UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF CALIFORNIA

RALPH COLEMAN, et al.,
Plaintiffs,
v.
GAVIN NEWSOM, et al.,
Defendants.

Case No. 2:90-CV-00520-KJM-DB

**AUGUST 18, 2020 JOINT REPORT
ADDRESSING CURRENT COVID-19-
RELATED DEPARTURES FROM
PROGRAM GUIDE REQUIREMENTS
AND RESUMPTION OF PROGRAM
GUIDE MENTAL HEALTH CARE**

Judge: Hon. Kimberly J. Mueller

On April 17, 2020, the Court ordered the parties to file a stipulation identifying “temporary departures from certain Program Guide requirements” for the provision of mental health care arising from Defendants’ efforts to respond to the COVID-19 pandemic. ECF No. 6622 at 2-3 (Apr. 17, 2020). On May 20, 2020, the parties submitted a stipulation and proposed order as the Court directed. *See* ECF No. 6679 (May 20, 2020). That stipulation set forth a process whereby the parties, on a monthly basis, would meet and confer, under the supervision of the Special Master, and report to the Court on updated changes to the stipulation and its attachment, Appendix A. *See id.* at 4-5. The parties filed updates to Appendix A, along with stipulations, on June 15, 2020, *see* ECF No. 6718, and July 15, 2020, *see* ECF No. 6761. The Court disposed of the parties’ May 20 stipulation without adopting it in the July 28, 2020 Order (ECF No. 6791) (“July 28 Order”). By minute order, the Court required the parties to continue to provide monthly updates regarding changes to Appendix A on the 15th of every month except for August 2020. (ECF No. 6814.) The July 28 Order also requires the parties to file “their positions on the path to full resumption of Program Guide level mental health care assuming the COVID-19 pandemic has not abated and will not abate for some time.” (ECF No. 6791 at 3.)

I. Updates to Appendix A and Defendants’ COVID Related Mental Health Reports.

The parties hereby submit the attached updated version of Appendix A, which captures as of the date of this filing the status of COVID-19-related departures from requirements set forth in the Program Guide and/or policies listed in the “Compendium of Custody Related Measures,” *see* ECF No. 6661 at 2, jointly filed by the parties on December 19, 2019 (ECF No. 6431) (“Compendium policies”). The parties agree that they must continue to provide the Court with the modifications set forth in Appendix A of ECF No. 6679, as updated on a monthly basis to reflect the current status of COVID-19-related departures to Program Guide and Compendium policy requirements.

1. The chart attached hereto as **Appendix A** identifies a further three temporary

1 policies and procedures implemented due to the COVID-19 pandemic that permit or
2 effectuate departures from Program Guide requirements for mental health care. **Appendix**
3 **A** includes policies that depart from the Program Guide and/or Compendium policies in
4 Defendants' efforts to manage the delivery of mental health care during COVID-19. Some
5 of these policies require care that exceeds the requirements set forth in the Program Guide.
6 True and correct copies of the three new temporary policies and procedures are attached
7 hereto as part of Appendix A.

8 2. In their May 20, 2020, stipulation, Defendants agreed to provide certain
9 reports to the Special Master and Plaintiffs. *See* ECF No. 6679 at 3-5, ¶ 2. Defendants
10 began producing reports the week of May 25, 2020. Redacted copies of those reports are
11 appended hereto:

- 12 a. Tier Report, July 13-17, 2020; July 20-24, 2020; July 27-31, 2020;
13 August 3-7, 2020, **Exhibit 1**;
- 14 b. Temporary Mental Health Unit (TMHU) and Treat In Place List, July 13-
15 17, 2020; July 20-24, 2020; July 27-31, 2020; August 3-7, 2020,
16 **Exhibit 2**;
- 17 c. Shower and Yard in Segregation Compliance Report for July 2020,
18 **Exhibit 3**;
- 19 d. TMHU 114-A Tracking Log Report for July 2020, **Exhibit 4**. This report
20 also integrates the report on the custody reviews of Max Custody patients
21 referred to a TMHU. *See* ECF No. 6679 at 3-4, ¶ 2(c);
- 22 e. On Demand TMHU Patient Registry, accessed August 18, 2020,
23 **Exhibit 5**; and
- 24 f. COVID-19 Mental Health Dashboard, accessed August 21, 2020,
25 **Exhibit 6**.

26 The parties have agreed on the form of the Tier Reports, ECF No. 6679 at 3, ¶ 2(a),
27 and the TMHU and Treat in Place List, *id.* at ¶ 2(b), although Plaintiffs have recently
28

1 identified a number of discrepancies and apparent errors in the latter report. The parties
2 will continue to meet and confer to discuss Plaintiffs' concerns regarding the TMHU and
3 Treat in Place List, along with the remaining reports. Defendants believe that once the On
4 Demand TMHU Patient Registry is improved to capture all patients in TMHUs and
5 classified as "Treat in Place," the TMHU and Treat in Place List, currently a manually
6 generated report, should be discontinued.

7 On July 22, 2020, Plaintiffs provided written comments to Defendants on the
8 Shower and Yard in Segregation Compliance Report, *id.* at 4, ¶ 2(d), and the TMHU 114-
9 A Tracking Log Report, *id.* at 3, 4 ¶¶ 2(c), (e). *See* ECF No 6761 at 3 (July 15, 2020).
10 Defendants responded to Plaintiffs' comments by letter on August 5, 2020. Plaintiffs
11 continue to have significant concerns regarding the content and utility of the Shower and
12 Yard in Segregation Compliance Report, and have a few remaining questions regarding the
13 TMHU 114-A Tracking Log Report. The parties will continue to meet and confer
14 regarding the content of these reports.

15 On July 31, 2020, as the parties agreed in the July 15 Program Guide Departures
16 Stipulation, *see* ECF No. 6761 at 3, Plaintiffs provided Defendants written comments on
17 the TMHU Patient Registry, ECF No. 6679 at 5, ¶ 2(f)(i). Plaintiffs' letter identified,
18 among other concerns, that the TMHU Registry does not provide information regarding
19 class members being treated in place, as required by the parties' May 20, 2020 stipulation.
20 *See id.* ("This registry will provide demographic information for each inmate referred to a
21 crisis bed or inpatient program, but still in outpatient housing."). Defendants stated on
22 August 17, 2020 that they are working towards modifying the TMHU Registry to also
23 gather information for patients referred to inpatient care who are not in a TMHU bed. The
24 TMHU Registry is no longer in beta form.

25 Defendants continue to develop the COVID-19 Mental Health Dashboard,
26 *id.* at 5, ¶ 2(f)(ii), in consultation with the Special Master. As planned, *see* ECF No. 6761
27 at 4, the Dashboard went live in beta form on August 3, 2020, with the goal to close out
28

1 beta testing on August 14, assuming no further changes are needed. On August 4, 2020,
2 Defendants provided the COVID-19 Taskforce with an updated glossary describing the
3 business rules for the August 3 beta release. But both Plaintiffs and the Special Master
4 reported to Defendants during the week of August 10 that they were not able to access the
5 Dashboard. Defendants worked to address this lack of access, and Plaintiffs now have
6 access and understand the Special Master team does as well.

7 3. On May 20, 2020, the parties reported that they were still negotiating the
8 data Defendants can provide regarding the average number of hours of out-of-cell
9 treatment, including yard and recreation time, offered per week, as well as the status of
10 available entertainment devices and other in-cell activities for all class members in mental
11 health segregation units. In meet and confer discussions, Defendants reported that they do
12 not have the capability to report on this information because none of this data is currently
13 automated and they lack a single source of tracking information that could be used to
14 provide a report on these issues. Defendants reported that, in lieu of a headquarters-level
15 automated tracking report, their typical practice is to regularly audit many of these items
16 via on-site audits by Mental Health Regional Administrators, but on-site audits are paused
17 due to the COVID-19 pandemic. On-site audits of open institutions resumed in mid-July
18 2020. Since that time, Defendants have inspected five institutions and collected data on
19 the operation of mental health segregation units at those five institutions. Defendants are
20 in the process of compiling that data, along with the methodology used to collect the data,
21 and will provide it to Plaintiffs by August 26, 2020. Plaintiffs remain concerned about
22 Defendants' inability to effectively track and report on these requirements at the
23 headquarters level, and about Defendants' reliance on on-site audits as a general matter
24 given Plaintiffs' concerns about the PSU and EOP ASU hub certification process. The
25 parties nonetheless agree to continue to meet and confer about these issues under the
26 supervision of the Special Master.

27 4. Two policies that were identified as "pending" in past versions of Appendix
28

1 A—a memo regarding the resumption of inpatient transfers within CDCR, and one
 2 regarding class members’ ability to earn milestone credits for mental health treatment
 3 during the pandemic—have been omitted from the attached August 17, 2020 version of
 4 Appendix A. Although at one point the parties were actively negotiating the content of
 5 these memos, their finalization and/or implementation has stalled and there is no definite
 6 timeline for their implementation or the resumption of negotiations.

7 5. Defendants also regularly issue a Daily Closed Movement Report listing all
 8 institutions that are closed to inter-institution transfers due to COVID-19. In accordance
 9 with the parties’ July 15 Program Guide Departures Stipulation, Defendants filed their July
 10 16, 2020 version of their periodic Maps filing with information regarding the closure status
 11 of each institution.¹ *See* ECF No. 6761 at (July 15, 2020). For the August 17 filing,
 12 Defendants added the institutions’ closure and re-opening dates, retroactively to May 21,
 13 2020 when the first closure reports were prepared. *See id.*

14 II. Parties’ Respective Positions on the Resumption of Program Guide Level 15 Mental Health Care.

16 A. Plaintiffs’ Position

17 Since very early in the pandemic, Plaintiffs requested and the Court ordered
 18 Defendants to provide a specific plan, with concrete objectives and deadlines, to ensure
 19 class members receive constitutionally adequate mental health care during the pandemic,
 20 particularly once the initial crisis phase passed. *See* Order, ECF No. 6580 at 2 (Apr. 6,
 21 2020); Order, ECF No. 6600 at 1-3 (Apr. 10, 2020); Order, ECF No. 6622 at 1-3 (Apr. 17,
 22 2020); Plfs’ Resp. to Defs’ Strategic COVID-19 Management Plan, ECF No. 6626 at 16
 23 (Apr. 20, 2020); Plfs’ Resp. to June 2, 2020 Order [ECF No. 6700], ECF No. 6724 (June
 24 16, 2020); Plfs’ Br. Re: Evidence Supporting Serious Mental Illness as Risk Factor for
 25 _____

26 ¹ The July 31 and August 3, 2020 Maps filings did not include this information, but at the
 27 time of the July 15 stipulation, the parties did not anticipate these additional Maps filings,
 28 which Defendants submitted pursuant to the Court’s July 28, 2020 Order, ECF No. 6791 at
 5.

COVID-19 & Need for Additional Mental Health Interventions, ECF No. 6751 at 14-20 (July 2, 2020); Decl. of Jessica Winter in Supp. of Aug. 21, 2020 Program Guide Departures Update & Joint Report, filed herewith (“Winter Decl.”), ¶ 14 & Exs. K, L; *see also* Order, ECF No. 6643 at 2 (Apr. 27, 2020) (noting that CDCR’s pandemic response was moving past the initial crisis management phase; that “ongoing refinements of [Defendants’] initial plans and policies” related to the pandemic might be warranted, and the lack of “horizon” for the pandemic’s impact on the *Coleman* class); Order, ECF No. 6700 at 2 (June 2, 2020) (raising question whether the Court “can or should approve any measure that falls below Eighth Amendment requirements as those are memorialized in the Program Guide”); Order, ECF No. 6750 (July 2, 2020) (proposing potential measures Defendants could take to provide constitutional care notwithstanding pandemic). To capture the state of the Mental Health Services Delivery System, the Court ultimately ordered the parties to describe with specificity the manner in which Defendants’ COVID-19 response efforts have impacted the provision of mental health care to the plaintiff class. *See* ECF No. 6622 at 2-3 (Apr. 17, 2020).

On May 20, 2020, the parties filed a proposed stipulation and update describing departures from Program Guide requirements resulting from Defendants’ responses to the pandemic and Defendants’ related reporting commitments, *see* Stip. & Prop. Order in Resp. to Apr. 17, 2020 Order (“May 20 Stipulation”), ECF No. 6679 (May 20, 2020), and since have filed two additional stipulations identifying departures from Program Guide requirements wrought by Defendants’ pandemic response, *see* Stip. & Update Addressing Current COVID-19-Related Departures from Program Guide Requirements, ECF No. 6718 (June 15, 2020); July 15, 2020 Stip. & Update Addressing Current COVID-19-Related Departures from Program Guide Requirements, ECF No. 6761 (July 15, 2020). All along, Plaintiffs have reiterated to Defendants—in taskforce meetings and other discussions, in letters, and in filings, *see, e.g.*, Plfs’ Br. Re: Evidence Supporting Serious Mental Illness as Risk Factor for COVID-19 & Need for Additional Mental Health Interventions, ECF No.

6751 at 14-20 (July 2, 2020); Third Jt. Update on Work of COVID-19 Task Force, ECF No. 6813 at 11 (Aug. 12, 2020) (“Third Taskforce Update”); First Jt. Update on Work of COVID-19 Task Force, ECF No. 6765 at 9 (July 15, 2020); Winter Decl. ¶ 14 & Exs. K, L—that they are obligated to continue providing minimally adequate mental health treatment to class members, and that the failure to do so in these challenging times is not only devastating to those with mental health needs, but also likely to result in much graver consequences as the months and potentially years of the pandemic wear on. Five months into the pandemic, continuing indefinitely the status quo of mental health treatment in CDCR is simply unacceptable.

A. Extending the Program Guide Departures Process Is, Unfortunately, Necessary, But It Is Unconstitutional for Defendants to Continue to Provide Mental Health Care to Class Members at Current Levels and There Is No End in Sight.

In response to the Court’s second question in the August 14, 2020 minute order (ECF No. 6814), Plaintiffs agree it continues to be necessary to keep the Court apprised of Defendants’ “sub-plans for management of the delivery of mental health care and programming required by the Program Guide during the COVID-19 pandemic,” as Defendants have thus far failed to produce any proactive, overarching plan to achieve constitutional compliance and instead continue to focus on COVID-specific policies that are piecemeal and reactive. Order, ECF No. 6622 at 2 (Apr. 17, 2020). It is imperative that Defendants continue to update the Court on their current policies and practices to allow for appropriate oversight and monitoring by the Special Master, Plaintiffs, and the Court, and to ensure mental health treatment does not fall even further below the constitutional standards. *See* Order, ECF No. 6791 at 2-3 (July 28, 2020).

This does not, of course, mean Plaintiffs agree that the level of mental health care being provided to class members is close to minimally sufficient, or that Defendants are making adequate efforts to provide mental health care during the pandemic. Plaintiffs repeatedly have offered suggestions to Defendants of ways to supplement or provide

1 alternate mental health programming and treatment during the pandemic, *see, e.g.*, Plfs’
2 Br. Re: Evidence Supporting Serious Mental Illness as Risk Factor for COVID-19 & Need
3 for Additional Mental Health Interventions, ECF No. 6751 at 14-20 (July 2, 2020); Winter
4 Decl. ¶ 14 & Exs. K, L, but Defendants have not demonstrated a sustained, comprehensive
5 effort to identify concrete standards for the delivery of mental health care to class members
6 during the pandemic, *see, e.g.*, Second Jt. Update on Work of COVID-19 Task Force, ECF
7 No. 6792 at 12 (July 29, 2020) (noting Defendants’ position that minimum treatment
8 standards for EOP and inpatient level of care patients cannot be established during the
9 pandemic). Nor have they been able or willing to ensure class members receive some
10 minimally adequate level of mental health care.

11 The pandemic has stretched on for more than five months. For at least the last four
12 months, Defendants have acknowledged there is no “horizon” to the pandemic, and
13 therefore no end in sight to the interruptions in standard programming for class members—
14 even where pre-pandemic programming fell short of constitutional standards. This
15 includes in CDCR’s inpatient psychiatric hospitals, the PIPs, where Defendants do not
16 dispute that care was well below the constitutional minimum before COVID-19 and is
17 even worse now. Interim COVID-19 policies that may have been appropriate in the first
18 month or two of the pandemic must be revisited. Well past the emergency phase of the
19 pandemic, the Court should no longer countenance the extreme suffering of class
20 members, in addition to the needs of all prisoners who now are experiencing extreme
21 anxiety, stress, and other mental health impacts of the pandemic.

22 Plaintiffs will continue in good faith to participate in the process of updating the
23 Court regarding Defendants’ COVID-19-related departures from Program Guide
24 standards, and to work with Defendants in conjunction with the Special Master to develop
25 solutions and alternatives, given that the pandemic is here to stay. But the current mode of
26 reactive, ineffective, and inadequate half-measures must end.

B. Defendants Must Develop a Concrete Plan to Full Resumption of Program Guide-Level Mental Health Care Because the Pandemic Has Not Abated and Will Not Abate in the Foreseeable Future.

As the Court repeatedly has ordered, Defendants must develop a proactive plan, with specific, concrete benchmarks and timelines for completion, to ensure class members receive constitutionally adequate mental health care during this long-term pandemic. *See* Order, ECF No. 6600 (Apr. 10, 2020); Order, ECF No. 6622 (Apr. 17, 2020); *see also* Minute Order, ECF No. 6814 (Aug. 14, 2020). In the face of the isolation, suffering, and mental health decompensation of the plaintiff class, Defendants must either develop a comprehensive plan to achieve constitutional compliance and then take prompt action to implement it, or release a sufficient number of class members such that constitutionally adequate mental health care can be provided to those who remain incarcerated. *See generally* Plfs' Response to Order of July 2, 2020, ECF No. 6766 (July 15, 2020); *see also* Order, ECF No. 6750 (July 2, 2020).

While Defendants' reporting mechanisms are still a work in progress, and Plaintiffs have only an imperfect window into the current status of the Mental Health Services Delivery System, Winter Decl. ¶ 2 & Ex. A (describing apparent omissions and errors in Defendants' COVID-19 reporting mechanisms); *see also* Third Taskforce Update at 5 (same), the constellation of data points and information available depict the starkly inadequate state of mental health treatment in CDCR. For example, in the last joint report to this Court on the status of the COVID taskforce, Defendants agreed that: (1) nearly two-thirds of CDCR institutions and four of the five PIPs were closed to external movement, severely impeding class members' ability to transfer to receive appropriate levels of mental health care; (2) despite weeks of effort, Defendants were not able to restart EOP group programming at San Quentin's H unit and had only just restarted offering yard on a limited basis; and (3) that no group treatment was being offered to psychiatrically hospitalized patients at CHCF PIP, and only very limited group hours were offered at the CMF and SVSP PIPs. Third Taskforce Update at 3-5.

Indeed, no one disputes that the mental health care being provided in the PIPs—reserved for the most acutely ill class members—did not meet constitutional standards even before the pandemic-related obstacles made the situation worse. *See* Special Master’s Amended Report on the Current Status of *Coleman* Class Members’ Access to Inpatient Care, ECF No. 6579 at 19-30 (Apr. 6, 2020); *see also* Decl. of Lisa Ells in Supp. of Plfs’ Request to Continue DSH Evidentiary Hrg. for 60 Days (“July 30 Ells Decl.”), ECF No. 6797-1, ¶ 5 (July 30, 2020) (noting agreement by Defendants that PIP care remains constitutionally inadequate). Similarly, at CMF’s L1 PIP unit, which operates pursuant to a court-ordered waiver requiring a minimum of 12 hours of out-of-cell time daily per class member, *see* Stip. & Order Extending L-1 Waiver, ECF No. 6606 at 2, 3 (Apr. 15, 2020), class members received zero structured treatment hours in April, May, and June 2020, *see* Winter Decl. ¶ 3 & Ex. B.

But most class members are not even being admitted to the inpatient hospital settings their clinicians have determined they need. Indeed, as has routinely occurred in the history of this case when inpatient care is effectively not available to patients, CDCR clinicians have simply stopped referring patients. The number of MHCB referrals, as well as the proportion of referrals that ultimately result in admissions to a crisis bed, have plummeted with the onset of the pandemic. *See* Bien Decl. in Supp. of Plfs’ Response to Order of July 2, 2020 (“July 15 Bien Decl.”), ECF No. 6767, ¶ 28 & Exs. CC, DD (July 15, 2020) (showing 34% fewer MHCB referrals in June 2020 than June 2019); *see also id.* ¶ 28 & Ex. DD (showing 44% of crisis bed referrals were rescinded in June 2020). At the same time, vacancies in the DSH hospital beds set aside for *Coleman* class members climb week after week, even as the pending demand for inpatient care grows and numerous class members wait past Program Guide timelines. July 30 Ells Decl. ¶¶ 3-4 & Exs. A, B; *see also* Defs’ Census, Waitlist, & Transfer Timeline Report, ECF No. 6823 at 4, 6, 13 (Aug. 18, 2020). The raw numbers of class members actually receiving crisis and inpatient care have plummeted since February 2020. *Compare* July 15 Bien Decl. ¶ 8 & Ex. I (showing

1 354 patients in MHCBs and 1,527 patients in inpatient programs in February 2020), *with*
 2 Winter Decl. ¶ 8 & Ex. E (showing 254 patients in MHCBs and 1,359 patients in inpatient
 3 programs as of July 27, 2020). Indeed, the number of class members receiving acute
 4 inpatient care has fallen dramatically over the past five months, even though Defendants
 5 ostensibly are continuing to complete emergent mental health transfers of the kind that
 6 acute psychiatric hospitalization would seem to require. *Compare* July 15 Bien Decl. ¶ 8
 7 & Ex. I (showing 388 patients in acute psychiatric programs in February 2020), *with*
 8 Winter Decl. ¶ 8 & Ex. E (showing 296 patients in acute psychiatric programs as of July
 9 27, 2020).

10 Defendants' COVID Dashboard, which they recently released to Plaintiffs and the
 11 Special Master in beta form pursuant to the May 20 Stipulation, confirms these trends. *See*
 12 May 20 Stipulation at 5. ICF and MHCB referrals are at roughly half the number they
 13 were at this time last year, and acute referrals are at roughly a quarter of the number they
 14 were at this time last year. *Id.* ¶¶ 10-12 & Exs. G, H, I. This is not because class members
 15 are doing well, but because they are not being evaluated and treated appropriately:
 16 Clinical staff are completing substantially fewer Suicide Risk And Self-Harm Evaluations
 17 ("SRASHEs") even though class members are engaging in self-injurious behavior—
 18 including with intent to die—at rates comparable to those of last year. *See id.* ¶ 9 & Ex. F.
 19 And, despite the fact that Defendants' interim protocols require patients referred for
 20 inpatient care who cannot transfer to that level of care to be housed instead in a centralized
 21 Temporary Mental Health Unit ("TMHU") to receive enhanced treatment, the vast
 22 majority of class members referred for ICF care are scattered in various outpatient
 23 settings—including segregation units—even while Defendants' TMHUs at the same
 24 institutions sit essentially (and often literally) empty. *Compare id.* ¶ 10 & Ex. G, *with*,
 25 *e.g.*, Defs' Maps & Data Submission, ECF No. 6819 at 20 (Aug. 17, 2020) (CMC: 9 ICF
 26 patients in non-TMHU outpatient housing, including 4 in segregation; 33 empty TMHU
 27 beds), 27 (COR: 9 ICF patients in non-TMHU outpatient housing, including 3 in

1 segregation; 48 empty TMHU beds), 32-33 (KVSP: 8 ICF patients in non-TMHU
 2 outpatient housing, including 1 in segregation; 54 empty TMHU beds), 35-36 (LAC: 31
 3 ICF patients in non-TMHU outpatient housing, including 14 in segregation; 28 empty
 4 TMHU beds), 39 (MCSP: 9 ICF patients in non-TMHU outpatient housing, including 3 in
 5 segregation; 19 empty TMHU beds), 54 (SAC: 31 ICF patients in non-TMHU outpatient
 6 housing, including 17 in segregation; 30 empty TMHU beds), 56-57 (SATF: 15 ICF
 7 patients in non-TMHU outpatient housing, including 2 in segregation; 20 empty TMHU
 8 beds), 71-72 (WSP: 4 ICF patients in non-TMHU outpatient housing, including 2 in non-
 9 mental health segregation unit; 16 empty TMHU beds) (Aug. 17, 2020); *see also* Defs’
 10 Strategic COVID-19 Management Plan, ECF No. 6616-1, Attachment W at 241 (Apr. 16,
 11 2020) (April 10, 2020 CDCR COVID Temporary Transfer Guidelines & Workflow,
 12 stating that if patient needing inpatient care cannot be transferred to that level of care
 13 within his or her institution, the “next best option is for the patient to be housed and treated
 14 in the same institution within a” TMHU).

15 Even if class members indefinitely awaiting inpatient hospitalization are housed in
 16 TMHUs, however, that does not mean they are receiving even basic programming or
 17 treatment. Notwithstanding their need for inpatient psychiatric hospitalization, patients in
 18 TMHUs have very limited outlets for the stress and isolation caused by the pandemic.
 19 Defendants’ 114-A tracking logs show that in June and July 2020 class members received,
 20 at most, an average of just over three hours of yard time per week; they typically received
 21 on average only one or two hours of yard per week. Winter Decl. ¶ 5 & Ex. C. The
 22 majority of class members received zero yard hours for every week in June and July,
 23 except two week, where 10 of 27 and 19 of 39 class members received zero hours of yard.
 24 Defendants’ TMHU 114-A logs also show that few class members have access to
 25 electronic appliances that are critical for helping them cope with the harsh conditions and
 26 lack of programming—only 2 of 102 class members in TMHUs in July had an appliance,
 27 and only 3 of 137 in June. *Id.* ¶ 6 & Ex. C.

Defendants' TMHU Registry shows similarly very few group hours offered to class members. *See id.* ¶ 7 & Ex. D. The COVID Dashboard depicts an egregiously deficient MAX TMHU program as well: None of the patients who have been housed in a MAX TMHU for a week or more to date have been offered the five hours of out-of-cell structured treatment per week required by Defendants' policies. *See id.* ¶ 13 & Ex. J (showing no class member was offered more than two of the five required structured treatment hours); *see also* May 20 Stipulation at 55 (April 17, 2020 COVID Emergency Mental Health Treatment Guidance for MAX Custody Patients, requiring "at least 5 hours of structured, out-of-cell treatment" per week).

These segregation-like settings for class members in TMHUs are on top of the reality that the length of stay for class members in actual segregation units has increased substantially since the pandemic began, as have absolute numbers and the proportionate representation of class members in segregation units. *See* July 15 Bien Decl. ¶¶ 45-47 & Exs. NN-PP.

While Plaintiffs have been offering ideas and input on an ongoing basis, Winter Decl. ¶ 14 & Exs. K, L, and will continue to do so, it ultimately is Defendants' obligation to develop and implement a plan that meets constitutional minima, *see Rizzo v. Goode*, 423 U.S. 362, 378-79 (1976) (ruling courts must grant government agencies the "widest latitude in the dispatch of [their] own internal affairs" (citation omitted)); *Rufo v. Inmates of Suffolk Cty. Jail*, 502 U.S. 367, 392 (1992); *Lewis v. Casey*, 518 U.S. 343, 362-63 (1996). They have the full support and expertise of the Special Master in doing so, including meeting on a weekly basis with the Special Master's experts in a small group setting, but have failed to come forward with even an outline of a plan to date. *See* Order of Reference at 2, ECF No. 640 (Dec. 11, 1995) (tasking Special Master with assisting Defendants with developing remedial plans to address constitutional violations). Yet Defendants have confirmed just a few days before this filing that they have no real proposal even to discuss with the Special Master in the first instance, much less to

1 negotiate with Plaintiffs or submit to this Court, and will not have one in the near term.
 2 Winter Decl. ¶ 15.

3 Plaintiffs have offered a number of suggestions to Defendants regarding approaches
 4 they can take either to supplement or substitute mental health programming for class
 5 members during the pandemic. *See* Plfs' Br. Re: Evidence Supporting Serious Mental
 6 Illness as Risk Factor for COVID-19 & Need for Additional Mental Health Interventions,
 7 ECF No. 6751 at 14-20 (July 2, 2020); Winter Decl. ¶ 14 & Exs. K, L. A partial list of
 8 those suggestions—which Defendants have, with very limited exception, either ignored or
 9 expressly rejected—includes:

- 10 • Create a comprehensive, proactive plan for providing mental health care in the
 11 long-term, as opposed to short-term, ad hoc, partial measures;
- 12 • Create a risk-stratification plan that defines treatment criteria for those on
 13 quarantine, in isolation, with resolved cases, and in other categories based on
 14 COVID-19 risk. The plan should include criteria for access to primary clinicians,
 15 psychiatrists, group treatment, out of cell time, telephones, and entertainment
 16 appliances, among other things;
- 17 • Provide class members with tablets and allow email and internet capability
 18 universally. Use this functionality to provide mental health treatment, allow
 19 contacts with support systems inside and outside the prisons, and provide
 20 educational, vocational, religious, and entertainment programming. Any such
 21 technology could be programmed or designed with necessary security features in
 22 place, as many correctional systems across the country have already done;
- 23 • Improve infrastructure, including by installing wifi and cable capability to ensure
 24 people can actually access remote services and programming, including for the
 25 entertainment devices that CDCR already provides now;
- 26 • Incorporate relevant COVID-19 risk-reduction and prevention strategies into class
 27 members' treatment plans;
- 28 • Increase communication and education between mental health providers and
 patients regarding COVID-19;
- Resume visiting using glass partitions or tablets, or implement video visiting
 protocols;

- 1 • Expand tele-mental health options further, using tablets as necessary so people can
- 2 have confidential one-to-one contacts with their treatment providers;
- 3 • Make sure every class member gets a functioning radio or television, regardless of
- 4 security or privilege level;
- 5 • Make telephones universally available on an individual basis by providing class
- 6 members with cell phones or in-cell landlines so that people can participate in
- 7 confidential mental health treatment and contact loved ones for support. At the very
- 8 least, increase the number of phone carts and shared landlines so people can contact
- 9 loved ones more often;
- 10 • Reintroduce group programming using strict cohorts, PPE, face coverings, and
- 11 outdoor spaces. The same modifications can be used to offer psychiatry services
- 12 and one-to-one contacts with a primary clinician;
- 13 • Use volunteer resources and other incarcerated people, after providing training, to
- 14 be emotional support outlets for other incarcerated people. Individual phone access
- 15 would facilitate these modes of support, which have been implemented successfully
- 16 in other jurisdictions;
- 17 • Provide additional training for medical staff to identify, intervene, and triage mental
- 18 health issues; and
- 19 • Provide additional support for staff, to protect and preserve this limited resource.

20 *Id.*

21 Notwithstanding substantial leeway, including the use of emergency powers if

22 necessary and significant patience from Plaintiffs, the Special Master, and the Court,

23 Defendants to date do not even have an outline of a plan for how to begin the slow climb

24 from the admittedly sub-constitutional care being provided now to something approaching

25 the Program Guide's standards. With the crisis phase of the pandemic well behind us,

26 Defendants appear content to continue simply to accept things as they are and promise best

27 efforts to improve them at some point. Winter Decl. ¶ 15. Without a court order,

28 Defendants may well never commit to taking the hard steps necessary to create a serious,

unified, systemic plan, including interim benchmarks, to ensure the mental health care

class members receive meets at least the Program Guide's constitutional floor. This Court

1 should order them to do so within thirty days.

2 B. Defendants' Position

3 Defendants are working tirelessly to provide effective mental health care to patients
4 in their custody during the COVID-19 pandemic, and, as they can, Program Guide-level
5 care. While the pandemic indisputably poses challenges for the delivery of Program
6 Guide-level care across the Mental Health Services Delivery System, Defendants are
7 committed to providing the central elements of Program Guide-level care, and are
8 currently working on plans to do so, both during the pandemic and after it has concluded.

9 Defendants' commitment is evidenced by the comprehensive CDCR COVID-19
10 Strategic Response Plan, and its subcomponents addressing mental health care, filed in
11 April (ECF No. 6616), as well as the numerous alternative policies and plans described in
12 Exhibit A. Defendants continue taking steps to resume Program Guide-level care,
13 including resuming groups, providing structured and unstructured out-of-cell time, and
14 resuming transfers to appropriate levels of care. Defendants actively participate in the
15 Special Master's weekly COVID-19 Task Force and small workgroup meetings. In
16 particular, Defendants' subject-matter experts and the Special Master's experts continue to
17 meet weekly to discuss potential solutions to the unique challenges presented by the
18 pandemic with an eye toward resuming Program Guide-level care across the system.

19 While CDCR continues to work collaboratively with the Special Master and
20 Plaintiffs, CDCR has also developed, in consultation with the Receiver, numerous plans to
21 reopen programming and movement. Those plans, as well as ongoing efforts to creatively
22 provide mental health care to patients, are discussed below.

23 a. CDCR's Institutional Roadmap to Reopening Sets Benchmarks for Each
24 Institution to Provide More Programming and Out-of-Cell Time.

25 CDCR issued its Institutional Roadmap to Reopening, a comprehensive plan to
26 address the operational issues posed by COVID-19, which includes a blueprint for
27 providing statewide oversight and direction to reopen operations based on each
28

institutions’ needs and risks. A copy of that plan is attached as Exhibit B. The plan sets forth the level and type of programming—including visitation, out-of-cell time, rehabilitation programming, education, and substance abuse groups—that an institution can offer based on objective criteria. As institutions demonstrate that they can advance between one of four phases, restrictions on programming will ease. An institution’s phase will be determined by several criteria, including testing capabilities, staffing coverage, and the length of time since each institution has experienced new positive cases of COVID-19.

b. CDCR’s COVID-19 Screening and Testing Matrix for Patient Movement
Sets Forth a Comprehensive Plan to Safely Move Patients From One
Location to Another.

Defendants continue to make progress with transferring patients to appropriate levels of care. Early in the pandemic, Defendants issued guidance on April 10 and 17, 2020, on transferring patients in emergency situations. On August 19, 2020, CDCR issued its COVID-19 Screening and Testing Matrix for Patient Movement which outlines, for each type of inter or intra-institutional movement, the COVID testing strategy that must take place prior to each type of clinically necessary transfer. Defendants will be prepared to discuss the “Movement Matrix” and its implication for the Coleman class at the August 25, 2020, taskforce meeting.

c. CDCR is Providing Alternative Forms of Care as CDCR Adopts its
“Movement Matrix” and Roadmap to Reopening.

Defendants are providing as much mental health treatment as possible to its patient population. Defendants are currently focused on providing alternative forms of care where COVID prevents the provision of full Program Guide care such as group treatment or inter-institutional transfers. For instance, Defendants have increased in-cell mental health activities, provided mental health rounding, and, for some patients referred to higher levels of care, activated Temporary Mental Health Units or directed the field to provide enhanced treatment. Defendants are also utilizing nurse-led groups to help augment group hours.

1 And Defendants have activated over seventy new treatment spaces to provide smaller
2 groups and tele-health. Defendants are in the process of developing a statewide survey to
3 assess the ability of institutions to provide enough mental health groups.

4 d. Defendants Must Be Provided Flexibility to Address Mental Health Care

5 While Taking Necessary Precautions to Mitigate the Spread of COVID-19.

6 Defendants continue to take steps to address the COVID-19 pandemic while also
7 working to achieve more normal programming while faced with necessary testing and social
8 distancing restrictions. COVID-19 is not a static crisis, within CDCR or throughout the
9 state. As can be seen around the world, communities have continued to experience
10 outbreaks regardless of the precautions taken, and any path to the resumption of Program
11 Guide-level of mental health care within CDCR will need the flexibility to address these
12 outbreaks as they occur. Defendants' phased and measured approach to reopening
13 institutional programming will take this into account by providing criteria for easing
14 restrictions and resuming those restrictions as needed to contain outbreaks on an
15 institution-by-institution basis. The provision of transfers, meanwhile, is highly dependent
16 on Defendants' ability to accurately and quickly test and quarantine each patient, factors
17 largely within the determination of the Plata Receiver. Defendants appreciate the
18 Receiver's efforts to increase testing capabilities, and will continue working with staff to
19 improve this vital function. Testing speed and accuracy has improved over the duration of
20 the pandemic, but it remains a barrier to the full resumption of pre-pandemic activities,
21 within CDCR as with the rest of the country.

22 Rather than an order setting a date certain for compliance with Program Guide-level
23 care, this issue should be addressed collaboratively through the ongoing task force and
24 small workgroup meetings, as it is currently. That is why this Court established the task
25 force and why the parties now provide bi-weekly reports on the parties' discussions. The
26 Special Master's experts have indicated that they will be discussing Defendants' plans in
27 upcoming small workgroups, which have already provided a valuable forum for the receipt
28

1 of input from the Special Master's experts regarding proposed policies and procedures.
2 The Special Master has signaled, for instance, that the next task force meeting will be
3 devoted to the newly released COVID-19 Screening and Testing Matrix for Patient
4 Movement. Furthermore, allowing the Special Master and Plaintiffs to be involved in the
5 development of a path for the provision of Program Guide-level care during the pandemic
6 will foster expedited implementation and minimize litigation, while allowing Defendants
7 the flexibility necessary to preserve the health and safety of the patient population.

8 Defendants look forward to further collaborating with Plaintiffs and the Special
9 Master and his experts regarding Defendants' continuing efforts to provide Program-Guide
10 care to class members. Defendants remain committed to a transparent discussion about
11 barriers and solutions, and they will continue to update the Court on the progress made by
12 the task force and small workgroups.

13 CERTIFICATION

14 In preparing Plaintiffs' portion of this brief, Plaintiffs' counsel reviewed the
15 following Court orders: Order of Reference, ECF No. 640 (Dec. 11, 1995); Order, ECF
16 No. 6580 (Apr. 6, 2020); Order, ECF No. 6600 (Apr. 10, 2020); Order, ECF No. 6622
17 (Apr. 17, 2020); Order, ECF No. 6643 (Apr. 27, 2020); Order, ECF No. 6700 (June 2,
18 2020); Order, ECF No. 6750 (July 2, 2020); Order, ECF No. 6791 (July 28, 2020); Order,
19 ECF No. 6814 (Aug. 14, 2020).

20 Defendants' counsel reviewed the following Court orders: Order, ECF No. 6791
21 (July 28, 2020); Order, ECF No. 6814 (Aug. 14, 2020).

*Resumption of Mental Health Crisis Bed Transfers During COVID 19 Pandemic (June 2, 2020)	<p>Program Guide 12-1-16 (timelines for level of care transfers)</p> <p>Program Guide at 12-3-1 to 2, 12-3-12 to 14, 12-4-1, 12-4-13, 12-4-16, 12-4-20 to 21, 12-5-2, 12-5-15, 12-5-26 to 29, 12-5-32, Chapter 6, 12-7-2 to 8, 12-7-11, 12-7-12, 12-8-1, 12-8-5 to 7, 12-8-9, 12-8-11 to 12, 12-9-2 to 3, 12-9-4 to 5, 12-9-6, 12-9-12 to 14, 12-10-12 to 13, 12-10-19 to 21 (access to higher levels of care)</p>	<ul style="list-style-type: none"> • Protocols likely to result in transfers exceeding 24-hour timeline
Updated Draft COVID Temporary Guidelines for Transfer to DSH Inpatient Care (July 16, 2020, superseding April 15, 2020, May 15, 2020, June 12, 2020, and June 19, 2020 versions)²	<p>Program Guide 12-1-16 (timelines for level of care transfers)</p> <p>CDCR-DSH MOU and PIP Policy 12.11.2101(A) – Referrals and Admissions & Exceptions Addendum</p>	<ul style="list-style-type: none"> • Provides direction on transfers between DSH and CDCR that may impact timeframes • Provides direction that when the psychiatric benefit of transfer outweighs the medical risk of COVID-19 transmission, a patient will be cleared for referral.

² Although Plaintiffs agreed to Defendants' implementation of this policy, subject to monitoring by the Special Master and evidence that the standard is being implemented appropriately, Plaintiffs learned on July 29, 2020 that this policy had not been issued to

Policy, Memorandum, or Guidelines	Program Guide or Related Policy Provision	Summary of Departure
	<p>Program Guide at 12-3-1 to 2, 12-3-12 to 14, 12-4-1, 12-4-13, 12-4-16, 12-4-20 to 21, 12-5-2, 12-5-15, 12-5-26 to 29, 12-5-32, Chapter 6, 12-7-2 to 8, 12-7-11, 12-7-12, 12-8-1, 12-8-5 to 7, 12-8-9, 12-8-11 to 12, 12-9-2 to 3, 12-9-4 to 5, 12-9-6, 12-9-12 to 14, 12-10-12 to 13, 12-10-19 to 21 (access to higher levels of care)</p>	<ul style="list-style-type: none"> • Delays certain individuals who otherwise qualify for transfer from CDCR to DSH from doing so, where the patient tests or screens positive for COVID. • For referrals to DSH from a CDCR institution closed due to a COVID-19 outbreak, patient transfers to DSH will occur on a rare, case-by-case basis. CDCR and DSH leadership will discuss the details of such referrals, including exposure risk, availability and use of PPE, testing and results, and the extent of staff crossover between units with active cases and those without cases to evaluate the possibility of transfer. Patients considered for transfer pursuant to this process will be quarantined for 14 days, and tested for COVID-19 twice, followed by a further discussion between CDCR and DSH leadership regarding any interim exposure risks that occurred during the quarantine period. • The Special Master continues to closely monitor all referrals, rejections and completed transfers to and from the DSH

the field. Defendants represent that both CDCR and DSH have been following the policy since July 14, 2020 even though the document has not been routed for finalization or issued to the field. Plaintiffs cannot confirm that representation.

Policy, Memorandum, or Guidelines	Program Guide or Related Policy Provision	Summary of Departure
		<p>inpatient programs. <i>See</i> ECF No. 6622 at 3. DSH and CDCR have collaborated to refine the risk analysis of balancing the patients’ psychiatric medical needs with the COVID-19 risk factors with the advent of new testing capabilities, under the supervision of the Special Master and within the limits outlined in the Court’s April 24, 2020 Order (ECF No. 6639). DSH is working with the Special Master’s experts and CDCR to update and revise these transfer protocols to capture accurately the COVID-19 risk analysis that is occurring in practice.</p>
<p>*DAI Update Email Re: MH Movement Adjustments (June 26, 2020)³</p>	<p>Program Guide 12-1-16 (timelines for level of care transfers)</p> <p>Program Guide at 12-3-1 to 2, 12-2-8 to 10, 12-3-12 to 14, 12-4-1, 12-4-13, 12-4-16, 12-4-20 to 21, 12-5-2, 12-5-15, 12-5-26 to 29, 12-5-32, Chapter 6, 12-7-2 to 8, 12-7-11, 12-7-12, 12-8-1, 12-8-</p>	<ul style="list-style-type: none"> • Potential delays in transfer to/from restricted housing units (ASU, ASU EOP-HUB, STRH, LTRH, SHU, PSU) due to transfers limited to within the institution “when possible.” • Referrals to DSH continue according to review process in June 19, 2020 Updated COVID-19 Guidelines for Transfer to DSH.

³ This June 26, 2020 memorandum updates and supersedes an earlier version circulated on June 19, 2020. Neither memorandum defines what constitutes “essential” mental health transfers that will continue from closed CDCR institutions.

Policy, Memorandum, or Guidelines	Program Guide or Related Policy Provision	Summary of Departure
	<p>5 to 7, 12-8-9, 12-8-11 to 12, 12-9-2 to 3, 12-9-4 to 5, 12-9-6, 12-9-12 to 14, 12-10-12 to 13, 12-10-19 to 21 (access to higher levels of care).</p> <p>Memo: Creation of Correctional Clinical Case Management System Short Term and Long Term Restricted Housing (Jan. 15, 2015), Program Guide, Appendix C, <i>see</i> ECF No. 5864-1 at 420-24.</p> <p>Memos: Non-Disciplinary Segregation Processing Procedure for Mental Health Services Delivery System Inmates (Aug. 14, 2014), and Implementation of Non-Disciplinary Segregation for Mental Health Services Delivery System Inmates Processing, Procedures, and Required Training (Sept. 2, 2014), Program Guide,</p>	<ul style="list-style-type: none"> • States that mental health transfers from closed facilities “require[] approval from the Director, Health Care Services or designee,” but does not describe what criteria will be applied to approve such transfers or what would constitute an “essential” transfer in this context. • Patients shall continue to be transferred as per the emergency transport criteria as defined in the COVID Emergency Mental Health Treatment Guidance and COVID Temporary Transfer Guidelines and Workflow dated April 10, 2020. • Patients shall be referred to a higher level of care if they “have a condition that is likely to decompensate or unlikely to improve in their current housing” and patients who “cannot receive appropriate treatment because of a lack of local staffing shall continue to be referred to an alternate site.” • Transfers out of institutions closed due to COVID-19 require approval from the Director, Health Care Services or designee. • Potential delays for any patients on layover who “shall remain on layover until further notice.

Policy, Memorandum, or Guidelines	Program Guide or Related Policy Provision	Summary of Departure
	Appendix C, <i>see</i> ECF No. 5864-1 at 495-503	<p>No transports requiring layover should be scheduled.”</p> <ul style="list-style-type: none"> • Transfers from Reception Centers for mental health placements “are suspended until further notice” • Non-disciplinary segregation NDS-200 transfers suspended until further notice.
Memo re 90-Day Supply of Medications for Expedited Releases (July 7, 2020)	<p>Program Guide 12-3-14 (prescribed medication supply for CCCMS patients who parole)</p> <p>Memorandum: Release Planning for Inmates Participating in the Institution’s Mental Health Services Delivery System (Mar. 11, 2010) at 4-5, 6</p>	<ul style="list-style-type: none"> • Permits the provision of a 90-day supply of certain medications for individuals subject to expedited release due to COVID-19 population density reduction measures. • Psychiatric providers are directed to write medication orders, as clinically appropriate and within legal confines, for a 90-day, rather than 30-day, duration for those subject to expedited release.
Memo re Cell-Front Nursing Activities (June 26, 2020)	<p>Program Guide 12-5-32, 12-10-4, 12-10-15 to 19 (describing suicide watch and observation procedures)</p> <p>Memorandum: Level of Observation and Property for Patients in Mental Health Crisis Beds (Mar. 15, 2016) at 2 (describing</p>	<ul style="list-style-type: none"> • Permits IDTTs to recommend that nursing staff provide cell-front activities to patients • Requires these activities to be performed while designated nursing staff are performing 1:1 observations of patients; in the past, nursing staff had only one primary task during 1:1 observation—observing the patient

Policy, Memorandum, or Guidelines	Program Guide or Related Policy Provision	Summary of Departure
	suicide watch as primarily observation)	<ul style="list-style-type: none">• Provides a library of cell-front nursing activities for patients

Introduction

This document outlines, at a high-level, the Roadmap to Reopening major programs within the California Department of Corrections Rehabilitation (CDCR) and California Correctional Health Care Services (CCHCS). In an effort to mitigate the spread of COVID-19, the Departmental Operations Center (DOC) was established to provide statewide oversight and direction for COVID-19 efforts. The following are examples of actions taken to decrease exposure and increase physical distancing in California's prisons:

- Expedited release of inmates.
- Suspended normal visiting.
- Suspended intake from county jails.
- Modified housing assignments in dorm settings to facilitate physical distancing.
- Screening to include both a verbal questionnaire and temperature checks for all individuals entering state prisons.
- Conducted Board of Parole Hearings via videoconference.
- Continued to reinforce the importance of hand-washing and frequent cleaning.
- Provided and mandated the use of reusable cloth barrier masks
- Provided hand sanitizer to staff/inmates.
- Provide face coverings to staff/inmates
- Modified programming at all institutions to increase physical distancing and implemented enhanced cleaning.
- Implemented a screening process for all inmate workers.
- Provided daily updates on the CDCR website to ensure transparent communications with staff, families, stakeholders, and the public.
- Continued communication with local and state authorities to determine current mitigation levels in the community.

The CDCR-CCHCS Roadmap to Reopening incorporates a multi-phased approach to reopen statewide operations, relying on the recommended guidelines set forth by the Centers for Disease Control and Prevention (CDC), the California Department of Public Health (CDPH), and other stakeholders. It is important to note that multiple considerations may affect the speed at which institutions and various program areas reopen. Institutions will continuously evaluate and monitor positive COVID cases and will reinstate precautionary measures, as needed, to protect all of those who live and work in California's prisons. This document is not intended to replace other COVID-related policies, but to work in concert with companion policies. As such, and as an example, specific questions related to transferring of inmates between institutions would be detailed via the CDCR/CCHCS test-and-transfer policy.

Phases Defined

Phase 1: Most restrictive modifications

Phase 2: Ease Phase 1 restrictions

Phase 3: Expand opportunities outside housing units

Phase 4: Return to "new" normal program for all staff and the population

Movement between the phases will be at the discretion of the Warden and Chief Executive Officer who shall report daily to the Department Operations Center (DOC) their current phase, and any plans to move to different phases in subsequent days. Depending on institutional design, movement between phases may apply to the entire institution or individual facilities within an institution, at the discretion of the Warden and CEO. This is to recognize significant differences related to design, dorm/cell housing, and intermixing of inmates and staff in various facilities. Throughout the phases, the Department is committed to ensuring the safety, security, and well-being of all staff and inmates by continuing to perform the precautionary measures listed above.

Factors for Determining Movement from One Phase to the Next

When assessing an institution's readiness to move from one phase to the next, whether loosening or tightening restrictions, the following factors will be considered:

1. Is the institution experiencing a stabilizing or decreasing disease burden for the inmate population? Case Rate:
 - Phase I to II: No new cases on a rolling 14-day cumulative new case rate.
 - Phase II to III: No new cases on a rolling 60-day cumulative new case rate.
 - Phase III to IV: No positive or new cases for a 90-day period.
 - Phase IV: Reopening to new normal operations. Note that this may include continuing precautionary measures such as face coverings, more frequent cleanings, etc.
2. Is the institution able to sustain adequate testing levels to monitor the ongoing health of the institution? If inadequate, remain in Phase 1.
3. Is the institution able to sustain adequate staffing coverage for both custody and nursing posts? If inadequate, remain in Phase 1.
4. Does the institution have access to an adequate supply of personal protective equipment (PPE) and hand sanitizer should an outbreak occur? If inadequate, remain in Phase 1.
5. Has the institution instituted Physical Distancing with the ability to monitor, sustain, and enforce the measures successfully? If inadequate, remain in Phase 1.
6. Ongoing employee testing and contact tracing program in place.

General Operation Provisions

Phase 1

- The institution has a current outbreak – three or more COVID-19 positive patients
- Movement and programming access severely restricted within the individual facility or institution

Phase 2

- The institution has outbreak contained
- Movement and program-area access within the facility or institution eased based on location and COVID status of the inmate population

Phase 3

- No current positive inmates
- Increased movement and program access

Phase 4

- Resumption of pre-COVID-19 programming. Note that this may include continuing precautionary measures such as face coverings, more frequent cleanings, etc.

Health Care Operations

Phase 1

- Essential and critical health care appointments only.

Phase 2

- Careful resumption of routine clinical operations:
 - Episodic non-essential
 - High-risk and chronic care patients
 - Telemedicine (including ISUDT)
 - On-site specialty services

- Allow Mental Health services where physical distancing can be maintained
- Resume Dental

Phase 3

- Resume all clinical operations

Institutional Operations

Phase 1

- The institution is closed to visitors, volunteers, and activities involving outside groups.
- No outside vendors, non-essential contractors, or non-employees permitted on institutional grounds, other than those who are essential for supplying the institution with needed goods.
 - ISUDT Program Providers, including Alcohol And Other Drug (AOD) Counselors; are essential contractors
- Inmate workforce limited to essential functions.
- Yard/feeding with the same population within the same housing unit.
- Limited dayroom access to the same rotating groups. Physical distancing to be maintained.
- No family visiting (overnight visits).
- Limited recreational dayroom access to allow physical distancing.

Phase 2

- Visitation limited to one visitor for one hour, per inmate per month. Tables in visiting rooms must be six feet apart, staggered schedule, mandatory masks, and tables disinfected between visits.
- Outside vendors, non-essential contractors, or non-employees may be permitted.
- Inmate workforce limited to essential functions.
- Continue yard/feeding access with the same population groups cohort.
- Continue limited dayroom access to the same rotating groups. Physical distancing to be maintained.
- Family visiting still prohibited.

Phase 3

- Expand visitation to allow two visitors to visit for one hour per inmate, twice per month. Tables set six feet apart, staggered schedule, mandatory masks, and tables disinfected between visits.
- Inmate workforce may be expanded beyond essential functions.
- Expand yard access to up to two housing units at a time or by isolated/quarantined, orientation status, or general population status cohorts.
- Expand dayroom access to allow for more inmates while ensuring they maintain physical distance.
- Re-open family visiting to allow for one family visit per week, per family visiting unit.

Inmate Programs

Rather than prescribing a particular response to apply to all, individual institutions shall adapt to their local, changing needs. To that end, the roadmap conceptualizes many potential programming options as a “menu” from which institutions may select the program delivery methods which meet current operational and safety needs within the phased guidelines. These options include reduced group sizes, staggered schedules, outdoor, or programming in other non-traditional spaces to allow for physical distancing, tents, canopies, or modified hours. Best practices and solutions will be collected and shared with all institutions to add to the operations menu. The Division of Rehabilitative Programs (DRP) will

work with the In-Prison DRP CCIII to collect data on the conditions, and rationale leading to each institutional program decision and modification for historical and reporting purposes.

Phase 1

- All students receive independent study packets and teachers telework 2-4 days per week.
- Active Integrated Substance Use Disorder Treatment (ISUDT) participants receive Program Engagement Packets from ISUDT AOD Counselors.
- Inmates with legal deadlines may go to the law library so long as physical distancing is maintained. All others may request books, forms, and paging for library and law library access.
- Students may be administered educational assessments with approval from the Warden.
- The following programs remain closed: Offender Mentor Certification Program and Innovative Grants Program/Arts in Corrections.

Phase 2

- Law library limited to paging and where physical distancing can be achieved.
- Blended instruction: The number of students in class will be dependent on appropriate physical distancing. The remainder of students will receive independent study while not in class.
- Students shall be administered educational assessments if physical distancing permits.
- ISUDT Allow for Integrated/ Offender Mentor Certification Program services to resume in a group setting, but not to exceed a 1:6 ratio. Institutions may exceed these ratios if reasonable alternatives such as outdoor programming are available.
- Arts in Corrections/Innovative Grants Program/Inmate Self Help Groups where appropriate capacity exists to allow physical distancing.

Phase 3

- Continue blended instruction: Number of students in class will depend on appropriate physical distancing. The remainder of students will receive independent study while not in class.
- Inmates may use the library and law library, physical distancing permitting.
- Inmates are administered educational assessments, physical distancing permitting.
- ISUDT continues as in Phase 2. Integrated/Interventions for Sexual Offenders Program/Offender Mentor Certification Program services in a group setting using program option 'menu'.
- Expand reopening of Arts in Corrections/Innovative Grants Program/Inmate Self Help Groups by allowing the institution discretion to allow volunteers to return. Continue physical distancing.

Exhibit A

Updated Draft COVID Temporary Guidelines for Transfer to DSH Inpatient Care

July 16, 2020

I. Clinical referral Process

- a) CDCR will upload referral packets to SharePoint and notify DSH of the names of referrals. This action initiates Program Guide transfer timelines which will be reported as such beginning with the date these guidelines are implemented.
- b) Referrals will be shared with the Coleman Special Master Expert small workgroup team and may be discussed in small workgroup team meetings.
- c) If DSH has clinical questions or concerns regarding a referral, the DSH Medical Director designee and the CDCR clinical designee will consult regarding the case. CDCR may rescind referrals it determines to be not clinically appropriate after this discussion.
- d) If the two designees are not able to agree regarding the disposition of a case, the case will be forwarded to the DSH medical director and the CDCR Chief Psychiatrist for resolution. This consultation shall result in acceptance, rescission or lack of consensus of the referral.
- e) If there is no consensus reached, the referral will follow normal rejection procedures as per the MOU to include CCAT.
- f) All rejections shall also be reviewed by the Coleman Special Master Expert small workgroup.
- g) DSH will provide the list of accepted patients to the IRU.
- h) CDCR will order a COVID-19 test and quarantine those patients who have been accepted.
- i) Once a negative COVID-19 test is obtained, CDCR shall promptly endorse the patient to DSH per the program guide and DSH will issue an Acceptance Transfer Chrono for accepted patients in accordance with section I.m and section IV of these guidelines, utilizing the admission protocol.
- j) Immediately prior to transfer the patient will undergo the current COVID-19 medical screening as outlined in Section III below.
- k) The COVID-19 test results, the date of the test, the date of the result, and screening results shall be promptly communicated to the receiving DSH institution's Medical Director prior to transfer.
- l) COVID-19 test results and COVID-19 screening shall be prominently and clearly communicated in the referral packet so that the receiving institution's Medical Director receives this information prior to transfer.
- m) DSH shall follow the newly developed DSH COVID-19 Admission Protocol delineated in Section IV.
- n) For referrals from Closed Institutions the following process shall apply:
 - On a rare case by case basis, patients at facilities that have been closed to movement due to COVID-19 outbreaks may be considered for transfer from CDCR to DSH.
 - Details will be discussed between the CDCR/CCHCS Director of Health Care Services, and the DSH Deputy Director of Clinical Operations, or

qualified physician designees. The discussion will include relevant public health information such as potential exposure to infected employees and/or inmate patients, effects of physical plant on exposure risk, availability and use of PPE, status of serial location-based testing, floating of staff to and from relevant units, etc.

- If all parties agree exposure risk is low, the patient will be quarantined for 14 days, with testing at day 5-7 and retested at day 14. On day 14, the medical director at the sending institutions must call the medical director at the receiving institution to discuss interim exposure risks. This conference will be facilitated by the CDCR statewide Chief Psychiatrist.

II. DSH Discharges to CDCR

- a) DSH will send a weekly list of patients who are ready for discharge to CDCR's Inpatient Referral Unit (IRU) and put the COVID screen and discharge packet on SharePoint.
- b) Immediately prior to transfer the patient will undergo the current COVID-19 medical screening as outlined in Section III below and shall be tested for COVID.
- c) The COVID-19 test results, the date of the test, the date of the result, and screening results shall be promptly communicated to the receiving CDCR institution's Medical Director prior to transfer.
- d) Prior to transport IRU will ensure that the Chief Medical Executive at the receiving facility is notified and prepared to accept the arrival of the patient.
- e) Transport shall be held until the IRU notifies the Classification and Parole Representative that the CME has approved transport.

III. Information to be provided as a part of current COVID-19 pre-transfer medical evaluation

- a) Referring Institution
- b) Receiving Institution
- c) Does the patient have a new or worsening cough? [Y/N]
- d) Does the patient have a fever (>100 F)? [Y/N]
- e) Is the patient experiencing new or worsening shortness of breath? [Y/N]
- f) Is the patient currently on isolation? [Y/N]
- g) Is the patient currently on quarantine? [Y/N]
- h) Is the patient known to be a contact of a confirmed COVID -19 case? [Y/N]
- i) Include the patient's vitals for the last 14 days as available

IV. DSH COVID-19 Admission Protocol

All new admissions to DSH will follow the following protocol:

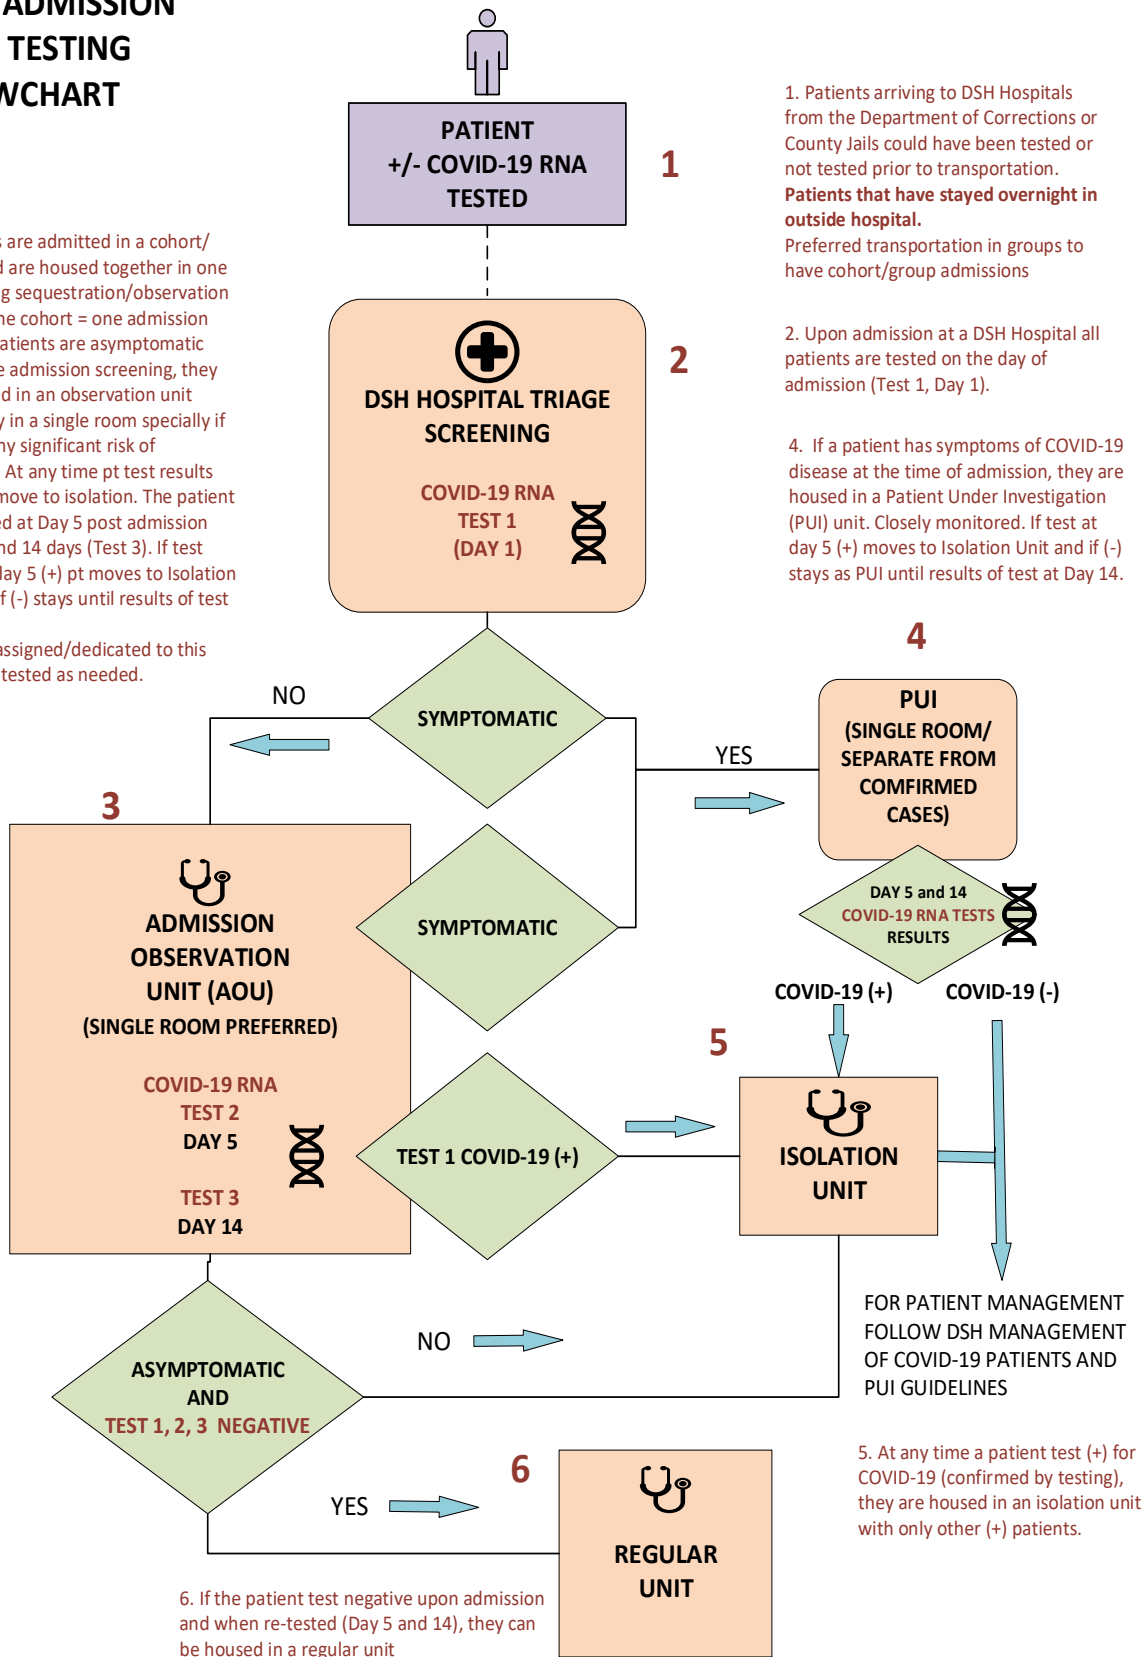

DSH ADMISSION AND TESTING FLOWCHART

3. Patients are admitted in a cohort/group and are housed together in one unit during sequestration/observation period (one cohort = one admission unit). If patients are asymptomatic during the admission screening, they are housed in an observation unit preferably in a single room specially if there is any significant risk of exposure. At any time pt test results (+), they move to isolation. The patient is re-tested at Day 5 post admission (Test 2) and 14 days (Test 3). If test result at day 5 (+) pt moves to Isolation Unit and if (-) stays until results of test at day 14. Staff are assigned/dedicated to this units and tested as needed.

1. Patients arriving to DSH Hospitals from the Department of Corrections or County Jails could have been tested or not tested prior to transportation. **Patients that have stayed overnight in outside hospital.** Preferred transportation in groups to have cohort/group admissions

2. Upon admission at a DSH Hospital all patients are tested on the day of admission (Test 1, Day 1).

4. If a patient has symptoms of COVID-19 disease at the time of admission, they are housed in a Patient Under Investigation (PUI) unit. Closely monitored. If test at day 5 (+) moves to Isolation Unit and if (-) stays as PUI until results of test at Day 14.

CALIFORNIA CORRECTIONAL HEALTH CARE SERVICES

MEMORANDUM

Date: July 7, 2020

To: CCHCS Systemwide Pharmacy and Therapeutics Committee, Regional Health Care Executives, Chief Executive Officers, Chief Nurse Executives, Chief Medical Executives, Chiefs of Mental Health, Chief Physician and Surgeons, Chief Support Executives, Correctional Health Services Administrators, Deputy Medical Executives, Health Program Manager IIIs, Pharmacists in Charge, Chiefs of Psychiatry, Senior Psychiatrists and Telepsychiatry Leadership, Directors of Nursing, and Supervising Dentists

From: Michael Arca, Assistant Deputy Medical Executive, Clinical Operations Chair, Systemwide Pharmacy and Therapeutics Committee

Subject: 90-DAY SUPPLY OF MEDICATIONS FOR EXPEDITED RELEASES

On July 6, 2020, the Systemwide Pharmacy and Therapeutics Committee approved the provision of a 90-day supply of medications to inmates under expedited release with the exception of controlled substances and other medications subject to regulatory restriction, effective immediately wherever feasible.

The expedited release program is intended to expand physical distancing within the facilities. Because of the urgency, medical and psychiatric providers are directed to write medication orders, if clinically appropriate and if within the legal confines, for a 90-day duration (instead of for the usual 30 days) for patients who are part of the expedited release program. This temporary measure provides additional time to arrange for healthcare services within the community.

You are directed to train institutional clinical staff to implement.

CALIFORNIA CORRECTIONAL HEALTH CARE SERVICES

MEMORANDUM

Date: June 26, 2020

To: Chief Executive Officers
Chief Nurse Executives
Chiefs of Mental Health
Regional Health Care Executives

From:

BARBARA BARNEY-KNOX, MBA, MA, BSN, RN
Deputy Director (A), Nursing
Statewide (A) Chief Nurse Executive

EUREKA C. DAYE, Ph.D., MPH, MA, CCHP
Deputy Director (A)
Statewide Mental Health Program

Subject: CELL-FRONT NURSING ACTIVITIES

Due to outbreaks of communicable diseases, the Interdisciplinary Treatment Team (IDTT) may recommend that nursing staff provide cell-front activities to a patient. These activities shall be performed by a licensed or certified nursing staff who is performing the 1:1 observation. A library of structured nursing activities has previously been provided to allow any nursing staff, including CNAs, to provide cell-front activities to patients who are in Temporary Mental Health Unit (TMHU) or enhanced level of care. A link to these activities is included at the end of this memo. There may be changes to current practices as staff who have previously only monitored for safety during 1:1s, shall now be directed to also interact with the patients during their observation. Historically, those performing the observations primarily only had one task, to ensure the safety of the patient.

Institutions are directed to present to their local governing body, within 14 days of issuance of this memo, a Local Operating Procedure (LOP) for Cell-front Nursing Activities. See sample LOP attached which includes all primary elements.

Training material and the activity library are currently available on Lifeline at the following address: <http://lifeline/HealthCareOperations/NursingServices/Pages/Resources.aspx> under Training Materials, Training: MH. Statewide webinars were previously provided to nursing staff. It is recommend that training be provided for Mental Health providers and reinforcement training provided to nursing staff. The training webinar is also located at the link above.
