threatened my life,
14 causing me to have to defend myself and get charged with a serious crime in the process.

15 35. In my opinion, staff target people with disabilities and vulnerable prisoners
16 with staff misconduct. I and others with disabilities can be taken advantage of in a way
17 that prisoners without these disabilities cannot be. Staff know this and use my inability to
18 see and move easily against me. They know they can get away with harassing and
19 threatening me because I cannot defend myself as well as a person without disabilities.
20 Staff also know I and others with disabilities cannot avoid them, because we have to
21 interact with them and get help from them. Because of this, staff have a control over us
22 that they can use to make us do what they want and to abuse us when they want to put us
23 in our place.

24 36. I believe the reason there is so much staff misconduct at LAC is because
25 officers function like a gang, and are allowed to run the units and do whatever they want.
26 The lieutenants and LAC administration do not intervene even when they know that people
27 in these units are being abused. In addition to custody staff covering for each other,
28

1 medical staff also work with the officers to cover up misconduct. Because of that, people
2 do not get the care they need even after they are assaulted and mistreated.

3 37. I have been at many high security prisons in CDCR at many different times
4 throughout the last thirty years—CSP-Sacramento, Pelican Bay, Mule Creek, California
5 Medical Facility, Salinas Valley, Richard J. Donovan, California Health Care Facility,
6 Solano, and San Quentin—and LAC in 2020 is the most corrupt and dangerous prison at
7 which I have ever been housed.

8 I declare under penalty of perjury under the laws of the United States of America
9 that the foregoing is true and correct, and that this declaration is executed at Lancaster,
10 California this 26th day of August, 2020.

11
12
13
14
15 On August 26, 2020 due to the closure of LAC in light of the COVID-19 pandemic
16 and ongoing concerns that officers might retaliate against witnesses in support of
17 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
18 system at LAC, I read the contents of this declaration, verbatim, to [REDACTED] by
19 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
20 and correct. [REDACTED] also orally granted me permission to affix his signature to the
21 declaration and to file the declaration in this matter.

22
23 DATED: August 26, 2020

Exhibit 8a

Filed Under Seal

Exhibit 9

DECLARATION OF

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison-Los Angeles County (“LAC”) on Facility D in Building 5. I am 37 years old.

3. I am a *Coleman* class member. I am at the Enhanced Outpatient Program (“EOP”) level of care, which means I am housed in a special housing unit with other EOP patients, and that I receive about 10 hours of structured groups and other mental health care each week. I have been at the EOP level of care for most of my time in CDCR. I suffer from anxiety and depression. I also struggle with ongoing suicidality. I have attempted suicide a few times during my stay in CDCR. Most recently, in late June, I tried to hang myself in my cell while I was on suicide watch. I have also tried to commit suicide by ingesting razors.

4. I have been housed at LAC from December 19, 2018 to now.

5. During my time at LAC, I have been housed in the following locations: D-Yard Building 3, and D-Yard Building 5, which is the EOP Administrative Segregation Unit (“EOP ASU”).

6. I have been a victim of staff misconduct at LAC.

7. On July 8, 2020, I had just gotten off suicide watch and was scheduled to go to an Interdisciplinary Treatment Team (“IDTT”) meeting that day. An IDTT is a meeting where an incarcerated person in the mental health system meets with their team of clinicians that work with them on mental health issues.

8. Officer Rodriguez, a floor officer in D-5, escorted me to IDTT. As he was escorting me, he said, "What's up with your neighbor? He's a rat." I asked what he meant by this. He said that my neighbor, [REDACTED], had been talking to the Investigative Services Unit ("ISU") and other agencies. Officer Rodriguez then asked me, "If you were

1 walking with me, could you fuck someone up for me?” He then asked me more about how
2 I would kick and attack someone while walking. It was an odd conversation, and I tried
3 not to engage with what Officer Rodriguez was saying. I did not question him at the time
4 because I did not fully understand what he was asking me.

5 9. After my IDTT meeting, Officer Rodriguez came to escort me back to D-5.
6 As he started to walk me back to D-5, he asked me, “Could you fuck your neighbor up for
7 us?” referring to Mr. [REDACTED]. I asked him who “us” was. He said, “me, Cas, and Dotey”,
8 referring to Officer Castellanos, another D-5 floor officer, and Sergeant Dotey, one of the
9 sergeants that works in D-5. Officer Rodriguez then told me that he heard that Mr. [REDACTED]
10 was going to report the misconduct that Sergeant Dotey had been doing. He told me that
11 Sergeant Dotey would be able to get me out of D-5 if I did this. I took from this
12 conversation that he wanted me to attack Mr. [REDACTED] because he had reported staff
13 misconduct. I told him I would not attack Mr. [REDACTED], and I was going to be leaving D-5
14 soon.

15 10. Mr. [REDACTED], like myself, suffers from mental illness and is in the EOP
16 program. He is also severely vision impaired and mobility impaired, which makes him
17 extremely vulnerable. I thought it was cruel for the officers to even be thinking about
18 harming him.

19 11. The next day, on July 9, 2020, I was scheduled for Institutional
20 Classification Committee (“ICC”), a hearing in which staff and incarcerated people discuss
21 housing decisions, and was prepared to discuss my release from the EOP ASU. I figured
22 that I would be getting out of D-5, as my 90-day maximum punishment for the rules
23 violation that had placed me in the ASU had finished a while before. On July 8, 2020,
24 shortly after I refused to attack Mr. [REDACTED], Officer Rodriguez came to my cell and said
25 “Well, it looks like your name has been scratched off the list for ICC.” He was laughing
26 and walked away before I was able to say anything.

1 12. I believe that Officer Rodriguez and Sergeant Dotey somehow got my name
2 taken off the ICC list because I refused to attack Mr. [REDACTED] and take the deal from Officer
3 Rodriguez to be released from the ASU.

4 13. That same day, I told Mr. [REDACTED] what had happened to make him aware that
5 Sergeant Dotey, Officer Castellanos, and Officer Rodriguez were trying to get him
6 attacked. I also decided to provide him a declaration about what happened that he could
7 use in support of his 602 staff complaint reporting the misconduct against him. He
8 submitted his 602 that day. I also submitted a separate 602 myself on July 29, 2020,
9 reporting that the officers had asked me to attack [REDACTED]. I have not received a log
10 number for this 602, over a month later.

11 14. I speculate that the officers are going to try to force me to withdraw my 602
12 in exchange for being released from D-5 back to the mainline at my next ICC. I have
13 asked my counselor when I am going to be re-scheduled for ICC. She told me, "I don't
14 know and I don't care." I was recently told that I should have an ICC soon, but I am not
15 sure it will actually happen. Even if I was to move off the yard, I am worried about
16 leaving Mr. [REDACTED] behind. I am also worried about my safety, as the officers at LAC all
17 seem to know each other and reporting staff misconduct in D-5 still could get me attacked
18 on another yard.

19 15. Three ISU officers—Sergeant Coker, Lieutenant Romero, and an officer
20 whose name I do not know—came to speak with me on July 28, 2020 about Mr. [REDACTED]'s
21 allegations. I was taken to the back room of the mental health building for the meeting.
22 The ISU officers seemed to be pushing against my story. Lieutenant Romero asked me,
23 "How do we know that you're not mad we didn't give you what you asked for?" I asked
24 him what he meant, as I had no idea what he was talking about and had not asked for
25 anything. He suddenly looked at the recorder and seemed to realize that I was serious and
26 I was not reporting this just to get privileges or other special treatment. I have not heard
27 anything more about the ISU investigation since that meeting.
28

1 16. After I met with ISU on July 28, 2020, and submitted my 602 the next day,
2 July 29, 2020, the harassment against me increased. On August 10, 2020, Officer
3 Castellanos was escorting to me to yard around 8:30 a.m. or so when he asked, "Is
4 everything cool with us?" I said yes, everything was cool. "If me and you got a problem,
5 we can talk about it?" he asked. I said yes but did not say much more. It seemed he was
6 trying to say that he and I had an issue with each other, because I had refused to attack Mr.
7 [REDACTED] for him, Officer Rodriguez, and Sergeant Dotey. The conversation ended when I
8 was placed in the cages on the yard to have my yard time.

9 17. After yard ended around 10:40 a.m., Officer Castellanos came to escort me
10 back. I thought we were going back to my cell in D-5, but he stopped with me at the
11 sergeant's office on the way back. Sergeant Dotey was in the office when we stepped in.
12 Sergeant Dotey said, "You?" in a shocked voice. I said, "Me what?" He said, "You going
13 to do some shit like this?" I asked him what he meant. He said, "You joining in on the
14 bullshit your neighbor is doing?" He asked me why I was reporting "his" officers.
15 Sergeant Dotey told me his officer, referring to Officer Rodriguez, would never have asked
16 me to attack someone. I said, "You don't know what the fuck your officer told me." He
17 then said something along the lines of, "we will handle you", and did not say anything
18 else. I felt unsafe at this point and asked to go back my cell. Officer Castellanos escorted
19 me back to my cell. He was quiet during the walk. It seemed like he was in awe that I had
20 stood up to Sergeant Dotey.

21 18. On August 14, 2020, Officer Rodriguez came by my cell to do a security
22 check when I was bird-bathing, or cleaning myself with water and soap in my cell. He
23 said, "Let me see your face [REDACTED], make sure you're alright." His voice did not sound
24 normal, so I did not know it was Officer Rodriguez. I opened the privacy curtain to let him
25 see my face. He said, "I don't care about your bird-bathing, you rat bitch. Let me see your
26 pussy." Within minutes, he came back, opened the food port, and snapped the privacy
27 curtain while I was naked.

1 19. I submitted a 602 regarding this harassment. I also reported this to my
2 mental health clinician during a meeting with her the same day, and she told me she would
3 report it so that I could get a PREA evaluation. I never received any PREA evaluation or
4 follow up. I never received a log number for my 602, either.

5 20. Being asked to assault Mr. [REDACTED], and the subsequent retaliation by staff,
6 caused my anxiety and depression to skyrocket. I did not sleep for days after I was asked
7 to attack him, and I am still not sleeping well. I am feeling extremely lost and do not
8 believe that I will make it through this. I have asked my mental health clinician to help
9 me, but so far I have not received the help I need. Every time I go to my clinicians, they
10 let me talk but do not act on what I am saying or seem to report the misconduct we discuss.

11 21. I was feeling suicidal in the weeks after July 9, 2020. I reported my
12 suicidality to Rosen Bien Galvan and Grunfeld in late July 2020, and my clinician, Ms.
13 Brooks, came to meet with me. Before these events, Ms. Brooks seemed to be close with
14 the officers. Since meeting with me in late July 2020, I have seen her gradually move
15 away from the officers and talk with them less and less on the unit. I do not fully trust her,
16 but I have been able to work with her a little more frequently.

17 22. In addition to threats and assaults, there is little to no due process at LAC,
18 especially in D-5, where many of the patients have been charged with at least one rules
19 violation report.

20 23. At ICC when I got to the ASU on April 9, 2020, I told the members of my
21 ICC that my placement in ASU was unjustified, because I had been placed there for
22 contraband, which was not a very serious charge. Warden Johnson, who was present at my
23 ICC, looked at the paperwork and said he was fine with me going back to the yard and that
24 I should not be placed in segregation. The captain at the hearing, Captain Shumaker,
25 turned to him and said, "This is going to be a deadly weapon if I want it to be." Captain
26 Shumaker was suggesting that my charge be elevated to the highest level. At this time, I
27 had not yet had my RVR hearing determining my punishment for the contraband.

1 24. I had my RVR hearing for the contraband on April 20, 2020. When I arrived
2 at the hearing, Captain Shumaker was already there. Before the hearing started, Captain
3 Shumaker told the lieutenant running the hearing whose name I do not remember, "Find
4 him guilty of the highest charge, manufacturing a deadly weapon." Both Captain
5 Shumaker and Sergeant Dotey were at both the April 20 RVR hearing and my ICC on
6 April 9, 2020, which is against policy. I was found guilty of the charge of "manufacturing
7 a deadly weapon." I was given a maximum 90-day term in segregation.

8 25. I filed a 602 about Captain Shumaker impacting my hearing on May 21,
9 2020. My 602 was denied on the grounds that that my 115 hearing did not start until
10 Captain Shumaker left, so he could not have influenced the outcome of the hearing.

11 26. While the entire culture at LAC is terrible, there are a few officers that are
12 especially bad. For example, Officer D. Moisa, an officer that used to work in D-5 and
13 was recently promoted to the gang investigations unit at LAC, does whatever he wants. I
14 have witnessed him set up fights between incarcerated people, plant evidence to charge
15 people he does not like with false charges, and assault people.

16 27. Officer Moisa frequently will charge people with false rules violations after
17 they have reported him for misconduct. He will also write confidential informant reports
18 that falsely note people as confidential informants, or document enemy reports that are not
19 accurate. These reports manufacture conflict that is fake so that one of the people involved
20 in the fake conflict is either moved out of the unit or kept in the unit when they do not want
21 to be there. He does this to incarcerated people he finds problematic.

22 28. I have experienced Officer Moisa manipulating peoples' housing placements
23 in order to reward certain incarcerated people and punish other incarcerated people.
24 Shortly after I submitted a 602 reporting what had happened at my initial ICC on April 9,
25 2020, while I was in D-5, Officer Moisa wrote that me and another person on mainline
26 would have enemy concerns with each other. I received this report on May 27, 2020 from
27 counselor Soto at my cell door. The report stated that a confidential informant had told
28 officers that I was his enemy. That person was not my enemy, but Officer Moisa

1 documenting that we were enemies kept me in the ASU. I told Counselor Soto this
2 document was false, but she just walked away from my cell.

3 29. On May 31, 2020, I filed a 602 reporting this document about my enemy
4 concerns was fake. This 602 vanished, and I never received a log number or response.
5 When I asked the appeals office, they told me they never got that 602. Sergeant Dotey told
6 me after this, when we were still on decent terms, to stop writing 602s because the warden
7 told him that Officer Moisa was writing too many of these reports.

8 30. I have witnessed staff engage in misconduct against other people at LAC
9 continually throughout my time here.

10 31. For example, in early July 2020, a nurse named Fletcher was giving another
11 incarcerated person his insulin shot. LVN Fletcher poked him a little hard with the needle
12 and he yelled "bitch!" Suddenly, I saw Sergeant Dotey run over and slam this person
13 head-first on the ground. The impact of Sergeant Dotey slamming the head was so great
14 that the floor shook. There was blood oozing from the person's head. Lieutenant
15 Williams came onto the unit right after this person was assaulted and demanded that he get
16 medical attention. I believe this person would not have received treatment if Lieutenant
17 Williams had not intervened.

18 32. I still have to interact with the officers that were involved in the staff
19 misconduct against me and that I have witnessed. Because D-5 is the only ASU where
20 EOP patients like myself can be housed at LAC, we are constantly around the same
21 officers unless we finish our segregation term or get removed from the unit for some
22 reason.

23 33. I have barely come out of my cell over the past couple months because I fear
24 being assaulted and experiencing more harassment than I already have. My mental health
25 has suffered greatly. I barely attend my mental health groups. I also do not go to shower
26 or go to yard when Officer Rodriguez is working, which is five out of seven days of the
27 week. I have also had mail that I sent to family returned to me, and my family has had
28 mail they sent me returned to them.

1 34. I did not have these issues prior to reporting the staff misconduct against Mr.
2 [REDACTED] and me. I was someone who got along with most of the officers and other
3 incarcerated people and attended my mental health groups. These events over the past
4 couple months have completely changed my experience at LAC.

5 35. I am afraid to ask staff to see mental health, to ask them for a shower, or ask
6 about why my mail is being messed with, because I fear they will make the situation even
7 worse than it already is.

8 36. In my opinion, staff target people with mental illness and disabilities with
9 staff misconduct. In D-5, every person has mental health issues and is at the EOP level of
10 care, and many of the patients also have developmental disabilities and are part of the
11 developmental disability program (“DDP”), a program that provides assistance and
12 accommodations to people with developmental disabilities. Many of the patients also have
13 physical disabilities and/or serious medical conditions. In general, everyone in D-5 is
14 vulnerable to some extent. The officers in this unit know this and use this to wield power
15 because they know that people on this unit do not have the power to speak up. We are
16 stuck between a rock and a hard place where we need staff to help us even though we are
17 assaulted and mistreated by them. Because we are vulnerable and have these issues, staff
18 do not believe us or trust us.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Lancaster, California this 1st day of September, 2020.

DATED: September 1, 2020

Emma Cook

Exhibit 9a

Filed Under Seal

Exhibit 10

1 9. On September 30, 2019, the day before the incident of excessive force and
2 staff misconduct, I was involved in an argument with another incarcerated individual in the
3 D-Yard, Building 3 EOP housing unit. The other individual threatened to stab me if I
4 remained on D-Yard. We were arguing and the individual ended up threatening me.

5 10. I reported my resulting safety concerns to Officer Oliver, a third watch
6 officer in the housing unit. However, Officer Oliver told me, “I don’t give a fuck,” and
7 walked away.

8 11. The next morning, October 1, 2019, during breakfast at approximately
9 6:00 a.m., I again reported my safety concerns, this time to a female officer, who replied,
10 “We’ll get you out of this [unit],” before walking away. After two hours of waiting, the
11 female officer returned to my cell at around 8:00 a.m.. I told her that I was feeling
12 suicidal. The female officer left to find a member of mental health staff.

13 12. Approximately two hours later, at around 10:00 a.m., my clinician came to
14 see me at my cell front. My clinician told me, “I’m going to get you to a crisis bed, hold
15 tight,” before walking away.

16 13. I then waited in my cell for another seven hours. I was never taken to a crisis
17 bed. As time passed, I became increasingly panicked. I was worried that staff were
18 ignoring my safety needs and that I would end up getting badly hurt. I was scared.

19 14. At around 5:00 p.m., officers on third watch came through the unit to provide
20 dinner. As the officers passed out dinner trays, I yelled, “When are you guys going to get
21 me out of here?” In response, Officer Oliver locked my tray-slot and told me I would not
22 receive any dinner. He then walked away.

23 15. Next, I yelled, “Hey Oliver, come back here.” At this point, LAC staff
24 members allege that I threw bodily fluids toward Officer Oliver.

25 16. Officer Oliver yelled for the control tower to open my cell and then pepper
26 sprayed me through the open door. After pepper-spraying me, Officer Oliver told me to lie
27 on the ground in my cell and crawl out of my cell on my hands and knees. I complied with
28 his request. Once I crawled out of my cell and lay on the floor of the second tier, Officer

1 Oliver directed me to put my hands behind my back. I did so. However, Officer Oliver
2 punched me twice in the face with a closed fist before cuffing me up.

3 17. Officer Mobley and three other officers then escorted me out of the unit and
4 brought me to the gym. After closing the door to the gym, the officers knocked me to the
5 ground and repeatedly kicked and punched me in the face and body. The assault lasted for
6 about half a minute. I was still cuffed up behind my back and unable to block their blows.
7 I was terrified because there was no one present but the officers who were assaulting me. I
8 was worried the assault would not end and that I would be badly injured. I believe I lost
9 consciousness during the assault. I am not completely sure how long I was out, but I
10 believe it was a brief period of time. When I woke up I was very disoriented and in pain.
11 My right eye was swollen shut.

12 18. I was then placed into a holding cage in the gym before being brought to the
13 Treatment and Triage Area, or "TTA," which is a medical clinic at a central location in the
14 prison. At the TTA, nursing staff evaluated me. The nursing staff documented that I had a
15 possible facial fracture to my right orbital bone in addition to multiple scratches and
16 abrasions to my face, head, and body. I informed nursing staff that I had been assaulted by
17 officers. After the evaluation, I was transferred to the Palmdale Regional Hospital, where I
18 received an X-ray for my facial fracture and stitches for the cuts around my right eye. I
19 was then discharged back to LAC. I have been told that these injuries are all well
20 documented in my medical records.

21 19. When I returned from the hospital, I was evaluated by mental health staff
22 who referred me to a mental health crisis bed because my mental health condition had
23 deteriorated a lot and I was feeling suicidal. I had already been in distress before the
24 assault, but my mental health deteriorated significantly as a result of the assault. While in
25 the crisis bed on October 2, 2019, a Sergeant and Lieutenant conducted a videotaped
26 interview of me due to my excessive use of force complaint and my documented serious
27 bodily injury (the broken orbital bone). The officers did not ask me for the names of
28 witnesses to the incident and ended the interview after only ten minutes. The officers were

1 not sympathetic and did not seem interested in my story. Except for this interview, no one
2 investigating the use of force has spoken to me about the incident.

3 20. I filed a 602 about the incident the morning after I was assaulted. I have
4 never heard anything back about it.

5 21. Although I suffered from mental health issues prior to this excessive use of
6 force incident, I have gone downhill since LAC staff beat me up. In the months following
7 the assault, I also became suicidal and experienced thoughts of violence towards others.
8 On October 21, 2019, I was written up for threatening a psychiatrist at LAC. I was just
9 mad because I did not think my PC 2602 Order was valid and they were extending it. In
10 general I was just not doing well, and I became furious with him. I now believe this
11 behavior was a symptom of my mental health declining after I was assaulted.

12 22. The main injury from the assault I experienced was the fractured orbital bone
13 below my right eye. The injured has healed over time, but it was very painful for several
14 weeks.

15 23. I received an RVR for gassing Officer Oliver. My RVR has not been
16 adjudicated. I believe the RVR was related to my mental health condition because at the
17 time of the incident I was feeling very suicidal and very scared for my safety, and I was
18 not thinking clearly.

19 24. Since the incident, I have been in the PIP at CHCF. My mental health has
20 been improving.

21 25. I have not had to interact with the officers since the assault, because I was
22 moved immediately afterward to the MHCB unit and then the PIP at CHCF.

23 26. I believe the entire incident I experienced could have been avoided if LAC
24 custody staff were better trained in how to respond when someone is having a mental
25 health crisis. At the time of the incident, I felt unsafe and suicidal.

26 27. In my opinion, some staff at LAC harass people with mental health issues. I
27 am not sure why they do this.

1 28. I believe I was beaten in the gym because there are no cameras there and
2 there were no witnesses to the beating except for the officers involved.

3
4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Stockton,
6 California this 14th day of July, 2020.

7
8
9
10
11 On July 14 2020, due to the closure of CHCF in light of the COVID-19 pandemic,
12 and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at CHCF, I read the contents of this declaration, verbatim, to [REDACTED], by
15 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
16 and correct. [REDACTED] also orally granted me permission to affix his signature to the
17 declaration and to file the declaration in this matter.

Exhibit 11

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California State Prison- Los Angeles County ("LAC") on Facility B in Building 1. I am 27 years old.

3. I am a *Coleman* class member. I am at the CCCMS level of care. I suffer from bipolar affective disorder. Because of this, I periodically have very bad mood swings. I also sometimes feel depressed and angry. In the past year, I have also experienced terrible nightmares. When I have these, I sleep very little, which makes my other mental health issues even worse. Recently, I have been doing better and not experiencing these symptoms as frequently as I was a few months ago. I still have nightmares periodically but have been sleeping a little bit more recently. At the time of the staff misconduct incident described below, I was not on the mental health caseload despite my history of mental health issues, because I was managing my symptoms fairly well. After the incident described below, and because of it, I entered the mental health system in late October 2019, because I was experiencing a lack of sleep, increased anger, and increased stress. My depression also increased. During my initial meeting with my clinician after I entered CCCMS, he told me I was suffering from post-traumatic stress disorder ("PTSD") symptoms due to the staff misconduct I had experienced.

4. I am not a member of the *Armstrong* class, but I believe I have an undiagnosed learning disability. I struggled to understand things in school growing up and sometimes have issues understanding things in prison that I read or hear. It also takes me a while to write everything down and convey it in a way that makes sense to me and others reading it.

5. I have been housed at LAC from January 11, 2017 to now, with the exception of a month and a half period when I was at RJD, from July 31, 2019 to

1 September 15, 2019. I went to RJD for this period to be in a segregation unit after being
2 charged with my Rules Violation Report (“RVR”), described below.

3 6. During my time at LAC, I have been housed in the following locations: B
4 Yard, Building 1, B Yard, Building 3, and B Yard, Building 5.

5 7. I was a victim of staff misconduct at LAC.

6 8. On July 14, 2019 around 10 a.m., packages were getting passed out to people
7 in my housing unit at the time, B-5. The tower officer whose name I do not know popped
8 my cell door open to let me out to get my package. When I got to the gym where packages
9 were being distributed the staff member handing out packages whose name I do not know
10 told me I was on loss of privileges (“LOP”), meaning that, among other restrictions, I was
11 not allowed to get packages. I was very confused about this because, to my knowledge, I
12 was not on LOP at the time, and therefore should have been getting my package that day.

13 9. I asked to speak to Sergeant Mendoza, a Sergeant on B-Yard. The officer by
14 the gate to the gym in B-5 told me that Sergeant Mendoza was in B-3 at the time. I walked
15 over to B-3 to try to find him. I stood in front of the B-3 gate and told the tower officer
16 that I needed to speak to Sergeant Mendoza. They called Sergeant Mendoza over. I asked
17 him if he could fix what was in the computer because I had been wrongly made LOP. He
18 did not respond to my question, and said “cuff up I’m walking you back.” I complied and
19 was handcuffed, and Officer Serrano walked me back to B-5. Before we left B-3 near the
20 gate, Officer Serrano slammed me on the ground face first. As I was on the ground laying
21 on my stomach, he got on top of me and placed his knee on my head, driving my head into
22 the ground. I was handcuffed the entire time.

23 10. While I was on the ground, about five other officers responded to the scene
24 and they all with Officer Serrano picked me up and walked me to the gym. At the gym,
25 they placed me in a holding cage and told me to take off all my clothes. There were about
26 ten officers surrounding me at the time. At first I was refusing to take off my clothes, but
27 one of the officers threatened to spray me if I did not take them off. Then I consented and
28

1 took my clothes off. Right after they had me stripped down, a nurse whose name I did not
2 know came. I was telling the nurse I was bleeding from my face and my leg, but the nurse
3 barely looked at my injuries and suddenly left. She filled the 7219 form documenting my
4 injuries, but did not really evaluate me. I was too afraid to plead for medical help from the
5 nurse because there are no cameras around the gym, and I was worried that medical staff
6 would not take me seriously and would tell the officers I was requesting help, or the
7 officers would see me requesting help and assault me again.

8 11. After I saw medical, I was taken to the ASU. I had a really bad headache
9 from Officer Serrano slamming my face into the ground and putting his knee into my head.
10 I had scratches on my face. My back also really hurt. I never received medical attention
11 after Officer Serrano assaulted me. I learned later when I got the incident report that a
12 nurse had filled out a 7219 and said I had some marks on my face and legs, but did not
13 fully describe my injuries. I never received any sort of medical attention for my injuries,
14 and they had to heal on their own. My scratches lasted for about a week or two. I still
15 have headaches and pain in my face, more than a year later.

16 12. When I was sitting in the ASU, I started to get very nervous because I wasn't
17 really thinking well and knew I had not done anything. I believe Officer Serrano assaulted
18 me because I am vulnerable due to my mental health issues, and because I am black.
19 Officer Serrano is a known abuser of black incarcerated people at LAC. Even before this
20 assault, I heard things from other people in my unit about him intimidating and harassing
21 other black people on B-Yard. Because of this, I was already wary of him before this
22 incident.

23 13. On the same day of the assault, I was told I was charged with an RVR for
24 "Assault on a Peace Officer by Means Not Likely to Cause Great Bodily Injury ("GBI")."
25 I did not receive a paper copy of my RVR until two weeks later, on July 26, 2019. The
26 original RVR contains a lot of false information. The RVR says I was yelling at the
27 officers to get into B-3, which I did not do. The RVR also states, accurately, that I
28

1 complied to being handcuffed, but falsely indicates that after I was handcuffed I started
2 flexing my muscles and resisting, and eventually started twisting my body and trying to
3 strike the officers with my body. The RVR claims that officers had to use force against me
4 when I started resisting. The RVR did not say anything about officers slamming my face
5 to the floor. It also does not make sense – why would someone resist after they are
6 handcuffed and totally vulnerable?

7 14. I did not receive an RVR hearing after getting the RVR. On August 21,
8 2019, I filed a 602 reporting that I had not yet been to my RVR hearing, and also asking
9 that CDCR not charge me with my RVR because I never did what was said in the RVR. I
10 also reported my injuries in this 602 and said that my mood had completely changed since
11 the attack and I was fearful of being around officers. I also pointed out that I was not
12 resisting, I was just very tense and flexing my bicep because I was uncomfortable being
13 around a known abuser and did not like that he was wrapping his hand around my arm and
14 not my restraints. The day after I submitted this 602, on August 22, 2019, I had my RVR
15 hearing while I was housed at RJD.

16 15. At the RVR hearing, the Senior Hearing Officer found that I had not
17 assaulted Officer Serrano as written up in the RVR and even told me the charge did not
18 make sense as written. They reduced the charge from assault on an officer to the lesser
19 charge of “resisting staff”, and found me guilty of that charge. My punishment was 90
20 days of credit loss and 90 days loss of yard. I was also sent back to LAC because I was no
21 longer being charged with a serious charge. I believe that my charge was reduced because
22 they knew I had not done what the RVR said, but still felt they needed to charge me with
23 something to cover up what they had done to me.

24 16. My 602 was bypassed at the first level of review and sent to the second level
25 on September 4, 2019. On October 29, 2019, I was interviewed about my 602 by
26 Lieutenant Melendrez. I told him I had attended the 602 hearing and we discussed what
27 had happened at the hearing. On November 5, 2019, I received the second level response
28

1 to my 602. CDCR denied my request to have the RVR removed from my file and claimed
2 that I had been afforded due process. I sent the appeal to the final level of review shortly
3 after it was denied at the second level. On March 30, 2020, I received notice from the
4 CDCR Office of Appeals that they would not be issuing a third and final level response to
5 my appeal due to time constraints, and the second level denial of my appeal would be the
6 final decision.

7 17. The assault made me fear for my life. After I was assaulted, I noticed my
8 mood completely changed. I became scared and afraid of everything, and no longer felt
9 comfortable alone with officers, and no longer wanted to speak with them. The assault
10 really emasculated me and made me feel like I had completely changed as a man. My
11 mental health issues were fairly under control before this incident, but after this happened I
12 had a mental health crisis that I am still dealing with today.

13 18. When I got back to LAC after going to RJD, I still had to interact with the
14 officers that were involved in the staff misconduct against me often, even after they were
15 accused of staff misconduct. The moment I arrived back at LAC from RJD, Officer
16 Serrano was there to meet me. He walked me to the gate to go back to the yard. He asked
17 me if we were "good." I was confused by this and didn't really respond.

18 19. After the assault, I had a recurring nightmare for months in which Officer
19 Serrano repeatedly slammed my face into the ground. When I would have these
20 nightmares, I would wake up suddenly, sweating and angry. I could not sleep for more
21 than about thirty minutes to an hour at a time and had to start seeing mental health
22 regularly because I was so stressed out. This is still happening to me about a year later,
23 though I'm able to sleep for slightly longer stretches now. I have asked medical and
24 mental health for medications to help me sleep and cope with my nightmares, but they
25 have told me that they do not issue medications for nightmares.

26 20. In my time at LAC, there have been multiple times that I needed help but
27 didn't ask for it because I was afraid of what would happen to me. After I was assaulted, I
28

1 was afraid to ask for medical attention or to even tell any member of LAC staff what had
2 happened to me, because I felt they would not believe me. I was also afraid of retaliation.
3 After the assault, when I got back from RJD, I was moved to B-1. Officer Serrano moved
4 to work in B-1 around that time in November or December 2019. After he moved to B-1,
5 he and other officers who work with him searched my cell randomly two times. The
6 officers who searched my cell trashed my stuff. I was not written up for anything and
7 never got a cell search receipt either of these times. In the days after they searched the
8 cell, Officer Serrano came to me and told me "So, are you trying to start a lawsuit on me?"
9 I did not respond to this and walked away. After this, I was scared and I stopped talking to
10 staff almost altogether and started to stay in my cell by myself.

11 21. Though I was afraid after this assault, I have continued to file 602s reporting
12 this because I feel that staff should not get away with charging me and others with things
13 we did not do.

14 22. In my opinion, staff target people with mental illness and other needs with
15 staff misconduct. When people have more needs, staff do not want to deal with it and get
16 in their face and assault them to prevent them from asking for help. A lot of people with
17 mental illness and disabilities have serious problems. The officers do not understand how
18 to deal with people's problems or do not want to deal with them, which causes conflict and
19 causes them to assault us, mistreat us, and cover it up.

Exhibit 12

SUPPLEMENTAL DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California State Prison – Los Angeles County ("LAC") in the "Stand-Alone" Administrative Segregation Unit ("ASU"). I am part of the Short-Term Restricted Housing ("STRH") program, which is a form of segregation for individuals who are at the Correctional Clinical Case Management System ("CCCMS") level of mental health care. I am 42 years old.

3. This declaration is a supplement to the declaration that I signed regarding previous staff misconduct at LAC.

4. I continue to be threatened and retaliated against by staff at LAC.

5. On May 13, 2020, I received the third level response to my 602 reporting the assault against me by Officer R. Chirinos, detailed in my previous declaration about staff misconduct at LAC. My appeal was partially granted at the third level. The appeal response noted that "an inquiry was completed" by the institution and "staff did not violate policy," referring to the second level response I had received, but that the examiner at the third level determined "not all allegations were addressed, therefore remedy is warranted." The examiner also wrote that they did not agree with the conclusion of the institutional review at the second level to deny my appeal. The review to which they are referring was based on my 602 interview at the second level on January 14, 2020. At this interview, Lieutenant Romero tried to get me to withdraw the appeal at the second level, saying that he would "help me out" if I cooperated. I shut him down right when he started try to bargain with me and told him I would not cooperate or sign off and wanted to pursue my appeal. He said, "Well, I will not help you and I will deny your 602." He then ended the interview and was stand-offish. After this, I sent my appeal to the third level.

1 6. The third level response to my 602 also granted me a staff separation from
2 Officer Chirinos. I went to Institutional Classification Committee (“ICC”), a hearing in
3 which staff and incarcerated people discuss housing decisions, on July 27, 2020. I was
4 expecting to be transferred because my staff separation from Officer Chirinos had been
5 granted in May. At ICC, I was told by Associate Warden M. Stratman that I was going
6 back to C-1, where I had been assaulted, because my staff separation did not matter
7 anymore. I asked why my staff separation did not matter, and AW Stratman told me that
8 Officer Chirinos had been fired. I told ICC that I could not go back to C-1 even without
9 Chirinos there, because the officers who had harassed me and were close with Chirinos
10 were still there. Despite this, I was told to go back to C-1 at the end of my ICC.

11 7. When I arrived back to C-1 after ICC, I complied with being housed but
12 continued to voice my concerns about being there. On the day I was moved to C-1,
13 Officer B. Rodriguez and Officer C. Harris, both officers who had been close with Officer
14 Chirinos and had been involved in his misconduct, called me a “crybaby” and a “snitch.”
15 They both used profanity against me, and both asked me, “Why did you do that to
16 Chirinos?” I came out of my cell later that day to ask to talk to the sergeant. Officer
17 Rodriguez and Officer Harris ordered me to go back to my cell. I refused, so they placed
18 me on the ground, handcuffed me, and placed me in a holding cage in the gym, which was
19 filthy. They called the sergeant while I was in the holding cage. Sergeant Hernandez
20 came to speak with me. He listened to my concerns and decided to send me back to the
21 ASU.

22 8. I have also been harassed and retaliated against by staff while I have been in
23 the ASU. For example, there is an officer named Officer G. Shamirian who was involved
24 in the initial staff misconduct I experienced in January 2020 in C-1. In early June, around
25 June 9, 2020, he was working an overtime shift in the ASU where I was housed. On that
26 day, he came to my cell and threatened me. He said that if I came out of my cell for any
27 reason like a shower or phone call he would “take me down for snitching on Chirinos” and
28 for “writing paperwork” and “making a scene” about my assault. I filed a 602 about this

1 immediately after it happened. In the 602, I reported this threat and reiterated that I
2 wanted to be transferred out of LAC. I had a staff complaint interview about this 602 just
3 under a month after the threat. My appeal about this issue is currently pending at the third
4 level of review.

5 9. My mother has also written a letter to the Office of the Inspector General
6 about the retaliation I have been enduring at LAC. I have also continually written to the
7 warden almost every other day over the last couple months about this ongoing harassment
8 and retaliation. I have received no response.

9 10. I have also written to the warden about other vulnerable incarcerated people
10 who officers are releasing to the yard. At the end of July 2020, while housed in the ASU, I
11 saw officers take another incarcerated person with disabilities out of his cell and release
12 him to a mainline yard. They strapped him to his wheelchair and took him out. Officers
13 have been telling us they are doing this because of space issues due to COVID-19. I have
14 been very worried about people like this being released to the mainline because they are
15 extremely vulnerable and their disabilities may not be accommodated. This incarcerated
16 person they released to the yard in late July 2020 came back to the ASU the same day. He
17 told me that he similarly was harassed and was also beaten by Officer Rodriguez, Officer
18 Harris, and other officers in C-1. He filed a 602 about this. Last week, I witnessed them
19 come to his cell to do a videotaped excessive force interview.

20 11. The physical and mental pain of my assault and retaliation are ongoing. I am
21 still waiting an appointment for a doctor at Mercy Hospital to examine my jaw, which was
22 injured during the assault. My mental health has also worsened significantly recently as I
23 have been worried about this constant retaliation. I do not feel safe anywhere in this
24 prison, and fear asking for help from staff, or doing small things like coming out for a
25 shower. I would really like to get out of LAC so I can have some peace of mind away
26 from these officers. Even with the person who assaulted me fired, I do not feel safe being
27 here because the officers are so close to each other and will always cover things up for
28 each other.

1 12. I believe that staff at LAC are retaliating against me for reporting staff
2 misconduct and for my involvement in the *Coleman* and *Armstrong* cases.

3
4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Lancaster,
6 California this 18th day of August, 2020.

7
8
9
10
11 On August 18, 2020 due to the closure of CSP-Los Angeles County in light of the
12 COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses
13 in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of
14 the legal mail system at LAC, I read the contents of this declaration, verbatim, to [REDACTED]
15 [REDACTED] by telephone. [REDACTED] orally confirmed that the contents of the declaration
16 were true and correct. [REDACTED] also orally granted me permission to affix his
17 signature to the declaration and to file the declaration in this matter.

18
19 DATED: August 18, 2020

Emma Cook

Exhibit 13

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison—Los Angeles
6 County (“LAC”) on D-Yard in Building 4. I am 34 years old.

7 3. I am an *Armstrong* class member. I am designated as DNH, which means I
8 have a hearing disability that does not affect my housing placement in prisons. I wear
9 hearing aids and have a hearing disability vest to help me. I also have been trying to
10 obtain a pocket talker as an accommodation, because my hearing aids do not work very
11 well in many situations when I need to hear people. I recently filed an 1824 reasonable
12 accommodation request, asking for a pocket talker, and I was told in response that I do not
13 qualify for one. However, I need a pocket talker to hear, especially when I am on the
14 phone. I have also asked to use a TDD phone, but I was told I do not qualify to use it at
15 this time. I also have a mobility impairment. One of my legs is shorter than the other one,
16 so I sometimes struggle to walk with ease. I am approved to wear orthotics shoes to help
17 me walk but they have not arrived yet.

18 4. I am a *Coleman* class member. Up until recently, I have been housed at
19 LAC at the Enhanced Outpatient Program (“EOP”) level of care, which means I am
20 housed in a special housing unit with other EOP patients, and I receive about 10 hours of
21 structured groups and other mental health care each week. I am currently still at LAC due
22 to restrictions on transfers due to COVID-19, but as of March 18, 2020, I have been
23 awaiting transfer to a higher level of mental health care in the Psychiatric Inpatient
24 Program (“PIP”) at CHCF, SVSP, or CMF. Psychiatric Inpatient Programs are licensed
25 psychiatric hospitals that provide intensive mental health treatment to individuals who
26 struggle to function in an outpatient program or a shorter-term inpatient program. I am
27 currently on an order for involuntary medications. However, I recognize that I need to
28

1 take my psychiatric medications. I am receiving EOP level of care treatment, even though
2 I am waiting for placement into an inpatient mental health program. To my knowledge, I
3 am not part of a Temporary Mental Health Treatment Unit or TMHU for people needing a
4 higher level of care treatment.

5 5. My mental health symptoms include depression and suicidal thoughts. I
6 have attempted suicide multiple times while incarcerated. When I am feeling depressed or
7 suicidal, I can often cope with my feelings by listening to music. I previously received
8 intensive mental health treatment in one of the Department of State Hospitals (“DSH”)
9 facilities, Atascadero State Hospital (“ASH”), from October 2018 to April 2019.

10 6. I have been housed at LAC since sometime around late 2019 or early 2020.

11 7. During my time at LAC, I have been housed in the following locations: D-
12 Yard, Buildings 1, 4 and 5. D-Yard Building 5 is the Administrative Segregation Unit
13 (“ASU”) designated to house only EOP patients.

14 8. I was a victim of staff misconduct at LAC. On April 27, 2020, Officer
15 Makarade slammed the left side of my face into a wall. At the time, my cellie had tested
16 positive for Coronavirus, and we were not getting our phone calls. On the day in question,
17 I refused my court-ordered medication because we were not getting our phone calls. As a
18 result, a Sergeant Mayo came to see me, and told me I would get a phone call later that
19 day. I agreed to take my medication. As a result of this, Officer Makarade was mad at me.
20 When I came out to go get my medication, Officer Makarade claimed that I had some stuff
21 in my hands and was going to “gass” him. However, there was nothing in my hands at the
22 time. Based on the false claim I was going to gass him, Officer Makarade hit his alarm
23 and took me to the rotunda, a passageway in and out of the building where there would be
24 fewer witnesses than in the day room. He then roughly pushed me up against the wall of
25 the corridor, grinding my face into the wall. I had bruises on my face after the incident. I
26 also felt his baton pressing in between my buttocks while he held me against the wall. I
27 was in a pair of boxers at the time. I also had bruising on my buttocks after the assault.
28 Officer Makarade was screaming at me the whole time.

1 9. After the incident, I was taken to the gym. While in the gym, a nurse named
2 Vicente came to evaluate me and document my injuries. She did not document any of my
3 injuries. I told staff I was suicidal in response to this. When mental health came to see
4 me, I told them about the assault, and they contacted the Investigative Services Unit
5 (“ISU”) about the assault. Investigators from ISU came to see me right away and the ISU
6 staff wrote down my injuries on the 7219. Then the ISU officer had the nurse come in and
7 she did the same documentation of my injuries. I have not been given copies of their Form
8 7219 documenting my injuries, despite asking for it repeatedly.

9 10. I was interviewed by ISU officers about the incident about a week after it
10 took place. I was interviewed by Sergeant Coker. The interview was videotaped and
11 lasted approximately 20 minutes. He told me not to talk about the sexual assault part of
12 the incident on camera, but to only speak about the use of force. I did as he instructed. He
13 claimed someone else would come and talk to me about the sexual assault/PREA issue, but
14 that never took place.

15 11. I filed a 602 about this appeal about two days after the incident. My appeal
16 was granted at the first level. After the appeal was granted, I sent it to the second level in
17 Sacramento.

18 12. After the assault, I was sent to the MHCB unit at LAC for 22 days.

19 13. I was given an RVR in connection with the incident. I was charged with
20 threatening a peace officer and I was found guilty. I believe the RVR process was unfair
21 because staff lied and said I had feces in my hand when I came out of my cell, which was
22 totally false. I did have a phone book in my hand at the time. I asked for witnesses at the
23 RVR hearing but the hearing officer said it would not make any difference and denied my
24 request for witnesses. I was punished with a loss of 60 days of good time credits, 90 days
25 of package restrictions, and 60 days of dayroom restriction. (At the time we were not
26 getting dayroom anyway because of COVID-19. We would get showers and phone calls.)
27 I never received the final paperwork for the RVR. On April 30, 2020, a mental health
28 clinician conducted a mental health assessment for my RVR and determined that my

1 mental health did not play a role in my behavior. I believe he was siding with the
2 Correctional Officers. The clinician reported that I was doing well at the time of the
3 incident and had been going to work, but this was completely false – I had not been going
4 to work and did not even know I was assigned to a job.

5 14. This incident had a very negative impact on my mental health. The
6 following day, on April 28, 2020, I tried to kill myself by ingesting pills. I was taken to an
7 outside hospital, Antelope Valley Hospital (“AVH”), around 12:00 p.m. I returned to LAC
8 the same day and staff admitted me to the MHCB, where I stayed for 22 days. While in
9 the MHCB, I was referred for transfer to an inpatient hospital treatment program.
10 However, I have not yet been sent to an inpatient mental health hospital program due to
11 COVID-19-related restrictions on transfer.

12 15. I also learned that officers broke my television the day after the incident. I
13 believe this was in retaliation for going suicidal. I learned that my television was broken
14 the same day I was sent to an MHCB. I was in the shower and when I came out, my
15 property was packed up and I was taken to the gym. When I was in the gym waiting to go
16 the MHCB, I saw Correctional Officer Makarade slam my television on the counter and
17 break it. I spoke with a Sergeant and Lieutenant about it, and they both told me my
18 television would be replaced. I also wrote a 602 about the issue which was granted.
19 However, my television was never replaced.

20 16. When I was in the MHCB, Sergeant Taylor threatened me by saying he
21 could kill me and get away with it. At the time, I had just tried to hang myself, and he had
22 pepper sprayed me in my cell. Afterwards, when I was in the shower to remove the pepper
23 spray, he came to talk to me and told me not to keep going suicidal or else he could kill me
24 and get away with it. At the time, I believed him. If I see him now, he laughs at me, but at
25 the time, I believed he was serious. I was in the crisis bed struggling with depression at the
26 time, and this threat made my condition worse.

27 17. I never heard anything about the results of the ISU investigation.
28

1 18. I have not been retaliated against, but I am constantly worried I will be
2 targeted by staff in retaliation for reporting the misconduct against me. I have witnessed a
3 lot of staff misconduct and retaliation here at LAC. For example, about four months ago, I
4 saw staff in D-4 beat up a DDP individual who had filed a 602. My understanding is that
5 he was taken to the hospital afterwards.

6 19. Sometimes, I have to ask staff to repeat themselves because of my hearing
7 impairment. They tell me that they do not like having to repeat themselves. When I
8 struggle to hear what staff are telling me, I will often give up before really understanding
9 what they are saying, because I am afraid they might attack me if I keep asking them to
10 repeat themselves. I ask my cellie to notify me about announcements in the unit.

11 20. I still have to interact with Officer Makarade, who sometimes works in my
12 building. I will stay in my cell to avoid him when he is in the building.

13 21. When I am feeling suicidal, I will not tell custody, although I will tell mental
14 health staff. I do not tell custody staff because they do not care, they will say, "Go ahead
15 and do it." They will not do anything to help unless you are bleeding or unconscious. I
16 have also been told by a housing unit officer here that if I go suicidal, all my property will
17 come up missing.

18 22. Although I have filed several 602 grievances, at times I have not filed a
19 grievance because of fear of retaliation. Sometimes staff have cautioned me against filing
20 a 602 appeal saying, "You know what happens when you file that."

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Lancaster, California this 4th day of September, 2020.

DATED: September 4, 2020

[3608372.1]

Exhibit 13a

Filed Under Seal

Exhibit 14

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation ("CDCR")
6 number is [REDACTED]. I am currently housed at California State Prison –Los Angeles County
7 ("LAC") on D-Yard in Building 3. I am 36 years old.

8 3. I am a *Coleman* class member. I am at the Enhanced Outpatient Program
9 ("EOP") level of mental health care. EOP patients live in separate housing units with other
10 EOP individuals, where we are supposed to receive enhanced mental health care including
11 10 hours each week of structured therapeutic activities, along with more frequent meetings
12 with our cases managers. I suffer from bipolar disorder. When I am having difficulties
13 relating to my mental illness, sometimes I become depressed and sometimes I become
14 manic. At times, I also become anxious and have suicidal thoughts.

15 4. I do not have a formal disability code, but I believe I am an *Armstrong* class
16 member due to my learning disability. I am currently trying to get my learning disability
17 verified by CDCR. I have struggled with learning issues since childhood. As a kid, I
18 never completed a full grade of school and I was in special education classes. Each time I
19 take the Test of Adult Basic Education ("TABE") for CDCR I do not understand the
20 questions, and I guess at many of the answers. I can read basic text, but have difficulty
21 understanding text and reading complex sentences. Because of this, filling out certain
22 legal paperwork and understanding some of the things I am supposed to do in prison is
23 difficult. I receive no assistance for this from CDCR staff. When I cannot understand or
24 read something, I feel stupid and worthless, which triggers my anxiety and suicidal
25 thoughts. I also have a stutter and speech impediment, which are worse when I am
26 anxious.

27 5. I have been housed at LAC from January 28, 2020 to the present.

28 6. During my time at LAC, I have been housed in D Yard, Building 3, D-Yard

1 Building 2, and D-Yard Building 5, which is the EOP Administrative Segregation Unit
2 (“EOP ASU”).

3 7. I was a victim of staff misconduct at LAC.

4 8. On April 15, 2020, I was housed in a cell in D-2 with another incarcerated
5 person who had tested positive for COVID-19, and had received his results the day before.
6 At 2:00 p.m. on April 15, 2020, I called Officer Avalos to my cell and asked him to move
7 me out of my cell. My cellmate was clearly sick and was coughing and I felt very scared
8 that he would give me COVID-19. It was my belief that my cell mate was actually
9 actively trying to give me the disease, because, since I was a porter who had been helping
10 serve meals to individuals in the building, he blamed me for giving him the illness.

11 9. Office Avalos told me that when a cell mate tests positive, the cell mate has
12 to stay in the cell with him –they wanted to quarantine both of us together. I told him that
13 I was going to exit the cell when they opened the door for the nurses to take vitals during
14 3rd watch and refuse to return. He told me that, “If you pull a stunt like that during my
15 shift, we are going to fuck you up and charge you with battery.”

16 10. At the time, I was not experiencing any symptoms, and I eventually found
17 out I tested negative for COVID-19, so it is certain that I did not have COVID-19 at this
18 time.

19 11. The next thing that happened was that Officer Avalos came back to the cell
20 with bags for me and my cell mate to pack our stuff to go to another cell with a Plexiglas
21 cover on the front door. LAC at the time was using these covers to create a solid front
22 door to limit the spread of the virus between cells.

23 12. When he brought the bags over, it was right after 4:00 p.m. count. At the
24 time, we had a short conversation and he told me again that I was going to be required to
25 move into the other cell with my current cell mate. Officer Avalos then walked away from
26 my cell. I complained to people on the tier about what he had said to me. At around this
27 time I noticed that there were several additional officers in the unit from outside my unit.
28 After dinner was served, the three additional officers were still in the unit, which made me

1 concerned they were going to use force against me.

2 13. Shortly after that, I had a conversation with an incarcerated individual who is
3 the porter for the shift in that building. He told me to just move, because he said, “They
4 are going to come and fuck you up. These officers, that is what they do here. You should
5 just move.” I made my decision right then and there that I would go to Administrative
6 Segregation rather than go to the other cell. I believe that Officer Avalos and the other
7 officers overheard this conversation.

8 14. I was housed on the second floor. About 15 minutes later, I heard the keys
9 of multiple officers running up the stairs. There were about 5 officers. They ran up the
10 stairs and had the tower officer crack open the door to my cell. It is against policy to open
11 the door of a cell in this manner, unless there is some kind of emergency – for example if
12 someone is actively harming themselves or others. Even if people are fighting they will
13 not open the door right away. This was a serious breach of their security policy.

14 15. Next the officers, including Officer Avalos, Officer Chavarria, Officer
15 Morales, Officer Ramirez, and Officer Ko, came up to my cell. Two officers, Morales and
16 Avalos, entered into my cell. They told me to cuff up. I said, “Am I going to the hole?”
17 They said yes, and I allowed them to cuff me. While I was being cuffed up, my cell mate
18 was allowed to walk to the other cell with the Plexiglass front.

19 16. After I was cuffed, I was expecting to be moved to Administrative
20 Segregation. However, as soon as we exited my cell, instead of heading to the stairs, the
21 officers began to pull me towards the cell on the second tier where my cell mate with
22 COVID-19 had gone. At that time I was scared and upset, and I started trying anything I
23 could think of to keep from going into the cell. I told the officers I was suicidal and had
24 safety concerns, and I yelled “man down,” but they ignored me and continued to escort me
25 to the cell with my old cell mate. When we got in front of the cell, the officers were trying
26 to force me into the cell with my COVID-positive cell mate. I told them, “I am not going
27 in there,” and I put my foot on the right side of the door hinges to prevent them from
28 forcing me into the cell. As soon as I did that the officers started to attack me. I was

1 cuffed at the time. The first thing that happened is someone kicked me in the knee, forcing
2 me down onto my knees. Next someone grabbed my hair and pulled me backwards. The
3 officers were kicking me and Officer Morales was trying to punch me in the face. I
4 twisted onto the ground and the officers continued to punch and kick me while I was on
5 the ground. Officer Morales punched me two times in the face at this point. The officers
6 were on top of me. The attack went on for about a minute or two before the alarm went
7 off. Officers Avalos and Ramirez were kicking me and at one point when I was on my
8 side, they were dropping onto me with their knees smashing into my ribs.

9 17. At the time, I was shocked and scared about being assaulted with cuffs on
10 and having no way to block their punches or protect myself from severe, serious injury.
11 Later that night and the next day I experienced extreme pain. I felt like my rib was broken,
12 and I was sore every time I took a breath. Later on, I also began to have pain in my knees
13 and wrists, and pain in my back. My wrists bled during and after the assault from the cuffs
14 lacerating me. Since the assault I have had a hard time running.

15 18. After the assault, I was taken to the gym for an initial 7219, a form used to
16 evaluate injuries after an incident. The nurse, M. Jones, evaluated me and documented my
17 injuries. He missed a few of my injuries, so I asked for a more complete evaluation the
18 next morning. After the evaluation on the night of the attack, I was taken to the D-5 EOP
19 Administrative Segregation Unit ("ASU").

20 19. I filed numerous requests for medical care to treat my injuries, but most of
21 the requests were either thrown away or ignored. On the day of the assault, I filed a 7362
22 Medical Request Form asking for treatment for the pain I was having in my neck, back,
23 and ribs. I wrote that my pain was a 10 out of 10 and that I thought my ribs were broken.
24 I still did not get medical attention, and so I filed another 7362 request two days later on
25 April 17, 2020, requesting treatment again and asking for an MRI and X-rays. I also
26 submitted a separate Form 7362 on April 17, 2020 reporting that I was feeling suicidal and
27 the officers were ignoring me. On April 18, 2020, I had been taking ibuprofen but my pain
28 was still strong and I submitted yet another request saying I was in extreme pain. I also

1 told them I was having shortness of breath. In these 7362s requesting medical care, I
2 reported that these injuries were because staff had assaulted me. I eventually was able to
3 see mental health on April 19, 2020, but I never received proper medical care.

4 20. After the assault, for more than a day after I was placed in the ASU, I was
5 not allowed to make a report of excessive force, and was denied the names of the officers
6 who attacked me. I was also denied medical attention and CDCR 602 Forms and CDCR
7 Form 22s, which I needed to report the assault and request information and medical help.

8 21. Because I was feeling desperate for medical attention and information, on
9 April 17, 2020, I boarded up my cell, hid under my bunk, and told staff I was suicidal.
10 Later that day, a captain came to my cell and asked me if I was making use of force
11 allegations by an officer. I said yes. The next day, on April 18, 2020, I was interviewed
12 on camera about the use of force by Sergeant Hyde and Sergeant Ramsey, who is the same
13 officer that ordered me to be moved into the cell with the person with COVID-19.

14 22. During the interview, I told these Sergeants about each injury I had and gave
15 them specific details about the assault. On the way back to my cell from this interview, I
16 was given the 602 forms I had been requesting. I also asked for the officers names again,
17 so that I could fill out my 602. I was told to wait for the RVR incident reports to get their
18 names. I then asked them for my ASU lock up order, for the 7219 report documenting my
19 injuries, and for the 1083 inventory receipt that showed the location of my property. I
20 wanted my property report because D-Yard staff are notorious for damaging and
21 intentionally losing property after they have an incident with someone. I was denied all of
22 these documents. I wrote down all the things I was being denied on a 602 grievance form
23 and submitted this 602 on April 17 or 18, 2020. Three days after that, I received my RVR,
24 the incident reports, the lock up order, the 7219 report, and the 1083 inventory receipt.
25 Once I had these documents, I submitted a detailed 602 staff complaint about the assault.

26 23. A week after I submitted the appeal, it was returned as rejected for being a
27 duplicate of an appeal with a different log number. I was confused, because I had not filed
28 an appeal about the assault prior to the one I had just submitted. It later turned out that this

1 prior appeal that LAC claimed was the same, was in fact an appeal about officers in
2 Building 5 not giving me the blank forms I needed.

3 24. Because of the rejection, I submitted a second 602 identical to my initial 602,
4 and resubmitted both of these appeals. Another week later, both of the appeals I had filed
5 were once again rejected because they were supposedly duplicates of the same earlier
6 appeal about ASU issues with paperwork. I requested an interview with the appeals
7 coordinator to discuss this. I never received an interview.

8 25. On May 13, 2020, I was called out for my 602 interview with Lieutenant
9 Soisuvann. At the interview, I requested to see the 602 that we were supposed to be
10 discussing, since my 602s about the assault had been rejected, to my understanding.
11 Lieutenant Soisuvann did not have the 602 with him. I felt like I was being given the run
12 around. Lieutenant Soisuvann asked me if I had any additional information to add to this
13 appeal. Because I did not know what the appeal we were discussing was about, I spent 30-
14 40 minutes giving him every detail about the assault, including a list of names and cell
15 numbers of witnesses. I also reminded him about the videotaped use of force interview
16 that showed my injuries.

17 26. Lieutenant Soisuvann told me he would thoroughly go through the officers'
18 statements and compare them to mine. He also said he would interview my witnesses. I
19 told him at the end of the interview that he should investigate these officers because a lot
20 of them were already being investigated for assaulting other incarcerated people.

21 27. I felt that the interview was productive and that Lieutenant Soisuvann had
22 listened to me and wanted to investigate my issues. Given that I had provided him a lot of
23 information, I expected the investigation to take at least a few days or a week. The day
24 after my interview with Lieutenant Soisuvann, on May 14, 2020, I received a response to
25 my staff complaint. My staff complaint had been denied, and the statements in the inquiry
26 were full of lies. Lieutenant Soisuvann had said that I had not provided additional
27 information or documentation to support my claim, even though I had provided him tons
28 of information at the interview, including witnesses. I looked at the 602 that was attached

1 to the inquiry and discovered that the 602 they had interviewed me for was about an officer
2 in a different building, D-5, who refused to give me legal supplies. This 602 had nothing
3 to with the officers in D-2 that assaulted me.

4 28. I immediately filed a new 602 on June 7, 2020, reporting the appeals office's
5 error and requesting that I be re-interviewed and that the appeals office process my appeal
6 reporting the assault. The appeals office has refused to address this 602 and correct their
7 error. Because of this, I have been unable to exhaust my appeals. I recently sent my
8 appeal to the third level with an explanation of why my appeal was delayed and why the
9 use of force was not considered. I have not received a response from headquarters yet. I
10 feel that LAC purposefully stonewalled my appeal, improperly screened out my appeals,
11 and processed the wrong appeal as a staff complaint in order to prevent me from reporting
12 the assault through the proper channels.

13 29. I was charged with a Rules Violation Report ("RVR") for "Battery on a
14 Peace Officer" on the same day as the assault. The RVR contains a number of false
15 details. The RVR states that I was refusing to move out of my cell, then consented to
16 moving in the cell with the person that was COVID-19 positive, then suddenly started to
17 attack the officers. I never consented to moving into the cell, and the officers had told me
18 they would move me to the ASU. The report also falsely says that I grabbed Officer
19 Morales' baton belt with both of my hands and pushed him backwards. The report also
20 states that Officer Morales punched me repeatedly in the face, claiming it was because he
21 needed to get me to loosen my grip on his baton belt. Officer Ramirez also claimed that I
22 punched him twice with my left hand.

23 30. Of course, it is not possible to throw punches or resist in this way with both
24 hands cuffed.

25 31. The report also says that I tried to kick Officer Ko, which I did not do. The
26 incident reports from various officers also report in many instances that they could not see
27 the use of force used on me by their fellow officers, because they were distracted or trying
28 to control me. This does not make sense to me because all of them were close together

1 assaulting me. The RVR also does not explain my injuries from my handcuffs.

2 32. The RVR process for my alleged assault was also very unfair. When I
3 received my RVR documents from my assigned Staff Assistant (“SA”) for my RVR
4 investigation, I recognized that this officer, Officer B. Gonzalez, was also one of the
5 officers who had responded to my assault when the alarm was activated. I took the RVR
6 papers from Officer Gonzalez and told her I would like a different Staff Assistant. I later
7 got my property receipt and found out this same officer had lost and damaged 200 dollars-
8 worth of my property. My assigned investigative employee (“IE”) , Officer Jauregui, was
9 also someone who had responded to the scene of the incident. I told Officers Gonzalez
10 and Jauregui that I did not want either of them as my SA and IE, and they just laughed at
11 me.

12 33. A few days later, they both came back to my cell and demanded my list of
13 questions for the RVR hearing, and said otherwise they would mark me down as refusing
14 my hearing. I explained to them that I needed more time and needed help writing my
15 questions, because of my learning disability. They refused to help and told me I had until
16 Monday, which was on or around April 27, 2020 to provide my questions. They came
17 back on Monday and I gave them my questions even though I was not finished with them
18 and wanted help finishing them.

19 34. I filed multiple 22 forms after this requesting to speak with someone about
20 my issues with these officers. I had also previously filed a 602 on April 23, 2020 reporting
21 that they were not assisting me as they were supposed to be. I never received assistance
22 with these issues, and these officers remained assigned as my IE and SA. Officer Jauregui
23 even wrote on my RVR supplemental forms that I had “no objections” to him being my IE,
24 even though I had repeatedly objected to this.

25 35. I had my RVR hearing on May 13, 2020. During the hearing, all my
26 questions for the officers involved were deemed “irrelevant.” The Senior Hearing Officer
27 for my hearing was Sergeant Hyde, the same Sergeant who had done my videotaped use of
28 force interview. During the hearing, I raised some of the inconsistencies in the officers’

1 reports. Lieutenant Legier, who was doing some of the questioning, told me in response to
2 my concerns that these are, "Simple errors officers tend to make in the heat of battle." I
3 showed them my injuries and asked them to use these injuries instead of the fake 7219
4 form. I was not allowed any witnesses and was not allowed to question the reporting
5 officer. My hearing was very short, and I was found guilty. I lost 121 days of credit, and
6 60 days of canteen, phone privileges, yard, and dayroom. I was initially given a 21-month
7 SHU-term, but thankfully during my Institutional Classification Committee ("ICC"), a
8 hearing in which staff and incarcerated people discuss housing decisions, my mental health
9 clinicians stepped in and advocated for me to return to a mainline EOP unit. I filed a 602
10 complaint reporting the due process violations during my RVR hearing and I have not
11 received a response yet.

12 36. Before I was released from ASU on or around June 20, 2020, I was called
13 out to discuss my 602 appeal concerning the RVR hearing. I attached the RVR packet to
14 the appeal. I received a note shortly after filing about another appeal being assigned.
15 Next, I was called out for a second level hearing with the Lieutenant. I asked to see the
16 602 that he was processing. He showed me the appeal. The appeal had nothing to do with
17 my RVR. It was about the prior complaint about the staff assistant and the investigative
18 employee prior to my hearing. It was the wrong issue. I withdrew that appeal, so I could
19 move with the real RVR appeal, which is Log No. LAC-D-20-02866.

20 37. I waited for the hearing on the second level appeal of the RVR, and it never
21 came. I wrote to the appeals office, and they wrote me telling me both the RVR appeal
22 and another one had been processed, completed and forwarded to me. However, I was not
23 given a copy of the final appeal at the second level. I waited for the appeal and never
24 received it. About 30 days later, after I wrote them again, the appeals office told me to get
25 copies from my counselor. Once I got the copy of the RVR appeal response from my
26 counselor, it was six days past the deadline for filing the 3rd level appeal.

27 38. I have also written to Warden Johnson about this assault multiple times
28 through letters and Form 22 requests, but have not received a response. My family has

1 also called LAC multiple times to report what was done to me.

2 39. I have also witnessed staff engage in misconduct against other people at
3 LAC. Though I have only been at LAC about six months, I have witnessed multiple other
4 incarcerated people be victimized by officers at LAC. I have also observed people getting
5 victimized by the group of incarcerated people who work for these officers. Most of these
6 incarcerated people who work for the officers are not in the EOP program, meaning they
7 should not even be allowed to come on to D-Yard, which is an all-EOP yard.

8 40. In addition to witnessing staff misconduct, I have also heard about different
9 officers that are being investigated for past incidents. For example, I have been told that
10 Officer Chavarria and Officer J. Ramirez, two of the officers that assaulted me, are being
11 investigated for assaulting another EOP patient on D-Yard, [REDACTED], on
12 December 20, 2019. The leadership here at LAC knows these officers are being
13 investigated for repeated assaults on EOP patients, but nothing is done about it.

14 41. I still have to interact with the officers that were involved in the staff
15 misconduct against me. Right now, every day, these same officers taunt me and give me a
16 hard time. Every day they come into my building to serve meals. They laugh at me and
17 make fun of me. When I go to yard, they call me over to pat me down when there is no
18 reason to single me out. When we go to yard we are just in a T-Shirt and boxers, carrying
19 our clothing. I also have a hard time getting to the law library and getting copies of
20 appeals and legal work. Due to COVID-19, we are required to send our materials to the
21 library to get copies made. The way to do this is to give copies to officers to mail to the
22 library. I have done this and many of my important legal documents are missing,
23 including supporting documents for my claim that these same officers assaulted me.

24 42. Aside from being afraid to ask for help from staff, I have become
25 disheartened by the process of asking for help, since everyone gives me the run around.
26 When I speak with my mental health clinicians about issues with my appeals and due
27 process, they tell me to talk to my counselor about these issues. When I go to my
28 counselor, I am told to file a 602 or 22 Form and use that process. I have tried to use that

1 process extensively, but it has not worked for me. This is an endless cycle that makes me
2 feel like even when I do advocate for myself, I cannot get anywhere because staff are
3 working together to prevent me from getting the assistance I need.

4 43. The assaults I experienced and witnessed have made me fear for my life at
5 LAC. After I was assaulted, when I was in ASU, I was afraid of doing small, routine,
6 things such as going to the shower or out to yard. I became scared to do the things that I
7 need to do to take care of myself and cope with being in prison. I am also fearful every
8 time I have to put handcuffs on, because I am afraid the officers will assault me again.

9 44. In my opinion, staff here target people with disabilities and mental illness.
10 People like myself have lots of needs and so staff get frustrated with us and also know they
11 can get away with picking on us and assaulting us. Throughout this process of me trying
12 to get my appeals processed and going through my RVR hearing, staff seem to get
13 frustrated with me because of my mental illness and learning disability. This seems to
14 happen a lot on D-Yard because everyone on the yard is EOP, and many people have
15 learning and other disabilities. This creates a situation where the officers on D-Yard are
16 insensitive to our needs and know they can use these needs against us to assault us and get
17 away with it.

18 45. I believe the reason there is so much staff misconduct at LAC is because
19 there is a system where the LAC administration allows officers to run the prison. It is
20 ridiculous to me that the Warden and other high level staff assist with covering up what
21 goes on at LAC by signing our RVRs that have inconsistencies and not keeping staff off
22 the units that have a history of abusing mentally ill and disabled people. Because LAC is
23 willing to cover up for these officers, the assaults continue.

24 46. I also believe there is so much staff misconduct at LAC because there are no
25 cameras. If there were cameras, there would more accountability for the officers and it
26 would be much easier to prove our side of the story. From July 2018 to October 2019, I
27 was housed at High Desert State Prison. In my over a year of time there, I saw very few
28 instances of staff misconduct and staff assault, as compared to the many instances I have

1 seen in six short months at LAC. I believe the difference is because HDSP has cameras,
2 which limit the officers' ability to assault people and falsify reports to cover up the assault.
3 LAC would be a much safer place if cameras were installed here.

4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Lancaster,
6 California this 31st day of July, 2020

7
8 /s/ [REDACTED]
9 [REDACTED]

10 On July 31, 2020, due to the closure of LAC in light of the COVID-19 pandemic and
11 ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs'
12 Motion, including ongoing concerns about the confidentiality of the legal mail system at
13 LAC, I read the contents of this declaration, verbatim, to [REDACTED] by
14 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
15 and correct. [REDACTED] also orally granted me permission to affix his signature to the
16 declaration and to file the declaration in this matter.

17
18 DATED: July 31, 2020

Exhibit 15

1 (“RJD”). Staff did not tell me why I was transferred. I believe the transfer was to prevent
2 my family from visiting me at LAC on or around March 6 as retaliation for reporting that I
3 was attacked by LAC staff.

4 7. During my time at LAC, I was housed in the following locations: B Yard,
5 Building 5, B-Yard, Building 1, D-Yard, Building 5, and D-Yard, Building 4.

6 8. I was a victim of and witness to staff misconduct at LAC.

7 9. On February 16, 2019, I was in my cell in B Yard, Building 1 when I
8 witnessed officers assault another incarcerated person. The incarcerated person came out
9 of his cell and spoke to the tower officer. I called him over to my cell to ask what the
10 problem was, and he told me he was trying to get a shower. I told him he needed to talk to
11 the floor officer. All of a sudden, a group of 10-12 officers formed a circle around this
12 incarcerated person. He explained to them that he was trying to get a shower and asked to
13 speak to a sergeant. The officers placed him in handcuffs. They escorted him back toward
14 a side door.

15 10. When they were in front of his cell, they started to push him into his cell.
16 This individual was only five feet, two inches to five feet, four inches tall, so he was no
17 match for the officers. I then witnessed the officers pick the person up and slam him to the
18 floor. I could not see what happened because so many officers were crowded around him,
19 but I later saw blood on the floor in front of his cell. I assume they assaulted him.

20 11. While they were huddled around him, I believed they were attacking him, so
21 I protested. I asked them why they slammed him to the ground, when all he wanted was a
22 shower. I banged on my cell door to try to make them stop. The officers put restraints on
23 his ankles and walked him out of the building.

24 12. As I continued protesting against them, Officers D. Montoya, A. Ayon, J.
25 Ferroso, Rosas, Carpio, Campbell, J. Collins, Lopez, and Khodabakhshyan, came over.
26 Officers Montoya, Ayon, and Ferroso handcuffed me and then removed me from my cell.
27 Lieutenant A. Martinez was standing in the housing area near the door. As the group of
28 officers removed me from my cell, I watched Officer Lopez, who had assaulted the other

1 incarcerated person, break my T.V. with an attached CD player in my cell.

2 13. Officers Montoya, Ayon, and Ferroso escorted me from my cell to the gym,
3 while Lieutenant Martinez watched, and told me that I would speak to the sergeant. I had
4 asked to speak to a sergeant, rather than Lieutenant Martinez, because I wanted to report
5 the incident through the proper channels. As we were walking into the gym, I saw
6 Sergeant Campbell. Lieutenant Martinez, Sergeant Campbell, and Officers Rosas, Carpio,
7 Collins, and Khodabakhshyan came to the holding cage in which Officers Montoya, Ayon,
8 and Ferroso were putting me. As this group approached me, and two of the officers,
9 Officer Montoya and Officer Ayon slammed my face into the steel door of the holding
10 cage face first, and then all of the officers, aside from Sergeant Campbell and Lieutenant
11 Martinez, started punching me all over my facial area, on my mouth, jaw, head, and ears.
12 Sergeant Campbell and Lieutenant Martinez watched the officers assault me.

13 14. I fell to the ground due to the force and they started punching and kicking
14 my body, hitting my ribs and kidney area. I was handcuffed while they attacked me, so I
15 could not protect myself from their blows. As a practicing Muslim, I turned to my faith to
16 help me. I said, "Allahu akbar." One of the officers said, as he hit me, "What is 'Allahu
17 akbar' going to do for you now?" Then an officer stomped on my groin area. At some
18 point, an officer yelled, "That's enough!" and the officers stopped.

19 15. They then picked me off the ground and dragged me to the holding cage.

20 16. The assault lasted about a couple of minutes, but it felt like a long time.

21 17. In the holding cage, I asked to be seen by a medical doctor because my chest
22 hurt in the areas of my ribs and kidneys, my mouth was cut open, my head was in pain, and
23 my groin hurt. The metal cuffs had cut the skin on my wrists.

24 18. About thirty minutes to an hour later, a nurse came to the holding cage to
25 examine me and document my injuries. According to the evaluation form I received, she
26 indicated I had injuries to my head, my mouth, my wrists, and my stomach.

27 19. Two hours after the medical evaluation, two Investigative Services Unit
28 ("ISU") officers came to speak to me in the gym to take pictures of my injuries. They told

1 me they had already taken pictures of my cell. Then they left.

2 20. About thirty minutes to an hour later, two officers came to the holding cage I
3 was in. They told me that the other incarcerated person had declined to be interviewed
4 about the use of force against him and suggested to me that I should also decline. I told
5 them I did not care what the other person did and I wanted to report what happened. The
6 officers asked me what happened. I told them what happened and about my injuries. They
7 did not want me to show my injuries to the camera. The interview lasted about 15 minutes
8 and was videotaped. I do not know if they further investigated the attack.

9 21. After the interview, a couple officers escorted me to the Administrative
10 Segregation Unit ("ASU").

11 22. While I was in the ASU, I submitted four or five medical forms requesting
12 care for my injuries. Finally, a few days after the attack, I was taken by ambulance to the
13 Correctional Treatment Center ("CTC"), a medical clinic at the prison. At the CTC, a
14 nurse asked me what happened. I reported to this nurse that my ribs hurt really badly. I
15 also told her that I had been urinating blood and noticed I was urinating more frequently
16 since the attack. The nurse prescribed ibuprofen for me and sent me to my cell in the
17 ASU. She did not address the blood in my urine.

18 23. After the medical visit, I still had pain in my chest, hands, wrists, ankles, and
19 feet. I was experiencing headaches. Both of my ankles were swollen. My ears were
20 continuously ringing. About two days after that medical visit, my feet and legs were so
21 swollen, I could hardly walk. I told the nurse who checks people in the ASU.

22 24. About an hour later, two officers came to escort me to the CTC. My ankles
23 were so swollen they could not put leg restraints on me. They gave me some medication
24 for the pain and sent me back to the ASU without giving me any other medical treatment.
25 I ended up receiving x-rays on my ribs. They did not x-ray my ankles. Shortly after a
26 doctor told me nothing was broken, but something was wrong with my lymph system and I
27 would need further x-rays. He checked my reflexes and said my reflexes were slow. They
28 never explained what was wrong with my ankles.

1 25. A couple weeks later, they x-rayed my rib cage area, but they did not tell me
2 the results of the x-rays.

3 26. I believe I was attacked for speaking out against the excessive force used
4 against the handcuffed person.

5 27. I also believe I was attacked because of my Muslim faith. I have heard
6 officers say things against Islam, saying that Muslim beliefs are backwards. Officers are
7 more disrespectful to the Muslim community in prison than people of other faiths.

8 28. I also feel that officers are more aggressive with people with mental health
9 issues, because the officers do not know how to interact with people with mental illness.
10 They do not understand that sometimes people act out because of their mental illness and
11 need treatment. They are not properly trained.

12 29. I also think they may have been retaliating against me, because, at that time,
13 I had a federal lawsuit against CDCR for staff misconduct at Substance Abuse Treatment
14 Facility – Corcoran (“SATF”) from when I was housed there previously. The LAC
15 officers knew I had sued, because they could overhear me talking on the phone and they
16 could see I received a lot of legal mail. They could also see this in my C-file, my prison
17 records.

18 30. I was charged with a Rules Violation Report (“RVR”) for Battery on a Peace
19 Officer. I got the RVR a few days after the incident. The report states that I kicked out a
20 window, and that, when they came to escort me, I was screaming things about Grape Street
21 and Crips to get the attention of gang members. They said I was also screaming, “Allah is
22 going to kill you!” and that I kicked either Officer Lopez or Officer Ferroso.

23 31. Within 30 days of receiving the report, in March, I had a hearing about the
24 RVR. An ASU lieutenant found me guilty and disciplined me by taking away 365 days of
25 good time credit. The loss of good time credit delays the date that I can go to the Board of
26 Parole to argue for parole. It also looks bad to the Board of Parole that I have been
27 disciplined, so this RVR could prevent the Board from paroling me.

28 32. The hearing was not fair. Because the assault happened in the gym, away

1 from the view of any possible witnesses, I was not able to call anyone who could speak on
2 my behalf. It was my word against the word of about 15 officers. There are no cameras in
3 the gym, so the officers could get away with lying.

4 33. About a week after the hearing, I filed a 602 staff complaint regarding the
5 RVR and hearing. I never received a response to this 602.

6 34. On March 16, 2019, I filed another 602 staff complaint reporting the assault,
7 mailing it to the Office of Internal Affairs ("OIA"). I was delayed in filing the 602
8 because I was placed in the ASU and denied access to my legal work. I needed my legal
9 work to write the 602 to reference the rules CDCR staff must follow regarding use of
10 force. While I was in the ASU, I was transferred to RJD for four days, from March 6,
11 2019 to March 10, 2019, and did not have my legal property there either. I ended up filing
12 the 602 without reviewing my legal work, because I wanted to report the misconduct and
13 did not believe I would I would receive my legal papers. I ended up receiving these papers
14 in April when I was at SATF.

15 35. In the 602, I reported the assault and that I had repeatedly requested medical
16 help after the assault to no avail. I reported that I had lost a lot of weight, was continually
17 dizzy, and thought I had damage to my ribs and kidneys. I also informed CDCR in the 602
18 that I would be filing a 1983 civil suit and wanted the officers involved to take polygraph
19 tests.

20 36. I received a response on April 30, 2019 from the LAC appeal officer saying
21 that my appeal was cancelled because LAC did not receive my appeal until April 29, 2019,
22 so I had not met the time constraints. I assume someone from the OIA sent my 602 to
23 LAC. I do not know why there was such a long delay between my sending the 602 to OIA
24 and when the appeal officer received it. He canceled my appeal.

25 37. I also received a letter from LAC Chief Deputy Warden D. Ulstad about my
26 report to the OIA. The letter stated that the 602 I sent to the OIA was duplicative of a 602
27 received by LAC on April 29, 2019, even though I never sent a 602 to LAC. He also
28 canceled my 602, this time because it was duplicative of the one the appeal officer claimed

1 was untimely.

2 38. The 602 I had sent to the OIA was timely, so I believe this was mishandled.

3 39. I filed another appeal on June 12, 2019 explaining that my appeal should not
4 be cancelled because the appeals coordinator failed to return my 602 and I was denied
5 access to my legal work. I received a second level response to this 602 on August 5, 2019.
6 My appeal was denied and I was told that there was no reason that I could not have
7 submitted my appeal in time, even though the appeal response acknowledges that I did
8 submit my appeal on March 16, 2020, but CDCR did not receive it until April 29, 2020.
9 The response also states that my appeal was not forwarded to the OIA, though I had
10 received a response to my letter to the OIA from the Deputy Chief Warden.

11 40. On December 16, 2019, I sent this appeal to the third level and expressed
12 that I was dissatisfied with the response because the appeal had been sent to the OIA and I
13 had received a response from the warden, making CDCR's response to my appeal
14 incorrect. I did not receive a third-level response until March 19, 2020. I was told in that
15 response that CDCR would not be issuing a third-level response, and the denial at the
16 second-level would be their final response.

17 41. I then submitted a claim for \$75,000 to the California Office of Risk and
18 Insurance Management, Government Claims Program regarding the excessive use of force
19 and attaching documents about the assault.

20 42. To this day, I have not been able to get my appeal about the assault
21 processed and have not been able to get any sort of investigation into the incident.

22 43. The attack was very painful, physically and emotionally. I felt depressed and
23 stressed. I lost a lot of weight. My family was worried that something else would happen
24 to me at LAC. I felt concerned, almost paranoid, about losing my life at the hands of
25 officers. I felt that, if they killed me, nothing would happen to them, because it would be
26 their word against the word of any incarcerated witnesses.

27 44. After the assault I was not only in tremendous physical pain from the assault
28 itself but experienced other medical and mental health issues. After the assault, my blood

1 pressure spiked because the medications I take for my hypertension and high blood
2 pressure did not come over with me from B-1 to the ASU. I also decompensated shortly
3 after arriving in the ASU. On March 2, 2019, staff found me lying under my bed naked
4 and not eating. I was scared that staff was going to assault me. The attack had triggered a
5 mental health crisis.

6 45. In my time at LAC, I tried to stay out of the way of officers, because I was
7 afraid they would attack me.

8 46. In addition to the incident I witnessed on the day I was assaulted, I have also
9 witnessed staff engage in misconduct against other people at LAC. On October 13, 2018, I
10 watched another incarcerated person get attacked on B yard outside of chow hall. I saw
11 this person exchanging words with Officer Gollette and saw Officer Gollette, Officer
12 Ayon, Officer Lopez, and Officer Khodabakhsyhyhan start attacking this person. They
13 slammed him to the ground, kicked him, and punched him. These officers beat his leg
14 with a baton. They had to carry him out on a stretcher because he could not walk. These
15 were some of the same officers that ended up attacking me just four months later.

16
17 I declare under penalty of perjury under the laws of the United States of America
18 that the foregoing is true and correct, and that this declaration is executed at Delano,
19 California this 21st day of July, 2020.

20
21
22
23
24 On July 21, 2020, due to the closure of Kern Valley State Prison in light of the
25 COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses
26 in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of
27 the legal mail system at KVSP, I read the contents of this declaration, verbatim, to
28 [REDACTED] by telephone. [REDACTED] orally confirmed that the contents of the

1 declaration were true and correct. [REDACTED] also orally granted me permission to
2 affix his signature to the declaration and to file the declaration in this matter.

3
4 DATED: July 21, 2020

Rekha Arulanantham

Exhibit 15a

Filed Under Seal

Exhibit 16

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison – Sacramento (“SAC”) on Facility A in Building 1. My unit at SAC is called the Psychiatric Services Unit (“PSU”), which is a punishment unit for EOP patients. I am 42 years old.

3. I am a *Coleman* class member. I suffer from a mood disorder. I often feel depressed. I am at the Enhanced Outpatient Program (“EOP”) level of care, which means I am housed in a special housing unit with other EOP patients, and that I receive about 10 hours of structured groups and other mental health care each week. I have been at EOP my entire time in the CDCR. Despite my high level of mental health care, I have been in segregation units for much of my stay in CDCR. At this time, I have been in segregation for over a year straight. During my time at California State Prison – Los Angeles County (“LAC”) and Kern Valley State Prison (“KVSP”) my mental health issues were similar to the ones I have today at SAC.

4. I suffered a traumatic brain injury (“TBI”) in a car accident when I was 17. I severed my spine and had severe damage to my frontal and temporal lobes of my brain. My TBI has severely affected my life. It has made me impulsive, and exacerbated my mental health issues. Because of the TBI, I have a lot of anger, mood swings, and verbal outbursts. I also find it difficult to focus and have a short attention span. The TBI has also impacted my interpersonal skills—I have little filter when conversing with people due to the damage to the decision-making parts of my brain, which can get me into difficult situations in prison. My language skills were also affected by the TBI, so I have a stutter and slurred speech that makes it hard to communicate at times. I also have been diagnosed with adult ADHD as a result of the accident. My TBI has exacerbated my mental illness and together my mental health issues and TBI symptoms have made it very hard for me to

1 function. In the accident during which I got my TBI, I also hurt my neck, and have been
2 living with severe neck pain and numbness since.

3 5. I also have a seizure disorder as a result of the TBI. In January 2019,
4 because of my seizures, a neurologist did a CT scan on my brain and found that I have
5 right temporal encephalomalacia, which is the loss of brain tissue. My neurologist told me
6 that condition is an indicator of very serious, ongoing brain injury. He also told me that
7 there is a good chance that the part of my brain impacted by the TBI will be completely
8 dysfunctional eventually.

9 6. I have spent much of the last two years at KVSP and LAC. I was housed at
10 KVSP from July 17, 2018 to October 8, 2018. From October 8, 2018 to December 14,
11 2018, I was at LAC. I was then transferred back to KVSP from December 14, 2018 to
12 April 26, 2019. On April 26, 2019, I was moved back to LAC until December 23, 2019,
13 when I was moved to SAC.

14 7. During my time at KVSP, I was housed in C-Yard, Building 8, the EOP unit
15 there, and the Administrative Segregation Unit ("ASU"). During my time at LAC, I was
16 solely housed in D-Yard, Building 5, the EOP ASU.

17 8. I was a victim of staff misconduct at KVSP.

18 9. On April 2, 2019, around 10 a.m., I was returning from a mental health
19 group to my cell in C-8. Officer Easter then came to my door and told me to cuff up. I
20 refused and said, "What for?" Officer Hunt then signaled to the tower officer to open the
21 door of my cell. I was standing at the front of my cell near the door. Suddenly, six or
22 seven officers rushed into my cell and slammed my body from the front of the cell against
23 the wall of my cell. During the assault, Officer Easter slammed my head against the wall
24 of my cell at least two times. While she was doing this, she called me a "dirty fucking
25 Jew." The assault last about 30 seconds to a minute. The assault felt very invasive.

26 10. After the officers were done assaulting me, my face hurt badly and I was
27 profusely bleeding from my head and face. Some of the officers who assaulted me, I do
28 not remember exactly who, took me to a holding cage in the program office. I was not

1 evaluated by medical after the incident. I later found out that a psychiatric technician, Ms.
2 Loera, documented that I had refused medical attention. However, no one had asked me if
3 I wanted medical attention or came to see me. While I was in the holding cage in the
4 program office, I repeatedly asked to see Mr. Chazen, my mental health clinician at the
5 time. Lieutenant Rodriguez, a lieutenant that worked in C-8, came to my cell as I was
6 asking to see Mr. Chazen. Lt. Rodriguez said “no one cares,” slammed the holding cage
7 door, and walked away. I also told Lt. Rodriguez that I wanted a videotaped use of force
8 interview to document my injuries. He ignored me. I did end up receiving my video-taped
9 use of force interview the next day, on April 3, 2019.

10 11. After a few hours in the program office holding cage, I was moved to the
11 ASU at KVSP. Shortly after arriving, a psych tech named Ms. Dillard came to my cell.
12 She saw that I was bleeding and gave me gauze to clean my cuts, and documented that I
13 had cuts on my right eye and swelling of my nose and eye. She asked me if I wanted to be
14 seen by medical, and I said yes. I was then brought to the Treatment and Triage Area
15 (“TTA”), a medical clinic on prison grounds, around 3:15 p.m..

16 12. At the TTA, a doctor whose name I did not know glued the cut above my
17 right eye. The doctor also told me I had a swollen black eye and bruising across the bridge
18 of my nose. My cut took at least two weeks to fully heal, and my swelling lasted for at
19 least a few weeks. I also had cuts and bruises on both of my knees and elbows.

20 13. I was charged with a Rules Violation Report (“RVR”) for “assault on a peace
21 officer by means not likely to cause great bodily injury.” The RVR says that I was at my
22 cell door yelling at Officer Fralin and Easter. The RVR states that the officers tried to de-
23 escalate the situation by counseling me, and that I continued yelling. According to the
24 RVR, Officer Fralin told me to turn around and cuff up, and I did turn around and put my
25 hands behind my back. The RVR then states that when Officer Fralin and Officer Easter
26 approached me to handcuff me as my back was to them, I turned around as they tried to
27 cuff me and swung my right elbow towards Officer Fralin, missing his face. Officer Fralin
28

1 then pushed me away from him in response, which caused me to hit my torso and face into
2 the wall.

3 14. I filed a 602 reporting the staff misconduct at KVSP on April 16, 2019. I
4 reported the assault and the anti-Semitic comment. My 602 was bypassed at the first level
5 of review and sent to the second level. While I was waiting for a second level response to
6 my 602, I was moved from KVSP to LAC. On April 24, 2019, while I was still at KVSP, I
7 was told by the appeals coordinator to submit a new appeal separating my use of force
8 complaint from my staff complaint. Due to the restriction of only being able to file one
9 appeal every 14 days, I had to wait to file my appeal until April 30, 2019. On April 26,
10 2019, I was moved to LAC. On April 30 at LAC, I re-wrote my appeal and gave it to a
11 third watch officer, who placed it in an inter-office envelope to the appeals coordinator
12 with instruction on the envelope to send to KVSP. I did not receive a response from KVSP
13 for a few weeks, which caused me to miss the deadline for filing the appeal at the third
14 level.

15 15. I was also a victim of staff misconduct at LAC.

16 16. On July 24, 2019, I was in one of my mental health groups when I got into
17 an argument with another incarcerated person in the group. Officer Estrada came over to
18 handcuff me and remove me from the group. He walked me out of the mental health
19 building and back to my unit, D-5. When we arrived at D-5, he passed me off to Officer
20 Wingfield and Officer Martinez, two of the D-5 officers, to escort me back to my cell. As
21 they were escorting me, they walked me past my assigned cell to a new cell. I saw Officer
22 A. Martin packing up my old cell. I asked him what was going on, and was told I had been
23 assigned a new cell during group. I was already agitated and was having trouble
24 processing the sudden change. I protested going to the new cell by stopping walking.
25 Four or five officers, including Officer Wingfield and Officer Martinez, gathered behind
26 me and pushed me towards my newly assigned cell. About six inches from the door,
27 Officer Wingfield and Officer Martinez threw me inside the cell. The right side of my
28 head hit the wall of the cell. Officer Wingfield stepped into the cell and shoved me onto

1 the floor, hitting my head and face on the cement. I could feel that I was bleeding. My
2 hands were behind my back, handcuffed, the entire time. I was lying on the ground, face
3 down, when Officer Wingfield sat with all of his weight on my back. I felt like my body
4 was being crushed, as Officer Wingfield weighed at last 250 pounds. As he was straddling
5 me, he punched me on the left side of my face three times. I was struggling to breathe and
6 afraid for my life, so I tried to kick Officer Wingfield in the groin by kicking my leg back
7 at him as he was sitting on me. I missed. I then tried to bite him on his lower thigh, which
8 was near my face. I was trying to do anything I could to get him off me. He then placed
9 his hands around my neck and was trying to choke me. I could feel his hands on my
10 esophagus. He then let go of my throat and punched me three more times. During the
11 final three punches that I remember, he was yelling, "This is your punishment!" After
12 these three punches, I do not remember much about what happened. I do not think I lost
13 consciousness, but I was very out of it for about a minute or 90 seconds.

14 17. When the assault was over, Officer Wingfield stepped back from me and left
15 me lying on the ground. I saw the gloves he was wearing were drenched in blood, and
16 there was blood on the wall of the cell and floor. He left the cell and closed the door.

17 18. I was taken to the medical unit on the yard in D-5 shortly after the assault.
18 The nurse at the medical unit on the yard said that I had to go to TTA. I was then taken to
19 TTA. At the TTA, the nurse there told me that I had multiple cuts on the right side of my
20 scalp and face, a cut in the middle of my forehead, and two cuts on my eyebrows. Both of
21 my eyes were also swollen and bruised, and I had bruises all over my body. They stapled
22 my forehead and the back of my head.

23 19. I received an RVR after the incident for "battery on a peace officer." The
24 RVR states that as I walked by my old cell to my new one, I was belligerent and agitated,
25 and slowed down my pace to stop myself from going into the new cell. The report then
26 states that I quickly turned my body around and spat in Officer Wingfield's face. The
27 report states that Officer Wingfield pushed to me to the ground face first in response to
28 this. Officer Wingfield landed on his left knee near my face with his right leg over my

1 upper torso. The RVR states that at this point I started twisting my body and yelling “you
2 made me bleed!” and I then proceeded to bite him above the left knee. The RVR states
3 that at that point Officer Wingfield punched me. The RVR then goes on to say that I bit
4 Officer Martinez’s left hand and Officer Martinez then punched me in the face. None of
5 the events involving Officer Martinez happened—after he threw me into the cell, he did
6 not enter the cell. Officer Wingfield was the only officer that assaulted me. The incident
7 was referred to the District Attorney for prosecution, but the DA chose not to take the case
8 on December 11, 2019.

9 20. I received a videotaped use of force interview by Sergeant Aguirre on July
10 29, 2019, five days after the assault.

11 21. I reported the assault in a 602 about two weeks after the assault. I had to
12 wait about two weeks because I had filed a 602 about something separate just before I was
13 assaulted and we have to wait 14 days between 602s.

14 22. After I reported the 602, in October 2019, I went through a period where
15 there was no lights in my cell in D-5. Before this, my lights were on the brightest setting
16 for 24 hours a day. For one or two weeks, I repeatedly requested that my lights be turned
17 down. On October 25, 2019, I had a verbal outburst at my clinician because I was
18 frustrated about my lights. As I was yelling about the lights, Sergeant Dotey, the D-5
19 sergeant at the time, came to my door, and signaled to the tower officer to open my door,
20 without saying anything to me or giving reason to open my door. Sgt. Dotey rushed into
21 my cell, grabbed me by my throat with his right hand and made me sit down on my bed.
22 He said, “I did that to calm you down”, referring to grabbing my throat and seating me on
23 the bed. A number of officers responded to the scene but did not enter my cell. I told Sgt.
24 Dotey I had been asking the officers to have my lights fixed. He told me he “knew his
25 guys” and that the officers would have told him if I had said that. I took this as him calling
26 me a liar and covering for his officers.

27 23. Later that evening, Officer Ohaya walked by my cell to give me my dinner
28 tray and threw the tray in the cell, spilling food all over the floor. On October 26, 2019,

1 my lights went off twice, and the second time, they stayed off for over a week straight.
2 My heat was also turned off for this time period, with the exception of a couple of hours on
3 November 2, 2019. I was very cold, as the temperatures were below freezing in Lancaster
4 on those days. Officer Ohaya also refused to feed me on November 1, 2019.

5 24. I also experienced staff misconduct at SAC.

6 25. On March 9, 2020, at 8:40 a.m., Officer Hord and Officer Kurgan were
7 escorting me from A-1 through the rotunda to my mental health group. I was handcuffed,
8 as I am whenever I leave my cell in the PSU. I stopped them from walking me to speak
9 with another officer in the rotunda, Officer Kirchenman, about a package I was expecting
10 that day. Officer Hord and Officer Kurgan told me that I would have to go back to my
11 cell. They told me to face a desk in the rotunda. I have epilepsy and started having an
12 aura or petit mal, which is a feeling you get before having a grand mal, or larger seizure. I
13 stopped talking and moving. I believe they thought I was purposefully resisting them and
14 did not know or ignored that I was having a seizure. They suddenly shoved me to the
15 ground. As I was falling, I hit the front of my head on a door jam. I landed on the ground
16 face down. I could not stop my fall because my hands were cuffed behind my back. After
17 I fell to the ground, Officer Hord punched me in the back of the head.

18 26. After Officer Hord punched me, he and Officer Kurgan picked me up off the
19 ground. Eventually they and some psych techs who arrived on the scene placed me on a
20 gurney. I was taken to the TTA. At the TTA, I was told I had a laceration over each of my
21 eyebrows, bruises on my head and elbows, and abrasions on my right temple, knees, and
22 elbows. My hips, pelvis, and lower back were in tremendous pain. The doctor glued the
23 laceration on my right eyebrow, and gave me five stitches for my left eyebrow laceration.
24 I have ongoing, daily pelvic and hip pain. I am unable to exercise or move around easily,
25 which is affecting my quality of life. I have repeatedly asked for medical attention for this
26 pain, but have been told that I cannot get medical help right now due to the COVID-19
27 delays in providing treatment.

1 27. I was charged with an RVR for “resisting a peace officer resulting in the use
2 of force.” The RVR states, accurately, that I stopped walking with the officers to ask
3 about my package, and complied with turning to face the desk when the officers asked me
4 to do so. The RVR then states that I became highly agitated and when being escorted back
5 to my cell stiffened my legs and pushed back on the officers. I never did this, as I was
6 experiencing the beginning of a seizure and simply stopped moving. The report also states
7 that the officers ordered me two times to get down on the ground, and that when I refused
8 the second time, they used their momentum to push me into a prone position on the
9 ground. The RVR says that I hit my head on the door due to this push, and did not resist
10 when I was on the ground. The RVR does not explain how I ended up having multiple
11 bruises and cuts to my face.

12 28. I had difficulty getting my videotaped use of force interview after the assault.
13 I asked numerous floor officers, Sgt. Roebuck, and Captain O’Lecky, multiple times to
14 have my interview, and also filed two 22 forms requesting the interview. I did not get my
15 videotaped use of force interview until May 29, 2020.

16 29. Because SAC has video cameras, this incident was captured on camera. I
17 was shown the tape on April 9, 2020. I noticed while viewing it that part of the assault
18 was sped up. I asked why that part of the video was sped up. They did not give me an
19 answer, but I suspected they sped it up because I was assaulted on the video. I have not
20 been able to see the video not sped up. I asked Officer Kolgen, one of the officers who
21 initially showed me the video, to play me the video without it being sped up. He told me
22 that he cannot show it, and that it is up on the wall because after they show the video once,
23 they don’t touch it anymore. I have filed multiple 602s about this and they have told me
24 they can’t read my 602 due to my handwriting, and have refused to process my 602 even
25 though I have tried multiple times.

26 30. Even though I have not been able to see the video of the assault not sped up,
27 I am glad I at least have a video of the incident, unlike in the other assaults I experienced at
28

1 KVSP or LAC. I believe that all of the prisons need cameras, like SAC, and that the
2 officers at these prisons need body cameras to truly capture everything that goes on.

3 31. I still had to interact with the officers that were involved in the staff
4 misconduct against me every day. Because I was in the one EOP unit at KVSP, and have
5 always been in the EOP ASU at LAC, I interact with the same officers even after the
6 assaults.

7 32. In my time at KVSP, LAC, and SAC, there have been many times that I have
8 needed help and been afraid to ask for it. I need a lot of assistance due to my TBI, and am
9 often afraid to ask for help because this has gotten me into situations where I have been
10 assaulted. I feel that every time I communicate with custody staff about my needs, I am at
11 risk of being assaulted.

12 33. At SAC, LAC, and KVSP, I have had to ask officers for mental health help
13 at times when I am feeling distressed or suicidal. To see mental health, I usually have to
14 ask the officers to contact them for me. In all three prisons, I have had instances where
15 staff have ignored me and refused to contact mental health, leaving me without help in my
16 cell. For instance, on March 11, 2020, just after being assaulted by Officer Hord, I was
17 feeling homicidal and suicidal and asked the officers in my unit for help. They ignored
18 me. Because I have been in segregation units for much of my time in CDCR, I am locked
19 down a lot, and rely on the officers for help contacting mental health staff. When officers
20 ignore me, I am left in my cell alone and without help.

21 34. At SAC, I also have had issues with officers losing and damaging my
22 property. In early February, I asked officers on the unit repeatedly to speak to a sergeant
23 about this. The officers laughed in my face and ignored me.

24 35. In my opinion, staff target people with disabilities, mental health issues, and
25 other serious needs. Officers get frustrated by all the help that people like myself need,
26 and feel they can provoke and harm us because we have no way to defend against our
27 actions. They feel they can blame any violent reaction they had to us on our disability.
28 This creates a vicious cycle where people with disabilities are assaulted, and their

1 disability worsens from this assault. The officers get frustrated as the disability gets worse
2 and people are more needy, and assault the person again. This has happened in my case--
3 during my time in CDCR, I have suffered about 20 head injuries. Most of these were at
4 the hands of officers using excessive force or assaulting me. With each head injury, my
5 TBI and mental health gets worse. As this happens, I exhibit more symptoms and staff
6 grow more frustrated with me, and I get assaulted again.

7
8 I declare under penalty of perjury under the laws of the United States of America
9 that the foregoing is true and correct, and that this declaration is executed at Sacramento,
10 California this 6th day of August, 2020.

11
12
13
14
15 On August 6, 2020, due to the closure of SAC in light of the COVID-19 pandemic
16 and ongoing concerns that officers might retaliate against witnesses in support of
17 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
18 system at SAC, I read the contents of this declaration, verbatim, to [REDACTED] by
19 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
20 and correct. [REDACTED] also orally granted me permission to affix his signature to the
21 declaration and to file the declaration in this matter.

22
23 DATED: August 6, 2020

Exhibit 16a

Filed Under Seal

Exhibit 17

1 times to be housed with a cellmate since my arrival at LAC so that someone is there to get
2 medical attention for me if I need it due to my heart issues and seizures, but LAC refuses
3 to house me with a cellmate. I have a lower bunk-lower tier chrono because of my seizure
4 disorder. Because of my various medical issues, I am designated as high risk medical.

5 6. I was housed at California State Prison-Corcoran ("COR") from July 16,
6 2017 through July 31, 2019.

7 7. During my time at COR, I was housed in the following locations: 3C01,
8 3C02, 3C03, and 3C05. Since I have been at LAC, I have been housed in the following
9 locations: B Yard, Building 2, B Yard, Building 1, and B Yard, Building 3.

10 8. I was a victim of staff misconduct at COR.

11 9. On May 1, 2019, around 10:00 a.m., I was called out of my cell in 3C03 to
12 go to an appointment in the Treatment and Triage Area ("TTA"), in the Correctional
13 Treatment Center ("CTC"), a central medical building at COR where there are medical
14 clinics. I also was told by Officer Delacruz, an officer in my housing unit, that I may be
15 getting a permanent CPAP instead of the loaner I had been using, and that I needed to get
16 the CPAP data taken off my machine so that the doctors could review the data. I did not
17 have a ducat for this appointment so I was confused as to why I was being called out of my
18 cell to the CTC, but I complied.

19 10. I was escorted to the CTC by Officer Delacruz. During this time, the rest of
20 my unit was on lockdown. When I arrived at the CTC, I met with a male nurse that I had
21 never met before named Phelan. He started loading the data from my CPAP off of the
22 machine and onto his computer. As he was loading the data onto the computer, he told me
23 that he had received an email from my doctor instructing him to take his CPAP from me
24 because I was not in compliance. I asked to see this email. The officers and Phelan let me
25 stand up and look at the screen. I saw no new emails on the screen. I said I was not
26 leaving without my CPAP, since I did not see the email that instructed Phelan to take it
27 from me. As I was questioning him, I was told by Officer Delacruz to cuff up. I complied
28 and was handcuffed behind my back. He walked me out of Phelan's office. When he got

1 to [REDACTED], the officer who was guarding the
2 hallway into the TTA, whose name I do not know, walked up to Officer Delacruz as we
3 walked towards him. When he got to us, this unknown officer grabbed my arms while I
4 was in handcuffs and held my arms up so that Officer Delacruz could punch me. Officer
5 Delacruz was yelling at me, "You fucked up!" repeatedly as he punched me. I believe he
6 was referring to my questions about my CPAP machine. After a short bit of holding my
7 arms up, the other officer joined Officer Delacruz in punching me. The two officers
8 repeatedly punched me and pulled my left shoulder, knocking me to the ground. I was also
9 hit in the back of the head with what felt like a baton and slammed against the window by
10 the double doors. I believe they did this here because there is a known [REDACTED]
11 [REDACTED]. I was handcuffed
12 the entire time. The assault lasted for about a minute.

13 11. As I was being dragged to the holding cage after the assault, I was yelling for
14 help, but the CTC sergeant we walked by, Sergeant J. Vasquez, ignored my cries for help.
15 I was placed in the holding cage and I saw Sergeant Vasquez pull Officer Delacruz and the
16 other officer to the side. I was close enough to hear him ask the officers why they had not
17 hit their alarm. Neither officer had pressed their alarm during or after the assault. Officers
18 usually do this immediately if an incarcerated individual is assaulting them, in order to call
19 other officers for backup.

20 12. I sat in the holding cage for about thirty minutes. I was still handcuffed
21 while I sat in the cage and my left shoulder was sticking out in a weird way because it was
22 dislocated. While I was in the holding cage, I repeatedly told Sergeant Vasquez and the
23 officers working in the CTC, as well as the medical staff walking by, that I needed to see
24 medical because of the pain in my left shoulder and the injuries to my face. I also told
25 them I felt like I was going to black out and faint because I was in so much pain. After
26 about thirty minutes, a nurse named Vasquez came to evaluate me. She did not take my
27 vitals or assess my injuries, and almost immediately cleared me to go back to my cell. She
28 stood at the cell door and asked me what my injuries were. I told her she should come

1 over here and assess me and look at my shoulder. She told me that she could see it from
2 the door, and told the officers that I was cleared to go back to my cell. I asked her why she
3 was trying to help the officers cover up my injuries, and she left the building without
4 responding to my question. I returned to my cell without being treated for any of my
5 injuries. I learned later when I was given my incident reports with my RVR that RN
6 Vasquez did fill out a 7219 form documenting my injuries, but the form said I had no
7 injuries.

8 13. I was in still in pain and continued to request medical treatment throughout
9 that day and night. I requested help from LVN Barkhurst while I was in my cell, but she
10 refused to help me. My left shoulder was in severe pain and my face and eyes were
11 swollen and hurting. Staff refused to treat my injuries until the next evening, May 2, 2019,
12 over 24 hours after I was assaulted. On the evening of May 2, 2019, I was called out of
13 my cell for the videotaped use of force interview about the assault. Before that interview,
14 the nurse who evaluated me decided I needed to be treated at medical. I was taken to the
15 CTC, the same place I was assaulted. At the CTC the nurses treated my head and shoulder
16 injuries by giving me Tylenol and a sling for my left shoulder. They also did X-rays on
17 my shoulder. The nurses told me the X-rays showed some sort of injury, but there was an
18 issue with the number of images in the X-ray, so the X-rays were inconclusive and would
19 need to be re-taken at a later date. I returned to my cell in 3C03 after this appointment and
20 did not end up having my videotaped use of force interview that day.

21 14. I continued to experience pain over the next few days and was dizzy and
22 seeing spots in my vision. I thought I might have a concussion. During those few days
23 after the assault, I submitted multiple 7362 forms, which are requests for care, reporting
24 that I was having these symptoms and requesting medical attention. On May 6, 2019, I
25 was waiting in the medical line to see my doctor for a routine medical appointment. While
26 I was waiting in line, I felt a dent in the back of my head that was soft with liquid. When I
27 got to my appointment and saw my doctor over tele-med, my doctor said I did not look like
28 I was doing too well. I told him what happened and that I had pain in my shoulder and

1 head and was having issues with my vision and kept blacking out. I also told him that
2 medical staff were refusing me substantive medical treatment up to this point. He had the
3 medical assistant who was helping him feel the dent on my head. He was concerned that
4 staff had not sent me to an outside medical facility for treatment. He called the CTC
5 doctor and told him to send me to the outside hospital.

6 15. After the appointment, I was sent to Adventist Health Bakersfield, a local
7 hospital, where I stayed overnight. At the hospital, medical staff told me that I had an
8 orbital fracture, which is a broken bone under the eye. I was also diagnosed with a left
9 shoulder strain, a left cervical strain, and a concussion. A couple of weeks later, I saw an
10 ophthalmologist who examined me and confirmed my orbital fracture. My surgery to fix
11 the pinched nerve in my shoulder finally got approved on January 30, 2020. I am still
12 waiting for this surgery due to COVID-19. I am looking forward to this surgery as I have
13 been in tremendous pain and have not been able to lift my arms over my head since the
14 assault.

15 16. The day after the incident, on May 2, 2019, I was charged with “willfully
16 delaying a peace officer in the performance of duties.” I did not receive notice of this
17 charge, or a copy of my Rules Violation Report (“RVR”) until two days later, on May 4,
18 2019.

19 17. The RVR is full of false details. The RVR says that I became agitated and
20 started yelling at the respiratory therapist, the person who I thought was a nurse who took
21 my CPAP from me. The report says that Officer Delacruz then ordered me to cuff up and
22 that I turned away from him and resisted the handcuffs. Because I was turning my body
23 towards him, Officer Delacruz pushed me against a wall. The report says that after I was
24 pushed against the wall, I complied with being handcuffed and was escorted to the TTA.
25 The RVR makes no attempt to explain the injuries to my face and shoulder, and also
26 falsely says I was taken to the TTA after the incident and had a 7219 form filled out
27 documenting my injuries, when in reality I was denied medical care for almost 36 hours.

28

1 18. In addition to the issues with the content of the RVR, I noticed that Officer
2 N. Bright was listed as both my investigative staff and staff assistant, which are two
3 different roles in the RVR process. I pointed this out and told staff this was against
4 protocol, and was assigned a different staff assistant, Officer Bustos. However, Officer
5 Bustos did not come see me before the hearing, as she was supposed to per protocol, so I
6 ended up meeting her for the first time at the hearing. In my final RVR paperwork listing
7 the hearing results, Officer Bustos claims that she came to see me on May 17, 2019, and at
8 this meeting she asked me what information she should gather and what witnesses she
9 should call for the hearing. For my RVR hearing, I asked to call Sergeant Vasquez, the
10 CTC sergeant who failed to intervene when I was screaming for help during the assault,
11 along with other staff, but the Senior Hearing Officer denied my request for witnesses to
12 appear and deemed all of the questions I asked them irrelevant. I also requested that
13 Officer Delacruz, one of the officers who assaulted me, appear at the hearing. I was told
14 that Officer Delacruz had retired the day that I was assaulted, and the final RVR
15 paperwork I was given says that he could not answer the questions I submitted because he
16 was no longer employed by CDCR.

17 19. I had my RVR hearing on June 5, 2019 and was found guilty. I did not
18 attend this hearing because I was not told about the hearing. Staff took 30 days of yard
19 from me as punishment. I received the final copy of my RVR at my annual ICC which
20 took place on June 17, 2020, over a year after I was charged with the RVR. In the final
21 copy of the RVR, COR staff wrote that I had bruises, which was not consistent with the
22 original RVR I received that was based on the 7219 done by RN Vasquez, which claimed I
23 had no injuries. The paperwork states that I refused to attend my RVR hearing, even
24 though I did not know about it. This same paperwork says that I made a statement at the
25 hearing saying the RVR was false, directly contradicting staff's claim that I did not attend
26 the hearing.

27 20. On May 5, 2019, I filed a CDCR Form 602 staff complaint grievance against
28 Officer Delacruz and the other officer who attacked me, reporting that I had been assaulted

1 and that medical had confiscated my CPAP. I requested an investigation and stated my
2 intention to file a lawsuit about this issue. My 602 was bypassed at the first level of
3 review and sent to the second level of review. The documentation I was given states that I
4 was interviewed about my staff complaint on July 18, 2019, by ISU Lieutenant C. Brown
5 and ISU Sergeant Montano, in the appeals office at COR. This interview never took place,
6 and my second level response states that I was interviewed by Sgt. Montano the first time
7 on May 3, 2019. At that point, I had not filed my 602 yet, so it would not make sense for
8 Sgt. Montano to say he had interviewed me then about my 602. I sent the appeal to the
9 third level and wrote on the appeal that I was dissatisfied with the second level response
10 because my 602 interview had never taken place. On November 20, 2019, my CDCR
11 Form 602 was denied at the third and final level. The response said my complaint was
12 properly addressed and that CDCR staff had not violated any sort of policy.

13 21. I also filed a separate 602 grievance on June 24, 2019, reporting that RN
14 Vasquez, LVN Barkhurst, and other medical staff refused me emergency medical
15 treatment after the assault. I was interviewed about this 602 on August 9, 2019 by G.
16 Rodriguez, a supervising nurse at COR. The documents say I was called for two
17 interviews, one about RN Vasquez and one about the LVN Barkhurst, but my meeting with
18 Ms. Rodriguez was only about RN Vasquez. I never had an interview about LVN
19 Barkhurst. My meeting with Ms. Rodriguez was brief, and she barely asked me any
20 questions. On August 20, 2019, I received a written second level response to my appeal.
21 The response denied my appeal and stated that staff did not violate CDCR policy, and that
22 there would be no intervention on this issue. I sent this 602 to the third level and was
23 denied again on November 20, 2019. I did not get my CPAP machine back until about a
24 month after the assault, in June 2019.

25 22. When I arrived at LAC on August 1, 2019, I was told by a B-Yard yard
26 lieutenant whose name I do not know that I needed to have my RVR hearing for the RVR I
27 received on May 2, 2019. He said the computer was saying that this RVR had never been
28 heard. I told him that this RVR had already been heard and I had received my punishment

1 two months ago. The lieutenant told me, "I'll call up my friend at Corcoran." I assume he
2 made that call and was told that the RVR had already been heard, as I never heard anything
3 else about a new RVR hearing from that lieutenant or other staff at LAC. However, this
4 incident made clear to me that custody staff at LAC knew that I had been accused of
5 assaulting staff at COR.

6 23. I have experienced retaliation and witnessed abusive custody staff conduct
7 since my arrival at LAC on August 1, 2019. When the lieutenant told me that my RVR
8 was going to be heard when I arrived at LAC, even though it had already been heard and I
9 had already been punished, I had told him that I would write him up if he re-heard the
10 RVR and punished me again. I did end up filing a complaint on him because I wanted to
11 do everything in my power to make sure my RVR was not re-heard. After saying I would
12 file a complaint if the RVR was re-heard, officers searched my cell in B Yard, Building 3,
13 in back to back weeks, on August 12, 2019 and August 21, 2019. During these searches, a
14 group of B-3 officers, including Officer Serrano and Officer Montoya, trashed my cell and
15 threw all of my property on the floor. Officer Serrano came to my cell when I first got to
16 LAC and told me, "You like to take off on officers, huh?" He told me that he had looked
17 on the computer and seen my history. From the beginning of my time at LAC, officers
18 have made it known that they are aware I reported being assaulted at Corcoran and have
19 been hostile to me because of that.

20 24. After the August 21, 2019 search, Officer Montoya and Officer Serrano
21 came to my cell to try to intimidate me. Officer Montoya said, "Oh, you think you can just
22 rat on my friends at Corcoran and try to get them fired and move to Lancaster thinking it's
23 over? You fucked up every day while you're here, I'm going to give you hell until you do
24 something." I took this as him trying to provoke me into doing something that would
25 cause LAC officers to assault me and charge me with a staff assault. He called me a
26 "bitch" and "victim" repeatedly, and told me that if I 602 him it will "come up lost."

27 25. These issues continued after these first searches in August 2019. After I
28 talked to my attorneys at Rosen Bien Galvan and Grunfeld in April of 2020, the group of

1 officers in B-3 the very next week searched my cell multiple times. I believe they
2 overheard my phone call with my attorneys reporting the issues in this declaration, because
3 they were sitting right outside the door, and they decided to retaliate against me again.

4 26. On August 12, 2019, Officer Bolton and Officer Drayton took the TVs of
5 many people in B-3, regardless of whether the incarcerated individuals had chronos saying
6 they needed a TV for mental health reasons. My TV was confiscated, even though I have
7 a chrono that says I need a TV to cope with my mental illness. After this happened, I and
8 other patients on the unit asked to speak with the psychiatrist to tell them that staff had
9 taken away our TVs despite our mental health chronos that said we needed the TVs. The
10 custody staff on the unit refused to call the psychiatrist or another member of mental health
11 staff for us, so I and others sat down on the floor of the dayroom in a peaceful protest, to
12 try to get them to let us speak to mental health staff. I and others were charged with
13 “unlawful assembly” that same day. I was found guilty of that RVR and lost yard and
14 dayroom for 30 days. I and others filed a group 602 reporting that staff had taken away
15 our TVs, but that 602 was denied. I believe these searches and the confiscation of the TVs
16 are both excuses for staff to take property and otherwise mess with patients like myself
17 who report staff misconduct. I sent a letter to the ombudsman dated August 21, 2019,
18 reporting these retaliatory acts.

19 27. On November 20, 2019, Officer Bolton denied me my religious service.
20 When I asked her why she was denying me this, she said “because you like writing stuff
21 up.” I filed a 602 reporting this and was denied at all three levels.

22 28. I have also been threatened with harm at LAC. One day in September 2019,
23 I was walking on the yard when the B-3 Yard tower officer at LAC pointed an AR-14 at
24 me from the tower. I was walking to pill call and was told to put my blue shirt on to go to
25 pill call. He yelled at me “put your shirt on” from the tower and raised the gun at me. I
26 was not being hostile or refusing to comply. I filed a 602 about this, but I think that the
27 602 came up missing because I never received a response or had an interview with anyone
28 about this. This often happens where I and others lose appeals after we put them in the

1 box and never receive a response. I believe that the person who picks up the appeals and
2 members of the appeals office are friendly with the officers, so they pick and choose which
3 appeals to process.

4 29. On June 19, 2020, I had a confidential call with staff at Rosen, Bien, Galvan,
5 and Grunfeld (“RBGG”), my attorneys to which I have been reporting these issues. Later
6 in the day after this call with RBGG, one of the floor officers, who I call Officer P,
7 because I do not know how to spell her last name exactly, asked me why I was reporting
8 staff. She told me, “It’s best if you refuse talking to them”, meaning the RBGG attorneys,
9 “so that you can make it home.” I asked her, “What do you mean by that?” She said,
10 “Take it how you want to.” I took this as a threat that she and other staff were going to
11 harm me or set me up if I continue to report these issues. I believe that some of the
12 officers heard my call with RBGG because I was talking on speakerphone and they were
13 walking by the door constantly during the call, even though it was supposed to be
14 confidential.

15 30. I also was recently on quarantine status after returning from the hospital. On
16 July 22, 2020, a nurse came to my door and told me that July 23, 2020 would be my last
17 day of my scheduled 14-day quarantine. The next day, I was set to come off quarantine. I
18 also happened to be scheduled to speak with RBGG again on July 23, 2020. As the nurse
19 was walking towards me to let me off quarantine on the morning of the 23rd, Officer P
20 called her over a couple steps away by the stairs near my cell. I and my neighbors
21 overheard Officer P telling the nurse to keep me on quarantine for seven more days.
22 Officer Mercy, who was also nearby, stepped in and told Officer P that I was supposed to
23 come off quarantine that day. Officer P ignored him. The nurse ended up telling me I had
24 to stay on quarantine because I had refused a COVID-19 test, even though I had never
25 refused a test. I was never tested in the seven days after my quarantine was extended. I
26 believe that Officer P was trying to harass me and prevent me from speaking with my
27 attorneys. Despite these threats and actions, I continue to report these issues because I
28 need to stand up for myself and others.

1 31. I have also witnessed staff engage in misconduct against other people at
2 LAC. Sometime in 2019, Officer Serrano was walking someone on my unit back to our
3 cell while he was handcuffed, and I saw the officer suddenly slam this person face first
4 into the ground. Once he was on the ground on his back, the officer put his knee into his
5 head. He was cuffed the entire time. They took him to the holding cages in B-3, where we
6 could not see. I am not sure what happened after that, but they charged him with an RVR
7 and gave him a SHU term. I know this because after he came back from his SHU term, he
8 moved into my cell with me.

9 32. I believe staff feel they can threaten me because I am mentally ill and weak
10 due to my medical conditions, and because I have reported staff abuse in the past and have
11 been falsely charged with batteries on staff.

12 33. I have had some difficulty getting to medical appointments, as custody staff
13 have been failing to notify me of my appointments and then falsely telling medical staff
14 that I refused the appointment. I also have periodically had difficulty getting my CPAP,
15 most recently in early March. At that time, I went out to court and stayed at LA County
16 Jail. When I returned to LAC from LA County Jail, staff did not give me back my CPAP,
17 and it took three weeks for me to get my CPAP back. During that period, I was having
18 trouble breathing at night and requested my CPAP back multiple times both in writing and
19 verbally. Because floor staff at LAC would not let me speak to medical, I was unable to
20 report these concerns directly to medical staff for weeks.

21 34. In my time at COR and during my time at LAC, there have been many times
22 I needed help from staff but have been afraid to ask. Because of my various medical
23 conditions, I need staff's help to see medical staff and to get medical treatment. After
24 being refused medical treatment after being assaulted, I am afraid to ask staff to help me
25 see medical staff. In the times when I have asked staff for help, they refuse to help me,
26 making me even more afraid and even less willing to ask for help in the future. I also will
27 not ask mental health staff for help when I am feeling depressed and feeling suicidal, as I
28 am afraid they will talk to custody staff about me. I generally try to keep to myself and let

1 custody staff do what they are going to do, because nothing I do is going to change how
2 they act. I fear the officers so much that shortly after the assault I started trying to lock my
3 door by putting books in the door, so that staff could not easily enter my cell at night while
4 I am sleeping. At LAC, I continue to have this fear because even though I have not been
5 assaulted there, staff have made it clear to me that they will not help me because I reported
6 this assault at Corcoran.

7 35. My mental health worsened after I was assaulted in May 2019. In the weeks
8 before the assault, my sister passed away, and I was experiencing a lot of anxiety and
9 stress as I was processing my sadness about my sister passing. After I was assaulted, I
10 experienced even more anxiety because I was afraid of being assaulted again. I told my
11 clinicians that I was scared all the time and distrustful of all of the officers after this
12 assault. I was not able to sleep and unable to relax when around others. My voices grew
13 stronger, and I was experiencing these voices every night very intensely before going to
14 sleep. I do not trust mental health staff at all after this assault because they appear close
15 with the officers and seem to share information with each other. This makes me afraid that
16 custody staff will be told the private issues I express to mental health staff.

17 36. I also have ongoing medical issues as a result of being assaulted. I continued
18 to experience issues with my eye after the assault and was scheduled to see an
19 ophthalmologist in November 2019 for a consult for surgery on my eye. However, I
20 moved to LAC before that consult could take place, and staff at LAC decided to refer me
21 to a different specialist. I have yet to receive surgery on my eye. I am also still waiting for
22 surgery on my left shoulder.

23 37. In my opinion, staff target people with mental health issues, medical issues,
24 and people with disabilities with staff misconduct, because these groups of people are
25 vulnerable. I believe that staff felt they could assault me at my medical appointment
26 because I was vulnerable. They confiscated my CPAP because they knew I needed it, then
27 assaulted me. I do not believe this would have happened to me if I had not had the medical
28 issues that I do. I have noticed that staff at both COR and LAC target vulnerable people

1 because we rely on staff for help more than the average prisoner without medical issues,
2 disabilities, or mental health issues.

3 38. I believe the reason there is so much staff misconduct at COR and LAC is
4 because staff cover for each other and create a system where they cover things up for each
5 other even when you report these issues. This is a corrupt system because staff know that
6 as incarcerated people that we do not have easy access to the outside world. Because of
7 this, they can create a system where medical and mental health staff cover things up for
8 custody staff, and vice versa, so that it seems like we are getting a fair shake but really are
9 not. I have seen this pattern for years where staff commit assaults or other misconduct and
10 they get away with it because they cannot be properly investigated.

11 I declare under penalty of perjury under the laws of the United States of America
12 that the foregoing is true and correct, and that this declaration is executed at Lancaster,
13 California this 14th day of August, 2020.

14
15
16
17 On August 14, 2020, due to the closure of California State Prison-Lancaster, in light
18 of the COVID-19 pandemic and ongoing concerns that officers might retaliate against
19 witnesses in support of Plaintiffs' Motion, including ongoing concerns about the
20 confidentiality of the legal mail system at LAC, I read the contents of this declaration,
21 verbatim, to [REDACTED], by telephone. [REDACTED] orally confirmed that the
22 contents of the declaration were true and correct. [REDACTED] also orally granted me
23 permission to affix his signature to the declaration and to file the declaration in this matter.

Filed Under Seal

Exhibit 18

SUPPLEMENTAL DECLARATION OF [REDACTED] [REDACTED]

I, [REDACTED] [REDACTED] declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison – Los Angeles County (“LAC”) in the Short-Term Restricted Housing (“STRH”) unit, which is a type of Administrative Segregation Unit (“ASU”) for individuals in the mental health program at the CCCMS level of care. I am in Building 1, Cell [REDACTED]. I am 52 years old. I have been housed at LAC from December 18, 2018 to now.

3. I am an *Armstrong* class member. I am designated as DNH, which means I have a hearing disability that does not require a special housing placement. I have to use hearing aids in settings with background noise, and I wear a hearing disability vest.

4. I am also a *Coleman* class member. I am at the CCCMS level of care. I suffer from anxiety and depression.

5. I also have a number of serious medical conditions. I am being treated for arthritis, chronic migraines, and Hepatitis C. I have foot deformities, for which I’ve been recommended in the past for reconstructive surgery in both feet. I am classified as high risk medical.

6. I was recently a victim of an assault by staff at LAC that was as a result of my prior declaration in support of Plaintiffs’ Motion to stop Defendants from Assaulting, Abusing and Retaliating against People with Disabilities, filed on June 3, 2020, which detailed staff misconduct at the prison.

7. On July 7, 2020, Officer Keeton handed me a breakfast tray missing the main course, which was eggs, and said to me, “Fuck you.” Because I am in Administrative Segregation, officers serve meals to incarcerated people in our cells. I was confused about why Officer Keeton said this to me.

1 8. I called out to other officers in my housing area to get my main course.
2 After 10 to 20 minutes, Officer Keeton returned to my cell with a tray containing
3 scrambled eggs and said loudly, "Here you go, Snitch." I was even more confused by this,
4 because I have never been an informant against incarcerated people. When officers speak
5 to people in neighboring cells in my housing area, I can hear them, so I believe a number
6 of incarcerated people in nearby cells would have heard him call me a "snitch." I worried
7 at the time that this might start a rumor among people incarcerated in the prison and
8 endanger my safety, because sometimes incarcerated people attack people purported to be
9 informants.

10 9. At approximately 10 a.m. the same day, Officer Keeton approached my cell
11 again, asking if I wanted to go to yard. I responded, "Yes." At approximately 10:45 a.m.,
12 Officer Keeton returned to my cell. As I was handing him clothing through the tray slot in
13 my door for him to search before allowing me to go to the yard, I asked him why he called
14 me a snitch and served me a tray without eggs. He responded, "Think about it, Snitch." I
15 was angry that Officer Keeton had again put my safety at risk. He searched my clothing
16 and returned it to me.

17 10. Next, apparently frustrated by my questions, Officer Keeton said, "Fuck you.
18 You're not going to yard!" and slammed shut my tray slot. I immediately asked Officer
19 Keeton and Officer Salazar, who was conducting security checks on neighboring cells if I
20 could speak to Sergeant Hodges, Officer Keeton's supervisor. Approximately five minutes
21 later, I heard Sergeant Hodges speaking to Officer Keeton at the open doorway to the yard
22 (which is near my cell) about why I was not allowed to access the yard or use the hair
23 clippers. Staff normally allow us to use hair clippers to cut our hair every other week, and
24 I was supposed to be able to use them that same day.

25 11. I waited until Officer Keeton was finished speaking for my turn to address
26 the Sergeant. However, Sergeant Hodges began walking away, right by my cell, without
27 stopping. I called to him, "Excuse me, Sergeant, can I speak to you about my yard rights?"

28 12. Sergeant Hodges responded, "No, [REDACTED] and continued walking away.

1 13. A few minutes thereafter, Officer Contreras, who normally escorts people
2 with Officer Miller to dental and medical visits at the Treatment and Triage Area (the
3 “TTA”), a medical clinic on prison grounds, approached my cell to tell me I had a dental
4 appointment that day. After my dental appointment, while Officers Contreras and Miller
5 were escorting me back to the STRH, I asked them if I could speak to a lieutenant. Officer
6 Miller said, “We’ll put you in the holding cell and you can talk to the Sergeant, ‘cause
7 there’s no lieutenant here.”

8 14. I took a seat on a metal bench inside the holding cell near the offices for the
9 STRH. Almost immediately, Sergeant Hodges, who works during second watch, and
10 Sergeant Puentes, who works during third watch, approached the holding cell. I told the
11 two sergeants what had happened earlier in the day with Officer Keeton and asked
12 Sergeants Hodges and Puentes to give me their word that I would be given the opportunity
13 to use the hair clippers within the next few days. Both sergeants said no to this request.

14 15. Officer Hodges then stated, “You’re going back to your cell right now. I
15 don’t want to hear this shit anymore.” I responded, “Can I speak to a lieutenant, because I
16 don’t think this is an unreasonable request?”

17 16. Sergeant Puentes looked at Sergeant Hodges and said, “This is the asshole
18 that wrote a declaration for Rosen, Bien, Galvan.” Sergeant Hodges then responded,
19 “Really? Okay.” Without saying anything more, Sergeant Puentes grabbed my left arm
20 and shoulder, and Sergeant Hodges grabbed my right arm and shoulder. Together, they
21 lifted me off the metal bench and carried me to the corridor outside the holding cell, where
22 they put my feet down on the ground. Five officers, Officers Miller, Contreras, Banks,
23 Perucho, and Eckler were standing nearby.

24 17. Surrounded by the officers and sergeants, I widened my leg stance to avoid
25 being knocked off balance and falling on the hard concrete. At the time I was in waist
26 restraints. Officers Miller, Contreras, Banks, Perucho, and Eckler, as well as Sergeants
27 Hodges and Puentes grabbed me, punched me, and knocked me to the floor. They then
28 kicked my body and punched me repeatedly. Three times, in the process of taking me

1 back to my cell, the officers picked me up off the concrete floor and then beat me down
2 onto the hallway floor again. Once right outside the holding tank and two more times in
3 the hallway on the way to my cell the officers beat me on the ground. In between the
4 initial beating and second beating, I was put into a wheelchair and I immediately told
5 Sergeant Hodges, "Let me speak to a clinician, I am feeling suicidal." He just laughed at
6 me. As we were going down the hallway towards my cell, staff then dumped me from the
7 wheelchair onto the cement floor and beat me the second time. The wheelchair got
8 knocked out of the way. I was then picked up, and thrown back to the ground and beaten a
9 third time.

10 18. While I was on the ground each of the three times, the officers used their
11 body weight to put pressure on my neck and back causing me to experience breathing
12 difficulties and intense pain. I lost track of time, but I would estimate these three initial
13 beatings lasted five to ten minutes. Since the incident, I have continued to experience
14 ongoing severe neck and back pain.

15 19. After the third beating in the hallway, the officers took me to my cell, and
16 threw me on the floor of my cell, slamming me onto my knees and arms on the cement,
17 and began beating me once again. I was cuffed in waist chains the entire time I was being
18 beaten. After I was on the ground they sat on top of me again, and kept beating me. At
19 this point I said, "That's enough, it's over, I am in my cell, it's over, close the door and let
20 me uncuff." One of the Sergeants said, "You don't decide when this stops, we make those
21 decisions, keep your mouth shut." Then I was picked up again and slammed back down
22 onto the cement again.

23 20. During the attacks in the hallway, the doors at the front and rear of Sections
24 A through H were closed. These section doors are always open, so I believe the tower
25 officer closed them to keep other incarcerated people from seeing and hearing what staff
26 were doing to me, and to keep people from hearing me calling out for help.

27 21. Following the assault, I was covered in lacerations, bumps, swelling, and
28 bruises all over my body. My lip was busted, and I was bleeding. I was bleeding from my

1 ankles, legs, wrist and arms. I felt extreme pain, my lip was swollen and burning. My
2 back and neck and limbs were all in severe pain and were swollen. I had bruising on my
3 wrists and arms.

4 22. After 15-30 minutes in my cell, I notified the floor staff in my wing (1) that I
5 wanted a videotape made of my injuries; (2) that I was feeling suicidal and I needed to
6 speak to mental health staff; and (3) that I wanted medical attention for my injuries.

7 23. They acknowledged my requests. However, I never saw anyone from mental
8 health that evening. I was given a videotaped interview regarding the use of force that
9 evening. All of my injuries were videotaped by two Sergeants, and according to them, the
10 video would then be placed into an evidence locker.

11 24. When I was going out to do the video interview, a nurse asked me if she
12 wanted me to have her clean the injuries. I told her I would appreciate it if she could clean
13 up my injuries after the videotaped interview. However, when I was done with the
14 videotaped interview she was no longer around, and no one ever came back to clean up my
15 injuries. I never saw anyone from mental health that day or the next morning.

16 25. On the evening of the incident, a nurse came to my cell front and did a Form
17 7219 medical injury report. After I filed an excessive force 602 appeal, nursing staff did a
18 second Form 7219 to document my injuries. The second 7219 form was six days after the
19 assault on me, and my injuries were videotaped a second time. Of course, six days after
20 the injury, some of my injuries had begun to heal.

21 26. I received RVR # 7015722 regarding the incident. I was charged with
22 Battery on a Peace Officer. I have not yet had a hearing on the RVR. I postponed the
23 hearing pending a decision on the DA referral that has yet to be made regarding this
24 incident. It is my understanding from other incarcerated individuals at LAC, that when
25 staff assault a prisoner, they typically then turn around and charge the prisoner with assault
26 on staff to cover up the assault and justify the injuries. In my opinion, the charges in the
27 RVR are very implausible, given that I was in waist restraints at the time of the alleged
28 incidents in the RVR.

1 27. The beating has had a major impact on my mental health, and has worsened
2 my depression and anxiety. I am currently experiencing severe depression and anxiety.
3 Every time I hear staff coming down the tier with handcuffs I become anxious – thinking
4 they are coming for me. I get panicked, jittery and sometimes nauseated. I am constantly
5 worried I will be beaten again.

6 28. I constantly interact with the same officers who beat me. They control my
7 showers, access to food, yard, phones, clippers, razors, access to mental health and
8 medical. I say as little as possible to them but there is no way to avoid them.

9 29. I have also experienced other staff retaliation since I gave the first
10 declaration in this matter. On June 24, 2020, staff in R&R sent my new personal
11 television that my family purchased back to the vendor. A property captain signed off on
12 the document sending it back to the vendor. There is no reason that the television should
13 have been rejected by R&R staff, and none was given on the paperwork. I believe this was
14 pure retaliation for my cooperation with Plaintiffs' Counsel.

15 30. In submitting this second declaration, I am in fear for my safety. I do not
16 know how the officers and sergeants learned of my participation in the *Armstrong* motion,
17 and I am concerned I will be attacked or otherwise retaliated against for this second
18 declaration documenting their misconduct.

Sacramento, CA 94283-0001

August 20, 2020

Thomas Nolan, Esq.
Rosen Bien Galvan & Grunfeld
101 Mission Street, Sixth Floor
San Francisco, CA 94105
tnolan@rbgg.com

Dear Mr. Nolan:

This status letter is in response to your March 27, 2020, letter containing various allegations of staff misconduct targeting inmate [REDACTED] at the California State Prison – Los Angeles County (LAC). The California Department of Corrections and Rehabilitation takes every allegation serious, and as such, LAC conducted an inquiry¹ into the allegations raised in your letter.

Inmate [REDACTED] paroled from LAC on March 21, 2020, on post release community supervision. On July 9, 2020, staff conducted a telephonic interview with inmate [REDACTED] to discuss his allegations. Inmate [REDACTED] refused to participate in the interview regarding his allegations. LAC staff confirmed with the Office of Appeals that inmate [REDACTED] did not file a staff complaint or appeal concerning these allegations.

On December 11, 2019, at approximately 1015 hours, inmate [REDACTED] attended a confidential health session and attempted to hand his clinician a note. The doctor indicated that she could not take the note, but that he could read it out loud. Inmate [REDACTED] then stated that he wanted the doctor to bring him a cellular telephone. The doctor then terminated the session and inmate [REDACTED] threw the note. Staff then escorted inmate [REDACTED] to the Program Office. Staff retrieved the note and it was clear that inmate [REDACTED] was attempting to initiate a romantic relationship with the doctor and have her bring a contraband cellular telephone into the institution so they could maintain communication. The note did not contain information with regards to safety concerns as alleged in your advocacy letter.

¹ LAC conducted the fact-finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

After being informed that staff recovered the note and that he was being charged with overfamiliarity, inmate [REDACTED] claimed he was suicidal. Inmate [REDACTED] was then escorted to the Facility "D" gymnasium holding cell to be evaluated by mental health staff.

Inmate [REDACTED] was evaluated by mental health staff and cleared to return to his assigned housing. At approximately 1331 hours, as correctional officer Coleman opened the holding cell door, inmate [REDACTED] attempted to punch Officer Coleman, and grabbed his protective vest. In response, staff utilized force to quell the incident and gain compliance. (See incident log LAC-DGYM-19-12-1073). Medical staff examined inmate [REDACTED] after the incident and noted no injuries as a result of the incident. When medical staff asked inmate [REDACTED] to give a brief statement as to the circumstances of the incident, inmate [REDACTED] replied "no comment." The Institutional Executive Review Committee (IERC) use of force review determined that staffs' actions were appropriate and in compliance with Department use of force policy. Inmate [REDACTED] received a Rules Violation Report (RVR log no. 6942346) for Battery on Staff and was found guilty. Inmate [REDACTED] was also charged with overfamiliarity (RVR log no. 6942348) and found guilty.

LAC staff determined that the allegations contained herein lack cause for further investigation and are deemed to be not sustained. LAC has closed the inquiry into this matter.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

RE: *COLEMAN V. NEWSOM, ARMSTRONG V. NEWSOM*: ADVOCACY LETTER FOR EOP CLASS MEMBER [REDACTED]) REGARDING ALLEGATIONS OF EXCESSIVE FORCE AT CSP – LOS ANGELES COUNTY ON NOVEMBER 8, 2019
YOUR FILE NO. 0489-03, 0581-03

Dear Mr. Nolan:

I write to respond to your March 27, 2020, letter regarding inmate [REDACTED] [REDACTED] who alleges he was subjected to excessive force by correctional staff at California State Prison – Los Angeles County (LAC) on or about November 8, 2019. To briefly summarize what was stated in your letter, [REDACTED] [REDACTED] alleges that on November 8, 2019, an officer grabbed him by the arm and slammed him to the ground. The officer then kned him in the back and head and placed him in handcuffs. [REDACTED] [REDACTED] alleges that as he lay on the ground, the officer put his fist into [REDACTED] [REDACTED] face, then waved it there, and told him “Stop resisting or I’m going to hit you in your fucking face.” [REDACTED] [REDACTED] also alleges that he waited in a holding cage for two or three hours, where an officer came in and said, “What’s going on [REDACTED] You’re not going to file a claim, are you?”

In April 2020, a specially assigned investigator opened a new inquiry based on the above allegations of staff misconduct.¹ The independent inquiry included a review of all available documentation, including multiple incident reports, the incident commander review, manager’s review, two Institutional Executive Review Committee (IERC) reviews of the incident, appeal inquiry results, and the relevant Rules Violation Report (RVR), as well as all associated case

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department’s Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

factors. In addition, the investigator conducted an interview with [REDACTED] [REDACTED] on May 1, 2020, and interviews with identified inmate witnesses on April 29, 2020.

[REDACTED] [REDACTED] did not comply with the orders to return to his cell and responded to the order to submit to restraints by kicking the officer, which resulted in an immediate use of force.

The investigator reviewed multiple reports filed that describe how [REDACTED] [REDACTED] joined an evening medication line when he was not scheduled for medication. He was ordered to go back to his cell, which he did not do. [REDACTED] was ordered to submit to handcuffs and appeared to initially comply, but then did not by breaking free from the officer, and [REDACTED] then placed a “mule kick” to the officer’s knee. Staff responded and utilized immediate force to subdue [REDACTED] attack and to overcome his active physical resistance.

A Report of Findings (ROF) was generated in response to the incident and included an interview. [REDACTED] confirmed he was standing near the medication line although he had no medication to pick up. As noted in the summary, [REDACTED] stated in the interview that he refused an order to go back and stayed there in protest. [REDACTED] did allege that he was thrown to the ground and that a knee was placed on his head. During the interview, [REDACTED] said words to the effect that he “did not kick [the officer] because if he had kicked him he would be missing his teeth.” As further documented, two inmates identified by [REDACTED] as witnesses were interviewed. One provided little information, other than to note that as the officer proceeded to place [REDACTED] in handcuffs, [REDACTED] “turned, possibly to return to the building.” The other did corroborate that [REDACTED] did not comply with the order to go back and that he did not comply with the order to submit to handcuffs. The inmate witness stated he then saw [REDACTED] taken to the ground. He stated he did not see “excessive force and stuff like that” or words to that effect. The ROF concluded there was no evidence of staff misconduct. The specially assigned investigator noted that in [REDACTED] interview, he contradicted the statements made in the letter from counsel. In one account, [REDACTED] stated he was “frozen” and unsure of what to do. In another account, [REDACTED] stated he willfully refused the order and stood there in protest. [REDACTED] also does not confirm in his interview any of the statements or fist shaking purportedly made by the restraining officer.

[REDACTED] medical exam reflected an arm scratch after the incident and there were no corroborating witnesses or post-incident injuries to support his allegation that he was kneed in the back and head.

The incident commander, the manager, and the Associate Warden, reviewed and approved incident reports connected to [REDACTED] following established protocols. The 7219 Medical

Report of Injury form (7219) was attached to the incident packet and the injuries listed were consistent with the documented incident. The document reflected an abrasion to the arm. The investigator noted [REDACTED] did not make a statement or an allegation of unnecessary or excessive force at the time he was examined for the 7219. The incident was closed on November 18, 2019, noting no further action was warranted.

On or about November 25, 2019, [REDACTED] prepared and signed a 602 alleging unnecessary or excessive force for the November 8, 2019 incident. Upon receipt of the 602, an Appeals inquiry was opened and [REDACTED] was video interviewed. The Appeal inquiry included interviews of five staff members. [REDACTED] asserted during the interview "the officers are trying to manufacture [the RVR]." However, staff corroborated that [REDACTED] failed to comply when he was ordered to return to his cell. Four out of five interviewed stated [REDACTED] responded to the order with words to the effect of "Fuck you [...] I'm not going back." There was a slight discrepancy in the statement the officers reported. Three said the statement included the ordering officer's name and one said that the words "hold on" were said after the expletive. In addition, the four officers who observed the incident noted that [REDACTED] did kick an officer. The fifth staff member did not observe the incident but did respond with a wheelchair to remove [REDACTED] from the yard. The Appeal inquiry resulted in the conclusion that there was no violation of policy.

The IERC completed a second review, pursuant to the appeal, of the incident on January 21, 2020, and the second review concluded no further action was warranted, in concurrence with the first IERC conclusion.

No independent witnesses corroborated [REDACTED] account of an officer threatening him with a fist or questioning him about filing a complaint.

In [REDACTED] May 1, 2020 telephonic interview with the specially assigned investigator, [REDACTED] stated he was ordered to return to his cell but he told officers to "hold on one second because [he] was talking to someone." He then stated an officer approached him and gave him another order to return to his cell and he chose not to respond but stood there in protest. [REDACTED] then described an officer attempting to place him in cuffs and that he "collapsed on the ground" prior to being handcuffed. [REDACTED] did generally reiterate two allegations of verbal abuse that are made in counsel's letter. However, neither allegation was corroborated by inmate or staff witnesses who were interviewed in response to these allegations. The investigator also noted that [REDACTED] did not make any verbal abuse allegations in prior interviews regarding this incident.

Two inmates identified in counsel's letter were interviewed in April 2020. One inmate confirmed that [REDACTED] had been ordered to return to his cell, as he had no reason to be in the medication line. The witness did state that [REDACTED] was "acting paranoid." The inmate stated that [REDACTED] ignored the order to return to his cell, continuing to talk with another inmate. Once staff approached [REDACTED], the eyewitness said that [REDACTED] then "froze" and just stood there. However, with additional questioning, the witness later stated that [REDACTED] continued talking to another inmate after four or five orders from staff to return to his cell.

The second inmate witness interview was also held on April 29, 2020. The witness confirmed [REDACTED] was near the medication line. The witness provided statements in conflict with those made in counsel's letter, including statements made regarding [REDACTED] being placed in leg restraints and subsequently placed on a gurney.

Relative to this incident, [REDACTED] did receive a Rules Violation Report (RVR) for Battery on a Peace Officer (6929456) to which he pled Not Guilty. A hearing was conducted on November 25, 2019, and based on a preponderance of evidence, [REDACTED] was found guilty. In his defense, [REDACTED] stated words to the effect of, "If I were to kick [the officer], why wasn't I sprayed or beaten within an inch of my life?"

It is noted by the investigator that [REDACTED] was interviewed on multiple occasions regarding the incident and his statements are inconsistent in those interviews. In at least one interview, notably after [REDACTED] raised the allegations to counsel, he mentioned verbal abuse. However, the sequence of events and the staff accused of misconduct change. Additionally, inmate witness accounts also varied and generally did not corroborate the allegations. The investigator concluded that [REDACTED] allegations were somewhat embellished, based on the lack of corroborating evidence.

In sum, the independent review resulted in a recommendation by the investigator that the allegations of excessive force were unsustainable. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

**RE: *COLEMAN V. NEWSOM*: EOP CLASS MEMBER [REDACTED]
REPORT REGARDING STAFF MISCONDUCT AT LAC; YOUR FILE NO. 0489-03**

Dear Ms. Trapani:

I write to respond to certain allegations in your August 8, 2019, letter regarding inmate [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). The following allegations were extracted from the letter for further independent inquiry:

- [REDACTED] alleges that on June 27, 2019 officers used excessive and unnecessary force on [REDACTED]
- [REDACTED] alleges that on June 27, 2019 staff failed to act when [REDACTED] swallowed razor blades.

In March 2020, an independent investigator opened an inquiry to address the above allegations of staff misconduct.¹ This included review of all available and relevant documentation, including but not limited to the CDCR 837 Incident Package, Rules Violation Reports (RVR), and the Electronic Records Management System (ERMS).

The investigator, as a result of the review, noted there were no appeals or grievances filed by [REDACTED] regarding his allegation of excessive or unnecessary use of force. [REDACTED] did not raise the allegation except as a defense to an RVR for Battery on a Peace Officer (687070187), which was heard on July 31, 2019.

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Ms. Cara Trapani

Page 2

Earlier on June 27, 2019, the same date of the alleged excessive/unnecessary force, staff documented, via an RVR, a conversation with [REDACTED] that occurred during a treatment team meeting. In this conversation, [REDACTED] "repeatedly stated he was going to report whatever he needed to," including making homicidal and suicidal statements, in order to be placed back into the Enhanced Outpatient Program (EOP). Staff noted he was not in acute distress and he had been cleared by a mental health evaluation. [REDACTED] later pled guilty to the RVR for Unlawful Influence (6869330).

The investigator reviewed the June 27, 2019 Incident Packet and the associated documents, as well as the Report of Findings and the recorded interviews. Officers documented [REDACTED] did not want to return to his housing unit after his earlier mental health evaluation and interaction with his treatment team. He stated something to the effect of: "I am not going back, I am going to see the Doctor no matter what." [REDACTED] then turned and hit an officer in the face with his fist. [REDACTED] was subsequently "taken to ground" and restrained by two officers, one on his back and the other placing his hands on the [REDACTED] upper back area. [REDACTED] resisted by trying to get up while the officers were attempting to restrain him. Additional staff arrived and [REDACTED] was placed in restraints.

The Medical Report of Injury or Unusual Occurrence (7219) was completed June 27, 2019, immediately after the use of force and the 7219 noted [REDACTED] reported he swallowed three razor blades. The 7219 documented abdominal pain and a discolored area near [REDACTED] left eye. These injuries were not consistent with the later allegation [REDACTED] made regarding injuries sustained, as a result, of use of force.

The Institutional Executive Review Committee reviewed the 837 package and found staff actions to be in compliance with policy. [REDACTED] was interviewed and videotaped on August 7, 2019 as part of the inquiry into the allegation of excessive/unnecessary use of force. In the Report of Findings, [REDACTED] was quoted as stating something to the effect of "I was trying to go suicidal and they didn't let me go." In that interview, [REDACTED] was unable to identify any staff or inmate witnesses to his allegation of unnecessary or excessive force.

[REDACTED] was medically evaluated on August 7, 2019 prior to his interview. The 7219 noted lower back pain, which was a new complaint not consistent with the June 27, 2019 medical evaluation. In this new 7219, [REDACTED] stated he needed an x-ray due to lower back pain. There were no visible injuries noted at the time.

Ms. Cara Trapani

Page 3

On March 18, 2020, the investigator offered a personal interview to [REDACTED] in order to obtain corroborating or supplemental information to support the new inquiry into the past allegations. [REDACTED] refused to participate in the interview.

As to the reported failure to act when [REDACTED] had reportedly ingested razor blades, the investigator was able to confirm [REDACTED] was sent the same day (June 27, 2019) to an external medical provider where it was confirmed that a "foreign item" was located in [REDACTED] and it was likely due to ingestion. [REDACTED] received treatment at that time.

In summary, the inquiry into the above listed allegations resulted in a recommendation by the investigator that there was insufficient evidence at the time of the inquiry to support [REDACTED] allegations of staff misconduct and no further investigation is warranted at this time. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

RE: *ARMSTRONG V. NEWSOM: PLAINTIFFS' REPORT RE MAY 21-24, 2019*
MONITORING TOUR OF CALIFORNIA STATE PRISON – LOS ANGELES COUNTY; YOUR
FILE NO. 0581-03

Dear Mr. Nolan:

I write to respond to your July 16, 2019, letter with a report including inmate [REDACTED], [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). As to Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

1. Mr. [REDACTED] reported that he was severely beaten by officers on August 25, 2018 while he was asleep in his cell.
2. Due to his injuries, he requested a wheelchair, a permanent cane, neck brace, knee brace, elbow brace, seizure helmet, dentures, and ankle brace. In response to his request, he was provided with dentures and a helmet was ordered for his seizures.

As to the first allegation, that of Mr. [REDACTED] being beaten during sleep in his cell, a detailed response was provided to your office from CDCR counsel, Michael Stone, dated July 8, 2020. CDCR's inquiry into that specific allegation has been closed.

In March 2020, an independent and separate inquiry was opened into the second allegation of staff misconduct.¹ An independent investigator completed review of all available and relevant documentation, including but not limited to the Electronic Records Management System, Healthcare Appeal logs (CDCR 602 HC), CDCR form 1824, Reasonable Modification or

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Thomas Nolan

Page 2

Accommodation Request, and the Reasonable Accommodation Panel (RAP) response, as well as all associated case factors.

The investigator noted that RAP did respond to [REDACTED] request for Durable Medical Equipment (DME) on or about September 12, 2018. DME request included a wheelchair, permanent cane, neck brace, knee brace, elbow brace, helmet, dentures, ankle brace, pressure stockings, "Boost", and a renal diet. The RAP partially approved the request and noted that the allegation would not be placed on the non-compliance log as there was "no nexus to [REDACTED] disability and it [the complaint] is already in the staff complaint process."

The RAP noted that [REDACTED] was already receiving "Boost" three times per day and a helmet was on order prior to the complaint. A physician noted that [REDACTED] medical condition at that time did not warrant the need for a neck brace, elbow brace, wheelchair, or pressure stockings. The RAP also redirected [REDACTED] request for dentures to the appropriate process for dental care.

The investigator notes that [REDACTED] submitted a number of Health Care Appeals within a short period of time and one filed on or about September 10, 2018, was rejected due to excessive filing. This was found to be an appropriate response as [REDACTED] had filed a prior Health Care Appeal on or about September 5, 2018. [REDACTED] was provided forms and information regarding filing timelines and procedures.

[REDACTED] was personally interviewed and digitally recorded as part of an appeal inquiry into this matter on March 17, 2020. [REDACTED] confirmed that he had received certain DME he had requested and that while he did not agree with the RAP physician's medical assessment and denial of DME, he chose not to appeal because "all health care and DME issues outlined within his CDCR 1824 were adequately addressed."

Also, note, the investigator reviewed past Health Care Appeals and outcomes, and noted that [REDACTED] has established a pattern of requesting DME and program placement that has not been deemed medically necessary.

///

///

Mr. Thomas Nolan

Page 3

In summary, the inquiry into the above listed allegations resulted in a recommendation that there was insufficient evidence to support [REDACTED] allegations of staff misconduct and no further investigation is warranted at this time. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

RE: COLEMAN LAC REPORT (APRIL 29, 2019):

Dear Mr. Nolan:

This letter is in response to your office's correspondence received on July 16, 2019, concerning allegations of staff misconduct at California State Prison, Los Angeles County (LAC).

California State Prison-Los Angeles County ("LAC") conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

"In another appeal (A-19-00972), [REDACTED] reported on February 11, 2019 that it was twenty-four degrees Fahrenheit in his unit and yet officers refused to turn on the heat. According to [REDACTED] allegations, officers instead taunted inmates for being cold and belittled their need for a livable temperature. He requested that officers be rotated from his unit so that he and other prisoners did not have to face harassment from officers. His request was screened out as non-ADA related and he was directed to file a 602 about his concerns."

CDCR takes every allegation made against the Department seriously, and as such, LAC conducted an inquiry into these allegations by referencing various documents, databases, and records, as well as by conducting interviews, where appropriate, to procure information regarding the allegations.

LAC reviewed records related to inmate [REDACTED] in the Electronic Records Management System

¹ LAC conducted the fact-finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Nolan

Page 2

(ERMS) and the Inmate Appeals Tracking System (IATS). LAC determined that inmate [REDACTED] filed no appeals concerning heat in the buildings. LAC also reviewed a bed history report to determine other possible inmate witnesses. An appeal was identified from another inmate housed in the unit at the same time as [REDACTED] but that appeal was about his cell being too hot (as opposed to insufficient heating, as alleged by inmate [REDACTED]).

LAC's investigator spoke with a Plant Operations Manager regarding heating and air in Facility A, Building 4 (where inmate [REDACTED] was housed at the time of his allegation). The Plant Operation Manager informed the investigator that custody staff do not have the ability to adjust the heat in the housing units (that can only be accomplished by submitting a work order to plant operation staff). The investigator was informed that custody staff can shut down the system via the fire control unit, but only in case of a fire.

LAC interviewed inmate [REDACTED] at California Medical Facility (CMF) in a face-to-face interview on March 16, 2020. When pressed on what exactly staff said while they were allegedly taunting inmates about the heat or who those staff were, inmate [REDACTED] said that staff were ignoring inmates rather than affirmatively taunting them. Inmate [REDACTED] indicated to the investigator that he believed control booth officers had the ability to adjust the heat. Inmate [REDACTED] further indicated that he was aware that there were technical issues with the heating equipment in the building during the relevant time period. The LAC investigator found work orders for the heating and air systems that were placed in January and February.

Two additional inmates who were housed at Facility A, Building 4, during the relevant time period, were also interviewed by LAC. One corroborated issues with the heating in the facility that was mechanical in nature, and the other could not recall any issues with the heating.

Based upon the documentary review, and the information derived from the interviews, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of inmate [REDACTED].

Should you have any questions, please contact the undersigned at 916-324-1421.

Thank you,

A handwritten signature in blue ink, appearing to read "Eric Duesdieker", with a stylized flourish at the end.

Re: COLEMAN LAC REPORT (APRIL 29, 2019):

Dear Mr. Nolan:

This letter is in response to the allegations in your office's letter regarding alleged misconduct received from your office on April 29, 2019 regarding [REDACTED]

California State Prison-Los Angeles County (LAC) conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

"[REDACTED] reported that excessive force was used against him when he refused to accept assigned housing. He reported staff used force on him after he refused to accept a cellmate on December 7, 2018, shortly after arriving at LAC. He informed the inmate housing assignment sergeant and lieutenant he had mental health issues, suffered from trauma from sexual harassment, and he required a single cell. The sergeant reportedly told [REDACTED] he would be housed by himself. However, [REDACTED] was taken to a cell occupied by another individual who was a known gang member. [REDACTED] refused to enter the cell. Upon hearing his refusal, B-Yard Sergeants Perez and Sanchez reportedly told [REDACTED] that if he wanted to be housed by himself then he needed to kill his cellmate. [REDACTED] was then handcuffed and officers attempted to force him into the cell. Because he continued to refuse to enter the cell, the officers slammed [REDACTED] to the ground while handcuffed and then kned him in the back. He was then taken to segregation with a charge of battery on staff."

The California Department of Corrections and Rehabilitation takes every allegation made against the Department seriously, and as such, LAC conducted an inquiry into these allegations by referencing various documents, databases, and records, as well as by conducting interviews, where appropriate, to procure information regarding the allegations.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Mr. Nolan

Page 2

During the inquiry, LAC reviewed appeal # LAC-B-19-00324, the appeal filed by [REDACTED] covering these allegations, as well as the second and third level reviews of that appeal. Additionally, LAC reviewed incident log # LAC-B05-18-12-1079, which was authored on December 8, 2018, regarding the incident from which inmate [REDACTED] allegations stem.

LAC reviewed inmate [REDACTED] Initial Housing Review dated December 7, 2018, indicating that [REDACTED] was cleared for double cell housing. A review of the PREA screening from that same day noted that [REDACTED] was not identified to be at risk as a victim or abuser.

LAC reviewed the findings of the Institutional Executive Review Committee (IERC) regarding this incident which found that staff actions before, during, and after the use of force were in compliance with current Departmental use of force policy, procedures, and training. LAC also conducted a review of two CDCR 7219 Report of Injury or Unusual Occurrences that were completed on inmate [REDACTED] on the date of the incident (one just over an hour after the first one, at inmate [REDACTED] request). Neither CDCR 7219 notes any injury to inmate [REDACTED].

LAC reviewed the video interview of inmate [REDACTED] that took place on December 7, 2018 and reviewed Rules Violation Report #6182247, issued to [REDACTED] [REDACTED] regarding this incident.

LAC interviewed inmate [REDACTED] shortly after the incident and again on February 6, 2020, during the course of the inquiry. During the inquiry process, LAC also interviewed five other inmates, including an inmate indicated by [REDACTED] as a witness. Only one witness corroborated inmate [REDACTED] claims of excessive force but their version of events was determined by LAC to lack credibility because their statement at the time of the inquiry directly contradicted statements they had made previously and included claims that no other witness corroborated (including inmate [REDACTED] himself).

Based upon the documentary review, and the information derived from the interviews, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of inmate [REDACTED] t.

Should you have any questions, please contact the undersigned at 916-324-1421.

Thank you,

A handwritten signature in blue ink, appearing to read 'Eric Duesdieker', with a stylized flourish at the end.

RE: *ARMSTRONG V. NEWSOM*: PLAINTIFFS' REPORT RE MAY 21-24, 2019
MONITORING TOUR OF CALIFORNIA STATE PRISON – LOS ANGELES COUNTY;
YOUR FILE NO. 0581-03

Dear Mr. Nolan:

I write to respond to your July 16, 2019, letter with a report including inmate [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). As to Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

- Mr. [REDACTED] reported that he was assaulted by [an officer] on April 15, 2019. According to Mr. [REDACTED] he was then later approached by the same officer, had his arm twisted, his helmet knocked off of his head, and asked "who's a bitch now?" Mr. [REDACTED] said his left hearing aid was broken during this incident. Mr. [REDACTED] also stated he had not been allowed to leave his cell and could not get his medication.

In March 2020, an inquiry was opened based on the above allegations of staff misconduct.¹ An independent investigator completed review of all available and relevant documentation, including but not limited to the Electronic Records Management System (ERMS) records, 602 Inmate/Parolee Appeal form (602) and the associated file, applicable Rules Violation Reports

¹ LAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Thomas Nolan
Page 2

(RVR), and the Institutional Executive Review Committee (IERC) Allegation Review, as well as all associated case factors.

The investigator noted that, on April 15, 2019, Mr. [REDACTED] was the subject of two separate RVRs. The first was for Threatening Staff, and was relevant to Mr. [REDACTED] allegations of staff misconduct. The RVR describes the interaction between Mr. [REDACTED] and an officer who asked him to tuck in his shirt before going into the dining hall. Mr. [REDACTED] reportedly responded with words to the effect of: "Fuck you motherfucker I don't have to do shit!" The officer observed Mr. [REDACTED] was visibly tense and with closed fists. He then directed Mr. [REDACTED] to turn, in order to be placed in handcuffs. At first, Mr. [REDACTED] did not comply with the order, but replied with words to the effect of: "You're lucky this isn't back in the day we would have fucked you up!" After the officer again directed Mr. [REDACTED] to submit to being handcuffed, he complied. He was then escorted to the holding cell in Facility D Gym without incident.

Approximately 90 minutes later on April 15, 2019, having already returned to his cell, Mr. [REDACTED] alerted an officer to a medical emergency where he was bleeding from the back of his head. He was removed from his cell via gurney for medical attention. An officer retrieved Mr. [REDACTED] helmet to bring it to him, and at that time, a wrapped and freshly bloodied razor blade was found concealed within the helmet. The officer reported injuries on Mr. [REDACTED] right eyebrow and back of the head that were consistent with a razor blade. Mr. [REDACTED] had been alone in his cell and the injuries appear to have been self-inflicted. Mr. [REDACTED] subsequently received an RVR for Possession of dangerous contraband. Of note in this RVR, there were no claims raised by Mr. [REDACTED] of unnecessary or excessive force. It was also noted that Mr. [REDACTED] had returned to his cell after staying in a holding cell and there had been no injuries observed, documented, or reported by Mr. [REDACTED] other inmates, or staff. His injuries appear to have been self-inflicted with the contraband razor blade shortly after he returned to his regular cell.

The following day, on April 16, 2019, a Medical Report of Injury or Unusual Occurrence (7219) was completed. Mr. [REDACTED] was medically assessed prior to placement into the Administrative Segregation Unit (ASU), which is a standard administrative procedure. Cuts and lacerations were documented as "old injuries" and included a calf cut. The investigator noted that Mr. [REDACTED] did not raise any concern or statement at the time of excessive or unnecessary force from the prior day.

Mr. Thomas Nolan
Page 3

Both RVRs were heard on May 1, 2019 and, at the time, Mr. [REDACTED] made no statements regarding excessive or unnecessary force. The investigator also notes Mr. [REDACTED] did not request witnesses to refute the RVRs. Shortly after the RVRs were completed, Mr. [REDACTED] filed a 602 Inmate/Parolee Appeal form (602). The 602 contained allegations of staff misconduct consistent with your reported allegations.

In March 2020, the investigator reviewed the 602 and the associated file, as well as the Report of Findings and the recorded interviews.

On May 3, 2019, Mr. [REDACTED] was video interviewed after the California Department of Corrections and Rehabilitation (CDCR) received his allegation of unnecessary or excessive force. During the video interview, Mr. [REDACTED] stated he was thrown at least three times by an officer, before he was placed in the Facility D Gym (Gym) Holding Cell, and that there were inmate and staff witnesses. The 7219 completed in response to this use of excessive/unnecessary force allegation showed no visible injuries and Mr. [REDACTED] chose not to make a statement to include on the report.

Mr. [REDACTED] identified an inmate witness in his video testimony. Shortly thereafter, that inmate witness was interviewed and was unable to corroborate Mr. [REDACTED] version of events except to confirm Mr. [REDACTED] was placed in handcuffs outside of the dining hall on April 15, 2019. Three staff members were interviewed as part of the Appeal inquiry and there was no corroboration of the allegations of excessive or unnecessary force. One staff member did share a later observation of Mr. [REDACTED] "hiding beneath [his] lower bunk bleeding from the head." That staff member recalled the injuries to be a result of self-injurious behavior.

On March 18, 2020, the independent investigator interviewed Mr. [REDACTED] for further information regarding his allegations. Mr. [REDACTED] stated during the interview that he was verbally abused by an officer and that his wrist was twisted. He further stated his helmet was slapped off of his head, that he was thrown against the dining hall wall, and that he was thrown against a window in in the Gym, which resulted in bleeding. Mr. [REDACTED] also stated he was thrown against the holding cell in the Gym. Staff and inmate witnesses were identified. Mr. [REDACTED] stated he was having a seizure outside the Gym before he entered the Gym. Mr. [REDACTED] stated he was denied his seizure medication on April 13, 2019, and was sent to outside medical treatment due to a seizure. Mr. [REDACTED] provided the names of two inmate witnesses, including one he stated "was right behind him and observed the entire incident."

Mr. Thomas Nolan
Page 4

Of the two inmate witnesses identified, one had already been interviewed during the Appeal inquiry and had not corroborated the allegations of staff misconduct. The second inmate, whose name was provided by Mr. [REDACTED] as a percipient witness, was verified to have not been housed at LAC at the time of the event. The named inmate arrived to LAC only in July 2019, and had been housed at an entirely different institution in April 2019.

As to the allegation that Mr. [REDACTED] was not allowed to leave his cell for medicine, the investigator confirmed with LAC medical staff that Mr. [REDACTED] received his seizure medication as scheduled on April 13, 2019. The medical staff person also advised that Mr. [REDACTED] had not been sent to an outside medical facility for seizures as he may have conveyed in several interviews, but for treatment due to a head injury with lacerations.

In summary, the inquiry into the above listed allegations resulted in a recommendation by the independent investigator that there was insufficient evidence to support Mr. [REDACTED] allegations of staff misconduct and no further investigation is warranted at this time. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

RE: COLEMAN REPORT MARCH 20, 2020

Dear Mr. Nolan:

This letter is in response to the allegations in your office's letter regarding alleged misconduct by **Sergeant (Sgt.) Sarmiento** against [REDACTED] received from your office on March 20, 2020.

California State Prison-Los Angeles County (LAC) conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

[REDACTED] alleges on November 20, 2019, Sergeant (Sgt.) Sarmiento stated to him, "Those are my officers you're talking about, watch your mouth," when [REDACTED] made a complaint in regards to Facility C staff.

[REDACTED] alleges Sgt. Sarmiento stated, "This interview is over. Watch your fucking mouth."

[REDACTED] alleges as he stood up to leave the room, Sergeant Sarmiento rose with him and suddenly struck him in the face with a closed fist. Startled, Mr. [REDACTED] reflexively pushed Sergeant Sarmiento backwards with a closed fist.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

█████ alleges multiple officers ran into the room at once, so he dropped to the ground and lay prone with his arms behind him. The officers kned █████ in the back and in the face while they placed him in handcuffs.

█████ alleges he showed the nurse his fresh injuries, including bruising on his knees, back, and tailbone and an abrasion on his left elbow, the nurse documented that his injuries were not sustained from the incident, recording instead that they were old injuries.

█████ alleges he told the ASU Captain that he was feeling suicidal due to the incident. Shortly thereafter, another member of the nursing staff walked in to interview him about his reported suicidality. Despite his report, Mr. █████ was not referred to a crisis bed unit.

█████ alleges after this evaluation, a Sergeant and a Lieutenant conducted an excessive force interview with Mr. █████ This interview lasted approximately five minutes and consisted only of Mr. █████ giving a brief account of the incident. The officers only asked one question - "Do you have any witnesses?" before terminating the interview.

█████ alleges he was interviewed in regards to an appeal he filed relative to the incident. This interview was similarly brief. Like the other officers, Lieutenant Johnson asked few questions and smirked, shaking his head, after Mr. █████ alleged that Sergeant Sarmiento had struck him with no provocation.

█████ alleges at the RVR hearing, the Senior Hearing Officer, Lieutenant Lugo, found Mr. █████ guilty because the incident was "Your word against the word of the officer."

The California Department of Corrections and Rehabilitation (CDCR) takes every allegation made against the Department seriously, and as such, please be advised that LAC conducted an inquiry into these allegations by referencing various documents, databases, and records to procure all useful information regarding the allegations. LAC conducted an inquiry into all of these allegations. During this inquiry, █████ was interviewed. The investigation also reviewed documents contained in ERMS and SOMS including appeals filed by █████ Following policy, ISU also utilized other methods of investigation including looking at documents and records outside of ERMS and SOMS.

On December 2, 2019, the LAC, Inmate Appeals Office (IAO) received a CDCR 602 Appeal from █████ containing allegations of staff misconduct. Reports reviewed in regards to the incident indicate █████ physically battered Correctional Sergeant (Sgt.) R. Sarmiento during an interview in the Facility C Program Office. Staff utilized immediate, physical force to subdue his attack,

Thomas Nolan

Page 3

effect custody, and gain compliance with officers' lawful orders. All levels of review indicate staff actions prior, during, and after the use of force were in compliance with the current department use of force policy, procedures, and training. The CDCR 7219 notes injuries sustained by [REDACTED] on the date of the incident, which are consistent with the force utilized.

According to the RVR related to this incident, [REDACTED] aggressively stood up and pushed his chair towards Sgt. Sarmiento. The RVR also notes Sgt. Sarmiento immediately stood up from his chair and [REDACTED] lunged towards him, striking him in the left side of the neck with his fist. Sgt. Sarmiento notes he utilized immediate physical force to stop [REDACTED] attack. Sgt. Sarmiento notes responding staff arrived and utilized physical force on [REDACTED] to subdue his active physical resistance. The supplemental report to the RVR indicates [REDACTED] willfully confessed to have battered Sgt. Sarmiento. It is noted in the report; [REDACTED] statements were unsolicited.

[REDACTED] alleges he told the ASU Captain that he was feeling suicidal due to the incident. Shortly thereafter, another member of the nursing staff walked in to interview him about his reported suicidality. Despite his report, Mr. [REDACTED] was not referred to a crisis bed unit. According to Dr. Topchyan, [REDACTED] was evaluated on November 20, 2019, and he did not meet the criteria for a higher level of care. Dr. Topchyan mentioned [REDACTED] was evaluated again on November 21, 2019, and he did not meet the criteria for referral to a higher level of care.

The videotaped interview related to this use of force incident was conducted pursuant to established CDCR policies and procedures. [REDACTED] was given the opportunity to describe his accounts of the incident. There is no established timeframe for how long the interview should last. It was noted [REDACTED] was not asked if he sustained any other injuries during the interview. This issue was addressed.

On December 1-2, 2019, a Lieutenant conducted an interview with [REDACTED] and afforded him the opportunity to review the complaint that he submitted. [REDACTED] reviewed his complaint and said that everything he needed to say was covered in the complaint and just wanted, "justice" for Sgt. Sarmiento's wrongdoing. The interview concluded as [REDACTED] had no additional information to provide or documentation to present.

The inquiry recommends closure based upon a conclusion that allegations by [REDACTED] lacks cause for further inquiry and this matter is deemed not sustained. Based upon the documentary review, and the information derived from the interviews attempted and conducted, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of [REDACTED]

Should you have any questions, please contact the undersigned at [REDACTED].

Thank you,

Thomas Nolan

Re: JULY 23, 2019 ARMSTRONG REPORT:

Dear Mr. Nolan:

This letter is in response to the allegations in your office's letter regarding alleged misconduct by correctional officer Chirinos against inmate [REDACTED] received from your office on July 23, 2019.

California State Prison-Los Angeles County (LAC) conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

[REDACTED] alleges the on March 22, 2019, Officer Chirinos searched his cell and threw the contents of the cell on the floor. [REDACTED] also alleges that the cell search receipt was falsified.

The California Department of Corrections and Rehabilitation takes every allegation made against the Department seriously, and as such, please be advised that LAC conducted an inquiry into these allegations by referencing various documents, databases, and records to procure all useful information regarding the allegations.

LAC conducted an inquiry into all of these allegations. During this inquiry, LAC reviewed documents contained in ERMS and SOMS. Specifically, Mr. [REDACTED] received a Rules Violation Report (RVR) for possession of alcohol. Correctional officer Chirinos found inmate

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan
Page 2

manufactured alcohol in [REDACTED] cell. Mr. [REDACTED] did not appeal this RVR. Mr. [REDACTED] has a history of RVRs for this same issue. Following policy, ISU also utilized other methods of investigation including looking at documents and records outside of ERMS and SOMS.

A review of [REDACTED] SOMS and ERMS disciplinary files show that there was a RVR log number 6736653 for Possession of Alcohol authored by Officer Chirinos on March 22, 2019. [REDACTED] questioned staff about the cell search receipt. Officer Romo-Munoz was asked if he signed the cell search receipt, Officer Romo-Munoz replied, "I signed it" and gave it to [REDACTED]. Officer Romo-Munoz was asked if he falsely filled out the cell search receipt, Officer Romo-Munoz replied, "We both searched the cell." The RVR hearing was held on April 23, 2019, [REDACTED] was found guilty. [REDACTED] was issued his final copies of the RVR on May 15, 2019.

Based upon the documentary review, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of Mr. [REDACTED].

Should you have any questions, please contact the undersigned at [REDACTED].

Thank you,

RE: JULY 23, 2019 ARMSTRONG REPORT:

Dear Mr. Nolan:

This letter is in response to the allegations in your office's letter regarding alleged misconduct by correctional officer Chirinos against inmate [REDACTED] received from your office on July 23, 2019.

California State Prison-Los Angeles County (LAC) conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

Mr. [REDACTED] [REDACTED] D5, DPO, reported that Officer Chirinos in the C5 Unit threatened him for a whole month in August 2018. On August 23, 2018 he was at the medical window and Officer Chirinos told him to go back to his cell. He pulled away and then Chirinos claimed he struck him. He was written up with battery on a peace officer and has been in ASU since that time. He said that Officer Chirinos has a history of beating up inmates, especially EOPs, SNYs, and those with disabilities. On August 25, 2018, officers in D5 Unit assaulted him in his cell in retaliation for his alleged assault on Officer Chirinos. He does not know the names of these officers, but says they were the first watch ASU staff.

The California Department of Corrections and Rehabilitation takes every allegation made against the Department seriously, and as such, please be advised that LAC conducted an inquiry into these allegations by referencing various documents, databases, and records to procure all useful information regarding the allegations.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

LAC conducted an inquiry into all of these allegations. During this inquiry, LAC reviewed documents contained in ERMS and SOMS. A review of institutional records reflects inmate ██████ filed an Inmate Appeal (CDCR 602) Log number LAC-D-18-04597 relevant to the allegation of Excessive and/or Unnecessary force, which occurred on August 23, 2018.

██████ alleges that Chirinos threatened him for a whole month in August 2018.

██████ identified two occurrences wherein he alleges to have been threatened by Officer Chirinos. ██████ failed to provide witnesses or documentation to corroborate his allegations. Additionally, ██████ allegations could not be corroborated through investigation. When requested to provide a witness to the alleged threats, ██████ either stated he was alone during the occurrence, or provided a reason why his witness did not directly observe the misconduct as alleged.

August 23, 2018 Incident

In his appeal, ██████ alleges on August 23, 2018 Correctional Officer R. Chirinos continued to tell ██████ to return to his cell. Inmate ██████ alleges Officer Chirinos grabbed inmate ██████ arm, pushed him, and punched him across the face with a closed fist. A thorough review was conducted associated with this appeal, which included staff and inmate witness interviews as well as a staff subject interview. ██████ was afforded a personal interview relevant to his appeal. ██████ elected to participate and was subsequently interviewed by a Correctional Sergeant. During the course of the interview, inmate ██████ reiterated the contents of his written appeal and provided no new information.

On October 4, 2018, a Correctional Lieutenant conducted a witness interview with a correctional officer relevant to the allegations made by inmate ██████. This correctional officer confirmed he conducted an unrelated escort from Facility D, Building 5 to Facility C, Building 5 and was present at the time of the incident. He observed ██████ take a swing at Officer Chirinos. Subsequently this correctional officer observed Officer Chirinos force inmate ██████ to the ground.

Injuries documented on the COCR 7219 dated August 23, 2018, are consistent with the staff's reports of force used and force observed. There were no injuries consistent with being kicked in the face documented on the CDCR 7219 dated August 23, 2018. Additionally, in the interviews following the initial interview, ██████ did not mention being kicked in the face.

One inmate interviewed regarding this incident stated that ██████ threw a punch at Officer Chirinos. Another inmate interviewed during this inquiry stated ██████ threw an elbow at Officer Chirinos after he was asked to return to his cell. Several other inmates declined to be interviewed regarding this matter.

Thomas Nolan

Page 3

During his interview, Officer Chirinos stated he was instructing [REDACTED] to return to his assigned housing. Officer Chirinos further stated inmate [REDACTED] was receptive initially, but [REDACTED] suddenly swung his arm striking Chirinos in the left shoulder. Chirinos stated he utilized physical force and then forced inmate [REDACTED] to the floor.

August 25, 2018 Incident

In his appeal [REDACTED] alleges on August 25, 2018, at approximately 0515 hours that [REDACTED] was sound asleep, Officers entered [REDACTED] cell and severely beat inmate [REDACTED] and used unnecessary force. Officers slammed [REDACTED] head to the cement, kicked inmate [REDACTED] repeatedly, drove knees into inmate [REDACTED] buttocks, and stated, "This is First Watch motherfucker we don't play this and this is for [REDACTED]". A thorough review was conducted associated to inmate [REDACTED] allegation, which included staff and inmate witness interviews. Inmate [REDACTED] elected to participate and was subsequently interviewed by a Correctional Lieutenant. During the course of the interview, Inmate [REDACTED] reiterated the contents of his written appeal and provided no new information.

Injuries documented on the CDCR 7219 dated August 25, 2018 and September 7, 2018, which were documented on the date of occurrence and prior to the use of force allegation videotaped interview associated with inmate [REDACTED] allegations of staff misconduct are inconsistent with the allegations made. No obvious visual trauma, bruising, or discoloration indicative of physical force was observed during the medical evaluation. No injuries consistent with being kneed in the back, head trauma, or a chipped and/or cracked tooth were documented on the CDCR 7219 dated August 25, 2018 or September 7, 2018. Additionally, [REDACTED] repeatedly changed his accounts of the incident, going back and forth between being asleep and unresponsive, and being awake and alert while utilizing a tablet.

During the August 25, 2018 incident, [REDACTED] covered his cell window, obstructing Officers view into the cell and was unresponsive to staff orders to remove the covering. Staff activated their personal alarm device, initiated Alarm Response and Emergency Medical Response, and made entry into [REDACTED] cell once sufficient staff arrived. [REDACTED] was placed into restraints pursuant to CDCR and local Policy relevant to Administrative Segregation Unit procedures. [REDACTED] was escorted to the Treatment Triage Area (TTA) where he was evaluated. [REDACTED] account of the incident and alleged injuries received were inconsistent with the CDCR 7219 relevant to his medical emergency.

Based upon the documentary review, and the information derived from the interviews attempted and conducted, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of Mr. [REDACTED]

Thomas Nolan

RE: ARMSTRONG V. NEWSOM: PLAINTIFF'S REPORT RE NOVEMBER 18-21, 2019
Monitoring Tour of California State Prison – Los Angeles County; Your File No. 0581-03

Dear Mr. Nolan:

I write to respond to your February 7, 2020, letter with a report including inmate [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). As to Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

- Mr. [REDACTED] D3, DPV, reported that in August 2019 he was feeding some birds on D-Yard when multiple officers came up to him and grabbed by the arms without warning. The officers...twisted his arms tightly and then walked him to the gym, where a sergeant came and asked him "What do you have to say for yourself?" Because [the officer] was vigorously twisting his arm, he reported that he squeezed out of the Officer's grasp and they told him he was resisting and that he "gave up all of his rights" when he was sentenced. [Another officer] then told him he would be let off with "a warning" and sent him go back to his cell without further incident.

In April 2020, an inquiry was opened based on the above allegations of staff misconduct.¹ An investigator completed review of all available documentation, including the Electronic Records Management System as well as all associated case factors. The investigator discovered that there was no incident package (837), staff complaint, appeal, or Rules Violation Report (RVR) associated

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

CONFIDENTIAL: FOR ATTORNEYS' EYES ONLY
SUBJECT TO PROTECTIVE ORDERS

Mr. Thomas Nolan
Page 2

this allegation of staff misconduct. The investigator initiated interviews with staff and an interview with Mr. [REDACTED]

The investigator noted that staff who had worked in the area where Mr. [REDACTED] was housed had no recollection of an incident involving Mr. [REDACTED] either feeding birds and subsequently escorting him off the yard to the Gymnasium, or in a use of force incident altogether in 2019. Staff also expressed that Mr. [REDACTED] has had a history of relatively little interaction with correctional staff and he "often stays within his assigned cell."

On April 26, 2020, Mr. [REDACTED] was interviewed to seek further information to help investigate his claim. He was unable to provide a specific date in August 2019 when the alleged incident took place. Mr. [REDACTED] stated he had no injuries from the interaction other than his wrist being sore. Further, in the interview, the investigator noted that Mr. [REDACTED] expressed that he felt the issue was resolved and his main concern was to continue to receive his mental health therapy. Mr. [REDACTED] also indicated that he gets along well with staff on Facility D and he has no issue with continuing to program at LAC.

In summary, the inquiry into the above listed allegations resulted in a recommendation by the investigator that there was insufficient evidence to support Mr. [REDACTED] allegations of staff misconduct and no further investigation is warranted at this time. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

RE: APRIL 29, 2019 COLEMAN LAC REPORT:

Dear Mr. Nolan:

This letter is in response to the allegation in the April 29, 2019, the California State Prison - Los Angeles County (LAC) report regarding the Coleman class action.

California State Prison-Los Angeles County (LAC) conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

██████████ reported that he attempted suicide sometime in early March 2019. 1w Officers discovered him, cut him down. One of the officers reportedly threatened him "don't say anything [to nursing staff]. We will talk to them." Officers claimed that he had been found unresponsive on the floor of his cell.

██████████ reported that the day after he attempted suicide Clinician Ms. Parker asked him, "Do you have a desire to die right now?" He replied yes." However, Ms. Parker decided to clear him anyway.

A review of institutional records reflects ████████ did not file an Inmate Appeal relevant to the allegation of staff misconduct, which occurred on February 23, 2019. ████████ did file a Health Care Grievance (CDCR 602 HG) Log number LAC-HC-19-000829 relevant to the allegation of

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

misconduct, which occurred on February 23, 2019. [REDACTED] made a request to have Dr. Chadorch and Dr. Parker's actions investigated. A thorough review was conducted of Dr. Topchyan's inquiry associated with [REDACTED]. [REDACTED] elected not to be interviewed in regards to his grievance by not initialing the appropriate portion of the CDCR-602 HC form.

In response to [REDACTED] HC appeal, LAC stated that his, "health care record is considered legal documentation, as such all documents entered into your health record are permanent and may not be removed. Per the Inmate Medical Services Policies and Procedures, Volume 13, Chapter 13. 7, Patient Privacy Rights Policy, patients have the right to request that California Correctional Health Care Services amend their Personally Identifiable Information/Protected Health Information in their health record. All requests for amendments shall be made in writing and submitted to Health Information Management staff."

Dr. Parker conducted the SRE relevant to [REDACTED] attempted suicide on February 23, 2019. A personal alarm device was activated at approximately 0154 hours on Facility 'D', Building 5. The nature of the emergency was noted as an unresponsive inmate in [REDACTED], which was solely occupied by [REDACTED]. [REDACTED] was subsequently observed on the ground in his cell with his hands and feet tied together. Additionally, [REDACTED] was observed to be conscious and breathing. No ligature marks were observed on [REDACTED] neck, no obvious or possible trauma was observed to [REDACTED] neck area, and no noose was observed or discovered at any time during or after the response to this medical emergency. No evidence of a possible hanging were discovered at any time. [REDACTED] was rehoused and placed on Suicide Watch by the Psychiatrist on Call. [REDACTED] made the following unsolicited self-admission to Dr. Parker during the SRE interview, "I was planning to hang myself, made a noose and everything, but then I blacked out and can't remember what happened. All I remember is that I was preparing to tie my hands and feet, but then I blacked out and when I came to it, custody was on my back, telling me not to move."

[REDACTED] refused to exit his cell or participate in the interview regarding these allegations. The attempt to interview Inmate [REDACTED] along with Inmate [REDACTED] refusal was documented on a CDC-1288 Informational Chrono.

Based on the information obtained during this inquiry, which included interviews with [REDACTED] and one other inmate who was housed in a neighboring cell at the time of the incident, a review of Health Care Grievance Log number LAC-HC-19-000829, Suicide Risk and Self-Harm Evaluation, and all associated case factors, ISU concluded the allegations of staff misconduct relevant to both of these allegations are without merit and should be closed.

Based upon the documentary review, and the information derived from the interviews attempted and conducted, LAC will be closing the inquiry into the allegation(s) presented in the Report as presented on behalf of Mr. [REDACTED]

Thomas Nolan

RE: *ARMSTRONG V. NEWSOM: PLAINTIFFS' REPORT RE MAY 21-24, 2019 MONITORING TOUR OF CALIFORNIA STATE PRISON – LOS ANGELES COUNTY, YOUR FILE NO. 0581-03*

Dear Mr. Nolan:

I write to respond to your July 16, 2019, report regarding inmate [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). To summarize Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

- Mr. [REDACTED] said that he was assaulted by multiple correctional officers on June 13, 2017.
- Mr. [REDACTED] reported on May 21, 2019 that officers continually call him "Coleman Snitch" because of the role he played in testifying in the 2013 Enforcement Hearings in *Coleman v. Newsom*.
- Mr. [REDACTED] reported that officers on second watch regularly abuse and use excessive force against mentally ill prisoners.
- Mr. [REDACTED] also reported that multiple prisoners in the EOP hub are ignored after they engage in self-harm.

In March 2020, a new inquiry was opened based on the above allegations of staff misconduct.¹ An investigator completed review of all available documentation, including multiple incident reports, the incident commander review, manager's review, and the Institutional Executive Review Committee (IERC) review, as well as relevant past inquiries related to the Appeal and allegations of staff misconduct. The investigator initiated interviews with inmates, including a new interview with Mr. [REDACTED]

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

The investigator noted that prior to receipt of your report and in June of 2017, Mr. [REDACTED] submitted a 602 Appeal to the LAC Inmate Appeals Office alleging multiple instances of staff misconduct. The Appeal filed by Mr. [REDACTED] was relative to the incident requiring Use of Force (UOF) on or about June 13, 2017 and reviewed by the investigator in March 2020. A verbal allegation of unnecessary or excessive force was made by Mr. [REDACTED] at the time of the UOF and he was promptly interviewed. A report of findings was generated. In the findings, it noted that Mr. [REDACTED] admitted to being resistive and to "cussing out" a correctional officer. An inmate interviewed in March of 2020 about the incident recalled Mr. [REDACTED] not being completely cooperative with staff and stated "They didn't rough him up like he said they did." The 7219 Medical Report of Injury form (7219) reflected Mr. [REDACTED] sustained injuries consistent with the reported use of force. The IERC noted one discrepancy in filing paperwork per the Department Operations Manual, and that was by an officer who had been taken to an outside medical facility for assessment of his injuries from the June 13, 2017 incident. Several staff received injuries during the incident. The response by officers was noted as being within expected policy under the circumstances.

In March 2020, the investigator interviewed several inmates who were housed in the area where Mr. [REDACTED] was housed during the timeframe of his allegations. None of the inmates to corroborated Mr. [REDACTED] allegation of being called a "Coleman Snitch" by staff.

On or about March 11, 2020, Mr. [REDACTED] was offered an additional opportunity for an interview with the investigator to provide any additional information to support his allegations. Mr. [REDACTED] participated in a recorded interview at that time. The investigator noted that Mr. [REDACTED] statements in the interview were in direct contradiction with his past interviews and with the documentation, he provided for his appeal.

As to the allegation that officers on second watch regularly abuse and use excessive force against mentally ill prisoners, Mr. [REDACTED] was interviewed to seek further information to help investigate his claim. He was unable to provide specific examples; however, he did state that his attorney had a list of victims of excessive force. Multiple inmates were interviewed in March 2020 and there was no corroboration for the allegations of regular abuse and excessive force against mentally ill prisoners.

Regarding the allegation of staff ignoring prisoners who engage in self-harm in the EOP, multiple interviews were conducted. In addition, there were several inquiries that had been performed subsequent to concerns raised by Plaintiffs' counsel in prior years. Those inquiries resulted in no findings of misconduct. The most recent inquiry, in March 2020, resulted in identifying one

inmate who completed suicide in August 2017. The investigator noted the incident was thoroughly investigated by the Office of Internal Affairs and the Healthcare Suicide Investigation Team. The investigator found that there was no information indicating that the inmate who completed suicide expressed any suicidal ideations to staff, and thus, there was no finding of staff ignoring inmates who engaged in self-harm.

In summary, the inquiry into the above listed allegations resulted in a recommendation by the investigator that there was insufficient evidence to support Mr. [REDACTED] allegations of staff misconduct. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

RE: *ARMSTRONG V. NEWSOM: PLAINTIFFS' REPORT RE MAY 21-24, 2019*
MONITORING TOUR OF CALIFORNIA STATE PRISON – LOS ANGELES COUNTY;
YOUR FILE NO. 0581-03

Dear Mr. Nolan:

I write to respond to your July 16, 2019, letter with a report including inmate L. [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). As to Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

- Mr. [REDACTED] reported on December 18, 2018 that [an officer] in the D4 Unit took all of his DMEs from him on December 1, 2018, including his TENS unit, nasal inhaler, therapeutic boots, and braces. According to Mr. [REDACTED] multiple officers, who hit him in the back, knees, and chest, then assaulted him.

In March 2020, an inquiry was opened based on the above allegations of staff misconduct.¹ An investigator completed review of all available and relevant documentation, including but not limited to the Incident Packet, 602 Inmate/Parolee Appeal form (602) and file, Rules Violation Report (RVR), and the Reasonable Accommodation Request form (1824) as well as all associated case factors.

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Thomas Nolan

Page 2

The investigator reviewed the Incident Packet and the associated documents, as well as the Report of Findings and the recorded interviews. Officers reported the incident and noted Mr. [REDACTED] was resistive on December 1, 2018. The Medical Report of Injury or Unusual Occurrence (7219) was completed and the 7219 noted a scratch on the right shin and lower back pain. The investigator noted these injuries were consistent with the reported use of force, and did not reflect any injuries consistent with being punched by five to seven officers. Notably, Mr. [REDACTED] later stated he already had what he described as severe back pain before he chose to resist being taken back to his building.

On December 21, 2018, Mr. [REDACTED] was video interviewed after CDCR received his allegation of unnecessary or excessive force. During the video interview, Mr. [REDACTED] admitted that he did not want to go back to his building and he decided to fall in order to avoid going back to his cell. He was placed into a wheelchair, where the investigator noted he states he purposefully left the wheelchair and went to the ground. When officers responded, Mr. [REDACTED] grabbed the nearby chain link fence to avoid being handcuffed. He was repeatedly instructed to stop resisting and only ceased resisting due to back pain. He stated, "I quit resisting after that." The 7219 completed on December 21, 2018 showed no visible injuries.

Mr. [REDACTED] was later telephonically interviewed as part of an appeal inquiry into this matter on January 11, 2019. Mr. [REDACTED] was unable to provide names of witnesses. Four inmates who were working in the area at the time were identified by CDCR and interviewed. None were able to provide information that would confirm the allegations.

Mr. [REDACTED] did receive an RVR for Resisting Staff (6120668) and was found Guilty. The penalty was not applied, as the RVR did not meet time constraints.

As to the reported missing Durable Medical Equipment, Mr. [REDACTED] received a response from the Reasonable Accommodation Panel (RAP). The RAP noted on December 18 and December 24, 2018, Mr. [REDACTED] had been medically evaluated and there was no medical indication for most of the items he stated he needed at that time. Those items were wrist, knee, and ankle braces, a TENS unit, walker, and orthopedic shoes. Mr. [REDACTED] was granted an inhaler refill per his medical condition.

///

///

Mr. Thomas Nolan

Page 3

In summary, the inquiry into the above listed allegations resulted in a recommendation by the investigator that there was insufficient evidence to support Mr. [REDACTED] allegations of staff misconduct and no further investigation is warranted at this time. CDCR has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

RE: *ARMSTRONG V. NEWSOM: PLAINTIFFS' REPORT RE MAY 21-24, 2019*
MONITORING TOUR OF CALIFORNIA STATE PRISON – LOS ANGELES COUNTY;
YOUR FILE NO. 0581-03

Dear Mr. Nolan:

I write to respond to your July 16, 2019, letter with a report including inmate [REDACTED] who alleges staff misconduct at California State Prison – Los Angeles County (LAC). As to Mr. [REDACTED] allegations of staff misconduct, the following was extracted from the report:

- Mr. [REDACTED] reported on August 27, 2018 that Officers in the D4 EOP Unit refused to provide him with assistance when he was experiencing severe chest pains.

In March 2020, an inquiry was opened based on the above allegations of staff misconduct.¹ An investigator completed review of all available and relevant documentation, including the Strategic Offender Management System, appeals, and the Reasonable Accommodation Request form (1824) as well as all associated case factors. The investigator noted that the 1824 was filed on September 4, 2018, and referred to the allegation of staff misconduct from August 27, 2018. The 1824 was reviewed by the Reasonable Accommodation Panel on September 11, 2018, was deemed a potential staff complaint, and was subsequently referred to the Inmate Appeals Office for inquiry under the staff complaint process (Appeal # LAC-D-18-04532).

¹ SAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Thomas Nolan

Page 2

On March 16, 2020, the investigator reviewed the above noted appeal file, which included several interviews and resulted in a finding of no violation of policy. In fact, Mr. [REDACTED] elected to withdraw the appeal. Additionally, the investigator noted that Mr. [REDACTED] had been attempting to have medical staff deliver his medication to his cell door rather than walking to the Facility D medical clinic himself. Mr. [REDACTED] was subsequently counseled in 2018 for this behavior as well as for filing false claims.

On March 17, 2020, Mr. [REDACTED] was interviewed telephonically to seek further information to help investigate his claim. Mr. [REDACTED] reiterated his claim but was unable to identify officers who he stated did not believe his claims of chest pain. Mr. [REDACTED] repeatedly asked for the names of the officers on duty that day from the investigator. Once informed of officers who were on duty at that time, Mr. [REDACTED] then selected the names of officers he said he informed, but those particular officers were in the control booth and inside the office during the alleged event and would not have been accessible to Mr. [REDACTED]. When confronted with this discrepancy, Mr. [REDACTED] stated he actually informed the inmate porters on duty, who in turn informed the officers. As noted by the investigator, Mr. [REDACTED] stated he filed an appeal regarding the events of August 27, 2018, which he stated was still pending and for which he did not recall being interviewed. The investigator informed Mr. [REDACTED] that the appeal file documented an interview where Mr. [REDACTED] decided to withdraw the appeal based on a resolution of his issues with the officers identified. Mr. [REDACTED] informed the investigator that, as a result of the officers' refusal to provide medical assistance, later in the evening of August 27, 2018, he "received Nitroglycerin and was sent to an outside medical facility "911" in the city of Bakersfield for higher level of medical care." The investigator noted in his report that there was no corroborating documentation to support that Mr. [REDACTED] was transported to an outside medical facility as he claimed. The investigator noted that Mr. [REDACTED] contradicted his earlier account of events and appeared to be deceptive in his responses.

On or about March 18, 2020, the investigator initiated interviews with other inmates identified by Mr. [REDACTED] as those he informed of his chest pain. The interviews with other inmates who were on the housing unit on the date Mr. [REDACTED] said the incident occurred were unable to corroborate Mr. [REDACTED] account of events. In fact, one inmate stated he had "never witnessed any officers in D4 refuse any inmate medical assistance."

Re: Coleman LAC Report (April 29, 2019):

Dear Mr. Nolan:

This letter is in response to the allegations in your office's letter regarding alleged misconduct by correctional officer Lee received from your office on April 29, 2019 regarding inmate [REDACTED]

California State Prison-Los Angeles County ("LAC") conducted an inquiry¹ into the allegations raised in your office's letter, as follows:

"[REDACTED] stated that C5 Officer Lee called him a "nigger" on February 28, 2018 while he was housed in that unit."

The California Department of Corrections and Rehabilitation takes every allegation made against the Department seriously, and as such, LAC conducted an inquiry into these allegations by referencing various documents, databases, and records, as well as by conducting interviews, where appropriate, to procure information regarding the allegations.

During the inquiry, LAC reviewed appeal #LAC-C-18-01307, an appeal filed by inmate [REDACTED] covering the same alleged incident. In the appeal, which was never withdrawn, inmate [REDACTED] indicated only one potential witness (other than Lee and [REDACTED] a correctional officer, who did not corroborate the inmate's claims.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

In an attempt to identify potential inmate witnesses, LAC reviewed inmate [REDACTED] work assignment rosters from the relevant timeframe. LAC interviewed five inmates in February of 2020 whose work positions made it more likely that they would have been within earshot during the alleged incident. None of the inmates could corroborate the allegations of inmate [REDACTED]

In June of 2020, inmate [REDACTED] was interviewed and was unable to provide any additional witnesses or other corroboration.

Based upon the documentary review, and the information derived from the interviews, LAC will be closing the inquiries into the allegation(s) presented in the Report as presented on behalf of inmate [REDACTED]

Should you have any questions, please contact the undersigned at 916-324-1421.

Thank you,

Dear Mr. Nolan:

This status letter is in response to your March 27, 2020, letter containing various allegations of staff misconduct targeting inmate [REDACTED] at the California State Prison – Los Angeles County (LAC).

The California Department of Corrections and Rehabilitation takes every allegation serious, and as such, LAC conducted an inquiry¹ into the allegations raised in your letter. LAC staff checked with the Office of Appeals and it was determined that inmate Robinson did not file a staff complaint or appeal concerning these allegations.

Staff reviewed incident log #LAC-D03-19-12-1095 concerning an incident that took place involving inmate [REDACTED] on December 20, 2019. Contrary to inmate [REDACTED] statement that he had time left on his call as part of his allotted phone time, inmate [REDACTED] was not approved for telephone use on December 20, 2019. [REDACTED] became verbally confrontational when staff asked him to get off of the inmate telephone, refused to return to his cell, and refused to be cuffed. Inmate [REDACTED] then punched Officer Mobely in the face causing injuries. Officer Chavarria responded to the assault on Officer Mobely and utilized physical force to subdue inmate [REDACTED] attack on officers. During [REDACTED] continued resistance, force was utilized to take him to the ground and restrain him. Inmate [REDACTED] was issued a Rules Violation Report (RVR) for Battery on a Peace Officer.

LAC staff reviewed the Medical Report of Injuries (CDCR 7219) for Officer Mobely, Officer Chavarria, and inmate [REDACTED]. Officer Mobely sustained pain and swelling to the left side of the face, pain and swelling on his left arm, right knee, and left knee. Officer Mobely's injuries are consistent with being punched in the face and the ensuing struggle to control a physically

¹ LAC conducted the fact-finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

assaultive inmate. Officer Chavarria sustained damage to the right side of his face causing active bleeding and pain, and a bruised and discolored right wrist. Inmate [REDACTED] sustained an abrasion/scratch on his right elbow, and a swollen area on the fingers of his left hand.

As indicated above, inmate [REDACTED] was issued an RVR for Battery on a Peace Officer. [REDACTED] was found guilty as charged. LAC staff then reviewed the LAC Institutional Executive Review Committee (IERC) Use of Force package and it was determined that staffs' actions were appropriate and in compliance with Departmental Use of Force policy. Inmate [REDACTED] refused to participate in a video recorded interview concerning the injuries he sustained during the incident.

LAC staff reviewed the Facility D, Housing Unit 3, Inmate Telephone List and confirmed that inmate [REDACTED] was not approved for a telephone call on December 20, 2019. LAC staff interviewed inmate [REDACTED] as part of this inquiry. During the interview, inmate [REDACTED] gave substantially similar allegations as those outlined in your letter. Inmate [REDACTED] confirmed that he resisted officers by forcing his hands under his stomach as he was face down on the ground. LAC staff also interviewed inmates [REDACTED]. All have differing versions of the incident. Inmate [REDACTED] indicated the inmate [REDACTED] was punched 75-100 times, Inmate [REDACTED] indicated that inmate [REDACTED] was punched 30-50 times, and inmate [REDACTED] indicated that [REDACTED] was punched 13-14 times by staff. The incident package indicates that inmate [REDACTED] was punched two times in order to stop his attack. The injuries sustained by inmate [REDACTED] and Officers Mobely and Chavarria are consistent with the Officers' recollection of the incident. Inmate [REDACTED] suffered a swollen left hand and an abrasion on his right elbow. Inmate [REDACTED] suffered no injuries to his head or facial area during the incident in question. LAC staff determined that the allegations that Officer Chavarria "suddenly punched Mr. [REDACTED] in the face" and "Officer Mobely began punching Mr. [REDACTED] as well, striking him hard in the face and body" are not supported by the evidence. The injuries sustained by inmate [REDACTED] are consistent with staff reports indicating they had to use physical force and body weight to force inmate [REDACTED] to the ground to stop his attack on officers.

LAC staff determined that the allegations contained herein lack cause for further investigation and are deemed to be not sustained. LAC has closed the inquiry into this matter.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

Dear Ms. Trapani:

This status letter is in response to your March 27, 2020, letter containing various allegations of staff misconduct targeting inmate [REDACTED] at the California State Prison – Los Angeles County (LAC).

The California Department of Corrections and Rehabilitation takes every allegation serious, and as such, LAC conducted an inquiry¹ into the allegations raised in your letter. LAC staff determined that inmate [REDACTED] filed an inmate appeal (LAC-D-19-04923) relevant to the allegation of excessive and/or unnecessary force. Inmate [REDACTED] appeal was referred to the Office of Internal Affairs for further investigation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

tnolan@rbgg.com

Dear Mr. Nolan:

This letter is in response to your July 16, 2019, letter containing various allegations of staff misconduct targeting *Coleman* and *Armstrong* class members at the California State Prison – Los Angeles County (LAC).

CDCR takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

██████████ DPO, ██████████, also reported a disturbing use of force incident that occurred in early April 2019. When he arrived to LAC from RJD on April 10, 2019, he was placed into the ASU building without any of his property. He told one of the officers in the building that he needed his testosterone shot and his morphine, but was told that they did not have the testosterone shot and that his morphine had been discontinued. He began to suffer withdrawals from morphine and broke the windows in his cell, so staff took him out of his cell and placed him in a holding cage. After he was placed in the cage, he continued to inform officers of his withdrawals, to which the 3rd Watch Sergeant told him “fuck you man.” He grew frustrated and began to kick the door of his holding cell, so the Sergeant opened the cell door, put a lock around his fist to form makeshift brass knuckles, stepped on Mr. ██████████’s bad foot, and said challengingly “kick me, motherfucker, kick me.” During this altercation, the Lieutenant walked around the corner, saw what was happening, and spun on his heel to leave the vicinity without intervening. The Sergeant then shut and locked the cage, leaving Mr. ██████████ there for the next three hours. Then two officers came, retrieved Mr. ██████████ and placed him in ██████████ which was covered in feces. He was left in that cell for five days and did not receive any cleaning supplies the whole time. He filed a staff misconduct appeal about these events, but as of the time of his interview on May 23, 2019 had yet to receive a response or a log number.”

LAC conducted an inquiry into this matter by referencing various documents, databases, records, and interviews. LAC staff interviewed inmate ██████████ in an attempt to gather additional details

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department’s Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

concerning the allegations. Unfortunately, inmate [REDACTED] recollection of the alleged event remains thin on detailed facts and differs from the allegations he made to the PLO. Inmate [REDACTED] indicated the following:

"They kept fucking with my meds, and fucking with my meds. Me and this cop or Sergeant already had issues the first night I got there over my meds. I knocked the windows out. So he comes and gets me one day, cause my meds were fucked up again. My whole left side is metal. So, if I don't have something for pain, I'm in pain. So, when I'm in pain, I want you to be in pain too, make sense? So he comes to my cell and gets me, and takes me to a holding cell chained up in a chair, puts me in a cage, and I asked him what's this about. He told me fuck you. I said huh. So, I started kicking the door. He opened the door up, put the Jock around his hand, put it in his fist, and said kick me mother fucker, kick me motherfucker. I told him, you are not even going to give me a chance."

LAC staff contacted the Inmate Appeals Office and there were no appeals relevant to this allegation. Next, staff contacted the Health Care Grievance Coordinator and there was no health care grievance relative to these allegations.

The Notice of Unusual Occurrence/Incident (NOU) indicates that on April 10, 2019, at 1800 hours, inmate [REDACTED] used the armrest from his wheelchair to break the windows on his ADA cell door. Staff then relocated inmate [REDACTED] from the broken window cell to a holding cell. Inmate [REDACTED] was interviewed and he indicated he was upset because he had not received his medication. [REDACTED] then began kicking the holding cell door and screaming for his Morphine and Victoza shot.

The Rules Violation Report indicates that on April 10, 2019, 1800 hours, a Psychiatric Technician informed [REDACTED] that she had his medication, but did not have the proper needle to administer it. At that moment, [REDACTED] became angry and began kicking the door, picked up the armrest, and struck the door windows shattering both of them. Medical staff obtained the correct needle and administered the medication.

In his allegation, inmate [REDACTED] alleges "he comes and gets me one day, cause my meds were fucked up again." Inmate [REDACTED] makes a clear distinction between the night that he bashed out the windows of the ADA cell with the armrest from his wheelchair and the day the Sergeant allegedly pulled him out of his cell and threatened him. Inmate [REDACTED] allegations are inconsistent with the documentation surrounding the cell move.

Lastly, inmate [REDACTED] alleges that the Lieutenant observed the misconduct and failed to intervene. During the interview, inmate [REDACTED] explained that the Lieutenant that witnessed the incident is the same individual that interviewed him for a Rules Violation Report for breaking the cell windows. LAC staff determined that Lt. Varela is the staff member inmate [REDACTED] identified as failing to intervene on April 10, 2019, at 1800 hours. However, Lt. Varela was not working in Z Wing on the night of the incident. Lt. Varela worked on Facility C on April 10, 2019, and left work at 1730 hours.

LAC staff determined that the allegations contained herein lack cause for further investigation and are deemed to be not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

tnolan@rbgg.com

Dear Mr. Nolan:

This letter is in response to your July 16, 2019, letter containing various allegations of staff misconduct targeting *Coleman* and *Armstrong* class members at the California State Prison – Los Angeles County (LAC).

The California Department of Corrections and Rehabilitation takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

"██████████ EOP, ██████████, reported that he attempted suicide on July 18, 2018 and was beaten up by guards on C-Yard as a result. He reported that this incident severely impacted his mental health and that he was severely depressed as a result. Rather than treat his appeal as a staff misconduct problem or convert it to a 602-SM, the RAP merely told him to file a new 602-SM about the incident."

LAC conducted an inquiry into this matter. LAC staff reviewed the Crime Incident Report that documented inmate ██████████ act of Battery on Staff resulting in the use of force (LAC-CYRD-18-07-0608). Reports indicate that staff observed inmate ██████████ wobbling, stumbling, and having slurred speech. Staff placed inmate ██████████ into restraints and began to escort him to medical. Inmate ██████████ became resistive and staff had to take him to the ground to regain control. While on the ground inmate ██████████ continued to twist his body around, kick and spit at officers. A spit mask was utilized to protect staff from the bodily fluids.

¹ LAC conducted the fact-finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

Inmate [REDACTED] was then placed in a wheelchair to be transported to medical, he continued to resist, and placed his feet on the floor attempting to stand. Once at the cell door, [REDACTED] continued to resist and kick and spit at custody staff. The incident was reviewed at the Incident Commanders level, First Level Manager, Second Level Manager, and by the Institutional Executive Review Committee. The use of force was deemed to be within policy and no further action was warranted.

During his Rules Violation Report hearing, inmate [REDACTED] indicated the following: "There was a death in my family. I had about a gallon of white lightening. I don't remember what happened." As part of this inquiry, staff interviewed inmate [REDACTED]. Inmate [REDACTED] recalls being interviewed by the Prison Law Office (PLO), but does not recall what he told the PLO and does not recall making any allegations of excessive or unnecessary use of force. Inmate [REDACTED] remembers July 18 as it is his wife's birthday and he drank a gallon of white lightening because he was really depressed and thought of committing suicide because he was "in a bad way" due to a death in his family. Inmate [REDACTED] stated, "It wasn't about any staff it was about what I was going through mentally and emotionally." When asked whether he made any allegations about staff using excessive force, inmate [REDACTED] stated "no."

LAC staff also interviewed two inmate workers that were on the yard on the day in question and neither could remember such an incident occurring.

LAC staff determined that the allegations contained herein lack cause for further investigation and are deemed to be not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

tnolan@rbgg.com

Dear Mr. Nolan:

This letter is in response to your March 11, 2020, letter containing various allegations of staff misconduct targeting *Coleman* and *Armstrong* class members at the California State Prison – Los Angeles County (LAC).

CDCR takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

██████████ Z1, DPM, reported serious staff misconduct problems on C-Yard. In March 2019, while housed in the C3 Unit, Mr. ██████████ overheard Officer De La Torre inform other incarcerated people in the unit (who were allegedly part of the 25ers) that Mr. ██████████ is incarcerated for a sex offense. Mr. ██████████ also reported that he heard Officer De La Torre tell the gang members “When you stab him, stab towards the heart.” Fearing for his life, Mr. ██████████ told Sergeant Espino later that day that he felt suicidal, but that the sergeant ignored his request for help. He reports that he then told other officers that he had safety concerns and asked to be placed in segregation, but that they also refused to help him. He reported that, in his panic, he decided his only way to get to safety was to attack a random incarcerated person on the yard, so that he would be placed into segregation. He reported that he then assaulted another individual on the yard; while this assault successfully moved him to safety, he is now facing serious charges of assault with a deadly weapon. Neither his assault nor the pending charges would have occurred without officers’ assistance and indifference to his safety concerns.”

LAC conducted an inquiry into this matter. LAC staff reviewed the Crime Incident Report and it indicates inmate ██████████ was observed pursuing another inmate swinging his right hand toward the inmate’s facial area. The victim of inmate ██████████ attack received 22 sutures to close the lacerations on his right check and neck. Staff conducted a review of the inmate appeal (#LAC-C-19-03947) inmate ██████████ submitted containing similar allegations to those presented here. There was no evidence to support ██████████ allegations so the appeal was subsequently denied.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department’s Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

While previously housed at MCSP, inmate [REDACTED] made almost identical allegations as those alleged here (i.e. staff divulged commitment offense). The MCSP appeal was denied.

Staff reviewed the Strategic Offender Management System (SOMS) and Electronic Records Management System (ERMS). While [REDACTED] was housed at MCSP, staff generated a CDCR 128B for Manipulation of Staff regarding non-specific safety concerns due to [REDACTED] falsifying suicidal ideation. [REDACTED] indicated "it was the best way to get off the yard." [REDACTED] also appears to have a history of refusing to accept assigned housing and possibly attempts to manipulate his housing placement by various means.

LAC staff reviewed the Rules Violation Report (RVR) for Battery on a prisoner with a deadly weapon and resulting mental health assessment that was completed. During the mental health assessment, [REDACTED] never made mention of the allegations about staff to the clinician.

On April 6, 2020, LAC staff interviewed inmate [REDACTED] regarding his allegations. [REDACTED] described the allegations as alleged by RBGG, but indicated the events took place in April 2019. When asked how sure he was that staff showed his case factors to other inmates, [REDACTED] indicated he was not 100 percent sure. When asked whether he had issues with the Security Threat Group 25ers, [REDACTED] indicated he has.

Although [REDACTED] seems confused as to when alleged events took place and lacks detail, his inmate appeal indicates he stated that correctional staff showed his case factors to other inmates on April 24, 2019. In his allegation to the PLO, [REDACTED] alleges he "told Sergeant Espino later that day that he felt suicidal, but that the sergeant ignored his request for help." LAC staff confirmed through the Telestaff assignment system that Sergeant Espino was not on duty on April 24-25, 2019, therefore Sergeant Espino could not have ignored inmate [REDACTED] alleged request for help.

LAC staff determined that the allegations contained herein lack cause for further investigation and are deemed to be not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

tnolan@rbgg.com

Dear Mr. Nolan:

This letter is in response to your April 10, 2019, letter containing various allegations of staff misconduct targeting *Coleman* class members at the California State Prison – Los Angeles County (LAC).

CDCR takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

“Another patient who requested to remain anonymous for fear of retaliation told us that his mental health clinician in the ASU EOP Hub divulged confidential information he had shared in a 1-on-1 to custody staff.”

Despite the fact that the allegation is anonymous and lacks critical information, LAC conducted an inquiry into this allegation. LAC staff conducted a tour of Facilities C, D, and the Administrative Segregation Unit to observe medical and custody staff and to determine what, if any, confidential medical information is being shared. The LAC health care grievance coordinator indicated that they did not receive any appeals alleging mental health staff were divulging confidential inmate-patient information to custody staff.

LAC staff referenced various documents, databases, and records, including a housing review of housing unit D5. Staff identified inmates that were housed in D5 during the time period in question and interviewed them to gather any possible relevant information concerning the allegation.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

One inmate housed in D5 during the time in question was interviewed on April 15, 2020. LAC staff specifically asked this inmate if he ever suspected his mental health doctor of divulging confidential information. This inmate stated, "No, none of the mental health staff have ever given me that kind of impression."

Another inmate housed in D5 during the time in question was interviewed on April 15, 2020. This inmate was asked whether he had the impression that mental health staff would divulge confidential inmate-patient information to custody staff. This inmate state, "No, I never experienced that."

The inquiry determined that there is not sufficient evidence to support the allegation, and as such, the allegation was not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

Dear Mr. Nolan:

This letter is in response to your April 10, 2019, letter containing various allegations of staff misconduct targeting *Coleman* class members at the California State Prison – Los Angeles County (LAC).

CDCR takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

"██████████, reported that he arrived to LAC from MCSP at around 2:30 p.m. on Friday, November 30, 2018. Mr. ██████████ was at the EOP level of care at the time. Mr. ██████████ reported that when he arrived at LAC, he told custody staff that he would not cell up with anyone due to his paranoia and history of in-cell fights. He was then placed into a holding cell. Within two minutes of being placed into the holding cell, Sergeant P. Carranza arrived and asked Mr. ██████████ why he was refusing to house. After Mr. ██████████ reiterated he did not want a cellmate, Sergeant Carranza reportedly said, "You're giving me a battery, you're not going to Ad-Seg without one!" Mr. ██████████ was then evaluated by a nurse in the holding cage. During the evaluation, Lieutenant A. Galaviz arrived and moved Mr. ██████████ to the back of R&R to a holding cage. During the transport, Lieutenant A. Galaviz reportedly said "this guy's going to get his ass beat!" Once in the holding cage, the Lieutenant again told Mr. ██████████ "you're giving us a battery." Mr. ██████████ responded "I don't have to prove anything to you, so go ahead and beat me up." The Lieutenant reportedly replied "you're not going to have a mark on you, but you're giving me a battery ... you're gonna give me a battery, I'm gonna bash my head on this

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department's Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

cage or better yet I'll have one of my officers come punch me in the face. Who do you think they're gonna believe – a lieutenant with 25 years or some punk convict, wait you're not even a convict, a punk inmate! I'll make sure you spend the rest of your life in here." Mr. [REDACTED] did not clarify in his report to us what happened immediately after this exchange. Ultimately, it appears Mr. [REDACTED] was placed into segregation, where he remained until he was moved to a different cell on D-Yard a few days later."

An inquiry was opened by LAC regarding this allegation. Two inmates identified as being in Receiving and Release during the time of the alleged incident were interviewed. Both inmates indicated that they did not observe or overhear Sergeant Carranza or Lieutenant A. Galaviz make the statements as alleged. Two additional inmates that were identified as arriving at LAC on the date of the alleged incident (November 30, 2018), were interviewed as well. One of the inmates refused to participate and the other indicated that he did not recognize inmate [REDACTED] did not remember arriving at LAC on November 30, 2018, and then elected not to participate in the interview. On February 18, 2020, LAC staff interviewed inmate [REDACTED] and he confirmed that he did not report the alleged incident to CDCR. LAC staff confirmed there is no inmate appeal or medical report of injury related to inmate [REDACTED] allegation.

LAC reviewed documents, databases, and records, including notes from the initial housing review and Administrative Segregation Unit Placement Notice. The CDCR 128B containing notes from the initial housing review indicate that inmate [REDACTED] stated he could not program safely on Facility D EOP. Specifically, [REDACTED] feared for his life claiming he would batter the first inmate on Facility D, considering all inmates his enemy. Inmate [REDACTED] was subsequently placed in ASU for threatening another inmate.

Inmate [REDACTED] has a history of refusing to accept assigned housing. During a disciplinary hearing related to a RVR dated 09/19/18, inmate [REDACTED] indicated that his refusal to accept assigned housing is not based on any safety or enemy concerns, but it is instead due to his aversion to housing with "chomos, rapists, and gays."

The evidence gathered during the inquiry does not support or substantiate inmate [REDACTED] allegation, and as such, this allegation was not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

Sincerely,

/s/ Michael Mueller

Dear Mr. Nolan:

This letter is in response to your April 10, 2019, letter containing various allegations of staff misconduct targeting *Coleman* class members at the California State Prison – Los Angeles County (LAC).

CDCR takes every allegation serious, and as such, LAC has conducted an inquiry¹ into the numerous allegations raised in your letter. This response specifically addresses the following allegation from your letter:

“Another class member who requested to remain anonymous reported that Hispanic custody staff on B-Yard second watch, including Sergeant Olmos and Lieutenant Martinez, specifically assault and harass African-American prisoners, causing many of them to stay in their cells to avoid being targeted. This results in class members missing out on mental health treatment, the bulk of which is scheduled to occur during second watch.”

LAC conducted an inquiry into this matter. LAC staff contacted the Inmate Appeals Office and the Appeals Coordinator determined there were no appeals submitted concerning this allegation. LAC staff spoke with the Health Care Grievance Coordinator and determined there were no health care grievances submitted with the above-mentioned allegation. Next, LAC staff reviewed the Access Quality Report and identified African American inmates housed in Facility B that had missed their scheduled appointments during the time period in question.

¹ LAC conducted the fact finding inquiries into the allegations identified in this Tour Report in accordance with the Department’s Operations Manual, Article 22. The Department is in the process of revising that policy and, once approved and adopted, future fact finding inquiries will comply with the new policy.

Thomas Nolan

Page 2

The first inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 22, 2019. This inmate stated, "I was scheduled to have final exams from Antelope Valley College during that appointment and me missing that appointment had nothing to do with any of the officers on the yard nor have I ever seen or heard of the Hispanic staff on the yard use excessive or unnecessary force."

The second inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 14, 2019. This inmate stated, "I was unaware that I had an appointment on that day but I always go to my appointments and have no issues from every yard staff to building staff to the supervisors on this yard no one has done anything illegal at all."

The third inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 25, 2019. This inmate stated, "I didn't want to go to the appointment and I don't have any issues with any of the Hispanic staff or supervisor nor have I seen any excessive or unnecessary force."

The fourth inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 15, 2019. This inmate stated, "I don't recall missing it but it has nothing to do with any of the officers or supervisors of any race on the yard and I have never seen anything excessive or unnecessary force of any kind since I've been here."

The fifth inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 19, 2019. This inmate stated, "I probably was too tired and didn't want to go and it has nothing to do with any of the Hispanic staff or supervisors here we have a very harmonious relationship with the officers and supervisors on this yard and never seen anything excessive or unnecessary."

The sixth inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 14, 2019. This inmate stated, "I don't remember why I didn't go but no one has issues with any staff here Hispanic or any race they treat us right and everybody good. I've never seen any Hispanic staff or supervisors use excessive or unnecessary force of any kind here."

The seventh inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 28, 2019. This inmate stated, "I don't remember why I missed it but I know it had nothing to do with the cops or supervisors here and no they don't do anything illegal excessive or unnecessary at all."

The eighth inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 27, 2019. This inmate stated, "I wasn't feeling well that day and was probably knocked out asleep but me missing it had nothing to do with the officers or supervisors of any race and no never seen them or anyone use unnecessary or excessive force here."

Thomas Nolan

Page 3

The ninth inmate was interviewed and asked why he refused to go to his scheduled mental health appointment on February 15, 2019. This inmate stated, "I didn't know about it but I do know that me missing it had nothing to do with the Hispanic cops or supervisors on this facility all that is a bunch of BS that someone made up and nobody's done anything excessive or unnecessary."

The inquiry determined that there is not sufficient evidence to support the allegation, and as such, the allegation was not sustained. LAC has closed the inquiry into this allegation.

Should you have any questions, please contact the undersigned at 916-445-6896.

RE: *Coleman v. Newsom, Armstrong v. Newsom*: EOP Class Member [REDACTED]
Report Regarding Staff Misconduct at LAC
Your File No. 0489-03, 0581-03

Dear Mr. Nolan:

I write to respond to your November 15, 2019, letter regarding inmate [REDACTED] who alleges he was subjected to excessive and unreasonable force from correctional staff at California State Prison – Los Angeles County (LAC) on or about September 9, 2019. In excerpt of what was stated in your letter, Mr. [REDACTED] said he was ordered back to his cell by an officer, after he was “dealing with raw emotions and mental duress.” Mr. [REDACTED] stated he yelled at the officers and banged on his cell door to get the officer’s attention. Mr. [REDACTED] stated that officers approached him and asked if he “wanted to go to the gym” to discuss his feelings. Your letter describes the gym as a place where inmate beatings occur. At some point, Mr. [REDACTED] was directed to cuff up which he stated he refused to do. He was then pepper-sprayed allegedly at point blank range in the face. Mr. [REDACTED] further said that he was then cuffed and allegedly punched and kicked repeatedly in the face and the body while he begged officers to stop. Mr. [REDACTED] was medically evaluated and reported to you that he was denied a copy of his 7219 when he requested it from his ASU cell.

On or about March 24, 2020, an inquiry was opened by an independent investigator based on the above allegations of staff misconduct.¹ Prior to receipt of your advocacy letter, an

¹ LAC conducted the fact-finding inquiry into the allegations identified in this letter in accordance with the Department’s Operations Manual, Article 22. The Department is currently in the process of revising that policy and, once approved and adopted, future fact-finding inquiries will comply with the new policy.

Mr. Thomas Nolan

Page 2

Incident Report was completed, and Institutional Executive Review Committee (IERC) review was finalized on October 9, 2019. Associated reports reflect that Mr. [REDACTED] was banging his head without ceasing in his cell, which led to officers' attempts to interrupt the behavior by releasing Oleoresin Capsicum (OC) spray in the cell. The IERC found that the OC spray was not released at the optimal distance, but based on a totality of circumstances, including Mr. [REDACTED] severely self-injurious behavior, use of the OC spray did not violate procedure or policy. The OC spray did not cause Mr. [REDACTED] to stop beating his head on the cell, and once there was an adequate number of officers available, an emergency cell rescue of Mr. [REDACTED] was conducted. An officer was reported as injured in the incident, and another reported being struck by Mr. [REDACTED]. During the incident, officers noted the smell of ethanol emanating from Mr. [REDACTED]. An inmate interview later corroborated that Mr. [REDACTED] smelled of alcohol on September 9, 2019, and the inmate further stated that Mr. [REDACTED] was "drunk." The investigator notes that additional reports, including medical notes, document the strong odor of alcohol emitting from Mr. [REDACTED] on September 9, 2019. Notes also support that Mr. [REDACTED] admitted to medical staff at that time that he had consumed alcohol that day.

Mr. [REDACTED] did require medical attention after the incident and the corresponding reports state that the injuries were sustained because Mr. [REDACTED] was beating his head against the cell wall. Medical staff evaluated his condition after the incident, using the 7219 Medical Report of Injury form (7219), which reflects the exposure to a chemical agent as well as bleeding and lacerations to the front of the head. Mr. [REDACTED] made a statement at that time that does not indicate there were any other injuries than those noted on the front of his head and the exposure to a chemical agent. There are no broken bones documented or noted.

Mr. [REDACTED] filed a 602 on or about March 6, 2020 relative to the allegation of excessive force on September 9, 2019. The investigator notes that Mr. [REDACTED] appears familiar with the 602 processes and would likely have been aware that his 602 was not timely filed. Even so, Mr. [REDACTED] was approached on March 6, 2020 for an interview regarding his allegations, and at that time, he declined to participate. Six inmate interviews were conducted in April 2020 regarding the incident, resulting in information that was contradictory to that presented by the advocacy letter and to that provided by the other inmates. One inmate witness admitted he did not actually see the incident. Mr. [REDACTED] did participate in a new interview with the reviewing investigator in early April 2020.

In early 2020, the investigator completed review of all available documentation, including multiple incident reports, the incident commander review, manager's review, and the Institutional Executive Review Committee (IERC) review, as well as all associated case factors.

CONFIDENTIAL: FOR ATTORNEYS' EYES ONLY
SUBJECT TO PROTECTIVE ORDERS

Mr. Thomas Nolan

Page 3

The investigator initiated interviews with multiple inmates. The investigator's review also included an interview with Mr. [REDACTED] during which Mr. [REDACTED] stated he intentionally waited six months to file his appeal, in order to obtain medical attention.

Mr. [REDACTED] did receive a Rules Violation Report (RVR) for battery on a Non-Prisoner (6902801) in October 2019, to which he pled guilty. Mr. [REDACTED] did not raise any allegations of excessive or unnecessary force during or preceding the RVR Hearing.

The independent review resulted in a recommendation by the investigator that Mr. [REDACTED] allegations of excessive or unnecessary force were not sustained. The California Department of Corrections and Rehabilitation has thoroughly reviewed the allegations and now considers the matter closed.

Sincerely,

/s/ Ursula Stuter

URSULA STUTER

Attorney

Office of Legal Affairs

Exhibit 20

1 Medical Facility's ("CMF") PIP at the ICF level of care from November 8, 2018 until I
2 transferred back to COR on March 2, 2020.

3 7. I was housed at COR for over a year, from June 28, 2018 until I transferred
4 to the PIP at California Health Care Facility-Stockton ("CHCF") on August 27, 2019. I
5 had previously been housed at COR from October 18, 2018 until March 31, 2018. In
6 2018, I had numerous stays at various institutions other than COR, including California
7 Men's Colony ("CMC"), CMF, Kern Valley State Prison ("KVSP"), and CHCF.

8 8. During my time at COR, I have been housed in the following locations:
9 Facility 3A, Building 4; Facility 3B, Building 2; and Facility 3D, Building 1.

10 9. I have been a witness to multiple incidents of staff misconduct against people
11 with disabilities, mental illness, and medical conditions at COR.

12 10. On Facility 3A, I have witnessed correctional officers harass, intimidate, and
13 physically abuse people with severe mental illnesses on a routine basis. These rogue staff
14 members include Officers Seifken, Gonzalez, Nolan, Ward, Flores, Ortega, Cagle,
15 Wooden, Rocha, Wolf, Hernandez, Ward, Kiesley, and Balboa, Sergeants M. Medina, D
16 Case, and Hubbert, and Lieutenant Winward. These officers are known by incarcerated
17 people as "The Hit Squad." In my opinion, they single out EOP patients for harassment
18 and abuse.

19 11. On the morning of April 7, 2020, I observed several officers viciously attack
20 [REDACTED], another EOP patient. I witnessed the assault take place from the
21 exercise equipment on the 3A Yard. Although I was about 100 yards away, from where I
22 was standing, I could clearly see the patio where Mr. [REDACTED] was attacked.

23 12. That morning, Mr. [REDACTED] and I were working out on the exercise
24 equipment when we heard his name called over the intercom system for him to go to an
25 Inter-Disciplinary Treatment Team meeting ("IDTT"). IDTT meetings are when all of the
26 different mental health clinicians who work with a given patient meet with the patient to
27 plan out his or her mental health care.

1 13. Although Mr. [REDACTED] did not want to attend the meeting, I advised him to
2 tell officers inside Facility 3A that he did not want to meet with his treatment team. Mr.
3 [REDACTED] started walking towards the gate to the medical area in order to get to the mental
4 health building. Officers were sitting on a walkway covered by a canopy. To get to the
5 mental health building, Mr. [REDACTED] had to use this walkway.

6 14. When Mr. [REDACTED] passed the officers, one of the officers turned to Mr.
7 [REDACTED] and spoke to him. I saw the officer grab Mr. [REDACTED] by the head and slam him
8 to the ground. While he was on the ground, over nine officers, including Officer Ochoa,
9 Sgt. Case, Sgt. Hubbert, Lieutenant Winward, and Lieutenant Hurlbut, and a female
10 sergeant, rushed over and began kicking Mr. [REDACTED]. One officer grabbed Mr.
11 [REDACTED]'s feet and another officer cuffed him. The officers also put a spit mask on him.
12 They began to lead him to the gym. Because of the spit mask on Mr. [REDACTED], I could not
13 see injuries to his face. Once he was inside the gym, I could not see what happened.

14 15. I believe officers attacked Mr. [REDACTED], because he has mental health issues
15 and they know they can pick on him.

16 16. About 15 to 20 minutes after the assault, I returned to my housing area.

17 17. At around 12 p.m., I observed Officers Cable and Wooden give Mr.
18 [REDACTED]'s personal property, including his TV, radio, food, and hygiene supplies, to other
19 incarcerated people. I went over to the officers and the porter to try to get back a Scarface
20 CD I had lent to Mr. [REDACTED] and Mr. [REDACTED]'s other CDs, so I could give them back to
21 him. I recovered two CDs, which I plan to return to Mr. [REDACTED].

22 18. I believe staff gave away Mr. [REDACTED]'s property to retaliate against him for
23 assaulting an officer, even though the officers had attacked Mr. [REDACTED].

24 19. On May 13, 2020, around 5:30 p.m., Officers Rocha and Ward taunted and
25 harassed a fellow incarcerated person in my housing area by continuously opening his cell
26 door after he asked them for his dinner tray. I could see what happened from my cell.

27 20. The person was lying on his bed, and Officer Ward, who was in the control
28 booth, opened the door. The person got up from his bed and closed the door. As soon the

1 he went back to his bed, Officer Ward opened the door again. The incarcerated person
2 went back to the door and asked Officer Ward, "Why did you do that? Why are you
3 harassing me?" and closed the door again. Officer Rocha instructed Officer Ward to open
4 the door again. This man is known to keep to himself around the housing unit. I believe
5 Officers Rocha and Ward repeatedly opened his cell door without his permission as a form
6 of intimidation and harassment. It was entertainment for them.

7 21. The person, who was annoyed by the officers, came out of his cell, and
8 began talking to Officer Rocha about why they kept opening his cell door. While the man
9 was talking to Officer Rocha, Officers Rocha and Seifken grabbed him by the neck and
10 brought him to the ground. The officers kicked him in the body for a few minutes, before
11 three to four more officers arrived in response to an alarm.

12 22. They then handcuffed him and dragged him out of the housing unit. I heard
13 the inmate screaming in pain outside the building, leading me to believe they continued to
14 beat him outside.

15 23. On April 14, 2020 at nighttime, during third watch, Officer Rocha assaulted
16 another incarcerated person in my housing area. I could see and hear what happened from
17 my cell. That night, Officer Rocha took a food item off of an inmate's door. The inmate
18 went to Officers Rocha and Seifken to ask for the food item back. They said no. He
19 requested to speak to a sergeant and told them he would sit on the floor until they got the
20 sergeant. He then sat down.

21 24. The officers handcuffed him, and he lay down on the ground on his stomach
22 with his hands behind his back, so they would know he was not resisting them. He asked
23 again to see the sergeant. Instead, the officers dragged him by his feet over to his cell.

24 25. In front of his cell, they took the handcuffs off of him, and Officer Rocha
25 began kicking the man to push him fully into the cell. The inmate still had his arm outside
26 of the cell, so they slammed the door on his arm.

27 26. The inmate pulled his arm in and the officers closed the door.
28

1 27. After 30 minutes, Officers Rocha, Seifken, Hernandez, and a sergeant called
2 the man out of his cell and took him outside.

3 28. The inmate told me later that when he was outside, the officers told him if he
4 reported the attack, they would write a false Rules Violation Report to delay his parole date,
5 stating that he had a shank.

6 29. In April or May 2020, Sergeant Medina interviewed me about this staff
7 assault. I told him what I saw. Once I was done, he went into the office and closed the
8 door. The interview lasted about five minutes.

9 30. I have personally seen officers destroy incarcerated peoples' appeals
10 documents and staff complaints during cell searches. Property Officer Nolan extorts
11 incarcerated people by forcing them to give up their own personal property to other
12 individuals, mainly porters in different housing units. I believe Officer Nolan gives out
13 these items in exchange for favors from these porters. These favors include attacking other
14 incarcerated people at the behest of custody staff. Although I have not heard officers
15 direct a porter to attack someone, on or around July 8, I saw four porters take an individual
16 out of his cell and assault him right in front of the officers. The officers did nothing to stop
17 the attack even though it was right in front of their eyes. The porters stopped attacking the
18 individuals when Sergeant Case said, "That's enough."

19 31. When I asked one of the porters why they attacked the man, he told me that
20 Officer Cagle told them to hurt him because he had refused to shower.

21 32. Officers have destroyed my personal property. On July 31, 2019, I moved to
22 a mental health crisis bed. In November 2019, I requested my property. In January 2020,
23 I received some of my property, but the documents from my legal cases against CDCR
24 staff and my staff complaints were missing. I believe staff took these documents
25 intentionally to interfere in my legal cases.

26 33. I was a victim of staff misconduct at COR .

27 34. On August 9, 2019, I was in a mental health crisis bed after I attempted to
28 kill myself in July. At approximately 9:59 p.m., a psychiatric technician approached my

1 cell, requesting to see what I had in my hands. I showed her that I had a 2.5 inch string
2 from my socks that I use to tie my hair.

3 35. A few minutes later, Officers Alcocer and Bobadilla approached my cell and
4 requested the string. I complied, handing the hair tie through the food port in the door to
5 my cell.

6 36. A few minutes after that, Officers Alcocer and Bobadilla returned to my cell
7 front and instructed me to sit on my bed. I complied. Officer Bobadilla opened my cell
8 door with his key. Officers Alcocer, Bobadilla, six other officers, and a sergeant entered
9 my cell. Crisis bed cells are large, so they were all able to fit inside. Officer Alcocer
10 ordered me to strip off all my clothing and then move to the back of the cell and face the
11 wall. I complied. Officer Bobadilla then shut the cell door, and Officer Alcocer followed
12 me to the back of the cell.

13 37. While I was facing the back of the cell, still naked, Officer Alcocer slammed
14 my face into the wall by placing his hand on the back of my neck and pushing my head
15 and neck. I felt my lip split open from the impact against the hard, cement wall. The other
16 officers and the sergeant watched this happen.

17 38. Officer Alcocer then ordered me to kneel down. I began to get down, still
18 facing the wall with the officers and sergeant behind me, when I felt his boot kick the back
19 of my right leg, just above the knee.

20 39. I asked, "What is this about?"

21 40. Without responding to my question, Officer Alcocer grabbed me by the neck
22 and slammed me to the ground, face first. I felt pain from the blow and blood on my face,
23 around my mouth. Officer Alcocer then placed his knee on my back, pushing his body
24 weight on me. Officer Alcocer looks to me to be about 235 pounds. I could not breathe
25 with him on my back.

26 41. I asked for the sergeant to stop Officer Alcocer from assaulting me, but the
27 sergeant ignored me. After about six minutes of Officer Alcocer kneeling on my back
28

1 while the sergeant looked at some of my papers, the sergeant ordered Officer Alcocer,
2 “Get the fuck off of him.” The officers left the cell and closed the door.

3 42. From the attack, I had a bruise and laceration on my knee and a laceration on
4 my lip. I asked officers for a medical evaluation of my injuries, but they ignored me.

5 43. The next day, I asked my clinician for a video interview about the assault.
6 My clinician ordered a medical evaluation.

7 44. On August 11, 2019, a nurse evaluated my injuries. She noted the
8 lacerations on my knee and lip.

9 45. That same day, Sergeant Mason and another sergeant conducted a
10 videotaped interview about the August 9th use of force. During the interview, I was kept in
11 a holding cell. I believe sergeants did not take me out of the holding cell so my injuries
12 would not show in the video tape. The interview was only ten minutes long. During the
13 interview, the sergeants asked questions to try to poke holes in my story to discredit my
14 account.

15 46. I did not receive a Rules Violation Report for this incident.

16 47. I believe Officer Alcocer targeted me because I am incarcerated on a rape
17 conviction. He knows my commitment offense from my records. I believe Officer
18 Alcocer picked on me because I have mental health issues, and he thought I could not
19 advocate for myself.

20 48. The day after the attack, I filed a staff complaint 602 about the assault. I
21 have not yet received a response, and I do not know if CDCR is investigating it.

22 49. On December 13, 2019, I filed a lawsuit against Officer Alcocer regarding
23 this incident.

24 50. The assault made me feel depressed, hopeless, and suicidal. I was
25 humiliated, because I was attacked, while naked, in front of several officers. I felt
26 vulnerable and scared. My mental health decompensated. A couple weeks after the attack,
27 on August 29, 2019, I was transferred to the PIP at CHCF, because of my suicidal feelings.
28

1 51. After I returned to COR, staff continue to retaliate against me because of my
2 lawsuit and staff complaints. On July 27, 2020, during recreational therapy, I complained
3 to a sergeant at about 9:45 a.m. about staff taking and breaking the property of incarcerated
4 individuals.

5 52. At 11:30 a.m., I went back to my housing area in Facility 3A. I heard
6 Officer Cagle instruct a porter to pretend to fight in the area near my cell. I do not believe
7 Officer Cagle knew I could hear him. Five to ten minutes later, I saw the porters pretend
8 to fight. They did not actually hurt each other. Officer Cagle told them, "Break it up."

9 53. A few minutes later, Sergeants Case and Hubbert came in, spoke to Cagle,
10 then left the building. Four or five minutes later, they came back to the building with 6-7
11 officers. They approached cell 108, then 109, then 123, and took the individuals out of
12 their cells.

13 54. Then they came to my cell. They told me I had been selling my narcotic
14 medication. I told the officers I am taking blood pressure medication, anxiety medication,
15 and anti-epileptic medication, but I am not taking any narcotic medication. They told me
16 that I was extorting other incarcerated people for their narcotic medications. They packed
17 my property, but did not search my cell for any medication or other contraband, so I do not
18 think they actually thought I was selling narcotics.

19 55. The officers escorted me to a holding cell in the administration building.
20 Scared and anxious about what they would do to me, I felt suicidal and told them so.
21 Despite my suicidal feelings, at 4:45 p.m., officers moved me to administrative
22 segregation.

23 56. On July 28, 2020, I requested to see my clinician because I was still feeling
24 suicidal, but the officers ignored me.

25 57. The next day, I again informed officers that I needed to see my clinician and
26 that I had taken 16 of my blood pressure pills to commit suicide.

27 58. A few minutes later, a crisis team escorted me to a mental health crisis bed.
28 There, staff monitored me to make sure the pills did not cause a medical emergency.

1 59. On August 2, 2020, I received an RVR saying that I was accused of selling
2 narcotics.

3 60. I have been in the mental health crisis bed since July 29, 2020. I have asked
4 Sergeant Case, Sergeant Hubbert, Clinician Lozano, and another clinician whose name I
5 have forgotten when I could move to a housing unit. They all told me that I would be
6 going to administrative segregation, not a housing unit, because I have filed lawsuits
7 against staff. An officer told me that the individuals also accused of selling narcotics, with
8 the exception of one, were returned to their housing units. I believe officers fabricated this
9 RVR in an attempt to keep me in administrative segregation to punish me for filing staff
10 complaints and to silence me from filing more.

11 61. In my time at COR, there have been a times that I needed help but did not
12 ask for it because I was afraid of what would happen to me. I do not feel that staff will
13 take me seriously when I feel suicidal, because staff have ignored my requests to see my
14 clinician.

1 62. In my opinion, staff target people with mental illness with staff misconduct.
2 Most of the assaults I have heard about or seen involve people with mental health issues.
3 Staff pick on people with mental illness because they know patients with mental illness
4 have difficulty reporting misconduct.

5 I declare under penalty of perjury under the laws of the United States of America
6 that the foregoing is true and correct, and that this declaration is executed at Corcoran,
7 California this 12 day of August, 2020.

8
9
10
11 On August 12, 2020, due to the closure of California State Prison – Corcoran in
12 light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against
13 witnesses in support of Plaintiffs’ Motion, including ongoing concerns about the
14 confidentiality of the legal mail system at California State Prison – Corcoran, I read the
15 contents of this declaration, verbatim, to [REDACTED] by telephone. [REDACTED]
16 orally confirmed that the contents of the declaration were true and correct. [REDACTED]
17 also orally granted me permission to affix his signature to the declaration and to file the
18 declaration in this matter.

19
20 DATED: August 12, 2020

Rekha Arulanantham

Exhibit 20a

Filed Under Seal

Exhibit 21

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison – Corcoran (“Corcoran”) on Facility 4A in Building 1 Right (“4A1R”). I am currently housed in Long Term Restricted Housing (“LTRH”), which is a security housing unit (“SHU”) building where people at the CCCMS level of care are housed after being found guilty of a SHU-term eligible Rules Violation Report (“RVR”). I am 48 years old.

3. I have been housed at Corcoran since early January 2018. At various points from January 2018 to the present, I was transferred to the Psychiatric Security Unit (“PSU”) at California State Prison – SAC to receive mental health care at the Enhanced Outpatient level of care in a SHU building.

4. During my time at Corcoran, I have been housed in 4A1R and Building 2 Left on Facility 4A (“4A2L”), which are both SHU buildings for people who are CCCMS.

5. I am a *Coleman* class member. I am at the CCCMS level of care. I suffer from bipolar disorder and paranoia. In order to manage my mental health symptoms, I take Trileptal and Abilify.

6. I have a number of serious medical conditions. I am diagnosed with anemia, asthma, Diabetes, hypertension, and GERD. I also had Valley Fever in early 2019, which has caused my respiratory system and breathing to suffer greatly. I was hospitalized in February 2019 for pneumonia, a complication of my Valley Fever. I am classified as high risk medical and a chronic care patient, meaning that my medical conditions are closely monitored by staff.

7. I was a victim of staff misconduct at Corcoran. My troubles with staff at Corcoran began at the end of May 2019. At the time, I was housed in Building 4A2L. In SHU buildings, like 4A2L, officers are prohibited from entering people’s cells unless there

1 is an emergency extraction, and no one is allowed to leave their cell without being
2 restrained in handcuffs and escorted. On the day in question, I observed staff assault my
3 neighbor, Mr. [REDACTED], who was housed in cell [REDACTED] (although I am not certain of his
4 housing). In particular, I observed Sergeant Navarro, Officer Medina, Officer Vera, and a
5 few other officers escort Mr. [REDACTED] out of his cell. As soon as they brought him out onto
6 the tier, they threw him to the ground and began kicking, hitting, and stomping on him. I
7 also saw Sergeant Navarro pepper-spray him as he lay on the ground in handcuffs,
8 completely defenseless. At no point did Mr. [REDACTED] threaten or attempt to hurt these
9 officers.

10 8. During the attack, I yelled out to Sergeant Navarro to stop assaulting
11 Mr. [REDACTED]. In response, Sergeant Navarro told me, “You’re next,” which I took to mean
12 that he was planning to assault me. I then told Sergeant Navarro that I would file a staff
13 complaint about his behavior. Sergeant Navarro responded, “I don’t give a shit, I’ll just
14 say it was an emergency.” I interpreted this to mean that Sergeant Navarro was planning
15 to enter my cell under the false pretense that there was an emergency in order to assault
16 me.

17 9. There was absolutely no reason for these officers to assault Mr. [REDACTED]
18 Brutal and unprovoked attacks of this sort were very common in my experience in the
19 SHU at Corcoran.

20 10. After this incident, I wrote the Ombudsman about what had happened, as
21 well as Plaintiffs’ counsel in *Armstrong* and *Coleman*. On June 17, 2019, two officers
22 approached my cell: Officer Allison and Officer Medina. They asked me whether I was
23 coming out, and I asked them in response, “coming out for what?” They then walked
24 away without saying anything further. About thirty seconds later, Officer Allison and
25 Officer Medina returned, along with Sergeant Navarro, Officer Ramos, and Officer
26 Pacheco, who all started walking toward my cell. I noticed that one or two of the officers
27 was holding a shield, and they had all put on helmets. Generally, when officers wear
28 equipment like this, that means that they are going to perform an emergency cell entry and

1 extraction. When they approached my cell, Sergeant Navarro yelled to the tower officer,
2 Officer Salinas, to open up my cell. Once Officer Salinas opened up my cell, Sergeant
3 Navarro immediately pepper-sprayed me. One of the officers then hit me with his shield,
4 knocking me down to the floor. I immediately put my hands behind my back, and they
5 then applied handcuffs to me. Even though I was restrained on the ground, the officers
6 then kicked me, punched me, stomped on my legs, and hit me with their shields. I believe
7 that that went on for a couple of minutes. They then picked me up and dragged me onto
8 the tier, and continued beating me for another minute. They then escorted me finally to the
9 rotunda – the entrance and exit to the building – and it was then that they first activated the
10 alarm. Inside the rotunda, I was met by Captain Gallagher, who told me, “Oh, you like to
11 file 602s? We give you your food.” I interpreted that to mean that Captain Gallagher did
12 not understand why I was complaining about staff abuse. It was as if he was saying that,
13 as long as I was being fed, staff could do whatever they wanted to me and I had no right to
14 complain. As a result of my injuries – which included serious swelling in my legs – I was
15 unable to walk or stand properly for about three weeks after this incident. The only
16 treatment I got for my injuries was a compression sock and an ultrasound.

17 11. After this incident, I continued to face constant harassment and abuse by the
18 same officers who beat me up on June 17, 2019. These officers, Officer Allison, Officer
19 Medina, Sergeant Navarro, Officer Ramos, and Officer Pacheco, would frequently come
20 by my cell, kick on it, and threaten me to stop filing 602 staff complaints. I was frequently
21 denied food by these officers. On some occasions, they even sprayed pepper-spray through
22 the food-port of my cell for no reason whatsoever. This abuse got to me so much and I
23 became so scared that I never left my cell. I never made it to a mental health appointment
24 because I was too afraid to leave my cell. I refused to leave my cell even for yard, for
25 groups, and for showers.

26 12. On May 24, 2020, three officers, Officers Allison, Rodriguez, and Lor,
27 approached my cell and threatened me. The officers told me that they were going to fuck
28 me up again, and that they “were going to make me scream like a bitch.” One of the

1 officers, Officer Allison, then showed me some disturbing images on his phone through
2 the window of my door. Then, the three officers walked away.

3 13. The next day, at around 2:00 p.m. on May 25, 2020, Officer Cervantes stood
4 by my cell door. I then heard Officer Cervantes order Officer Lor, who was working in the
5 tower as the control officer, to open up my cell door. Officer Cervantes then ordered me to
6 sit on my bunk. I did not sit on my bunk because the officers are not even supposed to
7 enter our cells, and I was afraid that they would beat me if I sat on my bunk. Officer Lor
8 then opened up my cell door and Officer Cervantes rushed into my cell and punched me in
9 the face. Officer Cervantes used a closed fist to hit me on my lips, but I was able to
10 partially avoid the punch by moving my face back. I immediately got down on the floor
11 and put my hands behind my back. Before I could even get down, Officers Beralanga,
12 Cerda, and Ceja, the floor officers at the time, stormed into my cell. As soon as they
13 entered, these officers handcuffed me and applied leg restraints, and then started kicking,
14 hitting, and punching me while I lay on the ground handcuffed. At no point did I resist or
15 behave violently toward these officers. Officer Cervantes then pinned me down by my
16 neck with his foot, as he pulled on both of my arms, pulling them backwards with extreme
17 force. As he pulled at my arms, one of the officers repeatedly kicked me in the ribs.

18 14. Then, the officers dragged me out onto the tier. Officer Cervantes continued
19 to pull my arms back, pulling them out of my shoulder socket, while he was ordering me to
20 get up even though I was handcuffed and faced down. They then dragged me to the
21 rotunda, where Sergeant Moreno was waiting for me with a chair. Whenever there is a use
22 of force incident, they bring the victim to the sally-port for a medical evaluation. As soon
23 as I sat down on the chair, I saw Sergeant Moreno put on leather gloves. He then
24 proceeded to stick his boot in between my leg-chains, and kicked the chain, cutting the
25 handcuffs directly into my legs. Sergeant Moreno then punched me in the face three times
26 before choking me firmly with both of his hands. He choked me for about fifteen seconds.
27 All the while, two Psych Techs, PT Contreras and PT Gomez, stood by the office of the
28

1 building in a direct line of sight of the sally port. I directly observed PT Contreras watch
2 as Sergeant Moreno choked me and assaulted me in the sally port.

3 15. I was then escorted to the CTC after a number of lieutenants arrived at the
4 building to respond to the alarm. At the CTC, they refused to remove the handcuffs from
5 me despite the fact that my shoulders were in extreme pain. Eventually, after waiting more
6 than forty five minutes, a nurse told me that the doctor could not examine me for another
7 forty five minutes due to the Memorial Day holiday, and that he could not take the
8 handcuffs off until then. The nurse also told me that my shoulders look fine, and he then
9 asked me whether I was refusing treatment. Although I denied that I refused treatment, the
10 nurse ordered the custody staff to return me to my cell without any medical treatment.

11 16. The next day, on May 26, 2020, I was transported to Adventist Health in
12 Bakersfield, where I was diagnosed with a dislocated left shoulder. When the doctor was
13 performing a reduction on my left shoulder, he told me that he realized that my right
14 shoulder was also dislocated and that he had to perform surgery on the right shoulder as
15 well. As a result of this incident, I have serious bruising and pain in the right side of my
16 rib cage. My ribs and my shoulders are still in severe pain to this day, but I have not
17 received any treatment for my ribs. My neck is also still extremely sore right at the spot
18 where Officer Cervantes stood on it. In addition, I suffered cuts on my ankles, and a few
19 bruises on my elbows and my knees. While I can still move my fingers a bit, I cannot lift
20 my left arm at all. Because I am left-handed, I am completely unable to write, which has
21 made it very difficult for me to conduct my legal matters.

22 17. I received a Rules Violation Report ("RVR") for battery on a peace officer in
23 connection with this incident. In the RVR, Officer Cervantes claimed that, after he
24 restrained me in my cell so that I could leave to go shower, I kicked him for no reason at
25 all, which necessitated the use of force. The entire RVR was a falsehood. Officer
26 Cervantes had no injuries. I very rarely leave my cell for a shower, and I certainly did not
27 leave my cell on May 25, 2020 in order to shower. Corcoran referred the RVR to the
28 District Attorney, and I have postponed my RVR hearing until the District Attorney

1 decides whether to press charges. I received a similarly false RVR for battery on a peace
2 officer in connection with the June 2019 incident. With respect to that incident, the
3 District Attorney decided to press charges, and I am currently litigating that matter in
4 criminal court. In my experience, whenever staff assault incarcerated people at Corcoran,
5 staff then turn things around and issue a false RVR against the victim of their abuse.
6 Because they do this, they are never held accountable for their misconduct.

7 18. In my time at Corcoran, there have been many times that I needed help but
8 didn't ask for it because I was afraid of what would happen to me. Ever since reporting
9 misconduct at Corcoran, I have received threats that I would be assaulted by staff for
10 complaining. Staff have also told me that they will have other incarcerated people assault
11 me when I am released from the SHU in retaliation for my complaining about misconduct.
12 In fact, I was assaulted multiple times for complaining about staff, in addition to the many
13 other instances of harassment and abuse that I faced, and continue to face, at Corcoran.
14 For that reason, I cannot trust staff with anything. As a result of this abuse, I have refused
15 to leave my cell from June 2019 through the present. I do not come out of my cell except
16 in very limited circumstances. I only just started coming out of my cell to see my clinician
17 in the past few weeks, but I am even scared to do that. Before a few weeks ago, I never
18 left my cell to receive mental health treatment. Because I have been unable to come out of
19 my cell due to this staff abuse, my mental health has seriously suffered. I have become
20 much more paranoid and impulsive. My mental health has become much more difficult to
21 manage because, for the past nine months, I have been unable to leave my cell to speak
22 with a clinician.

Exhibit 22

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California State Prison-Corcoran ("COR") on Facility 4A in Building 3L. I am 57 years old.

3. I am an *Armstrong* class member. I am designated as DPO. I cannot lift heavy items. I use a cane to move around. I cannot walk up stairs very well. My legs get tired after walking.

4. I am a *Coleman* class member. I am at the Correctional Clinical Case Management System ("CCCMS") level of mental health care. I am diagnosed with antisocial personal disorder.

5. From October 24, 2019 to April 23, 2020, I was at the CCCMS level of care. From April 23, 2020 to June 24, 2020, I was at the Enhanced Outpatient Program ("EOP") level of care. Since June 24, 2020, I have been at the CCCMS level of care.

6. I have a number of serious medical conditions. I have high blood pressure and chronic kidney failure. I have bleeding in my stomach. I am classified as high risk medical.

7. I have been housed at COR from October 24, 2019 to now, with brief departures to stay at outside hospitals.

8. During my time at COR, I have been housed in the following locations: COR 4A1L, which is the CCCMS Long Term Restricted Housing ("LTRH") unit, the COR Infirmary, and COR 3A03, which is the EOP Administrative Segregation Unit ("ASU"). I am currently housed in COR 4A3L.

9. I witnessed staff misconduct in COR3A03, the EOP ASU, on about May 10, 2020.

1 10. I was in my cell during second watch, which runs 6:00 a.m. to 2:00 p.m.
2 every day. I am not sure what time it was exactly as I do not have a clock in my cell. I
3 was watching TV. From my cell, I could see through the crack in the door all the way
4 down to the other side of unit. I was sitting down on my bed.

5 11. I heard other incarcerated people begin to call out "they are coming for you."
6 So I went to the window to look out. I saw a large group of officers leaving the unit. I was
7 not sure who they were. They may have been responding to an alarm. I did not hear the
8 alarm, but when an alarm goes off, a large group of officers come to the area where the
9 alarm has gone off.

10 12. I also saw a group of four to five officers wearing helmets. One officer had a
11 shield. They walked toward a cell that was about seven to eight cells away from me. I had
12 to duck to look through the crack in my door to see what happened. The group of officers
13 entered the cell. I could hear scuffling. While they were in the cell, I could not see what
14 happened.

15 13. After a few minutes, officers dragged someone out. He was a Black man. I
16 do not remember his name. I had never spoken to him before. I usually only spoke to the
17 people in cells right next to me. This person was cuffed and had leg restraints on. Officers
18 dragged the man to the ground outside of his cell, right in front of the doorway to his cell.
19 I could see him from my cell once they dragged him out.

20 14. One officer was a small white guy. While this incarcerated person was lying
21 on the ground, one officer was holding his legs, the other had his knee in the man's back.
22 His chest was on the ground, with his back facing the ceiling. His head was sideways, like
23 he was listening to the concrete. One officer was punching him in the leg. The
24 incarcerated person was yelling. The sergeant, a big, tall white guy, came with a baton.
25 The sergeant struck the man three times: at least once was in the head. I saw the sergeant
26 swinging the baton and saw the sergeant hit the man in the right side of his head.

1 15. After that, the officers picked him up and dragged him to the dayroom. Once
2 they picked him up, I could see that his head was bleeding. He had blood all over his face,
3 especially his right side.

4 16. The officers put him in a cage in the dayroom. In the cage, they handcuffed
5 him. Both of his arms were sticking out of the food tray slot. He was handcuffed and they
6 put a triangle device on his arms. The incarcerated person was yelling for the nurse,
7 asking to be checked out.

8 17. While this person was in the cage, other incarcerated people began to call out
9 to him. Some said they saw what happened and offered to be witnesses.

10 18. I saw the nurses walking around the unit. They did not go to check him until
11 an ambulance arrived. I know an ambulance arrived because they brought in the stretcher
12 that only comes with the ambulance. A nurse brought it in. The ambulance arrived a little
13 after the event. I do not know who called the ambulance. When the ambulance arrived, he
14 was put in the stretcher and carried out.

15 19. This incarcerated person later returned to our unit. I am not sure when he
16 returned but I saw him a few days later.

17 20. There was an excessive use of force investigation for this incident. I was not
18 interviewed, but I told my clinician that I wanted to be interviewed on May 12, 2020. I
19 believe that the IGI, the gang investigation unit, conducted the interviews a few weeks
20 later. They pulled my neighbor out of his cell to be interviewed. I am not sure if anything
21 happened as a result because I moved housing.

22 21. I also witnessed staff misconduct in COR 3A03, the EOP ASU, around June
23 18, 2020.

24 22. I was in my cell, COR 3A03 [REDACTED]; I moved to this cell sometime at the end of
25 May. The unit is shaped like an L, my cell was at top of L, in the corner looking down the
26 unit.

27 23. Another incarcerated person in cell [REDACTED] was in his cell. His cell was in the
28 middle of the short part of the L, right by the shower. I could see that this person had

1 boarded up, which means to cover the window of your cell. I heard the alarm go off.
2 Many officers rushed into the unit. The sergeant spoke to them. I could not hear what was
3 said. After the sergeant finished speaking, most of the officers left. A few remained to
4 chat, but they all left within minutes.

5 24. After the officers responding to the alarm left, the officers from the unit
6 came to his cell. About four officers wearing helmets came to his cell. One officer had a
7 shield. The officer with the shield went in first. I could hear what sounded to me like
8 fighting and cussing. I heard someone yelling "get down, don't move, stop resisting!"
9 Once they were in the cell, I could not see directly in.

10 25. After a few minutes, officers dragged him out. He was wearing handcuffs
11 and leg restraints. They dragged him to the floor not far from his cell, maybe a few feet
12 away, with his chest on the floor and his back facing the ceiling. I could not see him,
13 except for a few officers holding him down. There was one officer holding his legs down.
14 Another held down his arms down. There were three to four holding him down in total, I
15 think. A few were standing around, maybe three more officers.

16 26. While he was on the ground, a female sergeant kicked him in the head. I
17 could not see everything, but I saw her leg go back to kick him. She was short with dark
18 hair. She had some weight on her. I had seen her before, but I do not think she was the
19 regular sergeant in that unit. When she kicked him, there were officers holding his back
20 and legs. They were swarmed on him like ants on a cookie.

21 27. After she kicked him, many other incarcerated people began kicking their
22 cell doors and yelling. They were yelling, "Did you see that?" "Open this door! Come
23 and get me!" It was loud.

24 28. Afterwards, officers put him in a wheelchair and wheeled him out behind the
25 building. After a few minutes, they brought him back the building to the door.

26 29. When he was being wheeled out, I could not see him clearly because officers
27 walked in a group around his wheelchair, blocking him from sight.
28

1 30. As they wheeled him out, I saw the nurse and the officer who usually drive
2 the ambulance. They were standing near the exit as this person was wheeled out. So I
3 think he was taken away in the ambulance.

4 31. A few weeks later, the IGI came to conduct interviews. It was about four
5 officers and they stopped interviewing about three cells away from me. I saw them pulling
6 people out. Those investigating officers wore different uniform patches than other
7 officers.

8 32. Because of the behavior of officers in COR 3A03, I was hesitant to access
9 mental health care. I was worried that I would be beaten up if I needed mental health help
10 or even medical care. Sometimes I fall down in my cell and I worried about being able to
11 access medical care.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration is executed at Corcoran, California this 2nd day of September, 2020.

On September 2, 2020, due to the closure of COR in light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail system at COR, I read the contents of this declaration, verbatim, to [REDACTED] by telephone. [REDACTED] orally confirmed that the contents of the declaration were true and correct. [REDACTED] also orally granted me permission to affix his signature to the declaration and to file the declaration in this matter.

Cate Johnson

Catherine M. Johnson

Exhibit 23

DECLARATION OF

I, _____ declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison-Sacramento (“SAC”) on Facility A in Building 6. I am 29 years old.

3. I am a *Coleman* class member. I am at the Enhanced Outpatient Program (“EOP”) level of care. I am diagnosed with depression. During the time that I was at COR, my mental health issues were similar to the issues that I experience today.

4. I have been at the EOP level of care since February 19, 2020.

5. I was housed at California State Prison-Corcoran (“COR”) from August 6, 2019 until June 1, 2020. During my time at COR, I was housed in the following locations. From August 6, 2019 to February 11, 2020, I was housed in COR 3B01. From February 11, 2020 to February 19, 2020, I was housed in the COR CTC, which is the Mental Health Crisis Bed (“MHCB”). From February 19, 2020 to June 1, 2020, I was housed in COR 3A03, which is the EOP Administrative Segregation Unit (“ASU”). On June 1, 2020, I transferred to SAC.

6. I witnessed staff misconduct at COR.

7. On the morning of April 6, 2020, I went to yard. The yard in the EOP ASU is made up of many cages. They are squares, about ten feet by ten feet. The cages do not touch each other. There is space between them to walk through.

8. I was being escorted by an officer to a cage for yard. As I neared my cage, I saw Officer Hernandez and Officer Ruiz. These two officers were stopped with another incarcerated person. He was tall. I think his last name was [REDACTED]. His cell was just up the hallway from me in COR 3A03. I saw him every day.

9. Officer Hernandez and Officer Ruiz were stopped in the middle of the walkway with the incarcerated person named [REDACTED]. They were cussing at him.

1 10. After a few moments, Officer Hernandez and Officer Ruiz grabbed him and
2 slammed him against the wall of one of the yard cages. They were behind him. Officer
3 Ruiz was on his left side and Officer Hernandez was on his right side. The other
4 incarcerated person was handcuffed at the time. The two officers pulled his arms up
5 behind him and smashed his head into the fence. I have been in this position before. It
6 feels helpless and is very uncomfortable.

7 11. These officers are in positions of authority. They are supposed to set
8 examples but they do everything wrong.

9 12. As this happened, the officer walking with me kept walking me to my cage,
10 as if this were normal. We actually walked around Inmate [REDACTED] and the two officers
11 to get to my cage.

12 13. While the person named [REDACTED] stood in that position, the officers called
13 him a "little bitch." They were still standing behind him. Then Officer Ruiz punched
14 [REDACTED] three to four times in his back, while Officer Hernandez held his arms up and
15 pushed his face against the fence. After Officer Ruiz punched him, they switched. Officer
16 Hernandez then punched his back four to five times.

17 14. There were other people on the yard, including Inmate [REDACTED] and my
18 neighbors. There were also other officers. Other incarcerated people started yelling, but
19 we were handcuffed or in cages. There was nothing we could do. The other officers did
20 not help Inmate [REDACTED].

21 15. Watching this made me feel sick in my stomach. It was sad and I felt Inmate
22 [REDACTED]'s pain.

23 16. I believe Inmate [REDACTED] filed a 602 about this and listed me as a witness.
24 He told me that he did. I was never interviewed about the 602.

25 17. On May 4, 2020, I was in my cell in COR 3A03. My neighbor wanted his
26 medications or medical help. I am not sure of his name, but his nickname was [REDACTED]. I
27 could hear him asking for medical help. [REDACTED] was yelling for about 30 minutes. Staff
28

1 were not helping him. It is my understanding that they did not want to give him his meds.
2 I could hear and see. Members of the nursing staff said, "yeah, whatever."

3 18. I heard [REDACTED] say, "If you don't give me my meds, I am boarding up." At
4 some point, he did board up. "Boarding up" means to cover the window of your cell. I
5 could not see his cell, but I heard the officers saying about ten minutes later, "You're going
6 to board up? You're going to play this game? You want to go mother fucker, we can go."
7 There were about three officers and a sergeant outside of his door.

8 19. One officer had a shield. Then the officers opened the door to his cell. The
9 officer with a shield went in first, then the others ran in behind him. I could hear
10 thumping. It sounded like people hitting the wall and the bunks. The officers were in his
11 cell for a few minutes.

12 20. I do not think anyone was videotaping the cell extraction. I did not see
13 anyone with a camera. After the officers ran into the cell, the alarm went off.

14 21. After the alarm went off, the officers dragged [REDACTED] out of the cell. He was
15 cuffed. [REDACTED] was covered in blood. The officers placed him on the ground with his chest
16 facing the ground. Two officers held him down; the other officers kept hitting him. One
17 person hit him in the face with a baton. I did not see who, but I saw the baton swinging.

18 22. Many officers came to respond to the alarm. They did not help [REDACTED]. I saw
19 some officers laughing at him from the window of my cell.

20 23. His eye was bleeding a lot because he had been hit in the face with the baton.
21 The officers kept beating him for a few more minutes after the alarm went off. Then,
22 officers put [REDACTED] in a chair in the dayroom. I saw medical staff go over and check him.
23 They checked him over, but it looked like they did not really care. It looked rushed. Then
24 they put him back in the cell. I believe he got medical attention later that day.

25 24. Watching this made me feel angry. I could not help and thought this was
26 unfair. At COR I felt like nobody would help us, no one on staff. I worried that if I
27 needed mental health help, no one would help me. I saw the officers deny other people
28

1 suicide watch when they needed it. I worried the officers would stop me from getting
2 mental health help at COR.

3 I declare under penalty of perjury under the laws of the State of California that the
4 foregoing is true and correct, and that this declaration is executed at Sacramento,
5 California this 28th day of August, 2020.

6
7 
8
9
10 On August 28, 2020, due to the closure of CSP-Sacramento in light of the COVID-
11 19 pandemic and ongoing concerns that officers might retaliate against witnesses in
12 support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of the
13 legal mail system at CSP-Sacramento, I read the contents of this declaration, verbatim, to
14 , by telephone.  orally confirmed that the contents of the
15 declaration were true and correct.  also orally granted me permission to affix
16 his signature to the declaration and to file the declaration in this matter.

Exhibit 24

DECLARATION OF

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed in Building 3 on Facility B at California State Prison – Sacramento (“SAC”). I am 37 years old.

3. I have been housed at SAC since early June 2020. Before being transferred to SAC, I was housed at California State Prison – Corcoran (“Corcoran”) from the middle of 2016 through the beginning of June 2020.

4. During my time at Corcoran, I was housed in Building 1 on Facility A, Building 4 on Facility C, the administrative segregation unit (“ASU”) building on 4A Facility, and the security housing unit (“SHU”) building, which is called 4A3-Right (“4A3R”).

5. I am a *Coleman* class member. I am at the CCCMS level of care. My mental health symptoms were caused, in part, by my being assaulted by staff at Corcoran. Prior to the assault in December 2019, I did not access mental health services and I could manage my mental state without medication, therapy, or groups. As a result of the assault, I have experienced nightmares, general anxiety, paranoia, and trouble sleeping on a daily basis. In order to manage my mental health symptoms, I now take Vistaril and Zoloft. I also speak with a clinician whenever I am feeling anxious.

6. On December 16, 2019, I was assaulted by staff at Corcoran. At the time, I was housed in Building 4 on Facility C. That evening, as officers were letting people out of their cells for evening dayroom, I flagged the floor officers, Officer Rocha and Officer Cruz, and asked them to be let out of my cell to take a shower. Officer Rocha responded, "Oh, I thought ISIS didn't take showers," and then walked away without opening my cell door. I believe that Officer Rocha made this comment because I appear Middle-Eastern based on the color of my skin and my beard. Although I did not take offense to the

1 comment at the time, I now realize that it was a racist remark. I also did not understand
2 why these officers refused to let me out of my cell when they were letting everyone else
3 out for dayroom.

4 7. After the officers walked away, some people on the dayroom approached my
5 cell and asked me what was going on. I then asked them to talk to the officers on my
6 behalf. They then came back to my cell and told me that the officers said they did not
7 want to let me out. I called out to Officer Sarmiento, who was also stationed on the floor,
8 and asked him to release me so that I could shower. In response, Officer Sarmiento called
9 me a “bitch.” I then called him a “bitch” back and returned to my bed.

10 8. During evening pill call, at around 8:30 p.m. or 8:45 p.m., one of my
11 neighbors approached my cell and told me something to the effect of, “I heard they’re
12 coming over here to beat your ass.” Because of what had happened earlier with the
13 officers, I took this to mean that this person overheard that the officers were conspiring to
14 harm me. A few minutes later, pill call ended and the officers began locking everyone up
15 on the dayroom floor in their cells. Once everyone was locked up, I saw Officer Rocha
16 and Officer Sarmiento talking to each other in their office while looking in the direction of
17 my cell. After a few seconds, I saw Officer Sarmiento take his utility belt off and place it
18 on the office desk. I then watched Officer Sarmiento walk up the tier and toward my cell.
19 Just as he was a few feet away from my cell, my cell door opened. I then observed that
20 Officer Cruz, who was previously stationed on the floor, was now working in the tower
21 unit and staring right at me.

22 9. Usually, when officers enter people’s cells, they have to signal to the tower
23 officer to open the cell door. This time, however, my cell door was opened just as Officer
24 Sarmiento arrived. Because this sort of thing is so unusual, I believe that Officer
25 Sarmiento had coordinated with Officer Cruz, who had control over cell doors as the tower
26 control officer, to open my cell door.

27 10. After he walked into my cell, Officer Sarmiento stood a few feet away from
28 me and stared at me for about five seconds. He then approached me and, without saying

1 anything, swung his right hand with a closed fist against my face. He hit me with such
2 force that I was launched backwards into my bunk. Officer Sarmiento then climbed on top
3 of me, as I lay in my bunk, and punched me repeatedly in the face with both of his hands.
4 He punched me over and over again in my temples, on my chin, and against my cheeks.
5 My lip was busted open and bleeding from his punches. My face immediately stung and
6 swelled up from his punches.

7 11. Because I already have two strikes and did not want to incur a third strike, I
8 chose not to fight back. Instead, I just tried to push Officer Sarmiento off of me while he
9 pinned me against the bed and punched me. I did not even try to shield my face because I
10 was worried that Officer Sarmiento would claim that I assaulted him. I also thought that,
11 regardless of whether I defended myself, I was going to be seriously injured, so I just let
12 him continue hitting me without much resistance because that way, he could not claim that
13 I was assaultive or resisting. I was in extreme pain in my face because I was not able to
14 defend myself by blocking his punches.

15 12. Officer Sarmiento punched me for about twenty to twenty five seconds
16 before I heard an alarm start going off in the building. As soon as the alarm went off,
17 Officer Rocha ran into my cell through the door. As he ran through the door, I saw him
18 holding his pepper spray canister. Because he was holding his pepper spray canister, I
19 took that to mean that he was ready to spray me immediately. In fact, he immediately
20 sprayed me as soon as he entered the cell, from about four to six feet away. Officer Rocha
21 did not say anything to me before spraying me. I was issued no commands to stop
22 resisting or to prepare to be cuffed. In fact, during the whole incident, not one of the
23 officers involved gave me any commands or orders. They just beat me up.

24 13. As soon as Officer Rocha sprayed me, Officer Sarmiento flinched and
25 loosened his grip on me. I believe that he flinched because he had been hit by some of
26 Officer Rocha's pepper spray. I took that as an opportunity to get away. I was able to
27 push Officer Sarmiento off of me and stand up from my bed. I then tried to run out of my
28 cell through the door, but after taking a few steps, Officer Rocha began hitting me in the

1 head with his baton. I estimate that Officer Rocha hit me on the top of my head about six
2 to eight times. While Officer Rocha hit me from the front of my body, Officer Sarmiento
3 punched me in the back of my head repeatedly. I believe that Officer Sarmiento hit me in
4 the back of my head about three or four times.

5 14. Eventually, I was able to escape my cell by charging past Officer Rocha. As
6 soon as I got out of the cell, I dove on the ground and immediately put my hands behind
7 my back so that the officers could not claim that I was resisting. While on the ground, I
8 noticed that my left hand was in a lot of pain. I felt a sharp, throbbing pain throughout my
9 hand. Because of that pain, I suspected that Officer Rocha had hit my left hand with his
10 baton as I was trying to escape from the cell.

11 15. As soon as I was on the ground, I heard keys jangling very loudly. In prison,
12 when keys are jangling, that usually means that officers are running to respond to an
13 incident. As I lay on the ground, I also saw Officer Cruz holding a rifle and pointing it at
14 me from the control tower.

15 16. At this point, I became very fearful for my life. I was worried in particular
16 that the officers would claim that I was carrying a weapon, which they would then use as
17 an excuse for Officer Cruz to shoot me. Because I believe they coordinated this attack as a
18 result of the way they opened my cell door and were talking about harming me beforehand,
19 I felt that it wasn't a stretch for them to try to kill me. While I was housed at Corcoran, I
20 heard of multiple people getting shot by staff without any justification at all. Knowing that
21 such violence was commonplace, and that there are no video surveillance cameras at
22 Corcoran, I was terrified that I was going to be killed.

23 17. While I was on the ground, and before the responding officers arrived, one of
24 the officers cuffed me. I could not see whether it was Officer Rocha or Officer Sarmiento.
25 Then, one of the officers – again, I could not see which one – stomped on my right hand
26 with extreme force. There was absolutely no justification for this, as I was already on the
27 ground and cuffed behind my back.

28

1 18. Four responding officers then picked me up and escorted me to the shower.
2 They then placed me at the step of the shower, waited a second, and then escorted me out
3 of the building. At no point did they allow me to decontaminate the pepper spray from my
4 eyes, which was still burning badly at this point. I believe that they made me wait outside
5 of the shower for a moment in order to claim that they decontaminated me, even though
6 they did not do that.

7 19. Once we were outside of the building, one of the escorting officers, Officer
8 Rin, started raising my arms, which were still handcuffed behind my back, which was
9 extremely painful in my shoulders. I believe that Officer Rin did that solely to inflict pain
10 on me. When I turned around to tell him to stop lifting my arms, he yelled at me, "If you
11 turn around again, we're going to beat your ass again right here."

12 20. I was then placed in a holding cage in the program office and the cuffs were
13 removed from my wrist. I waited about ten minutes before Sergeant Perez entered the
14 office. At this point, although I was still having a lot of trouble seeing due to the pepper
15 spray in my eyes, I could see and feel that something was seriously wrong with my left
16 thumb. It was drooping and deformed. While I could still feel my thumb a little bit, I
17 could not move it at all. I first asked Sergeant Perez to decontaminate my eyes, but he just
18 ignored my request and told me that I was "going to be in here for a while." When I then
19 told him that my thumb was injured and that I needed medical attention, he just walked out
20 of the office.

21 21. After waiting about an hour, Sergeant Perez returned to the office and started
22 reading aloud a Rules Violation Report ("RVR") about the incident. Sergeant Perez
23 wanted me to sign some paperwork, but I refused to because I was upset about my
24 mistreatment and I was having trouble reading at the time. At this point, I was starting to
25 feel groggy and out of it. My head was also throbbing from a headache. Because of these
26 symptoms, I now believe that I suffered a concussion as a result of the incident.

27 22. A staff member – I cannot quite remember who this was because I was quite
28 disoriented at the time – then conducted an examination of my injuries and recorded them

1 on a body chart. I showed that staff member the injuries on my hands, including my
2 deformed left thumb, but they did not mark those injuries on the chart.

3 23. About an hour later – and about two hours in total after the incident – I was
4 finally escorted to the medical clinic. Medical staff placed a popsicle-stick splint on my
5 left thumb and wrapped it with adhesive and an Ace bandage.

6 24. After being treated at the clinic, custody staff again returned me to a cage in
7 the program office, where I waited for about another hour to an hour and a half. Staff then
8 escorted me to the Correctional Treatment Center (“CTC”). I was given X-rays. Doctors
9 told me that my left hand at the thumb was broken. I also showed the doctor my right
10 palm where it meets the thumb, which was severely swollen compared to my broken left
11 hand, but my doctor still did not want to do an X-ray. He downplayed that injury and told
12 me that it was “just swelling.” I also told him that my jaw was in severe pain, but he again
13 told me that he did not want to do any more X-rays. He also told me that if I continued
14 experiencing symptoms, I should just submit a medical request form. Staff then escorted
15 me to the ASU on the 4A Facility at Corcoran, where I was housed for the coming week.

16 25. The morning after the incident, staff pulled me out of my cell and escorted
17 me to the CTC once again. At the CTC, they removed the bandage from my left thumb
18 and put a proper brace on my thumb. A supervising custody staff member, either a
19 Lieutenant or a Captain, also came to see me in the CTC. I told her that I had been
20 assaulted by staff for no reason, but she didn’t seem very interested in hearing my side of
21 the story. She stated that she was going to transfer me to a 180 degree prison, which is the
22 most secure and restricted type of prison outside of segregation units, and that I would
23 have to serve a SHU term.

24 26. About three days after I was placed in administrative segregation, two
25 sergeants came to interview me. I participated in a video-taped interview with them in a
26 confidential room in the building. They also filled out a second body chart which was
27 much more comprehensive than the first body chart, and it included the injuries on my
28 hands. They also video-taped my injuries.

1 27. About five days after the incident, I was taken to Building 4A3R, which is
2 the SHU building at Corcoran. All the while, I had filed multiple medical forms because
3 my right thumb and my jaw continued to hurt a lot. Because of the concussion I suffered, I
4 was also very disoriented for about five days after the incident. I had trouble remembering
5 things, I frequently did not know what time of day or date it was, and I was having trouble
6 thinking about things for more than a few seconds. I couldn't even focus enough to read
7 more than three sentences.

8 28. Eventually, I was escorted to California Substance Abuse Treatment Facility
9 ("SATF") for X-rays of my jaw and my right hand. When I returned to the medical clinic
10 on 4A at Corcoran, a nurse told me that I had no injuries on my jaw or hand. That did not
11 make sense to me because my hand was still in severe pain. In fact, my right hand hurt
12 more than my broken left hand. My jaw was clicking whenever I moved it. I told medical
13 staff about these concerns, but they did not listen to me.

14 29. A few weeks after the incident, I was scheduled for an outside specialist visit
15 for my right hand injury. The outside doctor confirmed once again that my left hand was
16 fractured. The doctor also told me that my right thumb was dislocated, and advised that I
17 might have to do surgery. In mid-January of 2020, I had a closed reduction surgery on my
18 right hand to fix the dislocation. A pin was also placed in my hand to help relocate my
19 thumb, and I wore a cast on my right hand for about four to six weeks. In March of 2020,
20 the pin was surgically removed from my hand. After the surgery, a nurse at Corcoran told
21 me that my doctor had noted that I would have nerve damage in my right pinkie because the
22 pin had moved while it was in my hand. Ever since the pin was installed, I have noticed
23 that I have very little sensation of touch on the outer part of my right pinkie.

24 30. For about three weeks after the incident, my jaw was swollen and in severe
25 pain. I also had lumps and bumps on my head from where Officer Rocha hit me with his
26 baton. Even though my hands are healing, I still wear a brace on my right hand to this day.
27 Both of my hands, and my thumbs specifically, are still very painful, which makes it hard
28 for me to do things. Before this assault, I was a very fit and athletic person. I worked out

1 and played all types of sports, like basketball and baseball, on nearly a daily basis. Since
2 the assault, however, I have been unable to do any of those things. I cannot even do a
3 single push-up. Because I cannot exercise, I have gained a lot of weight, which has caused
4 me to become even more depressed. I can also only write for about fifteen to twenty
5 minutes before my hand starts hurting to the point that I have to stop.

6 31. I received a Rules Violation Report (“RVR”) for “assault on a peace officer
7 not likely to cause great bodily injury” in connection with this incident. In the RVR,
8 Officer Sarmiento wrote that I tried to assault him after he entered my cell to conduct a
9 welfare check. Officer Sarmiento then claimed that his pepper spray “accidentally”
10 discharged, and he caught some of the spray in his eyes. He then said that he observed me
11 run out of the cell, slip, and fall right on my hands. Officer Sarmiento did not mention the
12 fact that Officer Rocha entered the cell and pepper-sprayed me and hit me with his baton.
13 In fact, in his incident report, Officer Rocha claimed that he was downstairs while the
14 incident occurred. Further, while the report dismisses my hand injuries by claiming that I
15 fell on my hands, it does not explain the injuries to the top of my head and my face. The
16 entire RVR was full of inconsistencies.

17 32. At my classification committee, staff claimed that I was guilty of this false
18 RVR even before the RVR had been heard. They then told me, as the captain had said
19 previously, that I was going to have an 8 month SHU-term and that I would eventually be
20 transferred to a 180-degree prison. Eventually, I was transferred to SAC, the 180-degree
21 prison where I am currently housed, even though I still have not been found guilty of the
22 RVR. My RVR has still not been heard because I deferred the hearing until the District
23 Attorney has decided whether to take the case against me.

24 33. I filed multiple 602s about this incident. I filed a 602 about the unnecessary
25 use of force itself, as well as 602s about the RVR and the classification committee action.
26 These 602s are at the third level of review after they were all denied at the second level.

27 34. In the weeks after the incident, I was harassed and retaliated against by staff
28 at Corcoran after submitting complaints about this incident. For example, a few weeks

1 after the incident, I overheard one officer, Officer Burden, talking about me to other staff.
2 When I confronted him about it, Officer Burden told me to “stay out of trouble,” which I
3 took as a threat, as if he was going to make trouble for me.

4 35. After I was moved to the SHU in 4A3R, Sergeant Perez, Officer Rocha, and
5 Officer Rin were re-assigned to the third watch shift in the building. It made me extremely
6 uncomfortable to have to interact with and see these officers on a near-daily basis.
7 Whenever these officers were on duty, a lot of my mail was misplaced. One time, for
8 example, I sent legal mail to the Government Claims Board while these officers were
9 working in the building. About a week later, my letter was returned to me and it had been
10 opened and covered up with tape. Similarly, I received mail from my attorney that had
11 been opened before it was delivered to me on multiple occasions. Someone who came to
12 4A3R from my former yard, C-yard, also told me that Officers Rocha and Rin threw out
13 my property after I had been transferred to administrative segregation. I believe that these
14 staff members were messing with my property and my legal mail in retaliation for my
15 complaints against them.

16 36. As a result of this incident, I have had a lot of trouble sleeping. I experience
17 nightmares on a near-daily basis about the incident. With every nightmare, the incident is a
18 little different, but each one ends with my death. Sometimes, the nightmare ends with
19 Officer Cruz shooting me dead from the tower, and other times, it ends with Officer
20 Sarmiento and Officer Rocha bashing my head in. When I have these nightmares, I am
21 often unable to fall back to sleep once they wake me up, which just worsens my mental
22 health. Throughout the day, I experience racing thoughts, anxiety, and paranoia, all of
23 which are heightened by interactions with staff.

24 37. In my time at Corcoran and SAC, there have been a few times that I needed
25 help but didn’t ask for it because I was afraid of what would happen to me. In general, I
26 am scared of staff because of what they did to me at Corcoran. If I am feeling really
27 mentally down and need to talk to a clinician really badly, I do not ask staff for help
28 because I don’t feel comfortable around them and I know they would not help me. Based

1 on what happened to me, I do not think that staff have good intentions. I cannot trust them
2 to do anything to help me. Because of my right hand dislocation and nerve damage, for
3 example, I need help with writing letters and filling out forms, but I do not feel
4 comfortable asking staff for this sort of help. Instead, I have been trying to learn how to
5 write with my left hand so that I do not need to ask anyone for help.

6
7 I declare under penalty of perjury under the laws of the United States of America
8 that the foregoing is true and correct, and that this declaration is executed at Represa,
9 California this 26th day of June, 2020.

10
11 
12
13 On June 26, 2020, due to the closure of California State Prison – Sacramento in
14 light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against
15 witnesses in support of Plaintiffs’ Motion, including ongoing concerns about the
16 confidentiality of the legal mail system at California State Prison – Sacramento, I read the
17 contents of this declaration, verbatim, to  by telephone. Mr.  orally
18 confirmed that the contents of the declaration were true and correct. Mr.  also orally
19 granted me permission to affix his signature to the declaration and to file the declaration in
20 this matter.

Exhibit 25

DECLARATION OF

I, _____, declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at California State Prison – Corcoran (“COR”) on Facility B in Building 01. I am 49 years old.

3. I am an *Armstrong* class member. I am designated as DPM, which means I need an assistive device to help me walk. I have a ground floor housing restriction with no stairs because I cannot climb up or down them. I use a cane to help me walk. I also have foot orthoses, a mobility disability vest, and eyeglass frames as durable medical equipment (“DME”).

4. When I transferred to COR in early July 2019, I was designated as DLT and also used a cane. Since December 2018, I have been recovering from a surgery on my right ankle. I also have diabetes and frequently experience issues with my feet, including ulcers and swelling. As a result, medical staff at COR prescribed me with a temporary wheelchair on July 30, 2019, to allow me to keep pressure off of my foot. By January 2020, I still needed a wheelchair to move around and my disability code was changed to DPO, which stands for intermittent wheelchair-user. I still struggle with my mobility, but I no longer require a wheelchair.

5. I am a *Coleman* class member. I am at the Enhanced Outpatient Program (“EOP”) level of mental health care. EOP patients live in separate, sheltered, housing units with other EOP individuals. They receive individualized mental health treatment, including 10 hours each week of structured therapeutic activities and frequent meetings with their case managers. I suffer from depression and anxiety. When my mental health symptoms are at their worst, I feel suicidal.

1 6. Along with my diabetes, I have other serious medical conditions. I have
2 been diagnosed with Hepatitis C, high blood pressure, and cataracts. I am classified as
3 high risk medical.

4 7. I have been housed at COR from July 16, 2019 to present. I was previously
5 housed at COR from April 2012 until May 2014 and then again from July 2016 until late
6 February 2017. I have been housed in the following locations at COR: Facility B,
7 Building 01 and Facility A, Buildings 01 and 03. Building 03 is an Administrative
8 Segregation Unit (“ASU”) that houses EOP patients.

9 8. I was a victim of staff misconduct at COR.

10 9. A few months ago, around October 16, 2019, in housing unit 3A-04, I asked
11 third-watch custody officers in my housing unit if I could bring my wheelchair into my
12 cell. Because of my disability, I cannot stand for prolonged periods of time. I am stuck in
13 my bed all day if I do not have a wheelchair to sit on. From my bed I can’t see out of my
14 cell door and staff are unable to see me. I am diabetic, and if I go man down or need
15 medical attention, I have no way to get the attention of staff. The officers, Officer Parra
16 and his female partner, I do not know her name, refused to allow me to have my
17 wheelchair in my cell. I did not understand why I was not allowed to have my chair
18 because other officers in the unit let me have my wheelchair in my cell. Also, I was just in
19 Ad Seg, a more restrictive environment, where I was allowed to have my wheelchair in my
20 cell.

21 10. Instead of letting me have my wheelchair, Officer Parra and his partner
22 ordered me to lock it up. Because I did not understand why I was not allowed to have my
23 wheelchair, and I was worried about my medical condition, instead of locking up in my
24 cell I locked myself in the shower. I understood that it was protocol for a sergeant to be
25 called over if someone was locked in the shower, so I locked myself in the shower hoping
26 to speak with a sergeant. Next, Officer Parra said, “You obviously do not know Corcoran
27 very well” and both officers walked out of the building. I thought they left to go get the
28 sergeant. Less than five minutes later, they returned and they had three other officers with

1 them. One was a female officer named Officer Gamboa. The other two officers were
2 male. The younger male officer was Officer Timothy Wolfe. Officer Wolfe said
3 something like, "Now you're going to learn what it is like at Corcoran," and he told the
4 tower officer to pop the shower door open. At that point I asked to see the sergeant. Next
5 thing I know, Officer Wolfe swung and hit me in the face. The other officers entered the
6 shower and started to beat me. They were kicking and punching me, and striking me with
7 their batons, for at least five minutes. At some point I lost consciousness. When I came
8 to, I was being dragged from the shower to my cell. I could hear many incarcerated
9 people yelling and banging on their cell doors so I knew they could see what was
10 happening. The officers left me in my cell with no cane, no wheelchair. I was just left
11 there bleeding in my cell all night. It took me 30 minutes before I could even get up off
12 the floor.

13 11. There were two Psych Technicians in the unit at the time the assault occurred
14 but they did nothing. I saw the officers tell the Psych Technicians to go in to the office and
15 shut the door and I saw them walk in to the office. They stayed in the office with the
16 blinds closed the entire time. The next day I attempted to talk to one of the Psych
17 Technicians that had been in the unit but she told me that she did not want to get involved
18 and that she was very close to retiring.

19 12. As far as I am aware, staff did not sound an alarm during the incident.

20 13. The next morning, multiple people told me that they reported what they had
21 witnessed to the recreational therapist during their mental health groups. The recreational
22 therapist told the group that she would email her supervisor and the yard Captain. I did not
23 go to group because I was too afraid to come out of my cell.

24 14. Two sergeants came and spoke with me the next night. The sergeants asked
25 me to tell them what happened. But, before I started talking, they warned me "off the
26 record" that I should be careful what I report because, if I report staff misconduct, things
27 will get much worse for me. They said that if I instead reported that I slipped and fell, they
28 could do me a favor and get me moved out of my cell to a better one with electricity. Off

1 the record, I told them what happened. On the record, I told them I slipped and fell. They
2 had a nurse document the injuries on a 7219 and they took a video of my injuries and
3 recorded me saying on video that I slipped and fell. My injuries were so severe, I think I
4 would have had to have fallen off a ten story building to look as bad as I did from a
5 supposed slip and fall. I had difficulty breathing for six months after the assault and I still
6 have pain and difficulty moving my hand where they stomped on it.

7 15. I requested treatment less than a week after the assault because I was having
8 difficulty breathing. Approximately three weeks after the incident staff took X-rays of my
9 back and ribs but I did not have any broken bones.

10 16. The same sergeants who talked to me also talked to at least 15 different
11 incarcerated people in the unit. Most of them told me that they reported what they saw.
12 Multiple people told me that they were threatened by the sergeants who took their
13 statement but that they reported what they witnessed anyway. A few of them told me that
14 they said they did not want to be involved and did not report what they saw.

15 17. Staff assaults were almost a daily occurrence in 3A-04 during the time I was
16 housed there.

17 18. I became very afraid of custody officers after I was assaulted. I do not think
18 I can ask staff for help with my serious medical conditions or any of my disability needs. I
19 fear that if I ask for help again, staff might kill me. For at least three weeks after the
20 assault, I had an open wound on my foot and I was supposed to get my dressing changed
21 daily. In order to get my dressings changed, I had to ask custody staff to take me to
22 medical and to wait there for me. I stopped asking to be taken to medical to change my
23 dressing after I was assaulted. Instead I just replaced the dressing with clean toilet paper in
24 my cell. I had an active infection for several months and finally had to receive surgery on
25 my foot in February 2020.

26 ///

27 ///

28 ///

1 19. There have been multiple times when I have needed insulin but I have not
2 wanted to ask staff for help so I have passed out. Most recently, I passed out in my cell
3 about two weeks ago. I was given glucose tabs.

4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Corcoran,
6 California this 15th day of June, 2020.

7
8
9
10 On June 15, 2020, due to the closure of California State Prison – Corcoran in light
11 of the COVID-19 pandemic and ongoing concerns that officers might retaliate against
12 witnesses in support of Plaintiffs’ Motion, including ongoing concerns about the
13 confidentiality of the legal mail system at California State Prison – Corcoran, I read the
14 contents of this declaration, verbatim, to [REDACTED], by telephone. [REDACTED]
15 [REDACTED] orally confirmed that the contents of the declaration were true and correct.
16 [REDACTED] also orally granted me permission to affix his signature to the declaration
17 and to file the declaration in this matter.

Exhibit 26

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation (“CDCR”)
6 number is [REDACTED]. I am currently housed at California State Prison, Corcoran (“COR”)
7 on Facility 4A in Building 2L. I am 49 years old.

8 3. I am a *Coleman* class member. I am at the Correctional Clinical Case
9 Management System (“CCCMS”) level of mental health care. From February 7, 2020 to
10 May 6, 2020 I was at the Enhanced Outpatient Program (“EOP”) level of mental health
11 care. From May 6, 2020 to May 30, 2020 I was at the CCCMS level of care. From
12 May 30, 2020 until June 12, 2020, I was at the Mental Health Crisis Bed (“MHCB”) level
13 of care. Since June 12, 2020 I have been at the CCCMS level of care.

14 4. I am diagnosed with major depressive disorder with psychotic features and
15 anxiety. For these conditions, I take Remeron, Buspar, Vistaril and Zyprexa.

16 5. I have been housed at COR since January 19, 2018, with a break from
17 January 27, 2020 to February 7, 2020, when I was in the MHCB at the California
18 Institution for Men. From February 7, 2020 until May 30, 2020 I was housed in COR
19 3B01. From May 30, 2020 until June 4, 2020 I was housed in COR 4A3L, the Temporary
20 Mental Health Unit (“THMU”). From June 4, 2020 to June 12, 2020 I was housed in the
21 COR CTC, which is the MHCB. From June 12, 2020 until August 19, 2020 I was housed
22 in COR 3B02. On August 19, 2020, I transferred to COR 4A2L, my current unit.

23 6. I was a victim of staff misconduct at COR on May 30, 2020.

24 7. On May 6, 2020 I discharged from the EOP level of care to the CCCMS
25 level of care.

26 8. Before I was dropped to CCCMS, my aunt’s sister called to inform staff that
27 my aunt passed away, so they could inform me. My aunt’s sister spoke to Dr. Glatstein,
28 the EOP supervisor, and informed him. Dr. Glatstein did not tell me until later in May,

1 after I had been moved to CCCMS. He said he waited because my aunt was not an
2 immediate family member. My grandmother also passed away a few months ago in
3 January of 2020. I was sentenced to life with the possibility of parole. I hoped someday to
4 live with either my grandmother or my aunt. After I found out that my aunt passed away
5 too, I stopped taking my medications and stayed in my cell for several weeks. Because I
6 stopped taking my medications, my voices came back. I was feeling paranoid, like people
7 were out to get me, so I did not come out of my cell. On May 30, 2020, I attended med
8 pass for the first time in about two weeks. I had been contemplating suicide and I had
9 made a rope in my cell. I was thinking about suicide a lot at that time, so I went to tell
10 staff because I needed help.

11 9. When I was housed in that unit we went to med pass near the medical
12 building. There is one building with education, the library, program office, medical,
13 canteen, the chow hall and the kitchen, in one long row. The med pass for my building
14 was held in front of medical. I was standing in line in front of the nurse, who was inside
15 the medical building. I went inside to get my medication; the line was outside the
16 building.

17 10. Typically there are around five officers standing around when we do med
18 pass. There are two psych techs, passing out medications. Incarcerated people stand in
19 line for medication outside. Officers stand nearby supervising. Sometimes they speak to
20 us, asking questions or chatting.

21 11. At med pass on May 30, 2020 at about 4:30 p.m., when I made it to the front
22 of the line, I told the psych tech, Ms. Winfield, that I was feeling suicidal. At this point
23 there were three other incarcerated people, including my cellmate, nearby in line. My
24 cellmate told me later that he witnessed what happened.

25 12. Ms. Winfield pointed to the officer nearby, Officer L. Lujan. That officer
26 took me against the wall, with my chest against the wall and my hands behind my back,
27 and cuffed me up. An officer told me to face the wall. This is normal in my experience:
28 typically you cuff up after reporting suicidality, then they put you in a cage to wait to see

1 the doctor. Sometimes it takes several hours to see the doctor and you are just waiting in
2 the cage.

3 13. In this case, after I cuffed up and was standing against the wall, facing the
4 wall, Officer L. Martinez-Toledo came over. When he came over, I turned to face him.
5 He stood next to me on the right side, holding my arm. He asked something like, "Why
6 are you trying to roll-up off the yard?" To "roll-up" means to change housing and leave
7 that yard. I said I was not. He said, "This isn't going to work. You're going to have to do
8 something to go suicidal." He began to try to escort me back to my cell. He said that I had
9 to "earn it." It is my understanding that he was saying that I needed to take some action to
10 hurt myself in order to go suicidal.

11 14. While this happened, I believe Sergeant J. Holland was inside his office.
12 The sergeant's office is next door to med pass, inside another room. I am not sure if the
13 sergeant could hear what was happening.

14 15. I refused and told Officer Martinez-Toledo that I was not going back to my
15 cell. I began to turn back towards the wall, with Officer Martinez-Toledo still holding my
16 right arm. Officer J. Rosales, Officer E. Martinez, and Officer Lujan were all standing
17 nearby, observing med pass. Officer J. Garcia was in the tower, about 20 feet away over
18 the gymnasium. After I refused and turned back to the wall, I felt another person grab me.
19 Then I hit the ground. Once I hit the ground it felt like about three different people were
20 holding me. After I hit the ground I could feel weight on my legs, knees and back. Then I
21 was knocked out.

22 16. Sergeant Holland later told me that after this, he said I was put into a cage
23 and that he came to speak with me in the cage in the program office. I do not remember
24 being in the program office in a cage or speaking with him.

25 17. I woke up in an ambulance. I am not sure how much time had passed since I
26 was knocked out, enough time for the ambulance to be called and arrive at the yard.

27 18. When I woke up in the ambulance, we were stopped in front of the program
28 building. There were a lot of officers around. I think the alarm went off, but I do not

1 remember it going off. Because of the number of officers around, I think it did. The
2 program building is about ten feet away from the medical building where I was knocked
3 out. The ambulance came about ten feet away from the medical building, to the left if you
4 are facing the yard. First the ambulance took me to the COR on-site hospital, the TTA. I
5 told doctors at the TTA that an officer knocked me out. Officer Rosales took me to the
6 TTA and he also said officers knocked me out.

7 19. Sergeant Holland came to speak with me again in TTA. Sergeant Holland
8 then said that he had tried to speak to me earlier in the cage but that I was unconscious. I
9 do not remember him saying anything about what happened to me, about officers knocking
10 me out. He said nothing about the use of force.

11 20. I went to the Adventist Health Hanford emergency room to be evaluated
12 after I fell unconscious. They took a CT Scan of my head because I had been knocked out.
13 I did not receive the medical paperwork, but no one told me that I had a concussion.
14 Doctors at the emergency room asked me if officers had knocked me out and I said yes. It
15 is my understanding that an officer told the ambulance driver what happened. Then the
16 driver told the doctor so he knew what happened. I did not have to explain because the
17 doctor came and said, "The officer slammed you to the ground and knocked you out," and
18 I just said yes. I was discharged the same night and went back to COR.

19 21. After I returned to COR, I was evaluated by a Crisis Intervention Team
20 ("CIT") at midnight on May 30, 2020. I explained that I was suicidal and thinking of
21 killing myself. I told the CIT team that I was hearing voices telling me to hurt myself.
22 After I spoke to the CIT team, I moved to COR 4A3L, which is the THMU for a higher
23 level of mental health care. I was put on 1:1 suicide watch. On June 4, 2020, I moved to
24 the MHCB. I stayed at the MHCB level of care for about 12 days total.

25 22. It is my understanding that my MHCB clinician, Ms. Houston, reported this
26 incident. She told me that she would report it.

27 23. After 8 days at the MHCB, I was interviewed with a camera for a use of
28 force investigation. Sergeant Holland came to interview me, but because he had been there

1 that night, I refused to participate. I did not want to speak to him about it. I believe this
2 interview was a response to my clinician's report.

3 24. About 12 days after the incident, around June 16, after I was discharged from
4 the crisis bed, a lieutenant came to speak with me. She interviewed me, asking me what
5 happened, where was I when I was slammed to the ground, which officers were involved.
6 I felt more able to speak with her. By then, I was out of the MHCB and back on the yard.
7 It was one-on-one; I felt more safe speaking with her then Sergeant Holland. Sergeant
8 Holland was there at the scene when all this happened so I worried he was not neutral.
9 About August 15, 2020, I received the investigation report. They talked to officers and
10 some inmates. It said this incident did not meet the criteria. So I understand there will not
11 be further action taken.

12 25. I received an RVR for "Willfully Delaying a Peace Officer" for this incident.
13 I was found guilty and 90 days of credit were taken. There was no mental health
14 assessment conducted for this RVR because I was at the CCCMS level of care and it did
15 not result in a segregation term. I believe that this RVR was falsified. This is only the
16 second RVR that I have received during the last five years. The other RVR was for being
17 late to work in 2019.

18 26. I filed a 602 about this RVR on about July 28, 2020. I wrote that the hearing
19 process was unfair and they would not call any of my witnesses. Because I appealed the
20 first hearing, at which I was found guilty, I have another hearing on October 23, 2020. On
21 October 23, I will find out if the RVR will be reheard or if the original guilty ruling stands.

22 27. I have also witnessed staff misconduct at COR.

23 28. When I was EOP in COR 3B01, from about 2018 to April 2019, I worked as
24 a porter cleaning the building. I was out of my cell frequently. Sometimes, someone
25 would call me over to ask me to tell the officers that they were suicidal. I would go tell the
26 officers. Once, an officer said, "You didn't tell me," and then never went to check on that
27 person. I worked as a porter for about a year and a half. This happened a lot, that the
28

1 officer would not check on someone who was suicidal. This happened more than ten times
2 in my estimation.

3 29. The incident on May 30, 2020 made me feel hurt. I could not understand
4 why they slammed me to the ground after I asked for help. It makes me reluctant to ask
5 for help at COR. There is no telling what custody staff at COR will do if you ask for help.
6 This was an unprovoked incident. I was not arguing or resisting. If I start to have mental
7 health problems, I do not want to talk to staff. I do not want to ask the officers for help if I
8 need it. I would try to find a member of mental health to talk to. I do not trust officers
9 because of what I experienced.

10 30. In my experience, people at the EOP level of care are targeted by officers.
11 Officers say that we are faking, they say we are not “crazy” and that we are faking our
12 symptoms. I tell officers that it is not about being crazy, it is about depression and about
13 other things going on in our lives. In my opinion, officers think EOP people are taking
14 advantage of the system. They do not help us when we need it.

27 ///

28 ///

1 31. In terms of staff misconduct, COR is one of the worst prisons that I have
2 been to. There is more staff misconduct than anywhere else I have been. I have been in
3 prison since 1991. I don't know why it is so much worse at COR.

4
5 I declare under penalty of perjury under the laws of the State of California that the
6 foregoing is true and correct, and that this declaration is executed at Corcoran, California
7 this 28th day of August, 2020.

8
9
10
11 On August 28, 2020, due to the closure of COR in light of the COVID-19 pandemic
12 and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at COR, I read the contents of this declaration, verbatim, to [REDACTED] by
15 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
16 and correct. [REDACTED] also orally granted me permission to affix his signature to
17 the declaration and to file the declaration in this matter.

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at Richard J. Donovan Correctional Facility
6 (“RJD”) on Facility C in Building 14. I am 39 years old.

7 3. I am a *Coleman* class member. I am at the Enhanced Outpatient Program
8 (“EOP”) level of mental health care. I am diagnosed with depression. For my depression,
9 I take sertraline, trazodone, and Vistaril. During the time that I was housed at California
10 State Prison, Corcoran (“COR”) and the California Substance Abuse Treatment Facility
11 (“SATF”), my mental health issues were similar to the issues I experience today.

12 4. From November 7, 2019 to January 15, 2020, I was not in the Mental Health
13 Services Delivery System. From January 15, 2020 to February 2, 2020, I was at the
14 Mental Health Crisis Bed (“MHCB”) level of care. From February 2, 2020 to March 5,
15 2020, I was at the ACUTE level of mental health care. From March 5, 2020 to March 17,
16 2020, I was at the ICF level of mental health care. Since March 17, 2020, I have been at
17 the EOP level of mental health care.

18 5. I was housed at SATF from November 7, 2019 to January 14, 2020; from
19 January 7, 2020 until January 10, 2020, I was admitted to the Adventist Hospital Hanford
20 (“AHH”). I was housed at COR from January 14, 2020 to February 2, 2020. I was housed
21 at the California Health Care Facility (“CHCF”) from February 2, 2020 to March 5, 2020.
22 From March 5, 2020 to March 17, 2020, I was housed in the Department of State
23 Hospitals, Atascadero (“ASH”). I returned to COR on March 17, 2020 and remained there
24 until my transfer to RJD on May 26, 2020.

25 6. During my time at SATF, I was housed in the following locations. From
26 November 7, 2019 until December 13, 2019 I was housed in SATF Facility D-3. From
27 December 13, 2019 until January 7, 2020 I was housed in SATF Facility E-1, which is an
28

1 Administrative Segregation Unit (“ASU”). From January 7, 2020 to January 10, 2020, I
2 stayed at an outside hospital. From January 10, 2020 to January 14, 2020 I was again
3 housed in SATF Facility E-1.

4 7. During my time at COR, I was housed in the following locations. From
5 January 14, 2020 to January 15, 2020, I was housed in COR Facility 4A3L, which is an
6 ASU. From January 15, 2020 to February 2, 2020, I was housed in the COR CIT, which is
7 the MHCB. On February 2, 2020, I transferred to CHCF.

8 8. I returned to COR on March 17, 2020. From March 17, 2020 until my
9 transfer on May 26, 2020, I was housed in COR Facility 3A03, the EOP ASU.

10 9. I was a victim of staff misconduct at SATF.

11 10. On January 1, 2020, my daughter passed away in a car accident. She and her
12 mother were driving to visit me. It was very traumatic. After this accident, I was
13 struggling with a lot of anxiety.

14 11. On January 7, 2020 at about 1:30 p.m., I told the inmate-porter on my unit
15 that I was experiencing chest pains and that it was an emergency; I asked him to find
16 Officer Bott. I asked for Officer Bott because he was the regular officer on duty on the
17 floor that day. I was in my cell, maybe cell [REDACTED], alone. I had a cellmate, but he was not in
18 the cell at that time. After I spoke to the porter, from my cell, I called out to Officer Bott
19 that I was not ok and needed help. He was about ten feet away from my cell door. My cell
20 was on the second floor and he was downstairs. There was no activity in the unit so I
21 believe that he could hear me. I told Officer Bott that I was experiencing chest pains and
22 that I felt suicidal. Officer Bott said, “you’ll be ok” and walked away. It is my
23 understanding that because 1:30 p.m. is close to the change of shift at 2:00 p.m., Officer
24 Bott was reluctant to help me. Additionally, on another yard previously I had problems
25 with Lieutenant Lunes and when I arrived on the yard where Officer Bott worked, he made
26 a point of telling me that Lieutenant Lunes was a “friend of his.”

27 12. But I needed help; I only needed an officer to say that he would help. My
28 resolve to live was gone. My mental state was shot. When I asked for help, Officer Bott

1 threw it out the window. That felt like a sign, saying that I was worthless. It took courage
2 for me to ask for help from Officer Bott. I was on orientation status at the time because I
3 had recently arrived on the unit. I could not go to yard or seek help outside of my cell.

4 13. Around 2:00 p.m., my cellie came back to our cell; he had been at clinic. He
5 did not know what was going on. He had just moved in two days prior. I did not know
6 him well and did not tell him that I was feeling suicidal or that my daughter passed away.
7 When he came back from clinic, my cellie asked me what happened. He said, “did
8 something happen with Officer Bott?” I replied that I had tried to get Officer Bott to come
9 to our cell door. My cellie then said “When I was walking up the stairs, Officer Bott said
10 that ‘if I have any stuff that I better get it because you’re going to the Hole.’” I felt
11 confused, but my mind was elsewhere. I was in a bad state. My cellie put on his
12 headphones and went into his top bunk. He was oblivious to the world, watching
13 television.

14 14. At about 3:00 p.m., I tried to commit suicide. My heart stopped because of
15 my attempt and the next time I woke up, I was in the back of an ambulance. I do not know
16 how I got medical help.

17 15. I stayed at AHH for four days. My ribs were broken during chest
18 compressions to revive me. Prior to my suicide attempt, I was having chest pains, which I
19 attributed to my anxiety. Medical staff at SATF gave me Narcan to try to wake me up and
20 at AHH I received morphine for the chest pains. The hospital also said that I had
21 pneumonia and a problem with one of the valves of my heart. I rested for these conditions
22 and did a stress test, among other things. Medical staff gave me blood and urine
23 screenings: I was negative for everything. I had not taken narcotics. The toxicology report
24 returned all negative for drugs such as narcotics and amphetamines. I took morphine after
25 providing the blood and urine samples for the toxicology report.

26 16. When I was staying at the hospital, I could not talk to my family. My wife
27 visits every Saturday and Sunday. I asked to be released on Friday, January 10, 2020, in
28 time to return to SATF for her visit.

1 17. When I returned to SATF on Friday, January 10, 2020, officers said that I
2 was being moved to the ASU for safety concerns. First they took me to SATF CTC to be
3 medically cleared to go back to yard. I was cleared and then the escort officer took me out,
4 but instead of taking me back to my building he placed me in a cage in the program office.
5 That escort officer told me I was going to the ASU. I asked why and he went to get the
6 third watch sergeant. I spoke to the sergeant and explained that Officer Bott denied me
7 help. The sergeant gave me copies of the lock-up order and the 1030 form, which is a
8 confidential disclosure form. He also asked me to do a urine test, which I did but I also
9 explained that I had one in the hospital already.

10 18. Typically when you are placed in ASU, staff provide you with a copy of the
11 lock-up order. The lock-up order said that I asked to be moved for safety concerns. This
12 lock-up order was written by Officer Bott. It stated that Officer Bott received information
13 that I had safety concerns. The 1030 disclosure form was signed that day, January 10,
14 2020. The 1030 form says that Officer Bott received confidential information that I no
15 longer wanted to be on the yard because of a drug debt on SATF E-Yard.

16 19. This is false. I did not ask to be moved; I had just returned from the hospital.
17 It is my opinion that because Officer Bott denied me help, he was trying to cover his
18 tracks. While I was in the SATF ASU on the day after I returned from the hospital,
19 Saturday, January 11, 2020, ISU officers came to pull me out. There were two officers, a
20 male and female officer, who came to interview me about what happened on January 7,
21 2020. These officers told me that ISU searched my cell with a canine after January 7,
22 2020. I said that I asked Officer Bott for help.

23 20. I filed a 602 about Officer Bott on a weekday, around January 15, 2020
24 while I was still in the SATF ASU. When I was at CHCF around the middle of February,
25 Lieutenant Smith interviewed me on the phone about this 602. It is my understanding that
26 an investigation was conducted of Officer Bott, his partner and the tower officers. It is
27 also my understanding that this investigation was started because of my 602. Another
28 incarcerated person who I did not know, who was the porter for Officer Bott, my cellie and

1 a neighbor were also interviewed. I did not receive the results of the investigation, just that
2 they found that his actions were acceptable. I disagreed, what happened to me did not
3 have to happen. So I kept pushing the 602s.

4 21. The SATF ASU is not equipped for people at the EOP level of care and my
5 level of care was going to be increased to EOP. So after my return from the hospital on
6 January 15, 2020 I transferred to COR.

7 22. I was a victim of staff misconduct on April 6, 2020 at COR.

8 23. On April 6, 2020 at 8:30 a.m. I was in my cell, number [REDACTED]. Typically after
9 breakfast, an officer would walk the floor with the clip-board, calling for requests of
10 incarcerated people who want to go to yard. If you want to go, you call out your cell
11 number. On that day, I signed up for yard. Officer Ruiz came to my cell to pull me out for
12 yard. Officer Ruiz had me strip to check for contraband before we left, then cuffed me up.

13 24. In general, I am respectful to officers and try not to be rude. I do not file lots
14 of 602s. I thought everything was cool. I pay attention to my own business and just try to
15 keep my head down and get by.

16 25. On April 6, 2020 I cuffed up and I left my cell, escorted by Officer Ruiz.
17 Usually in the EOP ASU, incarcerated people go to “yard” in “small management yards”
18 or “SMYs.” These yards are small cages about the size of a bathroom surrounded by chain
19 link fencing and set up on a concrete pad. They remind me of big dog kennels. The cages
20 are back to back. One is across from another. If you saw it from above, it would look like
21 many small squares with dirt around. There is no shade.

22 26. With Officer Ruiz, I went out to yard. I was the second to last person taken
23 out to yard on April 6, 2020. My neighbor [REDACTED] was last. Often officers start
24 releasing people for yard at cell 101 and work their way down. My cell, [REDACTED], was near the
25 end of the line. At that point, the entire top tier of the building—cells 201 to 250—was
26 empty. Only cells 101-146 were occupied with a few empty cells between. Additionally,
27 not all eligible people come out to yard so on April 6, 2020, I estimate there were around
28

1 20 incarcerated people outside already. There were also other officers who had just
2 escorted other incarcerated people out.

3 27. Officer Ruiz walked me to the back of the yard, holding my left elbow, to the
4 last few cages. I was chatting with Officer Ruiz, who seemed nervous. I saw Officer Ruiz
5 almost every day; I had an idea of his mannerisms. His manner on April 6, 2020 seemed
6 off. When we neared the third cage from the end, Officer Hernandez was standing there.
7 Officer Hernandez is the yard officer and he held the cage keys. Typically, only yard
8 officers have the keys to the cages. When we got close to him, Officer Hernandez grabbed
9 my right elbow. Officer Ruiz was still holding my left elbow. Together they smashed me
10 against the chain link fence of the cage face first. Both of them called me names. Officer
11 Ruiz said I was a “rat-bitch” and said “suck my dick, you motherfucking rat.”

12 28. The word “rat” could put my life in danger. Other incarcerated people may
13 not know what is going on; they just hear officers calling me a rat. They do not know if
14 officers are referring to me ratting on other incarcerated people, for example. I felt like the
15 officers were trying to put my safety in danger using that word. Officer Ruiz used this
16 word at other times too, giving me my dinner tray for example. Other people down the
17 hallway could hear this. He said it throughout the day during my entire time in that unit.

18 29. On April 6, 2020, while I was still pressed against the side of the cage with
19 an officer on each side, Officer Ruiz gave me 4 or 5 closed-fist punches to my back and
20 kidney area. I started yelling.

21 30. I could hear other incarcerated people yelling for help. I could not believe
22 what was going on. There were other officers only four feet away who I believe could see
23 what was happening. Officer Ruiz told me to “shut the fuck up.” Then Officer Hernandez
24 punched me, also to the back and kidney area but on the right side. I yelled for them to
25 stop. Officer Ruiz grabbed my head and banged it on the cage, yelling at me to shut up.

26 31. By then I was freaking out, asking for help, asking why. Then I went into
27 the yard cage, still cuffed up. Officer Ruiz pushed me in. Once inside the cage, there is a
28 lot of room. I walked in and demanded to see the sergeant. They said, “you don’t want to

1 do that. Give us the cuffs or we will come in and get them.” Usually, once inside the yard
2 cage, officers remove your cuffs. I refused to uncuff because I wanted to talk to the
3 sergeant. Because usually we are uncuffed inside the cages, I thought keeping the cuffs
4 would force officers to get the sergeant. But I felt like an ass-whipping was coming. So I
5 got scared and gave the cuffs back. I asked again to see a sergeant. Officer Ruiz and
6 Officer Hernandez told me that they knew I had a wife and was going home soon, and that
7 could change. Officers said they might find something in my cell, that they might set me
8 up. I felt humiliated. Nothing like this had ever happened before to me. After I gave back
9 my cuffs, they left me in my yard cage.

10 32. [REDACTED], came out as this happened, escorted by another
11 officer and heading to a cage nearby. The officer did not help me. He purposely turned
12 his back, standing in front of [REDACTED] so that he could not intervene. It is my
13 understanding that the officer turned his back so that he could not be a witness.

14 33. Other incarcerated people including [REDACTED] and [REDACTED]
15 [REDACTED] also witnessed these events. They were already outside in cages when
16 this occurred and they told me later that they saw what happened.

17 34. I filed a 602 about this exactly 30 days later. I tried to file a 602 earlier than
18 that. I know that 602 did not go out because I never received a receipt with a log number.
19 I waited as long as possible, then I asked my clinician. She helped me by taking the 602 to
20 another 602 box in another building. In the ASU we had to give the 602 to officers with
21 our mail. I believed they would not accept any 602 from me in that unit. After my
22 clinician submitted it, I received a log number.

23 35. After my 602 was submitted, I was interviewed about a week later. Two
24 sergeants video-taped me. I do not remember their names, but one of them was the regular
25 3A03 sergeant. I knew that he was letting a lot of this happened. But I decided to
26 participate anyway because I had no other way to get this reported.

27 36. After the interview, the Office of Internal Affairs (“OIA”) came to conduct
28 interviews about this incident. Officer Ruiz came to escort me to that interview with OIA.

1 He called me a rat. I refused to go with him. Officer Ruiz then told the OIA officers that I
2 was refusing. I heard him and then the OIA officer came over with a refusal sheet for me
3 to sign. I explained to the OIA officer that Officer Ruiz was the person I had a complaint
4 about. He understood and escorted me himself. After the interview, the OIA officer
5 walked me back. My cell had been trashed.

6 37. My neighbor, [REDACTED], told me that Officer Ruiz had come and
7 trashed my cell while I was away. Officer Ruiz threw out my legal paperwork. The OIA
8 officer came back to my cell with me. He saw that the cell was such a mess and said "I'll
9 take care of it."

10 38. Officer Ruiz and Officer Hernandez also began retaliating against
11 incarcerated people who could be witnesses for me. Officer Ruiz was the property officer.
12 He threatened to take people's packages. We only have access to the store once a month,
13 so that is a big threat. One person who told me at first that they would be witness, and who
14 I listed on my 602, later told me that he had to refuse the interview. He wanted to get his
15 property. I had to respect that.

16 39. I have been waiting for the results of the investigation. I recently received a
17 letter saying that this investigation was "exceptionally delayed" due to COVID-19. The
18 letter said they would get back to me in September.

19 40. I also witnessed staff misconduct at COR.

20 41. One incarcerated person tried to go man-down in late April of 2020. He
21 started to kick his door and shouted that he had chest pains. He kept yelling for help for
22 about 40 minutes. He was in cell [REDACTED] or [REDACTED] in my memory. I do not know his name.

23 42. I could see those cells from my cell and hear from the other side of the
24 building. The building is shaped like a U. I was in C-section and he was in A-section; he
25 was directly across from me.

26 43. Officer Ruiz and Officer Hernandez brought him out of his cell, cuffed, and
27 to a cage. They shouted, "you want to go man-down mother fucker?"
28

1 44. Once the incarcerated person was in the cage, Officer Ruiz and Officer
2 Hernandez used a long T-bar weight on his wrists. They left him in the cage for about two
3 hours with the weight on. He was screaming and it seemed like he was in pain. He yelled
4 for the nurses and the sergeants. On this day, no one went to help that person.

5 45. In that building, they do not let you go man-down for medical or mental
6 health reasons. In my experience if you try to go man down, officers in COR 3A03 will
7 assault you. If you are trying to seek medical or mental health attention, they will not let
8 that happen. The officers run that building and will tell nurses to “mind their own
9 business.” I do not understand it, maybe they see it as an inconvenience. It is a terrible
10 place.

11 46. COR 3A03 was a mental health building. The people who caused
12 disturbances, kicking or banging the door, were targets. But I did not do any of that, and I
13 caught this flack. Other people not acting out were also targeted. It felt like everyone in
14 the unit was targeted. And we were all at the EOP level of care, needing mental health
15 treatment.

16 47. Because of these incidents, I stopped going to yard, stopped meeting with my
17 clinician and stopped attending mental health groups. The officers escorted me to these
18 groups and meetings. I did not go to my mental health appointments because I did not
19 want to engage with officers. Between April 6 and May 26, 2020, I only left my cell for
20 the interview with the OIA and to transfer out of COR. I stopped receiving most mental
21 health care because I did not want to deal with the officers in COR 3A03. I could only see
22 my clinician cell-side because I do not leave my cell.

23 ///

24 ///

25 ///

26 ///

27 ///

28 ///

1 48. Not only was I physically abused, but the officers in COR3A03 called me a
2 “rat.” That could put me in danger with other incarcerated people.

3 I declare under penalty of perjury under the laws of the State of California that the
4 foregoing is true and correct, and that this declaration is executed at San Diego, California
5 this 3rd day of September, 2020.

6
7
8
9 On September 3, 2020, due to the closure of RJD in light of the COVID-19
10 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
11 Plaintiffs’ Motion, including ongoing concerns about the confidentiality of the legal mail
12 system at RJD, I read the contents of this declaration, verbatim, to [REDACTED], by
13 telephone. [REDACTED] orally confirmed that the contents of the declaration were
14 true and correct. [REDACTED] also orally granted me permission to affix his
15 signature to the declaration and to file the declaration in this matter.

Exhibit 27a

Filed Under Seal

Exhibit 28

1 6. I was housed at COR from December 24, 2017 until December 11, 2019,
2 when I transferred to SAC. I was also previously housed at COR from early 2010 until
3 late May 2013, and again for three months starting in early August 2017. Most recently, I
4 went back to COR for a few days in February 2020 while out to court.

5 7. During my time at COR, I was housed in the following locations: Facility 3A
6 Building 3, which is an Administrative Segregation Unit (“ASU”) for EOP patients and
7 Facility 4A in Building 2, which is a CCCMS building.

8 8. It is widely known that you will get a “beat down” by officers if you report
9 misconduct. When misconduct happens in the unit, you can hear people yelling from their
10 cells, “I’m going to report you to *Coleman*!” So, if you are known to correspond with the
11 “*Coleman Attorneys*” at Rosen, Bien, Galvan and Grunfeld (“RBGG”) or Prison Law
12 Office (“PLO”), it’s as good as being a staff “snitch.” The officers know who sends letters
13 to “*Coleman Attorneys*” because the legal mail letters are handed directly to the officers –
14 both when they are sent out of the prison and when they are received. As soon as you get a
15 letter from one of those law offices and see that letterhead stamped on the envelope it feels
16 like, “Oh sh—, I have been exposed. These officers now know I am in contact with these
17 attorneys. Now I need to watch myself, I am in big trouble.” You might get a letter from
18 the law office even if you didn’t ask for it, if you were identified as a potential witness or if
19 they think you might have information. The officers don’t know who is talking and who is
20 not so they have to get to everyone to keep them quiet. They do this by making sure that
21 you know that they know you are getting mail from those offices. For example, during
22 routine escorts, multiple times I have heard officers say, “So, you are writing to Coleman?
23 You are snitching, huh?”

24 9. On September 23, 2019, I witnessed staff assault someone in my housing
25 unit on Facility 4A2L. I saw the officers pull him out of his cell and I heard them accuse
26 him of exposing himself to one of the Psychiatric Technicians, Ms. Campos, who is
27 commonly known to be the girlfriend of an officer. I think they used this allegation to lure
28 him out of his cell in order to beat him.

1 10. Once they took him out of his cell, they walked him towards the rotunda and
2 slammed him to the ground. I saw them punch and kick him in view of others in the
3 housing unit. When the officers noticed that we could see what was going on, I saw them
4 grab the incarcerated person's legs and drag him on the ground to an area that is out of
5 eyesight, just past the door way area as you exit the living section. [REDACTED]

6 [REDACTED]
7 [REDACTED] I couldn't see him but I could hear the muffled sounds of a
8 scuffle and I could hear that incarcerated person yelling, "Help me! Help me! They are
9 trying to kill me." I could hear the officers yelling, "Shut the fuck up!" That went on for
10 approximately two minutes.

11 11. When they brought him back to his cell he looked badly beaten and was
12 bleeding from his face. He was walking with his hands above his head and no handcuffs
13 on, which I took to mean that staff were showing him and his injuries off to the other
14 incarcerated people in the housing unit, because staff are required to escort people in
15 handcuffs. The fact that they were not doing so in his case showed me that they knew they
16 were flouting the rules and were doing so on purpose. I felt like it was done to intimidate
17 us.

18 12. When they put him back in his cell, he was still crying out for help and he
19 was saying that he couldn't breathe. I called out to him to ask what help he needed. He
20 said he needed medical attention. He felt like something was broken in his chest. I filled
21 out a sick call slip for him, called the Psych Tech over and told him to check on him. The
22 Psych Tech went to his cell and within a few seconds of talking to him, pulled a medical
23 alarm. Next thing I saw, multiple custody officers rushed over to the cell and started
24 giving the Psych Tech a hard time for pulling the medical alarm. They were saying things
25 like, "We know he is in there like that, we put him in there....leave it alone. He doesn't
26 need medical help." But, the alarm was already called.

27 13. Supervisors showed up and they took him out of his cell. Everyone was
28 standing around trying to figure out what to do. I heard one of the officers say, "He did it

1 to himself.” That seemed crazy—he was badly injured and there was no way he could
2 have done that to himself. Medical staff came within a few minutes and they took him out
3 on a stretcher. After he left, I saw staff clean his cell out, and throw some of his property
4 in the trash.

5 14. When he got back from the hospital late that night, they had stripped his cell
6 bare. I helped him fill out a staff complaint and gave the complaint to him. I am not sure
7 whether he re-wrote it and submitted himself or submitted the form that I wrote for him.

8 15. The following day, on September 24, 2019, Officers I. Medina, Officer
9 Fugate and Sergeant J. Navarro were walking around the tier. I overheard them telling
10 people, “hey man, you didn’t hear or say anything, did you? Don’t get involved in this
11 shit. That guy exposed himself to Campos.” They then approached me and asked me why
12 I filled out a sick call slip for this person. They asked me whether I had filled out a 602
13 about the incident for him, as well. They said that he was a piece of shit and that he had
14 exposed himself. I told them that what had happened yesterday was messed up. They just
15 said, “We had to do what we had to do.” I told them there was protocol they had to follow
16 before doing illegal stuff. They said, “Come on man, that dude’s a piece of shit.” They
17 were upset with me and threatened to assault me next because of what I had done—they
18 said, “Why don’t you come out man, you’re next, you’ll see.”

19 16. They were trying to get me to turn on him. It is a known fact that these
20 officers do not tolerate you reporting misconduct. These officers were regular officers in
21 4A2L. I and other incarcerated people on the unit could tell that they did not like when
22 people on the unit reported things because they got visibly angry and would call people
23 snitches.

24 17. Over the next few days, the officers repeatedly came to my cell door and
25 made more threats to assault or kill me. Officer Medina would call me a “snitch,” in front
26 of other incarcerated people in my housing unit. Both custody staff and incarcerated
27 people know that people are assaulted in prison for being labelled as snitches. I believe
28

1 Officer Medina called me a snitch in front of others to threaten me and signal to other
2 incarcerated people that they should not trust me.

3 18. I was terrified. I felt like my life was in immediate danger. Fearing for my
4 safety, I wrote letters to as many authorities as I could think of – CDCR headquarters, the
5 Kings County Sheriff Department, the Kings County District Attorney, the Ombudsman's
6 office, the Office of the Inspector General, and the Prison Law Office. I wanted to report
7 these officers making threats on my life and report what these officers had done to the
8 person I had watched them assault.

9 19. My mental health deteriorated because of the threats. On September 30,
10 2019, I submitted a 7362 requesting mental health services. I wrote that Officers Medina,
11 Fugate, and Sergeant Navarro kept coming to my cell, making threats to kill and assault
12 me. I wrote that their actions had jeopardized my life and were causing me mental
13 anguish. I wanted to speak with a member of mental health staff about my safety
14 concerns. When I did meet with a member of mental health staff in-person, I stated I
15 wanted custody staff to stop threatening me.

16 20. Before the other incarcerated person was assaulted, my cellmate during the
17 summer of 2019 started telling me that when he went out to yard, Officer Floodgate and
18 Officer Medina were telling him that I was a snitch and he should beat me up. My
19 cellmate never assaulted me and was moved out of my cell in August of 2019, before the
20 September 2019 incidents.

21 21. On October 2, 2019, Captain Gallagher and Lieutenant Randolph approached
22 my cell in the early morning. They told me that if I did not withdraw my various
23 complaints that I had made against custody staff, I would be assaulted that day. They tried
24 to get me to sign a cell agreement form that would let my old cellmate, who officers had
25 told to assault me, come back into my cell with me. I said that I did not want him in my
26 cell because I feared for my safety. Captain Gallagher stated "I'm going to move your old
27 cellie back into your cell so that he can kill you." That same day, Officers Medina and
28

1 Fugate also told other incarcerated people in my housing unit that I was a “prison snitch,
2 and a sex offender/child molester.”

3 22. Although I feared for my safety, I refused to withdraw the staff complaints I
4 had filed.

5 23. A few hours later, Officers Fugate and Vera approached my cell and ordered
6 me to submit to handcuffs. I complied. They told me to step to the back of my cell. The
7 officers then placed my former cellmate into the cell with me. They shut the door and took
8 his handcuffs off through the cuffing port, but did not remove my handcuffs. I did not
9 have enough time to ask why my handcuffs were not removed, because as soon as they
10 released him from his handcuffs, he punched me. After he punched me a few times, he said
11 “I can’t do this.” The officers kept saying “do it, or we’re going to fuck you up.” He said,
12 “no, I can’t do it man” and refused to continue assaulting me.

13 24. When he refused, the officers ordered my old cellmate to re-submit to
14 handcuffs. After they handcuffed him, Officer Vera sprayed an entire can of pepper spray
15 through the food port while my old cellmate and I were still inside the cell. I was
16 coughing and my eyes were burning, and all my property got destroyed by the pepper
17 spray. The officers then removed my former cellmate from the cell and placed him in the
18 shower to wash off the pepper spray.

19 25. Officer Vera then took me out of my cell and sprayed me directly in the face
20 for a second time. Nearby, custody officers Vera, Medina, Ceballos and Fugate then
21 rushed at me and punched me in the face and head several times. I have been sprayed so
22 many times that I have a bit of immunity to it, so while the pepper spray was burning, I
23 could still see which officers were involved. They slammed me to the ground and
24 repeatedly kicked and stomped on me, including my hand. While I was being kicked, I
25 heard Sergeant Navarro yelling “kick his ass! Kick his ass!” I think they also struck me
26 with their batons. Officer Vera then dragged me out of my cell and kicked me in the face,
27 chipping my teeth. After I was dragged out of the cell, someone hit the alarm.

1 26. Once the alarm was sounding, I was dragged out to the nearby staff hallway.
2 At the time, I was bleeding from my eyes and mouth, and in a lot of pain. While in the
3 hallway, Psych Tech Campos attempted to do a 7219 on me. This is the same psych tech
4 that had accused the person whose assault I had witnessed on September 23, 2019 of
5 exposing himself to her. She tried to cover up my injuries by not documenting my injuries
6 on the 7219 form and saying, "He's fine, he can go back to his cell." Another psych tech
7 who frequently administers medications in the morning in my unit, whose name I do not
8 remember, walked by us in the staff hallway, and seeing that I needed medical attention,
9 starting talking to me. I told her that I was having chest pains. She turned to the sergeant
10 and said, "He's having chest pains." Sergeant Navarro said, "He's not having any chest
11 pains, he's just trying to go up to the TTA to report this. Campos just cleared him to go
12 back to the cell." The psych tech said, "I can't ignore this." She gave me a pill for my
13 chest pain and called the ambulance.

14 27. I was sent to the Treatment and Triage Area ("TTA"), an onsite medical
15 clinic at COR, where a physician evaluated my injuries and recommended that I go to an
16 outside hospital. Around 2:30 P.M., I was transported to the emergency room at the
17 Bakersfield Adventist Hospital to treat my injuries. I had lost two of my upper teeth and
18 had lacerations above my right eye, upper lip, and right hip. I also had cuts on my left leg,
19 hands and wrists. The back of my skull was swollen and my thumb had significant
20 bruising after one of the officers had stomped on it. I was in severe pain. I still have back
21 pain from this incident that has caused mobility issues. I have been trying to get a cane to
22 help me get around.

23 28. At the hospital, medical staff took multiple X-Rays of my spine, chest, face,
24 brain, wrists and hands. Fortunately, staff found that none of my bones had been broken,
25 but discovered cuts behind my eyeballs. I saw an eye specialist after this and had to take
26 eye drops and get treatment for my eye sockets. The eye specialist believes the injuries to
27 my eye are because of the pepper spray used against me in the assault. My teeth are still
28 chipped in half, and I still have not received dental work.

1 29. I returned to COR around 10:45 p.m. that same evening. When I got back, I
2 talked with Dr. Clark, a medical doctor. He told me that he didn't want me to go back to
3 my unit, as he had seen a lot of people be assaulted in the unit where I had been assaulted.
4 I was placed in a Mental Health Crisis Bed ("MHCB"), a short-term intensive care unit for
5 mental health patients, because I expressed feeling suicidal to him. I was in the MHCB on
6 one to one suicide watch for about two weeks. When I was discharged from the MHCB,
7 my mental health level of care was raised to EOP, and I was moved to a different building
8 than the one in which I was assaulted.

9 30. This assault made me feel terrified and abused. During the incident, I
10 legitimately thought that I was going to be killed. I still believe that staff intended to kill
11 me. I could not see out of my eyes after the assault and was in severe pain. My mental
12 health also suffered in the days after the assault. In meetings with my clinician, I
13 continued to maintain that custody staff had assaulted me. I reported that my injuries were
14 not from an altercation with my cellmate, but from custody staff assaulting me. I did not
15 want to talk to mental health staff much during this time. I was feeling very depressed
16 after what happened to me.

17 31. I and my old cellmate were both charged with RVRs for "fighting"
18 immediately after this happened. The RVR I received claims that we had a cell fight and
19 both of us got pepper sprayed. The RVR claims that my injuries were caused solely by my
20 old cellmate. The author of the RVR was Officer Floodgate, one of the officers who had
21 been trying to get my old cellmate to assault me. As punishment, I lost 180 days of
22 packages, property, and other privileges. I never was called for my RVR hearing, so I
23 never got to state my side of the story. I heard from another incarcerated person that my
24 old cellmate's RVR got dismissed, although I do not know that for sure.

25 32. When I was admitted to the crisis bed, Officer Medina and Officer Vera
26 came to the crisis bed at least once a day for at least five days after I was admitted, to
27 threaten me. They would say things like, "If you come back to the yard, we're gonna get
28 you", and "you better not file that complaint, you better stop snitching and telling these

1 people what happened.” They said this in front of the staff member watching me on
2 suicide watch. One of these times, they came to see me right after I had talked to
3 Ms. Meek, one of the clinicians. Apparently, she overheard these officers come to my
4 door right after she left. I later learned that after overhearing these comments, Ms. Meek
5 wrote 128B chronos for me, or forms stating enemy concerns, saying that these officers
6 were threatening me. I learned that she had written these after I submitted requests for all
7 my medical and mental health records around the time of the assault and reviewed the
8 records.

9 33. In my time at COR, there were many times that I needed help but didn’t ask
10 for it because I was afraid of what would happen to me. After this assault, I did not feel
11 comfortable at all reporting my mental health issues to staff. I did not even feel
12 comfortable asking the officers to see my clinician, as I have seen officers assault people
13 just for referencing mental health issues. I also was afraid to report potentially life-
14 threatening medical conditions like chest pains I was having, because the officers did not
15 help me with my chest pains after this incident, and I have seen other incarcerated people
16 report medical issues and be ignored and/or assaulted for reporting.

17 34. In my opinion, staff target mentally ill people and people with disabilities.
18 4A2L, to my knowledge, is only CCCMS patients. There are signs in the building
19 describing the *Coleman* case and giving numbers to call people. When officers see people
20 looking at these posters, see legal mail from *Coleman* attorneys, or the *Coleman* Special
21 Master or attorneys come for a tour, they feel threatened and retaliate against people with
22 mental health issues and disabilities who have spoken to these offices. The staff there have
23 a knowledge of *Coleman* and *Armstrong* and specifically target people that have mental
24 health issues and disabilities, and raise these issues with the PLO and RBGG.

25 35. It is also well known that mental health patients often write to RBGG and
26 PLO about urgent mental health issues, and when the issues are urgent, PLO and RBGG
27 contact headquarters to get us seen by mental health staff. When I have been seen by
28 mental health staff through these processes, officers are always nearby and are aware that

1 we have contacted our attorneys and that headquarters has asked that we be seen by mental
2 health staff. I believe this process is utilized a lot by patients at COR because they do not
3 feel comfortable reporting these concerns directly to the officers.

4 36. I believe the reason there is so much staff misconduct at COR is because the
5 officers are a gang. They are extremely close with each other and with the mental health
6 and medical staff and are able to influence these staff so that we do not get the help we
7 need. Their main goal is to make sure that no one among incarcerated people or staff
8 reports them. They abuse people in order to protect themselves.

9 I declare under penalty of perjury under the laws of the United States of America
10 that the foregoing is true and correct, and that this declaration is executed at Represa,
11 California this 18th day of September, 2020

12
13
14
15 On September 18, 2020 due to the closure of California State Prison—Sacramento
16 in light of the COVID-19 pandemic and ongoing concerns that officers might retaliate
17 against witnesses in support of Plaintiffs' Motion, including ongoing concerns about the
18 confidentiality of the legal mail system at SAC, I read the contents of this declaration,
19 verbatim, to [REDACTED], by telephone. [REDACTED] orally confirmed that the
20 contents of the declaration were true and correct. [REDACTED] also orally granted me
21 permission to affix his signature to the declaration and to file the declaration in this matter.

Exhibit 29

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at Salinas Valley State Prison (“SVSP”) on D-Yard in Building 7. I have been incarcerated in the CDCR since 1986. I am 60 years old.

3. I am an *Armstrong* class member. I am designated as DPO, which means I am an intermittent wheelchair user. I experience acute back spasms and my legs will give out on me randomly. I currently have the following durable medical equipment (“DME”) to help me with my disability: a wheelchair, walkers, a cane, mobility disability vest, orthotic shoes, and eye glass frames. I can only be housed on the ground floor with no stairs. I also have disability chronos requiring me to have special cuffing, a lower bunk, and restrictions on how much weight I can lift. I suffer from disability-related incontinence and so I receive hygiene supplies.

4. During the time I was at COR, I had similar issues and limitations with my mobility disability, but I was designated with a disability code of DPM. When I was housed at California State Prison –Los Angeles County (“LAC”), doctors issued me a temporary wheelchair in May 2019. I had my temporary wheelchair with me when I arrived at COR in September 2019.

5. I have a number of serious medical conditions. I am diagnosed with Hepatitis C, high blood pressure, and deep vein thrombosis (“DVT”). I have Atrial fibrillation (“AFib”), which means I have an irregular, slower, heartbeat. In 2012, I had an operation to place a valve in my heart and I currently take blood thinners. I am often dizzy due to my heart conditions and at risk of falling. I have a seizure disorder and I wear a helmet to protect my head in case I suffer an attack. I am classified as high risk medical. During the time I was at COR, my medical issues were similar to the issues I experience today.

1 6. I am a *Coleman* class member. I am at the Correctional Clinical Case
2 Management System (“CCCMS”) level of mental health care. I suffer from depression
3 and Post-Traumatic Stress Disorder (“PTSD”). My medical and disability-related issues
4 often exacerbate my mental health symptoms. When I am not receiving the treatment I
5 need or when I am in great pain, I sometimes feel suicidal. During the time I was at COR,
6 my mental health issues were similar to the issues I experience today.

7 7. I have been housed at COR several times during my incarceration. I was
8 housed at COR off and on from March 2012 until January 31, 2020.

9 8. I was a victim of staff misconduct at COR.

10 9. I was placed in a mental health crisis in mid to late October of 2019. I was
11 experiencing severe pain due to my medical conditions. I believed staff at Corcoran were
12 not providing me with adequate medical treatment. I was in so much pain that I started to
13 feel suicidal. I reported to a mental health worker that I was ready to end my life to stop
14 the pain. Mental health staff evaluated me and decided to send me to a Mental Health
15 Crisis Bed (“MHCB”), a short term crisis unit for people experiencing acute mental health
16 issues.

17 10. I remained in a mental health crisis bed and I continued to have severe pains
18 in my chest, lower back, left shoulder and right hip. On October 27, 2019, doctors sent me
19 to the local community hospital, Adventist Health Bakersfield (“ABH”), to perform a
20 stress test. When I left the prison, I had a walker, a cane, and a disability vest. The officer
21 said that I did not need to bring my assistive devices with me because they would have
22 everything I needed, including a wheelchair, to escort me. The officer came to my cell
23 with a wheelchair to escort me so I left all of my devices behind at the prison. I left them
24 outside of my cell. When I arrived at the hospital a different officer, a female, asked me
25 where my assistive devices were. I told her that I left them at the prison because the
26 officer told me to.

1 11. On October 28, 2019, around 10:30 p.m., I was discharged from ABH and
2 transferred back to COR, this time to the Correctional Treatment Center (“CTC”), to
3 continue my care.

4 12. When I arrived at the CTC, I asked for my cane, walker, and vest. Staff said
5 they did not have my assistive devices in the CTC. Instead of going to get me a temporary
6 device to help me walk, staff pulled me out of the holding cage and started to escort me to
7 my hospital cell. Two officers grabbed me, one on each side, and they were carrying me
8 down the hallway because I am unable to walk on my own.

9 13. I am unable to walk due to injuries and disabilities that stem from an assault
10 in prison 17 years ago, on May 24, 2003, where I was attacked from behind, knocked
11 unconscious and, as I later learned, was violently sexually assaulted while unconscious. I
12 filed a lawsuit against CDCR because I did not receive adequate care following that attack.
13 I have already undergone eight surgeries as a result of injuries I received during that attack
14 and I have significant ongoing pain, disabilities, and mental health trauma as a result.

15 14. As the officers carried me down the halfway at COR, the officer on my right
16 side dropped me and I fell to the ground. That officer then said that I should not have
17 complained about being sexually assaulted years ago. Next thing I know both officers
18 started punching and kicking me. They dragged me in to a medical room off the hallway
19 where they continued to punch and kick me. There were five or six other officers
20 following us down the hallway and they also followed us in to the room. The other
21 officers just stood there and did nothing to stop the two officers who were beating me. I
22 think the beating lasted for about 10 minutes. During the beating one of the two officers
23 had his boot on my head and he was pinning me down to the ground while they were
24 kicking me. I wanted to get up and fight back, or at least defend myself, but I can’t stand
25 up on my own. I felt helpless.

26 15. I reported the assault to medical staff the next day. I think they documented
27 the incident, but I am not sure. Two officers came to ask me about the incident in
28 November, about a week or so after the incident occurred. They did not take a video of the

1 interview. The interview lasted about 15 minutes, they asked me what happened and I told
2 them. I have not heard anything more about it since then.

3 16. I am still dealing with my sexual assault, and the ongoing pain and injuries
4 that resulted. It has been a lot to deal with. On top of that stress, my mental health
5 severely decompensated after I was assaulted by staff at COR. I want to be able to trust
6 staff so that I can talk to them and get help for my disabilities and sexual assault trauma.
7 But, after being assaulted by staff, I feel even more like it is hard to know who to trust.

8 17. After the assault I remained on suicide watch. I stayed there for over a week.

9 18. One of the officers who assaulted me, the one who said that I shouldn't have
10 complained about being sexually assaulted, worked in the CTC while I was housed there
11 after the assault. I would sometimes see him at my cell front. One time, when he was at
12 my cell front, I asked him if he came to finish the job. He claimed he didn't know what I
13 was talking about.

1 19. Sometimes I feel suicidal but I do not ask for help because I do not think I
2 will get help from staff. I do not trust them.

3
4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Salinas,
6 California this 19th day of June, 2020.

7
8
9
10
11 On June 19, 2020, due to the closure of SVSP in light of the COVID-19 pandemic
12 and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at SVSP, I read the contents of this declaration, verbatim, to [REDACTED], by
15 telephone. [REDACTED] orally confirmed that the contents of the declaration were true and
16 correct. [REDACTED] also orally granted me permission to affix his signature to the
17 declaration and to file the declaration in this matter.

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation ("CDCR")
6 number is [REDACTED]. I am currently housed at California State Prison-Corcoran ("COR") on
7 Facility 3A in Building 03. I am 44 years old.

8 3. I am an *Armstrong* class member. I am designated as DPM. I need special
9 cuffing and a bottom bunk. I have trouble walking up stairs and need to stay on the ground
10 floor. I cannot lift heavy things. I use a cane, a back brace and knee braces every day.

11 4. I am a *Coleman* class member. I am currently at the Enhanced Outpatient
12 Program ("EOP") level of mental health care. I am diagnosed with episodic mood
13 disorder, bipolar disorder, Posttraumatic Stress Disorder, and Intermittent Explosive
14 Disorder. These diagnoses do impact my daily life. I have received mental health
15 treatment since I was a child. I have difficulty controlling my emotions and my anger,
16 even with my family. I hate that this happens and that I cannot control myself when I get
17 very angry.

18 5. Until June 24, 2020, I was at the Correctional Clinician Case Management
19 System ("CCCMS") level of mental health care. From June 24, 2020 to July 2, 2020, I
20 was at the Mental Health Crisis Bed ("MHCB") level of care. Since July 2, 2020, I have
21 been at the EOP level of care.

22 6. I have been housed at COR from May of 2015 until the present. From
23 March 22, 2019 until January 9, 2020 I was housed in COR Facility 4A Building A1L.
24 From December 27, 2019 until May 8, 2020 I was housed in COR Facility Z, which is a
25 Short Term Restricted Housing unit ("STRH"). From May 9, 2020 until June 24, 2020, I
26 was housed in COR Facility 4A Building A1L. From June 24, 2020 to July 2, 2020 I was
27 housed in COR CTC, which is the MHCB. Since July 2, 2020, I have been housed in COR
28 3A03, the EOP Administrative Segregation Unit ("ASU").

1 7. I was the victim of staff misconduct at COR on May 20, 2020.

2 8. I was in my cell, COR 4A- [REDACTED]. I was having a mental health crisis.
3 While in STRH from December of 2019 to May of 2020, I opened up to a clinician,
4 Dr. Copeland, for the first time. This reopened trauma that I experienced as a child and I
5 was feeling upset. Usually I am just angry, but with Dr. Copeland I started unloading it.
6 Then things began to resurface and it was hard for me to handle. I was not sleeping
7 because when I fell asleep, I had to relive that trauma. When I returned to 4A1L on May
8 9, I was assigned a new clinician, Ms. Angel. I did not feel comfortable working with my
9 new clinician. I did not feel able to share with her. I was only sleeping 2-3 hours a day. It
10 felt overwhelming.

11 9. In the days before May 20 I had informed my clinician, Ms. Angel, that I
12 was feeling overwhelmed. On May 20 at about 6:50 a.m. I told Officer Garcia that I was
13 not feeling well. He said "I don't know what to tell you" and kept serving breakfast.
14 When he finished serving breakfast, he left. When Officer Garcia came to pick up my tray
15 about forty minutes later, around 7:30 a.m., and I told him again. He did not do anything.

16 10. During pill call, which takes place sometime between 6:30 a.m. and 8:00
17 a.m. depending on the day I told the psych tech who was passing out medications how I
18 was feeling. I said I was feeling anxious, not good, that I was freaking out. She asked me
19 why I did not tell Ms. Angel. I said I do tell Ms. Angel and asked the psych tech to call
20 Ms. Angel.

21 11. At about 9:00 a.m. or 9:30 a.m., Ms. Angel came and said, "What do you
22 want me to do?" That set me off, so I started screaming. I do not remember what I was
23 yelling. Later another incarcerated person who lived nearby, said that I was yelling, "if
24 you want me to do something stupid I'll do something stupid." Ms. Angel did not say
25 anything. She left. Five to ten minutes later, at about 10:00 a.m. on May 20, 2020, I cut
26 myself using a razor that I usually use to shave with in my cell. At CCCMS in General
27 Population units we are allowed to keep razors in our cells to shave with. I cut myself on
28 the arm because of how I was feeling, because everything felt like too much.

1 12. Inmate [REDACTED] saw this happening from the dayroom. I saw him inform
2 Officer Espinoza and could hear what was said. Inmate [REDACTED] said "Hey man, Martinez
3 just cut himself." It is my understanding that Officer Espinoza called other staff members.

4 13. Right afterwards, Officer Limon and Officer Garcia came and saw that I cut
5 myself. They did not speak to me, but left and came back with Sergeant Cerda about three
6 minutes later.

7 14. Sergeant Cerda asked me to cuff up. I said no. I am not sure why I said no; I
8 was not in the right frame of mind. I was yelling, "if you guys want some problems, come
9 get some!" Sergeant Cerda said that if I didn't cuff up, they would "fuck me up." They
10 left and came back in helmets and shields. Sergeant Cerda came by my cell and he shook
11 his canister of pepper spray at me. He did not use the pepper spray.

12 15. Officer Limon started to mock me. He repeated whatever I was yelling in a
13 mocking way and mimicked my movements. I was limping back and forth in my cell.
14 When I get angry, I have a tic and my head moves to the left and my shoulder shrugs up at
15 the same time. Officer Limon copied these movements and whatever I was yelling.
16 Officer Garcia and Sergeant Cerda laughed nearby. Officer Limon held his fists up to his
17 eye as if to call me a crybaby.

18 16. They knew this was upsetting me because I was screaming and yelling.
19 Officer Garcia has known me for years and knew that if he made me angry, I would try to
20 fight. Sergeant Cerda threatened me. I became even more upset. I could not stop myself,
21 I knew that I was upset but I could not stop myself. I have several diagnoses and I know I
22 have anger issues. This is because of trauma I suffered in my past, I cannot apologize for
23 this. It is not right for them to egg me on.

24 17. Sergeant Cerda called me a rat mother-fucker and a J-Cat.

25 18. A J-Cat refers to Category J. Category J used to be the term that referred to
26 people who needed mental health care in the California prisons. Now, it is used as an
27 insult. Instead of saying "person who is CCCMS" or "mental health patient," people use J-
28 Cat as a slur. It makes the person called a J-Cat seem crazy. This term is used often by

1 officers at COR. Some officers yell at people in crisis in my experience, instead of seeking
2 mental health help for those people. When someone that I know calls me a J-Cat, they are
3 playing. But sometimes I know that officers are using it to put me down and that makes
4 me feel ashamed. It is not my fault that I have mental health issues. It makes me feel like
5 I should stop seeking help, like I should be ashamed of it.

6 19. When Sergeant Cerda called me a J-Cat on May 20, I became very agitated
7 and could feel myself flying off of the handle. I shouted at them, I cut myself, I kicked the
8 door to my cell. The more they agitated me, the angrier I became. The officers knew that
9 their actions were upsetting me because they laughed while they mocked me.

10 20. I am not sure how much time passed. I had removed my watch before I cut
11 myself because I did not want to get blood on it. I am not sure why I thought to remove it.
12 Officer Limon, Officer Garcia, Sergeant Cerda and four other officers pulled me out of my
13 cell. They escorted me to a holding cage in the rotunda. Someone called medical staff and
14 I was transported to the CTC, the COR on-site hospital, in an ambulance. Medical staff
15 cleaned and bandaged the cuts. I met with a Mexican-American psychologist, who sent
16 me back to my cell. It is my understanding that this psychologist recommended that I
17 continue to meet with Dr. Copeland. Dr. Copeland told me this.

18 21. I submitted a 602 about this incident on May 22, 2020. Lieutenant Randolph
19 interviewed me about this 602 about three weeks ago.

20 22. After I spoke to Lieutenant Randolph about the 602, Sergeant Cerda came by
21 my cell. He said, "hey, what's up with that 1824 and 602 you put in on me." I told him he
22 should not be questioning me about this. My neighbor heard my raised voice and pounded
23 on the wall, as a warning. I said thank you, turned around and listened to a CD. After a
24 few minutes, Sergeant Cerda walked away.

25 23. After this incident, Dr. Copeland got permission to continue to see me in my
26 new unit. About a week after May 20 around 4:00 p.m., Dr. Copeland came to my cell,
27 asking if I cut myself. She said that she received an urgent note that I cut myself. But I
28 had not cut myself. I think this was retaliation, though I am not sure who she received a

1 note from. It is my impression that officers in my unit did not like her or were upset that I
2 filed a 602 about the May 20 incident.

3 24. I filed a 602 about retaliation from Sergeant Cerda on June 9, 2020.
4 Lieutenant Munoz interviewed me about this 602 on Thursday, July 2, 2020 in the
5 morning. He asked if I had anything to add to the 602 and I said no. Then Lieutenant
6 Munoz began to threaten me, saying that they “had something for me” when I returned to
7 the unit. Lieutenant Munoz said that he had mental health issues, too. I suggested that
8 Lieutenant Munoz could see a therapist and he said, “No, I ain’t no pussy.” The inmate
9 across from me, Inmate [REDACTED], heard this exchange.

10 25. Recently I received this 602 back. It was denied for a lack of evidence.
11 Many members of staff denied hearing anything.

12 26. After I filed a 602 about the retaliation, on June 19, 2020, I was in dayroom
13 and Sergeant Cerda came to the door. He asked if I had seen my clinician. I said yes. He
14 said “I can’t do anything to you, but I can get that bitch.” I asked how and he said, “When
15 you are out, I am going to plant something on you and say she gave it to you.” I think he
16 was threatening to plant contraband on me. I said he should leave her alone. He said he
17 didn’t like my clinician. Sergeant Cerda told me that every time Dr. Copeland came to see
18 me, they would search my cell and the other cells in the unit. I think this was also an
19 attempt to turn other incarcerated people against me. I felt like they were trying to stop me
20 from seeing my clinician. Other incarcerated people kept telling me not to see her, that I
21 was bringing heat upon them and that they would lose their property.

22 27. On June 24, 2020 in the morning, Sergeant Cerda came to my cell and made
23 a throat slashing gesture. Then he walked to a group of officers and said something that I
24 could not hear. Then the group turned to look at me and started laughing. The group
25 included Officer Limon and Officer Garcia. I became nervous because last year, there was
26 a problem with officers opening the doors up at the wrong time. That is a problem because
27 it might allow incarcerated people to attack other incarcerated people. The officers’
28 laughing in this way made me worried that they would open cell doors at the wrong time,

1 setting me up for attack. I was especially concerned because other incarcerated people had
2 already told me not to speak to Dr. Copeland.

3 28. I was fuming all day on June 24, 2020. I tried to talk to Sergeant Moreno
4 about the officers on second watch around 7:30 p.m. during mail call. Sergeant Moreno
5 told me if I did anything “they would light me up.” In response, I boarded up my door and
6 was yelling because the officer was threatening me. “Boarding up” means to cover the
7 window of the cell, so that no one can see into it from outside the cell. I felt like I would
8 not get any help. I yelled until about 8:00 p.m. No one checked to make sure I was okay
9 once I stopped yelling, even though my door was boarded up. It is my understanding that
10 usually when someone is boarded up, members of staff check to make sure the person
11 inside is okay.

12 29. At 9:00 p.m. there is supposed to be a count, but no one checked on me. I
13 was still boarded up.

14 30. At 9:35 p.m. on June 24, I was still boarded up. Sergeant Moreno, Officer
15 Herrera and Officer Magana came to my door. I could see their shoes through the sheet
16 covering my door. They asked me what I was doing. I said, “I cut myself.” At that point I
17 pulled down the sheet so that they could see. My forearm was bleeding. There was blood
18 on the window. Sergeant Moreno said, “Okay, we have to go home now.” Then all three
19 left my door. I stayed inside.

20 31. I did not receive medical treatment for cutting myself until first watch began
21 at around 10:00 p.m. When first watch began, Inmate [REDACTED] in cell [REDACTED], Inmate [REDACTED] in
22 cell [REDACTED] and Inmate [REDACTED] in cell [REDACTED] all called “man down” for me. They told staff that I
23 cut myself. Inmate [REDACTED] told the night officer what happened, that staff were messing
24 with me. I could hear this.

25 32. At 10:15 p.m., the regular night man, an older white man, came to my cell.
26 He called Sergeant Martinez and a nurse, who works first watch in the crisis unit. They
27 escorted me to a cage to meet with a clinician to do a suicide risk assessment. After, they
28 sent me to COR 4A3L for the evening because the MHCB was full. Then, the next

1 morning, I moved to the MHCB. I stayed at the MHCB for seven days, until I transferred
2 to COR 3A03, my current unit.

3 33. I filed a 602 about this incident. I have not yet received a response.

4 34. I have also witnessed staff misconduct at COR.

5 35. In COR Facility Z, which is a STRH unit, in April of 2020, someone that we
6 called [REDACTED], a white inmate, was beaten. He was housed in [REDACTED]. I was
7 housed nearby in cell [REDACTED]. I do not know his real name, only his nickname.

8 36. I saw [REDACTED] try to kick Officer Fugate, whom we call Big
9 Fugate because his brother also worked in the unit. We called his brother Little Fugate.

10 37. The night prior to this, [REDACTED] was roughed up by the officers
11 for taking too long in the shower. My cell is close to the shower and I could hear this.

12 38. The next morning, when officers pulled him out for yard, [REDACTED]
13 [REDACTED] kicked Officer Fugate while cuffed in the rotunda. Officer Fugate and a few other
14 officers pulled [REDACTED] to the floor. Officer Fugate then dropped his full
15 weight on [REDACTED]'s head. Officer Fugate is about six foot two inches and maybe 250 pounds.
16 [REDACTED]'s head split open on the left side. There was blood everywhere. After this, Officer
17 Fugate dragged [REDACTED] out. I am not sure where officers took [REDACTED]

18 39. Later that day, [REDACTED] returned with staples in his head.

19 40. The next day, Officer Ramos and a female officer pulled [REDACTED]
20 [REDACTED] out of his cell to go to law library. They only walked him to the front of the section,
21 15 feet away from his cell. I could hear and see this happening from my cell. Sergeant
22 Navarro left his office and threatened [REDACTED] not to participate in the video
23 interview about the use of force or else he would get beat up. Officer Ramos and the other
24 officer did not say anything. Then Officer Ramos and the female officer returned [REDACTED] to
25 his cell.

26 41. Once [REDACTED] was back in his cell, Sergeant Navarro came with
27 the video camera. I did not hear [REDACTED] saying "no" to the interview. Sergeant Navarro left
28

1 with the camera. He came back without it and threatened [REDACTED] again and then came back
2 with the camera and [REDACTED] refused to do the interview.

3 42. I also witnessed staff misconduct at COR on or around May 1, 2020.

4 43. Around May 1, 2020 an inmate arrived from the California Substance Abuse
5 Treatment Facility ("SATF"). I believe that he had previously attacked a member of staff
6 at SATF. I know this because when they were kicking him in the genitals, the officer said,
7 "you want to assault the staff?" A group of three officers brought him into the section.
8 One of the officers was Sergeant Navarro. I could not identify the other two. In front of
9 cell 198, the new person said something to the officers. The three officers and new person
10 stopped in front of cell 198. I was housed in cell [REDACTED] at the time. The new person was
11 cuffed up. Sergeant Navarro began kicking him in the genitals saying "you can get more
12 off this." The other two officers kept holding him; they did not kick him. After a few
13 minutes, Sergeant Navarro stopped and the officers took this person to his new cell.

14 44. I did not file a 602 about these incidents because I cannot file on their behalf.

15 45. In my experience, staff do target certain people with misconduct. I have
16 mostly stayed in CCCMS buildings. Officers there tend to target people who are yelling or
17 banging on doors. These are symptoms of mental health disorders and should not be met
18 with violence. Officers in my experience will yell back at people who are yelling, but they
19 should try to help.

20 46. I feel that I am targeted because I file 602s and report misconduct. I filed a
21 lawsuit about a 2016 assault by a member of staff. Staff are aware of this and I think this
22 makes me a target.

23 47. In my experience, almost every other prison has less misconduct than COR.
24 I have been to High Desert State Prison, California State Prison-Sacramento, Salinas
25 Valley State Prison, Mule Creek State Prison, and California Correctional Institution.

26 48. Most staff at COR are good. But certain bad apples at COR cause a lot of
27 misconduct. Good staff allow the program to run more smoothly. But in some units,
28 everyone is trying to be "the man" and it does not work. In my current unit, staff will try

1 to speak calmly to people yelling and screaming. They try to calm the situation down. I
2 was stunned when I came to this building because it was so different from my past
3 experience in COR 4A1L and STRH. I am finally treated like a human being and not like
4 garbage.

5 I declare under penalty of perjury under the laws of the State of California that the
6 foregoing is true and correct, and that this declaration is executed at Corcoran, California
7 this 6th day of August, 2020.

8
9
10
11 On August 6, 2020, due to the closure of COR in light of the COVID-19 pandemic
12 and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at COR, I read the contents of this declaration, verbatim, to [REDACTED]
15 [REDACTED] by telephone. [REDACTED] orally confirmed that the contents of the
16 declaration were true and correct. [REDACTED] also orally granted me
17 permission to affix his signature to the declaration and to file the declaration in this matter.

Exhibit 31

1 phone saying, "slide that phone back under the door." I was confused and scared. At this
2 point I still thought the phone was from my friend and I thought that the officers were
3 trying to get me to admit that I had an illegal phone. So, I denied that I had it.

4 8. Next, the officers came back a few minutes later with two other incarcerated
5 people from my neighborhood in Oakland. These friends tried to convince me to return
6 the phone to the officers. But Officer Guzman and Officer Rojas were standing there
7 while this conversation was happening. I still thought the officers were setting me up for
8 punishment so I told my friends and the officers that I did not have a cellphone.

9 9. I now believe, after talking to other incarcerated people, that it was the
10 officers who slid the phone under my door. Those officers are apparently known for being
11 involved in the cell phone trade. I believe they accidentally slid the cellphone under my
12 door, when they meant to slide it under someone else's door, and they were just trying to
13 get it back.

14 10. After the officers and my friends failed in getting me to return the phone, I
15 heard one of the officers say they would "handle the problem" on their own. Next thing I
16 know the officers put on gloves and, without even cuffing me up, they entered my cell.
17 Officer Rojas suddenly rushed at me and slammed into me. The impact caused the back of
18 my head to knock against the wall. Then, I was bracing myself when Officer Guzman
19 punched me in the jaw. I fell to the floor. The officers kept beating me while I lay on the
20 floor. At some point I was knocked unconscious. I remember the officers beating me for a
21 minute before I blacked out. I was beaten so badly that I believe they kept beating me
22 after I was unconscious. I do not know how long I was in my cell unconscious.

23 11. I woke up at the Community Regional Medical Center-Fresno and my jaw
24 was wired shut. My jaw had been shattered and needed surgery. It was wired shut for
25 over a month. I could only drink liquids. I had to wear a neck brace collar for weeks
26 because part of my spine was fractured. I had a traumatic brain injury. I still get dizzy and
27 have trouble with things I could easily do before my attack. For example, now I am
28 wobbly and I can't stand up straight. I now use a cane and have great difficulty walking.

1 One whole side of my body, my right side, no longer works the same. I had multiple
2 fractures in my face.

3 12. On December 31, 2019, I moved back to COR. I was housed in the on-site
4 hospital, the CTC. I remained at the hospital until February 18, 2020, 50 days in total. I
5 needed to be there for longer term medical care as a result of my injuries. I could not eat
6 solid food until February 22, 2020.

7 13. When I received my property in the CTC, my television, radio, and chain
8 necklace were all missing. My property is still missing. There was another incarcerated
9 person in the CTC who was from my unit. That person said that it was known in the
10 housing unit that Officer Rojas and Officer Guzman took my property as “compensation”
11 for the phone.

12 14. At first, I could not remember what happened, maybe because of my brain
13 injury. Slowly in the weeks that followed, I started to remember what had happened.
14 Sometime around the end of January or early February, I remembered the officers who
15 were involved and what they had done to me. I asked to speak to the sergeant.

16 15. I talked to the CTC sergeant and I also filed a 602 to document what
17 happened. I was interviewed on video. I never received a response to my 602.

18 16. On February 25, 2020 I moved from the CTC to the COR STRH. I was there
19 for non-disciplinary reasons—for my safety.

20 17. I did not receive a Rules Violation Report (“RVR”) for the December 24,
21 2019 incident.

22 18. When I was in the CTC, one of the officers involved in the incident, I am not
23 sure which one it was, came to my CTC cell and threatened me saying, “You’re going to
24 fucking file a lawsuit...” and then he grabbed my neck brace and took it with him out of
25 the cell. I was in pain and it was dangerous for me to be without my neck brace because
26 my neck was broken. I had to go back to the neurosurgeon to get another brace.

27 19. Since this incident, I am scared of custody staff. I believe many staff in
28 CDCR know about what happened. Staff at this prison make comments to me that make

1 me know that they know about what happened to me at Corcoran. For example, when I
2 arrived, the staff in receiving and release said, "We know about your situation. We can
3 keep tabs on you here since we are right next to Corcoran." KVSP is a more restrictive
4 environment, it is called a 180 degree design prison. Staff here tell me that I was sent here
5 because I was going to file a lawsuit on staff at Corcoran. I think I should have been sent
6 to a different prison, one that is a 270 degree design facility since that is less restrictive and
7 is consistent with my security level requirements. I believe, based on comments made by
8 staff here, that I was sent to KVSP on purpose.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration is executed at Kern Valley State Prison, California this second day of July, 2020.

DATED: July 2, 2020

Penny Godbold

Exhibit 31a

Filed Under Seal

Exhibit 32

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California State Prison-Corcoran ("COR") on Facility 3A in Building 4. I am 67 years old.

3. I am a *Coleman* class member. I am currently at the Enhanced Outpatient Program ("EOP") level of mental health care. I am diagnosed with depression, anxiety and schizoaffective disorder. I sometimes hear auditory hallucinations. For these conditions I take Clozaril, Cogentin, Vistaril and Buspar.

4. I have a number of serious medical conditions. I have cirrhosis of the liver and receive treatment for Hepatitis C. I have plantar fasciitis. I have hypertension and hyperlipidemia. I have cataracts. I have gynecomastia as a side effect of a medication that I used to take.

5. I have been housed in COR 3A04, the EOP unit, since the end of 2019.

6. I witnessed staff misconduct at COR on April 7, 2020. I was at my job in the Rec Box. People can come check out equipment and exercise materials there, such as medicine balls. The Rec Box is about the size of a dumpster, with a large window at the front. The equipment is inside. I pass out equipment on the yard on the east side from 8:00am to 4:00pm every day when we are not in lockdown. The yard is divided into east and west by a fence.

7. I was chatting with [REDACTED] at the Rec Box sometime between 9:00 a.m. and 10:00 a.m. [REDACTED] used to come check out a jump rope, a medicine ball or boxing gloves every day. Then he exercised about ten yards away typically.

8. On this morning, he came and checked out some gloves, I think. Then he exercised and we were chatting for about 20 to 30 minutes before he left. He had a ducat for that morning and he was heading to either a medical or mental health appointment. I

1 am not sure which, but they are in the same building, A-Yard clinic. I continued to work
2 at the Rec Box. A-Yard Medical Clinic is about 40 to 50 yards away from the Rec Box.

3 9. [REDACTED] headed off to his appointment and I kept working. The
4 yard is surrounded by a fence and outside the fence is a large building with different parts,
5 from the church to medical and mental health offices, the canteen, the gym and the dining
6 room. It is on the south side on the yard outside the fence.

7 10. About fifteen to twenty minutes after [REDACTED] left me, the alarm
8 went off. When the alarm goes off, there is a loud horn that sounds in the yard. I looked
9 around to see what was happening, where the problem was. When an alarm sounds,
10 incarcerated people usually get down, but they look around to see why the alarm is
11 sounding. Fifteen officers will often run to the problem. Because I was in the Rec Box, I
12 was shielded from view on certain sides so I did not have to lie all the way down. Instead I
13 stood up and watched. None of the staff were paying attention to me, so I just stayed
14 standing. Other people in the yard not near the Rec Box got down.

15 11. Right in front of medical, I saw a big group of officers, maybe ten people,
16 swinging and kicking at a person who was on the ground. [REDACTED] is bald and
17 had just gone over there. I recognized him as the man on the ground because of his size—
18 he is short, about 5'7"—and his bald head. And I knew that he had just gone over there.

19 12. I am not sure why [REDACTED] was attacked. As far as I knew, he had
20 just met with his clinician and was returning to the yard. It did not appear that he was
21 doing anything wrong. There was no reason that I knew of for this assault.

22 13. I could hear a female voice shouting, "Stop resisting." [REDACTED] was
23 not resisting from what I could see. Any resistance would be futile because there were so
24 many officers on him. He was overwhelmed. It was a brutal beating. This went on for
25 between five and ten minutes.

26 14. I recognized Officer Ochoa because he was a canteen guard a few weeks
27 earlier. I had recently given my canteen list to him so I remembered what he looked like
28 and could identify him. I could not identify the other officers but I knew that they were

1 Security and Escort Guards. Security and Escort Guards are always sitting by that gate
2 when we go to medical or mental health appointments.

3 15. Then, officers dragged [REDACTED] up off the ground, put his hands
4 behind his back with his thumbs facing up. [REDACTED] was wearing handcuffs.
5 Then they pulled up on his arms to force him to completely bend over. I have been in this
6 position before while cuffed. It is terribly painful in my experience. Officers walked
7 [REDACTED] back into the medical building, cuffed and bent over. The pain in this
8 position is excruciating in my experience. I could see all of this occurring as clear as day
9 because I was standing up in the Rec Box, watching.

10 16. Then things went back to normal on the yard and I went back to working at
11 the Rec Box. But I was upset and so was everyone around me. The yard was fairly
12 crowded when this happened. I did not talk to anyone because I keep to myself. But I
13 could hear other people were talking about it and we all felt it was wrong.

14 17. Between 30 and 40 minutes later a Mexican-American officer of medium
15 height wheeled [REDACTED] out of the building in a wheelchair with a large bandage
16 on his head. The bandage covered his entire face. The officer wheeled him in the opposite
17 direction from the Hole. He was wheeling him in the direction of the transport to the main
18 COR on-site hospital, the CTC, but I did not see where they actually took him.

19 18. I have not seen [REDACTED] since then.

20 19. I again witnessed staff misconduct at COR on May 13, 2020 at med pass in
21 3A04, an EOP unit at COR. Psych techs give out medications in front of cells 111, 112
22 and 113, about 15-20 yards away from the cell doors. I was housed in [REDACTED]. The psych
23 techs usually give out medications to incarcerated people who are standing in two lines.

24 20. In this unit, 3A04, the officers stand in a group of four or six and intimidate
25 us. The officers stand just off the side of the med lines. They watch us get our
26 medications and make comments. They make a variety of comments about mental illness,
27 how you look, other things that would hurt your feelings or racial comments. For example,
28 on this day Officer Ward, Officer Rocha and Officer Siefken asked one person why he

1 could not walk standing straight up, because he walked bent over. They said that he
2 walked like a chimpanzee or a gorilla and that he looked like a gorilla. Officers stand near
3 med pass very frequently. It is my understanding that the most of the officers do not need
4 to stand there. In other units I have received medication where only one to two officers
5 were nearby, but not four to six and not standing so close. I find the process of getting
6 medications in this unit scary.

7 21. At about 3:30 p.m. on May 13, 2020, I got in line for medications. I heard
8 Officer Ward, who was the tower guard, calling from the tower's sliding door windows
9 and Officer D. Rocha and Officer Siefken, the building guards standing near med pass.
10 They were teasing the incarcerated person who walked bent over. They continued to make
11 fun of him for the way he was walking. I was in one line and he was in the other line. He
12 asked them to stop teasing him. The other incarcerated person said, "please leave me
13 alone" several times. Officer Ward, Officer Rocha and Officer Siefken did not listen and
14 continued to mock him. He got his meds and went back to his cell.

15 22. The person was housed in cell [REDACTED], on the upper tier. I don't know his name,
16 but I know his cell because I asked other people on May 14, the day after, as I was getting
17 food. No one knew his name but people knew his cell number. He was a quiet person and
18 kept to himself, so no one knew his name.

19 23. That evening between 8:00 and 8:30 p.m., when the medications were being
20 given out again, I went and got my meds and returned my cell, [REDACTED]. Officer Ward, Officer
21 Rocha and Officer Siefken were again in the group of guards watching, along with Officer
22 Hernandez, Officer Gamboa and a few others whom I do not know.

23 24. I returned to my cell and about five minutes after, the alarm when off. I
24 think Officer Ward in the tower pushed the alarm because it went off. I went to see out of
25 the window of my cell. Officer Rocha, Officer Siefken, Officer Hernandez and one other
26 officer, I am not sure which, had jumped on the person from cell [REDACTED]. He was lying on the
27 ground. They kicked and punched him and pulled on his arms. The person was on his
28 stomach, not resisting. Officer Rocha had his knee on the man's neck for the entire time.

1 The others kicked and punched him for about five or six minutes. About six other officers
2 watched this happen without stopping it.

3 25. About two to three minutes after the alarm when off, the building was
4 flooded with 12-15 officers from other parts of the yard. That is a standard response to an
5 alarm. These officers created a perimeter, right around the four officers and the
6 incarcerated person, trying to block our views from the cells. None of these officers tried
7 to stop the attack.

8 26. Then a few minutes later Officer Rocha and Officer Siefken dragged the man
9 out of the building. He was surrounded by other officers, so I could not see him clearly. It
10 was quiet after they left the unit. In the following days, other incarcerated people were
11 talking about this.

12 27. I have not seen that man since. I do not know why they attacked him. I
13 assume it was because he asked them to stop teasing him.

14 28. Watching this made me feel sad and angry. When you see a bunch of people
15 beating and whipping another person, who is already on the ground, your heart breaks.

16 29. I try not to interact with any officers. I keep quiet because I am worried
17 about staff misconduct. They behave like Dr. Jekyll and Mr. Hyde. They will smile at you
18 then attack you sometimes. I keep to myself and keep quiet.

19 30. Incidents like this make me and others feel like we have nowhere to turn for
20 help. When you seem suicidal, staff hate it, they cuff you behind your back, naked, and
21 leave you for in a cage a long time. This is to discourage you from being suicidal because
22 they do not want to do the paperwork, I think.

23 31. This scares and depresses me. It makes me angry because I can do nothing
24 about it. I have no one to talk to about it. The clinicians, in my understanding, are as
25 afraid of the officers as I am. I think the clinicians worry that the guards will try to get
26 them fired. The clinicians try to stay out of it so they do not jeopardize their jobs.

27 32. In my opinion, staff target certain people that they do not like with staff
28 misconduct. Usually they target people who need more help. People who are less well

1 functioning, staff pick on them by saying things to hurt their feelings. They mock and
2 make fun of people; they laugh at certain people who have disabilities.

3 33. I believe more staff misconduct happens at COR than at other places. I
4 believe that COR has a reputation among incarcerated people for mistreating us. They
5 used to let out warring factions onto the yard and bet who would win.

6 34. I have been at Salinas Valley State Prison, California State Prison-
7 Sacramento and California State Prison-Los Angeles County. I have been in prison for
8 almost 25 years. COR is the worst prison that I have been to in terms of how much staff
9 misconduct there is.

10 35. I declare under penalty of perjury under the laws of the State of California
11 that the foregoing is true and correct, and that this declaration is executed at Corcoran,
12 California this eighth day of July, 2020.

13
14 
15
16 On July 8, 2020, due to the closure of COR in light of the COVID-19 pandemic and
17 ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs'
18 Motion, including ongoing concerns about the confidentiality of the legal mail system at
19 COR, I read the contents of this declaration, verbatim, to  by telephone. 
20  orally confirmed that the contents of the declaration were true and correct. 
21 s also orally granted me permission to affix his signature to the declaration and to file
22 the declaration in this matter.

23
24 DATED: July 8, 2020

Exhibit 33

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at the Sierra Conservation Center (“SCC”) on Facility C in Building 2. I am 51 years old. The incidents of staff misconduct that I describe in this declaration occurred at California State Prison – Corcoran (“Corcoran”). I am at SCC because I am out to Court here facing charges relating to a fight with another inmate.

3. I am an *Armstrong* class member. I am designated as DPM. I cannot climb up stairs or walk around without an assistive device. I can only be housed on the ground floor and I have medical chronos for a lower bunk and special cuffing. My disability also prevents me from lifting heavy things. I currently use either a cane or walker to assist my movement. I also have a mobility disability vest, a wedge pillow, orthotic shoes, and eyeglass frames prescribed to me. Because of my disability, I cannot spread my legs farther apart than shoulder width, and if someone forces me to do so, it is very painful.

4. For most of my time at Corcoran, my mobility issues were not as severe as they are currently. Before I experienced the staff misconduct described below, I was designated as DNM, which is a disability code for mobility impairments that do not require any specialized prison placement. I was able to walk up and down stairs. I still struggled with some movement, such as spreading my legs apart, and I used a cane. After the assault I experienced at Corcoran, my mobility disability worsened. Medical staff changed my disability designation to DPM on April 29, 2020. Ever since the assault, I use a cane and/or a walker to get around the prison.

5. I am a *Coleman* class member. I am at the Correctional Clinical Case Management System (“CCCMS”) level of mental health care. I suffer from depression and anxiety. My mental health symptoms sometimes disturb my sleep, causing me to have

1 insomnia. During the time I was at Corcoran, my mental health issues were similar to the
2 issues I experience today, although my depression and anxiety are now somewhat worse
3 because of the staff misconduct I experienced.

4 6. I have a few medical conditions. I am pre-diabetic and I suffer from chronic
5 lower back pain, sciatic nerve damage and glaucoma. During the time I was at Corcoran,
6 my medical issues were similar to the issues I experience today. However, immediately
7 after the staff misconduct incident, I also learned that I now have two hernias, which I
8 believe are the result of the incident. My nose was also fractured during the staff assault.

9 7. I was housed at Corcoran from July 1, 2019 to June 1, 2020. On June 2,
10 2020, I was sent to SCC to go out to Court.

11 8. During my time at Corcoran, I was housed in the following locations:
12 Facility Z in Building 1, which is also known as a Short Term Restricted Housing Unit
13 (“STRH”), Facility 3A01, Facility 3A05, and Facility 3A03, which is an EOP
14 Administrative Segregation Unit (“ASU”).

15 9. I was a victim of staff misconduct at Corcoran.

16 10. On September 24, 2019, at around 6:00 p.m., I exited the Westside Dining
17 Hall on Facility 3A. I was carrying my food and a cup of tea. I am on a Kosher diet,
18 which means I am allowed to eat my food in my housing unit. On my way out of the
19 dining hall, I had a brief conversation with Lieutenant Hurlbrut. He ordered me to get rid
20 of my tea before going back to my housing unit. I poured the liquid out onto the ground to
21 comply with his request. At this time, Lieutenant Hurlbrut told me to continue back to my
22 unit.

23 11. Immediately after speaking with Lieutenant Hurlbrut, Officer T. Wolfe
24 stopped me and took the kosher meal and the empty cup from my hand and threw them on
25 the ground. He also broke my watch off my wrist in the process. He then got on the radio
26 and told the officer in the control booth to put the yard down. He then asked me to submit
27 to a clothed body search, which I complied with. He then got behind me and leaned in
28 about half an inch from my ear and ordered, through clenched teeth, “Raise your fucking

1 arms.” I protested, explaining to him that I am Kosher and allowed to eat my food in my
2 housing unit. Officer Wolfe responded, “So fucking what?”

3 12. At this point, I was still standing right outside the chow hall in the body
4 search position, with Officer Wolfe behind me. Many other incarcerated people were
5 leaving the dining hall to walk back to their housing unit.

6 13. Suddenly, Officer Wolfe roughly kicked the inside of my legs. I believe he
7 did this because he wanted to make me spread my legs further. However, because of my
8 mobility disability, it causes me great pain to spread my legs apart farther than shoulder
9 width. In response to his request, I tried to spread my legs as far as I could.

10 14. I suppose he was not satisfied with how far I had spread them and so he
11 kicked the inside of my legs again. This caused me excruciating pain.

12 15. I turned my head without moving the rest of my body and told Officer Wolfe
13 about my mobility issues, and that his repeated kicking was very painful. Officer Wolfe
14 responded by saying, “I don’t give a shit!” and immediately slammed me to the ground.
15 Then, Officer Wolfe punched me in my left eye and kicked me in the ribs on my left side.
16 He then placed a handcuff on my left arm and put his entire body weight onto the back of
17 my head, pressing my face into the concrete floor, which was extremely painful and which
18 fractured my nose.

19 16. Officer Wolfe then cuffed my right arm and stood up. I continued to lay on
20 the ground. Officer Wolfe then placed his left foot on top of my head and I heard and
21 partially saw him high-fiving three correctional officers who were nearby: Lieutenant.
22 Hurlbut, Officers D. Shelton, and Officer H. Flores.

23 17. After the assault, I was helped to stand up by a female officer. Once I was
24 standing, I observed Officer Wolfe stomping on my watch. I also saw him pick up the
25 broken watch and rip the band off of it.

26 18. I was then escorted to the Treatment and Triage Area (“TTA”), where
27 nursing staff evaluated me. They documented my injuries on a CDCR Form 7219, which
28 documented the injuries to my face and legs. I told them I had been assaulted by Officer

1 Wolfe. My nose was swollen, bruised and fractured. I had scratches on my right elbow
2 and bruises on my inner arm from when Officer Wolfe grabbed me and slammed me on
3 the ground. Medical staff ordered an x-ray of my nose two days later, but they did not
4 initially document the fracture to my nose. I was only told about a month or two later after
5 a second x-ray that my nose was fractured. Medical staff determined I also had a deviated
6 septum from the assault.

7 19. Because Officer Wolfe had repeatedly kicked my legs, my chronic hip pain
8 has worsened. Immediately after the assault, I was in serious pain and I struggled to walk.
9 In the months following the assault, I put in several requests to medical for help. On
10 November 13, 2019, medical staff finally issued me a four-wheeled walker to alleviate the
11 leg pain I suffered when walking. My disability also worsened as a result of the attack to
12 the point where I needed a higher disability code. On April 29, 2020, medical staff
13 evaluated me and designated me as DPM.

14 20. Officer Wolfe did not assault me out of retaliation for anything I had done
15 previously. I believe he assaulted me because he intentionally targets people with mobility
16 or mental health issues. He seems to enjoy beating up these incarcerated people.

17 21. Officer Wolfe issued me a Rules Violation Report (“RVR”) for “Assault on a
18 Peace Officer by Means Not Likely to Cause Great Bodily Harm.” The RVR was false. In
19 the RVR paperwork, Officer Wolfe reported that he ordered me to raise my arms, and I
20 became agitated, but complied. He alleged that when he began his body search, I abruptly
21 turned to his right and attempted to strike him with my right elbow in his face. This action
22 lead him to use physical force to take me to the ground. But I did not turn my body at all,
23 nor did I try to strike Officer Wolfe with my elbow. I only turned my head to tell Officer
24 Wolfe to stop kicking my legs painfully.

25 22. I do not think the RVR process was fair. Lieutenant Hurlbut, one of the
26 officers that high-fived Officer Wolfe while his foot was on top of my head, was both a
27 witness to the incident and the Reviewing Supervisor for the RVR. I also gave Corcoran
28 the names of two witnesses to the incident with Officer Wolfe, but staff did not interview

1 them or allow them to provide testimony. Instead, they interviewed a random incarcerated
2 person that I did not know. I am not sure that individual was even present when Officer
3 Wolfe assaulted me. One of my witnesses, [REDACTED], told me he was not
4 interviewed. In the paperwork, it falsely indicated that he was interviewed and told them
5 he was not present at the time I was assaulted.

6 23. On November 27, 2019, I was found guilty of the RVR by Hearing Officer
7 Lieutenant Marin. I was then placed on C-Status for 60 days. I did not lose any time
8 because the RVR was untimely. However, I have lost significant time because during my
9 time in administrative segregation, I do not get day-for-day credit earning. Also, my
10 custody points have increased from Level II points to Level IV points, meaning I will serve
11 my time in a harsher, high custody environment.

12 24. However, the false claim of a staff assault was referred to the local District
13 Attorney for prosecution. I went to Court today, by phone, and learned for the first time
14 that I am in fact being prosecuted in connection with this false claim that I committed a
15 staff assault. I also requested that my RVR hearing be postponed pending a decision on
16 the referral to the local DA, but staff went ahead with the RVR hearing anyway.

17 25. On October 29, 2019, I filed a 602 grievance reporting the assault.
18 Corcoran's response to my staff complaint was due on December 2, 2019. However,
19 during my time at Corcoran, I received several notices delaying the review of my 602. I
20 believe the last notice I received was in April 2020. Because Corcoran has failed to
21 respond to my initial complaint, I have been unable to exhaust my administrative remedies.

22 26. I believe I have been assaulted because I am black and because, as a result of
23 my disabilities, I am perceived as weaker and more vulnerable. In a sense, I think people
24 with disabilities like myself are viewed as easy targets.

25 27. Officer Wolfe is part of group of Officers who call themselves the "hit
26 squad." When Officer Wolfe assaulted me, the other officers present were also part of the
27 hit squad. Sometimes they are referred to as [REDACTED]
28

1 28. I have been interviewed about the incident by the local Corcoran
2 Investigative Services Unit (“ISU”). They were hostile when they interviewed me. The
3 interview lasted about 5-10 minutes. The interview was video recorded. They did not
4 interview me until about three weeks after the assault. By that time, my bruising had gone
5 down and the swelling on my face was gone. They also falsely told me that my nose was
6 not broken. I told them I felt and heard my nose crack when I was assaulted.

7 29. I have not been told anything about the results of the ISU investigation, and I
8 still have not heard back about my 602 staff complaint.

9 30. I believe that part of reason that staff complaints and ISU investigations do
10 not work at Corcoran is the lack of video evidence of what takes place in the prison. I
11 believe another problem is that the ISU investigations are designed to protect staff, not to
12 get at the truth. This is shown by the delay taken in interviewing me, until my visible
13 injuries and bruising had significantly healed.

14 31. Since the staff assault, I have experienced significant retaliation. On April
15 15, 2020, around 3:00 p.m., I was stopped by Officer D. Silva, who worked in the 3A05
16 building control tower. He stated, “You need to drop that staff complaint against Wolfe, or
17 bad things could happen to you and that release date.” I told him to mind his own fucking
18 business. When I turned to walk away, he yelled, “Okay, smart ass.”

19 32. The following day, on April 16, 2020, I was taken to the ASU for a charge of
20 “Threatening Staff.” I believe that the fact that a whole day elapsed before they came to
21 take me shows that Officer Silva took his time to determine how to retaliate against me,
22 and made up the false charge. I have been in the ASU since April 16, 2020.

23 33. While in the ASU at Corcoran, I have also experienced significant
24 retaliation. For the last three weeks that I was in the ASU at Corcoran, before coming to
25 SCC on June 1, 2020, my food would be thrown through the food port in my cell door,
26 onto the floor of my cell repeatedly by Officer Vera. He also repeatedly made sexual
27 comments and gestures towards me in a demeaning manner. I filed a PREA complaint
28 against the officer for this behavior.

1 34. At one point, on or around May 20, 2020, staff came into my cell and my
2 neighbor's cell to conduct cell searches. Once I was cuffed, I was escorted down to a non-
3 ADA shower. On the way there, Officer Vera made abusive remarks, calling me a "bitch"
4 and telling me to drop the staff complaint against Officer Wolfe. I told him to go to hell.
5 When we got to the shower, he shoved me into the shower, and it caused me to strike my
6 left toe against the lip of the non-ADA shower, which caused my toe to bleed. On the way
7 back from the shower, I told officer Vera he had injured me pushing me into the shower.
8 He responded by asking me, "Have you ever been fucked by a C.O.?" He also told me to
9 suck his dick. When I returned to my cell, I noticed that a large swastika had been made
10 with soap on the metal panel behind the sink and toilet. Also, they ripped open my legal
11 work, and my copies of my medical records, and ripped up the paperwork, crumpled it and
12 piled it on top of my bed. They also took all of my new canteen and hygiene items and
13 smashed the items and threw them around the cell and on my bunk, in one big mess. They
14 then threw me in the cell and said, "Now clean that up." I asked to speak to a Lieutenant,
15 and Officer Vera grabbed his crotch and said, "Here is your Lieutenant right here." He
16 said, "Do you want a confiscation receipt?" and I said yes. He laughed and gave me the
17 finger and walked away.

18 35. The staff misconduct has made my mental health worse. After the abusive
19 cell search, I asked the guard who was doing rounding using the Guard One device to go
20 and get my clinician. I told her I was feeling suicidal and wanted to go to a crisis bed. She
21 pulled me out and called a psychologist. Once the doctor came, they evaluated me and
22 sent me back to my cell.

23 36. Once I was back in my cell, Officer Vera found out that I had filed a PREA
24 complaint against him and a 602 complaint. He came to my cell door and indicated he
25 wanted to talk to me. He said, "I was just messing around," and asked me what it would
26 take to get me to dismiss the staff misconduct claims. The next day, the officer brought
27 me some canteen items to replace a little bit of what had been destroyed in the abusive cell
28 search. He asked if I was going to dismiss the 602 and the PREA complaint. I said that I

1 might. The next day, I was moved to the Corcoran SHU. I was sent to SCC about two
2 weeks later, where I remain at this time.

3 37. I have also witnessed staff engage in misconduct against other people at
4 Corcoran. On or around the end of March or the beginning of April, I was in my cell in
5 Unit 3A05, and I observed several officers, including Officer Wolfe, beat an incarcerated
6 individual who is Cuban American.

7 38. In my time at Corcoran, there were times that I needed help for medical or
8 disability concerns and staff refused to provide me with assistance. At Corcoran, I asked
9 to be moved to a medical facility so that my needs could be met, but staff did nothing in
10 response to this request. Also when I was suicidal after the assault, staff failed to move me
11 to an MHCB unit. However, they took me back to my cell instead.

1 39. I believe there is so much staff misconduct at Corcoran because there are no
2 cameras to prove what takes place. Staff here commit misconduct without any fear of
3 being caught.

4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Jamestown,
6 California this 15th day of June, 2020.

7
8 
9
10 On June 15, 2020, due to the closure of Sierra Conservation Center, in light of the
11 COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses
12 in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of
13 the legal mail system at Sierra Conservation Center, I read the contents of this declaration,
14 verbatim, to , by telephone.  orally confirmed that the contents
15 of the declaration were true and correct.  also orally granted me permission to
16 affix his signature to the declaration and to file the declaration in this matter.

Thomas Nolan

Exhibit 33a

Filed Under Seal

Exhibit 34

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at Salinas Valley State Prison ("SVSP") on Facility A in Building 3 in cell [REDACTED]. I am 43 years old.

3. I am a *Coleman* class member. I am diagnosed with adjustment disorder. When I am struggling with my mental health issues, I tend to try to go outside and walk around or write in my journal. During the time I was at COR, my mental health issues were similar to the issues I experience today. From November 21, 2019 to January 23, 2020, I was at the Correctional Clinician Case Management System ("CCCMS") level of mental health care. From January 23, 2020 to May 20, 2020, I was at the EOP level of mental health care. From May 20, 2020 until today, I have been at the CCCMS level of mental health care.

4. From November 21, 2019 to June 3, 2020, I was housed at California State Prison-Corcoran ("COR"). From November 21, 2019 to January 24, 2020, I was housed in COR Facility 3A Building 1. From January 25, 2020 to March 16, 2020, I was housed in COR Facility 3A in Building 4. From March 17, 2020 to March 27, 2020 I was housed in COR Facility 3A Building 3, which is an Enhanced Outpatient Program Administrative Segregation Unit ("EOP ASU"), a specialized segregation unit for EOP level of care individuals. From March 27, 2020 to May 20, 2020, I was housed in COR Facility 3B Building 1. From May 20, 2020 to June 3, 2020, I was housed in COR Facility 3B Building 2. On June 3, 2020 I transferred to SVSP.

5. I was a victim of staff misconduct at COR on March 19, 2020.

6. In January of 2020, my prior clinician, Ms. Pettinger, recommended that I transfer from the CCCMS to EOP level of care. I did not want to be EOP because I would need to move buildings and possibly get a cell mate. I wanted to stay in COR 3A01. I had

1 no cellmate. I also did not want to move to an EOP building because officers at COR are
2 known to dislike and to harass EOP incarcerated people. But I moved to an EOP building,
3 COR 3A04, on January 25, 2020.

4 7. On February 11, 2020 I was in my cell, 3A04-█, when Officer N. Siefken,
5 Officer A. Rocha, Officer D. Rocha, Officer M. Kiaris came into my cell. Another officer
6 stayed outside. They came inside my cell without warning. I was in my boxers on my
7 bed. Officer N. Siefken, Officer A. Rocha, Officer D. Rocha, and Officer M. Kiaris said
8 they would beat me up and take my property. Officer A. Rocha and Officer D. Rocha are
9 father and son. This group of officers has a reputation for beating up inmates. They asked
10 me questions about my neighbors. I felt shocked and scared and did not know how to
11 respond. I did not know what to say. I flattened myself against the wall. One officer sat
12 down on my bed. They stayed for around 10 minutes. They asked me about my personal
13 background, and about the other inmates around me. I told them I would cooperate, just
14 don't hurt me or my property. I did not know how to answer so I said I would cooperate
15 because I did not want to get hurt.

16 8. No officer had ever come into my cell or asked me about other incarcerated
17 people in that way. I try not to communicate with officers more than I have to—only to
18 provide outgoing mail or to sign forms—nothing like this.

19 9. I do not know why they did this to me. I did not ask, I did not want them to
20 stay any longer. They seemed angry.

21 10. I told my clinician Dr. Mejia about this on February 13, 2020. I am not sure
22 she recorded it.

23 11. In that building, inmate-porters, who deliver envelopes and other supplies,
24 also signed up other inmates to use the phone. These porters had power over other
25 incarcerated people and, in my understanding, are chosen by custody staff to serve as
26 porters. They asked me for payment to use the phone. I did not pay the required fees and
27 the porters became aggressive. Some porters threatened that if I did not pay, I would not
28 get phone time and would have other problems.

1 12. I complained to Officer N. Siefken, Officer A. Rocha, and Officer D. Rocha,
2 Sergeant Medina, and Lieutenant Hurlbut verbally starting in early March of 2020. I wrote
3 several 22 forms, asking for an interview with a captain of the yard, and submitted a 22
4 form asking to meet with the warden. I also submitted a 602 about this issue on about
5 March 4, 2020 and believe that the warden should have been notified as it mentioned
6 safety concerns. I informed my clinician on March 13, 2020 about my safety concerns.

7 13. Officers did not take any action to stop the porters' behavior, but I believe
8 that reporting it made the situation worse for me. In the days following my reports, the
9 porters became more aggressive. It is my understanding that officers informed other
10 incarcerated people about my complaints. I heard Officer A. Rocha speaking to the other
11 porters about this on about March 4, 2020.

12 14. Another person in 3A04 cell [REDACTED], named [REDACTED], warned me to be careful, that
13 this group of porters and officers had attacked him for similar reasons. Another person
14 named [REDACTED], in cell [REDACTED] or [REDACTED], also warned me about this group of incarcerated
15 people and officers. He said that he was witnessed people being beaten up. Inmate
16 [REDACTED] warned to me be careful.

17 15. On March 17, 2020 I moved again to COR 3A03, the EOP ASU, for non-
18 disciplinary reasons—specifically, my concerns regarding my safety. Staff did not inform
19 me why I was moving or what my lock-up order was. Prior to my transfer, I submitted a
20 602 about the inappropriate behavior of custody officers, that they informed other
21 incarcerated people about me. I also submitted a 22 form, asking for an interview with the
22 warden. Because I was moved just after submitting these, I believe the move was
23 connected to my complaints. I was also supposed to receive a hearing within 72 hours of
24 my move with the initial classification committee. I did not receive the hearing. I asked
25 staff about why I wasn't getting my hearing. I wanted to complain but staff would not give
26 me 602s. Neither Sergeant Hacksworth nor Sergeant Lee would address this with me. My
27 cell in 3A03 was across from the sergeant's office. I tried to ask them once I moved and
28 they both refused to speak with me.

1 16. On the morning of March 19, 2020, I needed to speak to a mental health
2 clinician for an urgent mental health matter. I was in my cell. A nurse came to my cell for
3 pill call. Between 8:30 and 9:00 a.m. I informed the nurse, who was not wearing a name
4 tag, that I needed to speak to a member of mental health staff. I was feeling anxious and
5 depressed. I was very upset and confused by this situation. When I moved to 3A03, none
6 of my property came with me. I did not have any legal paperwork.

7 17. It is my understanding that the nurse then informed officers about my
8 situation. My clinician was not available at that moment to speak to me. Officer Mercado,
9 Officer Ruiz, Officer Cruz, Officer Daz and Sergeant Hacksworth came to my cell then.
10 Officer Gutierrez was nearby. They told me to get out of my clothes and turn around.
11 They did not explain why I needed to undress. In my experience usually I do not need to
12 take my clothes off to see my clinician. I listened to them. I did not know why I was there
13 in 3A03 so I listened. They cuffed me very tightly.

14 18. They walked me wearing only boxers and cuffed me in a cage in 3A03. My
15 cell was on A-Side, they walked me to B-Side and put me in a cage. They left me cuffed,
16 but pulled my hands outside of the tray slot. Then I felt a weight on the handcuffs, it was
17 heavy and metal. I could not turn around fully because my hands were outside in the tray
18 slot and I could not move much. Later, when the weight was removed, I saw it. The
19 weight was a heavy triangle, formed of metal. It was about 12 inches wide and 12 inches
20 tall. The bar was about the thickness of a quarter. I had never seen anything like it before.

21 19. While I was cuffed in the cage like that, someone pulled my boxers down
22 below my buttocks. My genitals were exposed. It was very painful and humiliating. I was
23 in the cage, exposed and cuffed like that for approximately three hours.

24 20. After they put the weight on me, I asked Officer Ruiz, Officer Daz, Officer
25 Cruz, Officer Mercado, Officer Gutierrez, and Sergeant Hacksworth to help me. As they
26 walked away back to A-side, I screamed out for help. It was painful and I screamed out.
27 The building from above would look like a circle divided into two: A and B side. My cell
28 was on A-side, with most of the other occupied cells. On B-Side, the cages are near the

1 wall across from the door between A-side and B-side. There are cells across from the
2 cage. Cells 134, 135, 137 and 138 were occupied that day. The second tier is above, but
3 no one was housed in the second tier.

4 21. Other incarcerated people housed in 3A03 on B-side saw this happening.
5 Inmates [REDACTED], [REDACTED], and [REDACTED] all saw this happening. They told me later.

6 22. My clinician Daniels came to speak to me in the cage around 9:00 a.m. I
7 told him I was in pain and that I was suffering. I told him that the weight was heavy. He
8 said, "Is it 10 or 15 pounds?" in a way that felt mocking. He did not otherwise
9 acknowledge my statements about pain, he said that the CIT team would come later. Then
10 he left.

11 23. If you go through the door from B-side to A-side and continuing walking
12 past A-side, you will reach administrative offices, EOP group areas, and a medical clinic.
13 This door was constantly in use by staff and is the only way out and in of B-side. People
14 using the door could see me. I was screaming and I know they could see me. Staff looked
15 at me but did not want to get involved, I think. Dr. Mejia walked by, as did my clinician
16 Daniels. One female officer looked at me and said "ew." This made me feel horrible and
17 embarrassed.

18 24. Over the course of several hours, only one person, a gentleman wearing a
19 grey suit, came over. He looked to be of Middle Eastern descent to me. He said that he
20 talked to Sergeant Hacksworth and was going to email either the sergeant or someone in
21 administration about this. He said the sergeant should come.

22 25. Around 11:30 a.m. a crisis intervention team ("CIT") came to interview me.
23 I asked them for help. I was in the same position, cuffed and almost naked, I was
24 experiencing a mental health crisis. The CIT team, along with two trainees, came to
25 interview me. Sergeant Hackworth was there the entire time along with Officer Daz and
26 Officer Ruiz. I could see the officers and the CIT team standing to the left of my cage by
27 turning my head. It was very hard for me to speak because the officers intimidated me and
28

1 I was in pain. I did not want additional punishment. I had no privacy to speak about my
2 mental health and medical concerns. I told them I was in pain but nothing more.

3 26. After we spoke, the CIT team walked away with the sergeant and the
4 officers. The CIT team did not come back. Sergeant B. Hacksworth did come back with
5 Officer Daz and Officer Ruiz. I remained in the cage in the same position, almost nude
6 and cuffed to a weight. After the CIT team left, I kept screaming and asking the officers
7 for help. Officer Ruiz and Officer Daz stabbed me with their keys on my hands and arms
8 while I remained in the cage. I think they stabbed me because I asked for help.

9 27. Officer Ruiz and Officer Daz let me out of the cage around noon. Officer
10 Mercado and Officer Cruz were nearby. I saw them following us back to my cell. I
11 returned to my cell with them. They removed my breakfast from that morning, which I
12 had not eaten, from my cell. They left a banana, which Officer Daz stepped on.

13 28. After I returned to my cell, I asked Officer Daz and Officer Ruiz to provide
14 7362 forms or let me see a doctor, but they refused. I also asked Officer Cruz and Officer
15 Mercado, who were nearby. These forms allow you to request medical or mental health
16 help. I also asked them to contact the captain, but they refused to do so.

17 29. None of the people on the nursing staff assisted me after I was back in my
18 cell. I called out from my door, asking for medical help. I screamed through the crack on
19 the side of the door. I asked for medical care, for 602s, or 22s. No one gave me anything
20 that day or the following days. I am not sure why they refused. I assume they did not
21 want me to document these issues.

22 30. I met with my clinician Daniels the following day, March 20, for my one-on-
23 one before my IDTT. I did not trust him because he had seen me in the cage the day
24 before and did not help me. I did not think he would help me now.

25 31. I filed a 602 about all of these events more recently, after I arrived at SVSP.
26 I wanted to make a photo copy because 602 forms are often lost or never responded to at
27 COR, especially if they concern staff misconduct. When you submit a 602, you are
28 supposed to get a receipt for submitting the 602 to the appeals box. You are also supposed

1 to get a log number within 7 days and a response with 30 days. In my experience, at COR,
2 they often fail to give log numbers or follow these other procedures. If the first 602 is not
3 responded to, you must 602 the issue again. The second appeal is sometimes denied
4 because it was submitted more than 30 days of the incident. It is another headache, and
5 appeals often get lost. This process discourages incarcerated people with disabilities from
6 wanting to do the same 602 again and again and I believe a significant number of people
7 just give up. I make copies so that I will have a record of what I submitted, in case it is
8 lost or not responded to. In this case I submitted a 602 weeks later because I could not
9 access the law library to make copies at COR. I waited to submit until I arrived at SVSP
10 and could make a copy.

11 32. I had an interview on June 7, 2020 at SVSP with Lieutenant Parks and
12 Sergeant Cervantes to discuss this 602. I believe that there is an on-going investigation.

13 33. I was the victim of a second incident of staff misconduct during the week of
14 May 11, 2020. On May 8, 2020 I met with my clinician for a weekly meeting. We did not
15 discuss changing my level of care during the May 8, 2020 meeting. On Monday, May 11,
16 2020, I had a confidential legal call. It is my understanding that a member of custody staff
17 informed my clinician in 3A04, Patricia Hurt, about my legal call. Custody staff had been
18 receiving my 22 forms at COR. The 22 form can be submitted in the mail or I can ask the
19 officer to sign it, which confirms that it will be delivered. Usually they read it before they
20 sign it, but that way is more secure than the mail. I think officers told my clinician about
21 my complaints about staff and my legal calls. I was not speaking to my clinician about
22 these issues anymore because she had been hostile to my concerns in the past.

23 34. Five days after my last meeting with my clinician, on May 13, 2020, I had a
24 second meeting with Ms. Hurt. Usually I only have one meeting per week. But in this
25 case we met on May 8 and May 13, 2020. In an earlier meeting on April 29, 2020,
26 Ms. Hurt had said she would not change my level of care because I was waiting for
27 transfer. I was just waiting to transfer to Richard J. Donovan to be closer to my family.
28 But on May 13, 2020, we met again and Ms. Hurt informed me that I would be dropping to

1 the CCCMS level of care. Ms. Hurt had only recently become my clinician. I had only
2 met with her twice before this. I protested that I did not feel ready and asked for more time
3 at EOP. Ms. Hurt said that I would have an Interdisciplinary Treatment Team (“IDTT”)
4 meeting on May 20, 2020 and would have my level of care dropped to CCCMS. She did
5 not explain why I was being dropped. I believe it was due to learning about my 602 and
6 staff misconduct issues. I asked to talk to her supervisor, Dr. Glatstein. Dr. Glatstein, who
7 came into the room with me and Ms. Hurt, asked what my problem with Ms. Hurt was.
8 Ms. Hurt was still in the room when Dr. Glatstein asked this question. I did not feel
9 comfortable explaining with Ms. Hurt present to listen.

10 35. On May 20, 2020 I attended my IDTT and asked to remain EOP. Despite
11 my request, I was dropped to CCCMS and moved housing that same day. It is my belief,
12 based on the fact that at our May 8 meeting Ms. Hurt told me she would leave me at EOP
13 before my transfer, that my level of care was dropped in retaliation for my 602 staff
14 complaints and for my contact with attorneys. I feel that as soon as I began complaining
15 about the conditions of my confinement and staff misconduct, Ms. Hurt would cut me off.
16 She would say, “that is just a rumor” as I was discussing my personal experiences. I could
17 not talk to her about my problems and had a fear that she would retaliate against me. At
18 this point, I had a conversation with an attorney over the phone and filed a 602 complaint
19 recently. After these two actions, on May 13 Ms. Hurt’s attitude had completely shifted
20 from our May 8 meeting. She said suddenly that I would be dropped a level of care, a
21 complete turnaround, after she learned that I was speaking to attorneys and complaining.
22 Since then I have remained at the CCCMS level of care.

23 36. After this incident, I felt that I could not share my experiences with my
24 clinicians out of fear of retaliation. Instead I hold this humiliation inside and cannot let it
25 out. After this took place, I could not deal with my depression or my loss of appetite. I
26 could not bring these issues up with my clinician because I worried that she would inform
27 other staff, or remove me from treatment altogether. I had no one to talk about these
28 problems with.

1 37. I believe that officers have huge and inappropriate influence on mental health
2 clinicians at COR. For example, when I have had a negative experience with an officer
3 and tried to mention it to my clinician, the clinician will dismiss this concern. This has
4 happened to me with multiple clinicians. In my experience, clinicians often take officers'
5 thoughts into account when making treatment decisions.

6 38. In my opinion, staff at COR target people who have problems. They target
7 people who need help or ask for things. For example, I might file a 602 about a situation.
8 I would later be called into the program office to discuss. When I go, the sergeant and
9 other officers are present to listen, surrounding me. The other officers will interject and try
10 to persuade me to withdraw my complaints or appeals. If I do not, then problems start. It
11 is a very threatening atmosphere.

12 39. I also believe that staff at COR target mentally ill people at the EOP level of
13 care. They take advantage of people who cannot advocate for themselves as well. The
14 people who could not express themselves or were afraid got targeted in the EOP ASU.

15 40. COR is very bad in terms of staff misconduct. I think installing video or
16 audio surveillance systems would be helpful. At COR there is a culture of allowing
17 inmates to do things that officers should do. There is also a bullying culture of officers
18 profiting from incarcerated people by taking and reselling or renting inmates' property at
19 COR. I have witnessed this myself and have seen this rental system in action. I have
20 never seen anything like such open and obvious staff misconduct.

21
22 I declare under penalty of perjury under the laws of the State of California that the
23 foregoing is true and correct, and that this declaration is executed at Salinas, California this
24 31st day of July, 2020.

25
26 /s/ [REDACTED]
27 [REDACTED]

28 On July 31, 2020, due to the closure of SVSP in light of the COVID-19 pandemic

1 and ongoing concerns that officers might retaliate against witnesses in support of
2 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
3 system at SVSP, I read the contents of this declaration, verbatim, to [REDACTED] by
4 telephone. [REDACTED] orally confirmed that the contents of the declaration were true
5 and correct. [REDACTED] also orally granted me permission to affix his signature to
6 the declaration and to file the declaration in this matter.

Exhibit 34a

Filed Under Seal

Exhibit 35

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at Corcoran ("COR") in the Central Service Facility, in the Infirmary, in INFC1. From February 10, 2020 to February 14, 2020, I was housed in COR in Facility 3A, Building 03, which is an Enhanced Outpatient Program Administrative Segregation Unit ("EOP ASU"), a specialized segregation unit for EOP level of care individuals. From February 14, 2020 to February 16, 2020 I went out to Bakersfield Adventist Hospital ("BAH"). From February 16, 2020 to February 18, 2020, I was housed in the COR Infirmary. From February 18, 2020 to May 29, 2020, I was housed in COR in Facility 3A, Building 03, the EOP ASU. I am 29 years old.

3. I am a *Coleman* class member. Currently, I am at the ACUTE level of mental health care. From January 28, 2020 to February 16, 2020 and from February 18, 2020 to May 29, 2020, I was at the Enhanced Outpatient Program ("EOP") level of care. From February 16, 2020 to February 18, 2020 and from May 29, 2020 to June 8, 2020, I was at the Mental Health Crisis Bed ("MHCB") level of care. From June 8 until today, I have been at the ACUTE level of care, but remain housed in the MHCB due to COVID-19 related transfer restrictions.

4. I am diagnosed with bipolar disorder, depression and anxiety, and schizoaffective disorder. I take Haldol and Strattera for these conditions.

5. On May 4, 2020 I was the victim of staff misconduct at COR. I was in my cell, [REDACTED] in the EOP ASU, during second watch when, around 8:30 a.m., I told Officer H. Hernandez, Officer E. Ruiz, Officer E. Diaz, and Nurse V. Alvarez that I had chest pains as they walked across the tier. Nurse Alvarez told me to go lay down and drink water, that it was anxiety. After she said that, I boarded up my cell. I was upset because I believed I needed and was not receiving medical attention so I boarded up, which means

1 covering up the window to my cell, in order to receive medical attention. I could see
2 through the gap in my door and hear other incarcerated people begin kicking their doors,
3 trying to help get me medical attention. They yelled "Man down, [REDACTED]." I left my window
4 boarded up.

5 6. From about 11:30 to 1:30 p.m. Officer H. Hernandez, Officer E. Ruiz,
6 Officer E. Diaz and Sergeant Hacksworth were standing outside of my door. They kicked
7 my door. They were saying offensive things. I did not respond.

8 7. At about 1:30 pm that day, I was still boarded up. My clinician S. Yang
9 came over and asked Officer H. Hernandez, Officer E. Ruiz, Officer E. Diaz and Sergeant
10 Hacksworth why they were not doing anything. I heard the officers say that I was not
11 worth their time. She said ok and walked away. I could hear her talking to the officers
12 about me, but she did not speak to me. I think my clinician is friends with the officers.

13 8. On third watch, at about 2:00 p.m. or 2:30 p.m. my cell was still boarded up.
14 Other incarcerated people were still kicking their cell doors and calling out about me.
15 Around 4:30 p.m., Officer F. Godoy, Sergeant Holland, Officer Velasquez, and one officer
16 whose name I don't know came over to my cell with Nurse Chronister and Nurse Silva.
17 Nurse Silva is now Nurse Sanchez because she got married. Other incarcerated people
18 stopped kicking their doors when this group came to my cell. I again said that I had chest
19 pains. The nurses just told me go to lay down. People around me started their door
20 kicking again.

21 9. Then at about 4:30 p.m. Sergeant Holland, Officer Velasquez, Officer
22 Godoy, Officer Caldron and another officer opened my door. They did not give me any
23 warning. They are supposed to give a warning before opening a cell. No one was
24 videotaping. I was laying on the floor because it is cooler when they came into my cell. In
25 the cell, they kicked and punched me while I was on the ground. It was very painful.
26 They kicked my entire body, stomping on me.

27 10. They dragged me out of my cell. I was covered in blood. They cuffed my
28 hands and ankles really tightly. They put a spit mask on me. They then kicked, punched,

1 used the bottom of their pepper spray bottles and a baton on me. I was hit in the face with
2 a baton. Officers told me, "you ain't nothing but a n*gg*r." I passed out while outside the
3 cell cuffed up. I did not wake up fully until I was in the outside hospital, Bakersfield
4 Adventist Hospital.

5 11. Other incarcerated people could see what was happening. They asked staff
6 to stop. When I was still in my cell, before the officers came in, I could hear officers
7 yelling at my neighbors to "shut up you mentally ill people." My neighbors [REDACTED],
8 [REDACTED] and [REDACTED] witnessed this. I think the entire tier could see.

9 12. Afterwards, Officer Bang in the tower sounded an alarm at about 4:40 p.m. I
10 was not fully conscious but I could hear the alarm. I believe Officer Bang saw the entire
11 thing and waited to sound the alarm to get me medical treatment. Medical staff came to
12 my cell, [REDACTED], to treat me. They cleaned a large cut on my right cheek where I was
13 hit a with baton. My vision was blurred in my right eye. I felt nauseous and my back hurt.

14 13. I went to the COR CTC and then was transported to BAH for treatment at
15 about 6:30pm. At BAH, I had a CT scan of my head and my lower face. My right nasal
16 bone was fractured. They also took images of my spine and sutured the cut in my cheek in
17 six places. I returned to COR on May 5 early in the morning after waiting in the
18 emergency room for several hours.

19 14. On May 5, I went to the ophthalmologist. I could only see shadows with my
20 right eye. I could not see anything more clearly. I also had bad headaches after being hit
21 with a baton. The eye doctor said that I had a tear in my retina in my right eye and
22 recommended laser surgery in both eyes because my vision is not good in either eye. I
23 have not yet received surgery. I wear glasses. To this day I have trouble seeing from my
24 right eye and have migraines.

25 15. I received a Rules Violation Report ("RVR") for Battery on a Peace Officer
26 for this incident. I had a hearing, maybe a week later, and they found me guilty. But I
27 think the RVR was false. The RVR said I kicked and punched the officers, but I was
28 laying on the floor when they came in and I did not kick or punch them. I was on C-status

1 for 90 days as a result of the RVR. I also received 18 months added to my time in a
2 segregation unit.

3 16. I tried to submit a 602 about the false RVR on May 6. It was never
4 responded to. There was no investigation in to the RVR that I know of.

5 17. On May 13, I had a Mental Health Assessment ("MHA") for that RVR. I
6 told the clinician that what officers wrote in the text of the RVR was not the truth. I also
7 said that my mental health was a factor. The clinician wrote down that it was not a factor.

8 18. I have also witnessed staff engage in misconduct against other people at
9 COR.

10 19. On the morning of March 19, 2020, I was in my cell in the COR EOP ASU.
11 Around 9:00 a.m., Officer Ruiz, Officer Diaz, Sergeant Hacksworth, and Officer
12 Hernandez escorted [REDACTED] out from the door to the yard towards my cell. They
13 were calling him stupid and a "n*gger."

14 20. They put him inside one of the cages on the way to the showers. He was in a
15 cage, facing the wall. The officers pulled his hands out of the tray slot, cuffed, and put a
16 triangle restraint device on his wrists. They left the restraint device there for several hours.

17 21. While [REDACTED] was in this position, Officer Ruiz, Hernandez and
18 Diaz cut his boxers off. His genitals were left exposed.

19 22. At about 9:30 a.m., a crisis intervention team ("CIT") came to meet with
20 [REDACTED]. The CIT team, along Sergeant Hacksworth, stood behind [REDACTED]
21 [REDACTED]. The sergeant kept saying that [REDACTED] was not suicidal, that he was an
22 IEX-er. "IEX" means "indecent exposure." Being accused of being an IEX-er can put
23 your life in jeopardy from other incarcerated people and from officers.

24 23. In my experience, a meeting with the CIT team is supposed to be
25 confidential. Because the officer was present, this did not look confidential to me. I could
26 also hear.

1 24. The CIT team left after speaking with [REDACTED] for about five
2 minutes. They walked away with the sergeant. [REDACTED] was left in the cage nude
3 until later that day.

4 25. At around 9:50 a.m. I left my cell to attend my EOP mental health group. I
5 returned at around 11:50 a.m. to my cell. When I came back to my cell, Officer Diaz,
6 Officer Ruiz, Officer Hernandez and Sergeant Hacksworth were around the cage harassing
7 [REDACTED]. They reached into the cage, grabbing his buttocks and saying “you have
8 a little weenie.”

9 26. I think this incident happened because [REDACTED] reported that he was
10 suicidal. People who report suicidality are beaten up often in this unit. I do not know why
11 they do this. I think it establishes dominance.

12 27. I filed a 602 on that day about the incident. I wrote that I saw [REDACTED]
13 [REDACTED] exposed in the cage and the officers grabbing at him. It was never responded to.
14 There was no investigation that I am aware of.

15 28. These incidents that I have experienced and witnessed impact my ability to
16 access mental health care. It is difficult to access mental health care at COR because I feel
17 that the mental health staff inform the officers about my mental health issues.

22 ///

23 ///

24 ///

25 ///

26 ///

27 ///

28 ///

1 29. I fear for my safety and security because I am at COR. In terms of staff
2 misconduct, COR is one of the worst prisons that I have been to. I have been at COR since
3 2018 and have witnessed many incidents of staff misconduct. I am really frustrated
4 because I feel that at COR there is no justice or consequences for the officers' actions. The
5 officers are sworn police officers: they should be protecting us, not antagonizing us.

6 30. I declare under penalty of perjury under the laws of the State of California
7 that the foregoing is true and correct, and that this declaration is executed at Corcoran,
8 California this 29th day of June, 2020.

9
10
11
12 On June 29, 2020 due to the closure of COR in light of the COVID-19 pandemic
13 and ongoing concerns that officers might retaliate against witnesses in support of
14 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
15 system at COR, I read the contents of this declaration, verbatim, to [REDACTED], by
16 telephone. [REDACTED] orally confirmed that the contents of the declaration were true and
17 correct. [REDACTED] also orally granted me permission to affix his signature to the
18 declaration and to file the declaration in this matter.

Exhibit 35a

Filed Under Seal

Exhibit 36

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number was [REDACTED] I am 27 years old.

3. From April 1, 2020 until my release from prison in September of 2020, I was at the Enhanced Outpatient Program ("EOP") level of mental health care. I am diagnosed with bipolar disorder. During the time that I was at California State Prison-Corcoran ("COR"), my mental health issues were similar to the issues that I experience today.

4. I was housed at COR from January 31, 2019 to June 1, 2020. From January 31, 2019 until October 6, 2019, I was housed in COR Facility 3B Building 2. Several times from January to July of 2019 I was out to court at Calipatria State Prison and at the Richard J. Donovan Correctional Facility. From October 6, 2019 until April 1, 2020, I was housed in COR Facility Z, which is a Short-Term Restricted Housing unit ("STRH"). The STRH is a specialized Administrative Segregation Unit ("ASU") for CCCMS level of care individuals. From April 1, 2020 until June 1, 2020, I was housed in COR Facility 3A Building 3, which is an EOP Administrative Segregation Unit ("EOP ASU"), a specialized segregation unit for EOP level of care individuals. On June 1, 2020 I transferred to California State Prison-Sacramento ("SAC") and in early September, I was released from prison.

5. I witnessed staff misconduct against other people at COR.

6. On April 6, 2020 at about 9:00 a.m. I was walking to yard, handcuffed and escorted by Officer Riley. Typically, in the EOP ASU, incarcerated people went to "yard" in what are known as "small management yards" or "SMYs." These yards are small cages about the size of a bathroom surrounded by chain link fencing and set up on a concrete pad.

1 7. On April 6, 2020 Officer Riley was walking me to my specific walk alone
2 cage on the yard. As I was walking through, I saw Officer Hernandez, the second watch
3 yard runner, and Officer Ruiz, the 3A03 floor officer. Officer Hernandez and Officer Ruiz
4 were stopped in the middle of the walkway speaking with another incarcerated person,
5 [REDACTED] [REDACTED] I could not hear what they said.

6 8. After a few moments, Officer Hernandez and Officer Ruiz slammed [REDACTED]
7 [REDACTED] against the wall of one of the yard cages. Officer Ruiz was on [REDACTED]
8 [REDACTED] left side and Officer Hernandez was on [REDACTED] right side. [REDACTED]
9 [REDACTED] was handcuffed at the time. The two officers pulled his arms up behind him
10 high and smashed his head into the fence.

11 9. While [REDACTED] [REDACTED] stood in that position, Officer Ruiz loudly said
12 “Suck my dick.” Then Officer Ruiz punched [REDACTED] [REDACTED] three to four times in his
13 rib and kidney area, while Officer Hernandez held [REDACTED] arms up and pushed his face
14 against the fence. After Officer Ruiz punched [REDACTED] left side, they switched. Officer
15 Hernandez then punched his right rib and kidney area four to five times.

16 10. Other incarcerated people were calling out from other cages. They said stop.
17 I called out “Hey! Stop that! Stop hitting him – I’ll write you up.” To “write up” staff
18 means filing an administrative grievance about them. Officer Riley, who was escorting
19 me, told me to shut up. Then Officer Riley put me in the cage next to [REDACTED] [REDACTED]
20 I told [REDACTED] of his right to appeal or file an emergency 602.

21 11. After this incident, I was taunted by officers from this tier. They called me a
22 rat and a snitch. I honestly believe that my safety might well have been impacted by those
23 officers’ actions, if I had not been moved to SAC.

24 12. Sometime in May, the Office of Internal Affairs (“OIA”) came to speak to
25 people who witnessed this. It is my understanding that the OIA came because [REDACTED] filed
26 a 602 about this. The OIA interviewed me about this incident. On the same day that I was
27 interviewed, my cell was searched and I was written up for destroying a mattress. I did not
28 destroy a mattress. It is my understanding that this was retaliation.

1 13. On May 4, 2020, I was in my cell, COR [REDACTED] I could see and hear
2 what took place at many cells around the tier.

3 14. During the afternoon of May 4, 2020, another incarcerated person named
4 [REDACTED] [REDACTED] told staff that he had chest pains right before shift change around noon.
5 Medical staff never came to check on him. In this unit staff typically do welfare checks
6 every thirty minutes. During third watch he also told staff when they did welfare checks.
7 No one checked on him. He boarded up his cell, [REDACTED] in response, because he
8 wanted medical care. "Boarding up" means to cover the window of a cell. He was
9 boarded up for at least an hour. From my cell, I had an unobstructed view of [REDACTED]
10 cell, and I was about 10 yards from his cell, so I could see everything that happened.

11 15. After dinner Sergeant Holland and a few other officers did a welfare check
12 on [REDACTED] [REDACTED]. They checked to make sure that he responded to them, because they could
13 not see into his cell. He did not respond to them. Sergeant Holland opened the tray slot
14 and stuck his hand in to remove the covers. He said, "You wanna play, we can play."
15 Then the officers walked away.

16 16. After removing the coverings on his window, Sergeant Holland, Officer
17 Velasquez, Officer Godoy, Officer Caldron and Officer Gaxiola cell-extracted [REDACTED]
18 [REDACTED]. A "cell extraction" is when officers remove a person from his or her cell
19 involuntarily, typically using some degree of force. When time permits, officers are
20 supposed to videotape cell extractions done to *Coleman* class members, unless there is an
21 emergency. At the time of this incident, [REDACTED] [REDACTED] cell had been boarded up for at least
22 an hour so there was clearly no emergency. When they cell extracted [REDACTED] [REDACTED] no one
23 was videotaping the cell extraction.

24 17. As part of the cell-extraction, Sergeant Holland, Officer Velasquez, Officer
25 Godoy, Officer Caldron and Officer Gaxiola entered [REDACTED] [REDACTED] cell. Officer Godoy
26 went in with a shield first, then Sergeant Holland, Officer Velasquez, Officer Caldron and
27 Officer Gaxiola. They did not give any warning. Once they entered, I could not see inside
28

1 the cell, but I heard them beating him up. It sounded like thunder or a loud drum for about
2 30 seconds.

3 18. After 30 seconds, Sergeant Holland, Officer Velasquez, Officer Godoy,
4 Officer Caldron and Officer Gaxiola dragged [REDACTED] [REDACTED] out of his cell. [REDACTED] [REDACTED] was
5 covered in blood and hogtied. He was wearing a spit-mask, was cuffed at the ankles and
6 the hands. Officer Velasquez, Officer Godoy, Officer Caldron and Officer Gaxiola placed
7 him on the ground outside of his cell and continued to beat him up. Sergeant Holland held
8 him down. They kicked and punched him while he lay there cuffed. I could hear him
9 being beaten and his right cheek was split open wide as if he had been in a boxing match,
10 an open gash. I could see him on the ground.

11 19. I think a left-handed officer hit [REDACTED] [REDACTED] with a baton because the gash
12 was on his right cheek.

13 20. The tower hit the alarm. Sergeant Holland, the third watch sergeant, said
14 "What the fuck, why did you hit the alarm?" The officer in the tower said "That guy is
15 bleeding." After the alarm, many officers rushed into the building. They surrounded
16 [REDACTED] [REDACTED] Officer Velasquez and Officer Godoy left, I think they may have injured
17 themselves. Officers moved [REDACTED] [REDACTED] into the dayroom near his cell.

18 21. At about 4:40 p.m. after the alarm, Nurse Silva and Nurse Chronister came
19 near to [REDACTED] [REDACTED] cell to treat him. He had a large cut on his face and his right eye was
20 swollen. They asked what was wrong and he said, "My face hurts." Nurse Silva said,
21 "Did you deserve it?" They did not provide him with any treatment. [REDACTED] [REDACTED] got very
22 upset and starting cursing. Someone called an emergency response vehicle and they left
23 for the on-site hospital about five minutes later.

24 22. About four days after this a lieutenant and a sergeant came to see him. I
25 believe they were interviewing him about staff misconduct. I believe this also made [REDACTED]
26 [REDACTED] a target for more harassment on the unit.

27 23. I also witnessed staff misconduct against another incarcerated person on
28 May 10, 2020.

1 24. During breakfast there was a commotion, and I heard Officer Riley
2 responding. He and other officers walked past my cell into the hallway to get their gear.

3 25. About two minutes later, Officer Ruiz and Officer Hernandez stood in front
4 of my door arguing about who would enter the cell first. They were wearing riot helmets
5 and gloves. Officer Ruiz was wearing mechanic gloves with plastic pieces on the
6 knuckles. Officer Hernandez wore motorcycle gloves with metal pieces. The shields were
7 sitting nearby. These gloves protect their hands but could also inflict damage. They were
8 not wearing cell extraction gear. Cell extraction gear is a white hazmat suit with a head
9 covering, a protective helmet, protective vest, gloves, kneepads and elbow pads. It is my
10 understanding that they did not wear this to have better range of movement.

11 26. Once Officer Riley and Officer Contreras had on helmets and shields, they
12 walked with Officer Ruiz and Officer Hernandez to the incarcerated person's cell. They
13 asked, "You wanna play games?" Then Officer Hernandez, Officer Ruiz, a sergeant, and
14 Officer Diaz ran into the person's cell. Officer Riley and Officer Contreras stepped off to
15 the side. They did not give the incarcerated person any other warning before they rushed
16 into the cell. They did not provide him a chance to cooperate or cuff up.

17 27. Once they ran into his cell, they beat him down for about a minute. I was not
18 able to see into the cell because I was standing in my cell and from there I could not see
19 into the cell. His cell was to the right of mine. I could hear the hits; it sounded like
20 crunching, as if you were crunching dry ramen noodles.

21 28. After about a minute, Officer Hernandez, Officer Ruiz, Officer Diaz and the
22 sergeant brought the person out of his cell in handcuffs. I could hear his labored breathing
23 and his moaning in pain. They continued to hit him outside the cell about ten feet from his
24 door. Officer Hernandez knelt on his neck and hit his head. I could see this happening
25 through the crack in the right side of the door. In prison, the doors to the cells slide to the
26 side. If I looked through where the door slid open, I could see clearly. Officer Ruiz knelt
27 on his legs and hit his kidney and spine. The sergeant was holding his legs. I think Officer
28 Diaz went to get medical staff. This went on for more a minute.

1 29. After more than a minute, someone hit an alarm because the incarcerated
2 person needed medical treatment. Officer Hernandez, Officer Ruiz, Officer Diaz and the
3 sergeant picked him up, shackled and handcuffed and brought him about 20 feet to a cage.
4 He was wearing a spit mask. He struck his cuffs outside the cage and they put a triangle
5 device on him. The sergeant asked if he was good, if he needed medical treatment. He
6 said he did. A psych tech named Miller and a nurse came to the cage. They asked the
7 incarcerated person if he was ok. Before he said anything, Officer Hernandez said he was
8 good and shooed them away. The medical staff protested but Officer Hernandez told them
9 to go away. I think the medical staff are intimidated by custody staff.

10 30. This incarcerated person is an older man, perhaps 60 years old, and only
11 about 5 feet tall. I have known him since September or October 2019. The officers who
12 assaulted him were each approximately 100 pounds heavier than he is. It is my
13 understanding that this person already has serious mental health issues and other medical
14 ailments. He does not always remember what happens.

15 31. At some point afterwards, the incarcerated person submitted a 602. He told
16 me that he did. I believe that Officer Ruiz and Officer Hernandez were sent to escort him
17 to the interview, so he refused it. I think he was worried about being assaulted

18 32. Witnessing this was scary. I was SNY and I feel like I have seen it all. I was
19 incarcerated for over eight years. But to be in a place where I was not safe alone in my
20 cell, worrying about officers, was scary and unnerving. I worried that officers would break
21 my neck. Chokeholds are the norm at COR. I stopped attending yard because of staff. I
22 refused because I did not feel safe going. I felt like I would be attacked because of all the
23 misconduct that I witnessed. Many other people also refused; I saw them. I would attend
24 EOP group because different officers escorted me there.

25 33. In my opinion, staff target people in the EOP ASU who need help. We need
26 treatment and help and we are unable to access it because we worried about being
27 assaulted. Custody officers try to make it impossible to access mental health care. I
28 believe people who were suicidal were not able to tell staff that they felt suicidal because

1 they did not trust that they would get mental health care. Staff would put you in a cage,
2 search your cell and beat you up. I believe they did not want to do the paperwork
3 associated with people who felt suicidal.

4 34. We call it "Crooked Corcoran" for a reason. COR has some of the worst
5 misconduct of any other prison that I have been to. I have been to SAC, Folsom State
6 Prison, Salinas Valley State Prison, Wasco State Prison, California Substance Abuse
7 Treatment Facility, California Correctional Institution, Richard J. Donovan Correctional
8 Facility, Ironwood State Prison, Calipatria State Prison, High Desert State Prison, San
9 Quentin State Prison, North Kern State Prison, and Kern Valley State Prison.

10 I declare under penalty of perjury under the laws of the State of California that the
11 foregoing is true and correct, and that this declaration is executed at Harbor City,
12 California this 23rd day of September, 2020.

I. INTRODUCTION

In November 2019, a team from the Prison Law Office visited the California State Prison, Corcoran (COR) to monitor the prison's compliance with the *Armstrong* Remedial Plan (ARP), *Armstrong* court orders, and Americans with Disabilities Act (ADA).

The information in this report is based upon interviews with class members, interviews with staff, tours of the facility, and review of documents received during this monitoring period of February 2019 to October 2019. During the tours, we interviewed 41 class members—approximately 22% of the total DPP population housed at the institution at the time of the tour.

DPP Codes (November 2019)									
DPW	DPO	DPM	DLT	DNM	DNH	DPV	DNV	DPS	LD
14	16	14	57	35	48	4	1	3	4

This report does not contain an exhaustive list of every class member who raised a concern; some class members, including those fearing retaliation, did not authorize us to use their names. Many of the issues raised in this report were presented to Corcoran and headquarters staff over the course of the November 2019 tour. Throughout this report, we make recommendations and requests for information. These requests and recommendations are summarized again at the end of the report. We have indicated with an asterisk (*) the allegations of noncompliance that we believe should be documented on the accountability logs.

As we reported at our exit meeting, and have subsequently discussed with CDCR's Office of Legal Affairs, we are troubled by Corcoran's performance with respect to the provision of disability accommodations. Our document review and interviews with staff and class member at Corcoran demonstrated major deficiencies in the DPP program. Members of custody staff lacked basic knowledge of disability issues (*see* pages 3-7). Class members reported serious physical plant access issues, including widespread problems with shower accessibility (*see* pages 9-20). The performance of Reasonable Accommodations Panel was particularly poor (*see* pages 20-25). In numerous instances,

3. Mr. [REDACTED], [REDACTED], DPO, 4A, 19-04668, requested a sliding board to help him transfer in and out of his wheelchair, along with other property lost when he left KVSP. The RAP response, issued on August 7, 2019, states, “Per ARP § IV.B.2, you will be evaluated for verification of disability and medical necessity of a sliding board.” First, the statement incorrectly uses the medical necessity standard rather than the reasonable accommodation standard appropriate for these types of requests. Second, the RAP response fails to render a decision regarding Mr. [REDACTED]’s request. The RAP should have waited to receive input from Mr. [REDACTED]’s PCP regarding this request and then issue a response.

VI. STAFF MISCONDUCT

Nearly all class members we spoke with reported experiencing some form of staff misconduct at Corcoran. As noted, we have received more than 40 allegations of harassment and brutality by custody officers at Corcoran. We have sent numerous advocacy letters on behalf of *Armstrong* and *Coleman* class members who have experienced serious physical abuse by officers. Earlier this month, our office sent a letter to Secretary Diaz detailing these reports and calling for action to address these serious problems. See Attachment A.

Most people we interviewed did not want their experiences or names shared due to fear of retaliation by custody staff. Class members expressed they often do not request accommodations because they fear custody staff will retaliate against them. Several class members also reported that they do not submit 602s because they fear that officers will retaliate. One class member reported that he was severely beaten by custody officers. When the class member filed a 602, custody staff pulled him into the chapel and told him to withdraw the 602 or he would continue to suffer beatings. The class member said that he withdrew the 602 after custody staff’s threats. Another class member reported that he was beaten by custody officers, but, before he could file a 602, officers told him that he would be beaten again if he reported the incident by filing a 602. One class member plainly stated, “Staff will retaliate if you file a 602.” Class members also reported that they frequently do not receive responses to the 602s they file.

We also received a number of staff misconduct reports alleging physical violence or threats of physical violence, undue cell searches, and destruction of personal property. Class members expressed a pervasive mistrust of custody officers at Corcoran. For example:

1. Mr. [REDACTED], [REDACTED], DPO, 04A [REDACTED], reported that he often has his dayroom privileges cut short by Officer Rangel in the tower. Mr. [REDACTED]

Armstrong Monitoring Tour Report

COR, November 2019

Page 29 of 29

reported that he has to yell and bang on his door to be let out for programming. Mr. [REDACTED] believes Officer Rangel's unwillingness to let him out of dayroom is due to a PREA complaint Mr. [REDACTED] filed against Officer Rangel in June 2018. Mr. [REDACTED] reported that on or around October 2, 2019, Officer Rangel told him, "This is what happens when people file complaints," referring to his loss of dayroom time and the PREA complaint. In another instances, Mr. [REDACTED] reported that Officer Rangel stated, "You and [REDACTED] (another person in Mr. [REDACTED]'s section) are like rabid dogs. You know what we do to rabid dogs on the street? Put a bullet in their head." Mr. [REDACTED] believes that he cannot talk to any correctional staff about the issues with Officer Rangel because other officers will not help him. Mr. [REDACTED] also noted that in October 2019, the yard captain came in to his section and tore up everyone's cell for no apparent reason.

2. Mr. [REDACTED], [REDACTED], DPM, 4A [REDACTED], reported that on or around November 10, 2019, during second watch, a search was conducted of his section. Mr. [REDACTED] was instructed by officers to cuff up behind his back. Mr. [REDACTED] explained that he needs waist chains in order to push his walker and walk safely. The officers told Mr. [REDACTED] that they did not have waist chains, so his hands would need to be zip tied behind his back. The officers proceeded to force Mr. [REDACTED]'s arms behind his back. They then pulled Mr. [REDACTED] by his clothes and zip tied his hands so tightly that they began to turn purple. Mr. [REDACTED] was placed in a holding cell after being escorted by four officers. While he was being placed in the holding cell, Mr. [REDACTED] heard one officer say, "Break it," to another officer—referring to Mr. [REDACTED]'s finger, which the officer had in his hand. The officer then said: "We run this how we run this," meaning that the officers have control of how things are done at Corcoran. Mr. [REDACTED] does not know the officers names, but noted that Sgt. Brown was present.
3. Mr. [REDACTED], [REDACTED], DLT, 4A [REDACTED], reported that on May 10, 2019, his section had mandatory yard. Mr. [REDACTED]'s walker at the time had a broken wheel, which made it difficult to use. Because of the broken walker, Mr. [REDACTED] explained to officers that he could not go all the way out to the yard recreation cages and asked if he could be put in the hallway holding cell during yard. Officers initially agreed to Mr. [REDACTED]'s request, but then changed their minds and told Mr. [REDACTED] he would have to go to the yard. Mr. [REDACTED] tried explaining that he had already come to an understanding with officers. The officer told Mr. [REDACTED] that he was not going to get any "special accommodations." Mr. [REDACTED] was struggling to walk with his

broken walker as officers grew impatient. Mr. [REDACTED] reported that officers then threw him to the ground because he was not walking fast enough. The officers pinned Mr. [REDACTED] down and began to punch him in the face. Mr. [REDACTED] received a RVR for allegedly kicking an officer during the incident, which Mr. [REDACTED] denies doing. Mr. [REDACTED] wrote an 1824, 19-3165, after the incident. The RAP response states that a non-compliance log entry was initiated and the 1824 was converted to a 602 (CSPC-7-19-3166) for processing as a staff misconduct complaint. The 602 response issued to Mr. [REDACTED] found that staff did not violate CDCR policy during this incident.

4. Mr. [REDACTED], [REDACTED], DNM, Z, reported that on September 24, 2019, he went to pick up his kosher meal from the chow hall on 3A. Mr. [REDACTED] typically takes his meal and drink with him to eat in his cell. On this day, Mr. [REDACTED] was stopped by a lieutenant and told that he cannot bring his beverage out of the chow hall. Mr. [REDACTED] had only been at Corcoran for five days at the time and had no issue bringing a beverage home the previous four days. However, Mr. [REDACTED] complied with the lieutenant's request and dumped the drink and continued on his way to his cell. Mr. [REDACTED] was then stopped by Officer Wolfe. Officer Wolfe asked Mr. [REDACTED] if he had any problem with him, calling Mr. [REDACTED] back. Officer Wolfe then grabbed Mr. [REDACTED] by the shoulder and said, "Put your fucking arms up," while holding onto Mr. [REDACTED]'s shirt collar and pushing him against a wall. Officer Wolfe kicked Mr. [REDACTED]'s legs, causing them to buckle, and slammed Mr. [REDACTED] on the ground, while putting his knees on his face. Mr. [REDACTED] heard his nose crack under the weight of Officer Wolfe's knee. Mr. [REDACTED] told Officer Wolfe that he has a mobility impairment, and Officer Wolfe said, "So fucking what?" Officer Wolfe then proceeded to put his boot on Mr. [REDACTED]'s head as he high-fived the lieutenant and gave other officers fist bumps. Mr. [REDACTED] was assisted up by a female officer and placed in a seated position. Officer Wolfe then took Mr. [REDACTED]'s watch forcefully, ripping the band, and stomped on it. Mr. [REDACTED] angered by what had transpired, told Officer Wolfe, "You're a straight bitch" for breaking his watch. Officer Wolfe responded that he has people on the yard who can "jump on [him]." Mr. [REDACTED] was placed into a holding cell after the incident and received a RVR for allegedly trying to elbow Officer Wolfe while he was against the wall. Mr. [REDACTED] explained that in the 30 years he has been in and out of prison, he has never had a confrontation with an officer. Mr. [REDACTED] does not know why Officer Wolfe would target him in this way. When Mr. [REDACTED] arrived to Corcoran five days prior to the incident, he heard other officers confronting people and calling them names like "little bitch." Mr. [REDACTED]

tends to keep his distance from officers and not bother them, so he was confused as to why Officer Wolfe would assault him. Mr. [REDACTED] now fears being attacked again. Mr. [REDACTED] reported he filed a 602 regarding the incident, but had not received a response. An individual advocacy letter was sent to CDCR on Mr. [REDACTED]'s behalf, but we have not received a response at this time. *See* Letter from Patrick Booth, Prison Law Office, to Russa Boyd, Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 12, 2020).

5. A DLT class member in 3A reported that he was beaten up by correctional officers for wanting to bring his wheelchair into his cell. He said that he was beaten in the open, and that the lieutenant on third watch knows about the beating. He also reported that officers told him that if he reported the incident, the beatings would continue to happen. He also said that the beatings occur frequently, and Officer Wolfe is the biggest instigator of violence. He reported that he has seen third watch officers (Officer Wolfe, Officer Parra, and a female officer) assault five people in the last three weeks prior to the tour.

The issue of staff misconduct at Corcoran appears to broadly affect *Armstrong* and *Coleman* class members, as well as non-class members, housed on all yards of the prison. We have reported to CDCR incidents of Corcoran staff brutally assaulting *Coleman* class members in retaliation for reporting staff misconduct. *See* Letter from Margot Mendelson & Patrick Booth, Prison Law Office, to Nick Weber, Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (Feb. 14, 2020). We have also reported to CDCR allegations of Corcoran custody staff engaging in a cell phone trade and organizing "gladiator fights." *See* Letter from Margot Mendelson & Patrick Booth, Prison Law Office, to Nick Weber, Office of Legal Affairs, [REDACTED], [REDACTED], COR (June 8, 2020). The staggering number of reports that we have received about staff misconduct at Corcoran indicate that significant action must be taken to address the culture of violence and lack of accountability at the institution.

VII. REQUESTS AND RECOMMENDATIONS

- We recommend that Corcoran ADA staff make greater efforts to inform class members of the accommodations available to them during orientation. We also recommend that class members be better informed regarding the availability and use of 1824 forms. This could be done by having ADA staff meet one-on-one with incoming class members, as is the practice at other institutions.

Additionally, we recommend that staff be retrained on ADA accommodations and the DPP, including training on the difference between the DPP and DDP. We also

Ms. Russa Boyd
CDCR Office of Legal Affairs

RE: *Armstrong* Advocacy Letter
[REDACTED], COR

Dear Ms. Boyd:

We write on behalf of *Armstrong* class member [REDACTED] DNH, DLT, who is housed at California State Prison, Corcoran (“Corcoran”). Mr. [REDACTED] reports that custody officers at Corcoran improperly confiscated the hearing aids he purchased, which have not yet been returned to him.

In April 2017, Mr. [REDACTED] was housed at North Kern State Prison, where he requested and was approved to order two “Oticon miniRITE” hearing aids. Exhibit A, CDCR 7536 DME Supply Receipt, April 21, 2017. The CDCR 7536 documenting the approval for his request states that the combined cost of the hearing aids was \$1,190.00. *Id.* Similarly, Mr. [REDACTED]’s CDCR Inmate Statement Report has three separate withdrawals from April 24, 2017, to May 9, 2017 for hearing aids, totaling \$1010.93. Exhibit B, CDCR Inmate Statement Report, July 18, 2019. Mr. [REDACTED] reports that he received the hearing aids, and they worked very well for him. He states that these hearing aids allowed him to hear much more clearly than he could when he used the state-issued hearing aids.

In June 2017, Mr. [REDACTED] was transferred from North Kern State Prison to Centinela State Prison, and in December 2018, he was transferred to Corcoran. During this period, Mr. [REDACTED] reports that he was permitted to continue using his personal Oticon hearing aids. On October 22, 2019, however, more than two years after purchasing and continuously using his hearing aids, Mr. [REDACTED] reports that custody officers searched his cell and confiscated his hearing aids. Exhibit C, CDCR Form 1824, Log No. 19-6764. He reports that custody staff did not give him a CDCR Form 1083, or a cell-search receipt, to document the confiscation, but they did tell him that medical staff “will give [him] new and better [hearing aids] for free.” *Id.* at p. 2. On October 28, 2019, Mr. [REDACTED] was referred for an audiology appointment, and he received state-issued hearing aids on November 21, 2019. CDCR 7536 DME Supply Receipt, November 21, 2019. He reports that he hears less clearly with his state-issued hearing aid than he did with the hearing aid that he had previously purchased.

On October 29, 2019, Mr. [REDACTED] submitted a CDCR Form 1824 (“1824”) to request “my hearing aids back and or [sic] be reimbursed the money that I paid [sic] for those hearing aids off my trust account dated 4-21-17, 4-27-17, 5-9-17.” Exhibit C, *supra*, at p. 2. On November 12, 2019, the RAP issued its response to Mr. [REDACTED], stating in part, “your reimbursement concerns would be best addressed

Board of Directors

Page 2

through the Inmate Appeals (CDCR 602) system.” *Id.* at p. 1. The RAP response does not address Mr. [REDACTED]’s allegation of the inappropriate confiscation of his DME by custody officers. Mr. [REDACTED] reports that he submitted a CDCR Form 602 (“602”) on October 29, the same day he submitted his 1824, but he never received a response.* He still has not received his original hearing aids back, nor has he been reimbursed.

Mr. [REDACTED]’s report raises two important issues. First, we are concerned that custody officers at Corcoran improperly confiscated Mr. [REDACTED]’s DME and provided no documentation. Upon transferring to Corcoran, Mr. [REDACTED] should have been permitted to keep his hearing aids unless his primary care physician evaluated him and determined that the hearing aids were no longer appropriate. *See* California Correctional Health Care System, Health Care Department Operations Manual [“HCDOM”], 3.6.1 (e)(8)(B) (“At the receiving institution, all previously prescribed DME and medical supplies shall continue to be provided unless a PCP at the receiving institution re-evaluates the patient and determines the DME or medical supplies are no longer medically necessary to ensure patients have equal access to prison services, programs, or activities.”).

Second, we are concerned about the RAP’s failure to address the substantive issues raised in Mr. [REDACTED]’s 1824. The Americans with Disabilities Act and *Armstrong* Remedial Plan both require a grievance procedure that provides prompt and equitable resolution of disability-related complaints. *See* 28 C.F.R. §35.107; ARP § IV (I)(23)(a). The RAP here does not address the allegation that custody officers inappropriately confiscated Mr. [REDACTED]’s DME and does not appear to have placed the allegations on the non-compliance log. The RAP therefore failed in its purpose to investigate and address disability-related issues. For example, it may be that additional training should be provided to officers about DME removal. By failing to address Mr. [REDACTED]’s main concern – that his hearing aids were improperly confiscated – the RAP also does not provide him with a complete response. *See* 1824 Desk Reference Manual (October 2, 2017) at 13 (“The importance of providing a thorough response to the inmate cannot be overstated. In addition to providing a means to inform the inmate of the RAP’s decision, a well written RAP response also becomes the basis for auditors, appeal/grievance staff, and ultimately the courts to determine whether an issue raised on a CDCR 1824 was thoroughly addressed.”). As you know, we have expressed concern that the poorly functioning RAP system at Corcoran undermines the goals of the *Armstrong* Remedial Plan. *See, e.g.*, Letter from Patrick Booth, Plaintiffs’ Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 11, 2020) (“The RAP’s continual

* A number of class members at Corcoran on all yards have reported that their 602s go unanswered. Others report that 602s reporting staff misconduct are not kept confidential and that they are told to withdraw them. *See, e.g.*, Letter from Patrick Booth, Plaintiffs’ Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 12, 2020) (“One class member reported that when he filed a 602 to report his own assault, custody staff brought him into a secluded area and told him that if he did not withdraw the 602, he would suffer more beatings. He reported that he immediately withdrew his 602.”). Not only is the appeals process important for safe and fair operation of the prison, but it is also a necessary component of the *Armstrong* Remedial Plan (“ARP”). ARP § IV (I)(23)(a) (“An inmate/parolee with a disability may request an accommodation, to access programs, services, activities or grieve alleged discrimination, through the CDC Form 1824 appeal process.”). Multiple *Armstrong* class members have reported to our office that they do not file 602s or 1824s because they believe it is futile.

Ms. Russa Boyd
Re: [REDACTED]
February 21, 2020
Page 3

failure to reasonably address disability-related requests threatens to undermine the 1824 process. Multiple *Armstrong* class members have reported to our office that they do not file 1824s, even if they need an accommodation, because of the insufficient RAP responses.”).

In light of these concerns, we request:

1. An explanation why Mr. [REDACTED]’s hearing aids were confiscated and all related documentation;
2. That Corcoran ADA and custody staff receive additional training about whether and when someone’s DME may be removed by custody staff;
3. That Corcoran ADA staff receive additional training on how to adequately address disability-related requests through the 1824 process; and
4. That Mr. [REDACTED]’s hearing aids be returned to him or that he be reimbursed for them.

Thank you for your prompt attention to this matter.

Sincerely,

Patrick Booth
Legal Fellow

REASONABLE ACCOMMODATION PANEL (RAP) RESPONSE

RAP Meeting Date: 11/7/2019

Date IAC Received 1824: 11/1/2019

1824 Log Number: CSPC -19-6764

Inmate's Name: [REDACTED]

CDCR #: [REDACTED]

Housing: 3B02-[REDACTED]

RAP Staff Present: ADA Coordinator R. Juarez, Custody Appeals Coordinator J. Ceballos, Health Care Appeals Coordinator A. Ybarra, Health Care Compliance Analyst C. Aguilera, Chief Medical Executive M. Russell, Psychologist B. Adam, Education staff G. Doan, ADA LVN K. James

Summary of Inmate's 1824 Request: Claims hearing aids were thrown out during cell searches. Requesting to be reimbursed.

Interim Accommodation:

- ☒ No interim accommodation required;
- ☐ Interim Accommodation provided (List accommodation and date provided):
- ☐ RAP rescinding interim accommodation:

FINAL RESPONSE:

Response: Your request was initially reviewed on 11/07/2019 and the Reasonable Accommodation Panel (RAP) was able to render a decision. You are identified as having a physical/hearing disability and are designated as DLT and DNH. It is noted you are a participant in the Mental Health Delivery System (MHDS) at the Correctional Clinical Case Management System (CCCMS) level of care. The RAP notes your TABE is 6.2. It is noted on the Interim Accommodation Procedure (IAP) you are safely accessing all programs, services, and activities. Per the Medical Disability Verification Process (DVP) Worksheet dated 11/07/2019; "I/P was seen by the PCP on 10/28/2019 in which an RFS was submitted for audiology. The RFS was entered as medium priority..." The RAP notes your reimbursement concerns would be best addressed through the Inmate Appeals (CDCR 602) system. While you are without your hearing aids, you are to wear your Hearing Impaired vest while outside of your cell.

Direction if dissatisfied: If you disagree with a medical diagnosis or treatment decision on which the Reasonable Accommodation Panel (RAP) relied in reaching its conclusion, you can file a blue CDCR 602 Health Care Grievance. Other disagreements with disability access or disability discrimination decisions should be filed on a green CDCR 602. Ensure you attach a copy of this response along with your CDCR 1824 as supporting documents.

EFFECTIVE COMMUNICATION: A review of the Test of Adult Basic Education list reveals you have a Reading Grade Point Level above 4.0, however, the Strategic Offender Management System (SOMS) shows you are DNH, therefore you do require special accommodation to achieve effective communication.

INSTRUCTIONS:

- You may use this form if you have a physical or mental disability or if you believe you have a physical or mental disability.
- You may use this form to request a specific reasonable accommodation which, if approved, will enable you to access and/or participate in a program, service or activity. You may also use this form to submit an allegation of disability-based discrimination.
- Submit this form to the Custody Appeals Office.
- The 1824 process is intended for an individual's accommodation request. Each individual's request requires a case-by-case review.
- The CDCR 1824 is a request process, not an appeal process. All CDCR 1824 requests will receive a response.
- If you have received an 1824 decision that you disagree with, you may submit an appeal (CDCR 602, or CDCR 602-HC if you are disagreeing with a medical diagnosis/treatment decision).

WHAT CAN'T YOU DO / WHAT IS THE PROBLEM?

The Problem is 10-22-19 My Cell Was Searched and My Hearing Aids Were Thrown Away With the trash I ask the Officer and He said that I was Not Allowed to Have those kind of "items" "Minimize" People First and that they will give Me New and Better ones For Free I Replied that I payed For those off My Trust Account

WHY CAN'T YOU DO IT?

Officer Replied They Don't Care So I Didn't argue I Have Reported this to Dr. Wenger and She Has Schulte me For Hearing In Reapaidless I payed For those Hearing Aids off My Trust Account I Should Have Been giving the Option to Mail Home or Donate Not only that Officers

WHAT DO YOU NEED?

Should Be trained properly on DMF that we Can & Cant Have Tr Requesting For My Hearing Aids Back and or Be Reimbursed the Money that I payed For those Hearing Aids off My Trust Account Dated 4-27-17 4-27-19 1-5-9-17 those are the Dates that Money was took off Trust Account For those Hearing Aids I under Stand DMF is For New But then it Wasn't it payed For those Hearing Aids And Would like to be Reimbursed and/or Compensated For My Hearing Aids that were thrown away Thanks You (Use the back of this form if more space is needed)

DO YOU HAVE DOCUMENTS THAT DESCRIBE YOUR DISABILITY? Yes ☐ No ☐ Not Sure ☐

List and attach documents, if available:

I understand that staff have a [REDACTED] failure to cooperate may cause this request to be disapproved.

Re: *Coleman* Advocacy Letter
[REDACTED], [REDACTED], KVSP

Dear Mr. Weber:

We write on behalf of *Coleman* class member [REDACTED], [REDACTED], CCCMS, who is housed at Kern Valley State Prison ("KVSP"). Prior to being housed at KVSP, Mr. [REDACTED] was housed at California State Prison, Corcoran ("Corcoran"), where he reports that he was assaulted by correctional officers in December 2019.

What follows is Mr. [REDACTED]'s account of the staff misconduct incident. On December 24, 2019, around 4 AM, Mr. [REDACTED] was in his cell in Corcoran's Unit 3C04, when he saw Correctional Officers A. Guzman and S. Rojas slide a cellphone under his cell door. Mr. [REDACTED] reports that everyone in his housing unit was in their cells at the time. When the phone appeared in his cell, Mr. [REDACTED] was confused and scared. He initially believed that the officers were "setting him up" – or planting contraband in his cell before conducting a raid in order to punish him. Shortly before this incident, Mr. [REDACTED] had reported to the sergeant that he was not being permitted to shower in the evenings, even though he was a night worker and should have been allowed to do so. Mr. [REDACTED] feared that Officers Guzman and Rojas might be retaliating against him after his reports to their superior. To conceal the contraband evidence and avoid punishment, Mr. [REDACTED] immediately inserted the cellphone into his rectum.

Minutes after the two officers slid the phone under his door, they returned to his cell and asked him to hand the phone back. Mr. [REDACTED], still believing the officers to be setting him up, denied possessing the cellphone. The officers asked him again to return the phone, and Mr. [REDACTED] again denied having it. The officers then left his cell and returned several minutes later with two other incarcerated men who were housed in the same unit. Both of these individuals are from the same community outside of prison as Mr. [REDACTED], and they are all friends in prison as well. Mr. [REDACTED] believed the officers asked his two friends to persuade him to return the phone. Indeed, the two incarcerated individuals attempted to convince Mr. [REDACTED] to hand the phone to the officers. However, the officers were still present when this conversation was happening, and Mr. [REDACTED] continued to believe that the officers were setting him up for punishment. Accordingly, he told his friends and the officers that he did not have the cellphone.

The officers brought the two individuals back to their respective cells after their attempts to persuade Mr. [REDACTED] were unsuccessful. Mr. [REDACTED] heard the officers say that they would "handle

Mr. Nick Weber

Re: [REDACTED], [REDACTED]

June 8, 2020

Page 2

the problem” on their own. They put on gloves and entered his cell. Mr. [REDACTED] was not ordered to submit to cuffing. Instead, Officer Rojas suddenly rushed at him and slammed into him, causing the back of Mr. [REDACTED]’s head to knock against the wall. While Mr. [REDACTED] was bracing himself, Officer Guzman punched Mr. [REDACTED] in the jaw, knocking him to floor. The officers continued to beat Mr. [REDACTED] when he was on the floor.

After Mr. [REDACTED] was assaulted, emergency medical services were activated at 4:51 AM. *See* First Medical Responder – DCT, December 24, 2019. When medical staff first arrived on the scene, Mr. [REDACTED] was “confused” and in an “[a]ltered level of consciousness.” *Id.* Additionally, “[b]oth of his eyes were shut due to eyelid swelling,” his “whole face [was] swollen,” he had “[d]ried blood in his mouth,” a “small laceration ... at the back L ear and at the corner of the R eye,” as well as “[a]brasions noted at the R side of his neck and R shoulder area.” Progress Note Nurse, December 24, 2019. Mr. [REDACTED] was transferred to an outside hospital for emergency care, where he spent the next seven days. *See* Outside Records – Hospital, December 31, 2019. Hospital records indicate that a “foreign body” was also found in and removed from Mr. [REDACTED]’s rectum. *See* Outside Records – Hospital, December 31, 2019 at 3.

At the outside hospital, Mr. [REDACTED] was determined to have suffered multiple and significant fractures in his face. *See id.* at 3. He had “[c]omminuted fractures of the right mandibular angle, [a]dditional fractures of the right zygomatic arch and posterior maxillary antral wall,” and a “C6 spinous process fracture.” *Id.* Because his jaw was broken so severely, it had to be surgically repaired and wired shut for more than a month; Mr. [REDACTED] was subsequently placed on a liquid diet plan. *See id.*; *see also* Outside Records – Hospital, January 30, 2020 (noting that Mr. [REDACTED]’s “[h]ardware from the mandible was removed” on January 30). Similarly, he was required to wear a neck collar at all times because of the fracture of his spinous process. *See* Outside Records – Hospital, December 31, 2019 at 3. In addition to his multiple fractures, Mr. [REDACTED] suffered a subarachnoid hemorrhage and an intracranial subdural hematoma. *See id.* His hospital records also indicate that he experienced cognitive issues as a result of a traumatic brain injury. *Id.* at 2 (“Pt continues to be limited by impaired safety awareness, impaired problem solving, and dizziness, resulting in decreased independence with self-care tasks.”); *id.* at 5 (noting Mr. [REDACTED] suffered a “traumatic brain injury”).

Upon returning to Corcoran, Mr. [REDACTED] was housed in the CTC for 50 days, until February 18, 2020, when he discharged to Corcoran’s Administrative Segregation Unit (“ASU”) for non-disciplinary reasons. *See* ASU PrePlacement, February 18, 2020; MHPC Intake Assessment, February 25, 2020. He remained on a medically-altered diet until February 22, 2020 because of the damage done to his jaw. *See* Inpatient Progress Note, January 31, 2020. He reports that when he received his property in the CTC, he was missing his television, his radio, and his chain necklace. He reports that he still has not received his missing property, and he believes that Officers Rojas and Guzman took his property as “compensation” for the phone that Mr. [REDACTED] refused to return.

In the weeks after returning from the outside hospital, the CTC sergeant met with Mr. [REDACTED] several times to ask him who assaulted him. Specifically, the sergeant asked Mr. [REDACTED] if custody staff was responsible for the beating. Mr. [REDACTED] says that, for weeks after the incident, he could not

Mr. Nick Weber

Re: [REDACTED], [REDACTED]

June 8, 2020

Page 3

clearly remember what happened to him that night.¹ Consequently, he was unable to report to the sergeant who had attacked him. About a month later, however, Mr. [REDACTED]'s memory slowly came back to him. Sometime in late January or early February, he remembered that he was assaulted by Officers Rojas and Guzman, and he requested to speak with the CTC sergeant to report the details of the assault.²

When he spoke with the CTC sergeant, the entire conversation was video recorded. Additionally, Mr. [REDACTED] filed a CDCR Form 602 ("602") to officially document the misconduct. However, Mr. [REDACTED] was transferred to KVSP on March 6, 2020. *See* Initial Health Screening, March 6, 2020. To date, he has not received a response to his 602, nor has he met with anyone about an ongoing investigation into the officers' conduct.

Mr. [REDACTED] was not disciplined for his conduct on December 24, 2019. Instead, he reports that the two incarcerated men who were sent into his cell to persuade him to return the phone to the officers were punished. Mr. [REDACTED] believes that both individuals received RVRs and that the officers held these men responsible for Mr. [REDACTED]'s injuries.

Cellphone Trade at Corcoran

Mr. [REDACTED] reports that some custody officers at Corcoran, including Officers Rojas and Guzman, sell cellphones to individuals housed at the prison. He reports that officers sell higher value smartphones for \$2500 and cheaper phones for \$1500. Mr. [REDACTED] believes that the cellphone that was slid under his cell door on December 24, 2019 was part of this officer-run cellphone trade. Although Mr. [REDACTED] believed at the time of his attack that he was being set up for punishment, he now believes that the officers mistakenly slid the phone under his door then came back to recover it. Mr. [REDACTED] reports that he had moved into that cell only two weeks prior to his assault. He believes that officers either intended to give the cellphone to the previous occupant of that cell or to someone in a different cell in the

¹ Retrograde amnesia – or a “partial or total loss of the ability to recall events that have occurred during the period immediately preceding brain injury” – is a common symptom of traumatic brain injuries (“TBIs”). Robert Cantu, *Posttraumatic Retrograde and Anterograde Amnesia: Pathophysiology and Implications in Grading and Safe Return to Play*, Journal of Athletic Training, 2001. The extent of memory loss differs from case to case, and it is possible for a person to “retrieve” memories that he could previously not recall because of a TBI. *See* Alice Park, *Scientists Figure Out How to Retrieve 'Lost' Memories*, Time, May 28, 2015 (summarizing a recent study that demonstrates “that memories in certain forms of amnesia aren’t erased, but remain intact and potentially retrievable.”).

² Although Mr. [REDACTED] cannot remember the exact date when he requested to speak with the sergeant, a note in his medical records from February 5, 2020 indicates that Mr. [REDACTED] “was talking to custody officers at cell front and he wanted to talk to the sergeant.” Progress Note – Nurse, February 5, 2020, 18:40:00 PST. He then “went to see the Hospital Sgt @ 1825 escorted by custody officers and back at 1835.” Progress Note – Nurse, February 5, 2020, 18:53:00. Two days later, Mr. [REDACTED] reported to his mental health clinician that his medical issues were a result of when he “was assaulted by ‘custody.’” MHPC Intake Assessment, February 7, 2020.

Mr. Nick Weber

Re: [REDACTED] [REDACTED]

June 8, 2020

Page 4

same housing unit. Mr. [REDACTED] believes that when the officers mistakenly slid the phone into his cell, they had to recover it in order to give it to the “rightful purchaser.” Mr. [REDACTED] reports that Officers Rojas and Guzman are not the only two officers at Corcoran that are engaged in a cellphone trade.

Gladiator Fighting

Mr. [REDACTED] also reports that some officers on Corcoran’s 3C yard orchestrate “gladiator fights” when the units are locked down. Mr. [REDACTED] reports having witnessed these gladiator fights on multiple occasions. He says that some floor officers arrange to have two members of one gang fight two members of a rival gang in the dayroom. Mr. [REDACTED] reports that the officers first search all four people to ensure that they have no weapons, then they let the individuals fistfight in the dayroom while officers watch in the control tower. Mr. [REDACTED] reports that the officers place bets on who will win, and the “winners” of the fights receive “prizes” from the officers, like extra snacks from canteen or property that the officers had previously confiscated from other incarcerated people. Based on what Mr. [REDACTED] has heard from incarcerated people on Corcoran’s 3C yard, he believes that the gladiator fighting happens in all five buildings on the yard.

Mr. [REDACTED] says that he was once approached by custody officers and asked to participate in one of these fights, but Mr. [REDACTED] declined. He also says that he was too scared to report the gladiator fighting while he was housed at Corcoran. Now that he has been transferred to KVSP, he feels safer speaking out about the ongoing misconduct at Corcoran.

Mr. [REDACTED]’s reports, as well as his significant injuries, raise a number of concerns. **First**, we have raised the issue of staff misconduct at Corcoran several times in recent months. In February, we highlighted the significant number of reports we had received about staff assaults and their impact on *Coleman* and *Armstrong* class members:

During the four month period of September 1 to December 31, 2019, our office has received fifteen additional reports of staff assaults at Corcoran, thirteen of which were reported by *Coleman* class members. Many *Coleman* class members, like Mr. [REDACTED], are reporting to our office that the culture of violence and retaliation perpetuated by custody staff is significantly impacting their mental health. In fact, many of the individuals that have reported staff misconduct to our office allege that custody staff is specifically targeting people with mental health issues. This is unacceptable.

Letter from Patrick Booth, Plaintiffs’ Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (February 14, 2020).

Since that time, we have continued to receive reports of staff misconduct from *Coleman* class members housed at Corcoran. As we previously noted, CDCR’s own data supports these reports, which demonstrates that, “depending on the month, between 65 percent and 88 percent of all use of force incidents at Corcoran involve *Coleman* class members, even though they make up only 44 percent of the

Mr. Nick Weber

Re: [REDACTED], [REDACTED]

June 8, 2020

Page 5

institution's population." *Id.* (citing CDCR COMPSTAT DAI Statistical Report – 13 Month (July 11, 2019)). In short, Mr. [REDACTED]'s assault is not an outlier; it appears to be part of a larger pattern of brutal staff misconduct committed against *Coleman* class members at Corcoran.

Second, we are concerned that the grievance system at Corcoran is not properly functioning. Many *Coleman* class members have reported to us that they have filed 602s to report staff misconduct, but they never receive a response from the prison. Similarly, in February, we raised an allegation from a class member "that custody staff are screening out CDCR Form 602s ("602") and other grievance paperwork." *Id.* We have also raised the issue of the failed grievance process at Corcoran a number of times in advocacy letters sent on behalf of *Armstrong* class members. *See, e.g.*, Letter from Patrick Booth, Plaintiffs' Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (February 12, 2020) ("Unsurprisingly, other class members that alleged staff misconduct to our office refused to allow us to use their names when reporting to CDCR, each of them fearing retaliation from custody staff. One class member reported that when he filed a 602 to report his own assault, custody staff brought him into a secluded area and told him that if he did not withdraw the 602, he would suffer more beatings."); Letter from Patrick Booth, Plaintiffs' Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (February 12, 2020) ("A number of class members at Corcoran on all yards have reported that their 602s go unanswered. Others report that 602s reporting staff misconduct are not kept confidential and that they are told to withdraw them.").

Individuals housed at Corcoran are entitled to appeal "any policy, decision, action, condition, or omission" that has "a material adverse effect upon his or her health, safety, or welfare." Cal. Code Regs., tit. 15, § 3084.1 (a). Importantly, "[n]o reprisal shall be taken against an inmate or parolee for filing an appeal." Cal. Code Regs., tit. 15, § 3084.1 (d). Based on the reports that we have received, serious defects in Corcoran's 602 process impede individuals' ability to grieve legitimate concerns about staff misconduct.

Third, Mr. [REDACTED]'s reports about officers dealing cellphones and orchestrating gladiator fights are deeply disturbing. These reports are similar to the significant staff misconduct that occurred at Corcoran in the 1990s, when the FBI "accused [custody officers] of staging gladiator-style fights among prisoners in exercise yards and shooting at the inmates when they did not stop fighting on command." Evelyn Nieves, *California Examines Brutal, Deadly Prisons*, The New York Times, Nov. 7, 1998 (available at: <https://www.nytimes.com/1998/11/07/us/california-examines-brutal-deadly-prisons.html>). That this type of corruption may be continuing at Corcoran only underscores a profound failure of accountability at the institution.

In light of these concerns, we request that CDCR conduct a full and impartial investigation into Mr. [REDACTED]'s allegations of staff abuse and take steps to monitor the conduct of officers in Mr. [REDACTED]'s housing unit. We request that this matter be investigated by CDCR staff members from outside Corcoran and referred to the relevant local law enforcement officials if appropriate. We also ask that CDCR investigate the reports of gladiator fighting during lockdowns in 3C and an illegal cellphone trade. Please report back on your findings.

Mr. Nick Weber

Re: *Coleman* Advocacy Letter
[REDACTED], [REDACTED], KVSP

Dear Mr. Weber:

We write on behalf of [REDACTED], [REDACTED], a *Coleman* class member at the CCCMS level of care, currently housed at Kern Valley State Prison (KVSP).¹ Mr. [REDACTED] reports that he was assaulted by custody staff in September 2019, when he was housed at California State Prison, Corcoran. We previously reported on a related matter. On February 14, 2020, we reported that [REDACTED], [REDACTED], EOP, was assaulted by custody officers at Corcoran in September 2019 because he submitted a CDCR Form 7362 (7362) on behalf of an anonymous victim. See Letter from Patrick Booth, Plaintiffs' Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (February 14, 2020). Specifically, we wrote:

Mr. [REDACTED] reports that he was assaulted by custody staff when he was housed at California State Prison, Corcoran. He says that his assault was committed in retaliation for him alerting medical staff about an assault by staff on another *Coleman* class member in his housing unit.

Mr. [REDACTED] reports that on September 23, 2019, correctional officers physically assaulted another *Coleman* class member that lives in Mr. [REDACTED]'s housing unit, seriously injuring this person. Later that evening, Mr. [REDACTED] submitted a CDCR Form 7362 ("7362") on behalf of the victim. The victim of this assault does not want his name to be reported to CDCR, for fear of further retaliation, but his medical records indicate that a 7362 was submitted on September 23, 2019. The handwriting of the 7362 is consistent with Mr. [REDACTED]'s handwriting, and the victim of the assault received emergency medical attention that night at an outside hospital.

Id. at 1.

Mr. [REDACTED] reports that he was the victim of the September 23, 2019 assault, and that Mr. [REDACTED] submitted a 7362 on his behalf.

¹ Mr. [REDACTED] was at the EOP level of care at the time of his assault, on September 23, 2019.

Mr. Nick Weber
 Re: ██████████, ██████████
 August 27, 2020
 Page 2

I. MR. ██████████'S REPEATED PLEAS FOR HELP AND HIS EVENTUAL ASSAULT

On September 3, 2019, Mr. ██████████ transferred from KVSP to Corcoran. *See* Pre-Boarding Transfer Screening, September 3, 2019. Shortly after Mr. ██████████'s arrival to Corcoran, an officer came to his cell to alert him that he had a phone call in the program office. Mr. ██████████ had filed a CDCR Form 602 (602) while housed at KVSP, and his call in the program office was with the KVSP Appeals Coordinator to investigate the reports he made. Mr. ██████████ reports that five Corcoran officers, including Sergeant Navarro, were in the program office when he arrived for his call. Although the officers did not remain in the room during the call, Mr. ██████████ believes that the officers knew that he was reporting an incident of staff misconduct. When the call ended, Mr. ██████████ reports that Sergeant Navarro said, "We ran your license plate. We see that you have an IEX [indecent exposure] in your file."

Mr. ██████████ understood Sergeant Navarro's comments to be a threat against him for reporting staff misconduct. Mr. ██████████ said that officers in his unit at Corcoran, 4A2R, had a practice of "running people's license plates," or checking the central files of new arrivals to gain access to sensitive information. According to Mr. ██████████, officers strategically revealed this information to other people in the housing unit as a means of retaliation. By revealing to other people in Mr. ██████████'s housing unit that he had a sex-related offense, Sergeant Navarro could make Mr. ██████████ a target of attack. Mr. ██████████ reports that officers at Corcoran often inappropriately disclose people's commitment offenses or other sensitive information in order to create an unsafe environment for certain individuals.²

Mr. ██████████ reported that, for the few weeks following this interaction, custody officers in his housing unit tried to agitate him and make him uncomfortable or frustrated. On multiple occasions, for example, officers did not allow Mr. ██████████ to shower or go to yard, even though others in his housing unit were allowed to do so. He says that officers also picked on his status as a *Coleman* class member, calling him and other class members in the unit "weirdos."

During this period, Mr. ██████████ continually reported to his mental health clinician that custody officers were treating him in an inappropriate manner, which was affecting his mental health. On September 10, 2019, for example, Mr. ██████████ reported to his mental health clinician that custody officers were "out to get him." MHPC Intake Assessment, September 10, 2019. The clinician noted that Mr. ██████████'s concerns "do[] not appear to be psychotic paranoia," and that he was "heavily focused on custody related issues during the interview." He also told his clinician that he has "IEX on my file so COs [are] treatin[g] me based off that." Suicide Risk and Self-Harm Evaluation, September 10, 2019. Similarly, during a cell-front meeting on September 18, 2019, Mr. ██████████ told his clinician that "[a]t ICC, they told me they know about history. IEX all that and that I will have a hard time here." MHPC Progress Note, September 18, 2019. He also reported that everyone in his housing unit, except for him, received a radio the previous day. *Id.* He said, "They are purposely trying to mess with me. Don't let them lie to you." *Id.*

² When Mr. ██████████ was eventually assaulted, it was not clear whether officers did so because he had previously made a staff complaint at KVSP, because he reportedly had an IEX in his file, because he is a *Coleman* class member, or some combination of these reasons.

Mr. Nick Weber
Re: [REDACTED], [REDACTED]
August 27, 2020
Page 3

Mr. [REDACTED] reports that the officers' weeks-long campaign of mistreatment culminated in a brutal physical assault. Mr. [REDACTED] says that on September 22, 2019, as Sergeant Navarro's shift was ending, he and Mr. [REDACTED] exchanged words. After several comments back and forth between them, Sergeant Navarro said to Mr. [REDACTED], "We're going to come in your cell tomorrow, and we're going to give you action." Mr. [REDACTED] understood this meant the officers would assault him. He had witnessed officers at Corcoran assault other people in his unit, so he took Sergeant Navarro's threat seriously. Consumed with fear and anxiety, Mr. [REDACTED] reports that he was unable to sleep that night. Around 5 AM, before Sergeant Navarro's shift began, Mr. [REDACTED] reports that he placed a towel in the sink in his cell, and he flooded the cell with soap and water. He says that he thought officers would not be able to assault him in his cell if they could not get proper footing in his soapy cell.

Mr. [REDACTED] had a medical appointment at 11 AM. *See* Vitals/Height/Weight – Text, September 23, 2019 (indicating that Mr. [REDACTED] had an appointment for a 7362 follow-up at 10:59 AM); *see also* Discharge Instructions, September 23, 2019 (indicating that Mr. [REDACTED]'s medical appointment ended around 11:14 AM). After his medical appointment, Mr. [REDACTED], still wearing waist chains, was placed in a holding cage in the rotunda instead of his cell. From the holding cage, Mr. [REDACTED] could see two psychiatric technicians (psych techs), Ms. Gonzales and Mr. Campos, passing out medication to people in his housing unit. Mr. [REDACTED] tried to quietly alert the one of the psych techs, Ms. Gonzales, that he believed he was about to be assaulted by custody officers, and he asked her to help him. But during this brief exchange, one of the officers on duty called her and the other psych tech over to have a brief conversation out of Mr. [REDACTED]'s earshot. Immediately after this short conversation between the psych techs and the officer, the A section door of the housing unit shut, followed by the B section door, followed by the C section door, followed by the kitchen door.³ Mr. [REDACTED] was still in a holding cell in the rotunda and wearing waist chains, with no one to help him when officers attacked him.

Mr. [REDACTED] reports that Officers Vera, Medina, Alison, Hurrita, and Sergeant Navarro then approached the holding cage, and Officer Vera said, "We want to talk to you." He opened the cage and took Mr. [REDACTED] out. Mr. [REDACTED] reports that Officer Vera began to punch him and slammed him onto his back on the ground. Mr. [REDACTED] could not protect himself because he was still chained. While the officers continually punched and kicked Mr. [REDACTED], Officer Vera said, "IEX, huh? You wanna pull your dick out?" Officer Vera then pinned Mr. [REDACTED]'s right leg down, which he wore a knee brace on, while Officer Medina repeatedly kicked Mr. [REDACTED] in or near his testicles. Mr. [REDACTED] thrashed on the floor in an attempt to avoid the kicks. At the same time, Officer Medina said, referring to Mr. [REDACTED]'s IEX, "Come on, pull it out, let me see it." Officer Vera pulled Mr. [REDACTED]'s boxers way up on his waist, causing Mr. [REDACTED] great discomfort, and tried inserting his fingers into Mr. [REDACTED]'s anus over his boxers. Mr. [REDACTED] said that, by thrashing on the floor, he was able to avoid Officer Vera's fingers from penetrating him. While this was happening, Sergeant Navarro put Mr. [REDACTED] in a headlock, and another officer put ankle restraints on him. Mr. [REDACTED] reports that he was having trouble catching his breath, and he exclaimed, "I can't breathe!" He says that he continued to scream for help for minutes as he was beaten by the officers. Sergeant Navarro reportedly said, "You want to yell for fucking help?!" Officer Vera then kicked Mr. [REDACTED] in the chest, which was the final blow of the assault.

³ Mr. [REDACTED]'s housing unit at Corcoran is a 180 design, and there are doors that separate each section from the rotunda.

Mr. Nick Weber
 Re: [REDACTED], [REDACTED]
 August 27, 2020
 Page 4

Mr. [REDACTED] reports that after the beating, he was escorted back into his dayroom and sat on a chair. The officers brought over the two psych techs to check on him. When Psych Tech Gonzales asked if he was experiencing any pain, Mr. [REDACTED] said that his private parts hurt, and Officer Medina slapped him across the face because of the language that he used. When Psych Tech Gonzales continued to ask about any injuries he suffered, Sergeant Navarro and Psych Tech Campos repeatedly interrupted him to assert that Mr. [REDACTED] was okay and not in any pain. The psych techs cleared Mr. [REDACTED] and sent him back to his cell, but the other people in housing unit could see that Mr. [REDACTED] was in significant pain and required medical attention. Mr. [REDACTED] reports that the psych techs falsified a CDCR Form 7219 to indicate that Mr. [REDACTED] did not have any injuries. When Mr. [REDACTED] went back to his cell, other people in the unit began to yell, "Man down," indicating that Mr. [REDACTED] needed emergent medical care. According to Mr. [REDACTED], Sergeant Navarro and Officer Vera went to the door of several people's cells and asked, "Why are you sticking up for him? He has an IEX." Before leaving at the end of his shift, Sergeant Navarro warned Mr. [REDACTED], "If you put this on black and white, you'll be hanging in your cell."

Later that night, when Sergeant Navarro was no longer working, [REDACTED] submitted a 7362 on behalf of Mr. [REDACTED], unbeknownst to Mr. [REDACTED] at the time. *See* 7362 – Medical, September 24, 2019. Mr. [REDACTED] had seen through the window of his cell door how much pain Mr. [REDACTED] was in, and he thought that Mr. [REDACTED] needed medical attention. The 7362 that Mr. [REDACTED] submitted on behalf of Mr. [REDACTED] based on his observation of the events confirms Mr. [REDACTED]'s report:

Today, I was beaten-up by C/O D. Allison, C/O Medina, C/O Vera, the Unit Sgt. [Navarro] and officer unidentified [C/O Hurrta]. I was punched in my face several times, kicked in my chest and ribs. I have several physical injuries. The on duty psych tech "Campos" covered the incident up for the officers. Right now, my chest hurt badly. I can't breathe and there's a bone that's cracked.

Id. (emphasis in original).

In response to Mr. [REDACTED]'s 7362, emergency response services were dispatched to Mr. [REDACTED] at 5:06 PM, well after the second watch shift had ended. *See* Progress Note – Nurse, September 23, 2019 (noting the emergency response times). Mr. [REDACTED] was taken to an outside hospital, where he reported to medical staff that he was experiencing chest, knee, and generalized body pain following a "s/p [staff/patient] assault." Outside Records – Hospital, September 23, 2019, at p. 2. While at the hospital, he underwent X-rays and CT scans, and his medical records indicate that he suffered a chest wall contusion, a right knee strain, and a left facial contusion. *Id.* at p. 4.

Despite being assaulted, Mr. [REDACTED] was issued a Rules Violation Report (RVR) on September 23, 2019. Exhibit A. As we have noted on multiple occasions, custody officers at Corcoran have a practice of issuing an RVR to a person that they have assaulted. *See, e.g.,* Exhibit B, Letter from Don Specter, Plaintiffs' Counsel, to Ralph Diaz, Secretary of CDCR, Corcoran Staff Misconduct (June 8, 2020) at pp. 1-2 ("We have also received a number of reports that officers have a practice of issuing a Rules Violation Report ('RVR') to an individual who is a victim of assault by custody officers. These RVRs often falsely accuse the victim of committing a battery against an officer, necessitating the use of force. Many of the

Mr. Nick Weber
Re: [REDACTED], [REDACTED]
August 27, 2020
Page 5

people that have written to our office about staff misconduct have expressed concern because they were issued an RVR after being assaulted, and now they are subject to a longer prison term and another potential criminal charge.”).

The conduct cited in Mr. [REDACTED]’s RVR is “Behavior which could lead to violence.” Exhibit A. The RVR paperwork, authored by Officer Allison, states that officers searched Mr. [REDACTED]’s cell on September 23, 2019 at 11:15 AM, and found five milk containers that appeared to contain urine. *Id.* The paperwork then states that Officer Allison confronted Mr. [REDACTED], who was in a holding cell in the rotunda, about the containers, and Mr. [REDACTED] became verbally aggressive. *Id.* According to Officer Allison’s report, he attempted to handcuff Mr. [REDACTED], but Mr. [REDACTED] became resistant and continued to be verbally aggressive. Officer Allison claims that he eventually handcuffed Mr. [REDACTED] and issued him an RVR for his defiant behavior. *Id.* Mr. [REDACTED] reports that none of this is true.

Notably, the RVR paperwork does not explain the significant injuries that Mr. [REDACTED] suffered, which necessitated his transfer to an outside hospital. Mr. [REDACTED] reports that second watch officers (Allison, Medina, Vera, Hurrita, and Navarro) believed that he would not seek medical attention later that evening because the psych techs had already sent him back to his cell. Mr. [REDACTED] says that the falsified RVR paperwork, therefore, did not take into account the documentation generated when Mr. [REDACTED] sought further medical attention. Mr. [REDACTED] believes that, had officers known he would have required medical care at an outside hospital, they likely would have issued an RVR for “Battery on a Peace Officer,” and falsified facts that would have better accounted for Mr. [REDACTED]’s injuries.

II. MR. [REDACTED]’S REPORTS AFTER THE ASSAULT

In the weeks following the assault, Mr. [REDACTED] continued to report the incident to his mental health clinicians. For example, on September 25, 2019, two days after the assault, Mr. [REDACTED] met with his mental health clinician and reported the following:

IP recalled events (Monday, 9/23/2019) between himself and custody officers in 4A2. IP made allegations of excessive force against the following COs: Sgt. Navarro, Ve[ra], and Medina. IP stated that he was pulled out to the rotunda and left in his cuffs. He stated that he was “fearful that they were gonna beat me up. I told these psych techs that they were go[nna] get me. They didn’t do nothing. I asked them to help me... Asked to be let out of my cuffs so I could at least fight back and they wouldn’t... I told them ‘handle yalls business’ and I got on my knees cause I knew what was coming... they beat me up bad... In the middle of the fight they cuffed [me] by my ankles and just kept beating me up. Slapping me. Tried kicking me in [the] head.” IP reported that while he “was getting beat up” custody officers made statements such as the following: “you got in IEX in your file and you’re a rat. You like to write 602s... You’re in Corcoran now.” IP also stated the following: “I felt something sticking thru my butt, like with my boxers. (made motion with his hand of someone trying to stick their finger in his anus) Wasn’t doing it for sexual gratification. It was like to humiliate me. They grabbed my privates, my dick, and said “Let me see it.” IP further reported that, “They said they’ll kill me, hang me if I told

Mr. Nick Weber

 August 27, 2020
 Page 6

anyone. If this ends up in black and white, they'll kill me. I'm scared of these dudes. I'm contemplating suicide.

MHPC Progress Note, September 25, 2019.

At the same appointment, Mr. [REDACTED] reported serious mental health decompensation as a result of the officer assault. He told his clinician that he had a plan to kill himself: "This is my plan, look: I'm gonna report it (excessive force incident) first, write my 602, THEN kill myself so my family knows why I did it." *Id.* Mr. [REDACTED] told his clinician that he had already asked people on his tier if they had anything he could use to kill himself, but that he was only able to find "a bunch of ibuprofen from some guy but I don't think that'll work." *Id.* As a result of Mr. [REDACTED]'s suicidal ideation, a mental health crisis intervention team was initiated. *Id.* At a follow-up appointment with the crisis intervention team, Mr. [REDACTED] stated that he "feel[s] like giving up," and that his current depression was a "full ten" on a scale of one to ten. Suicide Risk and Self-Harm Evaluation, September 25, 2019. Again, at this evaluation, Mr. [REDACTED] cited custody staff as the reason his mental health was significantly worsening. *See id.*

Again, on September 26, 2019, Mr. [REDACTED] reiterated his report to the clinician conducting the intake for the mental health crisis bed. *See* History and Physical, Mental Health Crisis Bed Admission H&P, September 26, 2019. Specifically, he reported that "choked out by 1 of the officers. He said that he had immediate pain in his central chest which hurts when he takes a deep breath, cough[s], or sneezes." *Id.* He also reported jaw pain, neck pain, difficulty swallowing, and that his knees hurt, all a result of the September 23, 2019 assault. *Id.*⁴

Mr. [REDACTED] also filed and exhausted multiple 602s to redress the significant harm he suffered. On October 3, 2019, Mr. [REDACTED] filed a Healthcare-related 602 (602 HC) about the two psych techs that failed to prevent his September 23rd assault, even though Mr. [REDACTED] had warned them of the impending attack moments before it happened. Exhibit C, CDCR Form 602 HC, Log No. 19001041 (Oct. 3, 2020). Specifically, he wrote:

On September 23, 2019, I informed the 4A2L Nurse[s] Gonzales & Campos that the 4A2L Sgt. Navarro, C/O N. Vera, C/O I. Medina, C/O A. Allison, & C/O J. Hurrita are about to assault me & both failed to report it in order to prevent it. 5 minutes later I was assaulted by the above mention[ed] staff & both Nurse Gonzales and Campos witnessed the assault & fabricated a[] 7219 report as if I had no injuries[.] Both nurses committed gross negligence and deliberate indifference.

⁴ For the following weeks, Mr. [REDACTED] continued to report physical health issues that resulted from his September 23, 2019 assault. For example, on October 4, 2019, he submitted a 7362, which stated: "On 9-23-19 I was kicked in my chest & I'm in severe pain. Every time I move a bone cracks in my chest. I have a cracked bone in the middle of my chest." 7362 – Nursing, October 5, 2019. Also on October 4, Mr. [REDACTED] had an optometry consultation because he was seeing "floaters" and "flashes of light" as a result of "9-23-19 blunt force trauma." Optometry Consultation, October 4, 2019.

Mr. Nick Weber
 Re: [REDACTED], [REDACTED]
 August 27, 2020
 Page 7

Id. More than two months later, on December 9, 2019, Mr. [REDACTED] was interviewed for his 602 HC, and he reported the same facts listed above. *Id.* On December 19, 2019, Mr. [REDACTED]'s 602 HC was denied because staff "did not violate California Department of Corrections at Rehabilitation policy," with no further justification. *Id.*

Mr. [REDACTED] continued to experience and report harassment by officers. On October 20, 2019, Mr. [REDACTED] filed a 602, alleging that Officer Vera came to his door on October 16, 2019, while Mr. [REDACTED] was in the CTC, and flipped him off. Exhibit D, CDCR Form 602, Log No. 19-6716. Mr. [REDACTED] also wrote in the 602 that Officer Vera said, "You snitched on me & my partners & we will make sure that you can't go to C-3 Yard & program anymore, you[re] a rat." *Id.* Mr. [REDACTED] asked for a separation chrono between him and Officers Vera, Medina, Alison, Hurrita, and Sergeant Navarro because those officers had been retaliating against him for filing paperwork about the September 23, 2019 assault. *Id.* Mr. [REDACTED] wrote that he fears for his safety at Corcoran. *Id.* Mr. [REDACTED] reports that Lieutenant Brown interviewed him about his 602. Mr. [REDACTED] 602 was subsequently denied at the first level, and he timely appealed to the second level, where his appeal was again denied. He appealed to the third level and, on March 27, 2020, was denied again.

Although prior to his assault Mr. [REDACTED] consistently alerted mental health staff, even in the moments before the assault, that he feared assault by custody staff, no action was taken to protect him. After he was brutally beaten, he was issued an RVR based on information falsified by custody officers in an attempt to cover their misconduct. Then, when Mr. [REDACTED] properly filed a grievance to address the abuse that he suffered, his grievance was summarily denied at every level with little to no justification. Mr. [REDACTED]'s report illustrates a broken system that not only fails to protect *Coleman* class members, but allows officers to abuse *Coleman* class members with impunity.

III. CORCORAN'S CULTURE OF VIOLENCE AGAINST *COLEMAN* CLASS MEMBERS

We are deeply concerned about Mr. [REDACTED]'s report of egregious staff misconduct at Corcoran, which is well supported by the Department's medical and mental health records. Mr. [REDACTED]'s report represents just one of many similar reports of staff misconduct that our office has received from *Coleman* class members housed at Corcoran. In fact, since February 2020, we have written three advocacy letters, including this one, on behalf *Coleman* class members about staff misconduct at Corcoran. *See* Letter from Margot Mendelson & Patrick Booth, Plaintiffs' Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (Feb. 14, 2020); Letter from Margot Mendelson & Patrick Booth, Plaintiffs' Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], KVSP (June 8, 2020). Additionally, our office has reported staff misconduct at Corcoran to *Armstrong* Defendants (Letter from Patrick Booth, Plaintiffs' Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 12, 2020)), as well to the Secretary of CDCR. *See* Exhibit B.

The volume and the level of brutality described in reports to our office about Corcoran staff misconduct is truly disturbing. In total, our office has received more than 40 reports of staff misconduct at Corcoran since September 2019. We have now reported to CDCR four different individuals who

Mr. Nick Weber
 Re: [REDACTED], [REDACTED]
 August 27, 2020
 Page 8

required emergency medical care at an outside hospital after being beaten by custody staff.⁵ Similarly, in their *Armstrong* motion about staff misconduct, our co-counsel has shared with Defendants declarations from seven individuals that were assaulted at Corcoran. Multiple class members have reported that custody officers at Corcoran operate in an organized, gang-like fashion, doling out assaults on a regular basis and covering for each other through falsified RVRs.⁶ Many class members also describe a disciplinary and appeals system that allows officers to make false statements on CDCR paperwork and lie under oath with impunity. *See* Office of the Inspector General, Sentinel Case No. 20-02 (June 11, 2020) (concluding that CDCR has a “lack of understanding regarding the importance of peace officers providing truthful testimony under oath,” and that “[t]he department’s unwillingness to dismiss a dishonest peace officer from its ranks is troubling.”).

The incidents alleged here speak to a culture of fear and terror at CSP-Corcoran. Mr. [REDACTED] was subjected to weeks of targeted harassment by officers in his housing unit, culminating in his physical and sexual assault. The mental toll of the harassment, retaliation, and physical abuse led Mr. [REDACTED] to decompensate and experience serious suicidal ideation. As we previously reported, when another *Coleman* class member, [REDACTED], requested medical attention for Mr. [REDACTED] after his assault, Mr. [REDACTED] himself was subjected to mental abuse. *See* Letter from Margot Mendelson & Patrick Booth, Plaintiffs’ Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (Feb. 14, 2020) at p. 1. He, too, sought mental health services at the time because custody staff’s retaliation was significantly impacting his psychological welfare. *Id.* Again, no one intervened to help him before he was beaten so badly by custody staff that he needed to be transferred to an outside hospital. *Id.* The pattern and practice of vicious abuse against *Coleman* class members at Corcoran requires immediate attention and significant action.

We ask that Defendants conduct a full and impartial investigation into Mr. [REDACTED]’s allegations. We also request that Defendants dismiss his September 23, 2019 RVR. Please report back on your findings, and provide all non-confidential documentation resulting from that investigation.

Sincerely,

Patrick Booth
 Legal Fellow

Margot Mendelson
 Staff Attorney

⁵ *See* Exhibit B, (noting that [REDACTED], [REDACTED], and [REDACTED] each received outside medical care after being attacked by custody staff).

⁶ The Office of the Inspector General (OIG) recently published a report detailing CDCR prison staff misconduct similar to that alleged by Mr. [REDACTED] and others housed at Corcoran. *See* Office of the Inspector General, Sentinel Case No. 20-04 (August 19, 2020). The OIG’s report describes an incident in which two custody officers coordinated an assault on an individual, then issued the victim a falsified RVR for “Battery on a Peace Officer.” *See id.* at 2.

Re: Corcoran Staff Misconduct

Dear Secretary Diaz:

We write regarding our serious concerns about staff misconduct at California State Prison, Corcoran. Over the last nine months, we have received more than 40 reports of brutal and rampant staff misconduct at Corcoran, including reports of custody officers egregiously assaulting people; falsifying RVR paperwork; destroying or inappropriately confiscating people's personal property; retaliating against people for submitting CDCR Form 602s; engaging in an extensive cellphone trade; and even organizing "gladiator fights" when housing units are locked down. Perhaps most disturbing is the volume and consistency of the reports we have received to date. The similarities in the allegations we have received suggest that these incidents are not outliers. Rather, it appears that custody officers at Corcoran are engaged in a pattern and practice of vicious abuse against individuals housed at the prison.

The reports that we have received are not isolated to a particular yard, housing unit, or officer. We have heard reports of staff misconduct occurring on each yard at Corcoran, against *Armstrong* and *Coleman* class members, as well as non-class members, and perpetrated by a number of different staff members. Specifically, more than 45 different officers have been named in the reports we have received in the last nine months. In short, custody officers at Corcoran have created a culture of violence and retaliation that permeates the institution.

To highlight examples of the concerning pattern of staff misconduct at Corcoran, we have summarized below several of the reports that we have received over the last nine months. We have also attached exhibits of our recent advocacy letters concerning staff misconduct at Corcoran.

I. Egregious Physical Assaults on People Housed at Corcoran

Custody officers at Corcoran continually use unnecessary and excessive force on people housed at the prison. In many cases, medical records confirm that individuals have suffered fractured bones, broken teeth, or traumatic brain injuries at the hands of custody officers. Based on the reports we have received, some of these incidents of force are committed in retaliation for perceived disrespect against an officer, while other incidents appear to be unprovoked. We have also received a number of reports that officers have a practice of issuing a Rules Violation Report ("RVR") to an individual who is a victim of assault by custody officers. These RVRs often falsely accuse the victim of committing a battery against an officer, necessitating the use of force. Many of the people that have written to our office about staff misconduct

 Page 2

have expressed concern because they were issued an RVR after being assaulted, and now they are subject to a longer prison term and another potential criminal charge.

The examples below detail allegations of unacceptable and violent staff misconduct; they represent only a fraction of the reports we have received to date.

- [REDACTED], [REDACTED], was assaulted by custody officers in October 2019 after he submitted a CDCR 7362 (“7362”) on behalf of another incarcerated person who had been assaulted by custody officers. At the time, Mr. [REDACTED] was housed on 4A-Facility at Corcoran. When the officers discovered that Mr. [REDACTED] submitted a 7362 for the victim, they threatened to retaliate against Mr. [REDACTED] and told others in his housing unit that he was a “prison snitch and a sex offender/child molester.” On September 30, 2019, Mr. [REDACTED] submitted a 7362 to request mental health services, stating, “C/O I. Medina, C/O Fugate, and their supervisor J. Navarro keep coming to my living cell making threats to kill and assault me. And C/O I. Medina keep calling me a ‘snitch’ openly in front of my peers because I sued him and filed a staff complaint. Their actions have now jeopardized my life, and is causing me mental anguish. I am now concerned for my welfare, and am seeking mental health services.” CDCR 7362, September 30, 2019 (emphasis in original). Two days later, officers ordered Mr. [REDACTED] to submit to cuffing in his cell, then they escorted a known-enemy into Mr. [REDACTED]’s cell. Officers uncuffed that individual and ordered him to attack Mr. [REDACTED], who was still handcuffed. The man began to beat Mr. [REDACTED]. Several minutes later, after he refused to continue to beat a handcuffed Mr. [REDACTED]. The officers then pepper-sprayed both men, pulled the other person out of the cell, and attacked Mr. [REDACTED] again. Mr. [REDACTED] was transferred to an outside hospital, and his medical records indicate that he suffered significant injuries, including lacerations all over his face and a broken tooth. Progress Note – Nurse, CIT Activation, October 2, 2019. We sent an advocacy letter to CDCR on Mr. [REDACTED]’s behalf and have yet to receive a response. Exhibit A, Letter from Margot Mendelson & Patrick Booth, Plaintiffs’ Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], CSP-SAC (Feb. 14, 2020).
- [REDACTED], [REDACTED], reported that Officers Guzman and Rojas slid a cellphone under his cell door on December 24, 2019. When officers came back to retrieve the cellphone minutes later, Mr. [REDACTED] denied possessing it. Mr. [REDACTED] believed at the time that the officers were setting him up for punishment. The officers brought two of Mr. [REDACTED]’s friends from the housing unit into his cell to persuade him to return the phone. Because Mr. [REDACTED] continued to believe he was being set up, he again denied possessing the phone. The officers then brought the two friends back to their respective cells, came back and entered Mr. [REDACTED]’s cell, and attacked him. His injuries were so severe that he was immediately transferred to an outside hospital, where it was determined that he suffered multiple facial fractures, a fracture of his spinous process, and a traumatic brain injury, among other ailments. *See Outside Records – Hospital*, December 31, 2019 at 3. Mr. [REDACTED] had his jaw wired shut for nearly two months. He remained at the outside hospital for seven days and was transferred to Corcoran’s CTC, where he stayed for another 50 days. Mr. [REDACTED] reported the assault to the CTC sergeant, but he has not received an update about the status of the investigation since that time. We recently sent an advocacy letter to CDCR on behalf of Mr. [REDACTED]. Exhibit B, Letter from Margot Mendelson

Secretary Ralph Diaz
 Re: Corcoran Staff Misconduct
 June 8, 2020
 Page 3

& Patrick Booth, Plaintiffs' Counsel, to Nick Weber, CDCR Office of Legal Affairs, [REDACTED], KVSP (June 8, 2020).

- [REDACTED], [REDACTED], reported that he was physically and sexually assaulted multiple times by custody officers in September 2019. On September 3, 2019, when Mr. [REDACTED] was walking to chow hall on Corcoran 3C-Facility, Officer I. Benitez asked to randomly search him, and he complied. While she was patting him down, she grabbed his penis and testicles. When Mr. [REDACTED] asked her to stop, she replied, "Is that a fucking demand?" She then grabbed Mr. [REDACTED]'s ID and told him not to disrespect her. After this interaction, Mr. [REDACTED] informed Sergeant JD Wilson of what had happened, then he returned to his cell, where he wrote a staff complaint. He planned to file the complaint later that day on the way to his appointment in the medical building. At about 10:00 AM, while Mr. [REDACTED] was walking unescorted from his housing unit to the clinic for his appointment, Officer Benitez approached him outside of medical and grabbed him by the back of his shirt, knocking him backwards to the ground. Officer Benitez grabbed the completed 602 form that he had intended to file against her. Officer Barrett then placed his feet on Mr. [REDACTED]'s chest and said, "Don't fucking move," and rolled him to his stomach. Then both officers helped him off the ground and cuffed him. Officer Benitez put her knee in his back and slammed him against program office. She searched him again, and again touched his penis. When Mr. [REDACTED] jumped, she asked, "What, you don't like getting searched by woman? Are you fucking gay?" Officer Benitez and Officer Barrett then escorted him into the program office. Sergeant JD Wilson, Sergeant Gutierrez and Officer Ibara were all in the program office at the time, and Sergeant Wilson told Officer Benitez to pat Mr. [REDACTED] down again. When Officer Benitez patted him down again, she falsely told them that she felt a weapon during the search. After she said that, Sergeant Wilson, Sergeant Gutierrez, Officer Ibara, Officer Benitez and Officer Barrett beat him in the program office for approximately five minutes. Mr. [REDACTED] was handcuffed and fell to the ground while the officers were punching and kicking him. No one sounded the alarm.

After the beating, Mr. [REDACTED] was placed in a cage inside the program office, where he stayed until approximately 1:00 PM, when he was then escorted to administrative segregation. On his way to administrative segregation, Mr. [REDACTED] was physically assaulted a second time. When he reached the pedestrian gate with escorting Officers Trevino and Chacon, Officer Trevino walked back into the program office. Mr. [REDACTED] asked Officer Chacon why they were waiting and she said, "You will see right now." Then Officer Hamilton, Officer Menendez, Officer Rios, and Officer Rins came out of the gym through the pedestrian gate. Sergeant Wilson, Officer Gutierrez, Sergeant Perez, Officer Ibara, Officer Benitez, Officer Trevino, Officer "Tugaue," and an unnamed officer came from the program office and approached Mr. [REDACTED] as well. Mr. [REDACTED] believes that that officers only ran dayroom that day, and not yard, so many staff could participate in the assault. One officer told Officer Chacon to back off. The remaining officers pulled Mr. [REDACTED] into the pedestrian gate, outside of the gym, where Officers Hamilton and Menendez slammed him to the ground. The rest of the group started punching him. During the attack, Mr. [REDACTED] was wearing waist and ankle chains. Officer "Tugaue" hit Mr. [REDACTED] near his chin with a baton, which knocked Mr. [REDACTED] unconscious. Mr. [REDACTED] woke up on his way to 3A, while still on the yard. When he

Secretary Ralph Diaz
 Re: Corcoran Staff Misconduct
 June 8, 2020
 Page 4

regained consciousness, he was slammed against a wall by Sergeant Perez, Officer Rins, and Officer Rios. They then started punching him against the wall. Sergeant Perez slammed his head against the wall. They punched him all over his body and knocked him unconscious again. Mr. [REDACTED] lost his eyeglasses during the assault, which still have not been replaced. When Mr. [REDACTED] regained consciousness for the second time, he was in a cell in 3A03, with his jaw throbbing. He was unable to speak because of the pain. During pill call, a nurse saw Mr. [REDACTED] pointing to his jaw, and she notified the unit sergeant, who recommended that Mr. [REDACTED] be sent to the CTC. *See* TTA Progress Note, September 3, 2019 (“Non verbal. Pt has swelling and pain to the Lt. face and is unable to speak. Pt. appears to have a jaw injury with ... 10/10 pain.... Pt. did appear to have loose bottom teeth.”). Medical records indicate that Mr. [REDACTED] suffered a broken jaw which he believes was a result of the baton strike to the chin, and a broken nose. *See* Outside Records – Hospital, September 5, 2019 (“Nasal fracture... [and] fracture of left side of mandible”). Like Mr. [REDACTED], he had his jaw wired shut. Mr. [REDACTED] also received two RVRs from the incident. His report of misconduct was included in Plaintiffs’ June 3, 2020 Motion to Stop Defendants from Assaulting, Abusing, and Retaliating Against People with Disabilities, *Armstrong v. Newsom*, Case 4:94-cv-02307-CW, Declaration of Michael Freedman, Ex. 59.

- [REDACTED], [REDACTED], was assaulted by custody officers when returning to his housing unit from chow hall. Mr. [REDACTED] reported that Officer Wolfe on Corcoran’s 3A-Facility ordered Mr. [REDACTED] to submit to a clothed body search when Mr. [REDACTED] was returning to his housing unit. Mr. [REDACTED] complied with the search, but Officer Wolfe continued to kick the inside of Mr. [REDACTED]’s legs during the search so that Mr. [REDACTED] would separate his legs farther apart. Mr. [REDACTED] has a documented mobility impairment and is unable to spread his legs further than shoulder-width apart. When Mr. [REDACTED] tried explaining his limited mobility to Officer Wolfe, and that the repeated kicks were painful, Officer Wolfe threw Mr. [REDACTED] to the ground. Officer Wolfe then punched him in the left eye and kicked him in the rib area on his left side. Officer Wolfe placed a handcuff on Mr. [REDACTED]’s left arm and put his entire body weight onto the back of Mr. [REDACTED]’s head, pressing his face into the concrete floor. When Officer Wolfe cuffed Mr. [REDACTED]’s right arm, Mr. [REDACTED] continued to lay on the ground as Officer Wolfe stood up. Mr. [REDACTED] reports that Officer Wolfe then placed his left foot on top of Mr. [REDACTED]’s head and proceeded to high-five three correctional officers who were in the vicinity, Lt. Hurlbut, Officer D. Shelton, and Officer H. Flores. Mr. [REDACTED]’s medical records confirm that he suffered a nondisplaced nasal fracture and a deviated septum in his nose as a result of this incident. *See* XR Nasal Bones – 3 VWS, November 4, 2019; Outpatient Progress Note, November 26, 2019 (“The patient on physical examination is noted to have a deviated septum”). He also reports that his chronic hip pain was aggravated by Officer’s Wolfe repeated kicking. Mr. [REDACTED] also received an RVR for the incident for “Assault on a Peace Officer by Means Not Likely to Cause Great Bodily Harm.” We sent an advocacy letter to CDCR on Mr. [REDACTED]’s behalf and have yet to receive a response. Exhibit C, Letter from Patrick Booth, Plaintiffs’ Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 12, 2020).

We have also received numerous reports that a group of officers on Corcoran’s 3A-Facility refer to themselves as the “Hit Squad” because of the frequency with which they assault people. Based on the

Secretary Ralph Diaz
Re: Corcoran Staff Misconduct
June 8, 2020
Page 5

reports we have received, this group of officers works on third-watch and is led by Officer Wolfe. In our advocacy letter on behalf of Mr. [REDACTED], we noted:

Mr. [REDACTED] reports that ... Officer Wolfe “intentionally targets people with mobility or mental health issues.” Similarly, another class member said that, while staff’s use of excessive force is not uncommon at Corcoran, “Officer Wolfe is the worst offender” and that he “seems to take pleasure in beating people up.” A *Coleman* class member, who also reports that Officer Wolfe assaulted him, said that Wolfe is “extremely dangerous” because he is the “head honcho” of “the hit squad.” The consistent allegations of excessive and unnecessary force against Armstrong class member by Corcoran custody staff, especially against Officer Wolfe, are troubling.

Exhibit C at 3. In the past nine months, we have received seven allegations of excessive or unnecessary force involving Officer Wolfe.

II. Property Theft or Destruction

Many people have reported to our office that custody officers intentionally destroy people’s personal property, often to intimidate people or as a threat of future violence. Some have reported that officers also destroy property in retaliation for apparent disrespect or for filing 602s. Many of the reporters have been unwilling to authorize us to disclose their names due to fear of retaliation by officers.

- [REDACTED], [REDACTED], reported that when he transferred to Facility 3A from 4A, officers warned him that they would “beat his ass” if he went man down. Mr. [REDACTED] has a history of initiating hunger-strikes when he is not properly accommodated for his disabilities. When he is hunger striking, he becomes light-headed, falls frequently, and “goes man down.” Officers on 3A were apparently trying to prevent him from doing this. After threatening Mr. [REDACTED], the officers then broke his television as a warning of future violence if he went man down. Mr. [REDACTED] reported that officers in 3A03 have a practice of breaking people’s televisions to intimidate them.
- [REDACTED], [REDACTED], reported that officers confiscated his legal handbook and intentionally broke his television during a cell raid in December 2019.
- An individual on Corcoran’s 4A-Facility reported that Officers Medina and Moreno have threatened to attack him while he has restraints on, so he is terrified to leave his cell. He says that the few times he has left his cell, Officers Medina and Moreno trash his cell and take his property. He reports that he has received an RVR for refusing medical appointments, but he is still too afraid to leave his cell.
- An individual on Corcoran’s 3A-Facility reported that Officer Nolan, who distributes packages, has repeatedly asked the individual what his commitment offense is in the presence of other incarcerated people. On one occasion when the individual refused to answer, Officer Nolan confiscated \$160 worth of his property and gave it to other people on the yard. He reported that

Secretary Ralph Diaz
Re: Corcoran Staff Misconduct
June 8, 2020
Page 6

Officer Nolan distributed his property so that the other incarcerated people could sell it on the yard.

Additionally, we have received numerous reports that officers inappropriately confiscate property or allow other incarcerated people to steal the property of individuals that are moved to the CTC, the OHU, or a mental health crisis bed. For example:

- [REDACTED], [REDACTED], reported that custody staff stole his television, radio, and chain necklace after they assaulted him. He was transferred to an outside hospital for seven days, then moved to the CTC for 50 days. Mr. [REDACTED] says that he never received these items back when he returned from his outside hospital stay.
- An individual on Corcoran's 3A-Facility reported that custody staff frequently steal and/or destroy people's property. He also said that he has witnessed custody officers direct porters to take people's belongings when they are sent to a crisis bed or administrative segregation.

III. Ineffectiveness of the 602 Process

We have received a significant number of reports that the 602 process is not functional at Corcoran. Numerous people have reported that after submitting a 602, they never received a log number or a response. Others have reported that the officers who were the subject of the grievance were inappropriately made aware of the 602 and confronted the person who filed it. In some instances, officers have demanded that an individual withdraw a grievance or suffer more beatings.

- [REDACTED], [REDACTED], reported that, when he was housed at Corcoran, he had filed several 602s about issues relating to staff misconduct. He said that a lieutenant on his yard, 3B, reviewed the 602s then sent them to the sergeant and the custody officers who were the subject of the 602s. On several occasions after he filed 602s at Corcoran, the officers whose conduct he was grieving confronted him about the content of the grievance and threatened to retaliate against him.
- [REDACTED], [REDACTED], reported that custody officers require him to keep his wheelchair outside of his cell, even though he has a mobility impairment. On one occasion, Mr. [REDACTED] asked officers if he could bring his wheelchair into his cell, and two third-watch officers told him he was not allowed to do so. When Mr. [REDACTED] began asking the officers about the basis for their decision, they assaulted him in the dayroom as other people in his housing unit watched. Mr. [REDACTED] reported that he filed a 602 after the beating. Several days later, the two officers involved in the assault approached Mr. [REDACTED] and told him that if he did not withdraw his 602, they would continue to assault him.
- [REDACTED], [REDACTED], reported that he was assaulted on September 24, 2019 by a custody officer when returning to his housing unit. We detailed his allegations in an advocacy letter to CDCR on his behalf. Exhibit C, Letter from Patrick Booth, Plaintiffs' Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED], [REDACTED], COR (Feb. 12, 2020). Mr. [REDACTED] filed a 602 to report his assault, but he never received a substantive response. Instead, the institution sent him

Secretary Ralph Diaz
Re: Corcoran Staff Misconduct
June 8, 2020
Page 7

several notices delaying the review of his 602. Mr. [REDACTED] was unable to exhaust his administrative remedies because he never even received a first level response to his 602.

- [REDACTED], [REDACTED], reported that custody officers took his hearing aids during a raid on his cell in October 2019. We sent an advocacy letter to CDCR on his behalf about his hearing aids. Letter from Patrick Booth, Plaintiffs' Counsel, to Russa Boyd, CDCR Office of Legal Affairs, [REDACTED] [REDACTED], COR (Feb. 21, 2020). Mr. [REDACTED] filed a 602 on October 29 about the inappropriate confiscation of his DME, but he never received a response.
- An individual on Corcoran's 3A-Facility, reported that, in January 2020, he filed a 602 after the package officer inappropriately confiscated his property, but that package officer destroyed his 602 in front of him.

IV. Officer-Led Cellphone Trade

We have received multiple reports that officers at Corcoran are engaged in a cellphone trade. For example, [REDACTED], [REDACTED], reported that some custody officers at Corcoran, including Officers Rojas and Guzman, sell higher value smartphones for \$2500 and cheaper phones for \$1500. Mr. [REDACTED] believes that the cellphone slid under his cell door on December 24, 2019, resulting in his assault, was part of this officer-run cellphone trade.

Others have reported similar allegations about officers orchestrating a cellphone trade. Several people have reported that officers also enlist incarcerated people to participate in the cellphone trade, and if a person refuses to participate, officers arrange to have him repeatedly assaulted. People have reported to our office that they fear for their lives if they were to stop trading cellphones at the direction of custody officers.

V. Officer-Organized "Gladiator Fights"

People have reported to our office that custody officers on Corcoran's 3C-Facility orchestrate "gladiator fights" when units are locked down. [REDACTED], [REDACTED], reports having witnessed these gladiator fights on multiple occasions. He says that some floor officers arrange to have two members of one gang fight two members of a rival gang in the dayroom. Mr. [REDACTED] reports that the officers first search all four people to ensure that they have no weapons, then they let the individuals fistfight in the dayroom while officers watch in the control tower. Mr. [REDACTED] reports that he has witnessed the officers placing bets on who will win, and he has seen the "winners" of the fights receive "prizes" from the officers, like extra snacks from canteen or property that the officers had previously confiscated from other incarcerated people. Based on what Mr. [REDACTED] has heard from incarcerated people on Corcoran's 3C yard, he believes that the gladiator fighting happens in all five buildings on the yard.

Mr. [REDACTED] says that he was once approached by custody officers and asked to participate in one of these fights, but Mr. [REDACTED] declined. He also says that he was too scared to report the gladiator fighting while he was housed at Corcoran. Now that he has been transferred to KVSP, he feels safer speaking out about the ongoing misconduct at Corcoran.

Secretary Ralph Diaz
Re: Corcoran Staff Misconduct
June 8, 2020
Page 8

Most troubling, these reports are consistent with reporting from 2019, when multiple outlets detailed Corcoran's gladiator fighting. In one such article, an individual housed at Corcoran explained, "[A]t least once a week, they run incrementals, which is basically gladiator fights. They only let out four inmates, two from each group that don't get along. The COs are the ones that choose who goes out and [who they] want to see fight, stabbed or seriously injured." Brian Sonenstein, *Torture in Corcoran: Endless Lockdown and Gladiator Fights, Again*, SF Bay View (February 15, 2019).¹

These reports represent only a small share of the ongoing complaints about serious staff misconduct at CSP-Corcoran. As you know, many people do not report incidents of staff misconduct because they fear retaliation for coming forward. Most of the people who reported issues of Corcoran staff misconduct to our office have refused to allow us to use their names when reporting to CDCR. One person, for example, sent us his mother's phone number and address because he believed that custody officers might murder him for reporting staff misconduct to our office. He said that if he was killed, we should tell his mother that custody officers were responsible. Another person conveyed to his mental health clinician after he was assaulted that officers told him they were going to kill him if he reported his assault. He said he would rather take his own life than allow officers to murder him, so he planned to file a 602 then kill himself "so my family knows why I did it."

I am sure you will agree that the officer conduct reported by incarcerated people at CSP-Corcoran is unacceptable and intolerable. These reports reflect a culture of impunity for custody officers and a lack of accountability at the institution. They also demonstrate the urgent need for sensible measures to detect and address staff misconduct, such as a functional early warning system and widespread use of cameras.

Corcoran is the fourth institution that we have raised similar concerns about. As you know, the OIG corroborated our concerns in their reports on SVSP and HDSP. There is strong evidence of similar misconduct in the current litigation about these same issues regarding RJD. It is clear to us that the current system for protecting incarcerated people from staff misconduct is broken, as I testified a few months ago during the Assembly hearing on this topic. More than two decades ago, the federal court in *Madrid* sanctioned a new investigation and disciplinary process. While that process worked well for some time, it is not working now and needs to be overhauled.

I know that you and your staff do not condone this type of staff misconduct, as evidenced by your recent actions with respect to the officers who made inappropriate statements about George Floyd. Please let me know whether the Department is interested in working together (with the assistance of outside experts) to improve this essential component of California's prison system.

Sincerely,

/s/ Don Specter

RULES AND REGULATIONS

The rules governing these issues are: California Code of Regulations, Title 15; Health Care Department Operations Manual; Mental Health Services Delivery System Program Guide; California Department of Corrections and Rehabilitation Department Operations Manual.

HEALTH CARE GRIEVANCE SUMMARY

Refer to the attached CDCR 602 HC, Health Care Grievance, in which you explained the decision, action, condition, omission, policy, or regulation that has had a material adverse effect upon your health or welfare for which you seek administrative remedy.

The reviewing authority completed a review of the allegation of staff misconduct presented in the attached CDCR 602 HC, Health Care Grievance, and categorized your health care grievance as a staff complaint. Your health care grievance was referred for a confidential inquiry to address the allegation of staff misconduct.

All issues unrelated to the allegation of staff misconduct must be grieved separately and will not be addressed herein.

GRIEVANT INTERVIEW

On December 9, 2019 you were interviewed by E. Escamilla, Unit Supervisor. Interviewer asked to provide addition detail for the complaint where you alleged that Psychiatric Technician C. Gonzalez committed gross negligence by not reporting that custody officers were going to assault you. You stated you were in the 4A2L rotunda and you only remembered that it was after the second time they pass medications. You stated Psychiatric Technician Gonzalez was coming into the rotunda from the C section door and you called her over to you and said they are about to assault you and could she please report it. You stated Psychiatric Technician Gonzales stated, "Huh," then before you could finish they called her away. You stated it was Sgt Navarro, CO Medina, CO Vera, CO Allison, and CO Herrera. You stated they were all in huddle in the rotunda and they pulled her away from talking to you. Interviewer asked you if they physically moved her, did you see where she went, and did she leave the rotunda. You stated No, they called her over to join the little gathering, she did not leave she went with them and you could not hear anything, they were whispering. You stated that is when Psychiatric Technician Campos walked in through the A section door and they called her over too. They whispered some more and then both of the nurses walked toward the door that leads to yard. You stated that is when A section door closed, then B Section, and C section door closed and you told them if you are going to do this at least let you out of the cuffs. They opened the rotunda and started beating you, kicked you, and everything. You stated you started yelling help, and when they were done you noticed the nurses were right there like they never left the room. You stated the CO's sat you in a chair backwards, like they do when you have medical issues. You stated you were in cuffs and you saw Psychiatric Technician Gonzalez come

toward you with a clipboard to fill out one of those 7219 things. You stated Psychiatric Technician Gonzalez asked if you were ok and Psychiatric Technician Campos would just say, "He is ok." You stated Psychiatric Technician Gonzalez tried and kept asking you what you said. You stated you kept telling her your eyes and your whole body was hurting and you saw her writing. You stated you told her your nuts hurt and Sgt Navarro slapped you right in front of her. You stated he slapped you twice where you knew she saw because you were not speaking to her respectfully. You stated you did not receive medical attention until 3rd watch and it was because other inmates were yelling. You stated you think she was trying to do the right thing but she did not do anything to help you.

WITNESS INTERVIEW(S)

☐ No witnesses were interviewed.

☒ The following witnesses were interviewed: C. Lewis, Psychiatric Technician

SUBJECT OF THE STAFF COMPLAINT INTERVIEW

C. Gonzalez, Psychiatric Technician was interviewed.

INSTITUTIONAL LEVEL DISPOSITION

No intervention, as the confidential inquiry is complete and all issues were adequately addressed.

BASIS FOR INSTITUTIONAL LEVEL DISPOSITION

Your health care grievance package and health record and all pertinent departmental policies and procedures were reviewed.

With respect to one or more of the issues grieved, it has been concluded that staff:

☒ did not violate California Department of Corrections and Rehabilitation policy.

☐ violated California Department of Corrections and Rehabilitation policy.

Complaints against staff are taken seriously and all efforts are made to ensure these matters are thoroughly researched and responded to in accordance with governing laws, rules, and policies. Any report generated or action taken is confidential and will not be released to inmates under any circumstances.

If you have health care needs, you may access health care services by utilizing approved processes in accordance with California Correctional Health Care Services policy.

If you are dissatisfied with the Institutional Level Response, follow the instructions on the CDCR 602 HC, Health Care Grievance, and submit the entire health care grievance package for headquarters' level review. The headquarters' level review constitutes the final disposition on your health care grievance and exhausts your administrative remedies.

If you think you have a medical, mental health or dental emergency, notify staff immediately. If additional space is needed, use Section A of the CDCR 802 HC A Health Care Grievance Attachment. Only one CDCR 802 HC A will be accepted. You must submit this health care grievance to the Health Care Grievance Office for processing. Refer to California Code of Regulations (CCR), Title 15, Chapter 2, Subchapter 2, Article 5 for further guidance with the health care grievance process.

Do not exceed more than one row of text per line. WRITE, PRINT, or TYPE CLEARLY in black or blue ink.

SECTION A:

Explain the applied health care policy, decision, action, condition, or omission that has had a material adverse effect upon your health or welfare for which you seek administrative remedy.

RULES AND REGULATIONS

The rules governing these issues are: California Code of Regulations, Title 15; Health Care Department Operations Manual; Mental Health Services Delivery System Program Guide; California Department of Corrections and Rehabilitation Department Operations Manual.

HEALTH CARE GRIEVANCE SUMMARY

Refer to the attached CDCR 602 HC, Health Care Grievance, in which you explained the decision, action, condition, omission, policy, or regulation that has had a material adverse effect upon your health or welfare for which you seek administrative remedy.

The institutional level reviewing authority categorized your health care grievance as a staff complaint and referred your health care grievance for a confidential inquiry to address the allegation of staff misconduct.

All issues unrelated to the allegation of staff misconduct must be grieved separately and will not be addressed herein. This response does not exhaust administrative remedies on any unrelated issue not addressed or concerning any staff you did not identify in the attached health care grievance.

HEADQUARTERS' LEVEL DISPOSITION

☒ No intervention. ☐ Intervention.

BASIS FOR HEADQUARTERS' LEVEL DISPOSITION

Your health care grievance package and health record, the supervisor's Confidential Inquiry Report, and all pertinent departmental policies and procedures were reviewed. Records indicate the content of the Confidential Inquiry Report supported the conclusion that staff did not violate California Department of Corrections and Rehabilitation policy.

Complaints against staff are taken seriously and all efforts are made to ensure these matters are thoroughly researched and responded to in accordance with governing laws, rules, and policies. Any report generated or

Note 1: The headquarters' level review is based on records available as of the date the Headquarters' Level Response is signed by the reviewing authority.

Note 2: The closing date reflects the closed, mailed-delivered date of the health care grievance.

COR SC 19000163
Page 2 of 2

action taken is confidential and will not be released to inmates under any circumstances. You have been provided all information to which you have a right under California Code of Regulations, Title 15, Section 3999.231.

The institution's reviewing authority deemed your health care grievance a staff complaint and referred the allegation to the applicable authority for an allegation inquiry or investigation per California Code of Regulations, Title 15, Section 3999.231(b).

Per California Code of Regulations, Title 15, Section 3999.227(e), "The grievant is limited to one issue or set of issues related to a single health care discipline that can reasonably be addressed in a single health care grievance response." As such, this response will only address your allegations against C. Gonzalez, Psychiatric Technician. Your allegations against H. Campos, Psychiatric Technician, are being addressed in health care staff complaint tracking number COR SC 19000164.

While you may not agree with the decisions of your treatment team, it does not constitute staff misconduct or deliberate indifference to your health care needs.

You alleged negligent care; however, your allegation is refuted by professional health care staff familiar with your health care history, as well as a review of your health record.

If you have health care needs, you may access health care services by utilizing approved processes in accordance with California Correctional Health Care Services policy.

This decision exhausts your administrative remedies.

S. Gates, Chief
Health Care Correspondence and Appeals Branch
Policy and Risk Management Services
California Correctional Health Care Services

FOR STAFF USE ONLY

You may appeal any California Department of Corrections and Rehabilitation (CDCR) decision, action, condition, policy or regulation that has a material adverse effect upon your welfare and for which there is no other prescribed method of departmental review/remedy available. See California Code of Regulations (CCR), Title 15, Section 3084.1. You must send this appeal and any supporting documents to the Appeals Coordinator (AC) within 30 calendar days of the event that led to the filing of this appeal. If additional space is needed, only one CDCR Form 602-A will be accepted. Refer to CCR 3084 for further guidance with the appeal process. No reprisals will be taken for using the appeal process.

Appeal is subject to rejection if one row of text per line is exceeded.

WRITE, PRINT, or TYPE CLEARLY in black or blue ink.

Memorandum

Date : December 13, 2019

To :

3C01

Subject: STAFF COMPLAINT RESPONSE : APPEAL # CSPC-2-19-06716 SECOND LEVEL RESPONSE.
(COR-2140-19-525)

APPEAL ISSUE: You allege on October 16, 2019, Officer Vera came to your cell door while you were housed in the Correctional Treatment Center and flipped you off with his middle finger and stated, "You snitched on him and his partners and we will make sure you can't go to 3C yard and program anymore, you rat". You allege Officer Vera's actions were done in retaliation, due to you filing a complaint against him.

All issues unrelated to the allegation of staff misconduct must be appealed separately and will not be addressed in this response. You do not exhaust administrative remedies on any unrelated issue not covered in this response or concerning any staff member not identified by you in this complaint. If you are unable to name all involved staff you may request assistance in establishing their identity.

DETERMINATION OF ISSUE: A review of the allegations of staff misconduct presented in the written complaint has been completed. Based upon this review your appeal is:

Being processed as an Appeal Inquiry.

You were interviewed on December 13, 2019, by Correctional Lieutenant C. Brown, you stated what you wrote in your appeal is what happened and had nothing else to add.

EFFECTIVE COMMUNICATION: A review of the Disability and Effective Communication System (DECS) reveals you have a Test of Adult Basic Education (TABE) score of (6.2). You do not have a documented disability which requires special accommodation to achieve effective communication.

During your interview with Lt. C. Brown, you were afforded the opportunity to fully explain your appeal and provide any additional information. Your personal interaction with the interviewer indicated you understood the conversation, satisfying the interviewer that effective communication was achieved.

Template Date 4/4/2012
Page 2

Attachment E-1

Your appeal is **PARTIALLY GRANTED** in that:

➤ The Appeal inquiry is has been reviewed and all issues were adequately addressed.

The following witness (es) will be / were questioned: Officers Thompson and Brandon. The following information will be / was reviewed as a result of your allegations of staff misconduct: CDCR-602 Inmate/Parolee Appeal Log # CSPC-2-19-06716.

Staff: *did* ☐ *did not* ☒ violate CDCR policy with respect to one or more of the issues appealed.

ALL STAFF PERSONNEL MATTERS ARE CONFIDENTIAL IN NATURE.

- As such, the details of any inquiry will not be shared with staff, members of the public, or offender appellants.
- Although you have the right to submit a staff complaint, a request for administrative action regarding staff or the placement of documentation in a staff member's personnel file is beyond the scope of the staff complaint process. A variety of personnel actions may be initiated by the Department based upon the content of your complaint and the outcome of any investigation or inquiry conducted as a result of your complaint.
- Allegations of staff misconduct do not limit or restrict the availability of further relief via the inmate appeals process.

If you wish to appeal the decision and/or exhaust administrative remedies, you must submit your staff complaint appeal through all levels of appeal review up to, and including, the Secretary's/Third Level of Review. Once a decision has been rendered at the Third Level, administrative remedies will be considered exhausted.

RIGHTS AND RESPONSIBILITY STATEMENT

The California Department of Corrections and Rehabilitation has added departmental language (shown inside brackets, in non-boldface type) for clarification purposes.

Pursuant to Penal Code 148.6, anyone wishing to file an allegation of misconduct by a departmental peace officer must read, sign and submit the following statement:

YOU HAVE THE RIGHT TO MAKE A COMPLAINT AGAINST A POLICE OFFICER [this includes a departmental peace officer] FOR ANY IMPROPER POLICE [or peace] OFFICER CONDUCT. CALIFORNIA LAW REQUIRES THIS AGENCY TO HAVE A PROCEDURE TO INVESTIGATE CITIZENS' [or inmates'/parolee's] COMPLAINTS. YOU HAVE THE RIGHT TO A WRITTEN DESCRIPTION OF THIS PROCEDURE. THIS AGENCY MAY FIND AFTER INVESTIGATION THAT THERE IS NOT ENOUGH EVIDENCE TO WARRANT ACTION ON YOUR COMPLAINT; EVEN IF THAT IS THE CASE, YOU HAVE THE RIGHT TO MAKE THE COMPLAINT AND HAVE IT INVESTIGATED IF YOU BELIEVE AN OFFICER BEHAVED IMPROPERLY. CITIZEN [or inmate/parolee] COMPLAINTS AND ANY REPORTS OR FINDINGS RELATING TO COMPLAINTS MUST BE RETAINED BY THIS AGENCY FOR AT LEAST FIVE YEARS.

SACRAMENTO, CA 94283-0001

**OFFICE OF APPEALS (THIRD LEVEL) DECISION**Date: **MAR 27 2020**

In re

KVSP

TLR Case No.: 2000089 Local Log No.: COR-19-06716

I. ISSUE ON APPEAL:

The claimant alleges that on October 16, 2019, while housed in the Correctional Treatment Center, Correctional Officer (CO) N. Vera came to his cell door, flipped him off with his middle finger and stated: "You snitched on me & my partners and we will make sure you don't go to 'C' Yard and program anymore. Your a rat (sic)." The claimant also claims that CO Vera stated: "He would be working on C-3 Yard on ... October 18, 2019, and he will let the inmates know to take care of me." The claimant is requesting a safety separation chrono from COs Vera, I. Medina, D. Allison, J. Hurrta and Sergeant J. Navarro; and a transfer to Lancaster 270 design prison to be close to his mother.

II. RULES AND REFERENCES:**A. CONTROLLING AUTHORITY:**

- California Penal Code Section 832.7 and 832.8
- California Code of Regulations, Title 15, (CCR) Section 3084.9 and 3391
- Department Operations Manual (DOM), Section 33030.3.1 and 54100.25

B. DOCUMENTS CONSIDERED:

- CDCR 602 Appeal Form Log No.: COR-19-06716
- Confidential Inquiry for Appeal COR-19-06716 by Correctional Lieutenant C. Brown
- Claimants Electronic Records Management System and Strategic Offender Management System files

III. REASONING AND DECISION: DENIED

Upon review of the documentation submitted, the Third Level of Review (TLR) Examiner determined that the claimant's allegations were appropriately reviewed and evaluated by administrative staff. Witnesses were interviewed and their statements were annotated on a Confidential Inquiry pursuant to the CCR and DOM. If the conduct of staff was determined not in compliance with policy, the institution would take the appropriate course of action. In this case, the Second Level of Review informed the claimant that an inquiry was completed and disclosed the determination. The institution's response complies with departmental policy and the claimant's staff misconduct complaint allegations were properly addressed.

The claimant has added new claims in section "F" of this appeal. These claims will not be addressed at the TLR, as the institution did not have an opportunity to review them.

This appeal only addresses the staff misconduct complaint at the TLR. The appellant would have to address his staff separation safety issue with appropriate staff and his transfer request with his assigned counselor and the Unit Classification Committee.

Page 2 of 2

It is the order of the Office of Appeals that this appeal at the TLR is **DENIED**. This decision exhausts the administrative remedies available to the claimant with CDCR.

IV. REMEDY: Your appeal has been denied, therefore there is no applicable remedy.

S. K. HEMENWAY, Appeals Examiner
Office of Appeals

cc: Warden, COR
Grievance Coordinator, COR and KVSP

Exhibit 41

DECLARATION OF

I, _____, declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at the California Institution for Women (“CIW”) in the Security Housing Unit (“SHU”). I am 39 years old. I am a transgender man and use he/him pronouns. I am in the process of legally changing my name to [REDACTED].

3. I am an *Armstrong* class member. I am designated as DLT. Ever since I was in a vehicular accident, I have limited movement in my back, legs, shoulders, and hands. I use a walker, eye glasses, and wrist, elbow and back braces. I require a lower bunk and lower tier housing.

4. I am a *Coleman* class member. I am at the Correctional Clinical Case Management (“CCCMS”) level of care. I am diagnosed with PTSD, and I experience anxiety and depression.

5. I have a number of serious medical conditions. I have seizures, asthma, neuropathy, carpal tunnel, high blood pressure, and sleep apnea. I use a C-PAP machine and I always carry an inhaler.

6. I have been incarcerated in CDCR since 2011. Since then, I have been at CIW on and off and most recently returned in February 2017 after I was assaulted by staff in January 2018 at the Central California Women's Facility ("CCWF").

7. Since returning to CIW in February 2017, I have been in SHU, a solitary confinement unit, with the exception of a few months. I was released from SHU around January 28, 2020, and moved to Harrison-A, [REDACTED]. I was in Harrison-A for about two or three weeks until I moved to Harrison-B, [REDACTED]. Then I moved to SHU on February 24, 2020. I was in SHU until around March 9, 2020, when they released me back to the

1 yard, to Emmons-B, [REDACTED]. Then I moved back to SHU on June 26, 2020, where I
2 currently reside.

3 8. I was a victim of staff misconduct at CIW. Since the time I was first
4 released from SHU in February, custody officers have taunted and verbally harassed me.
5 For example, the week of February 3, 2020, around 8:00 p.m. in front of Barneberg
6 building, Officer Harris said to me, "Hey you fuckin' punk. Your bitch ass ain't locked up
7 any more." Officer Harris put down his bike, approached me, and said, "What the fuck are
8 you gonna do now?" I reported the incident to Officer Garcia and Officer Perez, who said
9 they did not want "anything to do with it." The following day, I reported the incident to
10 Sergeant "H" who told me that because I had not reported the incident "right away," that it
11 "didn't happen."

12 9. The week of February 10, 2020, I was in the medication line when Officer
13 Romo – who was not working near the medication line but was in the area – repeatedly
14 called me "Shorty." I told Officer Romo that his behavior was unprofessional and that he
15 was not working in the post where he was supposed to be working. Officer Romo replied
16 that his post was, "Wherever I fucking want it to be." Officer Romo then asked me to step
17 to the side corner with him, out of sight of others. I refused and Officer Romo entered the
18 medication room where staff were and continued to call me "Shorty." I received my
19 medications and walked away. These incidents are only examples of the many times
20 custody staff made negative comments about my release from SHU such as, "Who the
21 fuck let you out?" "Fuck, you're still out?" I was being made a target for staff to send back
22 to isolation. The only thing I got out of being out of SHU was talking on the phone and
23 seeing old friends. Otherwise it was a total nightmare.

24 10. On February 24, 2020, around 8:00 p.m., I verbally argued with my
25 roommate, while she was cleaning the floor. A custody officer arrived and opened the cell
26 door. The custody officer sounded the alarm and other officers arrived, including Sergeant
27 Blair, Sergeant McDonald, Sergeant Rodriguez, Officer Estrada, Officer Flores. I stepped
28 out into the hallway and leaned my back against the wall. Sergeant Blair asked me to cuff

1 behind my back. I refused because I require special cuffing to accommodate my disability.
2 Sergeant Blair said, "Fuck no. Fucking cuff up." Officer Estrada then grabbed my neck,
3 attempting to bring me to the ground. Other custody officers then attempted to pull me to
4 the ground. I knelt on the ground and then one custody officer pushed me down and held a
5 knee on my back. Another officer had his knee next to my head. The officers cuffed me
6 behind my back and left me on the ground for three to five minutes. Sergeant McDonald
7 said, "Have a nice fucking time in ASU because you're going back to SHU."

8 11. When this incident occurred, I had shortness of breath. Officer De la
9 Fuentes escorted me to the CTC, where I was left in a holding cell handcuffed behind my
10 back for nearly two hours until Officer Eggenberger confirmed that I have restraint
11 restrictions and removed the handcuffs. At approximately 1:00 or 2:00 a.m., Lieutenant
12 Brown arrived to the holding cell with a lock-up order "pending investigation of possible
13 battery on the roommate." I told staff that I did not want to go to ASU and asked instead
14 to go to a crisis bed. I did not want to return to ASU because I did not want to hear staff
15 say the results of their bets on whether I would return to the detention unit or make more
16 comments that they knew I would not "make it" outside of isolation.

17 12. I never received any paperwork about being locked up in SHU. Staff said
18 that they investigated the incident and determined that there was no assault on my
19 roommate, so I was released from SHU to Emmons. To this day, nobody ever apologized
20 for sending me to SHU, they've just moved on like it didn't affect me.

21 13. Again when I was released from SHU, staff continued to harass me. Officer
22 Estrada frequently made comments to me, calling me "she." Shortly after I arrived to
23 Emmons, Ms. Thorpe approached me. She runs the SAP program. She said, "I don't
24 fucking want you in my building. You're a menace. You're going to bring down my
25 image. I don't trust you. The first thing you do, I'm getting you out of my building." I felt
26 like I was walking on eggshells. I was cleaning the unit even though I wasn't able to get a
27 paid position doing so because I had just got out of SHU, but I wanted to show people that
28 I wasn't what they thought.

1 14. In May 2020, Officer Villanueva woke me up to search my room. He was
2 not wearing a mask or gloves. I asked him to leave my room because he wasn't wearing a
3 mask or gloves and I was worried about getting sick from the coronavirus. He pushed the
4 alarm, and Sergeant Pineda arrived. The sergeant allowed Officer Villanueva to go into
5 my room with no mask or gloves. When I returned to my room, my TV was flipped upside
6 down and my C-PAP machine bag was opened and the cord was on the ground where it
7 could get dusty.

8 15. Around the week of June 22, 2020, for the entire week, Officer Sanchez had
9 been harassing me, calling me "she." Around June 24 or 26, 2020, around 6:00 p.m., I
10 went to the medication line. I was standing in line. Officer Sanchez told me to go back
11 and change my sleeveless shirt, which we were allowed to wear. I asked her why. She
12 said she could see my bra, but that wasn't true. She called Code 1 for a "defiant inmate."
13 Other officers arrived, including Officer Hyde, Sergeant Weiss, and Sergeant Mejia.
14 Officer Hyde and Sergeant Mejia said they would escort me back to the building so I could
15 change my shirt. While we were walking back, they asked me what was going on. I said
16 that Officer Sanchez was picking on me. They agreed that to call a Code 1 for the shirt
17 was ridiculous. When we arrived at Barneberg, Officer Estrada came behind me and
18 yanked my arm. I asked him, "what are you doing?" He told me to cuff up behind my
19 back. I told him I couldn't and needed front cuffs because of my disability. He pushed me,
20 I lost my balance, and staggered a couple of steps toward him. Sergeant Mejia then said to
21 cuff up in the front, which I did.

22 16. They escorted me to a holding cage in the program office. I could hear them
23 writing the report in their office. I heard them coordinate their reports of the incident and
24 tell each other what to write. I thought they were supposed to write what they witnessed,
25 not what others tell them to write. They gave me three lock up orders: one saying that I
26 assaulted staff; one saying that I lunged at staff; and a third saying I attempted to assault a
27 peace officer. Their reports are very different from what actually happened. If they
28 installed the cameras, it would prevent a lot of this.

1 17. After I went to SHU, Lieutenant Ortega approached my cell and said, "This
2 is all bullshit, you'll be out on Monday." Lieutenant Ortega came to my RVR hearing and
3 said, "You know how to do a grievance procedure, right? You're going to have to do it." In
4 the RVR paperwork, Lieutenant Ortega wrote that I said during the hearing that this was
5 the second incident with CO Estrada, but I never said that during the hearing. I only told
6 that to another staff person. They found me guilty of assault on staff and I was sentenced to
7 stay in SHU until October 2020. When I received my property in SHU, my television was
8 broken. I think somebody wanted me in the SHU because I sued CDCR about the abuse I
9 endured at CCWF.

10 18. I filed a 602 about unnecessary use of force when CO Estrada yanked my
11 arm and pushed me, but it was denied. I appealed it and am waiting for a response. I also
12 filed a 602 about the improper hearing, but I haven't yet received a response. I also filed a
13 602 about my television being broken, which was granted.

14 19. When I was out of SHU, with the exception of staff who harassed me, I was
15 around a lot of stable people and mentors that were helping me prepare for society. It
16 really destroyed me having to go back to SHU. I got depressed and stopped eating. I felt
17 hopeless. I felt that I was never going to be in peace during this prison term because staff
18 were always going to judge me because of my lawsuit against CDCR and because of my
19 past. I feel like the prison is trying to teach me how to fight by continually assaulting me.
20 Who wants to live that way? Sometimes in the middle of the night, I wonder if today will
21 be the day when they assault me and I don't wake up.

22 20. In my opinion, staff target people who are transgender, people who have
23 physical disabilities, people with mental illness, and people who have long sentences.
24 They could care less about somebody's mental health. They are very mean to people who
25 are seriously mentally ill.

26 21. I believe there is so much staff misconduct at CIW because they can get
27 away with it. Staff cover for each other and they don't get reprimanded. Nobody's
28 watching them. The people they hire to be lieutenants and sergeants cover for employees.

1 The people who are superiors are the worst offenders. People who are incarcerated are too
2 afraid to put their allegations on paper because they know staff will retaliate.

3 I declare under penalty of perjury under the laws of the United States of America
4 that the foregoing is true and correct, and that this declaration is executed at Corona,
5 California, on this 22nd day of September, 2020.

6
7 
8
9
10 On September 22, 2020, due to the closure of CIW in light of the COVID-19
11 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
12 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
13 system at CIW, I read the contents of this declaration, verbatim, to  by
14 telephone.  orally confirmed that the contents of the declaration were true
15 and correct.  also orally granted me permission to affix his signature to the
16 declaration and to file the declaration in this matter.

17
18 DATED: September 22, 2020

Exhibit 41a

Filed Under Seal

Exhibit 42

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation ("CDCR")
6 number is [REDACTED]. I am currently housed at California Institution for Women ("CIW")
7 on Facility Miller-A. I am 39 years old.

8 3. I am a *Coleman* class member. I am at the Correctional Clinical Case
9 Management System ("CCCMS") level of care. Patients at the CCCMS level of care live
10 in general population units throughout the CDCR and receive infrequent contacts with
11 their mental health case manager and treatment team. Prior to the incidents described
12 below, I did not receive mental health services in CDCR and was not on any mental health
13 medications. After this incident, my anxiety and depression became so bad that I was
14 referred into the Mental Health Services Delivery System ("MHSDS") to receive regular
15 mental health treatment.

16 4. After the incidents described below, I began to have thoughts about harming
17 myself. I was admitted to the Mental Health Crisis Bed ("MHCB") in mid-June 2020. An
18 MHCB is a short-term intensive care unit for people experiencing severe mental health
19 crises. This was the first time that I was admitted to the MHCB.

20 5. I have been housed at CIW from September 1, 2019 to now.

21 6. During my time at CIW, I have been housed in the following locations:
22 Miller-A Building, Miller-B Building, and the MHCB. I was also housed briefly in the
23 Reception Center recently, when me and a number of other people in my unit tested
24 positive for COVID-19.

25 7. I was raped by a staff member at CIW.

26 8. On April 21, 2020, Mr. Johnson, a male kitchen worker employed by CDCR,
27 caught me stealing vegetables in the kitchen when I was working. At the end of my shift, I
28 asked if there was something I could do to make up for stealing the vegetables. When I

1 asked this, I was suggesting that I perform an extra shift or extra work task. Mr. Johnson
2 did not respond and walked to the bathroom and gestured for me to follow him. I was
3 thinking he wanted me to clean the bathroom, so I followed him into the bathroom. When
4 we got into the bathroom, he closed the door and kept his hand on it to keep it shut. He
5 told me that unless I performed oral sex on him he would write me up for a Rules
6 Violation Report (“RVR”) for stealing. I felt that I had no choice but to perform oral sex
7 on him, because if I received another RVR at that time I would have been placed in a
8 segregation unit and on C-Status, which is a restrictive punishment status that consists of
9 not having most privileges such as phone calls, yard, and canteen.

10 9. As I was performing oral sex on him, he told me to stand up. As I was
11 standing up, he started pulling my pants down with both of his hands. I repeatedly said no,
12 but he did not stop, and pulled my pants down. He then forced his penis inside of me and
13 raped me. When he finished, he told me, “If you tell anybody, you’ll end up in the SHU
14 for assault.” He was suggesting that if I reported this, I would be charged with a very
15 serious RVR, and placed in the Security Housing Unit (“SHU”), a solitary confinement
16 unit.

17 10. I went back to my cell and told one of good friends who was incarcerated
18 with me at the time about the rape. She wanted me to report it, but I was too afraid and did
19 not report it.

20 11. About two weeks later, I was working again in the kitchen and could not get
21 one of my rings off my finger. I asked the officers working nearby to go to medical to get
22 my ring removed. They sent me back to talk to Mr. Johnson in his office, where there is a
23 tool room, because the tool room had wire cutters and he could remove my ring. I went
24 back into his office.

25 12. In his office, Mr. Johnson pulled his penis out of his pants and said I was
26 going to give him oral sex again. I said I was not going to do that again. He said, “Why
27 not? You did it before.” I continued to tell him no. Then he threatened me and told me
28 again that I would end up in the SHU, unless I performed oral sex on him. He said that if I

1 did not do what he was asking “no one would ever believe me” over him. I felt I had to do
2 what he was demanding, so I performed oral sex on him again.

3 13. In early July 2020, Mr. Johnson was fired. To my knowledge, Mr. Johnson
4 was fired because he did similar things that he did to me to at least five other incarcerated
5 people. Even after he was fired, I still felt scared to report the rapes for fear of being
6 retaliated against or sent to the SHU by other staff members. My friend ended up
7 reporting it for me because she was tired of seeing me in so much distress. When I told my
8 friend that Mr. Johnson had been fired, she told me I should report what had happened and
9 that she was tired of seeing me withdrawn and distressed. I told her I was still not going to
10 report it, because I was afraid. On July 14, 2020, my friend submitted a 22 Form reporting
11 the rapes. CIW Investigative Services Unit (“ISU”) staff interviewed her shortly after the
12 incident. ISU called me immediately after her interview for an interview. I was
13 interviewed by Sergeant Washington, an ISU sergeant. I told him what had happened, and
14 he listened to me and sympathized with me.

15 14. Sergeant Washington came to see me about a month after my initial
16 interview with him, when I was housed in the Reception Center. He told me he was
17 following up to see whether I had additional details about what had happened to me. I told
18 him I did not have any additional details. I have not heard anything since about the ISU
19 investigation.

20 15. On September 17, 2020, I filed a 602 staff complaint. I reported that I was
21 raped and that since then I have not been offered any mental health treatment related to the
22 rape.

23 16. Being raped and being forced to perform oral sex on Mr. Johnson twice was
24 extremely degrading and made me feel like staff could do whatever they wanted to me. It
25 was very humiliating. I also felt powerless knowing that staff could force me to do things
26 like this to them by threatening unjust punishment and telling me that I would never be
27 believed.

1 17. I still had to interact with Mr. Johnson in the weeks after these incidents
2 happened, for at least three days a week when I would work in the kitchen. While he never
3 assaulted or raped me again after the second rape, he continued to harass me verbally. For
4 example, one day while I was working my shirt was wet after washing dishes, and he said
5 “wet T-shirt contest! It’s better wet anyways, isn’t it.” These types of comments made me
6 feel extremely uncomfortable, and just seeing him made my skin crawl. If I was able to
7 walk away from him when he made these comments, I did so, but I often was unable to
8 leave, because I had to work.

9 18. I struggled greatly with my mental health after this incident. Since early
10 May 2020, I have been having bad anxiety attacks, and my depression has increased.
11 During my anxiety attacks, I could not breathe. These symptoms were unlike anything I’d
12 ever experienced in my life. I was started on four different anxiety medications. Due to
13 my increased anxiety and depression, I barely slept. When I did fall asleep, I would wake
14 up in a panic shortly after falling asleep. After a number of weeks of increased anxiety and
15 depression, I began to feel suicidal in late May 2020, and reported this to mental health
16 staff. I was not admitted to the MHCB at that time, but the dosage of some of my anxiety
17 medications was increased in order to help manage my anxiety. I was also referred at this
18 time into the MHSDS, when I previously was not receiving regular mental health services.

19 19. Even after my medication dosage was increased and I was admitted to the
20 MHSDS, I continued to have suicidal feelings and increased anxiety and depression and
21 was eventually admitted to the MHCB on June 12, 2020. I stayed there until June 18,
22 2020. While I am not doing as badly as I was at that time, I am still struggling with my
23 mental health after this incident. I still have anxiety and feel agitated. I am still not
24 sleeping very well, and wake up to 20 times in a single night. I have nightmares about the
25 rapes.

26 20. Since these rapes, I have expressed my mental health issues to mental health
27 staff at CIW. Multiple members of CIW mental health staff are aware of what has
28 happened to me after it was reported on June 14, 2020, but I have not received any sort of

1 counseling or treatment specific to sexual assault that would help me cope with this. I
2 have only seen mental health staff one or two times since reporting my rapes in July 2020.
3 When I have talked to them, they only ask whether or not I am suicidal, and are otherwise
4 only interested in my medications. I do not feel I can talk to them about these issues,
5 because when I have tried, they seem to be unwilling to help me.

6 21. The lack of action by mental health staff has made me unable to trust them
7 and has made me feel as if I cannot ask them for help when I need it. The only help I have
8 received is through Riverside Area Crisis Center, who I wrote to after the incident. They
9 told me they would try to talk to staff at CIW to get me some assistance, but to this day I
10 have not received any sort of treatment specific to the assaults I experienced.

11 22. In addition to being unable to ask for help with my mental health, I have
12 been afraid to ask for any sort of help from male officers since these incidents. I feel
13 uncomfortable being around men.

1 23. In my opinion, staff target vulnerable people with staff misconduct. Custody
2 staff know that because we are institutionalized and subject to CDCR, they can threaten us
3 and force us to do things by holding things against us. Because we are not free, we are
4 extremely vulnerable and can be abused as a result. Since being admitted into the mental
5 health system after this incident, I have felt even more vulnerable, as staff know that I
6 struggle with mental health issues and can use these issues against me. Staff treat us like
7 we are nothing.

8 I declare under penalty of perjury under the laws of the United States of America
9 that the foregoing is true and correct, and that this declaration is executed at Chino,
10 California this 17th day of September, 2020.

11
12
13
14
15 On September 17, 2020, due to the closure of California Institution for Women in
16 light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against
17 witnesses in support of Plaintiffs' Motion, including ongoing concerns about the
18 confidentiality of the legal mail system at CIW, I read the contents of this declaration,
19 verbatim, to [REDACTED] by telephone. [REDACTED] orally confirmed that the
20 contents of the declaration were true and correct. [REDACTED] also orally granted me
21 permission to affix his signature to the declaration and to file the declaration in this matter.

Exhibit 43

DECLARATION OF

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation (“CDCR”) number is [REDACTED]. I am currently housed at the California Institution for Women (“CIW”) in the ASU, room [REDACTED]. I am 28 years old.

3. I am an *Armstrong* class member. I am designated as DNH. I am hard of hearing and I use hearing aids. I usually wear glasses, but my glasses were lost when I went to the hospital. I have been waiting to see the optometrist, but that has been delayed because of the pandemic. I also wear a wrist brace for a ganglion cyst on my left wrist.

4. I am a *Coleman* class member. I am at the CCCMS level of care. I am diagnosed with major depression and anxiety.

5. I have a number of serious medical conditions. I have fluid around my brain and eyes, I think they call it hypertension.

6. I arrived to CDCR around September 2017 and was incarcerated in the Central California Women's Facility ("CCWF"). I arrived to CIW in approximately February 2018. I was first in the SHU. I have spent most of time in SHU or ASU, but have also lived in in Wilson and in Harrison.

7. I have witnessed staff engage in misconduct against other people at CIW.

8. In May 2019, I was in my cell around 1 or 2 p.m. in SHU when I witnessed another person incarcerated in the SHU, who was restrained in hand and leg chains, returning to the SHU building. This incarcerated person and Officer Ulloa approached this person's cell [REDACTED] and the individual started asking what happened to the property in his cell. Officer Ulloa then said that this person was resisting, and other custody officers arrived and they picked him up and threw him to the ground. Officer Ulloa punched this person in the face multiple times.

1 9. In March or April 2019, I was in my cell in the SHU when I saw Officer
2 Ochoa passing out breakfast. Another person who was also incarcerated in the SHU, had
3 his arm sticking out of the slot in the cell door because he did not get a food tray that day
4 and was asking for the sack lunch. Officer Ochoa attempted to force the slot door closed
5 onto this person's arm while calling him "bitch" and saying that he "did not give a fuck."
6 This person formally reported the incident to CDCR and I was called as a witness.

7 10. I was also the victim of staff misconduct at CIW. On September 16, 2020, I
8 was outside during rec time and Officer Baca arrived to escort me to committee. He put
9 handcuffs on my left wrist where I have the ganglion cyst, but he put them on backwards.
10 They were very tight and I could barely move my wrist. I told him that the cuff was too
11 tight. While the handcuff was still locked on my wrist, he twisted the cuffs to turn them
12 around and then cuffed my right wrist just as tight as the left. I felt it scrape my bones.

13 11. Officer Baca escorted me into the building while holding my right arm very
14 tight. He was very rough while escorting me, shoving me while I was walking ahead of
15 him. I asked him to ease up and he didn't say anything, he just continued to shove me.
16 When we arrived at the committee room, he shoved me into the room. When I got back to
17 my cell and the handcuffs were removed, I saw that my arm had the handcuff print. The
18 next day, it still felt tender.

19 12. I have to interact with Officer Baca almost every day. Because of what I
20 experienced and witnessed, my emotions are running rapidly. I feel helpless and
21 powerless. I usually ask the nurse if I need anything for my hearing aids, like a battery. I
22 don't know how CO Baca would respond if I asked him. Also on September 16, my toilet
23 was backed up and there was water all over the floor. I repeatedly asked him for a plunger
24 because he was standing right next to my cell talking with somebody else, but he just
25 ignored me. After about ten minutes, another officer was doing rounds, looked inside my
26 cell and saw the water everywhere. That officer gave me the plunger.

1 13. In my opinion, staff target people who have disabilities with staff misconduct.
2 They know that we talk with people from outside organizations and they get worried that
3 their misconduct will come to light.

4 I declare under penalty of perjury under the laws of the United States of America
5 that the foregoing is true and correct, and that this declaration is executed at Corona,
6 California on this 21st day of September, 2020.

7
8
9
10
11 On September 21, 2020, due to the closure of CIW in light of the COVID-19
12 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
13 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
14 system at CIW, I read the contents of this declaration, verbatim, to [REDACTED], by
15 telephone. Ms. [REDACTED] orally confirmed that the contents of the declaration were true and
16 correct. Ms. [REDACTED] also orally granted me permission to affix her signature to the
17 declaration and to file the declaration in this matter.

Re: CIW: Non Class Action Allegations

Dear Ms. Mendelson and Ms. Norris

This letter is to acknowledge receipt of the correspondence received from your office on January 24, 2020 concerning allegations at CIW.

The allegations that were presented in your correspondence were routed to the appropriate personnel at CDCR.

The Legal Liaison for the Female Offender Programs and Services Mission, Michael Stone, will provide you with information on the non-class action allegations when it becomes available. If we need any additional information in order to address these matters, we will contact your office.

Sincerely,

/s/ Robin Stringer

**California Institute for Women
Armstrong Monitoring Tour
December 2016**

Prison Law Office attorney Corene Kendrick, Investigator Amber Norris, and Litigation Assistant Isaac Dalke toured the California Institute for Women (CIW) on December 12-13, 2016, to monitor the prison's compliance with the *Armstrong* Remedial Plan (ARP), court orders, and the Americans with Disabilities Act (ADA). At the time of the tour, 166 class members lived at the prison. The information in this report is based upon formal and informal interviews with class members, interviews with staff, and review of documents for this monitoring period (Oct. 16, 2015 - Nov. 1, 2016). We thank institution staff for their assistance in facilitating the interviews and tour.

CIW remains in violation of the *Armstrong* Remedial Plan and *Armstrong* Court orders in several ways, including:

- Physical plant problems and needed repairs throughout the prison, including to accessible showers and paths of travel, creating dangerous conditions for people with mobility and vision disabilities;
- Insufficient number of ADA workers and inadequate training of ADA workers and staff regarding the scope of their duties;
- Delays in the repair of durable medical equipment, failure of health care staff to maintain repair logs, and an inefficient system for stocking DME; and
- Problematic processing of 1824 requests for disability accommodations.

I. PHYSICAL PLANT

Plaintiffs' counsel appreciates the opportunity to discuss and view current and planned construction that will remedy problems with the paths of travel throughout the prison. In this report, we highlight physical plant concerns that are not addressed by the Master Plan process or should be addressed sooner than planned in order to keep class members safe. At the request of Mr. Knowles, we already provided much of this information on December 20, 2016, but repeat it here for the sake of completion.

A. Inaccessible paths of travel

The monitors observed the following inaccessible paths of travel:

SCU (EOP building) – the path around the yard is only half paved, as illustrated by the photo on the next page. In addition, the door to the laundry area is only 26 inches wide, while the ADA requires doors to be at least 32 inches wide, (See 2010 ADA Standards for Accessible Design, Section 404.2.3)

consent and with staff supervision. However, class members reported that staff had instructed them to obtain help from their cellmates because ADA workers were not allowed to assist with cleaning at all. Ms. [REDACTED], [REDACTED], DNM, SCU; Ms. [REDACTED], [REDACTED], DLT/DNH, [REDACTED]; Ms. [REDACTED], [REDACTED], DNM, [REDACTED]; and Ms. [REDACTED], [REDACTED], DNM/DNH, [REDACTED], all reported that they needed assistance with cleaning their cells.

Other class members, including Ms. [REDACTED], [REDACTED], DNM, [REDACTED]; and Ms. [REDACTED], [REDACTED], DNM, [REDACTED], reported that unit staff told them ADA workers were not permitted to assist them with carrying items from canteen. The December 12, 2016, memo states ADA workers cannot “handle canteen or property items *in owner’s absence*.” (emphasis added). However, ADA workers are permitted to assist in carrying canteen items in the owner’s presence. Staff must ensure that class members who cannot carry their canteen items because of their disability are appropriately accommodated with assistance from ADA workers or staff.

Please provide an update regarding what steps have and will be taken to fill all of the ADA worker positions, to ensure that there are enough positions to fulfill all of the duties listed in the December 2016 Memo, and to provide adequate training to ADA workers and their supervisors regarding their job duties. CIW must update its LOP to be consistent with the statewide memo issued on December 12, 2016, and provide related training to staff and ADA workers.

B. Allegations of staff misconduct

Public entities and their employees may not “coerce, intimidate, threaten, or interfere with any individual in the exercise or enjoyment of [...] any right granted or protected” by the Americans with Disabilities Act. *See* Sect. 12203 of the ADA; 35 C.F.R. § 35.134(b). CDCR’s Disability Placement Program (DPP) was created to “assure nondiscrimination against inmates/parolees with disabilities.” ARP § I.A.

As an initial matter, multiple prisoners reported that in the past year they had sent mail to the PLO, but the PLO has no record of this correspondence. (Our office had only received 12 letters in total from CIW class members between Jan. 1 and Dec. 1, 2016). Multiple class members were concerned that staff were tampering with their legal mail.¹

¹ See CDCR Department of Operations Manual Sec. 54010.12.1 (providing that inmates may correspond confidentially with attorneys and legal services organizations, specifically mentioning the Prison Law Office by name). “Regulations and practices that unjustifiably obstruct the availability of professional representation or other aspects of the right of access to the courts are invalid.” *Procunier v. Martinez*, 416 U.S. 396, 419 (1974), *overruled in part on other grounds by Thornburgh v. Abbott*, 490 U.S. 401

Some class members reported staff behavior that could be misconduct. A limited number of class members agreed to let us use their name when reporting allegations of staff misconduct. Below are incidents reported in the document production or in interviews with class members who gave us permission to share their experiences:

1. Ms. [REDACTED], [REDACTED], HB, A-16-00548, is a *Coleman* class member and filed an appeal alleging custody staff bully and embarrass her in public. **This appeal was not documented in the noncompliance logs.**
2. Ms. [REDACTED], [REDACTED], DNM, SHU (NDS), reported that on 10/16/16, she was living in Barneburg, she was having some problems with her cellmate, which she reported to custody staff. When another prisoner threatened her, Ms. [REDACTED] states that she asked CO Hadnot (unsure of spelling?) to lock the door to her cell. She reported that the CO did not lock her door. Three women then came into her room and beat her up. Medical records confirm she was assaulted.
3. Ms. [REDACTED], [REDACTED], DLT/DNH, RC-127, reported that on 11/7/16, CO Reyes submitted Ms. [REDACTED] to a strip search, asking her to spread her labia, which Ms. [REDACTED] found this maneuver especially difficult because there was no rail or grab bar in the room for her to hold on to. She filed a staff complaint (16-01313, enclosed as Exhibit 1 to this report), but it was rejected on the ground that there were too many issues on the 602.
4. Ms. [REDACTED], [REDACTED], reported that CO Rodarte who works third watch at Latham Hall regularly yells, screams, and curses at prisoners, and she filed a staff complaint about his behavior. She reported that a couple weeks prior to our visit, he called another prisoner “nigger”.
5. Ms. [REDACTED], [REDACTED], DNM, [REDACTED] reported that she has spoken with staff multiple times about ill-fitting ankle restraints. She reported that no changes were made and, as a result, she fell on October 28, 2016, causing her to black out and requiring several stitches in her chin. She filed a 602 about the incident. Her medical record confirms she was at an outside appointment and that she fell, resulting in sutures. On November 1, 2016 the provider noted that “Upon returning she fell down an elevator with the lose shackles and a bump her head with the some laceration under the chin and bruising on left eye brow.”

We request that the allegations listed above at # 1-5 be investigated, and that Defendants provide an update on the findings of the investigations.

(1989). Legal mail systems are critical to a prisoner’s constitutional rights to free speech, to legal counsel, and access to the courts. *Nordstrom v. Ryan*, 762 F.3d 903, 909 (9th Cir. 2014). Interference with prisoners’ communications with attorneys also violates the lawyers’ First Amendment rights, as these are communications in which “the interests of both parties are inextricably meshed.” *Procunier*, 416 U.S. at 408-09.

C. Inappropriate housing

CDCR prisons must ensure that prisoners with disabilities are reasonably and appropriately housed. ARP § I. Plaintiffs' counsel identified the following class members who were inappropriately housed during this monitoring period:

1. Ms. [REDACTED], [REDACTED], DLT/DNH, RC-127, reported she is in the RC because she needs handrails. Previously, she was in Miller without handrails despite needing them. On 8/9/16, nursing staff diagnosed her as a fall risk. On 8/18/16 she requested a chrono to be housed in a room with grab bars, however there is no documentation that she was evaluated for this accommodation. She also filed multiple 1824s (A-16-00878; A-16-00883; A-16-00901) reporting she could not access the shower or toilet, and the responses did not assess her need for an interim accommodation.
2. Ms. [REDACTED], [REDACTED] DNM with walker, Miller A, requires grab bars per DECS. However, at the time of our visit, she was living in Cell [REDACTED] that did not have grab bars. During our visit she was moved to a location with grab bars.

D. Failure to Transfer Assistive Devices

Ms. [REDACTED], [REDACTED], A-15-01306, reported that when she returned from the OHU, most of her property – including her prescription glasses – were missing. The response states that she was referred to optometry.

III. HEALTH CARE STAFF RESPONSIBILITIES

A. Inefficient DME repair system & failure to track DME repairs

Class members reported insufficient and delayed durable medical equipment repair, particularly for walkers and wheelchairs. For example, Ms. [REDACTED], [REDACTED], A-16-00096, reported that her PCP recommended that she have a walker on 10/23/15 and 11/18/15, but as of 1/24/16, she still did not have a walker. The response, issued on 2/23/16, confirms that the walker was ordered on 1/19/16 and she received it ten days later, on 1/29/16. Ms. [REDACTED]'s medical records confirm that on 11/18/15 the medical provider ordered a walker. (See Appendix A for a complete list of findings.) In addition to delays, some class members reported that they did not receive "loaner" DME at all when their devices broke because staff told them that there were none in stock.

When monitors visited the clinic and CTC, where the stock of DME is maintained, we found only two wheelchairs and approximately six walkers. The clinic did not have any canes, cane tips, walkers, or wheelchair footrests. Instead, these items are kept in the CTC, and a health care staff person has to run the medical supplies over to the clinic from

Subject: **CIW RESPONSE TO THE ARMSTRONG MONITORING TOUR –DECEMBER 12-13, 2016**

Please find the attached information to the Prison Law Office (PLO) report from the Armstrong Monitoring Tour, which took place at California Institute for Women (CIW) in December 2016. The documentation provided includes a response to the report from the institution, to include Health Care Services Response as well, and the Request for Information and supporting documentation PLO has asked for in their report.

The response that follows has been organized to follow the format of the PLO report. The response and "Request for Information" provide information and rebuttal to some points raised in the PLO report. While it is recognized that there were some areas of concern raised in the report that show room for improvement by the institution, it should be noted that the tour report shows CIW has made marked improvements by all staff to be in compliance with the Armstrong Remedial Plan and departmental policy regarding the care and treatment of incarcerated inmate-patients who are identified as Armstrong class members.

Please find the California Institution for Women's (CIW) responses inserted directly below the Plaintiff's findings.

I. PHYSICAL PLANT

Plaintiffs' counsel appreciates the opportunity to discuss and view current and planned construction that will remedy problems with the paths of travel throughout the prison. In this report, we highlight physical plant concerns that are not addressed by the Master Plan process or should be addressed sooner than planned in order to keep class members safe. At the request of Mr. Knowles, we already provided much of this information on December 20, 2016, but repeat it here for the sake of completion.

A. Inaccessible paths of travel

The monitors observed the following inaccessible paths of travel:

SCU (EOP building) – the path around the yard is only half paved, as illustrated by the photo on the next page. In addition, the door to the laundry area is only 26 inches wide, while the ADA requires doors to be at least 32 inches wide, (See 2010 ADA Standards for Accessible Design, Section 404.2.3)

Please provide an update regarding what steps have and will be taken to fill all of the ADA worker positions, to ensure that there are enough positions to fulfill all of the duties listed in the December 2016 Memo, and to provide adequate training to ADA workers and their supervisors regarding their job duties. CIW must update its LOP to be consistent with the statewide memo issued on December 12, 2016, and provide related training to staff and ADA workers.

Response: The ADA Coordinator reached out to the Women's Advisory Council to notify inmates of the need for ADA Workers. Within the last three months the number of ADA Workers has increased from 11 to 28 workers. Numerous requests to become ADA workers have been received from inmates, and are currently being screened to verify eligibility per the December 2016 memorandum outlining the new exclusionary factors. CIW estimates there should be approximately six ADA workers per housing unit in order to fulfill the institution's needs, and for full coverage of hours from 0600 to 2200. As mentioned above, requests to become an ADA Worker are currently being screened, to verify eligibility. On February 23, 2017, training was given to all Correctional Counselors on the December 2016 memorandum titled Americans with Disabilities Act Inmate Assistance Program, detailing the scope of ADA worker job duties. CIW will train all ADA workers as well as custody supervisors according to the most current memorandum, to ensure the scope of their duties is understood.

B. Allegations of staff misconduct

Public entities and their employees may not "coerce, intimidate, threaten, or interfere with any individual in the exercise or enjoyment of [...] any right granted or protected" by the Americans with Disabilities Act. See Sect. 12203 of the ADA; 35

C.F.R. § 35.134(b). CDCR's Disability Placement Program (DPP) was created to "assure nondiscrimination against inmates/parolees with disabilities." ARP § I.A.

As an initial matter, multiple prisoners reported that in the past year they had sent mail to the PLO, but the PLO has no record of this correspondence. (Our office had only received 12 letters in total from CIW class members between Jan. 1 and Dec. 1, 2016).

Multiple class members were concerned staff were tampering with their legal mail.¹

Response: Per Department Operations Manual Supplement 54010.12.2 Processing Outgoing Confidential Mail states, all legal mail shall be placed in the outgoing letter tray(s) after being logged in the unit log book by unit staff. CIW follows institutional procedures for handling outgoing legal mail, and will look in to these concerns and ensure they are handled at an institutional level.

¹ See CDCR Department of Operations Manual Sec. 54010.12.1 (providing that inmates may correspond confidentially with attorneys and legal services organizations, specifically mentioning the Prison Law Office by name). "Regulations and practices that unjustifiably obstruct the availability of professional representation or other aspects of the right of access to the courts are invalid." *Procunier v. Martinez*, 416 U.S. 396, 419 (1974), *overruled in part on other grounds by Thornburgh v. Abbott*, 490 U.S. 401

Some class members reported staff behavior that could be misconduct. A limited number of class members agreed to let us use their name when reporting allegations of staff misconduct. Below are incidents reported in the document production or in interviews with class members who

gave us permission to share their experiences:

1. Ms. [REDACTED], HB, A-16-00548, is a *Coleman* class member and filed an appeal alleging custody staff bully and embarrass her in public. **This appeal was not documented in the noncompliance logs.**
2. Ms. [REDACTED] DNM, [REDACTED], reported that on October 16, 2016, she was living in Barneburg, she was having some problems with her cellmate, which she reported to custody staff. When another prisoner threatened her, Ms. [REDACTED] states that she asked CO to lock the door to her cell. She reported that the CO did not lock her door. Three women then came into her room and beat her up. Medical records confirm she was assaulted.
3. Ms. [REDACTED] DLT/DNH, reported that on November 7, 2016, CO [REDACTED] submitted Ms. [REDACTED] to a strip search, asking her to spread her labia, which Ms. [REDACTED] found this maneuver especially difficult because there was no rail or grab bar in the room for her to hold on to. She filed a staff complaint (16-01313, enclosed as Exhibit 1 to this report), but it was rejected on the ground that there were too many issues on the 602.
4. Ms. [REDACTED] reported that CO [REDACTED] who works third watch at Latham Hall regularly yells, screams, and curses at prisoners, and she filed a staff complaint about his behavior. She reported that a couple weeks prior to our visit, he called another prisoner "nigger".
5. Ms. [REDACTED] [REDACTED], DNM, Wilson, reported that she has spoken with staff multiple times about ill-fitting ankle restraints. She reported that no changes were made and, as a result, she fell on October 28, 2016, causing her to black out and requiring several stitches in her chin. She filed a 602 about the incident. Her medical record confirms she was at an outside appointment and that she fell, resulting in sutures. On November 1, 2016 the provider noted that "Upon returning she fell down an elevator with the lose shackles and a bump her head with the some laceration under the chin and bruising on left eye brow."

We request that the allegations listed above at # 1-5 be investigated, and that Defendants provide an update on the findings of the investigations.

Response: [REDACTED], [REDACTED] HB, A-16-00548, allegations of staff misconduct were not included in the Armstrong non-compliance log because she is not an Armstrong class member. CIW takes PLO's allegations of staff misconduct very seriously and is in the process of investigating these allegations listed above and will follow Department policy on any employee discipline matters.

(1989). Legal mail systems are critical to a prisoner's constitutional rights to free speech, to legal counsel, and access to the courts. *Nordstrom v. Ryan*, 762 F.3d 903, 909 (9th Cir. 2014). Interference with prisoners' communications with attorneys also violates the lawyers' First Amendment rights, as these are communications in which "the interests of both parties are inextricably meshed." *Procunier*, 416 U.S. at 408-09.

C. Inappropriate housing

CDCR prisons must ensure that prisoners with disabilities are reasonably and appropriately housed. ARP § I. Plaintiffs' counsel identified the following class members who were inappropriately housed during this monitoring period:

OFFICE OF LEGAL AFFAIRS

Patrick R. McKinney II
General Counsel
P.O. Box 942883
Sacramento, CA 94283-0001

October 2, 2017

Ms. Corene Kendrick
Prison Law Office
General Delivery
San Quentin, CA 94964

Dear Ms. Kendrick:

This letter is in response to the allegations raised in your December 2016 *Armstrong* Monitoring Tour report concerning California Institution for Women (CIW). The California Department of Corrections and Rehabilitation (CDCR) takes every allegation made against the Department seriously, and as such, please be advised that CIW reviewed inmate [REDACTED]'s allegation that:

- Ms. [REDACTED] [REDACTED] reported that on 11/7/16, a CO submitted her to a strip search, asking her to spread her labia, which [REDACTED] found this maneuver especially difficult because there was no rail or grab bar in the room for her to hold onto. She filed a staff complaint but it was rejected on the ground that there were too many issues on the 602.

As a result of this allegation, CIW Appeals Office reopened the appeal as a staff complaint and forwarded it to the CDW/Warden for review and assignment to the appropriate division head. After a complete review of all documents related to this incident and interviews, CIW found that the correctional officer followed CDCR policy related to unclothed body searches.

At this point, we will be closing the inquiry into the allegation(s) raised in the PLO report emanating from inmate [REDACTED]. In the event that you need any additional information, please feel free to contact me.

Thank you,

A handwritten signature in blue ink, appearing to read "M. A. Stone".

Female Offenders Program Services Mission
Office of Legal Affairs

Exhibit 47

**California Institution for Women
Armstrong December 2017 Monitoring Tour
Reports of Allegations of Staff Misconduct**

The Prison Law Office visited California Institution for Women (“CIW”) in December 2017 to evaluate compliance with the requirements of *Armstrong v. Brown* and the Americans with Disabilities Act. This report is separate from the main *Armstrong* report. This report documents what we learned about the current culture of retaliation and violence that has been documented in multiple past reports. See December 2016 CIW Report at 7.

Class members reported incidents of staff misconduct, including excessive use of force, sexual abuse, and failure to protect vulnerable and disabled people who are incarcerated at the prison. This report does not include all reports we received about staff misconduct at the prison. Instead, we provide illustrative examples where we could gather as many details as possible, including to the extent possible, confirmation from their medical records and central files. About half of the prisoners did not want us to use their names or stories out of fear that staff would retaliate against them. Of note, multiple class members reported that they had sent mail to the Prison Law Office and to others, but the PLO had no record of this correspondence. Class members again expressed concern that staff tampered with their legal mail.¹

1. Physical Abuse

- a. **Prisoner 1**, DPM, reported that she witnessed staff assault **Prisoner 2** (*Coleman* class member) in the PSU in October 2017 during second watch. At the time, the two women were in adjacent cells and Prisoner 1 had a clear line of vision to witness the assault. According to Prisoner 1, Prisoner 2 was suicidal, and told staff. She yelled for help, prompting officers to approach her cell. Prisoner 2 did not resist, but was put on the floor, on her stomach, and cuffed. **Officer A**, second watch, then hit Prisoner 2 with a baton. **Officer B** kicked her in the head once. Officer B was lifting Ms. [REDACTED] up to put her in her wheelchair, and Prisoner 1 believes Officer B tried to make the kick look like an accident. According to Prisoner 1, Prisoner 2 yelled, “You kicked me in the head.” The officers dragged Prisoner 2 into the hallway and took her away. Prisoner 1 told us that she filed a staff complaint reporting what she had witnessed. Plaintiffs’ counsel spoke

¹ See CDCR Department of Operations Manual Sec. 54010.12.1 (providing that CDCR prisoners may correspond confidentially with attorneys and legal services organizations, specifically mentioning the Prison Law Office by name). “Regulations and practices that unjustifiably obstruct the availability of professional representation or other aspects of the right of access to the courts are invalid.” *Procunier v. Martinez*, 416 U.S. 396, 419 (1974), *overruled in part on other grounds by Thornburgh v. Abbott*, 490 U.S. 401 (1989). Legal mail systems are critical to an incarcerated person’s constitutional rights to free speech, to legal counsel, and access to the courts. *Nordstrom v. Ryan*, 762 F.3d 903, 909 (9th Cir. 2014). Interference with their communications with attorneys also violates the lawyers’ First Amendment rights, as these are communications in which “the interests of both parties are inextricably meshed.” *Procunier*, 416 U.S. at 408-09.

with Prisoner 2, who described the incident in a very similar manner. She reported that no staff ever spoke with her about Prisoner 1's 602 report.

- b. **Prisoner 3**, DPW, CTC, 17-00249, reported in an 1824 (log 17-00249) that **Officer C** rammed her foot into the hall door. The response states that her staff complaint was being investigated.

2. *Retaliation for Reporting Staff Misconduct*

- a. **Prisoner 1** reported that she was retaliated against by staff while in the PSU for reporting the above-mentioned assault against Prisoner 2. She reportedly told **Officer D** about the incident who in-turn told Officer B, Officer E, Officer F, and other staff about the allegations. Since then, staff withheld her yard time, food, and other privileges, taken her radio and TV, reduced her privilege level. **Officer F** threatened to physically assault her. In November, while distributing a meal, he also told her "We don't have to give you breakfast." He then asked, "Do you want it?" and proceeded to give the food to someone else. Prisoner 1 notes that she only has problems with second watch staff, and all of the staff members she named are on second watch. She does not have any problems with first or third watch. Third watch staff are good, and "make you feel safe." She filed a 602 regarding **Officer D** telling other officers of her report of witnessing the assault. She states that she never received a response or a log number. Staff told her that she is not allowed copies of her 602.

3. *Inadequate Investigation Process / Inappropriate Sexual Comments*

- a. **Prisoner 4** reported that on August 3, 2017, another woman destroyed her property, and physically and sexually assaulted her, by hitting her in the head and inserting her fingers into Prisoner 4's vagina. There were two witnesses who were present and saw the assaults. A 7219 done on August 3, 2017 documented red areas on her face, the side of her head, chest, and arm. Her medical record also shows that she was treated for an acute eardrum perforation to her left ear on August 4, 2017. On August 4, she went to suicide watch after she threatened to cut herself because she feared for her safety. She reported that after being in suicide watch, she was taken to an outside hospital where a rape kit test was completed.

Prisoner 4 reported that on August 28, 2017, ISU **Officer G** and **Officer H** interviewed her about the PREA allegation. She reported that Officer G said, "We are aware that she put her hands in your vagina to check for dope, *but you get your oil checked when you're in the game. Whoever hired her will hire somebody else to check your oil.*" It is wholly inappropriate for a PREA investigator to describe a sexual assault as "checking your oil." She also reports that Officer H yelled at her in the interview.

Prisoner 4 reported Officer G's comments to CDCR Ombudsman Sara Malone, and at Ms. Malone's suggestion filed a 602 reporting these allegations. She stated that she has not received a response. In addition, she has sent letters to her attorney, and she said that her attorney did not receive her correspondence.

4. Sexual Abuse

- a. Prisoner 5, DLT, Wilson-B, reported that **Officer I** flirts with people living in the building. In the late summer, he brought a woman living in the building gifts. Her first name was [REDACTED] and she has since paroled. Prisoner 5 reported that this woman was often in the officer's office with him and she often wore little clothing.
- b. One class member who wished to remain anonymous reported that **Officer J**, who works in Harrison, is in a relationship with the woman who cleans his office. This woman is reportedly allowed to remain out of her cell when everyone gets locked in, and is released for meals before others. She is reportedly allowed to keep contraband. Officer J is generally rude, curses at people, and withholds toilet paper.

5. Improper Removal or Destruction of Durable Medical Equipment

- a. **Prisoner 6**, DNH, Latham B, reported in an 1824 (log 17-01038) that her hearing aid was broken by staff during a cell search in June 2017. Her medical record confirms that it was broken, and includes the allegation that staff broke it.
- b. **Prisoner 7**, DPM, SCU, reported in an 1824 (log 17-00967) that on 7/21/17 custody staff took away her wheelchair with no explanation. The response, issued on 8/25/17, states that she was provided a replacement wheelchair on 8/1/17. There is no indication that possible staff misconduct was investigated. When we met with Prisoner 7, she explained that this was **Officer K** and the only explanation he gave was that he was told to take it away. The CO on the next shift gave her another person's wheelchair who was out to medical until staff gave Prisoner 7 a new wheelchair.

6. Failure to Protect

- a. **Prisoner 8**, DLT, Wilson-B, reported that in November 2017, she told **Officer L** that her property was stolen and he told her to "handle her business."
- b. **Prisoner 9**, DLT/DNH, reports that she was attacked by her cellmate on November 17, 2017 immediately after being locked in her cell. The cellmate reportedly hit her in the face with a lock, drawing blood. Ms. [REDACTED] banged on the door and shouted to get the attention of staff, but it took five minutes before an officer responded. Ms. [REDACTED] was taken to the clinic, and her medical record shows that she had multiple scratches on her face and arm.

To : Amy Miller
Associate Director
Female Offender Programs and
Services/Special Housing

Robert Herrick
Regional Health Care Executive
Region IV

Subject: **CALIFORNIA INSTITUTION FOR WOMEN RESPONSE TO THE ARMSTRONG MONITORING TOUR REPORT – DECEMBER 2017**

The purpose of this memorandum is to respond to the Prison Law Office (PLO) report generated as a result of the *Armstrong* Monitoring Tour (AMT), which took place at the California Institution for Women (CIW) in December 2017. The following documentation includes a combined response to the report from both the Institution and Health Care Services, and the request for information and supporting documentation requested by the PLO.

The response that follows has been organized to follow the format of the PLO report. The response and "Request for Information" provide information and rebuttal to some points raised in the PLO report. While it is recognized that there were some areas of concern raised in the report, CIW has made marked improvements by all staff to be in compliance with the *Armstrong* Remedial Plan (ARP) and departmental policy regarding the care and treatment of incarcerated inmate-patients who are identified as *Armstrong* class members.

**California Institution for Women
Armstrong Monitoring Tour
Report December 2017**

I. INTRODUCTION

Prison Law Office Staff Attorney Corene Kendrick, Litigation Assistant Molly Petchenik, and Investigator Amber Norris conducted a tour of California Institution for Women (CIW) on December 11-12, 2017, in order to monitor the prison's compliance with the *Armstrong* Remedial Plan (ARP), *Armstrong* court orders, and federal and state disability law. We thank ADA Associate Warden Thorpe and her staff for their assistance in facilitating our tour.

At the time of our visit CIW housed approximately 152 *Armstrong* class members. The information in this report is based upon interviews with class members, interviews with staff, a review of documents received during the monitoring period (November 2, 2016 - October 30, 2017), and review of some class-members' medical and central files. This report does not contain an exhaustive list of every class member who raised a disability-related concern.

Plaintiffs' counsel will separately provide Office of Legal Affairs with allegations of staff misconduct at the institution that we believe is negatively impacting the ability of vulnerable class members to request assistance with their disability.

II. PHYSICAL PLANT

Plaintiffs' counsel identified the following structural barriers or areas that needed repairs at the prison.

California Institution for Women
 Armstrong Monitoring Tour
 Report Response December 2017

Page 26

California Institution for Women *Armstrong* Monitoring Tour
 December 2017
 Reports of Allegations of Staff Misconduct

The Prison Law Office visited California Institution for Women (CIW) in December 2017 to evaluate compliance with the requirements of *Armstrong v. Brown* and the Americans with Disabilities Act. This report is separate from the main *Armstrong* report. This report documents what we learned about the current culture of retaliation and violence that has been documented in multiple past reports. See December 2016 CIW Report at 7.

Class members reported incidents of staff misconduct, including excessive use of force, sexual abuse, and failure to protect vulnerable and disabled people who are incarcerated at the prison. This report does not include all reports we received about staff misconduct at the prison. Instead, we provide illustrative examples where we could gather as many details as possible, including to the extent possible, confirmation from their medical records and central files. About half of the prisoners did not want us to use their names or stories out of fear that staff would retaliate against them. Of note, multiple class members reported that they had sent mail to the Prison Law Office and to others, but the PLO had no record of this correspondence. Class members again expressed concern that staff tampered with their legal mail.¹

I. Improper Removal or Destruction of Durable Medical Equipment

- a. **Prisoner 6, DNH, [REDACTED]** reported in an 1824 (log 17-01038) that her hearing aid was broken by staff during a cell search in June 2017. Her medical record confirms that it was broken, and includes the allegation that staff broke it.

Response: On June 13, 2017, CIW received a CDCR-22 Inmate/Parolee Request for Interview, Item or Service from Inmate [REDACTED] dated June 7, 2017. Inmate [REDACTED] alleged on June 6, 2017, Correctional Officer A. Morales broke her hearing aid during a search of her cell. Officer Morales responded back on June 20, 2017, stating all appliances were left in working order and only contraband was removed.

On June 29, 2017, the CIW Medical Appeals department received a CDCR-602 HC, Health Care Grievance from Inmate [REDACTED] which was partly converted to a CDCR 1824 Reasonable Accommodation Request (CIW-A-17-07038) for the repair/replacement of her hearing aid. The request was partially granted and Inmate [REDACTED] was scheduled to see the audiologist to determine the replacement or repair of her hearing aid. On August 8, 2017, Inmate [REDACTED]'s hearing aid was replaced and signed for on a DME receipt CDCR 7536. On August 21, 2017, the CIW, Medical Appeals department received an additional CDCR-0602 HC from Inmate [REDACTED] requesting refund of the \$595.00 she was charged to replace her hearing aid. The request was denied due to the fact there was no evidence to support her three year old hearing aid was damaged during the cell search. Additionally, on August 7, 2017, Inmate [REDACTED] signed a Trust Withdrawal Order for the hearing aid purchase in the amount of \$595.00. At no time

¹ See CDCR Department of Operations Manual Sec. 54010.12.1 (providing that CDCR prisoners may correspond confidentially with attorneys and legal services organizations, specifically mentioning the Prison Law Office by name). "Regulations and practices that unjustifiably obstruct the availability of professional representation or other aspects of the right of access to the courts are invalid." *Procunier v. Martinez*, 416 U.S. 396, 419 (1974), *overruled in part on other grounds by Thomburgh v. Abbott*, 490 U.S. 401 (1989). Legal mail systems are critical to an incarcerated person's constitutional rights to free speech, to legal counsel, and access to the courts. *Nordstrom v. Ryan*, 762 F.3d 903, 909 (9th Cir. 2014). Interference with their communications with attorneys also violates the lawyers' First Amendment rights, as these are communications in which "the interests of both parties are inextricably meshed." *Procunier*, 416 U.S. at 408-09

Report Response December 2017

Page 27

did Inmate [REDACTED] indicate she disagreed with the charge nor did she note the hearing aid was damaged by staff. On Wednesday, March 28, 2018, at approximately 1700 hours, an interview with Inmate [REDACTED] was conducted. During the interview Inmate [REDACTED] was not able to provide any additional information or witnesses to support her claim Correctional Officer A. Morales broke her hearing aid.

Based the interview with Inmate [REDACTED] and the lack of supporting evidence, it was not confirmed that Officer Morales broke Inmate [REDACTED]'s hearing aid during a cell search on June 6, 2017.

- b. **Prisoner 7**, DPM, SCU, reported in an 1824 (log 17-00967) that on 7/21/17, custody staff took away her wheelchair with no explanation. The response, issued on 8/25/17, states she was provided a replacement wheelchair on 8/1/17. There is no indication that possible staff misconduct was investigated. When we met with Prisoner 7, she explained that this was Officer K and the only explanation he gave was that he was told to take it away. The CO on the next shift gave her another person's wheelchair who was out to medical until staff gave Prisoner 7 a new wheelchair.

Response: Numerous attempts were made by Correctional Captain R. Montes to establish contact with Parolee [REDACTED] who is currently on active parole. Parolee [REDACTED] is unavailable for interview due to her current level of psychiatric care at UCLA Harbor Hospital. On March 23, 2018, at approximately 1300 hours, Parole Agent Robinson (Agent of the Day) was contacted and informed of the nature of the inquiry. Agent Robinson confirmed he provided Parolee [REDACTED] with the information to include Captain Montes' contact information. Parolee [REDACTED] never established contact with Captain Montes. On March 30, 2018, at approximately 1500 hours, Captain Montes contacted Parole Agent D. Alvarez as a follow up to the inquiry. Captain Montes informed Agent Alvarez of the nature of the inquiry and that he did not receive a call back from Parolee [REDACTED]. Agent Alvarez informed Captain Montes of Parolee [REDACTED]'s psychiatric admission and directed him to contact Dr. Shirty, Psychiatrist. At approximately 1515 hours, Captain Montes contacted Dr. Shirty and informed her of the nature of his call. Captain Montes asked Dr. Shirty if Parolee [REDACTED] was mentally stable to participate in an interview. Dr. Shirty informed him she could not share any information with him nor transfer Captain Montes to Parolee [REDACTED]. Dr. Shirty could only confirm Parolee [REDACTED] is currently hospitalized at her facility.

On March 26, 2018, a review of Officer T. Foster's Employee Work History was completed and confirmed he was assigned as the Support Care Unit Floor #2 Officer on the date of the allegation. At approximately 1032 hours, Captain Montes interviewed Officer Foster regarding the complaint. Officer Foster denies ever taking a wheelchair away from Parolee [REDACTED]. Officer Foster had no additional information relative to the allegation.

At this time CIW is unable to confirm the above allegation.

#MeToo Behind Bars: Records Shed Light on Sexual Abuse Inside State Women's Prisons

Nov 14, 2019

Former inmates protest sexual misconduct by California correctional officers outside state prison system headquarters in Sacramento on Oct. 30. *(Courtesy of the Young Women's Freedom Center)*

A state prison inmate incarcerated at the Central California Women's Facility was awaiting her group therapy session on Aug. 23, 2017. She stepped backward in her cell toward the door, where Correctional Officer Israel Trevino waited with waist restraints.

As he attached the chains, he reached down with both of his hands "to grope and fondle her buttocks," according to an internal investigation that led to Trevino's firing.

"Hey, what the fuck are you doing?" the inmate, whose name was redacted in reports, is quoted as saying.

'What does it mean to feel constantly harassed, where they think it's consensual and we think it's not but we can't ever say it?' Amika Mota, Formerly Incarcerated Advocate

"You have a big butt," Trevino replied.

This wasn't the only time Trevino sexually abused an inmate in his custody, according to the investigation's findings.

The former correctional officer — who was responsible for escorting inmates from their cells to their appointments and to the shower — tried to pull up a woman's shirt and put his hand down her pants on an unspecified date in 2017, investigators for the California Department of Corrections and Rehabilitation found.

That inmate said Trevino squeezed her buttocks over her clothing while escorting her and tried to get her to expose her breasts and vagina.

"Come on, show me something," he pressured her, according to the records.

Trevino was investigated after an inmate complained about the groping to her prison social worker, who reported the allegation.

Prison officials fired Trevino in 2018 for sexual misconduct. He had worked at the women's prison for over a decade and had been formally warned for making sexually harassing comments to inmates, according to records from the Office of the Inspector General for California prisons.

Attempts to reach Trevino for comment were unsuccessful.

Prison system spokeswoman Dana Simas responded in a written statement

that officials moved to protect incarcerated women when the 2017 allegations surfaced.

"Trevino was barred from entering the secured perimeter of the prison to prevent further inmate contact during the pendency of the investigation," Simas wrote.

The department fired at least six male correctional officers for sexually abusing women in their custody between 2014 and 2018, according to internal records released to KQED under a new state transparency law and court filings.

Some groped the inmates, while others engaged in oral sex or intercourse. The disciplinary records, which are still incomplete, provide a first-ever glimpse into how the prison system deals with sexual exploitation by its officers.

The names of the women involved are redacted in the records, and two named witnesses did not respond to requests for interviews.

While the number of dismissals for sexual misconduct is extremely rare among the roughly 26,000 correctional officers who work at California prisons, inmate advocates say sexual abuse by staff is more rampant than the records show because few officers get reported or investigated.

Amika Mota is trying to change that. She spent most of a nine-year prison sentence for vehicular manslaughter at the Central California Women's Facility in Chowchilla, north of Fresno in the Central Valley. She said she and other incarcerated women put up with sexual advances because they depended on correctional officers for access to clean laundry, phone calls, tampons, time out of their cell and other basic needs.

"There's not a bone in my body that

Amika Mota on picture day in 2011 at the Central

California Women's Facility. (Courtesy of Amika Mota)

ever felt attracted to any of these

officers or felt like any of the words we spoke were true," Mota said. "It was just this survival technique to play along."

Officers can also write up inmates, which can result in extending a prison sentence.

One officer in her housing unit, who Mota declined to name, demanded that she write sexually explicit letters to him. She also described an officer who expected to see women without their clothes on.

"He would be really appreciative if during count we were in our bras," she said.

Mota said she never reported any harassment, fearing retaliation.

She joined the Bay Area-based Young Women's Freedom Center after she was released in 2015. She's now part of a new movement called Me Too Behind Bars, working to expose sexual abuse of people in prison and jail.

"What does it mean to feel constantly harassed, where they think it's consensual and we think it's not but we can't ever say it?" Mota said.

The state's inmate population includes nearly 5,000 women, about 4% of the 124,000 prisoners in the system.

State prison officials say they have been trying to improve conditions for female inmates in recent years, including enforcing a zero tolerance policy for sexual misconduct.

"All sexual violence, staff sexual misconduct, and sexual harassment is strictly prohibited," prisons spokeswoman Simas wrote in an Oct. 11 email.

The state prison system also investigates and tracks all allegations of sexual assault and harassment by staff, including correctional officers, to comply with

the federal Prison Rape Elimination Act. In 2018, 337 staff-on-inmate incidents were reported in California prisons.

Investigations substantiated just three of those allegations.

(Kelly Heigert/KQED)

Independent probes into the culture in women's lockups have found that these formally reported allegations likely capture only a fraction of the abuse and harassment of incarcerated women by prison staff.

The Prison Law Office, which monitors conditions for inmates as part of a settlement in a decades-old federal class action lawsuit, has interviewed hundreds of women at the Central Valley prison and documented their complaints for the court.

The firm [reported in 2016](#) that out of a random sample of 80 women, nearly all had experienced sexual abuse or harassment while incarcerated. A second round of interviews turned up similar complaints, often at the hands of the same officers. The firm faulted a culture of bigotry and sexism at the prison.

"It was a constant stream of verbal sexual harassment or misogynist statements," attorney Corene Kendrick said, "kind of cat-calling at its highest level."

A lot of women complained the prison officers constantly addressed them as "bitches" or "hos," Kendrick said. "When they'd make the announcements on the PA system, you know, it'd be 'Hey bitches, time to go to lunch.' "

Amika Mota poses for a portrait at her home in the San Francisco Bay Area on Sept. 26, holding a framed collage of her 'prison family.' (Julie Small/KQED)

Sexual abuse of female prisoners isn't confined to a single facility, records obtained by KQED revealed. Four correctional officers in the state's other major women's prison — in Southern California — were also fired in recent years for sexual misconduct.

In 2017 alone, three officers at the California Institution for Women in San Bernardino County had sexual contact with inmates in or near their housing units.

Officer Robert Darrow was working an overtime shift in a housing unit on May 12, 2017, when he pulled one of the women responsible for cleaning and mopping the dorm into a broom closet, according to a transcript of a preliminary hearing in a criminal case against him.

"She said that he entered in behind her," an investigator testified. "She was facing away from him. He closed the door. And then he bent her over, pulled her sweatpants down — she didn't have any underwear — and then he moved his head down and orally copulated her."

The encounter lasted only three minutes, according to the testimony, because Darrow heard a noise outside the closet and stopped.

In that same month, Officer Tony Garcia sent all the women in a housing unit to breakfast, but one. The woman performed oral sex on him in her cell. He ejaculated on her nightgown, which the woman hid and later turned over to internal affairs. Investigators tested the semen on the nightgown and confirmed it belonged to Garcia.

A third case involved Officer Stephen Merrill entering the cell of two female inmates at 3:30 a.m. on Oct. 30, 2017, and groping them.

An investigation found, "As inmate [REDACTED] stood by the door facing the inside of the cell, she bent over and you inserted your right hand from behind her into her underwear. You grabbed her buttocks. After removing your hand from her underwear, you tasted your fingers by placing them into your mouth."

The other inmate then faced the inside of the cell and bent over. Merrill reportedly also groped her from behind.

The disciplinary decision released by prison officials doesn't provide further

Under state and federal statutes, inmates cannot consent to sex with prison guards. Sustained findings of sexual misconduct by a correctional officer will result in dismissal, according to prison policies, and can be grounds for criminal prosecution. All three correctional officers at the Southern California women's prison were fired and charged with felony sex crimes. Attorneys representing them did not return requests for comment.

Merrill and Garcia took plea deals, according to court records. Garcia served two days in jail and was placed on probation. Merrill's two-year prison sentence was suspended as he completes three years of probation. He was also sentenced to less than a year of county jail time, eligible for work and weekend release.

Prosecutors in the case against Darrow argued he had "a history of being investigated for sexual activity with inmates," according to a preliminary hearing transcript in the case. But the San Bernardino County district attorney suddenly dropped the charges against him in March of this year. Deputy DA Lisa Mann, who prosecuted the case, declined to answer any questions.

Some officers are never even charged, though.

In Israel Trevino's case from the Central Valley prison, it took officials eight months to dismiss him for sexually abusing inmates. He was fired in April 2018.

Prison officials never referred Trevino for criminal charges — due to insufficient evidence, according to a spokeswoman. That's despite investigators' findings that he repeatedly groped women in his custody.

"The Central Region Criminal Investigation team, after a full review of the material, recommended the case instead be opened as an administrative investigation," spokeswoman Simas wrote.

The Office of Inspector General for California prisons monitors all

investigations of sexual assault and harassment by officers and issues public reports.

'Our power is to write about it and to bring transparency to the public because otherwise nobody knows what happens in these things.'*Roy Wesley, Inspector General for California Prisons*

In Trevino's case, the Office of the Inspector General noted several deficiencies in the prison's investigation. A prison investigator

"scheduled case conferences and critical witness interviews for when he knew the OIG would not be available, and only cooperated after the OIG elevated the issue to his supervisor," according to a 2018 inspector general's discipline monitoring report.

The office's case review also faulted the investigation for failing to substantiate that Trevino was dishonest "when he denied that he made inappropriate, derogatory and sexually harassing comments to inmates."

"We have no authority to tell the department, 'You have to do what we think you should do,' " said Inspector General Roy Wesley. "Our power is to write about it and to bring transparency to the public because otherwise nobody knows what happens in these things."

Inmate advocates would like California to create another oversight body with more teeth.

They also agree with the Prison Law Office's recommendation that CDCR hire mostly female correctional officers to work inside the women's housing units.

All of the male officers fired for sexual misconduct inside California women's prisons in recent years had access to areas of the housing units where women are changing. Federal law mandates that male officers announce their presence upon entering those areas, but otherwise does not restrict their presence.

Attorneys with the Prison Law Office think prison officials could prevent a lot of abuse by cutting off that access.

"Washington Department of Corrections at one of their women's prisons made it a requirement that only women apply for certain positions working inside the housing units where the women live, sleep and bathe," said Prison Law Office attorney Kendrick.

The California prison system has been moving in that direction, according to spokeswoman Simas. A greater percentage of jobs in housing units are designated for female officers only, and the prison system is pushing to recruit more women.

Currently, women make up roughly a third of officers at the two main female prisons in the state.

Mota is still working to turn her experience in prison into an instrument for change. Thinking about the years she was scrutinized and objectified in prison by officers who considered her "their girl" makes her anxious and shaky.

"It's not the rules, or the regulations, it's the culture," Mota said. "How do you deeply affect this culture that's existed for so long where it's 'normal' and 'OK' to do this shit in prison?"

This story was produced by the California Reporting Project, a coalition of 40

news organizations across the state. The project was formed to request and report on previously secret records of police misconduct and use of force in California.

Exhibit 50

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation ("CDCR")
6 number is [REDACTED]. I am currently housed at California Medical Facility, in Vacaville
7 ("CMF"), on facility G in building 3. I am 55 years-old. I have been housed at CMF off
8 and on since 2018.

9 3. I am a *Coleman* class member. I am at the EOP level of care. I have been
10 diagnosed with severe depression. I currently do not take any mental health medications.

11 4. I am an *Armstrong* class member. I am legally blind and have been for over
12 thirty years. I currently wear a visual impairment vest. I also have mobility disabilities; I
13 use a wheelchair. My current DPP codes are DPW and DPV.

14 5. I have stage IV throat cancer. I also suffered a head injury and a torn rotator
15 cuff during the December 19, 2019 staff misconduct incident I describe below. I am
16 classified as high-risk medical.

17 6. On December 19, 2019, I got into a fight with another incarcerated person.
18 To break up the fight, Officer Caster-John pepper-sprayed me in the face. I fell to the
19 ground, with my eyes burning. When I was on the ground, Officer Caster-John turned me
20 onto my stomach and handcuffed me behind my back. He then picked me up roughly
21 using the handcuffs. When he picked me up, he tore the rotator cuff in my left shoulder.
22 This injury was later diagnosed by doctors at an outside medical facility.

23 7. After Officer Caster-John picked me up, he led me to the shower area in the
24 L3 housing unit to decontaminate me from the pepper spray. Officer Caster-John turned
25 on the water in the shower, but then jumped backward immediately so as not to get wet.
26 When he jumped backward, Officer Caster-John still was holding my handcuffs. His
27 motion caused me to fall over backward. I hit the back of my head hard on the shower
28 pole. I blacked out. Other individuals who witnessed the incident told me that I was

1 unconscious for approximately two minutes.

2 8. After December 19, 2019 but before December 31, 2019, I filed a staff
3 complaint of excessive force on Officer Caster-John using a green 602 form.

4 9. On December 31, 2019, Officer Evans walked into my cell and threatened
5 me. When he entered the cell, I was in the process of undressing because I had urinated on
6 myself. I was naked except for my shirt – I was in the process of taking my shirt off.
7 Officer Evans called me “faggot” and told me to drop the appeal I had filed against Officer
8 Caster-John. He said that if I didn’t drop my excessive force complaint and appeal he
9 would shove his baton up my rectum. I was scared and told Officer Evans that I didn’t
10 want any trouble. Officer Evans then took his baton and started striking the side of my bed
11 in a threatening way. After he hit the bed approximately 3 times, Officer Evans struck me
12 hard in the lower part of my right leg with his baton. I asked Officer Evans to call the
13 sergeant so I could speak with him, but Officer Evans refused. His eyes were bloodshot
14 and he seemed to be inebriated. He then walked out of the cell without saying anything
15 else.

16 10. The next day, January 1, 2020, I spoke to Sergeant Chernis and reported
17 what Officer Evans had done to me. On multiple occasions, I also reported the incident
18 with Officer Evans and its impacts on my mental health to mental health staff.

19 ///

20 ///

21 ///

22 ///

23 ///

24 ///

25 ///

26 ///

27 ///

28 ///

1 11. As a result of Officer Evans assaulting and retaliating against me, I feel more
2 paranoid about custody staff. I am concerned when custody officers look at me. At times
3 I have refused necessary medical treatment because I was so scared that I would have to
4 interact with certain custody officers. I continue to feel very unsafe at CMF and have been
5 requesting for some time to be transferred out of the institution. I also feel very unsafe
6 coming out of my cell.

7 I declare under penalty of perjury under the laws of the United States of America
8 that the foregoing is true and correct, and that this declaration is executed at Vacaville,
9 California this 2nd day of September, 2020.

10
11 /s/ [REDACTED]
12 [REDACTED]

13 On September 2, 2020, due to the closure of CMF in light of the COVID-19
14 pandemic and ongoing concerns that officers might retaliate against witnesses in support of
15 Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail
16 system, I read the contents of this declaration, verbatim, to [REDACTED] by
17 telephone. Mr. [REDACTED] orally confirmed that the contents of the declaration were true
18 and correct. Mr. [REDACTED] also orally granted me permission to affix his signature to the
19 declaration and to file the declaration in this matter.

Exhibit 51

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California Medical Facility ("CMF") in the P Building, Unit 3, an inpatient mental health unit in CDCR. I am 23 years old.

3. I am a *Coleman* class member. I suffer from anxiety, depression, and psychosis. I often feel sad and hopeless, and also have periods, about twice a week for a few hours at a time, when I hallucinate and hear voices talking to me. I also become agitated at times, and when I become agitated, I shake, twitch, and feel angry. I am at the intermediate ("ICF") level of care, which is intensive, inpatient mental health treatment. There are two levels of longer-term inpatient mental health treatment: ICF and Acute. Acute is a higher level of care, and ICF is the step below it. People such as myself are admitted to these programs for inpatient psychiatric hospitalization, and the programs are meant to work like a psychiatric hospital within CDCR. I was admitted to the Acute program at CMF in early November 2019, and was in that program for about two months before being discharged to the ICF level of care, where I have been since early January 2020. I have been referred to the mental health crisis bed ("MHCB"), a short-term program for mental health crises, multiple times, when I have attempted to kill myself or expressed a desire and plan to kill myself. I was admitted to the Acute program in November 2019 after first being admitted to the MHCB at California Men's Colony because I was feeling suicidal and wanted to hang or cut myself to end my life.

4. I have been housed at CMF since November 15, 2019.

5. During my time at CMF, I have been housed in Q Building, Unit 2; P Building, Unit 2; Q Building, Unit 3; and P Building, Unit 3. All of those units house inpatient mental health patients.

1 6. Staff at CMF abused me three times in a single week in November 2019.

2 7. On November 22, 2019, I was taking a shower in Q-2, the unit I lived in at
3 the time. I was on single shower status at the time, meaning I showered alone and others
4 were not allowed to shower at the same time as me. When I exited the shower I was
5 handcuffed by another officer whose named I do not remember and I was in a smock.
6 Medical Technical Assistant (“MTA”) Cudjoe was also standing outside of the shower.
7 MTAs are custody staff in inpatient mental health units that are trained to administer
8 medications and do a few other things that regular custody staff cannot do. As I walked
9 past him, he went to search me without asking me. Whenever I have showered in the past,
10 if I have a smock and am on solo shower status they do not search me. I did not agree at
11 any point to the search but he went ahead and searched me anyways. During the search, he
12 touched my buttocks. I asked him “what’s your problem?” He didn’t respond to me. He
13 and the other officer then took me back to my cell in Q-2. I felt extremely violated by him
14 touching me. The same day, I was moved out of Q-2 to P-2. They did not tell me why I
15 was moved, but I believe it was because someone I had a fight with at a past prison moved
16 onto the same unit as me. They decided to move me out of the unit even though me and
17 this other person had signed a marriage chrono, which is basically an agreement that we
18 could house on the same unit together and did not have to be separated moving forward.

19 8. I filed a Prison Rape Elimination Act (“PREA”) Complaint against MTA
20 Cudjoe the day after he touched my buttocks. I had two interviews with staff members
21 from the CMF Investigative Services Unit (“ISU”). The first interview was performed by
22 Sergeant Ledesmas on the day that I filed the complaint, on November 23, 2019, and the
23 second interview was done by Officer Thomas on November 27, 2019. In both of these
24 interviews, the Officer and Sergeant did not seem to care at all. They each wrote my
25 version of the story down. However, neither of them seemed to believe me because they
26 kept calling my story “allegations.” In the interviews, they each wrote my report down and
27 left, and did not ask me further questions. Each interview was about 10 minutes long.

1 9. After my interview on November 27, 2019, I received a sheet of paper
2 stating that what MTA Cudjoe did to me was not against departmental policy, no PREA
3 investigation was warranted, and the CMF ISU was considering the investigation into this
4 incident closed. I did not pursue any further complaints regarding the PREA incident after
5 this.

6 10. PREA complaints are supposed to be confidential in that only the person
7 accused, the victim, and the investigating staff are supposed to know about the complaint.
8 However, shortly after I filed my complaint against MTA Cudjoe, I became aware that other
9 MTAs that work in the Acute program knew about my PREA complaint. One MTA told me
10 that he had heard what happened with my PREA complaint, even though he was not
11 involved in the incident. Other MTAs did not directly tell me they knew about my PREA
12 complaint, but it seemed like they knew something about the PREA report, because they
13 started acting differently towards me. They were giving me hostile looks they did not give
14 before the complaint, and generally seemed more suspicious of me.

15 11. MTA Cudjoe continued to harass me after learning about the complaint. He
16 came by the door one morning shortly after I filed the complaint, and hit the door of my cell
17 with his keys, which I interpreted as a threatening gesture, and said, "I'm gonna fuck you
18 up." He also came by my cell on the same day I reported the incident and said, "you got
19 what's coming for you." He would say these threats in front of the other MTAs, and they
20 would not do anything about them and just ignored them. Both times he threatened me, I
21 asked the other MTAs to call the Sergeant so that I could report these threats, but they did
22 not call him for me or otherwise intervene.

23 12. On Tuesday, November 26, 2019, I was sitting in my cell in P-2. MTA
24 Cudjoe came by my cell and yelled, "This is my fucking unit, you don't run shit here." I did
25 not reply to him. He then said, "Fuck your mom, I'm not gonna do shit." I then called him
26 a "bitch" because I was very upset that he had insulted my family. Suddenly, he opened the
27 door to my cell. MTA Cudjoe entered my cell and pushed me in the chest with
28

1 his left hand, causing me to fall backward. After pushing me, he left my cell and shut the
2 door. He called me a “bitch” and said he wasn’t going to “do shit.” MTA Cariaga
3 witnessed this incident, but did nothing to intervene. MTA Holloway, the officer in charge
4 of the MTAs, came to my cell to talk to me after the incident, and I reported my side of the
5 story to him. He pulled me out for an interview the next day about the incident. Neither of
6 these interviews were videotaped use of force interviews. He made me feel like he was
7 taking MTA Cudjoe’s side, and told me that staff can put their hands on me whenever they
8 want. I never received a videotaped use of force interview for this incident.

9 13. A few days later, on Friday, November 29, 2019, I was exiting the showers
10 again. MTA Harrison handcuffed me behind my back. I was back in my clothes after
11 showering. After the handcuffs were applied, MTA Cudjoe, who was sitting in his chair
12 about three feet away from the entrance to the showers, got up out of his seat and rushed
13 towards me without saying anything to me. He rushed at me and was reaching out his
14 arms to grab the upper part of my body. MTA Harrison’s was between us, so MTA
15 Cudjoe could not reach me initially. MTA Harrison suddenly stepped back from me,
16 allowing MTA Cudjoe to attack me. MTA Cudjoe grabbed my neck with both of his
17 hands and choked me. He then slammed my head repeatedly against the wall near the
18 showers. He was choking me so hard I was struggling to breathe. MTA Harrison told
19 MTA Cudjoe to let me go, but MTA Cudjoe kept choking me. Then MTA Harrison joined
20 into the assault and they both grabbed one side of my body and threw me to the ground
21 face first by shoving me and punching me. I did not and could not resist because I was
22 handcuffed behind my back. Ultimately, they both threw me to the ground and I landed on
23 my stomach. I could not brace myself from the fall because I was handcuffed behind my
24 back. MTA Harrison drove his knee into my back while MTA Cudjoe grabbed my head
25 and slammed my face into the concrete at least five times. Eventually, someone sounded
26 the alarm. When the alarm went off, about five or six other officers joined MTA Cudjoe
27 and MTA Harrison. When these officers got there, MTA Cudjoe and Harrison were
28

1 finishing assaulting me. The five or six officers who came onto the scene did not join in on
2 the assault, and shortly after they arrived, Harrison and Cudjoe stopped assaulting me. The
3 entire assault lasted about two minutes.

4 14. Officer Harrison and another officer, whose name I do not know, picked me
5 up off the ground and escorted me to the dayroom. When I got to the dayroom, I sat down
6 at one of the tables in the dayroom and a sergeant whose name I do not know read me my
7 Miranda Rights. I told him I wanted to talk to an attorney. I said I had nothing to say to
8 him before talking to an attorney, but he continued questioning me about the assault.

9 15. While I was in the dayroom, a nurse came in and evaluated my injuries and
10 documented them on a 7219 form. I told the nurse that I was attacked by officers. She
11 documented that I had cuts and bruises on my face and on the side and back of my neck.

12 16. Another nurse and tried to give me medications, including Benadryl and
13 Thorazine. I told the nurse and officers there, whose names I did not know, that I did not
14 want medications. They said they were required to give the medication to me because they
15 had been ordered by one of the doctors. The nurse gave me five injections of medication
16 into different parts of my body. I started to feel sedated and sleepy. I continued to refuse
17 to speak to the officers and asked for an attorney. Staff refused my request. At some point,
18 the officers performed an interview with me. I was so sedated by the time I was
19 interviewed that I do not remember them performing the interview and do not know who
20 performed the interview. A sergeant whose name I did not know told me later that day,
21 when I was less sedated, that I had been interviewed. I only found out I was interviewed
22 after the medications wore off. They did not tell me if I had said anything during the
23 interview, they just said that I was interviewed.

24 17. I believe that I was verbally harassed and ultimately attacked by MTA
25 Cudjoe for reporting him under PREA, and because he is generally a bad officer. Before I
26 reported him under PREA, he had told me, "I run this fucking unit." He had never
27
28

1 assaulted me but definitely had scared me. After he grabbed my buttocks and I reported
2 him, he grew increasingly angry and volatile towards me.

3 18. On November 29, 2019, I received a Rules Violation Report (“RVR”) for
4 “battery on a peace officer,” and was moved to the administrative segregation unit
5 (“ASU”). The RVR states that as I was exiting the shower I started cursing at MTA
6 Cudjoe, and then rushed at him. MTA Harrison claims that he tried to stop me and that I
7 pushed through him. The report also says I continued to resist even when I was on the
8 floor. Both MTA Harrison’s and MTA Cudjoe’s reports say that they each did not see the
9 type of force the other used on me. Both of the officers lied in their reports. I did not rush
10 at MTA Cudjoe or threaten him or MTA Harrison in any way. MTA Cudjoe attacked me
11 and MTA Harrison joined in.

12 19. I have postponed the RVR hearing pending the referral to the District
13 Attorney. My case has been referred to the DA and the DA has decided to take the case. I
14 am scheduled to go to court to fight the battery on a peace officer charge on August 6,
15 2020.

16 20. I was made maximum custody, which is a very punitive custody designation
17 for those that have committed serious and sometimes violent rules violations. Maximum
18 custody status is the inpatient version of segregation—meaning that if I was not in
19 psychiatric hospital, I would be in administrative segregation or a segregated housing unit.
20 Those on maximum custody cannot go to groups with other patients or meetings with a
21 clinician without being in restrained in a cage. Class members on maximum custody status
22 receive very little out-of-cell time overall, including not only for mental health treatment
23 but also yard and dayroom. Being on maximum custody made my mental health worse by
24 isolating me from my clinician and other patients.

25 21. I filed a 602 about this assault about two days after the assault. I submitted
26 my appeal through the third and final of level of review, and it was denied at all three
27 levels.

1 22. I was never interviewed by the CMF ISU about this assault or the other time
2 that MTA Cudjoe assaulted me. They only interviewed me for the PREA incident.

3 23. These assaults that I have experienced have made me feel very angry
4 because I was innocent and staff came after me. I also have felt very afraid after these
5 incidents and fear for my safety around staff. I am also worried about my falsified RVR
6 and possibly getting a lot more time on my sentence. I am also worried about spending a
7 long time on maximum custody and in segregation. I was already struggling at the time of
8 the assault and was just starting to make some progress with intensive inpatient treatment.
9 After the assault, I slipped again and my mental health got a lot worse. After the assault, I
10 felt more sad and miserable and my episodes with my voices increased in frequency a bit.

11 24. I still had to interact with the officers that were involved in the staff
12 misconduct against me when I was in P-2 and Q-2. I still regularly saw MTA Cudjoe and
13 MTA Harrison in those units, as well as other MTAs who did not assault me but failed to
14 protect me. The inpatient program at CMF is relatively small and the MTAs work in
15 almost all the program buildings. However, now that I am in P-3 I do not see them as
16 much because they do not work in my current building. After the assaults, I requested a
17 staff separation from MTA Cudjoe and MTA Harrison while at an Institutional
18 Classification Committee ("ICC") meeting, a meeting in which housing and other custody-
19 related decisions are made. At the meeting, the warden told me he would not grant the
20 staff separation, so it is possible they could move me back onto a unit where MTA Cudjoe
21 works.

22 25. In my time at CMF, there have been a few times that I needed help but didn't
23 ask for it because I was afraid of what would happen to me. I am afraid to ask for certain
24 things that should normally be easy to ask for, such as my mail because I am afraid that
25 staff will not help me because they know about the complaints I have filed against their
26 fellow staff members.

1 26. At the time of the assaults, I was already receiving the highest level of
2 mental health care in CDCR. I was hoping to get better in that program. The abuse from
3 by MTA Cudjoe, MTA Harrison, and other staff has my mental health worse. After the
4 incident, I felt like I wanted to hurt myself but did not end up trying to hurt myself. My
5 suicidal ideation has decreased recently but I still struggle with periodic suicidal thoughts.

6 27. In my opinion, staff select mentally ill prisoners to abuse. The unit I was in
7 at the time I experienced these assaults, as well as the unit I am currently in, are inpatient
8 mental health units. The people who work here work exclusively with the most mentally
9 ill prisoners in CDCR. It is makes no sense to me that these staff members who should be
10 making the unit feel like a hospital where people can receive intensive mental health care
11 are instead assaulting people. I believe that certain staff in the CMF inpatient mental
12 health units feel they can assault people because mentally ill prisoners housed in these
13 units cannot defend themselves because. I believe that if I and other mentally ill prisoners
14 try to report staff abuse, they will turn it around and try to say that they got attacked, even
15 if the patient did nothing. No one believed me when I told them these officers assaulted
16 me. I believe they think I am making it up because I am mentally ill. It is upsetting that
17 staff that were supposed to protect me and help me receive treatment for my mental illness
18 assaulted me without any consequences for them.

Exhibit 52

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at Correctional Training Facility ("CTF") on Facility C in Building C-Wing. I am 65 years old.

3. I am an *Armstrong* class member. I have a mobility disability, and I am designated as DNM. I have lifting restrictions and a special cuffing chrono, a bottom bunk chrono, and I need to be transported in a special van with a lift due to my difficulty climbing stairs. I have a number of assistive devices that I use to help me get around. I have a cane, back and wrist braces, orthopedic shoes, foot orthoses, and a mobility impaired vest to indicate to staff that I have a mobility disability. I also have a machine to reduce my lower back pain, which I keep in my cell.

4. I have a number of serious medical conditions. I suffer from cervical radiculitis, GERD (gastroesophageal reflux disease), hypertension, idiopathic progressive polyneuropathy, leukocytoclastic vasculitis, lumbar spondylosis, and NSAID-associated gastropathy. My doctor told me that I am at high risk for serious illness from coronavirus due to my heart condition.

5. I have been housed at CTF since April 2016.

6. During my time at CTF, I have been housed in Facility C, in the following wings: C-wing, D-wing, F-wing, G-Wing, X-wing, Z-wing.

7. Recently, I witnessed staff misconduct during a raid.

8. On July 20, 2020, at about 3:30 am, I was asleep in my cell in Facility C, G-wing, when I woke up to the sound of boot steps going up stairs. At nighttime, we sleep with the building lights dimmed, but when I woke up the lights were totally out. I looked out the window of my cell and saw officers with helmets and lights. They were walking quickly right behind each other. They were on each of the three tiers of the building, going

1 to particular cells. They looked like they knew where they were going. I could see that
2 their nametags were covered and that some of them were not wearing masks.

3 9. They began taking Black people out of their cells. I heard officers use the N-
4 word, as they yelled, "Don't talk. Shut up." In about five to ten minutes, they moved about
5 ten to fifteen people out of my building.

6 10. I learned later that these officers were from the Office of Security of
7 Corrections, which is what they wrote on the property receipts they gave individuals whose
8 cells were searched. I saw these property receipts because I helped individuals file 602
9 staff complaints about the raid.

10 11. Several officers remained in the building after the raid. They turned the
11 lights back on and packed up the property of the individuals who had been taken out of the
12 building.

13 12. About five hours later, all of the individuals who had been taken out of G-
14 wing at 3:30 a.m. came back. I spoke to some of these individuals and they told me they
15 had been kept in the dining hall in zip ties, without masks, and some without clothes, for
16 approximately 5 hours.

17 13. Two or three days later, I heard the officers call for those people to pick up
18 their property. This means they had been without their property for two to three days.

19 14. About five days after the incident, I helped two individuals file 602 staff
20 complaints about their injuries from the raid.

21 15. According to an article I read in the San Francisco Bay View, the raid
22 targeted alleged gang members. I think this is a lie, because the two individuals whom I
23 helped are not gang members.

24 16. While the raid was happening, I was scared that they would come get me. I
25 frequently submit 602 staff complaints, and I worried that I would be targeted in
26 retaliation. I feared that the officers would injure me physically or send another
27 incarcerated person to beat me up.

1 17. I was also a victim of staff misconduct at CTF. I believe I was moved to a
2 new housing area in retaliation for 602 staff complaints I have written.

3 18. On July 11, 2020, I wrote a staff complaint against Officer R. Garcia for not
4 wearing a mask. On July 17, 2020, Officer Garcia confronted me in the dayroom, in front
5 of approximately 30 incarcerated people, about the complaint. He said, "[REDACTED], before
6 you write me up, you have to write up him, him, him, and him," pointing his finger at
7 several incarcerated people who were not wearing masks.

8 19. On July 23, 2020, I went to the medical area for Facility C. I asked Officers
9 G. Campbell and I. Flores, who were in the medical building, to wear masks. Officer
10 Flores put his on, but took it off about 30 seconds later. Officer Campbell refused.

11 20. I told medical staff I was leaving because the officers refused to wear their
12 masks. I signed a refusal form and went back to my housing unit where I submitted a 602
13 staff complaint. Because I am especially vulnerable to serious illness from COVID-19, I
14 take precautions very seriously. I do not want to get sick and die because of these officers.

15 21. On or around August 14, 2020, I asked Officer Garcia why our programs
16 were restricted even though we were not in COVID-19 quarantine. He ignored me and
17 then said, "Don't talk to me about that." He then told me that I would be moved if I filed
18 more staff complaints.

19 22. On August 27, 2020, Officer Garcia told me I would be moving to C-wing
20 that day. I knew C-wing was under quarantine from a Program Status Report from the
21 Warden of CTF issued on or around August 14, 2020. My housing unit at the time, G-
22 wing, was not under quarantine, and I wondered why they were moving me, as a high-risk
23 medical patient, to a unit where individuals may have coronavirus.

24 23. Officer Garcia told me, "I told you if you write me up again, I would move
25 you out of the unit. I hope you catch COVID-19." Based on this conversation, I believe I
26 was moved intentionally to a unit where I could be exposed to COVID-19 in retaliation for
27 my staff complaints.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Soledad, California this 3rd day of September, 2020.

DATED: September 3, 2020

Subject: request for investigation

Dear Ralph and Connie,

We write with some alarm after receiving multiple first-hand reports about an event that took place the early morning of July 20 at CTF. From these remarkably consistent accounts, here is what we are told happened:

At approximately 3 or 4 a.m. the morning of July 20, dozens of Black people housed in CTF were roughly pulled from their cells, placed in flexicuffs/zip ties with their arms behind their backs, and brought to the dining hall. They were not allowed to bring face masks. Various people said that the staff performing these acts were wearing "riot gear" (helmets and face guards) and one person said they had no name tags.

Several people said they were beaten on the way to the dining hall, despite being restrained. Many were wearing only boxer shorts, with no shoes or socks. Several people estimated there were 100 or more people gathered there. They were seated very close together and were not allowed to put on face masks. Staff were also unmasked. They remained there, cuffed behind the back, for at least four hours. Some said they were cuffed tightly, causing pain and numbness in wrists and hands. Some said the length of time caused shoulder pain. Some said they heard staff use racial slurs and taunts such as "Black lives don't f---g matter" and "We don't care if you n---s catch coronavirus." They were not allowed to use the toilet. After some hours, they were taken one by one for questioning about Black Lives Matter and gang affiliations.

On returning to their cells, some said they found them in disarray, with personal items such as family photographs, books and artwork missing or destroyed. Some said they were subsequently validated as gang members despite no gang involvement and based on old information (facts of crime many years before, photographs many years old, etc.).

If these remarkably consistent accounts are true, they tell an extraordinarily disturbing story of excessive force, racist statements, and violations of health rules that put all of their lives at risk. We demand a full formal investigation of this matter by CDCR's Office of Internal Affairs, including whether (a) any excessive force was used or inappropriate restraints, (b) any racist slurs or statements were uttered, (c) there was justification for First Watch action with so many people for such a long period of time, (d) property was inappropriately destroyed or taken, (e) the interrogations involved matters properly under review (Black Lives Matter is not a criminal enterprise), and (f) any subsequent gang validations were supported by concrete, reliable evidence.

Please inform us of any actions you have already taken or intend to take to investigate these allegations. I would appreciate a thorough response to these very serious allegations.

--Sara

Exhibit 54

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at Kern Valley State Prison ("KVSP") on Facility C in Building 1. I am 49 years old.

3. I am an *Armstrong* class member. I am designated as DNH, which means I have a hearing disability that does not require a special housing placement. I cannot hear from my left ear and have to use a hearing aid in order to hear out of that ear. I also am losing hearing in my right ear. I have tried to get CDCR to document my hearing issues in both ears, but they have not documented my hearing loss in my right ear. I also wear a hearing disability vest signaling that I am hard of hearing. I am also designated as DNM, which is the code for a mobility impairment that does not require special placement or limit the person's use of stairs. I wear a mobility disability vest. I also have a lower bunk chrono because I cannot climb to a top bunk due to my mobility impairment. Because of my mobility impairment, it is painful for me to walk without assistance for stretches of time. I also have balance issues because of my hearing loss in my left ear. I need a cane to get around, but medical staff at KVSP took my cane on October 24, 2019, so I have been having to get around without it since.

4. I also have a vision impairment in my left eye and wear eyeglasses. I had surgery to remove a brain tumor a number of years ago. The removal of my tumor injured my left facial nerve, which caused left facial palsy, or drooping of the left side of my face. The nerve damage also caused glaucoma and optic atrophy that impacts the vision in my left eye. Surgeons have repeatedly tried to give me a corneal transplant to improve my vision in my left eye, but it has not worked. I have some vision in my right eye, but according to my doctors, my left eye likely will continue to get worse. I do not have a DPP code to indicate my vision impairment. I have requested to be classified with one so

1 that I can receive accommodations for my vision, but medical staff at KVSP have refused
2 to acknowledge and treat the issues with my vision.

3 5. I am a *Coleman* class member. I am at the Correctional Clinical Case
4 Management System (“CCCMS”) level of care, the lowest level of mental health care. At
5 CCCMS, I am able to live and program on mainline CDCR yards, alongside incarcerated
6 individuals who do not have a mental health condition. I suffer from anxiety. I
7 participate in the Mental Health Services Delivery System (“MHSDS”) in order to cope
8 with being in prison. I have been to the Mental Health Crisis Bed (“MHCB”) multiple
9 times, usually when I am feeling unsafe and hopeless. A MHCB is a short-term intensive
10 care unit for people experiencing severe mental health crises.

11 6. I have been housed at KVSP from October 10, 2018 to now.

12 7. During my time at KVSP, I have been housed in the following locations:
13 C-Yard, Building 7; C-Yard, Building 6; C Yard, Building 2; C Yard, Building 4; C Yard,
14 Building 1; D Yard, Building 5; D Yard, Building 6; D Yard Building 3; the
15 Administrative Segregation Unit (“ASU”), and the MHCB.

16 8. I was a victim of staff misconduct at KVSP.

17 9. On July 22, 2019, I attended one of my mental health groups, called
18 “Community” in the C-Yard, Building 4 (“C-4”) dining room. Community group consists
19 of people in the denial management and substance abuse programs groups coming together
20 to discuss politics and news topics and do recreational activities, like drawing, reading, and
21 writing.

22 10. After community group ended at 12:15 p.m., my denial management group
23 started. I remained in the chair I always sat in during community group, a chair at the front
24 of the classroom. I sat there because my hearing and vision disabilities make it difficult
25 for me to participate, and I would be able to better see and hear the instructor from that
26 seat. The instructor is aware of my hearing and vision disabilities.

27 11. From 12:15 p.m. to about 1:30 p.m., I worked on my classwork for denial
28 management group at my seat. Around 1:30 p.m., as group was ending, I got out of my

1 seat and walked to the window of the room, where the instructor had written out a number
2 of remedies and ideas to help with self-awareness of denial. We were supposed to choose
3 a remedy we would use and write our name next to it on the board. I did so and went back
4 to my chair to continue to work on my classwork.

5 12. Shortly after sitting down, I heard a voice say “██████, stand up.” At this
6 time, everyone in the group, as well as the instructor, was still in the room. I reached for
7 my glasses so that I could put them on and see who was talking to me, as I did not
8 recognize the voice.

9 13. Before I could manage to put my glasses on, the person rushed at me,
10 grabbed me out of my seat, and slammed me to the ground. When I was on the ground on
11 my stomach the person put handcuffs on me and started punching me in the head. As the
12 assault went on, I recognized this officer as Officer J. Harmon, one of the officers who
13 work in C-4. Officer Harmon was yelling, “Stop resisting! Stop resisting!” as he was
14 punching me and kicking me in the head. I was not resisting at all—I was frozen in shock,
15 overwhelmed by the attack. I believe that Officer Harmon was yelling this to justify the
16 force he used against me.

17 14. The officers at KVSP commonly say, “Stop resisting,” while they are
18 assaulting incarcerated people in order to claim that they needed to use force against us
19 because we were resisting.

20 15. As Officer Harmon was punching me, I rolled over on my stomach to try to
21 protect my face. Officer J. Welch, who had also come to the group room with Officer
22 Harmon, started stomping on my head. I recognized him as Officer Welch after he
23 assaulted me. He also punched me in the back of the head. I was handcuffed this entire
24 time. After punching me in the back of the head, Officer Welch knelt on my lower back
25 and grabbed my left index finger, which was behind my back in handcuffs. He bent my
26 finger backwards to my wrist, trying to break my finger. My finger still hurts from this.
27 Officer Harmon said, “You piece of shit, you’re jacking off.” I believe he was accusing
28 me of masturbating to justify why he had randomly assaulted me.

1 16. I said, “I didn’t do nothing, and you both are trying to kill me.”

2 17. I heard a voice, which I later identified as Officer Cortez say, “You want leg
3 restraints?”

4 18. Officer Harmon said, “Yes,” and the officers put leg restraints on my ankles.
5 After putting the leg restraints on me, Officer Welch picked my head up off the ground and
6 slammed it back into the concrete. The impact and pain of my head being slammed was so
7 intense that I thought I was going to die. I felt blood coming out of the corner of my left
8 eye.

9 19. Officer Cortez, an officer who works on C-Yard patio, and Officer Harmon,
10 each grabbed under one of my arms and lifted me off the ground to my feet. Officer
11 Cortez carried me by holding the right side of my body. Officer Harmon carried me on my
12 left side. Officer Welch stood to the left of Officer Harmon.

13 20. I said, “Officer Cortez?” in order to make sure I was identifying him
14 correctly.

15 21. He responded “Yeah, Cortez. You piece of shit. Walking around like you
16 have problems with everyone, filing complaints against officers.” I believe he was
17 referring to two complaints I had filed against officers at California State Prison-Corcoran
18 (“COR”) for falsifying documents and using incarcerated people to attack other
19 incarcerated people the officers saw as problematic. I had sent information about this
20 court case regarding Corcoran to my brother about two hours before I was assaulted. I
21 believe that the officers may have known about these cases by reading my mail to my
22 brother and by witnessing some of my interviews with Corcoran investigative staff that
23 took place while I was at KVSP.

24 22. I did not respond to Officer Cortez. Officer Cortez and Officer Harmon
25 carried me to the C-Yard program office and placed me in the holding cage. As I was
26 being placed into the holding cage, I turned my head to look to my right. As I turned my
27 head, Officer Cortez slammed my head against the left wall of the holding cage. I felt faint
28 and fell, sliding against the wall of the holding cage. As I was sliding against the wall,

1 Officer Cortez kicked me on the left side of my face in my jaw. This kick knocked me
2 unconscious.

3 23. I am not sure how long I was unconscious. When I came to in the holding
4 cage, a nurse was standing above me. Sergeant Hernandez, one of the sergeants that works
5 on C-Yard, was standing with her.

6 24. The nurse asked me if I was injured. I told her I was and began to tell her
7 where I was in pain. The nurse stared at me as I listed my injuries, not writing anything
8 down. I did not see her fill a 7219 form out at all. At the time, I was bleeding out of my
9 head and my eye area and could feel a bump about the size of an egg on my head. My
10 arms, legs, and back were bleeding as well.

11 25. After I described these injuries to the nurse, she and Sergeant Hernandez left
12 the holding cage without saying anything about my injuries. After they walked out, I told
13 Lieutenant Hernandez, Sergeant Alvarez, and Officer Molina, who were all in the C-Yard
14 program office at the time, that I needed medical attention and that my injuries were not
15 documented. The only response I got was from Officer Molina, who told me to ask to go
16 to medical when I got to the ASU.

17 26. I was in the holding cage for what felt like a few hours. I knew it was a few
18 hours because there was the 2:00 p.m. shift change while I was in the holding cage.
19 Shortly after I was given dinner in the cage, around 4:30 p.m., I was taken to the ASU by
20 Officer Molina and another officer whose name I do not recall. Once I got to the ASU, I
21 asked for medical attention. The nurses at the ASU told me to file a 7362 medical request
22 form, requesting treatment. I was not able to get a 7362 form that day, so I could not file a
23 request for medical care.

24 27. During my first few hours in the ASU, one of the officers in the ASU whose
25 name I do not remember saw me struggling to get medical attention. He went and got a
26 copy of my 7219 form documenting my injuries. He told me that the 7219 said that I had
27 no injuries and that I had provided no comment about my injuries. Neither of these things
28

1 was true—I had injuries and I had repeatedly asked for medical attention. This officer left,
2 and I did not get medical care that day.

3 28. The next morning, I passed out in my cell while trying to place my morning
4 tray on the ground after eating breakfast. I am not sure why I passed out, but I believe it
5 was in part due to my injuries from the assault. Officers saw me passed out on the floor of
6 my cell and thought I was having a seizure because I was shaking a bit on the ground.
7 Medical staff came to my cell and brought me to the Triage and Treatment Area (“TTA”) a
8 medical clinic at KVSP. I told the doctor there that I had been beaten up by custody staff.
9 The nurse assisting the doctor, Nurse Yarborough, evaluated my injuries and filled out a
10 7219 medical evaluation form documenting my injuries. I asked Nurse Yarborough if all
11 my injuries were documented. He told me that the 7219 he filled out only pertained to the
12 injuries I sustained the day when I fainted. I asked him to document my injuries from the
13 day prior as well, and Nurse Yarborough filled out a new 7219 documenting all of my
14 injuries. These injuries were cuts and bruises on both my knees, my shoulders, back, arms,
15 elbows, and face.

16 29. After meeting with the doctor, I was transferred to Adventist Health, an
17 outside hospital. I stayed overnight at the hospital and returned to KVSP on July 24, 2019.
18 At the hospital they told me I had only external injuries. I tried to explain the pain I was
19 in, but they assured me I did not have serious internal injuries.

20 30. The day after I got back to KVSP, on July 25, 2019, I finally was able to
21 access a 7362 form, and filed a 7362 medical request requesting medical treatment and
22 requesting that my injuries be documented. I was taken to the TTA later that day and saw
23 medical staff. They documented my injuries again but did not give me any medication or
24 treatment for my pain.

25 31. I was charged with an RVR for “indecent exposure” on the same day as the
26 incident, July 22, 2019. The RVR states that Ms. Lopez, my instructor, went to release our
27 group for break around 1:30 p.m. when she looked over at me and saw me exposing myself
28 to her. The RVR states that I refused her orders to stop doing this, and that she activated

1 her alarm. The RVR states that Officer Harmon and Officer Welch responded to the alarm
2 and escorted me to the C-Yard program office. I never exposed myself to Ms. Lopez. I
3 believe that I was charged with indecent exposure in order to justify Officer Harmon and
4 Officer Welch coming to the classroom to assault me.

5 32. The RVR also omits some details, including all of the details of the assault
6 and the fact that Officer Cortez was involved. The RVR does not mention Officer Cortez
7 at all, even though he attempted to break my finger, applied the leg restraints on my
8 ankles, and carried me to the program office.

9 33. Eventually, this RVR was removed from my file. I learned this from my
10 brother, who had called the prison to request my records. I was never told why this RVR
11 was removed from my file, but I believe that they removed it because they knew I had
12 been assaulted.

13 34. I filed a 602 reporting the assault on August 11, 2019. In the 602, I reported
14 my injuries and requested that I have a videotaped use of force interview about the
15 incident. I did not have that interview until November 16, 2019. The interview was with
16 Lieutenant Osterling. Sergeant Huckleberry was also present and was recording the
17 interview. They asked me a few questions about the particulars of how I was assaulted,
18 but the meeting was very quick. My appeal was never processed, so I never received a
19 response. I tried multiple times to get this appeal processed but was unable to. I also sent
20 letters to the Office of the Inspector General, the Ombudsman, and the Office of Internal
21 Affairs reporting the assaults against me.

22 35. On August 9, 2019, I filed an 1824 Reasonable Accommodation Request, a
23 form to request disability accommodations, asking to be transferred because I could not
24 protect myself due to my hearing, vision, and mobility disabilities. On August 15, 2019, I
25 went to Institutional Classification Committee (“ICC”), a meeting in which custody staff
26 and incarcerated people discuss housing decisions. At this meeting, I was told I was being
27 moved out of ASU back to my previous housing area and given single cell status. I
28 expressed that I was not comfortable with moving back to that housing area, as I was

1 worried for my safety there, because I would have to interact with the officers who
2 attacked me. My concerns were ignored, and I was moved to C-Yard, Building 2 (“C-2”)
3 against my wishes.

4 36. At about 9:45 a.m. on the morning I arrived in C-2, I was told by another
5 incarcerated person working as a porter in C-2 that I was being moved to another building,
6 C-Yard, Building 4. C-4 is primarily housing for gang affiliates and/or people that are on
7 C-Status, an intensive punishment status that consists of the loss of privileges like yard,
8 phone calls, and TVs/radios, among other things. I was not on C-Status at the time and am
9 not a gang affiliate, so I told the porter there was no reason I was moving to C-4.

10 37. Five minutes after the porter told me this, Sergeant Charles and Officer
11 Furlong came over to me and told me to cuff up so that I could be placed in a holding cage
12 pending transfer. I complied, and Sergeant Charles handcuffed me.

13 38. Sergeant Charles and Officer Furlong walked me out to the C-Yard patio.
14 Another officer, whom I did not recognize, was on the patio. I later found out he was a
15 lieutenant, but because of my vision impairment, I could not see the bars on his shirt that
16 signify he is a lieutenant. This lieutenant whose name I did not know told me that I was
17 being moved to C-4 to be around officers who would be “better equipped to deal” with me
18 if I were to expose myself again. I took this as the him telling me that I would be assaulted
19 again, if I was accused of exposing myself. I told this officer I had not exposed myself and
20 had not been found guilty of the charge yet, as I had not yet had my RVR hearing. I also
21 told him that moving me to C-4 was a violation of my due process rights, because they
22 were punishing me before I had been found guilty.

23 39. A number of officers, most of whom I did not know, gathered around the
24 lieutenant and me on the patio as we were talking. The only officer I recognized was
25 Officer Furlong, who was present when I was assaulted on July 22. There were also a
26 number of other incarcerated people on the patio, waiting to enter the building to go to
27 education class and the library. The lieutenant seemed to be getting frustrated with me and
28 started to look around the patio.

1 40. He told Officer Furlong, "Clear the patio. Put all these inmates somewhere."
2 Officer Furlong told the incarcerated people on the patio to go into the chapel.

3 41. As soon as all of the other incarcerated people had left the patio, the
4 lieutenant told me, "If you don't go to Building 4 on your own, we will fuck you up."

5 42. I had a hard time hearing what he was saying, so I asked him to repeat
6 himself. He repeated more loudly, "If you don't go to Building 4, we will fuck you up."

7 43. I again told him and the officers surrounding him that I was not on C-Status
8 and that being forced to move to C-4 was a violation of my due process rights. He told me
9 he would make sure I was not placed in the C-Status section of the building, but one of the
10 other sections. I said this was still a due process violation, as I had not gone to ICC to
11 discuss these issues, but I would comply because I was surrounded by officers and
12 threatened with being attacked. I asked him for his name, and he told me his name was R.
13 Rodriguez. I told Lt. Rodriguez that I would be writing OIG about these due process
14 violations. He said that was fine, and he, Sergeant Charles, and Officer Furlong started to
15 walk me over to C-4.

16 44. As we were walking, Lt. Rodriguez asked staff in C-4 over his radio what
17 cell I would be housed in. The officer responded with a cell number that I knew was in the
18 C-Status section of the building. I asked Lt. Rodriguez why I was being housed in a C-
19 Status section when he had said I would not be.

20 45. He said, "I know that you aren't C-Status. You'll get your property." We
21 arrived at C-4 around 10:10 a.m., and I entered the cell in which was to be housed. The
22 cell had no mattress, no blankets, and no cleaning supplies. My property was also nowhere
23 to be found. I told custody staff around noon during count that there was nothing in my
24 cell. No one responded to me.

25 46. Around 4:00 p.m., I waved at the control tower to let me out to retrieve
26 antibiotic medications I was taking at the time. The tower officer opened my cell door and
27 I walked over the medical window to get my medications from the nurse.
28

1 47. As I was getting my medications, I told the nurse that I should not be housed
2 in this unit. After getting my medications, I walked back to my cell.

3 48. As I entered the building, two other incarcerated people asked me, “Hey, is
4 your last name [REDACTED]?”

5 49. I said, “Yes,” and they told me that my property was on the yard in a purple
6 cart, and that I should talk to Officer Torres, the tower officer, to get my property. I
7 walked over to the tower and told Officer Torres that I was not supposed to be housed in
8 this building, and that I did not have my property, a mattress, blankets, or cleaning supplies
9 in my cell. He said he would look into the situation. I went back to my cell.

10 50. Around 8:30 p.m., I attempted to come out to get my antibiotics again. At
11 the time, I was taking this antibiotic four times a day. Officer Torres in the tower told me
12 to stay in my cell and that I would get my mattress soon. Later that day, I was given my
13 mattress and my property. My property was missing my TV and my tablet. I asked a floor
14 officer named Officer Pereira about this, and he told me he needed to check and see
15 whether I was on C-Status. I continued to report my safety concerns, but no one would
16 listen to me.

17 51. On August 17, 2019, while I was housed in C-4, I heard Sergeant Charles tell
18 two other incarcerated people to “two on one him, just fuck him up” referring to me. I did
19 not think they would comply to his request to hurt me until later that evening when I was
20 walking back from medical line at 12:00 p.m. As I was walking back to my cell, two
21 incarcerated people attacked me from behind. I was not given medical attention and was
22 placed back in my cell.

23 52. Later that evening, another incarcerated person approached me, trying to
24 fight me. I was able to walk away and not engage in the fight and was not attacked at that
25 point. I again made staff aware of my safety concerns but was not interviewed or moved.

26 53. I was given an RVR for “mutual combat” that same day. The RVR says that
27 I initiated the fight. After I was attacked, Sergeant Charles, Sergeant Flores, and Officer
28 Furlong forced me to sign a 128G chrono, a chrono saying that I did not have an issue with

1 the people that attacked me. I signed the chrono not because I was feeling safe around the
2 people that attacked me, but because the officers told me that if I did not sign the chrono, I
3 would be put back in C-4 where I just recently been attacked.

4 54. Around 8:30 p.m. on August 19, 2019, I was attacked again. I was returning
5 to my cell from getting my medications at afternoon pill call when I was attacked from
6 behind by two incarcerated people on the yard. They punched me and fell hard onto the
7 dirt. I was briefly unconscious.

8 55. When I was becoming conscious again, I felt Officer Molina, an officer on
9 C-Yard, tap me on the back and call my name. I recognized his voice. I moaned, because
10 I was in so much pain I could not form a word. I had blood pouring out of my face, and
11 one of my teeth fell out. I had cuts on both of my elbows and both of my knees.

12 56. Officer Molina handcuffed me behind my back. Another officer, Officer
13 Ronquillo, was standing nearby. I was able to speak now and asked him to grab my cane
14 that had been knocked out of my hand. He did so, and the officers lifted me to my feet and
15 escorted me to the C-Yard medical clinic.

16 57. This entire time, Sergeant Alvarez was standing nearby. She witnessed the
17 entire incident. She did not intervene, and after I was assaulted, as I was lying on the
18 ground, she walked by and said, "They said that you suing on them." As Officer Ronquillo
19 and Officer Molina escorted me off the yard, Sergeant Alvarez approached me and asked
20 me, "You're going to sign off on this, yes or no?" She was referring to a chrono, or a form
21 stating that I had been fighting with the incarcerated person that attacked me. I
22 emphatically said no.

23 58. When I arrived at C-Yard medical, I was placed into a holding cage. After
24 about five minutes, Sergeant Alvarez and Sergeant Lerma, another C-Yard sergeant,
25 approached me. Sergeant Alvarez said, "If you don't sign off on this, my partner is going
26 to say you were swinging your cane at them, and we're going to charge you with using
27 your cane as a weapon."
28

1 59. I said, "That's a lie. You know I'm the victim, and you just saw me
2 unconscious on the ground. Now you're threatening me that if I don't sign off, you're
3 going to charge me with a crime? I'm not safe. I need to be placed in the ASU for safety
4 concerns." Neither of the sergeants responded, and they both walked away.

5 60. Officer Sotello, an officer that works in the C-Yard medical building, came
6 to the holding cage and offered me a larger holding cell. I accepted and started to walk
7 toward the other holding cell.

8 61. All of a sudden, while walking, I felt dizzy, but did not pass out. About
9 thirty minutes later, a nurse pulled me out of the holding cage and documented some of my
10 injuries. She documented some of my bruises and cuts but not document the injuries to my
11 wrist. I was placed back in the holding cage.

12 62. While in the holding cage, I told Officer Sotello, "Custody is literally trying
13 to kill me," and explained what had happened over the last few days. Officer Sotello
14 gestured at me to hold on and left the room.

15 63. About 15 minutes later, Sergeant Alvarez came to my holding cage, holding
16 handcuffs. She handcuffed me behind my back through the holding cage port. Officer
17 Molina, Officer Ronquillo, Officer Suarez, and Sergeant Lerma all gathered around the
18 holding cage with Sergeant Alvarez. They had a wheelchair, and Sergeant Alvarez told me
19 to sit down in it. I complied without knowing where we were going because I was feeling
20 intimidated by the number of officers surrounding me.

21 64. The group of officers began to walk alongside me, as Sergeant Alvarez
22 wheeled me back to the C-Yard housing units. I asked Sergeant Alvarez, "Where am I
23 going?"

24 65. Sergeant Alvarez responded: "I gave you three chances."

25 66. I did not know exactly what Sergeant Alvarez meant, but took this as a threat
26 and said, "Are you putting me back on the same yard I just got knocked out on? I'm going
27 to make your actions known." I was wheeled to C-Yard, Building 6 ("C-6"), a different
28 housing unit, close to 10:00 p.m. that night.

1 67. As he was leaving C-6, Officer Molina said, “I told you that was your last
2 chance to leave.” He was referring to my conversation with Sergeant Lerma and Sergeant
3 Alvarez in which they asked me to sign off on the form saying I was fighting. I took this as
4 a warning that I would still be harassed while I was on C-Yard, even if I was in a different
5 building.

6 68. I filed a 602 reporting the incidents on and around August 17 and August 19,
7 2019 on October 20, 2019. I sent this appeal out, but it was never processed at the second
8 level. I am still trying to get this appeal processed.

9 69. These assaults were incredibly stressful, particularly because I cannot defend
10 myself due to my disabilities, so I am very susceptible. I felt so unsafe that after the
11 second attack by other incarcerated people, I began to think seriously about killing myself.
12 I told Officer Corona, a floor officer in C-6, that I was considering killing myself to get
13 away from all of this. He referred me to see mental health staff on August 27, 2019, and
14 they decided to place me in an MHCB.

15 70. Throughout my time in the MHCB, I told multiple clinicians what had
16 happened to me, and I continued to feel like I was going to hurt myself. Despite still
17 feeling suicidal, I was discharged from the MHCB on September 3, 2019, and moved to
18 D-Yard, Building 6 (“D-6”).

19 71. When I got to D-6, I did not come out of my cell for weeks except to
20 periodically take a shower, because I was terrified of being hurt again.

21 72. The threats and harassment did not end after August 2019. On December 2,
22 2019, another incarcerated person approached my cell in D-6 and asked me what I was in
23 prison for. I was shocked that he asked me that, as that is something that is not openly
24 discussed among incarcerated people. I asked him why he was asking me that. He said,
25 “Don’t get loud, but people are saying you are a cho-mo.”

26 73. “Cho-mo” is short for child molester. I am not incarcerated for a sex crime.
27 I became upset about this because I had a suspicion custody staff had told other
28 incarcerated people this lie in order to get me attacked or killed.

1 74. Later that day, I went out to dayroom reluctantly because I was afraid of
2 being attacked but needed more information. I asked another incarcerated person who
3 knows the person who asked me about my commitment offense whether he had any idea
4 about why custody told this incarcerated person lies about my commitment offense. This
5 incarcerated person told he had heard that this person was asking me this because the
6 officers wanted me hurt because I had filed complaints against them.

7 75. In my time at KVSP, there have been many times that I needed help but did
8 not ask for it because I was afraid of what would happen to me. On both C-Yard and
9 D-Yard, I rarely ask officers for assistance getting around, even though I need this
10 assistance due to my mobility, hearing, and vision impairments, because I am afraid of
11 being attacked. I also do not ask the officers to repeat the things they say to me, even
12 when I have difficulty hearing due to my hearing impairment. Because of this, I often miss
13 information. Nearly every time I tell officers, mental health or medical staff about my
14 disability and mental health needs, they say that I am “faking it” or ignore me completely.

15 76. After the July 2019 assault, my mental health gradually got worse and worse.
16 As previously mentioned, I stayed in the MHCB from late August to early September. On
17 December 10, 2019 while I was on D-Yard, shortly after I learned the officers were
18 accusing me of being a child molester, I met with a psychologist, Mr. Kym. He asked me
19 about my MHCB stay in late August/early September. I explained what had happened and
20 told him about my ongoing safety concerns and suicidal feelings related to my safety. He
21 told me he was going to have me admitted to the MHCB again because I seemed to be
22 really stressed. I was also told that after my MHCB stay, he would try to make sure I was
23 discharged to the Enhanced Outpatient Program (“EOP”) level of care, a higher level of
24 mental health care than the CCCMS level of care I was presently at. EOP would afford me
25 more groups and contacts with my clinician, so that I could better work through my
26 suicidal feelings. I went back to D-Facility after this appointment feeling like I was going
27 to get the care I needed. When I arrived back at D-Facility, Mr. Beach, a clinician, and
28

1 Sergeant Huckleberry told me that they had decided placing me in the MHCB was not
2 necessary. I was very frustrated by this.

3 77. I continued to experience suicidal thoughts after this meeting and was
4 eventually admitted to the MHCB on December 27, 2019. I stayed there for three days
5 before being discharged to CCCMS. I wanted to stay for longer because I was still feeling
6 suicidal, but I was told by my treatment team in the MHCB that my issues were custody-
7 related and not mental health-related. My mental health level of care was never raised to
8 EOP, as I was told it would be. I continue to experience ongoing mental health issues that
9 were made worse by the assaults and harassment I have experienced. I am extremely
10 stressed and worried around officers. I also do not sleep more than four hours a night
11 because of the stress this harassment has caused me.

12 78. In my opinion, staff target people with disabilities and mental illness because
13 we are vulnerable. Staff also become easily frustrated us because we require a lot of
14 assistance, which leads them to feel like they can assault us.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Delano, California this 3rd day of September, 2020.

[Handwritten signature]

On September 3, 2020, due to the closure of Kern Valley State Prison in light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail system at KVSP, I read the contents of this declaration, verbatim, to [REDACTED], by telephone. [REDACTED] orally confirmed that the contents of the declaration were true and correct. [REDACTED] also orally granted me permission to affix his signature to the declaration and to file the declaration in this matter.

DATED: September 3, 2020

Emma Cook

Exhibit 54a

Filed Under Seal

Exhibit 55

1 **DECLARATION OF** [REDACTED]

2 I, [REDACTED], declare:

3 1. I have personal knowledge of the matters set forth herein, and if called as a
4 witness, I could and would competently so testify.

5 2. My California Department of Corrections and Rehabilitation (“CDCR”)
6 number is [REDACTED]. I am currently housed at Kern Valley State Prison (“KVSP”) on
7 Facility B in Building 1. This housing unit is a Short-Term Restricted Housing (“STRH”)
8 unit, which is a segregation unit for mental health patients at the CCCMS level of care. I
9 am 28 years old.

10 3. I am a *Coleman* class member. I am at the Correctional Clinical Case
11 Management System (“CCCMS”) level of care, which is the lowest level of mental health
12 care provided in CDCR. Patients at the CCCMS level of care live in general population
13 units throughout CDCR and receive infrequent contacts with their mental health case
14 manager and treatment team. I suffer from depression. I sometimes struggle with anger
15 and suicidal ideation. I have attempted to take my life multiple times during my time in
16 CDCR. When I have attempted suicide and during other intense periods of suicidal
17 ideation, I have been admitted to the Mental Health Crisis Bed (“MHCB”). An MHCB is a
18 short-term intensive care unit for people experiencing severe mental health crises. Most
19 recently, I attempted suicide in early April 2020 after the incidents described below. I was
20 admitted the KVSP MHCB as a result.

21 4. Though I am not an *Armstrong* class member and do not have a permanent
22 disability, I was severely mobility impaired as a result of the March 2, 2020 assault on me
23 described below. I was issued a wheelchair while in the Wasco State Prison (“WSP”)
24 MHCB to help me get around. Shortly after I returned to KVSP from WSP, they gave me
25 a walker instead of a wheelchair because my mobility had improved a bit, but mostly
26 because I wanted to be able to get around myself due to the harassment I experienced,
27 described below. I lost my walker after the March 27, 2020 incident described below, in
28

1 which I was accused of throwing my walker at officers. I continued to have mobility
2 issues after this incident and struggled without the walker.

3 5. I have been housed at KVSP from September 19, 2018 to the present, except
4 for the period between March 3, 2020 and March 11, 2020, when I was at WSP. I was
5 transferred to WSP to be admitted into the MHCB during a mental health crisis I was
6 having after the first incident described below.

7 6. During my time at KVSP, I have been housed in the following locations: B
8 Yard, Building 1 (the STRH), A Yard, Building 3, A Yard, Building 1, A Yard Building 8,
9 and the MHCB.

10 7. I have been a victim of staff misconduct at KVSP on multiple occasions.

11 8. On March 2, 2020, while I was housed in A-2, I was feeling suicidal because
12 I had recently learned that my grandmother, who basically raised me, had passed away. I
13 was also in some arguments with some of my friends, and had recently lost my job as a
14 porter. I told officers on the unit that I was suicidal, and at around 10:30 a.m. the KVSP
15 Crisis Intervention Team ("CIT") pulled me out of my cell to see me in a holding cage in
16 the program office. The CIT is a team of mental health, nursing, and custody staff
17 members who respond to urgent mental health concerns and address the problems of
18 suicidal prisoners. When they came to see me, I asked to speak to the CIT mental health
19 clinician, Ms. Price, alone. She did not let me speak to her alone, but I did still tell
20 Ms. Price and the officers with her how I was feeling. Despite telling them I was suicidal,
21 they told me they were going to send me back to my cell. During this meeting, Ms. Price
22 responded to my suicidality by trying to convince me that I was "going to hell" if I killed
23 myself, after I told her I was Muslim.

24 9. When I learned that I was going to be sent back to my cell, I started to refuse
25 to leave the holding cage. I continued to say I was suicidal and needed help. At the time,
26 there were about five officers in the program office, including Officer Castellanos and
27 Officer Figueroa, and Sergeant Haddad. Suddenly, Officer Figueroa opened the holding
28 cage door and he and the other officers rushed into the holding cage. They grabbed me by

1 my arms. I instinctively pulled away from them as they tried to grab me. As I pulled
2 away, at least two of them started to punch me. One of the officers whose name I do not
3 know grabbed me by my dreadlocks and pulled me out of the holding cage. They
4 continued to assault me outside of the cage in the room with the holding cages. They lifted
5 me off my feet into the air and carried me into the hallway. When we got to the hallway,
6 they slammed me face first into the ground. They started stomping on the back of my head
7 and the side of my face. After they were done assaulting me in the hallway, they
8 handcuffed me while I was on the ground face first, and placed ankle restraints on me.
9 The ankle restraints on my ankles were so tight that my ankles were bleeding. I still have
10 scars on my ankles from this.

11 10. After cuffing me, the officers picked me up off my feet started to carry me
12 back to my cell. When we got out of the program office onto the patio, they dropped me to
13 my feet and started dragging me back to my cell. I was placed back in my cell without
14 medical attention. I had throbbing numbness in my back and legs that made it difficult to
15 stand up for days. I also had cuts on my face, wrists, and ankles.

16 11. When I was placed back in my cell in A-2, I was in shock and did not talk to
17 anyone for a while except my cellmate. I had my cellmate cut my dreadlocks off because I
18 was so traumatized about how the officers had just pulled me by my hair.

19 12. After the officers left at the end of their shift, I told the officers on the next
20 watch that I had been assaulted. Lieutenant M. McCollough came and did a videotaped
21 use of force interview and a body scan. Lt. McCollough asked me questions about what
22 had happened and who was involved. He also had me show him my injuries. The
23 interview was fairly brief, but I was able to tell him what had happened.

24 13. Throughout this time, I was feeling suicidal, and after some of the shock of
25 the assault wore off, I reported that I was suicidal to the officers again as they were passing
26 out dinner. The CIT came to my cell door again around 4:30 p.m., and the clinician that
27 came to see me was again Ms. Price. I was hesitant to speak with her after the meeting I
28 had had with her that morning. However, one of the officers who I get along with

1 convinced me to talk with her. I ended up telling her how I was feeling and what had
2 happened. Ms. Price referred me to the MHCB.

3 14. I was placed in A-1 on suicide watch overnight, and was transferred to the
4 WSP MHCB the next day.

5 15. I did not receive a Rules Violation Report (“RVR”) in relation to the
6 March 2, 2020 assault.

7 16. I submitted a 602 staff complaint reporting this assault. My 602 was denied
8 at the second level. I sent this 602 to the third and final level of review on March 18, 2020
9 but have not yet received a response.

10 17. On March 11, 2020, I got back from the WSP MHCB to KVSP, and was
11 placed in C-1. This yard is a sensitive needs yard (“SNY”) that housed people in protected
12 groups and people who are in the Enhanced Outpatient Program (“EOP”), a higher level of
13 mental health care than CCCMS. I am not designated SNY and was not EOP, so I told
14 staff that I could not be on this yard. After I told the officers this, I spoke with a counselor
15 and learned that I was not endorsed to C-1 and should not be there. A day or two after
16 arriving on C-1, I was put in the STRH so they could figure out the correct yard for me.
17 This process took a while, so I was in the STRH for a few weeks.

18 18. While I was in the STRH, the officers there, including Officer Cruz and
19 other officers whose names I do not remember, would ask me how the officers on the other
20 yard assaulted me. They would also make fun of me because I had to use a wheelchair due
21 to my injuries. While they were escorting me pushing me in the wheelchair, Officer Cruz
22 and some of the other officers whose names I do not remember would lean over and
23 whisper in my ear things like: “you don’t need that wheelchair,” “You’re alright. Stop
24 faking.” Officer Cruz even told me a few times, “You had five guys on you and all they
25 did was sprain your ankle and hurt your back?”

26 19. Shortly into my stay in the STRH, I told staff in the ASU that I did not need
27 the wheelchair and was ready for the walker, even though I was still in pain, because I did
28

1 not want officers pushing me around and taunting me. It made me feel unsafe and like less
2 of man.

3 20. I went at least two weeks without a shower because the officers did not want
4 the extra work of having to escort me to the ADA shower, which is farther away than the
5 non-ADA showers. At the time, I needed the ADA shower to be able to wash myself
6 safely and effectively.

7 21. The officers also denied me my property and refused to allow me phone
8 calls, even though I was not on a disciplinary or punishment status, and was only in the
9 STRH pending a move to another yard.

10 22. About two weeks later, on March 27, 2020, I reported that I was feeling
11 suicidal to a nursing staff member named Ms. Garcia who was doing rounds on my unit
12 shortly before 8:00 a.m. I told Ms. Garcia that I was feeling suicidal because the officers
13 on the unit were harassing me and that Officer Duran had denied me a phone call that
14 morning. I told Ms. Garcia I had been feeling paranoid and having anxiety attacks since I
15 woke up that morning. Ms. Garcia said, "Well, what do you want me to do?" Her tone
16 was sarcastic. I asked her to go get my clinician. She said, "Okay," and walked away
17 without asking me any other questions. Ms. Garcia never came back. I learned later after
18 requesting and reviewing my mental health records that she had not written down anything
19 that I had said during this meeting.

20 23. When I realized that Ms. Garcia was not coming back, I boarded my
21 windows up with cardboard. I was trying to get the attention of staff so that I could see
22 mental health staff. Officer Castellanos walked by while I was boarded up. He asked me
23 what was going on, and I told him I wanted to speak with the sergeant. This was the only
24 time anyone asked me what was going on.

25 24. Right after he asked me this, my cell door suddenly opened and I saw Officer
26 Castellanos standing there with pepper spray in his hand, looking at me as I was sitting on
27 the toilet. Officer Castellanos told the tower officer to close the door. Officer Castellanos
28 left. About twenty minutes after that, Officer Castellanos and a number of other officers,

1 including Officer Cruz, Officer B., who is a female officer in the ASU, and Officer
2 Godfrey, rushed into the cell. They took me to the ground and started punching me. They
3 also stomped on my head. After this, Officer Castellanos pepper-sprayed me. Officer B.
4 poured water from the toilet into my mouth. As she did this, I was having trouble
5 breathing because there was a knee on my neck, so I choked on the water. It felt like I was
6 being tortured. I became numb as they continued to punch and stomp on me.

7 25. I was dragged out of the cell into the hallway on the unit by three of the
8 officers, including Officer Castellanos. Officer Castellanos was walking in front of me
9 and two other officers, I could not see who, were dragging me by my feet. While they
10 were walking and dragging me, Officer Castellanos kicked me in the face. My left eye
11 started bleeding profusely. They dragged me over to the other side of the unit and dropped
12 my legs. I could see there was blood all over the floor. The officers decided to hit the
13 alarm at this time, after dragging me across the tier. I saw Sergeant Brown run over. I was
14 taken to a holding cage in the ASU that was just down the tier, a few yards away. I was
15 leaking blood down the hall as I was walked over there.

16 26. At the time I was assaulted I was not a threat to anyone. I was still injured
17 from the first assault and using a walker.

18 27. After the assault, a nurse came to the holding cage in the ASU to evaluate me
19 for my injuries. On the 7219 form documenting my injuries, the nurse wrote that my face
20 was bleeding and cut up, and that my face and head were swollen. The 7219 form also
21 documented that my wrists and arms had cuts and bruises on them.

22 28. Shortly after seeing the nurse, I was taken to the TTA and got three stitches
23 sewing up the cut on my left eyelid. I was then taken to Delano Regional Medical Center
24 ("DRMC"), an outside hospital. I do not remember what I was told at the hospital because
25 I was very out of it, and everything was a blur.

26 29. When I returned to KVSP the same day, I was placed back in the cell where I
27 was assaulted. I was placed on suicide watch, so I had to wear a smock. Officer E.
28 Figueroa watched me all night to make sure I did not harm myself. I was taken off suicide

1 watch in the morning, despite telling Officer Figueroa and mental health staff I was still
2 suicidal.

3 30. I continued to feel suicidal in the next few days and continued to report this
4 to the officers, though I did not trust them, so I reported this less and less. Eventually, I
5 was able to speak with my clinician at the time, Ms. Farhadzadeh. She listened to my
6 issues and ended up referring me to the MHCB at KVSP, where I stayed from April 4,
7 2020, to April 13, 2020.

8 31. I believe this assault was in retaliation for submitting a 602 about the
9 March 2 assault. The officers had made it clear to me, by asking me how the officers had
10 assaulted me and teasing me about my wheelchair, that they knew I had been assaulted and
11 was vulnerable. I believe they also knew that they could assault me and get away with it
12 under the guise of a cell extraction, because of the mental health issues I was having.

13 32. I was charged with an RVR related to the March 27 incident, for “assault and
14 battery with a deadly weapon.” The RVR states that the officers entered my cell because
15 my windows were boarded up. The RVR states that as they entered the cell, I suddenly got
16 up off the bottom bunk where I was lying down, grabbed my walker from next to my bunk,
17 and swung it at the officers. I did not swing my walker at them, but it is surprising that
18 they claim a walker is a deadly weapon.

19 33. The RVR states that Officer Cruz then ordered me to get down, but I
20 continued swinging my walker. The RVR states that Officer Duran then yelled at me to
21 get down, and when I ignored him, he “attempted to defend himself” by striking me with
22 his fists on the left and right side of my torso and face. The RVR states that I continued to
23 come at Officer Duran and Officer Cruz, so they both grabbed me and took me to the
24 ground. The RVR states Officer Castellanos handcuffed me, and the officers started to
25 walk me out of the cell. As we were walking out of the cell, the RVR states that I tried to
26 hit the officers by thrashing my face and torso from side to side. The RVR states that in
27 response to this, Officer Duran and Officer Cruz pushed me to the ground again.

1 34. The RVR does not acknowledge that KVSP staff did not follow the
2 procedures for cell extractions. The protocol for a cell extraction in Title 15 says that
3 mental health staff have to be physically present during cell extraction except during
4 emergencies. During the assault, only custody staff were present. Title 15 also states that
5 cell extractions can take place in this type of situation only when the person is
6 unresponsive and staff have tried repeatedly to get the person to respond. The officers also
7 made only one attempt to talk to me while I was boarded up, and at no point was I
8 unresponsive.

9 35. I was found guilty of the RVR and given a 4-year segregation term. The
10 RVR was also referred to the District Attorney (“DA”). I have not been told yet whether
11 the DA is going to prosecute the case.

12 36. I was given an RVR mental health assessment (“MHA”) to evaluate the role
13 my mental health condition played in the assault. I told the clinician doing the assessment
14 that the assault I was being charged with had not happened – that I was the one who was
15 assaulted, not the officers. I also told her that I was in a very bad mental state and feeling
16 suicidal at the time I was assaulted. Despite expressing all of this, the clinician noted that
17 my mental health had nothing to do with the actions described in the RVR.

18 37. A few days after the assault, I submitted a 602 staff complaint reporting the
19 March 27, 2020 assault. That 602 staff complaint is currently at the third and final level
20 review. I do not recall being interviewed about the assault at any point.

21 38. I still have to interact with the officers who were involved in the staff
22 misconduct against me. They say things like, “what’s up [REDACTED]?” and grin at me. It makes
23 me feel very intimidated and like they are making fun of the pain I have been through. I
24 try to avoid them, but they still approach me and try to talk with me.

25 39. Since being at KVSP, there have been many times that I needed help but
26 didn’t ask for it because I was afraid of what would happen to me. After the March 2
27 assault, I was scared to ask for the ADA showers and assistance I needed due to the
28 mobility issues I was having. Recently, I have stopped asking officers even for small

1 things like food, laundry exchange, disinfectant, soap, or mail because I am afraid they will
2 hurt me. I also feel extremely anxious having to initiate even a short conversation with
3 them.

4 40. I have asked for help less and less because during the times that I have asked
5 for help when I have really needed it, I am blatantly ignored. For instance, on June 11,
6 2020 at 4:30 p.m. pill call, I was in my cell and feeling like I was having a panic attack. I
7 have been having periodic panic attacks since being assaulted because I often feel very
8 overwhelmed, depressed, and suicidal about what is happening to me. When the nurse,
9 whose name I do not know, came by to give medications to my neighbor, I told her I was
10 suicidal and anxious, and she said, "Okay." She and the officer who was walking around
11 with the nurse turned away from me and walked away, up the stairs.

12 41. At 8:00 p.m. pill call, the same nurse and the officer walked by again. I
13 attempted to get their attention as they gave my neighbor his medications again, but they
14 ignored me and kept walking. Feeling like I was not going to get help that day, I got into
15 my bed and started crying, trying to sleep. I was not able to sleep, so I got up and started
16 to do pushups to try to reduce my stress and push away my suicidal thoughts. I continued
17 to feel suicidal throughout the night but did not ask for help again. I wrote a 602 about
18 this, but never received a log number.

19 42. Since I was ignored on June 11, I have not told officers or nurses that I am
20 feeling suicidal, even though I have felt this way many times since. I do not trust medical
21 and mental health staff any longer, because they seem to always side with the officers even
22 when I am the one struggling.

23 43. I do not go out to my mental health groups because the officers who
24 assaulted me are there. I rarely go to yard, because they are there as well. I do not feel
25 safe anywhere. I even feel unsafe in my cell, because I know that officers can enter my
26 cell again and find a way to cover it up and justify their entrance.

27 44. Since the assault, my mental state has become worse and worse. I now get
28 anxious and angry every time someone tries to speak with me. I am hesitant to trust other

1 incarcerated people and staff members now, even the ones who seem to be trying to help
2 me. Feeling unsafe all the time has led me to be even more suicidal, paranoid, and stressed
3 out.

4 45. In my opinion, staff target incarcerated people with disabilities and mental
5 illness because they feel they can get away with targeting these populations. In my case, I
6 believe that officers thought I was vulnerable while I was going through a mental health
7 crisis and using a walker and felt that because of this it was easy to attack me. I also think
8 that officers feel they can get away with people undergoing these issues because they can
9 flip the story and say that the incarcerated person was agitated and in distress and attacked
10 the officers. With vulnerable people, the officers have even more power over the narrative
11 than they would with an incarcerated person who is less vulnerable.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Delano, California this 28th day of August, 2020.

On August 28, 2020, due to the closure of Kern Valley State Prison in light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail system at LAC, I read the contents of this declaration, verbatim, to [REDACTED], by telephone. [REDACTED] orally confirmed that the contents of the declaration were true and correct. [REDACTED] also orally granted me permission to affix his signature to the declaration and to file the declaration in this matter.

[Handwritten signature]

Emma Cook

Exhibit 55a

Filed Under Seal

Exhibit 56

DECLARATION OF [REDACTED]

I, [REDACTED], declare:

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

2. My California Department of Corrections and Rehabilitation ("CDCR") number is [REDACTED]. I am currently housed at California State Prison-Los Angeles County ("LAC") on Facility D in Building 4. I am 23 years old.

3. I am a *Coleman* class member. I am at the Enhanced Outpatient Program ("EOP") level of care, which means I am housed in a special housing unit with other EOP patients, and that I receive about 10 hours of groups and other mental health care each week. I have depression, anxiety, and schizophrenia. As a result, I have heard voices and seen things throughout my entire life, and go through periods where these auditory and visual hallucinations are very intense. In 2018, my voices came back very intensely after I suffered the loss of my son, and now they are most intense in the evening when I am trying to go to sleep. I also experience mood swings. I have been admitted a few times to the mental health crisis bed ("MHCB"), a short term unit where people go to stabilize during mental health crises. The last time I was at the MHCB was in July 2019, when my voices had grown really loud after I suffered a number of family losses. I had also attempted suicide in June, shortly before I was admitted to the MHCB. Before then, I was in Correctional Clinical Case Management System ("CCCMS") level of care, which is the lowest level of mental health care in the CDCR. Due to my mental health issues and traumatic family losses, my level of care was increased and I was moved into the EOP program.

4. When I was younger, I was diagnosed with ADHD and had learning issues, partly due to the fact that English is my second language. CDCR has not diagnosed me with a learning disability, but I have trouble comprehending what I have read and heard after reading or hearing something.

5. I was housed at KVSP from July 11, 2018 to October 10, 2019. During the time I was at Kern Valley State Prison ("KVSP"), my mental health issues were similar to, if not worse than, the issues I experience today.

6. During my time at KVSP, I was housed in the following locations: A-Yard, Building 1, A-Yard Building 8, B-Yard, Building 5, B Building 6, B Building 7, D-Yard, Building 6, C-Yard, Building 8, the Administrative Segregation Unit ("ASU"), and the Short Term Restricted Housing Unit ("STRH"), which is the administrative segregation unit for CCCMS patients.

7. I was both a victim of and a witness to staff misconduct at KVSP.

8. On August 27, 2019, me and my cellmate, [REDACTED], got into a fight with another incarcerated person on the C-8 yard. While we were fighting, a member of staff sounded the alarm and custody officers rushed onto the yard. When the officers got on the yard, we stopped fighting. An officer whose name I do not remember asked me to cuff up. I complied and was handcuffed. While me and Mr. [REDACTED] were standing on the yard handcuffed, Officer Hunt walked up to us without saying anything and started pepper spraying us. After we were pepper sprayed, we were walked to a holding cage in the C-8 building. Both me and Mr. [REDACTED] asked for cold water to rinse our pepper spray off, but we were denied and were left to sit in the cage with pepper spray on our face and body. We were in the cage for about thirty minutes when Officer Hunt walked back into the building. We asked him why he had sprayed us and he laughed and said, "Welcome to Kern Valley." Shortly after we were placed in the cages, a nurse came to check if I had cuts and bruises. I, along with Mr. [REDACTED] and the person we were fighting with, signed a chrono agreeing that we would get along, so we could all go back to our cells. After signing the chrono, Mr. [REDACTED] went to CTC because his hand was messed up. I sat in the cage for about four or five more hours after signing the chrono, before being allowed to go back to my cell. When I got back to my cell, I put milk and baby powder on my face and body to get

the pepper spray off, but it did not work very well and my face and body were still stinging.

9. I was charged with a Rules Violation Report (“RVR”) for “Fighting.” I had my RVR hearing on September 21, 2019, and was found guilty. I did not attend the hearing because I was never called for the hearing. I did not know the hearing had happened until I got the final copy of the RVR. I lost 90 days of time credit.

10. I filed a 602 staff complaint about the August 27, 2019 incident on the day it happened or the day after. I was told on September 12, 2019 that my staff complaint had been bypassed at the first level of review and was being reviewed at the second level. I had my videotaped use of force interview two days after I submitted the 602 on Officer Hunt. Sergeant Alvarez did my video interview. Before the interview started she kept asking me, are you sure you want to go through with this? I kept telling her yes, and insisting that I would not have written the 602 if I did not want to go through with it. Two other officers were standing near her. The whole time, I felt intimidated. At the end of the interview, she said, “Well, you did it.” I believe she was referring to the fact that she thought I was guilty. I still have not received a written response to this 602.

11. A few days after the incident, Hunt came by my cell and told me, “You’re really going to hit me with the excessive force?” He was referring to the 602 I filed about the pepper spray. I explained to him that I thought this was the perfect example of excessive force. He bit his lip and shook his head, then walked away from my cell.

12. After the incident, I experienced increasing harassment from officers and staff. Officer Hunt had a close relationship with my clinician at the time, Ms. Nakashyan, and he told Ms. Nakashyan that I was arguing with the officers and was trying to fight the officers, which was untrue. During my mental health meetings, she started telling me that officers had told her various things about me. One or two weeks after she starting hearing things about me, she began telling me she was going to drop my level of care from EOP to CCCMS. She even tried to hold my IDTT—a meeting with your team of clinicians and

other staff to discuss your mental health care and make level of care decisions—a month earlier than it was scheduled to get me dropped out of EOP. I only managed to stay in EOP after that IDTT meeting because other members of mental health staff, such as the rec therapists, expressed that I was programming really well and that I should stay in EOP.

13. On September 16, 2019, around 8:00 p.m., I was in my cell with my cell-mate, [REDACTED], in C-8 A Section, where we were housed at the time. At that time, which was around the end of evening dayroom, Mr. [REDACTED] told Officer Ga and Officer Martinez (two of the third watch C-8 building officers) that he had safety concerns. Officer Ga and Officer Martinez placed Mr. [REDACTED] in handcuffs and walked him to a holding cage in the C-8 rotunda, and the officers locked everyone else down in their cells.

14. The nurses did pill pass, and right after pill pass, about five minutes later, Officer Ga and Officer Martinez came back to my cell holding a plastic bag and told me to pack Mr. [REDACTED]'s property. I complied and started to put his things in the bag. I packed his property, and after about thirty minutes I heard the door to C-8 A section opening. I assumed it was the officers escorting Mr. [REDACTED] to come back and get his property. When I looked up, however, I saw Mr. [REDACTED] coming back into the unit with two officers whose names I do not know. He was handcuffed and in leg restraints, and they were chicken winging him, meaning they were holding his arms high at his sides with his hands still cuffed, and had his head pointed toward the floor. Sergeant Lerma and Sergeant Alvarez were walking behind the officers and Mr. [REDACTED]. As they were passing the tables in the dayroom, I saw the two officers, who were on either side of Mr. [REDACTED], lift Mr. [REDACTED] up by the arms and then slam him face first to the floor. Our cell is only about a table length away from the tables in the dayroom, so I had a very clear view of the incident. Then the officers, Sergeant Lerma, and Sergeant Alvarez all started kicking and punching him repeatedly, all over his body. I saw Sergeant Alvarez stick her fingers in Mr. [REDACTED]'s mouth. She seemed to hit a pressure point that knocked him out.

15. After they started assaulting him, I started yelling out from inside my cell, “Stop beating his ass! Stop beating him! He isn’t doing shit!” and other things along those lines to try to get them to stop. After about five minutes of the assault, Sergeant Lerma stepped away from Mr. [REDACTED] and signaled to Officer Johnson, the officer in the tower, to hit the alarm. The alarm sounded. Sergeant Lerma then walked over to my cell and told Officer Johnson to open my cell door. During this time, the other officers besides Sgt. Lerma were still beating Mr. [REDACTED]. When Sgt. Lerma opened my door, I instinctively turned towards the wall with my back to him so that he could handcuff me. He handcuffed me and told me to back up. After I backed a few steps out of the cell, he put me in a chokehold. With his arm around my neck, he pulled me out of the cell and slammed me on my head on the floor. After being slammed on the head I fell to the ground and heard Sergeant Lerma say, “602 this, bitch.” Suddenly I was swarmed by five or six officers whose names I did not know. They kicked and punched me in the head, face, and ribs for what felt like four or five minutes.

16. After assaulting me, the officers each grabbed part of my body and picked me up off the ground. They carried me over to the shower and threw me inside head first. My legs were hanging out of the shower door when I landed, and they slammed my legs in the shower door twice. They closed the door of the shower and walked back over to Mr. [REDACTED] and took him out of C-8. I could see them walking him out from the shower. He seemed very dazed and out of it as he was walked out of the building. Shortly after he left the building Sergeant Alvarez, Sergeant Lerma, and the same four or five officers who had assaulted Mr. [REDACTED], as well as another officer, came back to the shower. Sergeant Lerma told Officer Johnson to open the shower door. They pulled me out of the shower and escorted me outside while I was handcuffed. I was being chicken winged like Mr. [REDACTED] was, with my head facing the ground and arms out to the side. Once we were outside and walking, Sergeant Alvarez kicked me once in the testicles and said, “That’s for snitching

on my officer.” I believe she was referring to the 602 I submitted about Officer Hunt and what happened on August 27.

17. I fell to the ground due to the impact of the kick and after I fell, the escorting officers started kicking and punching me again while I was on the yard, right in front of the C-8 door we had just exited. Sergeant Alvarez told Officer Johnson to “put the mini on me,” meaning point the rifle at me from the tower. From the tower, I heard Officer Johnson say, “Don’t let me put one in your ass boy.” I was surprised to hear him being so harsh to me, because I knew Officer Johnson from a different yard and we had always gotten along. I started crying and was begging them to please not shoot me. Sergeant Alvarez said, “I’m going to put a case on you and your cellie,” then told the escorting officers to pick me back up. She said to me, “Stop crying like a bitch. You weren’t crying like a bitch when you ratted on my officer.”

18. After the escorting officers picked me up off the ground, they walked me to the program office. When I arrived at the program office, they placed me in a holding cage for about two hours. My handcuffs were on the entire time, even in the cage. At one point I yelled out to a lieutenant whose name I do not know who was standing by the holding cells and told him that I could not feel my hands. I asked if my handcuffs could be taken off, since I was in the cell. He told me to “fuck off.” While I was in the holding cage, nurses came to see me two or three different times. I reported pain in my legs and head each time. The first two times they came to evaluate me, they did not use a flashlight to look at my injuries and documented no injuries on me. The third time the nurse came, she used a flashlight but only documented some of my injuries and refused to document my leg and ankle injury, even though it was clearly swollen.

19. After I was in the holding cage for a couple of hours, I was taken from the holding cage in the C-Yard program office to the Triage and Treatment Area (“TTA”), a medical unit. I told a nurse in the TTA that I was assaulted. I also had a headache and felt lightheaded when standing up and had pain in my legs. I reported this all to the nurse at

the TTA whose name I do not know. I was also feeling suicidal after the assault, and the distress of the assault had caused the voices in my head to grow stronger over the couple of hours since the assault. I told the nurse that the voices were telling me to kill myself.

20. I was transported from the TTA to Delano Regional Medical Center ('DRMC'). At DRMC, I told staff that officers had assaulted me, and reported my headache, which had become severe at that point, as well as the pain in my legs. I was diagnosed with a head injury and an ankle sprain. The CT scan they did on my brain to check for head injuries showed swelling of my scalp, and the X-rays of my ankles showed swelling in my right ankle.

21. I was discharged from the hospital and returned to KVSP early in the morning on September 17, 2019. I was placed on suicide watch overnight due to the suicidal thoughts I had reported before leaving for DRMC. The next day, I was seen by a mental health clinician, whose name I do not know, about my suicidality. She was surprised to see that I was using a walker to get to the appointment, and asked me what had happened. After I told her the story, she did not seem surprised and even shared that she had seen multiple people who had been beaten up by these officers. She told me that she wanted to admit me to the mental health crisis bed for my suicidal thoughts, but I said that I no longer wanted to go. I said this not because I was not suicidal, but because I wanted to stay in the cell with Mr. [REDACTED] because he has seizures, and I was worried about his condition after being assaulted. I also told her I felt like I was being targeted for filing a 602 about being pepper sprayed. After that contact, I was moved from alternative housing, the short term housing I was in overnight, to the ASU. About a month after being placed in the ASU, I was moved to LAC so that I could be in the EOP ASU there.

22. I believe that Sergeant Lerma, Sergeant Alvarez, and the officers assaulted me in an attempt to stop my 602 about being pepper sprayed by Officer Hunt. They were trying to intimidate me into dropping my complaints about him. Sergeant Lerma and

Sergeant Alvarez directly told me multiple times during the assault that they were assaulting me because I had reported “their officer.”

23. Shortly after being placed in the ASU, I was issued a Rules Violation Report (“RVR”) for “Threatening Staff.” The RVR is false. The RVR says that I blocked Mr. [REDACTED] from entering the cell when they tried to re-house him with me, and that they had to take me to the shower after I refused to house with him. The RVR says that once I was moved into the shower, they asked Mr. [REDACTED] to go back into our shared cell. The RVR then says that he yelled: “Fuck you motherfuckers! I’m not staying!” and attempted to assault the officers with his torso and elbows, and tried to mule kick them. None of this ever happened. I never blocked Mr. [REDACTED] from entering the cell, and it would have been very difficult, if not impossible, for him to assault the officers with his elbow and his legs, given that he was cuffed at both the hands and ankles. The RVR then goes on to say that from the shower, I yelled at the officers: “Fuck them up [REDACTED]!” This never happened; I did not say that.

24. Besides being false, the RVR I received also makes no attempt to explain the injuries I received while in the shower and afterwards. From being in CDCR for a number of years I know that when staff try to cover up an assault, they often charge the person with “Battery on a Peace Officer,” so that they can say the person obtained any injuries they have because they provoked the officers to assault them or necessitated the force used against them in some way. However, staff did not charge me with Battery on a Peace Officer, and made no attempt to explain the injuries that the staff at TTA and at the hospital found on me. Those injuries did not just appear out of thin air; they assaulted me. I believe they did not charge me with Battery on a Peace Officer, and instead charged me with a lesser charge of threatening staff, because they knew that they could not justify the charge. The RVR still has not been heard because I postponed it pending DA referral, and am still waiting on that decision.

25. I filed a 602 staff complaint about the September 16 assault around September 19, 2020. On September 26, 2019, I was told that my 602 was bypassed at the first level of review and sent to the second level of review. On September 26, 2019, I was given a video-taped use of force interview. Because staff waited a full week after the incident to do my videotaped interview, my injuries had mostly healed. During the interview, I expected to be checked by a nurse, which usually happens before these interviews. I asked why I was not being checked by a nurse, and staff told me that they already had a 7219 form to refer to. They showed me one of my 7219 forms, which did not show any injuries. I then asked for another evaluation and they brought a nurse in to check me before the interview. Initially, she marked no injuries but I showed her the knots in my head and on my ankle, and eventually she documented those injuries. After she checked my injuries, Sergeant Rallo started the videotaped interview. He told me not to describe the incident in detail and to only tell him what I had told other staff before and written in my 602. The interview lasted about five minutes. They seemed to not be taking me seriously. Every time I tried to explain something further, they cut me off and told me not to mention anything that was not in my 602. They basically had me re-read my 602, and did not ask me any questions or follow up.

26. In my time at KVSP, there were many times that I have needed or wanted help and not been able to ask for it. After the assault, even though we were in the ASU and away from C-8, me and Mr. [REDACTED] were scared to eat because we were worried the food had been spit in or otherwise messed with. When you are charged with a staff assault, officers in the ASU make your life hell, so it is scary to ask for anything. Mr. [REDACTED] had to ask for his seizure medication while in the ASU, and they gave him a hard time and did not give him his medication on time. Officers in the ASU also refused to give me and Mr. [REDACTED] our shower shoes. We ending up having to bird bath, which is taking a shower in the cell, and officers were laughing as we did that.

27. I am afraid of filings 602s, especially after being assaulted because of filing one. I still report very bad incidents that happen to me because I feel I need to stand up for myself, but I am still pretty scared every time I do so.

28. After the assault, I continued to struggle with my mental health. In the period of time before the assault, the voices that I hear had escalated and I was having a hard time tuning them out. When I was assaulted and placed in segregation, this caused the voices to continue and to intensify. I also experience ongoing nightmares, which in combination with the voices make it very hard to sleep. When I mention this to mental health staff at KVSP and LAC, all they do is put me on new medications. I have expressed that I do not really want to take lots of medications and want better therapy instead, but I have not been able to get that.

29. In my opinion, staff target people with mental illness and weak prisoners. Staff feel like they have an easy target with these vulnerable groups of people. I also think staff feel like they can take their frustrations out on us because we will not report it or fight back often.

30. I believe there is so much staff misconduct at KVSP because the Warden's office and mental health staff do not do anything to stop the officers from assaulting and terrorizing people at KVSP. I feel like there is a culture where officers who are laid back and there to simply do their jobs get sucked in and start to follow the problematic officers around, creating a sort of gang-like culture where officers can do whatever they want.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, and that this declaration is executed at Lancaster, California this 17th day of June, 2020.

On June 17, 2020, due to the closure of California State Prison –Los Angeles County in light of the COVID-19 pandemic and ongoing concerns that officers might retaliate against witnesses in support of Plaintiffs' Motion, including ongoing concerns about the confidentiality of the legal mail system at California State Prison – Los Angeles County, I read the contents of this declaration, verbatim, to _____, by telephone. _____ orally confirmed that the contents of the declaration were true and correct. _____ also orally granted me permission to affix his signature to the declaration and to file the declaration in this matter.

DATED: June 17, 2020

Emma Cook

Exhibit 56a

Filed Under Seal

Exhibit 57

1. I have personal knowledge of the matters set forth herein, and if called as a witness, I could and would competently so testify.

3. I am an *Armstrong* class member. I have a Disability Placement Program (“DPP”) code of DNM, which is the code for a mobility impairment that does not require special placement or limit the person’s use of stairs. I use orthotics on my knees and ankles, and a back brace, to help with my mobility. I also have a lower bunk chrono because I cannot climb to a top bunk due to my mobility impairment. During the time I was at Kern Valley State Prison (“KVSP”), my disability and accommodation needs were similar to what they are today.

5. During the time I was at KVSP, I was at the Correctional Clinical Case Management System ("CCCMS") level of care, a level of mental health care lower than EOP. At CCCMS, I was able to live and program on mainline CDCR yards, alongside incarcerated individuals who do not have a mental health condition. After the incident described below, my mental health symptoms worsened quickly. I was admitted to a Mental Health Crisis Bed ("MHCB") in late February 2020. An MHCB is a short-term intensive care unit for people experiencing severe mental health crises. After I was in the MHCB, mental health staff decided I needed a higher level of mental health care than CCCMS and placed me in EOP.

1 6. I was housed at KVSP from September 24, 2019 to February 28, 2020. On
2 February 28, 2020, I was transferred to California Health Care Facility (“CHCF”), where I
3 stayed for about a week and a half in the MHCB until I transferred to MCSP on March 9,
4 2020.

5 7. During my time at KVSP, I was housed in the Administrative Segregation
6 Unit (“ASU”), which houses CCCMS patients and incarcerated people not in the mental
7 health system, and C Yard, Building 7.

8 8. I was a victim of staff misconduct at KVSP.

9 9. On February 27, 2020, around 6:30 a.m., I walked to the C-Yard patio from
10 my cell in C-7 to get my morning medication. When I arrived at the patio, three officers
11 were standing at the entrance, supervising entry into the medication line. One of the
12 officers, Officer M. Pompano, saw me as I was about to step through the metal detectors
13 by the patio, and said “[REDACTED], go back and put on your orthopedic shoes. You got state
14 issued shoes, go put them on.” I told him that I did not need to have my orthopedic shoes
15 on to get medications but agreed to go put them on. I went back to C-7, put on my shoes,
16 and returned to the patio. I walked through the metal detectors at the entrance to the patio
17 and walked by Officer Pompano on my way to the medical window. At the time I did not
18 know his name and was not sure how he knew my name and knew that I wore orthopedic
19 shoes. I asked him his name and he said “Pompano, capital P.”

20 10. One of the other officers standing by the entrance to the patio with Officer
21 Pompano did not give me his name and did not have his name tag on. When I asked his
22 name, he said, “shut the fuck up and get your meds.” I later found out this officer’s name
23 was Officer S. Furlong. I was frustrated and said back, “you shut the fuck up, you can’t
24 talk to me that way. I will file a complaint on you.” Officer Pompano and Officer Furlong
25 rushed over to the window where I was standing and Officer Pompano said, “You want to
26 talk shit, motherfucker? Okay!” Officer Pompano and Officer Furlong handcuffed me
27 right after I handed my ID to the nurse to get my medications. After I was cuffed, I
28 expected that they were going to grab my arms and have me turn around, but instead they

1 slammed my head face first into the medical window. My lip was busted open. I said,
2 “see you in court!” to let the officers know that I was going to report what had just
3 happened. Officer Furlong responded, “I don’t give a fuck. Do you know how many times
4 I’ve had to go to court?” Officer Pompano said “alright, you want to talk shit we’ll see
5 motherfucker, let’s go.” They each grabbed under one of my armpits from behind me and
6 lifted me, stretching my arms in an unnatural way. I thought they were trying to dislocate
7 my shoulder or break my arms.

8 11. Officer Furlong and Officer Pompano carried me like this into the C-Yard
9 program office, which is about ten feet from the medical window. As we were about eight
10 feet into the hallway after entering the building, Officer Furlong and Officer Pompano
11 again slammed me face and chest first into an office window that partitioned the hallway.
12 Sergeant Espinosa and Sergeant True were sitting at a table behind the glass that I was
13 slammed into. When I was slammed into the window, they both looked up suddenly.
14 Sergeant True stood up to intervene, and Officer Pompano said, “don’t worry Sergeant, we
15 got this.” Officer Pompano punched me in my jaw and I fell to the ground onto my
16 stomach, face first, with my head turned so that my left cheek was on the floor. Officer
17 Pompano kicked the exposed right side of my face. I heard one of the officers say “oooh,
18 watch out!” and was kicked again in the face, I believe by Officer Furlong. At this point, I
19 lost consciousness. I’m not sure how long I was unconscious. When I regained
20 consciousness, I was being lifted off the floor. As I was being picked up, I could see my
21 blood splattered over the wall and floor in the hallway.

22 12. Officer Mendoza, the third officer who had been with Officer Pompano and
23 Officer Furlong manning the gate to the patio, came into the program office hallway at
24 some point while I was being assaulted, or right after. Officer Mendoza walked me to a
25 closet-like room in the program office with holding cages. I was placed in a cage that was
26 filthy with blood and sweat. In the room, Officer Mendoza took my handcuffs off, wiped
27 the blood off of the cuffs, and handed them to Officer Pompano. Officer Mendoza had me
28

1 take my clothes off except for my sweatpants and left with Officer Pompano. I was left
2 alone in the holding cage. The door to the room with the holding cages was partially open.

3 13. Within a minute of being placed in the cage, I saw Sergeant Espinoza and
4 another incarcerated person working as a porter walk by. I called out to Sergeant Espinoza
5 and he popped his head through the partially open door to talk to me. I asked him not to
6 clean up the blood on the floor and asked that the KVSP Investigative Services Unit
7 (“ISU”) take photos of the blood. He leaned back away from me towards the hallway, and
8 partially closed the door. I heard him tell the porter “mop it up.” ISU officers showed up
9 a few minutes after this. I heard one of the ISU officers in the hallway ask, “where was he
10 beat?” I heard Sergeant True say “that’s where they beat him.” Another one of the ISU
11 officers asked the porter “who told you to mop this up?” I did not hear what the porter’s
12 response was. As this was happening, ISU Sergeant Iouza then came into the room where
13 I was with a camera to take pictures. I told him my chest hurt badly. He chose not to take
14 pictures of my injuries and left to get me medical attention and to speak with Officer
15 Pompano.

16 14. Very shortly after he left, a nurse came into the room where I was in the
17 holding cage. This was the nurse who distributed medication at the medical window
18 where my face had initially been slammed. The nurse examined my face but did not
19 document any injuries. She decided that I needed to go to medical and/or the hospital due
20 to my chest pains, and I was taken to the Triage and Treatment Area (“TTA”), a medical
21 clinic at KVSP. I was wheeled over to the TTA in a wheelchair. During the escort,
22 Sergeant Espinosa was squeezing my fingers in the handcuffs. I believe he was trying to
23 intimidate me.

24 15. The nurses at the TTA examined me again and tried to wipe the blood off my
25 face, but the officers gave them a stern look and they stopped wiping the blood away. The
26 nurses also documented that I had cuts on my face but did not document that my eyes were
27 swollen. I still had dried blood on my face when I went to the hospital.

28

1 16. I was sent to Delano Regional Medical Center (“DRMC”) in the late
2 morning and was there for a few hours before returning to KVSP. I told the staff there that
3 I had been assaulted by officers just a couple of hours ago. I was diagnosed at the visit
4 with assault by blunt trauma, and a laceration on my face. The medical staff glued my
5 laceration closed.

6 17. When I returned to KVSP from DRMC, I was placed in the ASU and
7 charged with “battery on a peace officer.” After the assault and through that evening in the
8 ASU, my mental health got a lot worse and I started feeling like I was going to hurt
9 myself. I was hearing voices telling me to kill myself—to “go ahead and do it”—and I
10 was seeing myself in blood and hanging. My thoughts were racing and I was feeling very
11 anxious and depressed. I reported this to the officers in the ASU early the next morning.

12 18. Before being seen for my mental health issues, I had my videotaped use of
13 force interview on the morning of February 28, 2020. Lieutenant Thompson was the
14 person leading the interview. Another staff member at the interview told the nurses to
15 evaluate me. They filled out a 7219 form fully documenting my injuries. I went back in the
16 room with two copies of the 7219, to resume my interview with Lieutenant Thompson. As
17 the other staff member was videotaping the interview, he went to capture the 7219 on the
18 video camera. Lieutenant Thompson said “no, no, no” and stopped him from recording the
19 7219. Lt. Thompson also threw one of the two 7219 forms in the trash and ended the
20 interview quickly. The interview lasted for no more than a few minutes.

21 19. I believe that Lieutenant Thompson did not do my interview correctly in
22 retaliation for a past incident I had with him. Lieutenant Thompson used to work at
23 California State Prison-Corcoran (“COR”), and was a defendant named in one of my
24 pending civil lawsuits against CDCR concerning COR. I requested an injunction in my
25 lawsuit asking to not be sent out of the ASU at KVSP because I did not feel safe on a
26 mainline yard at KVSP and figured the court might be able to address that in my civil case.
27 About a week after I filed the injunction, Lieutenant Thompson told me I was leaving the
28 ASU to go to the mainline yard in C-7 even though I had filed the injunction requesting

1 not to go out to the yard. I was moved to C-7 around February 1, 2020. When I got to C-
2 7, I was placed in a cell with another incarcerated person. This person told me that he was
3 released to the mainline without a classification hearing. He was feeling unsafe because a
4 person who had previously stabbed him was still in C-7. He told me that he told the
5 officers he was feeling unsafe, and they said he could go back to the ASU if he “took care
6 of [REDACTED].” He refused to do so, and I was not hurt at that time, but I believe that
7 Lieutenant Thompson and other officers were trying to set me up to be hurt.

8 20. After the videotaped use of force interview, around 9:00 a.m. on
9 February 28, 2020, I met with the crisis intervention team (“CIT”), a group of staff
10 including members of mental health staff, medical staff, and custody staff, that responds to
11 mental health crises. After discussing how I was feeling with them, they referred me to the
12 MHCB at CHCF so that I could get some care for my mental health crisis. They also had a
13 nurse evaluate me again and fill out another 7219 after seeing my injuries. The nurse that
14 did this 7219 was much more careful about documenting my injuries based on what I saw
15 her fill out. I have not yet received the 7219 reports or the incident packages about the
16 assault. I found out about what injuries were documented by requesting and reviewing my
17 medical records, but I have never seen my 7219s. I don’t know why.

18 21. I was transported to the CHCF MHCB and stayed there until March 9, 2020.
19 For the first seven days or so at CHCF, I could not eat because I felt like I was having a
20 constant anxiety attack. By the end of my time in the MHCB, I was feeling slightly better
21 than I had right after the assault but was still struggling with my anxiety and depression
22 about what had happened. Because of this, my clinicians at CHCF discharged me to EOP
23 instead of back to CCCMS, and I was moved to MCSP.

24 22. I filed a 602 staff complaint reporting this assault the day after I was
25 assaulted. CDCR quickly denied this complaint at the second level. The investigation was
26 based on the brief videotaped use of force interview done by Lt. Thompson. This appeal is
27 currently at the third and final level of review. The response was due earlier this month
28 and is currently late.

1 23. The Rules Violation Report (“RVR”) charging me with battery on a peace
2 officer is full of false details. The RVR only mentions Officer Pompano, even though
3 other officers were involved in assaulting me. The RVR states that I set off a metal
4 detector while entering the patio, and that Officer Pompano took me to the C-Yard
5 program office, in order to search me. The report also states that I was not handcuffed
6 because they were going to conduct an unclothed body search. This is not true—I was
7 handcuffed from the time I was at the medical window, which is not included in the report,
8 until after the assault. The report states that as Officer Pompano walked me, not
9 handcuffed, into the hallway of the program office, I yelled “fuck this!” and swung my
10 head backwards, hitting Officer Pompano’s face. The report says that Officer Pompano
11 ordered me to get down, and I refused and continued to swing my head at him. The report
12 states that Officer Pompano then pushed me to the ground, face forward. According to the
13 report, I continued to resist, even as Officer Pompano was yelling “stop resisting.” It is
14 well known that officers in CDCR and particularly at KVSP will yell out “stop resisting”
15 while they are assaulting an incarcerated person, in order to justify the misconduct. If it is
16 documented that they were claiming during the assault that the person was resisting, even
17 if they weren’t, they can justify using force during the interaction.

18 24. The report also states that I started grabbing his thigh, and he punched me in
19 the face multiple times in order to get me to loosen my grip on him. I have an injury to my
20 hand he accused me of grabbing him with—my fingers are bent and in a claw, and I cannot
21 grab things easily with that hand. It would not have been possible for me to have grabbed
22 his thigh. I asked to postpone my hearing for my RVR and still have not had it.

23 25. Even though I left KVSP right after this assault, the assault has made me
24 even more afraid to be around officers than I already was. I still have lingering medical
25 issues from this assault. I have ongoing pain in my back and neck, that has made my pre-
26 existing mobility issues even worse. It has been harder to get around since the assault. I
27 also have had an issue with my jaw since being punched. My jaw clicks when I open it.

28

1 26. My mental health quickly deteriorated after the assault into one of the most
2 intense mental health crises I have had. Before the assault, I had mental health symptoms
3 but was managing my symptoms through medication and CCCMS treatment. After the
4 assault, my anxiety and depression were a 10/10 for multiple weeks, even during and after
5 my stay in the MHCB. My voices were telling me to self-harm, and I was constantly
6 seeing in my head the images of me bleeding and hanging. I also had issues with sleeping
7 for a long time after the assault and had a recurring nightmare in which my face was
8 smashed against the wall, and blood was everywhere.

9 27. In my opinion, staff target people who are disabled and/or who have a mental
10 illness. When officers know that incarcerated people have a disability, suffer from mental
11 illness, or have any sort of vulnerability, they are more likely to pick on that person and
12 know that they can get away with assaulting them because they are weaker.

13 28. I believe there is so much staff misconduct at KVSP because there is a
14 system in place that lets officers get away with misconduct. It is well known that the
15 officers assault people, including myself, in the program office. In the program office,
16 there are usually no other incarcerated people, but many officers, sergeants, lieutenants,
17 and captains work in that office. That means that all of these staff members, even the well-
18 meaning ones, witness and are complicit in these assaults. Assaulting people in the
19 program office or other specific locations with lots of staff members means that KVSP can
20 easily cover up assaults by staff members. I believe that these prisons should use the
21 polygraph tests described in Title 15 to get the truth of these situations.
